Item 2.02 Results of Operations and Financial Condition

On April 3, 2006, Core Laboratories N.V. issued a press release updating its previously issued forward-looking guidance for its 2006 first and second fiscal quarters and full year. A copy of the press release is attached to this Report as Exhibit 99.1.

The information in this Report and the exhibit attached hereto shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), nor shall they be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly stated by specific reference in such filing.

In addition to financial results determined in accordance with generally accepted accounting principles ("GAAP") that are included in the attached press release, certain non-GAAP financial measures (as defined under the SEC's Regulation G) were used in the press release:

Non-GAAP Financial Measures Included In Press Release

- * **Earnings per Diluted Share, Excluding FAS 123R Costs; or Earnings per Diluted Share, Excluding FAS 123R Costs and Senior Note Prepayment Costs:**
Management believes that the exclusion of certain expenses and credits enables it to evaluate more effectively the Company's operations period-over-period and to identify operating trends that could otherwise be masked by the excluded items. For this reason, we used certain non-GAAP measures that exclude these non-recurring items; we felt that presentation provides the public a clearer comparison with the numbers reported in prior quarters.
- * **Incremental Operating Margins:** Incremental operating margins is computed as (1) the increase or decrease in income from continuing operations before equity-based stock compensation, interest expense and income tax expense between two periods, divided by (2) the increase or decrease in revenues between the same two periods. Management believes that incremental operating margins provide useful information regarding the growth over the two periods being compared.

The following tables reconcile non-GAAP measures included in the press release to the most comparable GAAP measures:

Reconciliation of Diluted Earnings Per Share

Forecasted First Fiscal Quarter 2006	Low end of range	(Unaudited)	High end of range
