**PART III****ITEM 8A. CONTROLS AND PROCEDURES**

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our Securities Exchange Act of 1934 reports are recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and that such information is accumulated and communicated to our management, including our chief executive officer and chief financial officer, as appropriate, to allow timely decisions regarding required disclosure. Within 90 days prior to the date of this report, our management carried out an evaluation, under the supervision and with the participation of our management, including our chief executive officer and chief financial officer, of the effectiveness of the design and operation of our disclosure controls and procedures pursuant to Exchange Act Rule 15d-14. Based upon the foregoing, our chief executive officer and chief financial officer concluded that our disclosure controls and procedures are effective in connection with the filing of this Annual Report on Form 10-KSB for the year ended June 30, 2006.

Because of the nature of a development company, our affairs are simple and so are our books and records, as well as our controls and procedures. We add an additional level of financial transparency by offering all our registered shareholders access to our books and records for two hours each week. Other interested parties (upon application to the President or Secretary) may view the books and records for an hour per month, given any plausible business reason for doing so, other than to compete with us. We reserve the right to limit access, and to preserve the confidentiality of third parties. So far, we have had no such requests to peruse our files.

There were no changes in our internal controls or in other factors that has materially affected, or is reasonably likely to materially affect, these controls subsequent to the date of their evaluation, including any deficiencies or material weaknesses of internal controls that would require corrective action.
