- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

## **Performance Technologies Announces Agreement to Outsource Manufacturing of its Printed Circuit Board Assembly**

ROCHESTER, NY December 29, 2009 -- Performance Technologies, Inc. (NASDAQ: PTIX), a leading developer of communication platforms and systems, today announced that it has entered into an agreement with Mack Technologies, Inc. ( MTI ) of Westford, Massachusetts whereby MTI will supply the printed circuit board assembly for the hardware elements of the Company's products, currently performed by the Company in its Rochester, New York facility. The transition of this element of the Company's current manufacturing operations to MTI is expected to be accomplished over the course of 2010 with completion targeted for no later than December 31, 2010. The Company will continue its system-level integration, configuration and quality assurance activities at its Rochester facility.

Based on our strategic assessment of the Company's direction and business objectives, we have made the decision to outsource manufacturing of our printed circuit board assemblies, said John M. Slusser, president and chief executive officer. After a careful evaluation and analysis, we have selected a world-class manufacturing organization, Mack Technologies, as our partner in this endeavor. We are confident that upon its completion, this move will make our product costs more predictable and reduce our capital expenditure requirements. We also believe that we will greatly enhance our ability to continue to offer cutting-edge technologies in our product lines without sacrificing our high standards of quality. While this will be a change to our historical printed circuit board assembly approach, it is the typical approach for most of the peers and competitors in our end markets.

In connection with this action, the Company expects to gradually reduce its Rochester workforce by approximately twenty employees. Restructuring charges associated with this action are estimated to be in the range of \$250,000 to \$350,000 and will be recorded during 2010.

MTI has earned a 5A1 D&B rating, the highest available rating, has no long-term debt and finances its business activities and growth from operations. MTI is primarily focused on telecommunications and government business and is consistently ranked among the top 100 contract manufacturers in the world.

### **About Performance Technologies ([www.pt.com](http://www.pt.com))**

Performance Technologies (NASDAQ: PTIX) is a global supplier of advanced network communications and control solutions to end users, application developers and original equipment manufacturers that serve mission critical telecommunications, aerospace and defense markets. The Company provides remotely manageable, IP-centric network elements specifically engineered for high availability, scalability, and long life cycle deployments. Its products are built upon its own U.S. manufactured hardware combined with the Company's NexusWare® Carrier Grade Linux® operating system and software development environment plus a broad suite of communications protocols and high availability middleware. Performance Technologies' product portfolio includes the SEGway suite of Signaling (SS7/SIP) Transfer Points, Signaling Gateways and Bridges, and its IPnexus® family of COTS-based application ready systems, WAN gateways, and multi-protocol communications servers.

Performance Technologies maximizes the value proposition of its products by leveraging its field proven systems, software and hardware technologies developed over a twenty-eight year record of demonstrated innovation. A tightly integrated combination of these technologies results in measurable benefits to its customers through compelling return-on-investment and substantially accelerated time to market metrics. The Company is headquartered in Rochester, New York and maintains centers of engineering excellence in San Diego and San Luis Obispo, California, and Kanata, Ontario, Canada. It has sales and marketing offices in the U.S. in Raleigh, Chicago, Dallas, and San Jose and international offices in London, England and Shanghai, China.

### **Forward-Looking Statements**

The Private Securities Litigation Reform Act of 1995 provides a "safe harbor" for certain forward-looking statements. This press release contains forward-looking statements which reflect the Company's current views with respect to future events and financial performance, within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934 and is subject to the safe harbor provisions of those Sections. The Company's future operating results are subject to various risks and uncertainties and could differ materially from those discussed in the forward-looking statements and may be affected by various trends and factors which are beyond the Company's control. These risks and uncertainties include, among other factors, business and economic conditions, rapid technological changes accompanied by frequent new product introductions, competitive pressures, dependence on key customers, inability to gauge order flows from customers, fluctuations in quarterly and annual results, the reliance on a limited number of third party suppliers, limitations of the Company's manufacturing capacity and arrangements, the protection of the Company's proprietary technology, the dependence on key personnel, changes in critical accounting estimates, potential impairments related to goodwill and investments, foreign regulations, and potential material weaknesses in internal control over financial reporting. In addition, during weak or uncertain economic periods, customers' visibility deteriorates causing delays in the placement of their orders. These factors often result in a substantial portion of the Company's revenue being derived from orders placed within a quarter and shipped in the final month of the same quarter. Forward-looking statements should be read in conjunction with the audited Consolidated Financial Statements, the Notes thereto, Risk Factors, and Management's Discussion and Analysis of Financial Condition and Results of Operations of the Company as of December 31, 2008, as contained in the Company's Annual Report on Form 10-K, and other documents filed with the Securities and Exchange Commission.
