State below in reasonable detail why Forms 10-K, 20-F, 11-K, 10-Q, 10-D, N-SAR, N-CSR, or the transition report or portion thereof, could not be filed within the prescribed time period.

New Concept Energy, Inc. is unable to file its Annual Report on Form 10-K for the year ended December 31, 2008, without unreasonable effort and expense due to the late receipt of information required from consolidated subsidiaries and the Company's Annual Report of Oil and Gas Reserves. The Company has engaged a third party petroleum engineering consultant to prepare its Annual Report of Oil and Gas Reserves and the report will not be completed before required filing date of the Form 10-K.

If answer is no, identify report(s). YES NO

(3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or portion thereof?

YES NO

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

Net income for the year ended December 31, 2008 is anticipated to be approximately \$15 million as compared to \$62,000 for the year ended December 31, 2007.

Edgar Filing: New Concept Energy, Inc. - Form NT 10-K

The principal reason for the increase is due to the sale of mineral interests in Arkansas in the second quarter which generated a before tax cash profit of \$16.4 million. In 2007 the company had a \$750,000 gain on the sale of assets.

Interest income in 2008 increased by \$673,000 when compared to 2007. The increase was due in a large part to the interest earned on the cash received in the sale of mineral rights noted above.

Other income increased in 2008 by \$322,000 when compared to 2007 due principally to the collection of certain receivables that were previously written off.

Effective September 1, 2008 the Company acquired approximately 20,000 acres of mineral rights in West Virginia along with land, buildings and approximately 120 operating wells generating principally natural gas. The net revenue for the four months ended December 31, 2008 was approximately \$672,000.

As described in Part III above, the Company has engaged a third party petroleum engineering consultant to prepare its Annual Reserve Report. The final report has not been delivered in time to incorporate its results into the Company's Annual Report Form 10-K. The impact of the results of the calculation of the Company's oil and gas reserves as of December 31, 2008 to be reported by the third party petroleum engineering consultant is not determinable at this time, and an estimate of the profit and loss effect compared to the year ended 2007 cannot accurately be determined at this time.
