PROXY STATEMENT FOR ANNUAL MEETING OF STOCKHOLDERS

To Be Held on May 22, 2003

General

The enclosed proxy is solicited on behalf of the Board of Directors of Southwall Technologies Inc. (the "Company") for use at the Annual Meeting of Stockholders (the "Annual Meeting") to be held on May 22, 2003 and at any adjournments of that meeting, at which stockholders of record on April 24, 2003 (the "record date") will be entitled to vote. The specific proposals to be considered and acted upon at the Annual Meeting are summarized in the accompanying Notice and are described in more detail in this Proxy Statement.

Each properly signed proxy will be voted in accordance with the instructions contained therein, and, if no choice is specified, the proxy will be voted in favor of the proposals set forth in the Notice of Annual Meeting. Only holders of the Company's common stock, \$.001 par value (the "Common Stock"), of record on the stock transfer books of the Company at the close of business on the record date will be entitled to vote at the meeting. There were approximately 12,527,000 shares of Common Stock issued, outstanding and entitled to vote on the record date. No shares of the Company's preferred stock were outstanding on the record date.

Each stockholder is entitled to one vote for each share of Common Stock held. For purposes of matters before the Annual Meeting, under the Company's By-Laws, a quorum consists of a majority of the issued and outstanding shares entitled to vote on such matters as of the record date. The affirmative vote of the holders of a plurality of the shares represented at the meeting, if a quorum is present, is required for the election of directors. If a quorum is present, approval of each other matter that is before the meeting will require the affirmative vote of the holders of a majority of votes cast with respect to such matter. With regard to the election of directors, votes may be cast in favor of or withheld from each

Edgar Filing: SOUTHWALL TECHNOLOGIES INC /DE/ - Form DEF 14A

nominee. Votes that are withheld will be excluded entirely from the vote and will have no effect. Abstentions may be specified on all proposals, except the election of directors, and will be counted as present for purposes of determining the existence of a quorum regarding the item on which the abstention is noted. If shares are not voted by the broker who is the record holder of the shares, or if shares are not voted in other circumstances in which proxy authority is defective or has been withheld with respect to any matter, these non-voted shares are not deemed to be present or represented for purposes of determining whether stockholder approval of that matter has been obtained.

The Company intends to mail this Proxy Statement and the accompanying proxy card on or about April 30, 2003 to all stockholders entitled to vote at the Annual Meeting. The Company's Annual Report to Stockholders for the year ended December 31, 2002 is being mailed together with this Proxy Statement. The Annual Report does not constitute any part of this Proxy Statement.

Revocability of Proxies

Any person giving a proxy pursuant to this solicitation has the power to revoke it at any time before it is voted. It may be revoked by the holder of record by filing with the Secretary of the Company at the Company's principal executive office, 3975 East Bayshore Road, Palo Alto, California, 94303, a written notice of revocation or a duly executed proxy bearing a later date, or it may be

revoked by the holder of record attending the Annual Meeting and voting in person. Attendance at the Annual Meeting will not, by itself, revoke a proxy.

Transactions Involving Officers and Directors

In April 1997, the Company entered into a development and technology agreement with Energy Conversion Devices, Inc. ("ECD"). Robert C. Stempel, a director of the Company since May 2000, is the Chairman of ECD. This agreement provides that the Company will pursue with ECD the commercialization of the process of sputter coating on flexible substrates using PECVD processes. The agreement further provides that the Company will pay ECD a royalty in an amount based upon the sales volume of product produced through the PECVD process. The Company agreed to pay to ECD 2.25% of net sales received by the Company in connection with PECVD technology for five years and 1.25% of net sales after that. To date, the process has not been commercialized and the Company has not paid ECD royalties under the agreement. In February 1999, the Company entered into an equipment purchase contract with ECD pursuant to which ECD agreed to modify one of the Company's production machines (PM 7) so that the machine would produce the Company's products by means of the PECVD process. The Company paid ECD approximately \$10,000 in 2000, \$29,000 in 2001 and nothing in 2002 in connection with its conversion of PM 7 to the use of PECVD technology.

During 1998, 1999, 2000, 2001 and 2002, the Company lent \$43,875, \$25,313, \$0, \$18,750 and \$14,700, respectively, to Thomas G. Hood, the Company's President and Chief Executive Officer and a director, to permit him to exercise stock options that were about to expire at a time when he was not able to sell the shares issuable upon exercise to pay the exercise price. The indebtedness is represented by full recourse notes payable to the Company, which are due on June 30, 2003, each bearing interest at the rate of 7.0% per annum. The largest amount of indebtedness outstanding under these notes at any time during 2002 was \$126,345. As of December 31, 2002, the aggregate amount of indebtedness under Mr. Hood's notes was \$126,345, including interest.

In December 2002, the Company's former Senior Vice President and Chief Financial Officer, Mr. Robert R. Freeman, resigned from the Company. In accordance with Mr. Freeman's employment agreement, the Company paid severance to him of \$115,000, equivalent to six months' salary, and agreed to provide him with benefits for six months.

The Company believes that all transactions described above were made on terms no less favorable to it than would have obtained from unaffiliated third parties. Future transactions, if any, with the Company's executive officers, directors and affiliates will be on terms no less favorable to the Company than could be obtained from unrelated third parties and will be approved by a majority of the Board of Directors and by a majority of the Company's disinterested directors.

Option grants were made under the Company's 1997 Stock Incentive Plan. All of the options vest in seven equal annual installments, beginning one year after the grant date. In the event of certain corporate transactions such as an acquisition or sale of the Company's assets, the outstanding options of the Company's Named Executive Officers will become immediately exercisable for fully vested shares of common stock, unless the options are assumed or substituted with a comparable option by the acquiring company or its parent. In any event, the Company's Human Resources Committee may accelerate the vesting of outstanding options upon certain corporate transactions or involuntary terminations following a corporate transaction.

- (2) The Company granted all options at an exercise price per share equal to the fair market value of the common stock on the date of grant. The exercise price may be paid in cash or cash equivalents, in shares of the underlying common stock valued at fair market value on the exercise date or in a same-day sale program with the assistance of a designated brokerage firm.
- (3) The potential realizable values at assumed 5% and 10% annual rates of compounded stock price appreciation for the terms of the options are based on the fair market value or deemed fair market value of the common stock used by the Company for accounting purposes, as applicable, and do not represent the Company's estimates or projections of its future stock prices. Actual gains, if any, on stock option exercises will be dependent on the future performance of the Company's common stock.
- (4) The options granted to Mr. Freeman in 2002 terminated upon his resignation from the Company in December 2002.

Aggregated Option Exercises in Last Fiscal Year and Fiscal Year-End Option Values

The following table sets forth information concerning option exercises and unexercised stock options for 2002, with respect to each Named Executive Officer. The Company determined the value of unexercised in-the-money options by calculating the difference between the exercise price per share payable upon exercise of these options and the closing price of the Company's common stock on the Nasdaq National Market at December 31, 2002, which was \$3.13 per share. The value realized has been calculated by determining the difference between the exercise price per share paid upon exercise of the

10

options and the closing price of the Company's common stock on the Nasdaq National Market on the date of exercise of the options.

Securities Authorized for Issuance Under Equity Compensation Plans

The following table sets forth information as of December 31, 2002, regarding the 1997 Stock Incentive Plan, 1998 Stock Option Plan for Employees and Consultants (the "1998 Plan") and 1997 Employee Stock Purchase Plan. The Company's stockholders previously approved the 1997 Stock Incentive Plan and the 1997 Employee Stock Purchase Plan and all amendments that were subject to stockholder approval.

The 1998 Plan has not previously been approved by the Company's stockholders. The 1998 Plan, adopted by the Company's Board of Directors in August 1998, reserved an aggregate of 250,000 shares of common stock for issuance, and the number of shares reserved for issuance under the plan automatically increases at the beginning of each year by 150,000. Only non-officer employees and consultants and other independent advisors are eligible to receive grants under the 1998 Plan. No one person under the 1998 Plan may receive options for more than 50,000 shares in any calendar year. The 1998 Plan is administered by the Human Resources Committee, which has the authority to construe and interpret the plan and any agreement made under the plan, grant awards and make all other determinations necessary or advisable for the

Edgar Filing: SOUTHWALL TECHNOLOGIES INC /DE/ - Form DEF 14A

administration of the plan. The 1998 Plan is divided into two separate equity programs: a discretionary option grant program and a stock issuance program. Under the discretionary option grant program eligible persons may be granted options to purchase common stock. The exercise price, which shall be at least 85% of fair market value, the vesting, the term and other provisions of such options are determined by the Human Resources Committee. The vesting of options held by non-officer employees under the 1998 Plan automatically accelerates upon certain change of control transactions unless such options are assumed or replaced by the surviving corporation. Under the stock issuance program of the 1998 Plan, eligible persons may be issued shares of common stock directly, either through the immediate purchase of such shares or as a bonus for services rendered to the Company. The purchase price for shares under the stock issuance program will be at least fair market value. The Human Resources Committee will determine the vesting, if any, and

11

other provisions of such stock issuances. Any rights of the Company to repurchase shares under the stock issuance program will terminate automatically upon certain change of control transactions.

	Number of Shares of Common Stock to be Issued Upon Exercise of Outstanding Stock Options (a)	Weighted-Average Exercise Price of Outstanding Stock Options (b)	Number of Shares of Common Stock Remaining Available for Future Issuance (excluding those in column (a)) Under the Stock Option Plans (c)
Plan Approved by Stockholders:			
1997 Stock Incentive Plan (1)	1,335,548	\$ 4.75	319,875
1997 Employee Stock Purchase Plan (2)			
Plans Not Approved by Stockholders:			
1998 Stock Option Plan for Employees and Consultants (1)	599,670	\$ 6.33	283,107
Total	1,935,218	\$ 5.24	602,982

(1) In addition to the issuance of stock options, each of the 1997 Stock Incentive Plan and the 1998 Plan allows for the issuance of stock and restricted stock.

(2) A total of 325,000 shares of Common Stock are reserved for issuance under the 1997 Employee Stock Option Plan. Through April 30, 2003, the Company had issued 226,563 shares under the 1997 Employee Stock Purchase Plan. In addition, an offering period under the Plan is currently in effect and scheduled to expire on May 31, 2003, on which date the Company will issue an additional number of shares to be determined at such time.

Severance Agreements

The Company has a severance policy that covers all of its officers, including the Named Executive Officers (other than Mr. Freeman, who ceased to be covered by the policy upon his resignation from the Company in December 2002), and some of its key employees, under which they may become entitled to special benefits in connection with certain changes in control of the Company affected by merger, liquidation or tender offer.

Under the policy, each participant may become entitled to a lump sum severance payment upon his or her involuntary termination within 24 months after a change in control. The cash payment will be equal to (i) in the case of the Company's chief executive officer, two times the sum of the chief executive officer's annual rate of base salary in effect at the time of his or her involuntary termination plus the bonuses earned by him or her for the immediately preceding fiscal year and (ii) in the case of each other participant, between one and one and one-half times, as

determined by the Company's Board of Directors, the sum of the participant's annual rate of base salary in effect at the time of his or her involuntary termination plus the bonuses earned by him or her for the immediately preceding fiscal year. In addition, the amount paid to each participant will be grossed up if the amount received by the participant is subject to federal excise tax as an "excess parachute payment."

If benefits had become due as of December 31, 2002 under the severance policy, the maximum cash amounts payable to each of the Named Executive Officers would be as follows: Mr. Hood, \$540,000; Mr. Heinze, \$262,000; Mr. Lairson \$262,000; Mr. Lama \$262,000; and Mr. Westra, \$390,000. Mr. Freeman, who resigned prior to December 31, 2002, would not have been entitled to any payment under the severance policy.

12

COMPENSATION COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

The Company's Human Resources (compensation) Committee is composed of Joseph B. Reagan, Bruce J. Alexander and Noriyuki Nakamura. After the Annual Meeting, the Company expects to fill the seat previously held by Mr. Alexander on the Human Resources Committee. Neither Dr. Reagan nor Mr. Nakamura has at any time since the Company's formation been an officer or employee of the Company. From February 1982 to July 1991, Mr. Alexander held various positions with the Company, including Executive Vice President, Vice Chairman of the Board, Chairman of the Board, Chief Executive Officer and Chief Financial Officer. None of the Company's executive officers currently serves, or in the past has served as a member of the Board of Directors or compensation committee of any entity that has one or more executive officers serving on the Company's Board of Directors or Human Resources Committee.

13

HUMAN RESOURCES COMMITTEE REPORT ON EXECUTIVE COMPENSATION

It is the duty of the members of the Company's Board to set the base salary of certain executive officers and to administer the Company's benefit plans. In addition, the Board approves the individual bonus programs to be in effect for certain executive officers each fiscal year. The Board acts pursuant to recommendations of the Human Resources Committee. The Human Resources Committee administers the Company's 1997 Stock Incentive Plan, and the 1998 Stock Option Plan for Employees and Consultants under which stock option grants may be made to such officers, other key employees, and consultants. The Human Resources Committee held four meetings during 2002.

For 2002, the Board established the compensation payable to Mr. Hood, President and Chief Executive Officer; and all other executive officers of the Company.

General Compensation Policy. The Company's executive compensation policy is competitive in order to recruit, retain and motivate people of needed capabilities. For executives, the Company strives to link total compensation to performance. Base compensation, benefits and perquisites are intended to be competitive. Incentive compensation is provided in the form of cash bonuses and stock options. The Company anticipates that the compensation levels of its executive officers will generally be reviewed in the early part of each fiscal year.

Factors. Several of the more important factors that were considered in establishing the components of each executive officer's compensation package for 2002 are summarized below.

Base Salary. The base salary for each executive officer is set on the basis of personal performance and salary levels for comparable positions at companies with revenue levels comparable to that of the Company. Information regarding comparable salary levels is obtained from published surveys of companies that may or may not be in industries comparable to that of the Company. Generally, the Company targets base salaries at the mid-point of such market data.

Annual Incentive Compensation. The annual pool of bonuses for executive officers is determined solely on the basis of the Company's achievement of the financial performance targets established at the start of the fiscal year. Actual bonuses paid reflect an individual's accomplishment of both corporate and functional objectives, with substantially greater weight being given to achievement of corporate rather than functional objectives. In particular, approximately 70% of an executive's target bonus is based on achieving corporate objectives and the balance on achieving the executive's functional objectives, such as profitability improvement, asset management, market position, product leadership and key projects. These factors are evaluated on a subjective basis without specific weighting.

Long-Term Incentive Compensation. In 2002, the Human Resources Committee approved stock option grants to each of the Named Executive Officers under the Company's 1997 Stock Incentive Plan. The grants are designed to align the interests of each of the Named Executive Officers with those of the stockholders and provide each such individual with a significant incentive to manage the Company from the perspective of an owner with an equity stake in the Company. The decision to award options to certain officers and the number of shares subject to each such option grant was based upon the officer's type and level of function, criticality of function, contribution and performance against objectives as described above. The Committee considers the number of options already held by executives when approving new options to executives. Each option grant allows the officer to acquire shares of Common Stock at a fixed price per share (the market price on the grant date) over a specified period of time (up to seven years). Accordingly, the option will provide a return to the executive officer only if the market price of the Common Stock appreciates over the option term.

CEO Compensation. The annual base salary for 2002 for the Company's President and Chief Executive Officer, Mr. Hood, was established primarily on the basis of Mr. Hood's personal

14

performance and the range of base salaries paid to the chief executive officers of companies with comparable revenue levels. Mr. Hood's 2002 salary was within the range of base salaries paid to the chief executive officers of comparable companies. The option grants made to Mr. Hood that were based upon his position and a subjective evaluation of his performance, were intended to place a significant portion of his total compensation at risk, since the options will have no value unless there is appreciation in the value of the Common Stock over the option term.

Deduction Limit for Executive Compensation. Section 162(m) of the Internal Revenue Code of 1986, as amended, limits federal income tax deductions for compensation paid after 1993 to the chief executive officer and the four other most highly compensated officers of a public company to \$1 million per year, but contains an exception for performance-based compensation that satisfies certain conditions. The Company does not believe that the components of the Company's compensation will be likely to exceed \$1 million per year for any executive officer in the foreseeable future and, therefore, concluded that no further action with respect to qualifying such compensation for federal income tax deductibility was necessary at this time. In the future, the Company will continue to evaluate the advisability of qualifying its executive compensation for such deductibility. The Company's policy is to qualify its executive compensation for deductibility under applicable tax laws as practicable.

REPORT OF THE AUDIT COMMITTEE

The Audit Committee oversees the Company's financial reporting process on behalf of the Board of Directors. Management has the primary responsibility for the financial statements and the reporting process including the systems of internal controls.

The Audit Committee consists of three members, each of whom is independent (as defined by listing standards that govern companies the shares of which are listed on Nasdaq). The Audit Committee operates under a written charter, approved by the Board of Directors.

In fulfilling its oversight responsibilities regarding the 2002 financial statements, the Audit Committee reviewed with management the audited financial statements in the Annual Report, including a discussion of the quality, not just the acceptability, of the accounting principles, the reasonableness of significant judgments, and the clarity of disclosures in the financial statements. The Audit Committee's review included discussion with the outside auditors of matters required to be discussed pursuant to Statement of Auditing Standards No. 61 (Communication with Audit Committees).

The Audit Committee reviewed with the independent auditors, who are responsible for expressing an opinion on the conformity of those audited financial statements with generally accepted accounting principles, their judgment as to the quality, not just the acceptability, of the Company's accounting principles and such other matters as are required to be discussed with the Audit Committee under generally accepted auditing standards. In addition, the Audit Committee has discussed with the independent auditors the auditors' independence from management and the Company, including the matters in the written disclosures required by the Independence Standards Board Standard No. 1 (Independence

Discussions with Audit Committees) and received by the Committee.

The Audit Committee discussed with the Company's independent auditors the overall scope and plans for their audits in 2003. The Audit Committee meets with the independent auditors, with and without management present, to discuss the results of their examinations, the evaluations of the Company's internal controls, and the overall quality of the Company's financial reporting. The Audit Committee held four meetings during 2002.

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the Board has approved, that the audited financial statements be included in the Annual Report on Form 10-K for the year ended December 31, 2002, for filing with the Securities and Exchange Commission. The Audit Committee and the Board have also recommended, subject to shareholder approval, the selection of the Company's independent auditors for 2003.

The Company paid no dividends during the periods shown; the performance of the indexes is shown on a total return (dividend reinvestment) basis. PROPOSAL 2 RATIFICATION OF THE SELECTION OF INDEPENDENT ACCOUNTANTS

The Board has selected PricewaterhouseCoopers LLP ("PricewaterhouseCoopers") as the Company's independent accountant for the year ending December 31, 2003 and has further directed that management submit the selection of independent accountants for ratification by the stockholders at the Annual Meeting. PricewaterhouseCoopers has audited the Company's financial statements since 1983. Representatives of PricewaterhouseCoopers are expected to be present at the Annual Meeting, and will have an opportunity to make a statement if they so desire and will be available to respond to appropriate questions.

Stockholder ratification of the selection of PricewaterhouseCoopers as the Company's independent accountants is not required by the Company's By-Laws or otherwise. Nonetheless, the Board is submitting the selection of PricewaterhouseCoopers to the stockholders for ratification as a matter of good corporate practice. In the event the stockholders fail to ratify the selection, the Board will reconsider whether to retain PricewaterhouseCoopers. Even if the selection is ratified, the Board in its discretion may direct the appointment of a different independent accounting firm at any time during the year if the Board determines that such a change would be in the best interests of the Company and its stockholders. The affirmative vote of the holders of a majority of the shares represented and voting at the meeting will be required to ratify the selection of PricewaterhouseCoopers.

Principal Accountant Fees and Services

Aggregate fees for professional services provided to the Company by PricewaterhouseCoopers for the years ended December 31, 2001 and 2002, were:

The *Audit Related* fees for the year ended December 31, 2002 were for assurance, accounting consultations and other due diligence services related to potential mergers and acquisitions.

Tax fees for the years ended December 31, 2001 and 2002 were for services related to tax planning and tax advice, advice related to intercompany transfer pricing agreements, and review of the Company's federal and state tax returns.

Financial Information Systems Design and Implementations Fees. PricewaterhouseCoopers provided no financial information systems design or implementation services to the Company during the fiscal years ended December 31, 2001 and 2002.

All audit and non-audit services provided by PricewaterhouseCoopers are approved by the Audit Committee, which considers whether the provision of non-audit services is compatible with maintaining the auditor's independence.

18

The Board of Directors recommends a vote "FOR" the ratification of the selection of PricewaterhouseCoopers LLP to serve as the Company's independent accountants for the fiscal year ending December 31, 2003.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

The Company requires copies of such reports to be furnished to them as well. Based solely on a review of the copies of such reports received by it and the written representations received from one or more such persons, the Company believes that, during 2002 all such filing requirements were complied with.
