PROSPECTUS SUMMARY

The following summary highlights information we present in greater detail elsewhere in this prospectus and in the information incorporated by reference into this prospectus. This summary may not contain all of the information that is important to you and you should carefully consider all of the information contained or incorporated by reference in this prospectus. This prospectus contains forward-looking statements that are subject to risks and uncertainties that could cause actual results to differ materially from the forward-looking statements. These factors include those listed under "Risk Factors" and elsewhere in this prospectus and the documents incorporated by reference into this prospectus.

CHS Inc.

CHS Inc. is one of the nation's leading integrated agricultural companies, providing grain, foods and energy resources to businesses and consumers on a global basis. As a cooperative, we are owned by farmers and ranchers and their member cooperatives (referred to herein as "members") across the United States. We also have preferred stockholders that own shares of our 8% Cumulative Redeemable Preferred Stock, which is listed on the NASDAQ Stock Market under the symbol "CHSCP", and shares of our Class B Cumulative Redeemable Preferred Stock, Series 1 (the "Class B Series 1 Preferred Stock"), which is listed on the NASDAQ Stock Market under the symbol "CHSCO". On February 7, 2014, we had 12,272,003 shares of 8% Cumulative Redeemable Preferred Stock outstanding and 11,319,175 shares of Class B Series 1 Preferred Stock, outstanding. We buy commodities from and provide products and services to patrons (including our members and other non-member customers), both domestic and international. We provide a wide variety of products and services, from initial agricultural inputs such as fuels, farm supplies, crop nutrients and crop protection products, to agricultural outputs that include grains and oilseeds, grain and oilseed processing and food products. A portion of our operations are conducted through equity investments and joint ventures whose operating results are not fully consolidated with our results; rather, a proportionate share of the income or loss from those entities is included as a component in our net income under the equity method of accounting. For the fiscal year ended August 31, 2013, our total revenues were \$44.5 billion and net income attributable to CHS Inc. was \$992.4 million. For the three months ended November 30, 2013, our total revenues were \$11.0 billion and net income attributable to CHS Inc. was \$242.2 million.

We have aligned our segments based on an assessment of how our businesses operate and the products and services they sell.

Our Energy segment derives its revenues through refining, wholesaling and retailing of petroleum products. Our Ag segment derives its revenues through the origination and marketing of grain, including service activities conducted at export terminals, through the wholesale sales of crop nutrients, from the sales of soybean meal and soybean refined oil and through the retail sales of petroleum and agronomy products, processed sunflowers, feed and farm supplies, and records equity income from investments in our grain export joint venture and other investments. We include other business operations in Corporate and Other because of the nature of their products and services, as well as the relative revenues of those businesses. These businesses primarily include our financing, insurance, hedging and other service activities related to crop production. In addition, our wheat milling and packaged food operations are included in Corporate and Other, as those businesses are conducted through non-consolidated joint ventures.

Membership in CHS is restricted to certain producers of agricultural products and to associations of producers of agricultural products that are organized and operating so as to adhere to the provisions of the Agricultural Marketing Act and the Capper-Volstead Act, as amended. Our Board of Directors may establish other qualifications for membership from time to time as it may deem advisable.

Table of Contents

Our earnings from cooperative business are allocated to members (and to a limited extent, to non-members with which we have agreed to do business on a patronage basis) based on the volume of business they do with us. We allocate these earnings to our patrons in the form of patronage refunds (which are also called patronage dividends) in cash and patrons' equities (capital equity certificates), which may be redeemed over time solely at the discretion of our Board of Directors. Earnings derived from non-members, which are not allocated patronage, are taxed at federal and state statutory corporate rates and are retained by us as unallocated capital reserve. We also receive patronage refunds from the cooperatives in which we are a member, if those cooperatives have earnings to distribute and if we qualify for patronage refunds from them.

Our origins date back to the early 1930s with the founding of the predecessor companies of Cenex, Inc. and Harvest States Cooperatives. CHS Inc. emerged as the result of the merger of those two entities in 1998, and is headquartered in Inver Grove Heights, Minnesota.

Energy

We are the nation's largest cooperative energy company based on revenues and identifiable assets, with operations that include petroleum refining and pipelines; the supply, marketing (including ethanol and biodiesel) and distribution of refined fuels (gasoline, diesel fuel and other energy products); the blending, sale and distribution of lubricants; and the wholesale supply of propane. Our Energy segment processes crude oil into refined petroleum products at refineries in Laurel, Montana (wholly-owned) and McPherson, Kansas (an entity in which we have an approximate 84.0% ownership interest as of February 7, 2014) and sells those products under the Cenex® brand to member cooperatives and others through a network of approximately 1,350 independent retail sites, of which 75% are convenience stores marketing Cenex® branded fuels. For fiscal 2013, our Energy revenues, after elimination of inter-segment revenues, were \$12.5 billion and were primarily from gasoline and diesel fuel.

In fiscal 2012, we began a project to replace a coker at one of our refineries with an expected total cost of \$555.0 million and expect completion in fiscal 2015. We incurred \$124.0 million and \$60.4 million of costs related to the coker project during fiscal 2013 and 2012, respectively, and \$43.6 million during the three months ended November 30, 2013. In fiscal 2013, we began a \$327.0 million expansion at National Cooperative Refinery Association's (NCRA) McPherson, Kansas refinery which we anticipate will be completed in fiscal 2016. We incurred \$25.0 million of costs related to the NCRA expansion during the year ended August 31, 2013, and \$7.4 million during the three months ended November 30, 2013.

Ag

Our Ag segment includes crop nutrients, country operations, grain marketing and processing and food ingredients. Our revenues in our Ag segment primarily include grain sales, which were \$23.8 billion for fiscal 2013 after elimination of inter-segment revenues.

Crop Nutrients. We believe our North America wholesale crop nutrients business is one of the largest wholesale fertilizer businesses in the U.S. based on tons sold and accounts for approximately 11% of the U.S. market. Tons sold include sales to our country operations business. There is significant seasonality in the sale of agronomy products and services, with peak activity coinciding with the planting seasons. There is also significant volatility in the prices for the crop nutrient products we purchase and sell.

We are currently taking steps toward construction of a more than \$2.0 billion nitrogen fertilizer manufacturing plant to be located at Spiritwood, North Dakota, which would provide the region's farmers with enhanced supplies of crop nutrients essential to raising corn and other crops. We plan to

Edgar Filing: CHS INC - Form S-1

Table of Contents

spend up to \$25 million on an engineering design study to determine the feasibility of the project. We expect the study to be completed in our second quarter of fiscal 2014.

Country Operations. Our country operations business purchases a variety of grains from our producer members and other third parties, and provides cooperative members and customers with access to a full range of products, programs and services for production agriculture. Country operations operates 442 locations through 73 business units, the majority of which have local producer boards dispersed throughout Colorado, Idaho, Illinois, Iowa, Kansas, Minnesota, Montana, Nebraska, North Dakota, Oklahoma, Oregon, South Dakota, Texas, Michigan, Wisconsin, Washington and Canada. Most of these locations purchase grain from farmers and sell agronomy, energy, feed and seed products to those same producers and others, although not all locations provide every product and service.

Grain Marketing. We are the nation's largest cooperative marketer of grain and oilseed based on grain storage capacity and grain sales, handling over 2.1 billion bushels annually. During fiscal 2013, we purchased approximately 50% of our total grain volumes from individual and cooperative association members and our country operations business, with the balance purchased from third parties. We arrange for the transportation of the grains either directly to customers or to our owned or leased grain terminals and elevators awaiting delivery to domestic and foreign purchasers. We primarily conduct our grain marketing operations directly, but do conduct some of our business through TEMCO, LLC (TEMCO), a 50% joint venture with Cargill, Incorporated (Cargill).

Processing and Food Ingredients. Our Processing and Food Ingredients business operates globally and converts soybeans into soybean meal, soyflour, crude soybean oil, refined soybean oil and associated by-products. We then further process soyflour for use in the food/snack industry.

Corporate And Other

Corporate and Other primarily represents the non-consolidated wheat milling and packaged food joint ventures, as well as our business solutions operations, which consist of commodities hedging, insurance and financial services related to crop production.

Horizon Milling, LLC and Horizon Milling G.P. are flour milling joint ventures with Cargill, of which we own 24%. In March 2013, we entered into a definitive agreement with Cargill and ConAgra Foods, Inc. to form Ardent Mills, a joint venture combining the North American flour milling operations of the three parent companies, including the Horizon Milling and Horizon Milling ULC assets and the assets currently leased by CHS to Horizon Milling, with CHS holding a 12% interest. Upon closing, Ardent Mills is expected to be financed with funds from third-party borrowings, which would not require credit support from the owners. The borrowings are anticipated to be no less than \$600 million with proceeds distributed to each owner in proportion to the ownership interests, adjusted for any deviations in specified working capital target amounts. The transaction is expected to close in the second quarter of calendar 2014, subject to financing and certain other customary closing conditions. In connection with the closing, the parties will also enter into various ancillary and non-compete agreements, including, among other things, an agreement for CHS to supply Ardent Mills with certain wheat and durum products.

Principal Executive Offices

Our principal executive offices are located at 5500 Cenex Drive, Inver Grove Heights, Minnesota 55077, and our telephone number at that address is (651) 355-6000.

Recent Events

On February 7, 2014, we acquired the fertilizer business and related fertilizer assets of Terral RiverService, Lake Providence, LA (Terral) for total consideration paid of \$95.5 million, net of cash acquired. Terral is a river transportation service company specializing in the bulk storage and handling of dry and liquid materials along the Mississippi River system, the Gulf Intracoastal Waterway and inland waterways of Louisiana and southern Arkansas.

Listing	The Class B Series 2 Preferred Stock is a new issue of securities and, prior to this offering, there has been no established trading market for the Class B Series 2 Preferred Stock. We intend to apply to list the Class B Series 2 Preferred Stock on the NASDAQ Stock Market under the symbol "CHSCN". If the application is approved, we expect trading in the Class B Series 2 Preferred Stock on the NASDAQ Stock Market to commence within 30 days of the original issuance date of the Class B Series 2 Preferred Stock.
Form	The Class B Series 2 Preferred Stock will be issued in the form of a fully registered global certificate that is deposited with a custodian for, and registered in the name of, The Depository Trust Company ("DTC") or its nominee, Cede & Co. Interests in a global certificate may also be held through Clearstream Banking, <i>société anonyme</i> ("Clearstream"), and Euroclear Bank, S.A./N.V. ("Euroclear").
Use of Proceeds	We intend to use the net proceeds from the sale of the Class B Series 2 Preferred Stock, after deducting the underwriting discount and offering expenses payable by us, estimated to be approximately \$ million (or \$ million if the underwriters' over-allotment option is exercised in full), for general corporate purposes, which may include partially funding the anticipated construction of a nitrogen fertilizer manufacturing plant to be located in Spiritwood, North Dakota. Although the exact cost of that construction is still uncertain, we currently expect that it would have a total cost of more than \$2.0 billion. See "Use of Proceeds."
Risk Factors	Ownership of our Class B Series 2 Preferred Stock involves risks. See "Risk Factors" beginning on page 11 of this prospectus and in the documents we file with the SEC that are incorporated herein by reference.
