[PROSPECTUS SUPPLEMENT](#)
(To Prospectus dated June 27, 2014)

\$400,000,000

3.875% Notes due 2020

We are offering \$400,000,000 in aggregate principal amount of 3.875% notes due 2020, which we refer to as the Notes. The Notes will mature on January 15, 2020. We will pay interest on the Notes on January 15 and July 15 of each year, beginning July 15, 2015. We may redeem the Notes in whole or in part at any time or from time to time at the redemption price discussed under the caption "Description of Notes Optional Redemption" in this prospectus supplement. In addition, holders of the Notes can require us to repurchase the Notes at 100% of their principal amount upon the occurrence of a Change of Control Repurchase Event (as defined herein). The Notes will be issued in minimum denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.

The Notes will be our direct senior unsecured obligations and rank pari passu, or equally, with all outstanding and future unsecured unsubordinated indebtedness issued by Ares Capital Corporation.

Ares Capital Corporation is a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a business development company under the Investment Company Act of 1940. Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first lien senior secured loans (including "unitranche" loans, which are loans that combine both senior and mezzanine debt, generally in a first lien position), second lien senior secured loans and mezzanine debt, which in some cases includes an equity component. To a lesser extent, we also make equity investments. We are externally managed by our investment adviser, Ares Capital Management LLC, a subsidiary of Ares Management, L.P., a publicly traded, leading global alternative asset manager with approximately \$80 billion of assets under management as of September 30, 2014. Ares Operations LLC, a subsidiary of Ares Management, L.P., provides certain administrative and other services necessary for us to operate.

Investing in the Notes involves risks that are described in the "Risk Factors" section beginning on page S-12 of this prospectus supplement and page 22 of the accompanying prospectus, including the risk of leverage.

This prospectus supplement and the accompanying prospectus concisely provide important information about us that you should know before investing in the Notes. Please read this prospectus supplement and the accompanying prospectus before you invest and keep it for future reference. We file annual, quarterly and current reports, proxy statements and other information with the SEC. This information is available free of charge by calling us collect at (310) 201-4200 or on our website at www.arescapitalcorp.com. The SEC also maintains a website at www.sec.gov that contains such information. The information on the websites referred to herein is not incorporated by reference into this prospectus supplement or the accompanying prospectus.

FORWARD-LOOKING STATEMENTS

Some of the statements in this prospectus supplement and the accompanying prospectus constitute forward-looking statements, which relate to future events or our future performance or financial condition. The forward-looking statements contained in this prospectus supplement and the accompanying prospectus involve a number of risks and uncertainties, including statements concerning:

our, or our portfolio companies', future business, operations, operating results or prospects;

the return or impact of current and future investments;

the impact of a protracted decline in the liquidity of credit markets on our business;

the impact of fluctuations in interest rates on our business;

the impact of changes in laws or regulations (including the interpretation thereof) governing our operations or the operations of our portfolio companies or the operations of our competitors;

the valuation of our investments in portfolio companies, particularly those having no liquid trading market;

our ability to recover unrealized losses;

our ability to successfully invest any capital raised in this offering;

market conditions and our ability to access alternative debt markets and additional debt and equity capital;

our contractual arrangements and relationships with third parties;

uncertainty surrounding the financial stability of the U.S. and the EU;

Middle East turmoil and the potential for rising energy prices and its impact on the industries in which we invest;

the general economy and its impact on the industries in which we invest;

the uncertainty surrounding the strength of the U.S. economic recovery;

European sovereign debt issues;

Edgar Filing: ARES CAPITAL CORP - Form 497

the financial condition of and ability of our current and prospective portfolio companies to achieve their objectives;

our expected financings and investments;

our ability to successfully complete and integrate any acquisitions;

the adequacy of our cash resources and working capital;

the timing, form and amount of any dividend distributions;

the timing of cash flows, if any, from the operations of our portfolio companies; and

the ability of our investment adviser to locate suitable investments for us and to monitor and administer our investments.

We use words such as "anticipates," "believes," "expects," "intends," "will," "should," "may" and similar expressions to identify forward-looking statements, although not all forward-looking statements include these words. Our actual results and condition could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth in

THE COMPANY

This summary highlights some of the information contained elsewhere in this prospectus supplement and the accompanying prospectus. It is not complete and may not contain all of the information that you may want to consider. You should read carefully the more detailed information set forth under "Risk Factors" in this prospectus supplement and in the accompanying prospectus and the other information included in this prospectus supplement and the accompanying prospectus. Except where the context suggests otherwise, the terms "we," "us," "our," "the Company" and "Ares Capital" refer to Ares Capital Corporation and its consolidated subsidiaries; "Ares Capital Management" and "our investment adviser" refer to Ares Capital Management LLC; "Ares Operations" and "our administrator" refer to Ares Operations LLC; and "Ares" and "Ares Management" refer to Ares Management, L.P. and its affiliated companies (other than portfolio companies of its affiliated funds).

Ares Capital

Ares Capital, a Maryland corporation, is a specialty finance company that is a closed-end, non-diversified management investment company. We have elected to be regulated as a business development company, or a "BDC," under the Investment Company Act of 1940, as amended, and the rules and regulations promulgated thereunder or the "Investment Company Act." We were founded on April 16, 2004, were initially funded on June 23, 2004 and completed our initial public offering on October 8, 2004. We are one of the largest BDCs with approximately \$9.2 billion of total assets as of September 30, 2014.

We are externally managed by our investment adviser, Ares Capital Management, a subsidiary of Ares Management, a publicly traded, leading global alternative asset manager with approximately \$80 billion of assets under management ("AUM")¹ as of September 30, 2014. Our administrator, Ares Operations, a subsidiary of Ares Management, provides certain administrative and other services necessary for us to operate.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in U.S. middle-market companies, where we believe the supply of primary capital is limited and the investment opportunities are most attractive. However, we may from time to time invest in larger or smaller (in particular, for investments in early stage and/or venture capital-backed) companies. We generally use the term "middle-market" to refer to companies with annual EBITDA between \$10 million and \$250 million. As used herein, EBITDA represents net income before net interest expense, income tax expense, depreciation and amortization.

We invest primarily in first lien senior secured loans (including unitranche loans), second lien senior secured loans and mezzanine debt, which in some cases includes an equity component. First and second lien senior secured loans generally are senior debt instruments that rank ahead of subordinated debt of a given portfolio company. Mezzanine debt is subordinated to senior loans and is generally unsecured. Our investments in corporate borrowers generally range between \$30 million and \$500 million each, investments in project finance/power generation projects generally range between \$10 million and \$200 million each and investments in early-stage and/or venture capital-backed companies generally range between \$1 million and \$25 million each. However, the investment sizes may

AUM refers to the assets of the funds, alternative asset companies and other entities and accounts that are managed or co-managed by Ares (including funds managed by Ivy Hill Asset Management, L.P., a wholly owned portfolio company of Ares Capital, and a registered investment adviser). It includes drawn and undrawn amounts, including certain amounts that are subject to regulatory leverage restrictions and/or borrowing base restrictions. AUM amounts are as of September 30, 2014 and are unaudited. Certain amounts are preliminary and remain subject to change, and differences may arise due to rounding.

Table of Contents

be more or less than these ranges and may vary based on, among other things, our capital availability, the composition of our portfolio and general micro- and macro-economic factors.

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments.

The proportion of these types of investments will change over time given our views on, among other things, the economic and credit environment in which we are operating. In connection with our investing activities, we may make commitments with respect to indebtedness or securities of a potential portfolio company substantially in excess of our final investment. In such situations, while we may initially agree to fund up to a certain dollar amount of an investment, we may subsequently syndicate or sell a portion of such amount (including, without limitation, to vehicles managed by our portfolio company, Ivy Hill Asset Management, L.P. ("IHAM")), such that we are left with a smaller investment than what was reflected in our original commitment. In addition to originating investments, we may also acquire investments in the secondary market (including purchases of a portfolio of investments).

The first and second lien senior secured loans in which we invest generally have stated terms of three to 10 years and the mezzanine debt investments in which we invest generally have stated terms of up to 10 years, but the expected average life of such first and second lien loans and mezzanine debt is generally between three and seven years. However, we may invest in loans and securities with any maturity or duration. The instruments in which we invest typically are not rated by any rating agency, but we believe that if such instruments were rated, they would be below investment grade (rated lower than "Baa3" by Moody's Investors Service, lower than "BBB-" by Fitch Ratings or lower than "BBB-" by Standard & Poor's Ratings Services), which, under the guidelines established by these entities, is an indication of having predominantly speculative characteristics with respect to the issuer's capacity to pay interest and repay principal. Bonds that are rated below investment grade are sometimes referred to as "high yield bonds" or "junk bonds." We may invest without limit in debt or other securities of any rating, as well as debt or other securities that have not been rated by any nationally recognized statistical rating organization.

We believe that our investment adviser, Ares Capital Management, is able to leverage the current investment platform, resources and existing relationships of Ares with financial sponsors, financial institutions, hedge funds and other investment firms to provide us with attractive investment opportunities. In addition to deal flow, the Ares investment platform assists our investment adviser in analyzing, structuring and monitoring investments. Ares has been in existence for more than 16 years and its senior partners have an average of over 26 years of experience in leveraged finance, private equity, distressed debt, commercial real estate finance, investment banking and capital markets. The Company has access to Ares' investment professionals and administrative professionals, who provide assistance in accounting, finance, legal, compliance, operations, information technology and investor relations. As of September 30, 2014, Ares had approximately 320 investment professionals and approximately 420 administrative professionals.

We and General Electric Capital Corporation and GE Global Sponsor Finance LLC (collectively, "GE") also co-invest in first lien senior secured loans of middle market companies through an unconsolidated vehicle, the Senior Secured Loan Fund LLC, which operates using the name "Senior Secured Loan Program" (the "SSLP"). As of September 30, 2014, the SSLP had available capital of \$11.0 billion of which approximately \$9.5 billion in aggregate principal amount was funded. As of September 30, 2014, we had agreed to make available to the SSLP approximately \$2.3 billion, of which approximately \$2.0 billion was funded. The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of the Company and GE (with

Table of Contents

approval from a representative of each required). As of September 30, 2014, our investment in the SSLP was approximately \$2.0 billion at fair value (including unrealized appreciation of \$29.3 million), which represented approximately 23% of our total portfolio at fair value. As of September 30, 2014, the SSLP had 49 underlying borrowers. For more information on the SSLP, see "Management's Discussion and Analysis of Financial Condition and Results of Operations Portfolio and Investment Activity Senior Secured Loan Program."

While our primary focus is to generate current income and capital appreciation through investments in first and second lien senior secured loans and mezzanine debt and, to a lesser extent, equity securities of eligible portfolio companies, we also may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. See "Regulation" in the accompanying prospectus. Specifically, as part of this 30% basket, we may invest in entities that are not considered "eligible portfolio companies" (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

In the first quarter of 2011, the staff of the SEC (the "Staff") informally communicated to certain BDCs the Staff's belief that certain entities, which would be classified as an "investment company" under the Investment Company Act but for the exception from the definition of "investment company" set forth in Rule 3a-7 promulgated under the Investment Company Act, could not be treated as "eligible portfolio companies" (as defined in Section 2(a)(46) under the Investment Company Act) (i.e., not eligible to be included in a BDC's 70% "qualifying assets" basket). Subsequently, in August 2011 the SEC issued a concept release (the "Concept Release") which stated that "[a]s a general matter, the Commission presently does not believe that Rule 3a-7 issuers are the type of small, developing and financially troubled businesses in which the U.S. Congress intended BDCs primarily to invest" and requested comment on whether or not a 3a-7 issuer should be considered an "eligible portfolio company." We provided a comment letter in respect of the Concept Release and continue to believe that the language of Section 2(a)(46) of the Investment Company Act permits a BDC to treat as "eligible portfolio companies" entities that rely on the 3a-7 exception. However, given the current uncertainty in this area (including the language in the Concept Release) and subsequent discussions with the Staff, we have, solely for purposes of calculating the composition of our portfolio pursuant to Section 55(a) of the Investment Company Act, identified such entities, which include the SSLP, as "non-qualifying assets" should the Staff ultimately disagree with our position.

As of September 30, 2014, our portfolio company, IHAM, which became an SEC-registered investment adviser effective March 30, 2012, managed 13 vehicles and served as the sub-manager/sub-servicer for three other vehicles (these vehicles managed or sub-managed/sub-serviced by IHAM are collectively referred to as the "IHAM Vehicles"). As of September 30, 2014, IHAM had assets under management ("IHAM AUM")² of approximately \$2.6 billion. As of September 30, 2014, Ares Capital had invested approximately \$171 million (at amortized cost) in IHAM. In connection with IHAM's registration as a registered investment adviser, on March 30, 2012, we received exemptive relief from the SEC allowing us to, subject to certain conditions, own directly or indirectly up to 100% of IHAM's outstanding equity interests and make additional investments in IHAM once IHAM became an SEC-registered investment adviser. From time to time, IHAM or certain IHAM Vehicles may purchase investments from us or sell investments to us, in each case for a price equal to the fair market value of such investments determined at the time of such transactions.

2

IHAM AUM refers to the assets of the vehicles managed, sub-managed and sub-serviced by IHAM. It includes drawn and undrawn amounts, including amounts that are subject to certain restrictions. IHAM AUM amounts are as of September 30, 2014 and are unaudited. Certain amounts are preliminary and remain subject to change, and differences may arise due to rounding.

Ares Capital Management

Ares Capital Management, our investment adviser, is served by an origination, investment and portfolio management team of 82 U.S.-based investment professionals as of September 30, 2014 and led by the senior partners of the Ares Direct Lending Group: Michael Arougheti, Kipp deVeer, Mitchell Goldstein and Michael Smith. Ares Capital Management leverages off of Ares' investment platform and benefits from the significant capital markets, trading and research expertise of Ares' investment professionals. Ares Capital Management's investment committee has 12 members, including the senior partners and U.S.-based partners of the Ares Direct Lending Group, senior partners in the Ares Private Equity Group and a senior partner in the Ares Tradable Credit Group.

Recent Developments

We have applied to the Small Business Administration ("SBA") for a license to allow a new wholly owned subsidiary to operate as a Small Business Investment Company ("SBIC") under the Small Business Investment Act of 1958. In May 2014, we received a "green light" or "go forth letter" from the SBA inviting us to continue our application process to obtain a license to form and operate an SBIC subsidiary, and we submitted our license application in October 2014. If approved, the license would provide us with an incremental source of long-term debt capital. Receipt of a green light letter from the SBA does not assure an applicant that the SBA will ultimately issue an SBIC license, and we have received no assurance or indication from the SBA that we will receive an SBIC license or of the timeframe in which we would receive a license should one ultimately be granted.

In November 2014, we declared a fourth quarter 2014 dividend of \$0.38 per share payable on December 31, 2014 to stockholders of record as of December 15, 2014.

From October 1, 2014 through October 29, 2014, we made new investment commitments of \$317 million, of which \$227 million were funded. Of these new commitments, 70% were in first lien senior secured loans, 21% were in second lien senior secured loans, 8% were in other equity securities and 1% were investments in subordinated certificates of the SSLP to make co-investments with GE in first lien senior secured loans through the SSLP. Of the \$317 million of new investment commitments, 92% were floating rate and 8% were non-interest bearing. The weighted average yield of debt and other income producing securities funded during the period at amortized cost was 8.1%. We may seek to syndicate a portion of these new investment commitments, although there can be no assurance that we will be able to do so.

From October 1, 2014 through October 29, 2014, we exited \$456 million of investment commitments. Of these investment commitments, 89% were first lien senior secured loans, 5% were investments in subordinated certificates of the SSLP, 5% were other equity securities and 1% were senior subordinated debt. Of the \$456 million of exited investment commitments, 95% were floating rate and 5% were non-interest bearing. The weighted average yield of debt and other income producing securities exited or repaid during the period at amortized cost was 7.0%. On the \$456 million of investment commitments exited from October 1, 2014 through October 29, 2014, we recognized total net realized gains of approximately \$22 million.

In addition, as of October 29, 2014, we had an investment backlog and pipeline of approximately \$610 million and \$320 million, respectively. Investment backlog includes transactions approved by our investment adviser's investment committee and/or for which a formal mandate, letter of intent or a signed commitment have been issued, and therefore we believe are likely to close. Investment pipeline includes transactions where due diligence and analysis are in process, but no formal mandate, letter of intent or signed commitment have been issued. The consummation of any of the investments in this backlog and pipeline depends upon, among other things, one or more of the following: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery

Table of Contents

of satisfactory transaction documentation. In addition, we may syndicate a portion of these investments and certain of these investments may result in the repayment of existing investments. We cannot assure you that we will make any of these investments or that we will syndicate any portion of these investments.

Table of Contents**SPECIFIC TERMS OF THE NOTES AND THE OFFERING**

This prospectus supplement sets forth certain terms of the Notes that we are offering pursuant to this prospectus supplement and supplements the accompanying prospectus that is attached to the back of this prospectus supplement. This section outlines the specific legal and financial terms of the Notes. You should read this section together with the more general description of the Notes under the heading "Description of Notes" in this prospectus supplement and in the accompanying prospectus under the heading "Description of Our Debt Securities" before investing in the Notes. Capitalized terms used in this prospectus supplement and not otherwise defined shall have the meanings ascribed to them in the accompanying prospectus or in the indenture governing the Notes.

Issuer	Ares Capital Corporation
Title of the Securities	3.875% Notes due 2020
Initial Aggregate Principal Amount Being Offered	\$400,000,000
Initial Public Offering Price	99.600% of the aggregate principal amount of Notes
Interest Rate	3.875%
Yield to Maturity	3.960%
Trade Date	November 18, 2014
Issue Date	November 21, 2014
Maturity Date	January 15, 2020
Interest Payment Dates	January 15 and July 15, commencing July 15, 2015
Ranking of Notes	<p>The Notes will be our general unsecured obligations that rank senior in right of payment to all of our future indebtedness that is expressly subordinated, or junior, in right of payment to the Notes. The Notes will rank pari passu, or equally, in right of payment with all of our existing and future senior liabilities that are not so subordinated, or junior, effectively subordinated, or junior, to any of our secured indebtedness (including unsecured indebtedness that we later secure) to the extent of the value of the assets securing such indebtedness, and structurally subordinated, or junior, to all existing and future indebtedness (including trade payables) incurred by our subsidiaries, financing vehicles or similar facilities.</p> <p>As of October 29, 2014, our total consolidated indebtedness was approximately \$3.5 billion principal amount, of which approximately \$25 million was secured indebtedness at the Ares Capital level, and of which an aggregate of approximately \$395 million was indebtedness of our subsidiaries. After giving effect to the issuance of the Notes and assuming the proceeds therefrom are used to repay outstanding borrowings under our \$1,250 million revolving credit facility (the "Revolving Credit Facility"), the \$540 million revolving funding facility of our consolidated subsidiary, Ares Capital CP Funding LLC (the "Revolving Funding Facility"), and/or the \$400 million revolving funding facility of our consolidated subsidiary, Ares Capital JB Funding LLC (the "SMBC Funding Facility" and, together with the Revolving Credit Facility and the Revolving Funding Facility, the "Facilities"), our total consolidated indebtedness would have been approximately \$3.5 billion principal amount as of October 29, 2014. See "Capitalization."</p>

Table of Contents

Denominations	We will issue the Notes in denominations of \$2,000 and integral multiples of \$1,000 in excess thereof.
Optional Redemption	We may redeem some or all of the Notes at any time, or from time to time, at a redemption price equal to the greater of (1) 100% of the principal amount of the Notes to be redeemed or (2) the sum of the present values of the remaining scheduled payments of principal and interest (exclusive of accrued and unpaid interest to the date of redemption) on the Notes to be redeemed, discounted to the redemption date on a semi-annual basis (assuming a 360-day year consisting of twelve 30-day months) using the applicable Treasury Rate plus 35 basis points, plus, in each case, accrued and unpaid interest to the redemption date; <i>provided</i> , however, that if we redeem any Notes on or after December 15, 2019 (the date falling one month prior to the maturity date of the Notes), the redemption price for the Notes will be equal to 100% of the principal amount of the Notes to be redeemed, plus accrued and unpaid interest, if any, to, but excluding, the date of redemption.
Sinking Fund	The Notes will not be subject to any sinking fund. A sinking fund is a reserve fund accumulated over a period of time for the retirement of debt.
Offer to Purchase upon a Change of Control Repurchase Event	If a Change of Control Repurchase Event occurs prior to maturity, holders will have the right, at their option, to require us to repurchase for cash some or all of the Notes at a repurchase price equal to 100% of the principal amount of the Notes being repurchased, plus accrued and unpaid interest to, but not including, the repurchase date.
Legal Defeasance	The Notes are subject to legal defeasance by us, which means that, subject to the satisfaction of certain conditions, including, but not limited to, (i) depositing in trust for the benefit of the holders of the Notes a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the Notes on their various due dates and (ii) delivering to the Trustee an opinion of counsel as described herein under "Description of Notes Satisfaction and Discharge; Defeasance," we can legally release ourselves from all payment and other obligations on the Notes.
Covenant Defeasance	The Notes are subject to covenant defeasance by us, which means that, subject to the satisfaction of certain conditions, including, but not limited to, (i) depositing in trust for the benefit of the holders of the Notes a combination of money and U.S. government or U.S. government agency notes or bonds that will generate enough cash to make interest, principal and any other payments on the Notes on their various due dates and (ii) delivering to the Trustee an opinion of counsel as described herein under "Description of Notes Satisfaction and Discharge; Defeasance," we will be released from some of the restrictive covenants in the indenture.

Form of Notes	The Notes will be represented by global securities that will be deposited and registered in the name of The Depository Trust Company ("DTC") or its nominee. This means that, except in limited circumstances, you will not receive certificates for the Notes. Beneficial interests in the Notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in DTC. Investors may elect to hold interests in the Notes through either DTC, if they are a participant, or indirectly through organizations that are participants in DTC.
Trustee, Paying Agent, Registrar and Transfer Agent	U.S. Bank National Association
Events of Default	If an event of default (as described herein under "Description of Notes") on the Notes occurs, the principal amount of the Notes, plus accrued and unpaid interest, may be declared immediately due and payable, subject to conditions set forth in the indenture. These amounts automatically become due and payable in the case of certain types of bankruptcy or insolvency events involving us.
Other Covenants	In addition to the covenants described in the accompanying prospectus, the following covenants shall apply to the Notes:
	<p>We agree that for the period of time during which the Notes are outstanding, we will not violate, whether or not we are subject to, Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act or any successor provisions.</p>

If, at any time, we are not subject to the reporting requirements of Sections 13 or 15(d) of the Exchange Act to file any periodic reports with the SEC, we agree to furnish to holders of the Notes and the trustee, for the period of time during which the Notes are outstanding, our audited annual consolidated financial statements, within 90 days of our fiscal year end, and unaudited interim consolidated financial statements, within 45 days of our fiscal quarter end (other than our fourth fiscal quarter). All such financial statements will be prepared, in all material respects, in accordance with applicable United States generally accepted accounting principles ("GAAP").

No Established Trading Market	The Notes are a new issue of securities with no established trading market. The Notes will not be listed on any securities exchange or quoted on any automated dealer quotation system. Although the underwriters have informed us that they intend to make a market in the Notes, as permitted by applicable laws and regulations, they are not obligated to do so and may discontinue any such market making activities at any time without notice. See "Underwriting." Accordingly, we cannot assure you that a liquid market for the Notes will develop or be maintained.
Global Clearance and Settlement Procedures	Interests in the Notes will trade in DTC's Same Day Funds Settlement System, and any permitted secondary market trading activity in such Notes will, therefore, be required by DTC to be settled in immediately available funds. None of the Company, the trustee or the paying agent will have any responsibility for the performance by DTC or its participants or indirect participants of their respective obligations under the rules and procedures governing their operations.
Governing Law	The Notes and the indenture will be governed by and construed in accordance with the laws of the State of New York.

RISK FACTORS

You should carefully consider the risk factors described below and under the caption "Risk Factors" in the accompanying prospectus, together with all of the other information included in this prospectus supplement and the accompanying prospectus, including our consolidated financial statements and the related notes thereto, before you decide whether to make an investment in our securities. The risks set out below are not the only risks we face. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially adversely affect our business, financial condition and/or operating results. If any of the following events occur, our business, financial condition and results of operations could be materially adversely affected.

The Notes will be unsecured and therefore will be effectively subordinated to any secured indebtedness we have currently incurred or may incur in the future.

The Notes will not be secured by any of our assets or any of the assets of our subsidiaries. As a result, the Notes are effectively subordinated, or junior, to any secured indebtedness we or our subsidiaries have currently incurred and may incur in the future (or any indebtedness that is initially unsecured to which we subsequently grant security) to the extent of the value of the assets securing such indebtedness. In any liquidation, dissolution, bankruptcy or other similar proceeding, the holders of any of our existing or future secured indebtedness and the secured indebtedness of our subsidiaries may assert rights against the assets pledged to secure that indebtedness in order to receive full payment of their indebtedness before the assets may be used to pay other creditors, including the holders of the Notes. As of October 29, 2014, we had \$25.0 million aggregate principal amount of outstanding indebtedness under the Revolving Credit Facility. The Revolving Credit Facility is secured by certain assets in our portfolio and excludes investments held by Ares Capital CP Funding LLC ("Ares Capital CP") under the Revolving Funding Facility, those held by Ares Capital JB Funding LLC ("ACJB") under the SMBC Funding Facility and certain other investments; the indebtedness thereunder is therefore effectively senior to the Notes to the extent of the value of such assets.

The Notes will be structurally subordinated to the indebtedness and other liabilities of our subsidiaries.

The Notes are obligations exclusively of Ares Capital and not of any of our subsidiaries. None of our subsidiaries is a guarantor of the Notes and the Notes are not required to be guaranteed by any subsidiaries we may acquire or create in the future. A significant portion of the indebtedness required to be consolidated on our balance sheet is held through subsidiary financing vehicles and secured by certain assets of such subsidiaries. For example, the secured indebtedness with respect to the Revolving Funding Facility and the SMBC Funding Facility are each held through our consolidated subsidiaries, Ares Capital CP and ACJB, respectively. The assets of such subsidiaries are not directly available to satisfy the claims of our creditors, including holders of the Notes. See "Management's Discussion and Analysis of Financial Condition and Results of Operations Financial Condition, Liquidity and Capital Resources Debt Capital Activities" for more detail on the Revolving Funding Facility and the SMBC Funding Facility.

Except to the extent we are a creditor with recognized claims against our subsidiaries, all claims of creditors (including trade creditors) and holders of preferred stock, if any, of our subsidiaries will have priority over our equity interests in such subsidiaries (and therefore the claims of our creditors, including holders of the Notes) with respect to the assets of such subsidiaries. Even if we are recognized as a creditor of one or more of our subsidiaries, our claims would still be effectively subordinated to any security interests in the assets of any such subsidiary and to any indebtedness or other liabilities of any such subsidiary senior to our claims. Consequently, the Notes will be structurally subordinated to all indebtedness and other liabilities (including trade payables) of any of our subsidiaries and any subsidiaries that we may in the future acquire or establish as financing vehicles or

Table of Contents

otherwise. As of October 29, 2014, we had \$339.0 million aggregate principal amount of outstanding indebtedness under the Revolving Funding Facility and \$56.0 million aggregate principal amount of outstanding indebtedness under the SMBC Funding Facility. All of such indebtedness would be structurally senior to the Notes. In addition, our subsidiaries may incur substantial additional indebtedness in the future, all of which would be structurally senior to the Notes.

The indenture under which the Notes will be issued will contain limited protection for holders of the Notes.

The indenture under which the Notes will be issued offers limited protection to holders of the Notes. The terms of the indenture and the Notes do not restrict our or any of our subsidiaries' ability to engage in, or otherwise be a party to, a variety of corporate transactions, circumstances or events that could have an adverse impact on your investment in the Notes. In particular, the terms of the indenture and the Notes will not place any restrictions on our or our subsidiaries' ability to:

issue securities or otherwise incur additional indebtedness or other obligations, including (1) any indebtedness or other obligations that would be equal in right of payment to the Notes, (2) any indebtedness or other obligations that would be secured and therefore rank effectively senior in right of payment to the Notes to the extent of the values of the assets securing such debt, (3) indebtedness of ours that is guaranteed by one or more of our subsidiaries and which therefore is structurally senior to the Notes and (4) securities, indebtedness or obligations issued or incurred by our subsidiaries that would be senior to our equity interests in our subsidiaries and therefore rank structurally senior to the Notes with respect to the assets of our subsidiaries, in each case other than an incurrence of indebtedness or other obligation that would cause a violation of Section 18(a)(1)(A) as modified by Section 61(a)(1) of the Investment Company Act or any successor provisions;

pay dividends on, or purchase or redeem or make any payments in respect of, capital stock or other securities ranking junior in right of payment to the Notes;

sell assets (other than certain limited restrictions on our ability to consolidate, merge or sell all or substantially all of our assets);

create liens (including liens on the shares of our subsidiaries) or enter into sale and leaseback transactions;

enter into transactions with affiliates;

make investments; or

create restrictions on the payment of dividends or other amounts to us from our subsidiaries.

Furthermore, the terms of the indenture and the Notes do not protect holders of the Notes in the event that we experience changes (including significant adverse changes) in our financial condition, results of operations or credit ratings, as they do not require that we or our subsidiaries adhere to any financial tests or ratios or specified levels of net worth, revenues, income, cash flow, or liquidity.

Our ability to recapitalize, incur additional debt and take a number of other actions that are not limited by the terms of the Notes may have important consequences for you as a holder of the Notes, including making it more difficult for us to satisfy our obligations with respect to the Notes or negatively affecting the trading value of the Notes.

Certain of our current debt instruments include more protections for their holders than the indenture and the Notes. See in the accompanying prospectus "Risk Factors Risks Relating to Our Business In addition to regulatory requirements that restrict our ability to raise capital, the Facilities,

Table of Contents

the Unsecured Notes (as defined below) and the Convertible Unsecured Notes (as defined below) contain various covenants that, if not complied with, could accelerate repayment under the Facilities, the Unsecured Notes and the Convertible Unsecured Notes, thereby materially and adversely affecting our liquidity, financial condition and results of operations." In addition, other debt we issue or incur in the future could contain more protections for its holders than the indenture and the Notes, including additional covenants and events of default. The issuance or incurrence of any such debt with incremental protections could affect the market for and trading levels and prices of the Notes.

We may not be able to repurchase the Notes upon a Change of Control Repurchase Event.

Upon the occurrence of a Change of Control Repurchase Event, as defined in the indenture that governs the Notes, as supplemented, subject to certain conditions, we will be required to offer to repurchase all outstanding Notes at 100% of their principal amount, plus accrued and unpaid interest. The source of funds for that purchase of Notes will be our available cash or cash generated from our operations or other potential sources, including borrowings, investment repayments, sales of assets or sales of equity. We cannot assure you that sufficient funds from such sources will be available at the time of any Change of Control Repurchase Event to make required repurchases of Notes tendered. The terms of our Facilities provide that certain change of control events will constitute an event of default thereunder entitling the lenders to accelerate any indebtedness outstanding under the Facilities at that time and to terminate the Facilities. In addition, the indentures governing our Convertible Unsecured Notes contain a provision that would require us to offer to purchase the Convertible Unsecured Notes upon the occurrence of a fundamental change. A failure to purchase any tendered Convertible Unsecured Notes would constitute an event of default under the indentures for the Convertible Unsecured Notes, as applicable, which would, in turn, constitute a default under the Facilities and the indenture governing the Notes. Our future debt instruments also may contain similar restrictions and provisions. If the holders of the Notes exercise their right to require us to repurchase all the Notes upon a Change of Control Repurchase Event, the financial effect of this repurchase could cause a default under our future debt instruments, even if the Change of Control Repurchase Event itself would not cause a default. It is possible that we will not have sufficient funds at the time of the Change of Control Repurchase Event to make the required repurchase of the Notes and/or our other debt. See "Description of Notes Offer to Repurchase Upon a Change of Control Repurchase Event."

If an active trading market does not develop for the Notes, you may not be able to resell them.

The Notes are a new issue of debt securities for which there currently is no trading market. We do not intend to apply for listing of the Notes on any securities exchange or for quotation of the Notes on any automated dealer quotation system. If no active trading market develops, you may not be able to resell your Notes at their fair market value or at all. If the Notes are traded after their initial issuance, they may trade at a discount from their initial offering price depending on prevailing interest rates, the market for similar securities, our credit ratings, general economic conditions, our financial condition, performance and prospects and other factors. The underwriters have advised us that they intend to make a market in the Notes, but they are not obligated to do so. The underwriters may discontinue any market-making in the Notes at any time at their sole discretion. Accordingly, we cannot assure you that a liquid trading market will develop for the Notes, that you will be able to sell your Notes at a particular time or that the price you receive when you sell will be favorable. To the extent an active trading market does not develop, the liquidity and trading price for the Notes may be harmed. Accordingly, you may be required to bear the financial risk of an investment in the Notes for an indefinite period of time.

SELECTED CONDENSED CONSOLIDATED FINANCIAL DATA OF ARES CAPITAL

The following selected financial and other data as of and for the years ended December 31, 2013, 2012, 2011, 2010 and 2009 are derived from our consolidated financial statements, which have been audited by KPMG LLP, an independent registered public accounting firm whose report thereon is included elsewhere in the accompanying prospectus. The selected financial and other data as of and for the nine months ended September 30, 2014 and September 30, 2013 and other quarterly financial information is derived from our unaudited financial statements, but in the opinion of management, reflects all adjustments (consisting only of normal recurring adjustments) that are necessary to present fairly the results of such interim periods. Interim results as of and for the nine months ended September 30, 2014 are not necessarily indicative of the results that may be expected for the year ending December 31, 2014. The data should be read in conjunction with our consolidated financial statements and notes thereto and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Senior Securities," which are included elsewhere in this prospectus supplement or the accompanying prospectus.

USE OF PROCEEDS

We estimate that the net proceeds we will receive from the sale of the Notes in this offering will be approximately \$394.3 million, after deducting the underwriting discount of approximately \$3.0 million payable by us and estimated offering expenses of approximately \$1.1 million payable by us.

We expect to use the net proceeds of this offering to repay outstanding indebtedness under the Revolving Credit Facility (\$25.0 million aggregate principal amount outstanding as of October 29, 2014), the Revolving Funding Facility (\$339.0 million aggregate principal amount outstanding as of October 29, 2014) and/or the SMBC Funding Facility (\$56.0 million aggregate principal amount outstanding as of October 29, 2014).

Subject to certain exceptions, the interest charged on the indebtedness incurred under the Revolving Credit Facility is based on LIBOR (one-, two-, three- or six-month) plus an applicable spread of 2.00% or a "base rate" (as defined in the agreements governing the Revolving Credit Facility) plus an applicable spread of 1.00%. As of October 29, 2014, one, two, three and six month LIBOR were 0.15%, 0.20%, 0.23% and 0.32%, respectively. The Revolving Credit Facility matures on May 4, 2019. Subject to certain exceptions, the interest charged on the indebtedness incurred under the Revolving Funding Facility is based on LIBOR plus an applicable spread ranging from 2.25% to 2.50% or a "base rate" (as defined in the agreements governing the Revolving Funding Facility) plus an applicable spread ranging from 1.25% to 1.50%, in each case, determined monthly based on the composition of the borrowing base relative to outstanding borrowings under the facility. The Revolving Funding Facility matures on May 14, 2019 (subject to extension exercisable upon mutual consent). Subject to certain exceptions, the interest charged on the indebtedness incurred under the SMBC Funding Facility is based on one month LIBOR plus an applicable spread of 2.00% or a "base rate" (as defined in the agreements governing the SMBC Funding Facility) plus an applicable spread of 1.00%. The SMBC Funding Facility matures on September 14, 2021 (subject to two one-year extension options exercisable upon mutual consent).

Affiliates of certain of the underwriters are lenders under the Revolving Credit Facility or the Revolving Funding Facility. Accordingly, affiliates of certain of the underwriters may receive more than 5% of the proceeds of this offering to the extent such proceeds are used to repay or repurchase outstanding indebtedness under the Revolving Credit Facility and/or the Revolving Funding Facility.

We intend to use any net proceeds from this offering that are not applied as described above for general corporate purposes, which include investing in portfolio companies in accordance with our investment objective.

Investing in portfolio companies could include investments in our investment backlog and pipeline that, as of October 29, 2014, were approximately \$610 million and \$320 million, respectively. Please note that the consummation of any of the investments in this backlog and pipeline depends upon, among other things: satisfactory completion of our due diligence investigation of the prospective portfolio company, our acceptance of the terms and structure of such investment and the execution and delivery of satisfactory transaction documentation. In addition, we may syndicate a portion of these investments and certain of these investments may result in the repayment of existing investments. We cannot assure you that we will make any of these investments or that we will syndicate any portion of these investments.

Table of Contents**RATIOS OF EARNINGS TO FIXED CHARGES**

For the nine months ended September 30, 2014 and the years ended December 31, 2013, 2012, 2011, 2010 and 2009, the ratios of earnings to fixed charges of the Company, computed as set forth below, were as follows:

	For the Nine Months Ended September 30, 2014	For the Year Ended December 31, 2013	For the Year Ended December 31, 2012	For the Year Ended December 31, 2011	For the Year Ended December 31, 2010	For the Year Ended December 31, 2009
Earnings to Fixed Charges(1)	3.8(2)	3.9	4.6(3)	3.7(4)	9.8(5)	9.4(6)

For purposes of computing the ratios of earnings to fixed charges, earnings represent net increase in stockholders' equity resulting from operations plus (or minus) income tax expense (benefit) including excise tax expense plus fixed charges. Fixed charges include interest and credit facility fees expense and amortization of debt issuance costs.

- (1) Earnings include net realized and unrealized gains or losses and the capital gains incentive fee expense accrued in accordance with GAAP. Net realized and unrealized gains or losses and the capital gains incentive fee expense accrued in accordance with GAAP can vary substantially from period to period.
- Excluding the net realized and unrealized gains or losses and the capital gains incentive fee expense accrued in accordance with GAAP, the earnings to fixed charges ratio would be 3.2 for the nine months ended September 30, 2014, 3.7 for the year ended December 31, 2013, 3.7 for the year ended December 31, 2012, 3.6 for the year ended December 31, 2011, 4.0 for the year ended December 31, 2010 and 6.5 for the year ended December 31, 2009.
- (2) Earnings for the nine months ended September 30, 2014 included a net realized loss on the extinguishment of debt of \$0.1 million.
- (3) Earnings for the year ended December 31, 2012 included a net realized loss on the extinguishment of debt of \$2.7 million.
- (4) Earnings for the year ended December 31, 2011 included a net realized loss on the extinguishment of debt of \$19.3 million.
- (5) Earnings for year ended December 31, 2010 included a one-time gain on the Allied Acquisition (as defined below) of \$195.9 million, a net realized loss on the extinguishment of debt of \$2.0 million and net realized gain on sale of other assets of \$5.9 million.
- (6) Earnings for the year ended December 31 2009, included a net realized gain on the extinguishment of debt of \$26.5 million.

**MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION
AND RESULTS OF OPERATIONS**

The information contained in this section should be read in conjunction with the "Selected Condensed Consolidated Financial Data of Ares Capital" and our financial statements and notes thereto appearing elsewhere in this prospectus supplement or the accompanying prospectus.

OVERVIEW

We are a specialty finance company that is a closed-end, non-diversified management investment company incorporated in Maryland. We have elected to be regulated as a BDC under the Investment Company Act.

We are externally managed by Ares Capital Management, a subsidiary of Ares Management, a publicly traded, leading global alternative asset manager, pursuant to our investment advisory and management agreement. Ares Operations, a subsidiary of Ares Management, provides certain administrative and other services necessary for us to operate.

Our investment objective is to generate both current income and capital appreciation through debt and equity investments. We invest primarily in first lien senior secured loans (including unitranche loans), second lien senior secured loans and mezzanine debt, which in some cases includes an equity component like warrants.

To a lesser extent, we also make preferred and/or common equity investments, which have generally been non-control equity investments, of less than \$20 million (usually in conjunction with a concurrent debt investment). However, we may increase the size or change the nature of these investments.

Since our initial public offering on October 8, 2004 through September 30, 2014, our exited investments resulted in an aggregate cash flow realized internal rate of return to us of approximately 13% (based on original cash invested, net of syndications, of approximately \$9.2 billion and total proceeds from such exited investments of approximately \$11.2 billion). Internal rate of return is the discount rate that makes the net present value of all cash flows related to a particular investment equal to zero. Internal rate of return is gross of expenses related to investments as these expenses are not allocable to specific investments. Investments are considered to be exited when the original investment objective has been achieved through the receipt of cash and/or non-cash consideration upon the repayment of a debt investment or sale of an investment or through the determination that no further consideration was collectible and, thus, a loss may have been realized. Approximately 69% of these exited investments resulted in an aggregate cash flow realized internal rate of return to us of 10% or greater.

Additionally, since our initial public offering on October 8, 2004 through September 30, 2014, our realized gains have exceeded our realized losses by approximately \$296 million (excluding a one-time gain on the acquisition of Allied Capital Corporation ("Allied Capital") and realized gains/losses from the extinguishment of debt and other assets). For this same time period, our average annualized net realized gain rate was approximately 1.1% (excluding a one-time gain on the acquisition of Allied Capital and realized gains/losses from the extinguishment of debt and other assets). Net realized gain/loss rates for a particular period are the amount of net realized gains/losses during such period divided by the average quarterly investments at amortized cost in such period.

Information included herein regarding internal rates of return, realized gains and losses and annualized net realized gain rates since our initial public offering are historical results relating to our past performance and are not necessarily indicative of future results, the achievement of which cannot be assured.

Table of Contents

As a BDC, we are required to comply with certain regulatory requirements. For instance, we generally have to invest at least 70% of our total assets in "qualifying assets," including securities and indebtedness of private U.S. companies and certain public U.S. companies, cash, cash equivalents, U.S. government securities and high-quality debt investments that mature in one year or less. We also may invest up to 30% of our portfolio in non-qualifying assets, as permitted by the Investment Company Act. Specifically, as part of this 30% basket, we may invest in entities that are not considered "eligible portfolio companies" (as defined in the Investment Company Act), including companies located outside of the United States, entities that are operating pursuant to certain exceptions under the Investment Company Act, and publicly traded entities whose public equity market capitalization exceeds the levels provided for under the Investment Company Act.

We have elected to be treated as a regulated investment company, or a "RIC," under the Internal Revenue Code of 1986, as amended (the "Code"), and operate in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must, among other things, meet certain source-of-income and asset diversification requirements and timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Code, for each year. Pursuant to this election, we generally will not have to pay U.S. federal corporate-level taxes on any income that we distribute to our stockholders provided that we satisfy those requirements.

Ares Capital Management, our investment adviser, employs an investment rating system to categorize our investments. In addition to various risk management and monitoring tools, our investment adviser grades the credit risk of all investments on a scale of 1 to 4 no less frequently than quarterly. This system is intended primarily to reflect the underlying risk of a portfolio investment relative to our initial cost basis in respect of such portfolio investment (i.e., at the time of origination or acquisition), although it may also take into account under certain circumstances the performance of the portfolio company's business, the collateral coverage of the investment and other relevant factors. Under this system, investments with a grade of 4 involve the least amount of risk to our initial cost basis. The trends and risk factors for this investment since origination or acquisition are generally favorable, which may include the performance of the portfolio company or a potential exit. Investments graded 3 involve a level of risk to our initial cost basis that is similar to the risk to our initial cost basis at the time of origination or acquisition. This portfolio company is generally performing as expected and the risk factors to our ability to ultimately recoup the cost of our investment are neutral to favorable. All investments or acquired investments in new portfolio companies are initially assessed a grade of 3. Investments graded 2 indicate that the risk to our ability to recoup the initial cost basis of

Edgar Filing: ARES CAPITAL CORP - Form 497

Table of Contents

such investment has increased materially since origination or acquisition, including as a result of factors such as declining performance and non-compliance with debt covenants; however, payments are generally not more than 120 days past due. An investment grade of 1 indicates that the risk to our ability to recoup the initial cost basis of such investment has substantially increased since origination or acquisition, and the portfolio company likely has materially declining performance. For debt investments with an investment grade of 1, most or all of the debt covenants are out of compliance and payments are substantially delinquent. For investments graded 1, it is anticipated that we will not recoup our initial cost basis and may realize a substantial loss of our initial cost basis upon exit. For investments graded 1 or 2, our investment adviser enhances its level of scrutiny over the monitoring of such portfolio company. The grade of a portfolio investment may be reduced or increased over time.

Set forth below is the grade distribution of our portfolio companies as of September 30, 2014 and December 31, 2013:

(dollar amounts in millions)	As of							
	September 30, 2014				December 31, 2013			
	Fair Value	%	# of Companies	%	Fair Value	%	# of Companies	%
Grade 1	\$ 56.4	0.7%	5	2.5%	\$ 54.6	0.7%	7	3.6%
Grade 2	248.9	2.8%	10	4.9%	256.3	3.4%	12	6.2%
Grade 3	7,359.3	83.8%	170	83.3%	6,636.2	86.9%	162	84.0%
Grade 4	1,119.0	12.7%	19	9.3%	685.8	9.0%	12	6.2%
	\$ 8,783.6	100.0%	204	100.0%	\$ 7,632.9	100.0%	193	100.0%

As of September 30, 2014 and December 31, 2013, the weighted average grade of the investments in our portfolio at fair value was 3.1 and 3.0, respectively.

As of September 30, 2014, loans on non-accrual status represented 2.2% and 1.6% of the total investments at amortized cost and at fair value, respectively. As of December 31, 2013, loans on non-accrual status represented 3.1% and 2.1% of the total investments at amortized cost and at fair value, respectively.

Senior Secured Loan Program

We co-invest in first lien senior secured loans of middle market companies with GE through an unconsolidated Delaware limited liability company, the Senior Secured Loan Fund LLC (d/b/a "the Senior Secured Loan Program") or the SSLP. The SSLP is capitalized as transactions are completed and all portfolio decisions and generally all other decisions in respect of the SSLP must be approved by an investment committee of the SSLP consisting of representatives of ours and GE (with approval from a representative of each required). We provide capital to the SSLP in the form of subordinated certificates (the "SSLP Certificates").

As of September 30, 2014 and December 31, 2013, we and GE had agreed to make \$11.0 billion of capital available to the SSLP, of which approximately \$9.5 billion and \$8.7 billion in aggregate principal amount, respectively, was funded. As of September 30, 2014 and December 31, 2013, we had agreed to make available to the SSLP approximately \$2.3 billion, of which approximately \$2.0 billion and \$1.7 billion in aggregate principal amount, respectively, was funded. Investment of any unfunded amount must be approved by the investment committee of the SSLP as described above.

As of September 30, 2014 and December 31, 2013, the SSLP had total assets of \$9.5 billion and \$8.7 billion, respectively. As of September 30, 2014 and December 31, 2013, GE's investment in the SSLP consisted of senior notes of \$7.2 billion and \$6.7 billion, respectively, and SSLP Certificates of \$279.2 million and \$249.3 million, respectively. The SSLP Certificates are junior in right of payment

to the senior notes held by GE. As of September 30, 2014 and December 31, 2013, we and GE owned 87.5% and 12.5%, respectively, of the outstanding SSLP Certificates.

As of September 30, 2014 and December 31, 2013, the SSLP portfolio was comprised of all first lien senior secured loans to U.S. middle-market companies. As of September 30, 2014 and December 31, 2013, one loan was on non-accrual status, representing 0.9% and 1.0%, respectively, of the total loans at principal amount in the SSLP. The portfolio companies in the SSLP are in industries similar to the companies in our portfolio. Additionally, as of September 30, 2014 and December 31, 2013, the SSLP had commitments to fund various delayed draw investments to certain of its portfolio companies of \$501.7 and \$510.4 million, respectively, which had been approved by the SSLP investment committee. As of September 30, 2014 and December 31, 2013, we had commitments to co-invest in the SSLP for our portion of the SSLP's commitments to fund such delayed draw investments of up to \$92.8 million and \$85.1 million, respectively.

Below is a summary of the SSLP's portfolio, followed by a listing of the individual first lien senior secured loans in the SSLP's portfolio as of September 30, 2014 and December 31, 2013:

- (1) Represents the weighted average annual stated interest rate as of December 31, 2013. All interest rates are payable in cash. For loans on non-accrual status, the stated interest rate is not shown as there is no current yield on such loans.
- (2) Represents the fair value in accordance with Accounting Standards Codification 820-10. The determination of such fair value is not included in our board of directors valuation process described elsewhere herein.
- (3) We also hold a portion of this company's first lien senior secured loan.
- (4) We also hold a portion of this company's second lien senior secured loan.
- (5) We hold an equity investment in this company.
- (6) Loan was on non-accrual status, as determined by the investment committee of the SSLP, as of December 31, 2013.

The amortized cost and fair value of our SSLP Certificates was \$2.0 billion and \$2.0 billion, respectively, as of September 30, 2014, and \$1.7 billion and \$1.8 billion, respectively, as of December 31, 2013. The SSLP Certificates pay a weighted average contractual coupon of three month LIBOR plus approximately 8.0% and also entitle the holders thereof to receive a portion of the excess cash flow from the

underlying loan portfolio, which may result in a return to the holders of the SSLP Certificates that is greater than both the contractual coupon on the SSLP Certificates as well as the weighted average yield on the SSLP's portfolio of 6.8% and 7.1% at September 30, 2014 and December 31, 2013, respectively. Our yield on our investment in the SSLP at amortized cost and fair value was 13.8% and 13.5%, respectively, as of September 30, 2014, and 15.0% and 14.8%, respectively, as of December 31, 2013. For the three and nine months ended September 30, 2014, we earned interest income of \$69.8 million and \$205.4 million, respectively, from our investment in the SSLP Certificates.

Net income can vary substantially from period to period due to various factors, including acquisitions, the level of new investment commitments, the recognition of realized gains and losses and unrealized appreciation and depreciation. As a result, quarterly comparisons of net income may not be meaningful.

Investment Income

(in millions)	For the three months ended September 30,		For the nine months ended September 30,	
	2014	2013	2014	2013
Interest income from investments	\$ 190.8	\$ 169.6	\$ 540.5	\$ 471.8

Other income	4.8	5.4	17.6	16.9
Total investment income	\$ 253.4	\$ 246.8	\$ 718.0	\$ 648.0

The increase in interest income from investments for the three months ended September 30, 2014 from the comparable period in 2013 was primarily due to an increase in the size of our portfolio, which increased from an average of \$7.0 billion at amortized cost for the three months ended September 30, 2013 to an average of \$8.2 billion at amortized cost for the comparable period in 2014. The increase in capital structuring service fees for the three months ended September 30, 2014 from the comparable period in 2013 was primarily due to the increase in new investment commitments, which increased from \$1.1 billion for the three months ended September 30, 2013 to \$1.3 billion for the comparable period in 2014, partially offset by the decrease in the average capital structuring service fees received on new investments, from 2.8% for the three months ended September 30, 2013 to 2.4% in the comparable period in 2014. Dividend income for the three months ended September 30, 2014 and 2013 included dividends received from IHAM totaling \$10.0 million and \$25.0 million, respectively. The dividends received from IHAM for the three months ended September 30, 2013 included an additional dividend of \$15.0 million that was paid in addition to the quarterly dividends generally paid by IHAM. IHAM paid the additional dividend out of accumulated earnings that had previously been retained by IHAM. Also during the three months ended September 30, 2014, we received \$6.0 million in other non-recurring dividends from non-income producing equity securities compared to \$5.2 million for the comparable period in 2013.

The increase in interest income from investments for the nine months ended September 30, 2014 from the comparable period in 2013 was primarily due to the increase in the size of the portfolio, which increased from an average of \$6.4 billion at amortized cost for the nine months ended September 30, 2013 to an average of \$7.9 billion at amortized cost for the comparable period in 2014. The increase in capital structuring service fees for the nine months ended September 30, 2014 from the comparable period in 2013 was primarily due to the increase in new investment commitments, which increased from \$2.7 billion for the nine months ended September 30, 2013 to \$3.2 billion for the comparable period in 2014, while the average capital structuring service fees received on new investments remained steady at 2.3% for both the nine months ended September 30, 2014 and 2013. Dividend income for the nine months ended September 30, 2014 and 2013 included dividends received from IHAM totaling \$40.0 million and \$62.4 million, respectively. The dividends received from IHAM for the nine months ended September 30, 2014 and 2013 included additional dividends of \$10.0 million and \$32.4 million, respectively, that were paid in addition to the quarterly dividends generally paid by IHAM. IHAM paid the additional dividends out of accumulated earnings that had previously been retained by IHAM. Also during the nine months ended September 30, 2014, we received \$15.5 million

in other non-recurring dividends from non-income producing equity securities compared to \$6.6 million for the comparable period in 2013.

Operating Expenses

(in millions)	For the three months ended September 30,		For the nine months ended September 30,	
	2014	2013	2014	2013
Interest and credit facility fees	\$ 54.1	\$ 44.4	\$ 159.7	\$ 124.0
Base management fees	32.7	27.5	93.5	75.6
Income based fees	31.3	32.3	85.2	81.5

Other general and administrative	6.3	6.2	20.3	20.5
Total expenses	\$ 140.6	\$ 116.6	\$ 392.6	\$ 317.4

Interest and credit facility fees for the three and nine months ended September 30, 2014 and 2013, were comprised of the following:

(in millions)	For the three months ended September 30,		For the nine months ended September 30,	
	2014	2013	2014	2013
Stated interest expense	\$ 44.0	\$ 36.0	\$ 127.7	\$ 97.7
Facility fees	2.1	1.4	8.7	5.8
Amortization of debt issuance cost	4.2	3.5	12.1	10.4
Accretion of discount on notes payable	3.8	3.5	11.2	10.1
Total interest and credit facility fees	\$ 54.1	\$ 44.4	\$ 159.7	\$ 124.0

Stated interest expense for the three months ended September 30, 2014 increased from the comparable period in 2013 primarily due to the increase in the average principal amount of debt outstanding, which increased to \$3.4 billion as compared to \$2.9 billion for the comparable period in 2013. Stated interest expense for the nine months ended September 30, 2014 increased from the comparable period in 2013 primarily due to the increase in the average principal amount of debt outstanding, which increased to \$3.2 billion as compared to \$2.5 billion for the comparable period in 2013. Facility fees for the nine months ended September 30, 2014 increased from the comparable period in 2013 primarily due to higher non-usage fees incurred on the secured revolving facilities.

The increase in base management fees and fees based on our net investment income ("income based fees") for the three and nine months ended September 30, 2014 from the comparable period in 2013 were primarily due to the increase in the size of the portfolio and in the case of income based fees, the related increase in net investment income excluding income based fees and fees based on our net capital gains ("capital gains incentive fees").

For the three and nine months ended September 30, 2014, the capital gains incentive fee expense accrual calculated in accordance with GAAP was \$13.1 million and \$24.2 million, respectively. For the three and nine months ended September 30, 2013, the capital gains incentive fee expense accrual calculated in accordance with GAAP was \$2.9 million and \$7.2 million, respectively. Capital gains incentive fee expense accrual for the three months ended September 30, 2014 increased from the comparable period in 2013 primarily due to higher net gains on investments and foreign currency transactions, which increased from \$8.9 million during the three months ended September 30, 2013 to \$76.5 million for the comparable period in 2014. Capital gains incentive fee expense accrual for the nine months ended September 30, 2014 increased from the comparable period in 2013 primarily due to

Table of Contents

higher net gains on investments and foreign currency transactions, which increased from \$29.3 million during the three months ended September 30, 2013 to \$40.1 million for the comparable period in 2014. The capital gains incentive fee accrued under GAAP includes an accrual related to unrealized capital appreciation, whereas the capital gains incentive fee actually payable under our investment advisory and management agreement does not. There can be no assurance that such unrealized capital appreciation will be realized in the future. The accrual for any capital gains incentive fee under GAAP in a given period may result in an additional expense if such cumulative amount is greater than in the prior period or a reduction of previously recorded expense if such cumulative amount is less than in the prior period. If such cumulative amount is negative, then there is no accrual. As of September 30, 2014, the total capital gains incentive fee accrual calculated in accordance with GAAP was \$87.7 million (included in "capital gains incentive fees payable" in the consolidated balance sheet). However, as of September 30, 2014, there was no capital gains incentive fee actually payable under our investment advisory and management agreement. See Note 3 to our consolidated financial statements for the three and nine months ended September 30, 2013 for more information on the base management fees, income based fees and capital gains incentive fees.

Administrative fees represent fees paid to Ares Operations for our allocable portion of overhead and other expenses incurred by Ares Operations in performing its obligations under the administration agreement, including our allocable portion of the cost of certain of our executive officers and their respective staffs. Other general and administrative expenses include professional fees, rent, insurance, depreciation, director's fees and other costs.

Income Tax Expense, Including Excise Tax

We have elected to be treated as a RIC under the Code and operate in a manner so as to qualify for the tax treatment applicable to RICs. To qualify as a RIC, we must, among other things, timely distribute to our stockholders generally at least 90% of our investment company taxable income, as defined by the Code, for each year. In order to maintain our RIC status, we, among other things, have made and intend to continue to make the requisite distributions to our stockholders which will generally relieve us from U.S. federal corporate-level income taxes.

Depending on the level of taxable income earned in a tax year, we may choose to carry forward taxable income in excess of current year dividend distributions from such current year taxable income into the next tax year and pay a 4% excise tax on such income, as required. To the extent that we determine that our estimated current year annual taxable income will be in excess of estimated current year dividend distributions from such income, we accrue excise tax on estimated excess taxable income as such taxable income is earned. For the three months ended September 30, 2014, we had no U.S. federal excise tax expense. For the nine months ended September 30, 2014, we recorded a net expense of \$4.0 million for U.S. federal excise tax, which includes a reduction in expense in the third quarter related to the recording of a requested refund resulting from the overpayment of 2013 excise tax of \$1.7 million. For the three and nine months ended September 30, 2013, we recorded a net expense of \$2.8 million and \$8.8 million, respectively, for U.S. federal excise tax.

Certain of our consolidated subsidiaries are subject to U.S. federal and state income taxes. For the three and nine months ended September 30, 2014, we recorded a tax expense of approximately \$7.5 million and \$11.8 million, respectively, for these subsidiaries. For the three and nine months ended September 30, 2013, we recorded a tax expense of approximately \$1.2 million and \$2.9 million, respectively, for these subsidiaries. The increases in income tax expense for our taxable consolidated subsidiaries for the three and nine months ended September 30, 2014 from the comparable periods in 2013 were primarily driven by the realized gains from the exits of certain investments held by such subsidiaries during the three months ended September 30, 2014.
