Re Zweig Total Return Fund Inc. ("ZTR")

Dear Mr. Aylward:

Karpus Management, Inc., d/b/a Karpus Investment Management is the beneficial owner of 1,679,847 shares or 4.82% of the outstanding common shares (the "shares") of the Zweig Total Return Fund Inc (the "Fund"). As a long term shareholder, Karpus is concerned about the significant discount at which the Fund shares currently trade. On June 2, 2010, shareholders approved the "Board recommended" proposal to remove the original charter provision which required the Board of Directors of the Fund (the "Board") to submit to shareholders a proposal to convert the Fund to an open-end investment company if the Fund's shares traded at an average discount from net asset value of 10% or more during the preceding fiscal quarter (the "Lifeboat Provision"). The shareholders followed the recommendation of the Fund's Board. **However, since the elimination of this valuable Lifeboat Provision, the Fund shares have traded at an average discount of over 10%.** Clearly the Fund shareholders have not been well served by the elimination of the Lifeboat Provision. Fund shareholders have also suffered through a dilutive rights offering in January 2011 and a 30% cut in the distribution policy in March 2012. The Board is apparently concerned about the discount at which the Fund shares trade, and the net asset value of the fund has modestly increased due to the expanded stock repurchase program. However, the current discount at which the fund is trading is actually larger than when the share repurchase program was announced. Karpus believes that greater measures must be taken if the Board is serious about significantly reducing the discount. In fact, it appears that the Board had a plan in mind when the original charter was amended in 2010 to state: "In the event that, for any fiscal quarter ending on or after June 30, 2010, the shares of the Corporation trade at an average discount from their net asset value of 10% or more the Board of Directors at its next regularly scheduled meeting shall consider potential measures to seek to reduce the discount, which may include open-market purchases of, or **tender offers for, shares of the Corporation**, or other programs intended to reduce the discount." (Emphasis added). **In the opinion of Karpus, a tender offer for a significant percentage of the outstanding shares at or near net asset value would afford shareholders the opportunity to realize the intrinsic value of their shares, while reducing the oversupply of shares in the market.** We appreciate the Board's consideration of this matter.

Sincerely,

/s/
