NOTES TO THE CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS

For the 3 and 9 months ended March 31, 2014

(Unaudited)

Stated in Canadian dollars

Note 1 Nature and Continuance of Operations

Golden Global Corp. ("the Company"), incorporated in the State of Nevada, USA on December 10, 2009, and its wholly-owned subsidiary are engaged in the acquisition, exploration and development of precious metal properties. The Company's wholly owned subsidiary is Golden Global Mining Corporation which was incorporated in the Province of Alberta, Canada on January 10, 2010. The Company is an exploration stage company in the process of exploring its mineral properties in British Columbia, Canada, and has not yet determined whether these properties contain reserves that are economically recoverable.

These financial statements have been prepared in accordance with generally accepted accounting principles applicable to a going concern, which assumes that the Company will be able to meet its obligations and continue its operations for its next fiscal year. Realization values may be substantially different from carrying values as shown and these financial statements do not give effect to adjustments that would be necessary to the carrying values and classification of assets and liabilities should the Company be unable to continue as a going concern. At March 31, 2014, the Company had not yet achieved profitable operations and has accumulated losses of \$1,230,025 since its inception. The Company expects to incur further losses in the development of its business, all of which casts substantial doubt about the Company's ability to continue as a going concern. The Company's ability to continue as a going concern is dependent upon its ability to generate future profitable operations and/or to obtain the necessary financing to meet its obligations and repay its liabilities arising from normal business operations when they come due. Management anticipates that additional funding will be in the form of equity financing from the sale of common stock. Management may also seek to obtain short-term loans from the directors of the Company. There are no current arrangements in place for equity funding or short-term loans.

The unaudited condensed financial statements included herein have been prepared by Company pursuant to the rules and regulations of the Securities and Exchange Commission (the "SEC"). The financial statements reflect all adjustments that are, in the opinion of management, necessary for a fair statement of such information. All such adjustments are of a normal recurring nature. Although the Company believes that the disclosures are adequate to make the information presented not misleading, certain information and footnote disclosures, including a description

of significant accounting policies normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America (US GAAP), have been condensed or omitted pursuant to such rules and regulations. These consolidated financial statements should be read in conjunction with the financial statements and the notes thereto included in the Company s Annual Report on Form 10-K for the year ended June 30, 2013 filed with the SEC.

Note 2 Summary of Significant Accounting Policies

This summary of significant accounting policies is presented to assist in understanding the unaudited condensed interim consolidated financial statements. The financial statements and notes are the representations of the Company s management, who is responsible for their integrity and objectivity. These consolidated financial statements have been prepared in accordance with the instructions to form 10-Q, and therefore, do not included all the information necessary for a fair presentation of financial position, results of operations and cash flows in conformity with generally accepted accounting principles.

Note 2 Summary of Significant Accounting Policies (Continued)

Basis of Presentation

The Company's interim consolidated financial statements included herein are prepared under the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. These interim consolidated financial statements include the Company's subsidiary, Golden Global Mining Corporation, and 100 percent of its assets, liabilities and net income or loss. All inter-company accounts and transactions have been eliminated.

While the information presented in the accompanying interim three months consolidated financial statements is unaudited, it includes all adjustments, which are, in the opinion of management, necessary to present fairly the financial position, results of operation and cash flows for the interim periods presented. All adjustments are of a normal recurring nature. Operating results for the period ended March 31, 2014 are not necessarily indicative of the results that can be expected for the year ended June 30, 2014.

Recent Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2011-11 Balance Sheet (Topic 210): Disclosures about Offsetting Assets and Liabilities (ASU 2011-11). ASU 2011-11 require that an entity disclose information about offsetting and related arrangements to enable users of its financial statements to understand the effect of those arrangements on its financial position. ASC 2011-11 is effective for annual and interim periods beginning on or after January 1, 2013. The Company adopted this standard effective July 1, 2013 and the adoption had no impact to the interim consolidated financial statements.

In March 2013, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2013-05 Foreign Currency Matters (Topic 830): Parent s Accounting for the Cumulative Translation Adjustment upon Derecognition of Certain Subsidiaries or Group of Assets within a Foreign Entity or of an Investment in a Foreign Entity (ASC 2013-05). ASC 2013-05 requires that when a reporting entity (parent) ceases to have a controlling financial interest in a subsidiary or group of assets that is a non-profit activity or a business (other than a sale of in substance real estate or conveyance of oil and gas mineral rights) within a foreign entity, the parent is required to apply the guidance in Subtopic 830-30 to release any related cumulative translation adjustment into net income.

Accordingly, the cumulative translation adjustment should be released into net income only if the sale or transfer results in the complete or substantially complete liquidation of the foreign entity in which the subsidiary or group of assets had resided. ASC 2013-05 is effective for annual and interim periods beginning after December 15, 2013. The Company is currently assessing the impact of ASC 2013-05 to the consolidated financial statements.

In July 2013, the FASB issued an accounting update: Income Taxes: Presentation of an unrecognized Tax Benefit When a Net operating Loss Carryforward, a Similar Tax Loss, or a Tax Credit Carry Forward Exists . The update provides guidance on the financial statement presentation of a unrecognized tax benefit, as either a reduction of a deferred tax asset or as a liability, when a net operating loss carry forward, similar tax loss, or a tax credit carry forward exists. The update will be effective for interim and annual periods beginning after December 15, 2013 and may be applied on a retrospective basis. Early adoption is permitted. The Company is currently assessing the impact of the adoption of this update to the consolidated financial statements.

The fair value of the derivatives as at March 31, 2014 was \$234,528 (June 30, 2013 - \$95,344). Corporate History

We were incorporated on December 9, 2009, under the laws of the State of Nevada. We have a wholly-owned subsidiary, Golden Global Mining Corporation, incorporated under the laws of Alberta. Our principal office is located at 2537 S. Gessner Road, Suite 122, Houston, TX 77063. Our telephone number is (780) 443-4652 for our Canadian office and (832) 252-7720 for our US office. Our website address is: www.goldenglobalcorp.com and our fiscal year end is June 30.

Other than as set out herein, we have not been involved in any bankruptcy, receivership or similar proceedings, nor have we been a party to any material reclassification, merger, consolidation or purchase or sale of a significant amount of assets not in the ordinary course of our business.

Our Current Business

We are a start-up, exploration stage company. We have only recently begun operations, and we rely upon the sale of our securities and debt financing to fund those operations, as we have not generated any revenue. Our initial plan is to begin mining our placer gold claims on our McDame property located in north central British Columbia, Canada. The McDame property consists of placer claims #362586 and #363240, located near Cassiar, in the Liard Mining Division of British Columbia, Canada. Our long term plan is to explore and, if warranted, develop further mining by acquiring other leases. We have a copper option in the Democratic Republic of Congo (DRC) which we will explore if we have sufficient capital resources.

Due to our limited capital, we have focused on our McDame property. We have recently commenced final preparations for mining to commence in about 3 months, barring any unforeseen circumstances. We are in the process of purchasing the last piece of heavy machinery and utility vehicles that need to be transported to the mining site. Gold mining is high risk business, and until mining commences and the gold obtained is sold at a profit, we cannot be considered a revenue producing company.

As of March 31, 2014, the Company has generated no revenues and has sustained net losses since inception (December 9, 2009) of \$1,230,025. Our expenses for the nine month period ended March 31, 2014, were \$112,227, compared to \$134,227

for the nine month period ended March 31, 2013. For the three month period ended March 31, 2014, our expenses totaled \$28,614, compared to \$26,587 for the same period in 2013. The increase in expenses was due to an increase in administrative and consulting fees and expenses.

Mining company acquisition under consideration.

On November 25 2013, our company entered into a letter of intent with the Sunro Copper Group, to purchase the Sunro Copper Mine located on Vancouver Island B.C. Canada from Sunro Copper Group of 1165 Burdett Avenue, Victoria, B.C. V8V 3H3. The agreed purchase price is Canadian \$2,000,000 in cash plus 3,000,000 shares of the company s common shares.

Though the letter of intent has expired without any agreement being reached we are still in contact with the Sunro Copper Group. Furthermore, as recent developments have allowed us to proceed with our final preparations to start mining at our McDame lease Management has decided to give it our top priority and work diligently to ensure its success.
