(1) BASIS OF PRESENTATION

The accompanying unaudited condensed consolidated financial statements are prepared in accordance with instructions to Form 10-Q and do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America ("GAAP") for complete financial statements. All adjustments are of a normal and recurring nature and, in the opinion of management, the statements include all adjustments considered necessary for fair presentation. These statements should be read in conjunction with the consolidated financial statements and notes thereto included in the Company's Annual Report on Form 10-K to the Securities and Exchange Commission. Operating results for the six month period ended March 31, 2010, are not necessarily indicative of the results that may be expected for the fiscal year ending September 30, 2010. The condensed consolidated balance sheet of the Company as of September 30, 2009, has been derived from the audited balance sheet of the Company as of that date.

In preparing the financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the balance sheet and revenues and expenses for the period. Material estimates that are particularly susceptible to significant change in the near-term relate to the determination of the allowances for losses on loans, real estate owned, valuation of mortgage servicing rights, and unrecognized tax benefits. Management believes that these allowances are adequate, however, future additions to the allowances may be necessary based on changes in economic conditions.

The Company's critical accounting policies involving the more significant judgments and assumptions used in the preparation of the condensed consolidated financial statements as of March 31, 2010, have remained unchanged from September 30, 2009. These policies relate to the allowance for loan losses, the valuation of derivative instruments, and the valuation of mortgage servicing rights. Disclosure of these critical accounting policies is incorporated by reference under Item 8 "Financial Statements and Supplementary Data" in the Company's Annual Report on Form 10-K for the Company's year ended September 30, 2009.

Certain quarterly amounts for previous periods have been reclassified to conform to the current quarter's presentation.

(2) RECONCILIATION OF BASIC EARNINGS PER SHARE TO DILUTED EARNINGS PER SHARE

The following table presents a reconciliation of basic earnings per share to diluted earnings per share for the periods indicated.

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

	Three months ended		Six months ended	
	3/31/10	3/31/09	3/31/10	3/31/09
Net income (in thousands)	\$ 3,219	4,731	4,548	8,379
Average common shares outstanding	7,867,614	7,867,614	7,867,614	7,867,614
Average common share stock options outstanding	--	--	--	--
Average diluted common shares	7,867,614	7,867,614	7,867,614	7,867,614
Earnings per share:				
Basic	\$ 0.41	0.60	0.58	1.06
Diluted	0.41	0.60	0.58	1.06

At March 31, 2010, options to purchase 62,038 shares of the Company's stock were outstanding. These options were not included in the calculation of diluted earnings per share, as they were considered anti-dilutive.

6

(3) SECURITIES AVAILABLE FOR SALE

10

(7) LOANS RECEIVABLE

Loans receivable are as follows at March 31, 2010. Dollar amounts are expressed in thousands.

LOANS HELD FOR INVESTMENT:

Mortgage loans:

Permanent loans on:

Residential properties	\$ 359,084
Business properties	460,800
Partially guaranteed by VA or insured by FHA	4,760
Construction and development	280,701

Total mortgage loans	1,105,345
Commercial loans	115,011
Installment loans to individuals	11,966

Total loans held for investment	1,232,322
Less:	
Undisbursed loan funds	(31,586)
Unearned discounts and fees and costs on loans, net	(8,154)

Net loans held for investment	\$1,192,582
=====	

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

LOANS HELD FOR SALE:

Mortgage loans:

Permanent loans on:

Residential properties \$ 150,133

Less:

Undisbursed loan funds (56,103)

Net loans held for sale \$ 94,030

 =====

Included in the loans receivable balances at March 31, 2010, are participating interests in mortgage loans and wholly owned mortgage loans serviced by other institutions in the amount of \$21.4 million. Loans and participations serviced for others amounted to approximately \$83.5 million at March 31, 2010.

The following table presents the activity in the allowance for losses on loans for the period ended March 31, 2010. Allowance for losses on mortgage loans includes specific valuation allowances and valuation allowances associated with homogenous pools of loans. Dollar amounts are expressed in thousands.

Balance at October 1, 2009	\$ 20,699
Provisions	14,000
Charge-offs	(8,814)
Recoveries	1

Balance at March 31, 2010	\$ 25,886
	=====

11

(8) FORECLOSED ASSETS HELD FOR SALE

Real estate owned and other repossessed property consisted of the following at March 31, 2010. Dollar amounts are expressed in thousands.

Real estate acquired through (or deed in lieu of) foreclosure	\$ 24,252
Less: allowance for losses	(275)

Total	\$ 23,977
	=====

Foreclosed assets held for sale are initially recorded at fair value as of the date of foreclosure less any estimated selling costs (the "new basis") and are subsequently carried at the lower of the new basis or fair value less selling costs on the current measurement date. When foreclosed assets are acquired any excess of the loan balance over the new basis of the foreclosed asset is charged to the allowance for loan losses. Subsequent adjustments for estimated losses are charged to operations when the fair value declines to an amount less than the carrying value. Costs and expenses related to major additions and improvements are capitalized, while maintenance and repairs that do not improve or extend the lives of the respective assets are expensed. Applicable gains and losses on the sale of real estate owned are realized when the asset is disposed of, depending on the adequacy of the

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

down payment and other requirements.

(9) MORTGAGE SERVICING RIGHTS

(10) SUBORDINATED DEBENTURES

On December 13, 2006, NASB Financial, Inc. (the "Company"), through its wholly owned statutory trust, NASB Preferred Trust I (the "Trust"), issued \$25.0 million of pooled Trust Preferred Securities. The Trust used the proceeds from the offering to purchase a like amount of NASB Financial Inc.'s subordinated debentures. The debentures, which have a variable rate of 1.65% over the 3-month LIBOR and a 30-year term, are the sole assets of the Trust. In exchange for the capital contributions made to the Trust by NASB Financial, Inc. upon formation, NASB Financial, Inc. owns all the common securities of the Trust.

The Trust qualifies as a special purpose entity that is not required to be consolidated in the financial statements of the Company. The \$25.0 million Trust Preferred Securities issued by the Trust will remain on the records of the Trust. The Trust Preferred Securities are included in Tier I capital for regulatory capital purposes.

The Trust Preferred Securities have a variable interest rate of 1.65% over the 3-month LIBOR, and are mandatorily redeemable upon the 30-year term of the debentures, or upon earlier redemption as provided in the Indenture. The debentures are callable, in whole or in part, after five years from the issuance date. The Company did not incur a placement or annual trustee fee related to the issuance. The securities are subordinate to all other debt of the Company and interest may be deferred up to five years.

12

(11) INCOME TAXES

During the six month period ended March 31, 2010, the Company's liability for unrecognized tax benefit was eliminated as a result of the settlements with various taxing authorities.

The Company's federal and state income tax returns for fiscal years 2006 through 2009 remain subject to examination by the Internal Revenue Service and various state jurisdictions, based on the statute of

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

limitations.

(12) SEGMENT INFORMATION

The Company has identified two principal operating segments for purposes of financial reporting: Banking and Mortgage Banking. These segments were determined based on the Company's internal financial accounting and reporting processes and are consistent with the information that is used to make operating decisions and to assess the Company's performance by the Company's key decision makers.

The Mortgage Banking segment originates mortgage loans for sale to investors and for the portfolio of the Banking segment. The Banking segment provides a full range of banking services through the Bank's branch network, exclusive of mortgage loan originations. A portion of the income presented in the Mortgage Banking segment is derived from sales of loans to the Banking segment based on a transfer pricing methodology that is designed to approximate economic reality. The Other and Eliminations segment includes financial information from the parent company plus inter-segment eliminations.

The following table presents financial information from the Company's operating segments for the periods indicated. Dollar amounts are expressed in thousands.

Three months ended March 31, 2010	Banking	Mortgage Banking	Other and Eliminations	Consolidated

(13) DERIVATIVE INSTRUMENTS

The Company has commitments outstanding to extend credit that have not closed prior to the end of the period. As the Company enters into commitments to originate loans, it also enters into commitments to sell the loans in the secondary market. Such commitments to originate loans held for sale are considered derivative instruments in accordance with GAAP, which requires the Company to recognize all derivative instruments in the balance sheet and to measure those instruments at fair value.

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

As a result of marking to market commitments to originate loans, the Company recorded an increase in other assets of \$70,000, an increase in other liabilities of \$249,000, and a decrease in other income of \$179,000 for the quarter ended March 31, 2010. The Company recorded a decrease in other assets of \$938,000, an increase in other liabilities of \$936,000, and a decrease in other income of \$1.9 million for the six month period ended March 31, 2010.

Additionally, the Company has commitments to sell loans that have closed prior to the end of the period. Due to the mark to market adjustment on commitments to sell loans held for sale, the Company recorded a decrease in other assets of \$292,000, an increase in other liabilities of \$60,000, and a decrease in other income of \$352,000 during the quarter ended March 31, 2010. The Company recorded an increase in other assets of \$1.2 million, a decrease in other liabilities of \$499,000, and an increase in other income of \$1.6 million during the six month period ended March 31, 2010.

The balance of derivative instruments related to commitments to originate and sell loans at March 31, 2010, is disclosed in Footnote 14, Fair Value Measurements.

(14) FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would likely be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. GAAP identifies three primary measurement techniques: the market approach, the income approach, and the cost approach. The market approach uses prices and other relevant information generated by market transactions involving identical or comparable assets or liabilities. The income approach uses valuations or techniques to convert future amounts, such as cash flows or earnings, to a single present amount. The cost approach is based on the amount that currently would be required to replace the service capability of an asset.

GAAP establishes a fair value hierarchy and prioritizes the inputs to valuation techniques used to measure fair value into three broad levels. The fair value hierarchy gives the highest priority to observable inputs such as quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The maximization of observable inputs and the minimization of the use of unobservable inputs are required. Classification within the fair value hierarchy is based upon the objectivity of the inputs that are significant to the valuation of an asset or liability as of the measurement date. The three levels within the fair value hierarchy are characterized as follows:

14

- Level 1 - Quoted prices in active markets for identical assets or liabilities that the Company has the ability to access at the measurement date.
- Level 2 - Inputs other than quoted prices included with Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include: quoted prices for similar assets or liabilities in active markets; quoted prices for

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

identical or similar assets or liabilities in markets that are not active; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

- Level 3 - Unobservable inputs for the asset or liability for which there is little, if any, market activity for the asset or liability at the measurement date. Unobservable inputs reflect the Company's own assumptions about what market participants would use to price the asset or liability. These inputs may include internally developed pricing models, discounted cash flow methodologies, as well as instruments for which the fair value determination requires significant management judgment.

The Company measures certain financial assets and liabilities at fair value in accordance with GAAP. These measurements involve various valuation techniques and assume that the transactions would occur between market participants in the most advantageous market for the Company.

The following is a summary of valuation techniques utilized by the Company for its significant financial assets and liabilities measured at fair value on a recurring basis and recognized in the accompanying balance sheets, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy:

Available for sale securities

Securities available for sale consist of corporate debt, trust preferred and municipal securities and are valued using quoted market prices in an active market. This measurement is classified as Level 1 within the hierarchy.

Mortgage-backed available for sale securities are valued using broker dealer quotes for similar assets in markets that are not active. Such quotes are based on actual transactions for similar assets, and are reviewed by management for reasonableness in relation to current market conditions. Additionally, they are obtained from experienced brokers who have an established relationship with the Bank and deal regularly with these types of securities. The Company does not make any adjustment to the quotes received from broker dealers. These measurements are classified as Level 2.

Loans held for sale

Loans held for sale are valued using quoted market prices for loans with similar characteristics. This measurement is classified as Level 2 within the hierarchy.

Mortgage Servicing Rights

Mortgage servicing rights do not trade in an active market with readily observable market prices. Therefore, fair value is assessed using a valuation model that calculates the discounted cash flow using assumptions such as estimates of prepayment speeds, market discount rates, servicing fee income, and cost of servicing. These measurements are classified as Level 3. Mortgage servicing rights are initially recorded at amortized cost and are amortized over the period of net servicing income. They are evaluated for impairment monthly, and valuation adjustments are recorded as necessary to reduce the carrying value to fair value.

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

Commitments to Originate Loans and Forward Sales Commitments

Commitments to originate loans and forward sales commitments are valued using a valuation model which considers differences between current market interest rates and committed rates. The model also includes assumptions which estimate fall-out percentages for commitments to originate loans. These measurements use significant unobservable inputs and are classified as Level 3 within the hierarchy.

15

The following table presents the fair value measurements of assets recognized in the accompanying balance sheets measured at fair value on a recurring basis and the level within the fair value hierarchy in which the measurements fall at March 31, 2010 (in thousands):

	Quoted Prices in Active Markets for Fair Value	Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Balance at March 31, 2010	\$ 309	(850)	1,279
	=====		

17

Realized and unrealized gains and losses noted in the table above and included in net income for the six month period ended March 31, 2010, are reported in the consolidated statements of income as follows (in thousands):

	Loan Servicing Fees	Impairment Recovery on Mortgage Servicing Rights	Other Income

Total gains (losses)	\$ (51)	4	(216)
	=====		
Changes in unrealized gains (losses) relating to assets still held at the balance sheet date	\$ --	--	--
	=====		

The following is a summary of valuation techniques utilized by the Company for its significant financial assets and liabilities measured at fair value on a nonrecurring basis and recognized in the accompanying balance sheets, as well as the general classification of such assets and liabilities pursuant to the valuation hierarchy:

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

Impaired loans

Loans for which it is probable that the Company will not collect principal and interest due according to contractual terms are measured for impairment. If the impaired loan is identified as collateral dependent, then the fair value method of measuring the amount of impairment is utilized. This method requires obtaining a current independent appraisal of the collateral and other internal assessments of value. Impaired loans are classified within Level 3 of the fair value hierarchy.

The carrying value of impaired loans that were re-measured during the six month period was \$36.7 million at March 31, 2010.

Foreclosed Assets Held For Sale

Foreclosed assets held for sale are initially recorded at fair value as of the date of foreclosure less any estimated selling costs (the "new basis") and are subsequently carried at the lower of the new basis or fair value less selling costs on the current measurement date. Fair value is estimated through current appraisals, broker price opinions, or listing prices. Foreclosed assets held for sale are classified within Level 3 of the fair value hierarchy.

The carrying value of foreclosed assets held for sale was \$24.0 million at March 31, 2010. During the six month period ended March 31, 2010, charge-offs and increases in specific reserves related to foreclosed assets held for sale that were re-measured during the period totaled \$278,000.

Investment in LLCs

Investments in LLCs are accounted for using the equity method of accounting. Such investments are analyzed for impairment in accordance with ASC 323-10-35-32, which states that an other than temporary decline in value of an equity method investment should be recognized.

The carrying value of the Company's investment in LLCs was \$19.0 million at March 31, 2010. During the six month period ended March 31, 2010, the Company recorded an impairment charge of \$2.0 million on its investment in LLCs.

18

The following table presents the carrying values and fair values of the Company's financial instruments at March 31, 2010, which have not been previously reported. Dollar amounts are expressed in thousands.

Lending commitments - floating rate	--	--
Commitments to sell loans	--	--

The fair value estimates presented are based on pertinent information available to management as of March 31, 2010. Although management is not aware of any factors that would significantly affect the estimated fair values, such amounts have not been comprehensively revalued for purposes of these consolidated financial statements since that date. Therefore, current estimates of fair value may differ significantly from the amounts presented above. The method of estimating fair values does not incorporate the exit-price concept of fair value prescribed by ASC 820, Fair Value Measures and Disclosures.

(15) SUPERVISORY AGREEMENT

On April 30, 2010, the Board of Directors of North American Savings Bank, F.S.B. (the "Bank"), a wholly owned subsidiary of the Company,

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

entered into a Supervisory Agreement with the Office of Thrift Supervision ("OTS"), the Bank's primary regulator, effective as of that date. The agreement requires, among other things, that the Bank revise its policies regarding internal asset review, obtain an independent assessment of its allowance for loan and lease losses methodology and conduct an independent third-party review of a portion of its commercial and construction loan portfolios. The agreement also directs the Bank to provide a plan to reduce its classified assets and its reliance on brokered deposits, and restricts the payment of dividends or other capital distributions by the Bank or the Company during the period of the agreement. The agreement did not direct the Bank to raise capital, make management or board changes, revise any loan policies or restrict lending growth. The Bank received written communication from OTS that, notwithstanding the existence of the Supervisory Agreement, the Bank will not be deemed to be in "troubled condition."

(16) IMPAIRMENT OF INVESTMENT IN LLC

The Company's investment in Central Platte Holdings LLC ("Central Platte") consists of a 50% ownership interest in an entity that develops land for residential real estate sales. The Company accounts for its investment in Central Platte under the equity method. Sales of lots have not met previous expectations and, as a result, the Company evaluated its investment for impairment. The Company performed a valuation analysis of its investment in Central Platte in accordance with ASC 323-10-35-32, which provides guidance related to a loss in value of an equity method investment. As a result of this analysis, the Company determined that its investment in Central Platte was materially impaired and recorded an impairment charge of \$2.0 million (\$1.2 million, net of tax) during the quarter ended December 31, 2009. The Company's investment in Central Platte, after the impairment charge, was \$16.5 million at March 31, 2010.

20

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

GENERAL

The principal business of the Company is to provide banking services through the Bank. Specifically, the Bank obtains savings and checking deposits from the public, then uses those funds to originate and purchase real estate loans and other loans. The Bank also purchases mortgage-backed securities ("MBS") and other investment securities from time to time as conditions warrant. In addition to customer deposits, the Bank obtains funds from the sale of loans held-for-sale, the sale of securities available-for-sale, repayments of existing mortgage assets, advances from the Federal Home Loan Bank ("FHLB"), and the purchase of brokered deposit accounts. The Bank's primary sources of income are interest on loans, MBS, and investment securities plus customer service fees and income from mortgage banking activities. Expenses consist primarily of interest payments on customer deposits and other borrowings and general and administrative costs.

The Bank is regulated by the Office of Thrift Supervision ("OTS")

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

and the Federal Deposit Insurance Corporation ("FDIC"), and is subject to periodic examination by both entities. The Bank is also subject to the regulations of the Board of Governors of the Federal Reserve System ("FRB"), which establishes rules regarding reserves that must be maintained against customer deposits.

FINANCIAL CONDITION

ASSETS

The Company's total assets as of March 31, 2010 were \$1,460.3 million, a decrease of \$99.3 million from September 30, 2009, the prior fiscal year end.

Loans receivable held for investment were \$1,192.6 million as of March 31, 2010, a decrease of \$67.1 million during the six month period. The weighted average rate on such loans as of March 31, 2010 was 6.35%, an increase from 6.30% as of March 31, 2009.

Loans receivable held for sale as of March 31, 2010 were \$94.0 million, an increase of \$12.7 million from September 30, 2009. The Company has elected to carry loans held for sale at fair value, as permitted under GAAP.

As the Bank originates mortgage loans each month, management evaluates the existing market conditions to determine which loans will be held in the Bank's portfolio and which loans will be sold in the secondary market. Loans sold in the secondary market can be sold with servicing released or converted into MBS and sold with the loan servicing retained by the Bank. At the time of each loan commitment, a decision is made to either hold the loan for investment, hold it for sale with servicing retained, or hold it for sale with servicing released. Management monitors market conditions to decide whether loans should be held in portfolio or sold and if sold, which method of sale is appropriate. During the six months ended March 31, 2010, the Bank originated and purchased \$773.5 million in mortgage loans held for sale, \$56.6 million in mortgage loans held for investment, and \$1.1 million in other loans. This total of \$831.2 million in loans compares to \$806.7 million in loans originated and purchased during the six months ended March 31, 2009.

The Bank classifies problem assets as "substandard," "doubtful" or "loss." Substandard assets have one or more defined weaknesses, and it is possible that the Bank will sustain some loss unless the deficiencies are corrected. Doubtful assets have the same defects as substandard assets plus other weaknesses that make collection or full liquidation improbable. Assets classified as loss consist of the reserved portion of loans classified as impaired pursuant to ASC 310-10-35.

21

The following table summarizes the Bank's classified assets as reported to the OTS, plus any classified assets of the holding company. Dollar amounts are expressed in thousands.

3/31/10	9/30/09	3/31/09
---------	---------	---------

Asset Classification:

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

Substandard	\$ 119,571	69,158	40,638
Doubtful	--	--	--
Loss	11,959	6,415	1,424

	-----	-----	-----
Total	\$ 80,686	63,124	28,150
	=====	=====	=====
Percent of total assets	5.53%	4.05%	1.81%
	=====	=====	=====

Management records a provision for loan losses in amounts sufficient to cover current net charge-offs and an estimate of probable losses based on an analysis of risks that management believes to be inherent in the loan portfolio. The Allowance for Loan and Lease Losses ("ALLL") recognizes the inherent risks associated with lending activities, but, unlike specific allowances, have not been allocated to particular problem assets but to a homogenous pool of loans. Management believes that the specific loss allowances and ALLL are adequate. While management uses available information to determine these allowances, future allowances may be necessary because of changes in economic conditions. Also, regulatory agencies (OTS and FDIC) review the Bank's allowance for losses as part of their examinations, and they may require the Bank to recognize additional loss provisions based on the information available at the time of their examinations.

In accordance with the Supervisory Agreement of April 30, 2010, with the Office of Thrift Supervision, the Bank is required to engage a third-party consultant to perform an independent review of a significant portion of its non-homogenous loan portfolios, an independent assessment of its internal asset review structure, and an independent assessment of its allowance for loan and lease losses methodology. The outcomes from

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

these reviews could result in changes to the Company's classified asset levels and ALLL methodology and, consequently, could necessitate additional loss provisions during the quarter ending June 30, 2010.

Investment securities were \$20.3 million as of March 31, 2010, a decrease of \$2.7 million from September 30, 2009. During the six month period, the Bank purchased securities of \$18.3 million and sold \$22.5 million of securities available for sale.

22

Mortgage-backed securities were \$61.5 as of March 31, 2010, an increase of \$3.8 million from the prior year end. During the six month period, the Bank purchased mortgage-backed securities of \$54.8 million and sold \$42.8 million of mortgage-backed securities available for sale.

The Company's investment in LLCs, which is accounted for using the equity method, was \$19.0 million at March 31, 2010, a decrease of \$2.0 million from September 30, 2009. During the quarter ended December 31, 2009, the Company recorded a \$2.0 million impairment charge related to its investment in Central Platte Holdings, LLC. The Company and its independent audit firm, BKD, LLP, consulted with the U.S. Securities and Exchange Commission's Office of the Chief Accountant regarding their interpretation of accounting guidance for measuring impairment of an equity method investment. As a result, the Company evaluated its methodology for measuring impairment of its investment in Central Platte. The Company prepared an analysis of the value of its investment in Central Platte based upon various scenarios. As a result, the Company determined that an impairment charge of \$2.0 million (\$1.2 million, net of tax) was appropriate for the quarter ended December 31, 2009. There have been no events subsequent to December 31, 2009, that would indicate an additional impairment in value of the Company's investment in Central Platte, which was \$16.5 million at March 31, 2010.

LIABILITIES AND EQUITY

Customer and brokered deposit accounts decreased \$35.4 million during the six months ended March 31, 2010. The weighted average rate on customer and brokered deposits as of March 31, 2010 was 1.94%, a decrease from 2.99% as of March 31, 2009.

Advances from the FHLB were \$386.0 million as of March 31, 2010, a decrease of \$55.0 million from September 30, 2009. During the six month period, the Bank borrowed \$10.0 million of new advances and repaid \$65.0 million. Management regularly uses FHLB advances as an alternate funding source to provide operating liquidity and to fund the origination and purchase of mortgage loans.

Subordinated debentures were \$25.8 million as of March 31, 2010. Such debentures resulted from the issuance of Trust Preferred Securities through the Company's wholly owned statutory trust, NASB Preferred Trust I. The Trust used the proceeds from the offering to purchase a like amount of the Company's subordinated debentures. The debentures, which have a variable rate of 1.65% over the 3-month LIBOR and a 30-year term, are the sole assets of the Trust.

Escrows were \$6.4 million as of March 31, 2010, a decrease of \$3.8 million from September 30, 2009. This decrease is due to amounts paid for borrowers' taxes during the fourth calendar quarter of 2009.

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

Total stockholders' equity as of March 31, 2010 was \$166.0 million (11.4% of total assets). This compares to \$166.4 million (10.7% of total assets) at September 30, 2009. On a per share basis, stockholders' equity was \$21.10 on March 31, 2010, compared to \$21.15 on September 30, 2009.

The Company paid cash dividends on its common stock of \$0.225 per share on November 27, 2009 and February 26, 2010. In accordance with the Supervisory Agreement of April 30, 2010, with the Office of Thrift Supervision, the Company is restricted from the payment of dividends or other capital distributions during the period of the agreement.

Total stockholders' equity as of March 31, 2010 includes an unrealized gain, net of deferred income taxes, on available for sale securities of \$462,000. This amount is reflected in the line item "Accumulated other comprehensive income."

RATIOS

The following table illustrates the Company's return on assets (annualized net income divided by average total assets); return on equity (annualized net income divided by average total equity); equity-to-assets ratio (ending total equity divided by ending total assets); and dividend payout ratio (dividends paid divided by net income).

	Six months ended	
	3/31/10	3/31/09
Return on assets	0.60%	1.09%
Return on equity	5.47%	10.81%
Equity-to-assets ratio	11.37%	10.18%
Dividend payout ratio	77.84%	42.25%

23

RESULTS OF OPERATIONS - Comparison of three and six months ended March 31, 2010 and 2009.

For the three months ended March 31, 2010, the Company had net income of \$3,219,000 or \$0.41 per share. This compares to net income of \$4,731,000 or \$0.60 per share for the quarter ended March 31, 2009.

For the six months ended March 31 2010, the Company had net income of \$4,548,000 or \$0.58 per share. This compares to net income of \$8,379,000 or \$1.06 per share for the six months ended March 31, 2009.

NET INTEREST MARGIN

The Company's net interest margin is comprised of the difference ("spread") between interest income on loans, MBS and investments and the interest cost of customer and brokered deposits and other borrowings. Management monitors net interest spreads and, although constrained by certain market, economic, and competition factors, it establishes loan rates and customer deposit rates that maximize net interest margin.

The following table presents the total dollar amounts of interest income and expense on the indicated amounts of average interest-earning

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

24

The following table provides information regarding changes in interest income and interest expense. For each category of interest-earning asset and interest-costing liability, information is provided on changes attributable to (1) changes in rates (change in rate multiplied by the old volume), and (2) changes in volume (change in volume multiplied by the old rate), and (3) changes in rate and volume (change in rate multiplied by the change in volume). Average balances, yields and rates used in the preparation of this analysis come from the preceding table. Dollar amounts are expressed in thousands.

Net interest margin before loan loss provision for the six months ended March 31, 2010 increased \$5.3 million from the same period in the prior year. Specifically, interest income decreased \$2.2 million, which was offset by a \$7.5 million decrease in interest expense for the period. Interest on loans decreased \$3.3 million primarily as the result of a \$65.3 million decrease in the average balance of loans receivable outstanding during the period. This decrease in interest income was partially offset by a \$620,000 increase in interest on mortgage-backed securities due to a \$20.7 million increase in the average balance and a 60 basis point increase in the average yield of such securities. In addition, interest on investment securities increased \$474,000 due to a \$4.6 million increase in the average balance and a 195 basis point increase in the average yield of such securities. Interest expense on customer and brokered deposit accounts decreased \$4.4 million due to a \$41.6 million decrease in the average balance and a 117 basis point decrease in the average rate paid on such interest-costing liabilities. Interest expense on FHLB advances decreased \$2.9 million as the result of an \$83.4 million decrease in the average balance and a 63 basis point decrease in the average rate paid on such liabilities. Interest expense on subordinated debentures decreased \$289,000 due to a 231 basis point decrease in the average rate paid on such liabilities.

PROVISION FOR LOAN LOSSES

The Company recorded a provision for loan losses of \$5.0 million during the quarter ended March 31, 2010, due primarily to increases in loan charge-offs related to the residential construction and development portfolio. The Company recorded a provision for loan losses of \$9.0 million during the quarter ended December 31, 2009 in response to a significant increase in loans classified as substandard or loss. Additionally, management determined that the increased provision was appropriate due to the continued uncertainty in the real estate market. Management performs an ongoing analysis of individual loans and of homogenous pools of loans to assess for any impairment. On a consolidated basis, the allowance for losses on loans and real estate owned was 19.9% of total classified assets at March 31, 2010, 27.4% at

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

September 30, 2009, and 32.1% at March 31, 2009.

Management believes that the allowance for losses on loans and real estate owned is adequate. The provision can fluctuate based on changes in economic conditions, changes in the level of classified assets, changes in the amount of loan charge-offs and recoveries, or changes in other information available to management. Also, regulatory agencies review the Company's allowances for losses as a part of their examination process and they may require changes in loss provision amounts based on information available at the time of their examination.

25

OTHER INCOME

Other income for the three months ended March 31, 2010 increased \$84,000 from the same period in the prior year. Specifically, gain on sale of securities available for sale increased \$1.6 million due to the sale of securities available for sale during the period. Gain on sale of loans held for sale increased \$1.6 million due primarily to increased mortgage banking spreads during the period. These increases were offset by a \$2.8 million decrease in other income, due to the effect of recording the net fair value of certain loan-related commitments in accordance with GAAP and an increase in expenses related to foreclosed assets held for sale. In addition, provision for loss on real estate owned increased \$208,000 due to an increase in foreclosed assets held for sale. Customer service fees and charges decreased \$167,000 due to decrease in return item and overdraft charges on deposit accounts and a decrease in miscellaneous loan fees resulting from lower mortgage loan origination volume during the period.

Other income for the six months ended March 31, 2010 increased \$5.1 million from the same period in the prior year. Specifically, gain on sale of securities available for sale increased \$4.7 million due to the sale of securities available for sale during the period. Gain on sale of loans held for sale increased \$3.8 million due to increased mortgage banking volume during the period. Customer service fees and charges increased \$294,000. Loan servicing fees increased \$311,000 due primarily to a decrease in capitalized servicing amortization, which resulted from a decrease in actual prepayments and estimated future repayments of the underlying mortgage loans during the period. These increases were offset by a \$2.0 million decrease in other income, due to the effect of recording the net fair value of certain loan-related commitments in accordance with GAAP and an increase in expenses related to foreclosed assets held for sale. In addition, the Company recorded a \$2.0 million impairment charge related the Company's investment in LLCs during the quarter ended December 31, 2009.

GENERAL AND ADMINISTRATIVE EXPENSES

Total general and administrative expenses for the three months ended March 31, 2010 increased \$776,000 from the same period in the prior year. Specifically, compensation and fringe benefits increased \$211,000 due primarily to the addition of personnel in the Company's mortgage banking, information technology, and loan servicing departments. Federal deposit insurance premium expense increased \$397,000 related to an increase in premium rates from the prior year. Additionally, advertising and business promotion expense increased \$409,000 due to costs related the Company's rebranding efforts and due to an increase in costs related to the mortgage banking operation.

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

These increases were offset by a \$200,000 decrease in commission-based mortgage banking compensation due primarily to a decrease in mortgage banking volume for the period.

Total general and administrative expenses for the six months ended March 31, 2010 increased \$4.8 million from the same period in the prior year. Specifically, compensation and fringe benefits increased \$851,000 due primarily to the addition of personnel in the Company's mortgage banking, information technology, and loan servicing departments. Commission-based mortgage banking compensation increased \$1.7 million due primarily to an increase in mortgage banking volume for the period. Federal deposit insurance premium expense increased \$1.6 million related primarily to an increase in premium rates. Advertising and business promotion expense increased \$482,000 due to costs related the Company's rebranding efforts and due to an increase in costs related to the mortgage banking operation. Additionally, other expense increased \$188,000 due primarily to increases in consulting fees and credit, appraisal, and other fees related to the Company's lending operations.

REGULATION

The Bank is a member of the FHLB System and its customers' deposits are insured by the Deposit Insurance Fund ("DIF") of the FDIC. The Bank is subject to regulation by the OTS as its chartering authority. Since passage of the Financial Institutions Reform, Recovery, and Enforcement Act of 1989 ("FIRREA" or the "Act"), the FDIC also has regulatory control over the Bank. The transactions of DIF-insured institutions are limited by statute and regulations that may require prior supervisory approval in certain instances. Institutions also must file reports with regulatory agencies regarding their activities and their financial condition. The OTS and FDIC make periodic examinations of the Bank to test compliance with the various regulatory requirements. The OTS can require an institution to re-value its assets based on appraisals and to establish specific valuation allowances. This supervision and regulation is intended primarily for the protection of depositors. Also, savings institutions are subject to certain reserve requirements under Federal Reserve Board regulations.

26

INSURANCE OF ACCOUNTS

The DIF insures the Bank's customer deposit accounts to a maximum of \$100,000 for each insured owner, with the exception of self-directed retirement accounts, which are insured to a maximum of \$250,000. On October 3, 2008, the Emergency Economic Stabilization Act of 2008 temporarily raised the basic limit of federal deposit insurance coverage from \$100,000 to \$250,000 per depositor. This legislation provides that the basic deposit insurance limit will return to \$100,000 after December 31, 2013. Deposit insurance premiums are determined using a Risk-Related Premium Schedule ("RRPS"), a matrix which places each insured institution into one of three capital groups and one of three supervisory groups. Currently, deposit insurance premiums range from 7 to 77.5 basis points of the institution's total deposit accounts, depending on the institution's risk classification. The Bank is currently considered "well capitalized," which is the most favorable capital group and supervisory subgroup. DIF-insured institutions are also assessed a premium to service the interest on Financing Corporation ("FICO") debt.

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

On May 22, 2009, the Federal Deposit Insurance Corporation (FDIC) adopted a rule imposing a five basis point special assessment on all insured financial institutions' assets minus its Tier I capital as of June 30, 2009, which was collected on September 30, 2009. On November 12, 2009, the FDIC adopted a rule requiring insured institutions to prepay their estimated quarterly risk-based assessments for the fourth calendar quarter of 2009, and all of 2010, 2011, and 2012. The prepaid assessment for these periods was collected on December 31, 2009, along with each institution's regular quarterly risk-based deposit insurance assessment for the third calendar quarter of 2009.

REGULATORY CAPITAL REQUIREMENTS

At March 31, 2010, the Bank exceeds all capital requirements prescribed by the OTS. To calculate these requirements, a thrift must deduct any investments in and loans to subsidiaries that are engaged in activities not permissible for a national bank. As of March 31, 2010, the Bank did not have any investments in or loans to subsidiaries engaged in activities not permissible for national banks.

The following tables summarize the relationship between the Bank's capital and regulatory requirements. Dollar amounts are expressed in thousands.

At March 31, 2010	Amount
-----	-----
GAAP capital (Bank only)	\$ 167,747
Adjustment for regulatory capital:	
Intangible assets	(2,621)
Disallowed portion of servicing assets and deferred tax assets	(24)

Core capital to adjusted tangible assets	164,640	11.5%	57,379	>=4%	71,72
Tangible capital to tangible assets	164,640	11.5%	21,517	>=1.5%	-
Tier 1 capital to risk-weighted assets	164,640	13.7%	--	--	72,16

LOANS TO ONE BORROWER

Institutions are prohibited from lending to any one borrower in excess of 15% of the Bank's unimpaired capital plus unimpaired surplus, or 25% of unimpaired capital plus unimpaired surplus if the loan is secured by certain readily marketable collateral. Renewals that exceed the loans-to-one-borrower limit are permitted if the original borrower remains liable and no additional funds are disbursed. The Bank has received regulatory approval from the OTS under 12 CFR 560.93 to increase its loans-to-one-borrower limit to \$30 million for loans secured by certain residential housing units. Such loans must not, in the aggregate, exceed 150% of the Bank's unimpaired capital and surplus.

LIQUIDITY AND CAPITAL RESOURCES

Liquidity measures the ability to meet deposit withdrawals and lending commitments. The Bank generates liquidity primarily from the sale and repayment of loans, retention or newly acquired retail deposits, and advances from FHLB of Des Moines' credit facility. Management continues to use FHLB advances as a primary source of short-term funding. At March 31, 2010, the Bank had \$114.0 million available in the form of additional FHLB advances. The Bank has established relationships with various brokers, and, as a secondary source of liquidity, the Bank purchases brokered deposit accounts.

Fluctuations in the level of interest rates typically impact prepayments on mortgage loans and MBS. During periods of falling interest rates, these prepayments increase and a greater demand exists for new loans. The Bank's customer deposits are partially impacted by area competition. Management believes that the Bank will retain most of its maturing time deposits in the foreseeable future. However, any material funding needs that may arise in the future can be reasonably satisfied through the use of additional FHLB advances and/or brokered deposits. Management is not aware of any other current market or economic conditions that could materially impact the Bank's future ability to meet obligations as they come due.

SUBSEQUENT EVENT

On April 30, 2010, the Board of Directors of North American Savings Bank, F.S.B. (the "Bank"), a wholly owned subsidiary of the Company, entered into a Supervisory Agreement with the Office of Thrift Supervision ("OTS"), the Bank's primary regulator, effective as of that date. The agreement requires, among other things, that the Bank revise its policies regarding internal asset review, obtain an independent assessment of its allowance for loan and lease losses methodology and conduct an independent third-party review of a portion of its commercial and construction loan portfolios. The agreement also directs the Bank to provide a plan to reduce its classified assets and its reliance on brokered deposits, and restricts the payment of dividends or other capital distributions by the Bank or the Company during the period of the agreement. The agreement did not direct the Bank to raise capital, make management or board changes, revise any loan policies or restrict lending growth. The Bank received written communication from OTS that, notwithstanding the existence of the Supervisory Agreement, the Bank

Edgar Filing: NASB FINANCIAL INC - Form 10-Q

will not be deemed to be in "troubled condition."

On April 14, 2010, the audit committee of the board of directors of NASB Financial, Inc. recommended and the board of directors subsequently approved the dismissal of the Company's independent accountant, KPMG LLP ("KPMG"), who was engaged on September 22, 2009, as the principal accountant to audit the consolidated financial statements of the Company for the fiscal year ending September 30, 2010. On April 14, 2010, the Company re-engaged BKD to serve as its principal independent accountant to review the Company's consolidated financial statements for the quarter ended December 31, 2009, and for the duration of the year ending September 30, 2010. BKD previously served as the Company's independent accountant prior to the Company's engagement of KPMG. The Company filed a Form 8-K with the Securities and Exchange Commission on April 20, 2010, which fully describes the change in independent accountants.

28

Item 3. Quantitative and Qualitative Disclosures About Market Risk

For a complete discussion of the Company's asset and liability management policies, as well as the potential impact of interest rate changes upon the market value of the Company's portfolio, see the "Asset/Liability Management" section of the Company's Annual Report for the year ended September 30, 2009.

Management recognizes that there are certain market risk factors present in the structure of the Bank's financial assets and liabilities. Since the Bank does not have material amounts of derivative securities, equity securities, or foreign currency positions, interest rate risk ("IRR") is the primary market risk that is inherent in the Bank's portfolio. On a quarterly basis, the Bank monitors the estimate of changes that would potentially occur to its net portfolio value ("NPV") of assets, liabilities, and off-balance sheet items assuming a sudden change in market interest rates. Management presents a NPV analysis to the Board of Directors each quarter and NPV policy limits are reviewed and approved. There have been no material changes in the market risk information provided in the Annual Report for the year ended September 30, 2009.

Item 4. Controls and Procedures

Under the supervision and with the participation of our management, including our principal executive officer and principal financial officer, we conducted an evaluation of our disclosure controls and procedures, as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities and Exchange Act of 1934. Based on this evaluation, our principal executive officer and our principal financial officer concluded that our disclosure controls and procedures were effective at the end of the period covered by this quarterly report. There were no changes in the Company's internal control over financial reporting during the period covered by this quarterly report on Form 10-Q that have materially affected or are reasonably likely to materially affect our internal control over financial reporting.

PART II - OTHER INFORMATION

Item 1. Legal Proceedings

There were no material proceedings pending other than ordinary and routine litigation incidental to the business of the Company.

Item 2. Changes in Securities

None.

Item 3. Defaults Upon Senior Securities

None.

Item 4. Submission of Matters to a Vote of Security Holders

The annual stockholder's meeting was held on January 26, 2010. The following persons were elected to NASB Financial Inc.'s Board of Directors for three-year terms:

David H. Hancock
Linda S. Hancock
Paul L. Thomas

The firm of KPMG LLP was ratified for appointment as independent auditors for the fiscal year ended September 30, 2010.

Item 5. Other Information

None.

Item 6. Exhibits

(a) Exhibits

Exhibit 31.1 - Certification of Chief Executive Officer pursuant to Rules 13a-15(e) and 15d-15(e)

Exhibit 31.2 - Certification of Chief Financial Officer pursuant to Rules 13a-15(e) and 15d-15(e)

Exhibit 32.1 - Certification of Chief Executive Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002

Exhibit 32.2 - Certification of Chief Financial Officer pursuant to 18 U.S.C. Section 1350, as adopted pursuant to Section 906 of the Sarbanes-Oxley Act of 2002
