**Item 1.01 Entry into a Material Definitive Agreement**

Destiny Media Technologies (the Company ) has extended and expanded a commercial agreement with Universal Music Group ( UMG ) to distribute their music digitally through the internet to radio stations and other trusted recipients in Canada, the United States and Mexico using the Company's secure Play MPE digital distribution system (<http://www.plaympe.com>). The multi-year agreement is effective from March 31, 2008 through March 31, 2010 and expands and extends the previous agreement between the two companies. The agreement is in accordance with the Company s standard pricing matrix and includes monthly minimum revenue amounts which ensure that quarterly revenue from UMG will be at least as high as any quarter previous to the effective date of the expanded agreement. The agreement further requires an increase in fees payable by UMG to the Company in year two of the agreement.

The agreement grants the Company the exclusive right to distribute UMG s music on a company-wide basis. The agreement also calls for UMG to encourage all of its controlled record labels to use the MPE system as their sole method for online distribution.
