BUSINESS DEVELOPMENT. Next, Inc., a Delaware corporation, was formed January 2, 1987. It has six wholly owned operating subsidiaries: (i) Next Marketing Inc., a Delaware corporation (Next Marketing), (ii) Blue Sky Graphics, Inc., a Delaware corporation (Blue Sky), (iii) CMJ Ventures, Inc., a Florida corporation (CMJ), (iv) Lil Fan, Inc., a Delaware corporation (Lil Fan), (v) Choice International Inc., a Delaware corporation (Choice), and (vi) S-2-S Acquisition Corporation, a Delaware corporation, (S2S). All references herein to the Company, we, us, our or refer to Next, Inc. and its subsidiaries.

The Company. The Company, as it currently operates, commenced its operations on February 1, 2002, after the completion of a stock exchange between Sporting Magic, Inc., a Delaware corporation, and Next, Inc., a Delaware corporation (the Exchange). Following the Exchange and until December 27, 2002, the Company operated under the name Sporting Magic, Inc., at which time Next, Inc. was merged with and into Sporting Magic, Inc. and the name Sporting Magic, Inc. was changed to Next, Inc.

The Subsidiaries. Blue Sky and Next Marketing became indirect subsidiaries of the Company at the time of the Exchange and on December 27, 2002, following the merger between Sporting Magic, Inc. and Next, Inc., became wholly owned subsidiaries of the Company. Blue Sky and Next Marketing (and their respective predecessors) have been in existence since 1989 and 1997, respectively, and were prior to the Exchange owned and controlled by two of the Company's principal stockholders. CMJ became a subsidiary of the Company on June 1, 2002 pursuant to the terms of an Agreement and Plan of Merger dated as of March 1, 2002, as amended on May 16, 2002 and May 15, 2003. On July 31, 2003, the Company acquired substantially all of the assets of Lil Fan, Inc., the right to sell all items previously sold by Stan Howard & Associates, and Stan Howard & Associates, Inc. through a subsidiary that is now Lil Fan. On October 31, 2004, the Company acquired substantially all of the assets of Choice, the right to purchase goods through an international source, and the right to sell all items through a customer base previously sold by the principals through a subsidiary that is now Choice. On August 12, 2005, the Company acquired certain assets of Sports-2-Schools, LLC, the right to sell all items previously sold by Buck Swindle Associates, Inc. and the vendor

number for a major customer through a subsidiary named S-2-S Acquisition Corporation.

THE BUSINESS. The Company is a creative and innovative sales and marketing organization that designs, develops, markets and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs.

The Company's management (Management) believes that there are substantial growth opportunities in the promotional products and imprinted sportswear industries and that the Company is well positioned to take advantage of these growth opportunities. Management believes that the Company has an excellent reputation in the marketplace as a result of its ability to provide quality products and services and on-time delivery at competitive prices.

The Company's licensed and proprietary products include the following:

§

Approximately 200 licenses and agreements to distribute its **Cadre AthleticTM** and **Campus Traditions USATM** line for most major colleges and universities in the U.S.;

§

Licensing agreements with **Chevy[®]**, **Pontiac[®]**, **Hummer[®]**, **Cadillac[®]**, **Dodge[®]**, **GMC[®]**, **Chrysler[®]**, **Plymouth[®]**, **Jeep[®]** and **Ford[®]** for their respective "branded" logos for the **RPM Sports USA** motor sports line, targeting the automotive dealership network, and automotive venue markets;

§

Proprietary designs including **American BikerTM**, **American WildlifeTM**, **Ragtops SportswearTM**, **Campus Traditions USATM** and **Cadre AthleticTM**, among others;

§

Licensing and distribution agreements with **Sturgis Bike Rally**, **Indianapolis Motor Speedway**, **Professional Bull Riders**, **James Dean 50th commemorative anniversary**, **the 3 Stooges**, **Fellowship of Christian Athletics**, **Legendary Notre Dame Quarterbacks**, and **GRITS**.

The Company is continually reviewing additional licensing programs and proprietary designs to further expand its licensing program and proprietary design portfolio.

OPERATIONS. The Company is one of the larger companies in the highly fragmented licensed promotional products and imprinted sportswear industries. The Company has implemented its strategy of The Total Solution Company to meet its customers key requirements including: art design and development, manufacturing (for imprinted sportswear), sourcing (for distributed products), warehousing and fulfillment. We believe that the following strengths, among others, have contributed to our past success and may provide us with a distinctive ongoing competitive advantage:

High quality, imprinted sportswear. Imprinted sportswear is produced both domestically and offshore. For large runs with long lead times, it is economically advantageous to produce the imprinted sportswear in countries where the cost of labor is lower than in the United States. Management believes that the Company does an excellent job of costing, and effectively sourcing its products from international suppliers. The Company's facility in Wabash, Indiana, was set-up specifically to handle situations where it is not practical to produce imprinted sportswear offshore such as: (a) for customized imprinted sportswear that, due to the uniqueness of the product, is not suited for the standardized long runs of offshore production, (b) for hot market reorders of just-in-time inventory such as for major sporting events, and (c) for demand that exceeds forecasts leading to the need for quick replenishment orders. The Wabash facility, with the capability to produce both imprinted and embroidered products, was organized by industry experts incorporating a sophisticated inventory management system with emphasis on automation of the manufacturing process effort, to minimize costs, cycle time and waste. The Wabash facility substantially reduces our reliance on outside sourcing, enabling us to reduce costs, shorten delivery time and enhance quality control of our products.

Excellent design and merchandising staff. We believe that licensed branded products are an established and significant growth category within our industry. The ability to deliver unique product offerings on a timely basis is key to the future success and expansion of our branded licensed revenue. The Company believes that it possesses one of the most creative and innovative design, merchandising and product development capabilities within the industry. The Company's design and merchandising staff determines, in partnership with our customers, the product strategy and is responsible for creating innovative products for our branded license and proprietary products lines. Management believes that this partnership provides stability in the design environment and consistency in our product variety and offers our customers flexibility in their product selection and timeliness of product delivery. The Company has been successful in significantly reducing the time requirements needed for the design, sourcing and delivery of products to substantially less than the industry norm. This enables us to provide a wide variety of products with greater acceptability in the marketplace within a reduced lead-time. Our partnerships with key suppliers further enhance our ability to develop and deliver our distinctive and innovative products quicker. In 2005, key suppliers included DZ Trading, Inc., Gildan, and American Unitec.

Upscale brand identity. The Company offers a style of products that is built on quality and strong imagery. Our marketing themes revolve around college and university brands, motor sports, outdoor lifestyle, motorcycle biking, fishing, water sports, and other leisure pursuits designed to appeal to many of our target customers. We reinforce our upscale brand image at the retail level with specialized planograms and displays that present our lines as distinctive collections. The Company's target is an upscale consumer in casual settings, college and sporting activities, or relaxed weekend environments. We believe that our consumers are seeking a refined level of product quality and distinctiveness, and our designs, manufacturing standards and marketing are structured accordingly.

INFORMATION SYSTEMS. We employ a fully integrated, real-time management information system that is specifically designed for our industry. The system includes important features such as manufacturing resource requirements planning, production scheduling, detailed product tracking, standard cost system planning and control, and detailed perpetual inventory systems. As our production personnel track original purchases through various factory production phases, our merchandisers track sales in order to compare purchases against availability, thereby allowing us to react quickly to changes and trends. Our product development team utilizes sophisticated computer-aided design software to meet our customers' design, collaboration and specification requirements. We also have a remote-order entry system for our sales force, allowing them to monitor and establish sales plans and communicate order specifics. Customer service personnel receive this uploaded information daily and have real-time access to inventory availability.

This comprehensive information system serves users in each of our operating areas, and is also used to create costing models, specification sheets and production scheduling. The manufacturing module integrates with the general ledger accounting and financial module. Our information system also provides detailed product gross margin information that assists us in managing product profitability. During fiscal 2005, we continued to expand the relational database capabilities of our management information system to allow us to create specialized management reports and access critical decision support data.

COMPETITION. The promotional products and imprinted sportswear industry is highly competitive. Promotional Products Association International estimates that there are over 21,000 companies in the promotional products industry. Further, only 4% of these companies reported a size of \$2.5 million or more. Our primary distribution channels are highly fragmented with substantial competition from other distributors of promotional products. We believe that our ability to compete effectively is based primarily on product differentiation, product quality, production flexibility and distribution capabilities, all of which Management believes enhance the Company's brands.

CUSTOMER BASE. During the past four years, the Company has made a concerted effort to expand its customer base. As a result of this effort, the Company has developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national as well as large regional chains to specialty retailers, corporate accounts, college book stores, motor sports, souvenir and gift shops, and golf shops. The Company believes that its customer diversification and expansion program will be evident in fiscal year 2006 and beyond. The following represent a cross section of the Company's customers segregated by distribution channel:

National Retail Merchants:	Goody's, Kohl's, Sears, K-Mart, Dillard's, J.C. Penney, Belk, Bon-Ton, Federated Dept Stores, Wal-Mart
Specialty Retailers:	Dollar General, Sam's Wholesale Club, Alcone Marketing Group, Boscov's, Brylane Home Wishes, Gordmans, Von Maur, Cracker Barrel

Food & Drug Chains:	Kroger's
Motor Sports:	Dodge, Pontiac, Chevy, GMC, Ford, Chrysler, Plymouth, Jeep dealer networks, and Motorcycle Dealers, Gift Shops
E-Commerce:	General public via website distribution

GROWTH STRATEGY. The industries in which the Company competes are highly fragmented with no single company or group of companies holding a dominant market share. As a result, Management believes that there are significant growth opportunities available to the Company that include the following:

Expansion of the Company's Licensed Imprinted Sportswear Business. In recent years, licensed imprinted sportswear has become very popular. Licensing agreements are available for branded products and services, amateur and professional sports teams, and many other promotional areas. According to statistics from the International Licensing Industry Merchandisers' Association, licensing royalty revenues from collegiate and sports licensed products accounted for 17% or \$996 million of the \$5.8 billion dollar revenues reported in 2004, which at this time is the most current data available. These two types of licenses make up a large percentage of the Company's sales base. The Company is constantly working to expand its licensing program to gain an advantage in the competitive licensed imprint sportswear business.

E-Commerce. The Company has expanded its business to include e-commerce web sites through which some of the Company's most popular licensed products are marketed. The Company has been successful in establishing itself as a premier supplier under various e-commerce web sites, currently the most significant of which are www.campustraditionsusa.com,TM www.rpmsportswearusa.com,TM and www.americanbiker.com.TM A corporate website, www.nextinc.net, gives information to the general public about the Company.

Increased Marketing of the Company's Proprietary Designs. The Company has developed several proprietary designs that Management believes will increase its penetration into existing customer base and broaden its product offering to new accounts. The proprietary designs cover a broad spectrum of themes such as: **American Wildlife**[®] (outdoor activities), **American Biker**[®] (motorcycles), **Cadre Athletic**[®] and **Campus Traditions USA**TM (college and athletics), among others.

Strategic Mergers and Acquisitions. In addition to organic growth, the Company also plans to grow through selective strategic mergers and acquisitions. Management believes that there are a number of quality merger

candidates that will enable the Company to expand and diversify its presence in the marketplace. The Company's key acquisition criteria include: proven historical success, diverse customer base, and companies that possess a reputation for quality in the marketplace.

INDUSTRY. The Company operates in two interrelated industries – the promotional products industry and the imprinted sportswear industry:

Promotional Products Industry. The promotional products industry is highly fragmented consisting mainly of smaller privately held companies with no dominant positions. It is also a niche industry that is comprised of thousands of companies that distribute products bearing designs, logos, names, or catchy phrases. Examples of the products distributed by the companies in the industry include: imprinted sportswear, key chains, coffee mugs, pens, golf balls, mouse pads, clocks, etc. It is estimated that 30% or just over \$5 billion of all promotional products sold are imprinted sportswear (wearables) products, making imprinted sportswear, by far the number one selling product of all promotional products sold.

Imprinted Sportswear Industry. The imprinted sportswear industry is a niche industry that entails value added embellishment (embroidering or screen-printing) of promotional products. The items that are imprinted include: headwear, polo shirts, long-sleeve shirts, fleece wear, shorts, jackets, beach towels, souvenir blankets and t-shirts. The imprinted sportswear is sold primarily through traditional and specialty retailers ranging from large national and regional chains to sporting goods stores, casinos, golf and tennis pro shops, souvenir shops and sports stadiums.

Trends. A significant industry trend is the evolving requirement of customers to have suppliers provide enhanced value-added services to them. A primary attribute that customers are seeking is a company's ability to be a one-stop shop for all product requirements. In effect, customers are now looking to their suppliers to provide enhanced value-added services: design and graphic capabilities, fulfillment and warehousing, company store planning and execution and on-line purchasing. The corporate sales market is comprised primarily of corporations that purchase imprinted sportswear bearing the corporation's logo, name, or a theme.

SUPPLIERS. The Company sources a significant portion of its products with international suppliers. The majority of the products used by the Company are available from multiple sources. Alternative suppliers are currently available to the Company both domestically and internationally. In 2005, key suppliers included DZ Trading, Inc., Gildan, and American Unitec, Inc.

EMPLOYEES. As of February 23, 2006, the Company had one hundred eighteen employees. We consider our relations with our employees to be satisfactory.

ACQUISITIONS AND REFINANCING. On February 8, 2006, the Company entered into an amendment with National City Bank to change the maturity date of the Company's credit facility to April 30, 2006, and reduce the maximum availability under the revolving line of credit from \$9,000,000 to \$6,500,000. The amendment was dated to be effective as of February 1, 2006. The reduced line of credit is in line with the Company's lower sales cycle in the first part of its fiscal year and does not reduce cash availability below the calculated borrowing base. Pursuant to the amendment, National City Bank waives the Company's non-compliance with certain obligations and covenants of the credit facility. The Company is currently seeking a new bank to replace National City as its primary bank for working capital.

On September 30, 2005, the Company refinanced the credit facility for its main plant in Wabash, Indiana at First Federal Savings Bank in the amount of \$3,225,809, which paid off the original loan of \$2,672,922 due in January 2006, the warehouse loan of \$365,479, and an equipment loan of \$155,469. These balances include accrued interest. Also included in the new loan were loan origination fees of \$31,939. The interest rate is 7% and the note matures on October 15, 2020.

Pursuant to the terms of an Asset Purchase Agreement (the Agreement), dated August 12, 2005, by and among S-2-S Acquisition Corporation (a wholly owned subsidiary of the Company), Sports-2-Schools, LLC, and Buck Swindle Associates, Inc., the Company, through a subsidiary, acquired certain assets of Sports-2-Schools, LLC and the right to sell all items previously sold by the principals. Sports-2-Schools, LLC's customers, distribution networks, and vendor number diversify, complement, and bolster the Company's existing customer and distribution base. The Company expects that future sales and earnings will continue to grow. The Company, during fiscal 2005, fully integrated the operations of Sports-2-Schools, LLC into the operating facility located in Wabash, Indiana (see NOTE 15 of the Notes to Consolidated Financial Statements contained elsewhere in this document). As consideration for the above described acquisition, the Company issued 50,000 shares of its common stock, with up to an additional \$575,000 worth of shares of its common stock to be issued on a deferred basis if certain financial targets are achieved, and up to \$600,000 in cash pursuant to an earn-out arrangement. As additional consideration, the Company paid \$50,000 to Buck Swindle Associates, Inc. and forgave \$205,500 of accounts receivable indebtedness to the Company. The Company also assumed \$172,000 of debt of Sports-2-Schools, LLC which was paid off in October 2005. The shares were issued to the shareholders of Sports-2-Schools, LLC, in a transaction exempt from registration pursuant to Section 4(2) of the Securities Act of 1933. The transaction was negotiated with the shareholders, who were a small group of sophisticated investors knowledgeable about the Company.

On July 20, 2005, the Company entered into a subordinated loan agreement with Next Investors, LLC for \$500,000. The purpose of this loan was to provide working capital to be repaid out of future cash flows. The loan has a 7.5% interest rate and maturity date of November 30, 2006.

On May 26, 2005, the Company entered into an amendment with National City Bank to increase the revolving credit facility to \$9,000,000 and extended the maturity date to April 1, 2007, under substantially the same conditions as the original agreement.

Edgar Filing: NEXT INC/TN - Form 10KSB

On February 24, 2005, the Company entered into a new loan with First Federal Saving Bank of Wabash to purchase a 43,000 square foot warehouse for inventory utilization. The loan was for \$365,000 and subsequently consolidated with the refinancing of main plant in Wabash on September 30, 2005. The purchase of the warehouse allowed the company to consolidate its inventory from two leased warehouses costing \$11,500 per month.

On February 11, 2005, the Company entered into a new loan with First Federal Savings Bank of Wabash to purchase two screen print machines for \$250,500 at 6.75% interest rate over a five year period with monthly payments of \$4,895.

On January 24, 2005, the Company entered into a Securities Purchase Agreement (the Agreement) with Bonanza Master Fund, Ltd. (Bonanza), MidSouth Investor Fund, L.P. (MidSouth) and Itasca Capital Partners LLC (Itasca) (collectively, the Purchasers) and raised \$2,990,000 in a private placement to the Purchasers. None of the Purchasers has any other material relationship with the Company. Pursuant to the Agreement, the Company issued to Bonanza 2,000,000 shares of its common stock and a warrant to purchase 1,000,000 shares, to MidSouth, 250,000 shares and a warrant to purchase 125,000 shares, and to Itasca, 50,000 shares and a warrant to purchase 25,000 shares. The shares were issued at \$1.30 per share and the warrants are exercisable at \$1.75 per share for five years. In addition, the Company will issue a warrant to purchase 115,000 shares of common stock to a consultant for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years, but the average closing price must be equal to at least \$2.10 for ten consecutive trading days to exercise purchase. The total offering price was \$2,990,000 in cash.

On October 31, 2004, pursuant to the terms of an Asset Purchase Agreement (the Agreement), by and among Choice Acquisition Corporation (a wholly owned subsidiary of the Company), Choice International, Inc. (Choice), Mark Scyphers and William Steele, the Company, through a subsidiary, acquired all of the assets of Choice and the right to sell all items previously sold by the principals. Choice's customers, distribution networks, and purchasing channels, diversify, complement, and bolster the Company's existing customer and distribution base (see NOTE 14 of the Notes to Consolidated Financial Statements contained elsewhere in this document).

On July 23, 2004, the Company entered into a new loan with First Federal Saving Bank for certain production equipment in the amount of \$276,500 bearing interest at 6.5%. Principal and interest payments are made monthly and the loan matures November 2, 2009.

On April 15, 2004, the Company entered into a credit agreement with National City Bank for an \$8,000,000 revolving credit facility which matures on April 1, 2006. Under the National City agreement the Company may draw up to the sum of 85% of eligible accounts receivable and 60% of eligible raw materials and finished goods inventory. In addition, the agreement provides for monthly payments of interest at a nationally published prime rate plus .25% (7.00% was the published rate at November 30, 2005, and 5% at November 30, 2004). The Company must comply with certain financial and other covenants. Accounts receivable, inventory, certain personal assets and personal guarantees of the Chief Financial Officer and a director of the Company collateralize the borrowings under the facility. The credit agreement with National City replaces the former lender, LaSalle Business Credit, LLC and increases the Company's borrowing base formula, reduces expenses, and extends the maturity date.

On April 8, 2004, the Company issued, pursuant to a Securities Purchase Agreement 1,750 shares of Series A Convertible Preferred Stock to GCA Strategic Investment Fund Limited. The Company received net proceeds of \$1,471,498, from the Preferred Stock which was utilized for working capital and debt reduction. The Company has registered these shares but will not receive proceeds related to the sale of the common stock securities. The Company also issued a Preferred Stock Warrant to GCA to purchase 358,000 shares of common stock at \$1.88, which expires April 8, 2009. The Company also received a commitment letter from Global Capital Advisors, LLC for an additional \$1,250,000 under the same terms and conditions discussed above at the Company's option for a one year period which expired on March 31, 2005.

On January 20, 2004, the Company entered into subordinated loan agreements with Next Investors, LLC for \$400,000 and First Federal Savings Bank for \$500,000. The purpose of these loans was to provide working capital to be repaid out of a future equity infusion. The loans had a 4% and 6% interest rate and maturity dates of January 20, 2006 and 2005 respectively. In April 2004 of 2004 the First Federal note of \$500,000 was paid off out of the proceeds of the equity infusion by GCA Strategic Investment Fund Limited. The Next Investors Note of \$400,000 was paid off as of May 31, 2005.

Future Acquisitions. The Company has an ongoing effort to engage in discussions with various potential acquisition targets and expects to grow through strategic acquisitions of complimentary businesses. Management believes that additional acquisitions by the Company will allow it to further diversify its customer and distribution base, lessen its current dependence on large customers, and enhance stockholder value. The Company is not presently a party to any definitive agreements with respect to any acquisitions and there can be no assurances that any acquisition will be accomplished in the near future or at all.

Business Developments in 2005. On November 16, 2005, the Company announced that Robert M. Budd was taking over as the Company's chief executive officer replacing William B. names in college football history and covering the most memorable, successful era of Notre Dame Fighting Irish football.

Loss of Licenses. A substantial portion of the Company's revenue is derived from its licensing program and Company owned brands. The Company is a party to numerous licensing agreements to utilize branded logos for its products. Licenses from colleges and universities comprise the greatest segment of the Company's licenses and these licenses are grouped into master licenses. All of these master license arrangements have duration of one to three years and may not contain automatic renewal options. Although the Company has had no difficulty renewing these license arrangements in the past and obtaining new licenses, there can be no assurance that the Company will be able to do so in the future. The loss of any one group of licenses or any master license may have a material adverse effect on the Company's financial conditions and results of operations.

Competition. The principal competitive factors affecting the market for the Company's products include product functionality, performance, quality, reliability, delivery, price, compatibility and conformance with customer and licensor standards. Several of the Company's existing and potential competitors are larger than the Company and may have substantially greater financial, sourcing and other resources than does the Company. In addition, the Company may in the future face competition from new entrants in its markets and there can be no assurance that these

competitors will not offer better price points for competitive products or offer better terms to the Company's customers than those offered by the Company to obtain greater market share or cause the Company to lower prices for its products, any of which could harm the Company's business.

Dependence Upon Key Personnel. The Company depends to a significant degree on the continued contribution of key executive management and key operations and sales management. The loss of the services of one or more key executives could have a material adverse effect on the Company. The Company's success also depends on its ability to attract and retain additional highly qualified management personnel to meet the needs of future expansion. Competition for these individuals is intense and they are often subject to offers from competing employers, some of whom may be better able to offer more lucrative compensation incentives than those offered by the Company. Although most of the Company's key employees have been with the Company for an extended period of time, there can be no assurance that the Company will be able to retain its key employees, or that it will be able to attract or retain additional skilled personnel as needed.

Dependence On Non-U.S. Suppliers. The Company sources a significant amount of its products from international suppliers. Relationships with foreign suppliers present a greater risk of disruption due to political and economic instability than relationships with domestic suppliers. Although the majority of the products used by the Company are available from multiple sources both domestically and internationally, any disruption in availability of products and services from these foreign suppliers could lead to increases in the Company's product costs. The Company believes it can locate alternative products from several supplier sources to obtain the quality, and delivery standards if a disruption in international sources should occur.

Dependence Upon Key Customers. Historically, the Company's customer base has been comprised primarily of national and regional mass merchandise and specialty retailers. During the past three years the Company has made a concerted effort to expand its customer base. The acquisition of CMJ, which sells to over five hundred specialty retailers, and the introduction of major product lines and distribution channels, such as its Motor Sports Division, which sells to a dealer network of approximately 9,000 auto dealers are two components of this expansion. The acquisition of Lil' Fan also expanded the Company's customer base with the addition of a full line of design and merchandising primarily focusing on children's licensed college and motor sports products. Lil' Fan customers are complementary to the Company and do not overlap with existing customers. The acquisition of Choice further expands the customer base into a private label distribution network. The acquisition of S2S also expands the Company's customer base to a large national retailer to which the Company has previously not sold merchandise. As a result of this effort, the Company has developed a large, diverse, and distinguished customer base of traditional retailers, ranging from national and large regional chains to specialty retailers, corporate accounts, college book stores, motor sports, and souvenir, golf and gift shops. If the Company is unable to sustain this expansion of its customer base or if it is unable to maintain its customer base it could have a negative impact on its financial condition and results of operations.

Possible Need For Additional Financing/Capital. The Company is highly leveraged. Based upon the Company's current level of operations and anticipated growth, the Company believes that cash flows from operations, together with its working capital facility, will be sufficient to enable the Company to satisfy anticipated cash flow requirements for operating, investment and financing activities, including debt service. However, with the Company's expected expansion and additional acquisitions, the Company could be required to obtain additional financing and/or capital, by

private placement or in the public markets, to satisfy its requirements. There can be no assurance that such alternatives would be available to the Company at all or on terms reasonably acceptable to the board of directors. If we cannot obtain adequate funds on acceptable terms or at all, we may not be able to take advantage of market opportunities, develop or enhance new products, pursue acquisitions that would complement our existing product offerings, execute our business plan or otherwise respond to competitive pressures or unanticipated requirements. In addition, the Company is required to refinance its credit facility with National City Bank before April 30, 2006. The Company is currently negotiating terms of a new credit facility with potential lenders, however, the Company has not entered into a new credit facility and cannot guarantee that it will be able to do so before April 30, 2006.

Limited Trading Market For Common Stock. The Company's common stock is quoted on the National Association of Securities Dealers' OTC Bulletin Board. There may be a limited trading market for the common stock.

Volatility Of Common Stock's Market Price. The market price of the common stock is more volatile than the price of common stock of more established companies, because of the limited number of shareholders and the low volume of trading. In addition, the price is subject to a variety of factors, including the business environment; the operating results of companies in the industries we serve; future announcements concerning the Company's business or that of its competitors or customers; the introduction of new products or changes in product pricing policies by the Company or its competitors; litigation matters; changes in analysts' earnings statements; developments in the financial markets; quarterly operating results; and perceived dilution from stock issuances for acquisitions and other transactions. Furthermore, stock prices for many companies fluctuate for reasons that may be unrelated to their operating results. Those fluctuations and general economic, political and market conditions, such as recessions, terrorist actions or other military actions, or international currency fluctuations, as well as public perception of equity values of publicly traded companies may adversely affect the market price of our common stock.

Additional Shares. The Board of Directors has the authority to issue, without further action by the stockholders, up to 10,000,000 additional shares of preferred stock in one or more series and to fix the price, rights, preferences, privileges and restrictions thereof, including dividend rights, dividend rates, conversion rights, voting rights, terms of redemption, redemption prices, liquidation preferences and the number of shares constituting a series or the designation of such series. The Company has previously issued 1,750 shares of Series A Preferred Stock, all of which have been retired. The issuance of preferred stock, while providing desirable flexibility in connection with possible acquisitions and other corporate purposes, could have the effect of delaying, deferring or preventing a change in control of the Company without further action by the stockholders and may adversely affect the market price of, and the voting and other rights of, the holders of common stock.

ITEM 2.

DESCRIPTION OF PROPERTY

The Company's executive office is located in leased office space in Chattanooga, Tennessee, under a lease for approximately 2,000 square feet that expires in 2007. The Company also leases approximately 3,000 square feet sales office in Noblesville, Indiana, under a lease, which expires in 2006, and an approximately 1,500 square feet sales

office in Lexington, SC, under a lease that expires in 2007. The total lease cost for all three facilities is \$5,350 per month. The Company purchased warehouse space in Wabash, Indiana in 2005 for a cost of \$365,000 financed by First Federal Savings Bank of Wabash and renovated for inventory utilization. The purchase of this warehouse allowed the Company to consolidate its inventory from two leased warehouse facilities that cost \$11,500 per month. The Company owns, subject to a mortgage, its principal manufacturing, distribution, administrative and design facility located in Wabash, Indiana (the Operating Facility). The Operating Facility is approximately 125,000 square feet and is in excellent condition. Management believes that its existing owned facilities are adequate to meet the Company's needs for the foreseeable future.

ITEM 3.

LEGAL PROCEEDINGS

The Company has pending various minor legal actions arising in the normal course of business. Management does not believe that such legal actions, individually or in the aggregate, will have a material impact on the Company's business, financial condition or operating results.

ITEM 4.

The Company has a covenant in the loan agreement with its primary lender that stipulates it cannot pay dividends on common stock. However, the Company was required to pay a 2% dividend on all Preferred stock outstanding; in 2004 \$15,714 and in 2005, \$3,554 was paid respectively.

On August 12, 2005, the Company issued 50,000 shares of common stock, with up to an additional \$575,000 worth of shares to be issued on a deferred basis in connection with the acquisition of Sports-2-Schools, LLC. The transaction was negotiated with the shareholders, who were a small group of sophisticated investors knowledgeable about the Company.

INTRODUCTION. As noted elsewhere in this report, the Company's principal customers are large national and regional retailers. In order to maintain its relationship with these customers, enhance revenues from them and enable them to improve their revenues and margins, the Company must work closely with these customers to ensure they receive the Company's products expeditiously and economically. The Company works diligently to maintain what Management calls supply chain excellence a way for the Company to provide value added services to its customers.

In servicing its customers, the Company faces competition from numerous other providers of licensed promotional clothing. Many of these competitors are larger and better capitalized than the Company. Additionally, if the Company is to continue to grow its business by adding additional products and by making strategic acquisitions, it will require additional capital. Therefore, Management is continuously considering various suitable sources of equity in efforts to furnish the needed capital.

In assessing the Company's performance, Management focuses on (a) increasing revenues primarily through enhancing its licensing programs and (b) protecting such revenues by diversifying its customer bases regionally and demographically. In order to enhance profitability, Management monitors and seeks to improve gross margins primarily by internal cost controls and through purchases of raw materials outside the United States at lower costs than available domestically. Management also strives to reduce fixed costs as a percentage of sales, improve inventory turnover and reduce receivables measured by day's sales outstanding, all in an effort to improve profitability and cash flow.

RESULTS OF OPERATIONS. The following table sets forth certain items in the Company's consolidated statement of operations for the years ended November 30, 2004, and 2005, respectively. The results of operations for 2005 include the revenues of S-2-S Acquisition Corporation of \$223,764 from August 12, 2005, the date of its acquisition. The results of operations for 2004 include the revenues of Choice International of \$103,296 from October 31, 2004, the date of its acquisition. These statements should be read in conjunction with the audited financial statements of the Company contained elsewhere in this Form 10-KSB.

NET SALES.

Net sales increased 24.0% to \$26,677,155 for 2005 from \$21,518,753 for 2004. The growth in sales is primarily attributable to increased sales volume from existing customers and new customers resulting in a net increase of \$4,934,638, of which \$1,455,005 related to the private label business. S2S generated \$223,764 of sales in 2005 that were not in 2004.

COST OF SALES. Cost of sales was \$19,974,842 or 74.9% of the Company's net sales for 2005 compared to \$14,892,346 or 69.2% for 2004. The increase in cost in 2005 related to higher domestic purchasing cost due to the Chinese embargo which was in effect for the majority of the year, lower margin business related to a major retailer, and the private label business.

The Company had a one-time write off of selected inventory items based on utilization, and design for the upcoming lines in 2006; the amount was \$703,948. During the fourth quarter at the direction of the new CEO, the Company changed its focus to narrow product lines related to its strategic licensing channels. The Company also changed its policy on sample inventory and distribution, which amounted to \$361,702 or 51% of the write off. In prior periods samples were distributed to outside sales representatives which did not lend itself to good internal controls. The Company has now started charging all sales representatives for samples so these inventory items will have better internal control in the future. The Company expects to lower its inventory base and run more efficiently as a result of these initiatives.

OPERATING AND OTHER EXPENSES. General and administrative expenses were \$2,762,502 (10.4% of net sales) for 2005 compared to \$2,241,108 (10.4% of net sales) for 2004. General and administrative expenses increased by \$521,394 in 2005 over 2004. The increase was primarily related to cost added as a result of the Choice International operating entity, or \$466,247 in 2005, as compared to \$26,488 in 2004.

Royalty fees associated with licensing agreements was \$1,938,473 or 7.3% of sales in 2005 and \$1,614,481 or 7.5% of sales in 2004. The increase in fees is the result of the increased volume of sales of licensed products in 2005, which is the Company's primary sales and marketing focus. Commission expenses were \$824,961 or 3.1% of sales in 2005, and \$1,065,981 or 4.9% in 2004, which decreased due to reductions in payments related to lower gross profit margins to external sales personnel, who are commission based.

Corporate expense consists of full-time personnel, legal services, accounting fees, and investment professionals. While these services have resulted in significant costs, the Company believes that such costs are necessary for the Company to implement its strategic plan of future growth and diversification. Fiscal year 2005 expenses were \$973,880 however expenses for 2004 were \$1,026,774, for a decrease of \$52,894 or 5.1% primarily related to professional and banking fees.

Interest expense relates to the Company's short and long-term debt. Interest expense was \$645,891 for 2005, compared to \$493,588 for 2004. The primary reasons for the increase in interest expense were: new debt associated with purchase of a warehouse and screen print equipment, and higher interest rate on the average borrowings of the revolving credit facility.

Other income of \$21,250 in 2005 relates to a payment of Wabash County incentive agreement of \$50,000, net of \$28,750 of

amortization cost. Other expenses in 2004 include an unusual one-time write off of \$640,000, offset by \$38,650 of other income. The components of the unusual item relate to \$501,000 of fees and expenses associated with the Company's former bank, LaSalle Business Credit, LLC that was terminated on April 15, 2004. It also includes \$139,000 of one-time legal fees related to a complaint that was dismissed on May 10, 2004.

PROVISION FOR INCOME TAXES. The Company recognized a tax benefit of \$445,372 in 2005, which is attributable to the recognition of deferred tax assets arising from the Company's year-to-date net operating loss adjusted by book and income tax recognition of temporary differences. In 2004, the Company recognized a tax benefit of \$136,085.

FINANCIAL POSITION, CAPITAL RESOURCES, AND LIQUIDITY. At November 30, 2005, working capital was \$2,221,599, representing a decrease of \$7,379,080 from working capital at November 30, 2004, of \$9,600,679. This decrease in working capital was due to the reclassification of the National City line of credit from long term in 2004 to short term in 2005 which comprises \$6,907,787 of the decrease the remainder relates to inventory reduction.

Liquidity and Capital Resources. The Company has historically financed its operations through a combination of earnings and debt. The Company's principal sources of debt financing are its revolving line of credit with National City Bank and promissory notes issued by First Federal Savings Bank. On April 15, 2004, the Company renegotiated its working capital facility with National City Bank to replace LaSalle Business Credit with an \$8,000,000 credit facility. The Company reduced its interest, fees, and extended the term to April 1, 2006. At November 30, 2005, \$6,526,961 of the credit facility had been drawn upon. The Company amended the credit facility on May 26, 2005 to increase the line to \$9,000,000 and extended the maturity date to April 1, 2007. The Company amended the credit facility on February 6, 2006 to change the maturity date to April 30, 2006 and reduced the line of credit to \$6,500,000, which is in line with the seasonality of the Company's sales cycle. The National City credit facility is governed by various financial covenants, all of which were not complied with by the Company as of the date of this report but the Company has subsequently obtained a waiver with respect to such non-compliance from its lender. In addition the agreement provides for monthly payment of interest of .25% over a nationally published prime rate (7% at November 30, 2005). The Company is required to refinance its credit facility with National City Bank before April 30, 2006. The Company is currently negotiating terms of a new credit facility with potential lenders. The First Federal Savings Bank Promissory Notes consist primarily of one principal loan in the amount of \$3,225,399 payable in monthly installments of \$29,263 of principal and interest with maturity on October 15, 2020.

On January 20, 2004, the Company entered into subordinated loan agreements with Next Investors, LLC for \$400,000 and First Federal Savings Bank for \$500,000. The purpose of these loans was to provide working capital to be re-paid out of future equity transactions. The loans have a 4% and 6% interest rate and maturity dates of January 2006 and 2005 respectively. On April 8, 2004 the note to First Federal was paid from proceeds of the equity infusion from GCA Strategic Investment Fund. The debt to Next Investors was paid in two installments in March and April of 2005 out of company cash flows.

On April 8, 2004, the Company issued, pursuant to a Securities Purchase Agreement 1,750 shares of Series A Convertible Preferred Stock to GCA Strategic Investment Fund Limited. The Company received net proceeds of \$1,471,498, from the Preferred Stock which was utilized for working capital and debt reduction. The Company has registered these shares but will not receive proceeds related to the sale of the common stock securities. The Company also issued a Preferred Stock Warrant to purchase 358,000 shares of common stock at \$1.88, which expires April 8, 2009. The Company also received a commitment letter from Global Capital Advisors, LLC for an additional \$1,250,000 under the same terms and conditions discussed above at the Company's option for a one year period which expired on March 31, 2005.

On July 19, 2004 the Company entered into a note with First Federal for certain production equipment in the amount of \$276,500 with an interest rate of 6.5% which matures November 2, 2009. The monthly principal and interest payment is \$5,421.

On January 24, 2005, the Company entered into a Securities Purchase Agreement (the Agreement) with Bonanza Master Fund, Ltd. (Bonanza), MidSouth Investor Fund, L.P. (MidSouth) and Itasca Capital Partners LLC (Itasca) (collectively, the Purchasers) and raised \$2,990,000 in a private placement to the Purchasers. None of the Purchasers has any other material relationship with the Company. Pursuant to the Agreement, Next issued to Bonanza, 2,000,000 shares of its common stock and a warrant to purchase 1,000,000 shares, to MidSouth, 250,000 shares and a warrant to purchase 125,000 shares, and to Itasca, 50,000 shares and a warrant to purchase 25,000 shares. The shares were issued at \$1.30 per share and the warrants are exercisable at \$1.75 per share for five years. In addition, the Company will issue a warrant to purchase 115,000 shares of common stock to a consultant for its services in connection with the private placement. The warrants are exercisable at \$1.75 per share for five years, but the average closing price must be equal to at least \$2.10 for ten consecutive trading days to exercise purchase. The total offering price was \$2,990,000 in cash.

Seasonality of sales affects the company's liquidity and profitability as the majority of sales are booked in the third and fourth quarters of the fiscal year. In 2005 and 2004, approximately 64.7% and 64.1% respectively, represent the combined third and fourth quarter sales as a percentage of total sales. This trend is in large part due to the college licensed products lines which are sold to major retail customers that occur in these periods.

The Company's principal use of cash is for operating expenses, interest and principal payments on its long-term debt, working capital and capital expenditures. Cash used in operations for 2005 was \$1,045,763 as compared to \$2,544,114 for 2004. The decrease in cash used resulted primarily from the reduction in inventory.

Cash used for investing activities was \$1,663,170 for 2005, compared to \$862,170 for 2004. The Company's investing activities during these periods was primarily the purchase of new equipment and a new warehouse, acquisition costs, and expenses related to intangible assets.

Net cash provided by financing activities was \$2,549,318 for 2005, compared to \$3,122,070 for 2004. The decrease of \$572,752 was primarily related to reduction of revolving credit facility, net of cash received for issuance of stock from investment transactions.

The following table represents the contractual commitments of the Company as of November 30, 2005:

<u>Contractual Obligations</u>	<u>Total</u>	<u>Payments Due by Period</u>

CRITICAL ACCOUNTING POLICIES AND ESTIMATES, AND NEW PRONOUNCEMENTS. Our significant accounting policies are described in NOTE 2 - Basis of Presentation and Summary of Significant Accounting Policies of the Notes to our financial statements. Our discussion and analysis of financial condition and results of operations are based upon our consolidated financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States. The preparation of the financial statements requires us to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues, expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, we evaluate the estimates that we have made. These estimates have been based upon historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. We believe the following critical accounting policies affect our more significant judgments and estimates used in the preparation of our consolidated financial statements.

Allowance for Doubtful Accounts and Returns. The Company maintains an allowance for doubtful accounts for estimated losses resulting from the inability of our customers to make required payments, which is included in bad debt expense. Management determines the adequacy of this allowance by regularly reviewing our accounts receivable aging and evaluating individual customer receivables, considering customers' financial condition, credit history and current economic conditions. If the financial condition of our customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowances may be required.

Inventories. Inventories, which are predominantly blank garments or finished goods, are valued at the lower of cost or market, with cost determined using the first-in, first-out method. A detailed analysis of inventory is performed on a periodic basis throughout the year. If actual market conditions are less favorable than those projected by management, additional write-downs may be required.

Impairment of Long-Lived Assets. The Company reviews the carrying values of its long-lived assets whenever events or changes in circumstances indicate that such carrying values may not be recoverable. Unforeseen events, changes in circumstances, market conditions, and changes in estimates of future cash flows could negatively affect the fair value of the Company's assets and result in an impairment charge. Fair value is the amount at which the asset could be bought or sold in a current transaction between willing parties and may be estimated using a number of techniques, including quoted market prices or valuations by third parties, present value techniques based on estimates of cash flows, or multiples of earnings or revenues performance measures. The fair value of the asset could be different using different estimates and assumptions in these valuation techniques.

Income Taxes. The Company recognizes deferred tax assets and liabilities based on differences between the financial statement carrying amounts and the tax bases of assets and liabilities. The Company considers the need to record a valuation allowance to reduce deferred tax assets to the amount that is more likely than not to be realized. We consider tax loss carrybacks, reversal of deferred tax liabilities, tax planning and estimates of future taxable income in assessing the need for a valuation allowance. As of November 30, 2005, the Company has determined that a valuation allowance is not necessary.

Intangible Assets Valuation. SFAS No. 142, Goodwill and Other Intangible Assets became effective for the Company during 2002. SFAS 142 requires, among other things, the discontinuance of goodwill amortization. In addition, the standard includes provisions for the reclassification of certain existing recognized intangibles such as goodwill, reassessment of the useful lives of existing recognized intangibles, reclassification of certain intangibles out of previously reported goodwill and the identification of reporting units for purposes of assessing potential future impairment of goodwill. In assessing the recoverability of our investments in CMJ, Lil Fan, Choice, S2S, and other intangible assets and goodwill, we must make assumptions regarding estimated future cash flows and other factors to determine the fair value of the asset. If these estimates or their related assumptions change in the future, we may be required to record impairment charges for such assets not previously recorded.

Other Pronouncements. On December 16, 2004, the Financial Accounting Standards Board (FASB) issued FASB Statement No. 123 (revised 2004), Share-Based Payment, which is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. Statement 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and amends FASB Statement No. 95, Statement of Cash Flows. The approach to accounting for share-based payments in Statement 123(R) is similar to the approach described in Statement 123. However, Statement 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values and no longer allows pro forma disclosure as an alternative to financial statement recognition. The Company will be required to adopt Statement 123(R) at the beginning of its quarter ending February 28, 2006.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 Organization

In February 2002, Sporting Magic, Inc. (Sporting Magic), a public company with no assets or liabilities, acquired all 6,000,000 of the outstanding common shares of Next, Inc. (Next) in exchange for 6,000,000 shares of the common stock of Sporting Magic (the Merger). In conjunction with the Merger, the holders of the outstanding preferred stock of Next (7,000,000 shares) were to convert their preferred shares to newly authorized preferred shares of Sporting Magic. Subsequent to the closing and effective on the date of the Merger, the preferred shareholders of Next contributed all of their preferred shares to the Company. Consequently, no preferred shares were issued by Sporting Magic. Also, in conjunction with the Merger, the Company assumed 1,982,426 shares of the former shareholders of Sporting Magic, which were outstanding at the date of the Merger. The Company also issued 759,411 shares of its common stock to various outside professional advisors in conjunction with the Merger. On the closing date of the Merger, all of the present directors and executive officers of Sporting Magic were replaced by individuals nominated by the Board of Next, Inc. For accounting purposes, the Merger has been treated as a reverse acquisition of Sporting Magic by Next and a recapitalization of Next. On December 27, 2002 Sporting Magic changed its name to Next, Inc. (now the Company).

Effective June 1, 2002, the Company acquired all of the issued and outstanding equity of CMJ Ventures, Inc., a Florida corporation (CMJ). Effective July 31, 2003, the Company acquired the assets and certain liabilities of Lil Fan, Inc, a Delaware corporation (Lil Fan). Effective October 31, 2004, the Company acquired the assets of Choice International, Inc., a Delaware corporation (Choice - see Note 14 to Consolidated Financial Statements). Effective August 12, 2005, the Company acquired certain assets of S-2-S Acquisition Company, a Delaware corporation (S2S see Note 15 to Consolidated Financial Statements).

NOTE 2 Basis of Presentation and Summary of Significant Accounting Policies

Nature of Business

The Company is a sales and marketing organization that designs, develops, markets, and distributes licensed and branded promotional products and imprinted sportswear primarily through key licensing agreements and the Company's own proprietary designs. The primary industries served by the Company are two interrelated industries, promotional products and imprinted sportswear throughout the United States.

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of the Company and its wholly owned subsidiaries, Next Marketing, Inc., Blue Sky Graphics, Inc., CMJ Ventures, Inc., Lil' Fan, Inc., Choice International, Inc. (from October 31, 2004, the date of acquisition), and S-2-S Acquisition Corporation (from August 12, 2005, the date of acquisition). All significant intercompany balances and transactions have been eliminated. Certain comparative figures presented have been reclassified to conform the prior year's data to the Company's current financial statements.

Accounts Receivable

Accounts receivable are stated at the amounts management expects to collect. Based on management's evaluation of uncollected accounts receivable at the end of each year, bad debts are provided for on the allowance method. The allowance for doubtful accounts as of November 30, 2005 was \$149,717.

Concentration of Credit Risk

During fiscal 2004 and 2005, the Company has made a concerted effort to expand its customer base. As a result of this effort the Company has developed a large, diverse customer base of traditional retailers, ranging from national as well as large regional chains, specialty retailers, corporate accounts, college bookstores, motor sports, souvenir and gift shops, and golf shops. The Company believes that its customer diversification and expansion program has been successful. The Company's customer base had been comprised primarily of national and regional mass merchandise and specialty retailers. During fiscal 2005 and 2004, approximately 44.5% (\$11,872,172) and 23.2% (\$4,988,912), respectively, of the net sales of the Company were to its two largest customers. Sales to the next three largest customers approximated 16.1% (\$4,283,987) and 32.9% (\$7,076,984), respectively, for the same years. In 2004 the Company had sales of approximately \$8,982,428 to four other major customers which comprised 43% of sales in 2004. The Company's management believes that its credit risk exposure, based on current information available on the financial strength of its customers, is limited. Such estimates could change in the future. The Company's accounts receivable are not collateralized.

In 2003, the Company began engaging itself in internet sales which were \$584,625 in 2005 and \$549,767 in 2004.

New Pronouncements

Recent pronouncements that potentially affect these or future financial statements include:

In November 2004, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards (SFAS) No, 151, Inventory Costs an amendment of ARB No. 43, Chapter 4 . This statement clarifies the accounting for abnormal amounts of idle facility expense, freight, handling costs and spoilage. This statement also requires the allocation of fixed production overhead costs be based on normal production capacity. The provisions of SFAS No. 151 are effective for inventory costs incurred during the fiscal years beginning after June 15, 2005. The adoption of this statement will not have a material impact on the Company s consolidated financial statements.

In December 2004, the FASB issued FASB Statement No. 123 (revised 2004), Share-Based Payment, which is a revision of FASB Statement No. 123, Accounting for Stock-Based Compensation. Statement 123(R) supersedes APB Opinion No. 25, Accounting for Stock Issued to Employees, and amends FASB Statement No. 95, Statement of Cash Flows. The approach to accounting for share-based payments in Statement 123(R) is similar to the approach described in Statement 123. However, Statement 123(R) requires all share-based payments to employees, including grants of employee stock options, to be recognized in the financial statements based on their fair values and no longer allows pro forma disclosure as an alternative to financial statement recognition. The Company will be required to adopt Statement 123(R) at the beginning of its quarter ending February 28, 2006.

In December 2004, the FASB issued SFAS No. 153, Exchanges of Nonmonetary Assets-an amendment of APB Opinion No. 29 . SFAS No. 153 addresses the measurement of exchanges of nonmonetary assets. It eliminates the exception from fair value measurement for nonmonetary exchanges of similar productive assets in paragraph 21(b) of APB Opinion No. 29 Accounting for Nonmonetary Transactions and replaces it with an exception for exchanges that do not have commercial substance. A nonmonetary exchange has commercial substance if the future cash flows of the entity are expected to change significantly as a result of this exchange. As required by SFAS No. 153, the Company adopted this new accounting standard effective July 1, 2005. The adoption of SFAS No. 153 did not have a material impact on the Company s consolidated financial statements.

In May 2005, the FASB issued SFAS No. 154, Accounting Changes and Error Corrections (SFAS No. 154), which replaces Accounting Principles Board (APB) No. 20 Accounting Changes , and SFAS No. 3 Reporting Accounting Changes in Interim Financial Statements . SFAS No. 154 changes the requirements for the accounting for and reporting of a change in accounting principle. The statement applies to all voluntary changes in accounting principle as well as changes required by an accounting pronouncement. SFAS No. 154 requires retrospective application to prior periods financial statements of a voluntary change in accounting principle unless it is impracticable to determine the period-specific effects or the cumulative effect of the change. SFAS No. 154 is effective for accounting changes and corrections of errors made in fiscal years beginning after December 15, 2004. The adoption of SFAS No. 154 is not expected to have a material impact on the Company s consolidated financial statements.

In March 2005, the FASB issued Interpretation No. 47, *Accounting for Conditional Asset Retirement Obligations*, an Interpretation of FASB Statement No. 143: (FIN 47), which clarifies the accounting for conditional asset retirement obligations as used in SFAS No. 143, *Accounting for Asset Retirement Obligations*. A conditional asset retirement obligation is an unconditional legal obligation to perform an asset retirement activity in which the timing and/or method of settlement are conditional on a future event that may or may not be within the control of the entity. Under FIN 47, an entity is required to recognize a liability for the fair value of a conditional asset retirement obligations if the fair value of the liability can be reasonably estimated. Any uncertainty about the amount and/or timing of future settlement should be factored into the measurement of the liability when sufficient information exists. FIN 47 also clarifies when an entity would have sufficient information to reasonably estimate the fair value. The provisions of FIN 47 are effective for fiscal years ending after December 15, 2005. The Company is currently evaluating the impact of FIN 47 on its consolidated financial statements.

Property, Plant and Equipment

Property, plant, and equipment are valued at cost and are being depreciated using the straight-line method over the estimated useful lives of the depreciable assets. Upon sale or retirement, asset cost and its related accumulated depreciation are eliminated from the respective accounts and any resulting gain or loss is recognized in income. Routine maintenance and repairs are charged to expense as incurred. Expenditures which materially increase the value or extend useful lives are capitalized.

Fair Value of Financial Instruments

The carrying amounts of financial instruments included in current assets, current liabilities, and short-term debt approximate their fair values. In addition, the note payable to Francis Slocum bank also approximates fair value based upon current interest rates available to the Company. Management has not evaluated the fair value of the note payable to Next Investors because of the related party relationship with that organization.

Revenue Recognition

The Company recognizes revenue when the following conditions are met: persuasive evidence of an agreement exists, the product has been shipped and legal title and all risks of ownership have been transferred, the sales price is fixed or determinable, and collectability is reasonably assured. Revenues are reduced for estimated product returns, allowances and price discounts based on past experience.

Advertising Costs

Advertising costs are expensed as incurred. For the years ended November 30, 2005 and 2004, advertising costs were \$32,095 and \$44,381, respectively.

Use of Estimates in Preparation of Consolidated Financial Statements

The preparation of the accompanying consolidated financial statements in conformity with generally accepted accounting principles requires management to make certain estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates. Significant estimates that are particularly susceptible to change in the next year are those assumptions used in determining the allowance for doubtful accounts receivable, which are based upon specific evaluation related to the aging of the customer accounts.

Long-Lived Assets and Non-Goodwill Intangibles

The Company reviews these assets held and used for possible impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable.

Non-goodwill intangibles are recorded at cost and amortized using the straight-line method over the estimated useful life.

Impairment of Goodwill

Goodwill is assigned to specific reporting units and is reviewed for possible impairment at least annually, or more frequently upon the occurrence of an event or when circumstances indicate that a reporting unit-carrying amount is greater than its fair value.

Stock-Based Compensation

At November 30, 2005, the Company had a stock-based employee compensation plan, which is described more fully in Note 11. The Company accounts for the plan under the recognition and measurement principles of Accounting Principles Board (APB) Opinion No. 25, *Accounting for Stock Issued to Employees*, and related interpretations. The Company has adopted the disclosure option of SFAS No. 123, *Accounting for Stock-Based Compensation*. Accordingly, no compensation cost has been recognized for stock option grants since the options have exercise prices equal to the market value of the common stock at the date of grant.

Edgar Filing: NEXT INC/TN - Form 10KSB

Had compensation cost for stock option grants in 2005 and 2004 been determined based on the fair value at the grant dates consistent with the method prescribed by SFAS No. 123, the Company's net loss per common share would have been adjusted to the pro forma amounts indicated below:

	2004	2005
Net loss, as reported	\$ (280,790)	\$ (680,720)
Beneficial conversion feature relating to series A convertible preferred stock	(197,120)	
Net loss attributable to common stockholders	(477,910)	(680,720)
Deduct: Total stock-based employee compensation expense determined under fair value based methods for all awards, net of related tax effects	(78,841)	(277,401)
Pro-forma net loss	\$ (556,751)	\$ (958,121)

Diluted-as reported	(\$0.03)	(\$0.04)
Diluted-pro-forma	(\$0.04)	(\$0.05)

For purposes of calculating the above-required disclosure, the fair value of each option grant is estimated on the date of grant using the Black-Scholes option-pricing model. The fair value of the Company's stock options was estimated assuming no expected dividends and the following weighted average assumptions:

NOTE 3 Notes Receivable

Notes receivable consists of three notes receivable from a salesperson in the amount of \$48,000, one from the Company's Executive Vice President in the amount of \$61,137, and one from the Company's former CEO William Hensley in the amount of \$510,000. The note receivable from Mr. Hensley was subsequently satisfied in January 2006 by the return of 500,000 shares of the Company's common stock.

NOTE 4 Inventories

Inventories are stated at the lower of cost (first-in, first out basis) or market and consist of the following:

	\$
Raw materials	4,224,445
Finished products	1,635,938
	\$
Total	5,860,383

Raw materials consist of blank garments that are purchased, not manufactured by the Company.

NOTE 5 Income Taxes

Income taxes have been computed in accordance with Statement of Financial Accounting Standards No. 109, Accounting for Income Taxes (SFAS 109). This standard requires, among other things, recognition of future tax expenses or benefits, measured using enacted tax rates, attributable to taxable or deductible temporary differences between financial statements and income tax reporting bases of assets and liabilities and for operating loss carryforwards.

The ultimate realization of deferred tax assets is dependent upon the attainment of forecasted results of operations. Management has taken these and other factors into consideration in recording the deferred tax estimate. The tax effects of temporary differences and carryforwards that give rise to significant portions of the deferred tax asset and liabilities at November 30, 2005, are as follows:

Deferred tax assets:	
	\$
Accounts receivable allowance	59,887
Operating loss carryforwards	920,739
	\$
Total deferred tax assets	980,626
Deferred tax liabilities:	
	\$
Property, plant and equipment	265,479
Goodwill and other intangibles	114,287
	\$
Total deferred tax liabilities	379,766
	\$
Total deferred taxes, net	600,860
	\$
Current portion	300,000
	\$
Noncurrent portion	300,860

A reconciliation of income tax at the statutory rate to the Company's effective rate is as follows:

2004 **2005**

Edgar Filing: NEXT INC/TN - Form 10KSB

Tax benefit computed at maximum federal statutory rate	(34) %	(34) %
		(4)
State income taxes, net of federal benefit	1 %	%
Temporary book/tax differences in assets		(1) %
Income tax benefit effective rate	(33)%	(39) %

At November 30, 2005, the Company had net tax operating loss carryforwards of approximately \$2,300,000, which expire through 2025. The Company has not yet filed its income tax return for the year ended November 30, 2005, but estimates the portion of this loss carryforward resulting from 2005 operations to be approximately \$960,000.

(MidSouth) and Itasca Capital Partners LLC (Itasca) (collectively, the Purchasers) and raised \$2,990,000 in a private placement to the Purchasers. The warrants are exercisable at \$1.75 per share for five years, but the average closing price must be equal to at least \$2.10 for ten consecutive trading days to exercise purchase. The total offering price was \$2,990,000 in cash.

On October 25, 2005 the Company's shareholders voted their approval on the First Amendment to the Amended and Restated Certificate of Incorporation which increased the number of authorized shares of common stock of the Company from 50 million to 100 million.
