Motion to Reject Executory Contract

Now comes the debtor, Group Management Corp., and files this motion as a contested matter under Rule 6006, and Rule 9014 of the United States Bankruptcy Code, to reject the executory contract, entered into with the above named creditors, on or about February 2, 2001 and shows the court the following:

1.

The debtor entered into a convertible Financing Transaction on or about February 2001, for the principal amount of \$1.1 million, ("the Financing Transaction") with the above named Creditors Ex. #1.

2.

The debtor has received several requests for conversion of the outstanding principal balance from the Creditors.

3.

The debtor's common stock trades on the Over the Counter Bulletin Board under the symbol, GPMT.

4.

Beginning on or about February 2001 the Debtor's common stock experienced abnormal and unusual trading patterns.

5.

The Debtor believes the unusual and abnormal trading patterns in its common stock is the result of the Creditors entering into naked shorts sales of its common stock and using the conversion of the principal amount to cover the shares sold short by the creditors.

6.

The Debtor's common stock was trading in the range of \$2.85 adjusted for a 1:20 reverse split, per share prior to entering into the Financing Transaction with the creditors.

7.

After entering into the Financing Transaction the Debtor's common stock has traded in a 52 week range of \$0.002-\$2.85 per share.

8.

The Board of Directors of the Debtor has met and determined under the business judgment rule that it is the best

interest of the Debtor to reject the executory contract, Financing Transaction entered into with the above named Creditors.

9.

The Board of Directors of the Debtors believes the Debtor will be unable to reorganize unless the Financing Contract is rejected.

WHEREFORE, the debtor prays that the Court enter an order declaring the above referenced Financing Contract with the above named Creditors be declared rejected, and any other remedies the Court deemed proper to order.
