#### **Basis of Presentation**

The accompanying consolidated interim financial statements include the accounts of the Company and its subsidiaries. All significant inter-company accounts and transactions have been eliminated in consolidation. In the opinion of management, these consolidated financial statements reflect all adjustments which are of a normal recurring nature and which are necessary to present fairly the Company s consolidated financial position as of December 31, 2012 and September 30, 2012, and its consolidated results of operations and consolidated cash flows for the three months ended December 31, 2012 and 2011.

Certain amounts for prior fiscal periods have been reclassified to conform to the current fiscal period s presentation.

All references in these notes to management are to the management of Sally Beauty.

### 2. Significant Accounting Policies

The consolidated interim financial statements included herein are unaudited and have been prepared by the Company pursuant to the rules and regulations of the Securities and Exchange Commission (SEC). Certain information and note disclosures normally included in annual financial

statements prepared in accordance with accounting principles generally accepted in the United States (GAAP) have been condensed or omitted pursuant to those rules and regulations, although the Company believes that the disclosures made are adequate to make the information not misleading. These consolidated interim financial statements should be read in conjunction with the financial statements and notes thereto included in the Company s Annual Report on Form 10-K for the fiscal year ended September 30, 2012. The Company adheres to the same accounting policies in the preparation of its interim financial statements. As permitted under GAAP, interim accounting for certain expenses, including income taxes, is based on full year assumptions. Such amounts are expensed in full in the year incurred. For interim financial reporting purposes, income taxes are recorded based upon estimated annual effective income tax rates.

The results of operations for these interim periods are not necessarily indicative of the results that may be expected for any future interim period or the entire fiscal year.

#### 3. Comprehensive Income and Accumulated Other Comprehensive (Loss) Income

In June 2011, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2011-05 which amended Accounting Standards Codification (ASC) Topic 220, Comprehensive Income. The Company adopted the provisions of ASU No. 2011-05, as amended, effective October 1, 2012. Accordingly, the components of the Company s other comprehensive income are reported in the accompanying consolidated statements of comprehensive income. The Company s other comprehensive income has historically consisted of foreign currency translation adjustments, as well as deferred gains (losses) on certain interest rate swaps until the expiration of such swaps in May 2012 (Please see Note 10 for more information about the Company s interest rate swaps).

For the three months ended December 31, 2012, other comprehensive income consists exclusively of foreign currency translation adjustments of \$2.7 million. For the three months ended December 31, 2011, other comprehensive income consists of foreign currency translation adjustments of \$1.9 million and deferred gains on certain interest rate swaps of \$2.4 million (before income taxes of \$0.9 million).

At December 31, 2012 and September 30, 2012, accumulated other comprehensive loss consists of cumulative foreign currency translation adjustments of \$8.0 million and \$10.7 million and is net of income taxes of \$2.9 million and \$2.9 million, respectively.

#### 4. Recent Accounting Pronouncements and Accounting Changes

#### **Recent Accounting Pronouncements**

We have not yet adopted and are currently assessing any potential effect of the following recent pronouncement on our consolidated financial statements:

In July 2012, the FASB issued ASU No. 2012-02, *Testing Indefinite-Lived Intangible Assets for Impairment*, which amended ASC Topic 350, *Intangibles-Goodwill and Other* (ASC 350). This amendment allows an entity to first assess relevant qualitative factors in order to determine whether it is necessary to perform the quantitative impairment test for indefinite-lived intangible assets otherwise required under ASC 350. In effect, the amendment eliminates the need to calculate the fair value of an indefinite-lived intangible asset in connection with the impairment test unless the entity determines, based on the qualitative assessment, that it is more likely than not that the asset is impaired. This amendment is effective for fiscal years beginning after September 15, 2012. Early application is permitted.

### **Accounting Changes**

The Company made no accounting changes during the three months ended December 31, 2012.

### 5. Fair Value Measurements

The Company s financial instruments consist of cash and cash equivalents, trade and other accounts receivable, accounts payable, foreign currency derivative instruments and debt. The carrying amounts of cash and cash equivalents, trade and other accounts receivable and accounts payable approximate fair value due to the short-term nature of these financial instruments.

The Company measures on a recurring basis and discloses the fair value of its financial instruments under the provisions of ASC Topic 820, *Fair Value Measurement*, as amended (ASC 820). The Company defines fair value as the price that would be received to sell an asset or paid to transfer a liability (i.e., the exit price) in an orderly transaction between market participants at the measurement date. ASC 820 establishes a three-level hierarchy for measuring fair value and requires an entity to maximize the use of observable inputs and minimize the use of

unobservable inputs when measuring fair value. This valuation hierarchy is based upon the transparency of inputs to the valuation of an asset or
liability on the measurement date. The three levels of that hierarchy are defined as follows:

<u>Level 1</u> - Unadjusted quoted prices in active markets for identical assets or liabilities;

<u>Level 2</u> - Unadjusted quoted prices in active markets for similar assets or liabilities; or unadjusted quoted prices for identical or similar assets or liabilities in markets that are not active; or inputs other than quoted prices that are observable for the asset or liability; or inputs that are derived principally from or corroborated by observable market data; and

<u>Level 3</u> - Unobservable inputs for the asset or liability.

Consistent with this hierarchy, the Company categorized certain of its financial assets and liabilities as follows at December 31, 2012 (in thousands):

		As of December 31, 2012					
	Total	Level 1	Level 2	Level 3			
Assets
