-

ITEM 8.01 Other Events

Mexico, DF, September 4, 2014, Buenavista del Cobre, S.A. de C.V., (the Company) a subsidiary of Southern Copper Corporation, reports that its Buenavista del Cobre mine continues normal operations and that no significant changes in production are expected.

The recovery ponds that were temporarily shut down by the authorities are located far from the ore deposit and mine operations (10 km). These recovery ponds are under construction for the future additional production of copper at our new Leaching Plant (SX/EW III).

As previously announced, the estimated copper production of the mine in 2014 remains unchanged at 672,000 tons. Our copper production target is still 840,000 tons for 2015, we expect to reach 995,000 tons in 2016 and 1,175,000 tons in 2017 pursuant to the investment program approved by the Board of Directors of Southern Copper Corporation.

The Company will continue to support the affected communities and repair the damage caused by this regrettable accident in coordination with the pertinent authorities. Pursuant to preliminary technical studies, the Company has created a \$300 million pesos (\$23 million dollars) reserve to guarantee the repair of any damage and to cover administrative sanctions related to this accident.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, as amended, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.
