Press release

MTS and the Republic of Uzbekistan Discontinue International Arbitration

November 17, 2014

Moscow, Russian Federation Mobile TeleSystems OJSC (MTS or the Company NYSE: MBT), the leading telecommunications provider in Russia and the CIS, announces that the International Center for Settlement of the Investment Disputes (the ICSID), a Member of the World Bank Group, has discontinued international arbitration proceedings between MTS and the Republic of Uzbekistan following the submission of a joint application by both parties.

On July 31, 2014, MTS and the Republic of Uzbekistan signed a Settlement Agreement, the purpose of which was to resolve all disputes between the parties and enable MTS to resume operations in Uzbekistan.

In accordance with the terms of a Settlement Agreement, on September 24, 2014, a 50.01% stake in the charter capital of UMS was transferred to MTS, while a state-owned unitary enterprise Center for Radio communications, Radio and TV broadcasting established and managed by the State Committee for Communications, Development of Information Systems and Telecommunications Technologies of the Republic of Uzbekistan retained the remaining 49.99% stake. Assets, equipment and infrastructure, which were previously owned by Uzdurobita FE LLC, a former subsidiary of MTS in Uzbekistan, were transferred to UMS.

Prior to the transfer of the stake in UMS to MTS, UMS had been granted 2G, 3G and LTE licenses, and received frequencies, numbering capacity and other permits required for the launch of operations. UMS has also received guaranties for the investment protection and return of investments in accordance with the laws of the Republic of Uzbekistan. UMS plans commercial launch of the network on December 01, 2014.

The Settlement agreement is governed by English law and provides for resolution of any disputes arising out of the Settlement agreement in the International Court of Arbitration under International Chamber of Commerce in Paris (ICC).

Some of the information in this press release may contain projections or other forward-looking statements regarding future events or the future financial performance of MTS, as defined in the safe harbor provisions of the U.S. Private Securities Litigation Reform Act of 1995. You can identify forward looking statements by terms such as expect, believe, anticipate, estimate, intend, will, could, may or might, and such terms or other similar expressions. We wish to caution you that these statements are only predictions and that actual events or results may differ materially. We do not undertake or intend to update these statements to reflect events and circumstances occurring after the date hereof or to reflect the occurrence of unanticipated events. We refer you to the documents MTS files from time to time with the U.S. Securities and Exchange Commission, specifically the Company's most recent Form 20-F. These documents contain and identify important factors, including those contained in the section captioned "Risk Factors" that could cause the actual results to differ materially from those contained in our projections or forward-looking statements, including, among others, the severity and duration of current economic and financial conditions, including volatility in interest and exchange rates, commodity and equity prices and the value of financial assets; the impact of Russian, U.S. and other foreign government programs to restore liquidity and stimulate national and global economies, our ability to maintain our current credit rating and the impact on our funding costs and competitive position if we do not do so, strategic actions, including acquisitions and dispositions and our success in integrating acquired businesses, potential fluctuations in quarterly results, our competitive environment, dependence on new service development and tariff structures, rapid technological and market change, acquisition strategy, risks associated with telecommunications infrastructure, governmental regulation of the telecommunications industries and other risks associated with operating in Russia and the CIS, volatility of stock price, financial risk management and future growth subject to risks.
