Services revenues amounted to \$10,405 (+30.7% vs. 1Q15) and represented 83.5 % of consolidated revenues (vs. 89.7% in 1Q15). Equipment revenues increased 124.5%, amounting to \$2,050 and represented 16.5% of consolidated revenues (vs. 10.3% in 1Q15).

Fixed Services

During 1Q16, services revenues generated by this segment amounted to \$3,406 (+\$1,046 or 44.3% vs. 1Q15), where Internet revenues have grown the most (+\$417 or +42.9% vs. 1Q15), followed by data transmission services (+\$282 or +69.3% vs. 1Q15) and voice retail services (+\$230 or +30.9% vs. 1Q15).

- Voice

Voice retail revenues (including regulated services) reached \$975 in 1Q16 (+30.9% vs. 1Q15). Revenues from regulated services reached approximately 24% of the segment services revenues in 1Q16 (vs. 27% in 1Q15).

Monthly Charges and Supplementary Services increased \$146 or +46.8% vs. 1Q15, reaching \$458. The increase was mainly due to higher Supplementary Services revenues (not regulated) amounting to \$26, which was mainly related to an increase in their prices and, to a lesser extent, to the increase in the subscriber base. It also includes higher monthly charges to commercial, professional and government customers amounting to \$120.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Revenues generated by measured services (Local Measured Service, Domestic Long Distance and International Long Distance services) amounted to \$493 (+\$84 or 20.5% vs. 1Q15), mainly due to the increase in plans prices (both in local and long national distance). According to this, local measured service revenues increased 25.9% vs. 1Q15 and DLD revenues increased 18.4% vs. 1Q15. The Average Monthly Revenue per User (ARBU) amounted to \$80.9 pesos per month in 1Q16 vs. \$60.5 pesos per month amounted in 1Q15, representing an increase of 33.7%. The remaining retail voice revenues amounted to \$24 in 1Q16 (the same as in 1Q15).

Voice wholesale revenues (including fixed and mobile interconnection revenues and lease of circuits, together with the revenues generated by the subsidiary Telecom USA amounting to \$85) amounted to \$352 in 1Q16 (+49.8% vs. 1Q15). Interconnection fixed and mobile revenues amounted to \$237 and the other wholesale revenues amounted to \$115 in 1Q16 (+43.8% vs. 1Q15), mainly due to higher prices related to cell sites rentals due to the variation of the \$/US\$ exchange rate.

- **Data**

Data revenues (including the revenues generated by the subsidiary Telecom USA amounted to \$2) amounted to \$689 (+\$282 vs. 1Q15). These revenues were generated focusing on the Company's position as an integrated TICs provider (Datacenter, VPN, among others) for wholesale and government segments. The increase was primarily due to the variation of the \$/US\$ exchange rate related to agreements settled in such foreign currency and to the increase in the number of *Innovation* services customers (in particular *Integra* service, which increased \$61 vs. 1Q15).

Table of Contents

- **Internet**

Internet revenues amounted to \$1,390 (+\$417 or +42.9% vs. 1Q15) mainly due to the expansion of the Broadband customers (+2.3% vs. 1Q15) and an increase in average prices resulting in an improvement in the Average Monthly Revenue per User (ARPU), that amounted to \$248.8 pesos per month in 1Q16 vs. \$178.5 pesos per month in 1Q15 (+39.4%). As of March 31, 2016, Telecom Argentina reached approximately 1,809,000 ADSL customers. These connections represent approximately 45.1% of Telecom Argentina s fixed lines in service (vs. 43.4% in 1Q15). The churn rate per month amounted to 1.4% in 1Q16 (vs. 1.3% in 1Q15).

Internet services revenues represent 11.2% of consolidated revenues (vs. 11.0% 1Q15) and 40.8% of Fixed Services segment services revenues (vs. 41.2% in 1Q15).

Personal Mobile Services

During 1Q16, total services revenues amounted to \$6,451 (+\$1,235 or 23.7% vs. 1Q15), being the principal business segment in revenues terms (62.0% and 65.5% of services consolidated revenues in 1Q16 and 1Q15, respectively). Personal reached 19.7 million subscribers in Argentina (+1.7% vs. 1Q15). Approximately 67% of the subscriber base is prepaid subscribers and 33% is postpaid subscribers (including Cuentas claras and postpaid Mobile Internet dongles). The churn rate per month amounted to 2.9% in 1Q16 (vs. 3.3% in 1Q15).

- **Voice**

Voice retail revenues amounted to \$2,049 in 1Q16 (+20.4% vs. 1Q15). The increase was mainly due to the increase in monthly charges prices in the postpaid and Cuentas claras subscriber base and prepaid services and to the net variation of the subscriber base showing an increase in Cuentas claras subscribers (+8.6% vs. 1Q15) and postpaid subscribers (+4.9% vs. 1Q15) and a decrease in prepaid subscribers (-0.6% vs. 1Q15).

Voice wholesale revenues amounted to \$465 in 1Q16 (-3.3% vs. 1Q15), mainly due to the decrease in interconnection services (mainly TLRD and CPP).

- **Data**

Mobile data services revenues amounted to \$1,735 (-\$110 or -6.0% vs. 1Q15). This situation is related to the main component of VAS revenues, SMS consumption, which decreased \$219 or -21.7% vs. 1Q15, experiencing a decrease in TOU (-69.0% vs. 1Q15). Nevertheless, this effect was

partially offset by the constant SMS with contents sales increase as a result of several campaigns launched by Personal, which represented an inter-annual increase of \$88 or 11.2%.

- **Internet**

Mobile Internet revenues amounted to \$2,202 (+\$1,014 or +85.4% vs. 1Q15). This increase is mainly explained by the increase in browsing services consumption of Personal's subscribers, which was mainly fueled by the increase in the offer of services, plans and packs (including VAS) launched by Personal. This growth was fueled by new subscribers, the migration of the existing ones to higher-value plans and the increase of subscribers that acquired 3G and 4G handsets, which facilitate Internet browsing. Internet flat rate services revenues have decreased mainly due to the decrease of Mobile Internet dongles subscribers (-17% vs. 1Q15).

As a consequence of the increase in VAS use (Internet and data), ARPU increased to \$104.4 pesos per month in 1Q16 (vs. \$86.2 pesos per month in 1Q15), which represents an increase of 21.1%.

VAS revenues (data and Internet) amounted to \$3,937 (+29.8% vs. 1Q15) and represented 61.0% of Personal Mobile Services' services revenues (vs. 58.1% in 1Q15).

Núcleo Mobile Services

This segment generated services revenues equivalent to \$548 during 1Q16 (+\$165 or 43.1% vs. 1Q15) mainly due to the Internet revenues increase (+65.9% vs. 1Q15), mainly related to the increase of browsing generated by subscribers with mobile equipment prepared for that purpose. As of March 31, 2016, Núcleo's subscriber base reached 2.6 million customers. Prepaid and postpaid subscribers (including Plan Control subscribers and mobile Internet subscribers) represented 80% and 20% in 1Q16, respectively.

VAS revenues (data and Internet) amounted to \$313 (+49.8% vs. 1Q15) and represented 57.1% of Núcleo Mobile Services segment services revenues (vs. 54.6% in 1Q15).

Table of Contents

The Telecom Group's services revenues increased 30.7%. Data and Internet services revenues from all segments have maximized Telecom Group's services revenues showing a 36.9% increase vs. 1Q15, increasing its relative weight over total services revenues according to the following table:

	2016	Three-month periods ended March 31,		Variation %	
		%	2015	%	1Q16 vs. 1Q15

Equipment

Revenues from equipment amounted to \$2,050, +\$1,137 or +124.5% vs. 1Q15. This increase is mainly related to the Personal Mobile Services with an increase of \$1,076 vs. 1Q15 due to higher handsets sold (+37% vs. 1Q15) and higher handset's sale prices (+64% vs. 1Q15) resulting in a significantly higher operating margin of handsets in this segment (+\$288 or +100.0% vs. 1Q15).

- Operating costs**

Consolidated operating costs including depreciations, amortizations and gain on disposal of PP&E and impairment of PP&E totaled \$10,469 in 1Q16, which represents an increase of \$3,270 or +45.4% vs. 1Q15. The increase in costs is mainly a consequence of a higher revenues, higher expenses related to competition in mobile and Internet businesses, higher direct and indirect labor costs on the cost structure of the Telecom Group in Argentina, the increase in fees for services related to higher supplier prices, the increase in taxes and fees with the Regulatory Authority, the increase in the cost of equipment and handsets, the increase of VAS costs, the increase in bad debt expenses, higher agent commissions and higher depreciations and amortizations.

The costs breakdown is as follows:

Employee benefit expenses and severance payments

Employee benefit expenses and severance payments amounted to \$2,174 (+\$631 or +40.9% vs. 1Q15). The increase was mainly due to increases in salaries agreed by Telecom Argentina with several trade unions for the unionized employees and also to non-unionized employees, together with related social security charges. With a total headcount of 16,290 by the end of 1Q16, (vs. 16,358 employees in 1Q15), lines in service per employee reached 365 in the Fixed Services segment (slightly lower than 1Q15), subscribers per employee reached 4,020 in the Personal Mobile Services segment (+2.8% vs. 1Q15) and subscribers per employee reached 6,244 (similar to 1Q15) in the Núcleo Mobile Services segment.

Interconnection costs and other telecommunication charges

Interconnection costs and other telecommunication charges (including charges for TLRD, Roaming, Interconnection costs, cost of international outbound calls and lease of circuits) amounted to \$707 (+\$207 or +41.4% vs. 1Q15). The increase was mainly due to higher TLRD and roaming costs.

Table of Contents

Fees for services, maintenance, materials and supplies

Fees for services, maintenance, materials and supplies amounted to \$1,093, +\$204 or +22.9% vs. 1Q15. The increase was mainly due to higher maintenance costs of radio bases in the mobile services segments, as a result of the variation in the \$/US\$ exchange rate, an increase in technical assistance cost of radio bases, higher system licenses costs, higher costs of sites location and higher storage costs. There were also increases in other maintenance costs and fees for services, mainly due to higher costs recognized to suppliers in all segments.

Taxes and fees with the Regulatory Authority

Taxes and fees with the Regulatory Authority (including turnover tax, fees with the Regulatory Authority, IDC, municipal and other taxes) amounted to \$1,208 (+38.4% vs. 1Q15), influenced mainly by the increase in revenues of fixed and mobile services and by the increase of the IDC related to higher collections and payments to suppliers in 1Q16 vs. 1Q15.

Commissions

Commissions (including Agent, distribution of prepaid cards and other commissions) amounted to \$1,231 (+\$408 or +49.6% vs. 1Q15). The increase was mainly due to the increase in Agents' commissions (associated to higher revenues) as a result of higher customer's acquisition and retention costs recognized to them and the increase of outsourced sales commissions and collection commissions.

On the other hand, agent commissions capitalized as SAC amounted to \$341, +\$141 or +70.5% vs. 1Q15, and it's directly related to the increase in the Cuentas claras subscribers' base in the Personal Mobile Services segment and the increase in the commissions prices.

Cost of equipment and handsets

Cost of equipments and handsets amounted to \$1,534 (+\$874 or +132.4% vs. 1Q15) mainly due to the increase in the units of handsets sold (+37% vs. 1Q15) and the increase in the average unit cost of sales (+72% vs. 1Q15) in the Personal Mobile Services segment.

On the other hand, SAC deferred costs from handsets sold amounted to \$35, +\$15 or +75.5% vs. 1Q15.

Advertising

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Advertising amounted to \$192 (+\$1 vs. 1Q15).

Cost of VAS

Cost of VAS amounted to \$390 (+\$97 or +33.1% vs. 1Q15). The increase was mainly due to the increase of VAS sales in the Personal Mobile Services segment, especially the SMS with content service, which grew as a consequence of several campaigns launched by Personal.

Provisions

Provisions amounted to \$14, -\$79 or -84.9% vs. 1Q15. The decrease was mainly due to lower labor claims (-\$13 vs. 1Q15), lower civil and commercial claims (-\$42 vs. 1Q15) and lower regulatory and municipal contingencies (-\$25 vs. 1Q15).

Bad debt expenses

Bad debt expenses amounted to \$255 (+\$72 or +39.3% vs. 1Q15), representing approximately 2.0% and 2.1% of the consolidated revenues in 1Q16 and 1Q15, respectively. The major increase is observed in the Personal Mobile Services segment by \$79 as a consequence of higher aging of the accounts receivables and higher incidence of handsets sales directly financed by Personal to its postpaid and Cuentas claras subscribers. These charges have been partially offset in Telecom Argentina by \$7 in the Government and Corporate segment as a consequence of the collection from some governmental entities.

Other operating costs

Other operating costs amounted to \$650 (+\$233 or +55.9% vs. 1Q15). The increase was mainly due to higher prices on related services, especially in transportation, freight and travel expenses (+\$109 or +76.8% vs. 1Q15), among others, in the operations in Argentina; the increase of rent prices (+\$57 or +46.7% vs. 1Q15), as a result of new agreements and the renegotiation of some of the existing ones and the increase of the consumption of electricity (+\$69 or +77.5% vs. 1Q15).

Table of Contents

- **Operating income before depreciation and amortization**

Operating income before depreciation and amortization amounted to \$3,394 in 1Q16 (+\$760 or 28.9% vs. 1Q15), representing 27.3% of consolidated revenues in 1Q16 (vs. 29.7% in 1Q15). This growth was mainly fueled by the Fixed Services segment (+\$186 or +29.8% vs. 1Q15) and Personal Mobile Services segment (+\$534 or +28.7% vs. 1Q15).

Operating income before depreciation and amortization generated by equipment and handset sales (including SAC capitalization) amounted to \$551 in 1Q16 vs. \$273 in 1Q15 (+\$278 or 101.8% vs. 1Q15), while operating income before depreciation and amortization generated by services sales amounted to \$2,843 in 1Q16 vs. \$2,361 in 1Q15 (+\$482 or +20.4% vs. 1Q15).

Depreciation and amortization

Depreciation and amortization amounted to \$1,375 (+\$418 or +43.7% vs. 1Q15). The increase in depreciation and amortization includes \$256 from PP&E depreciation, \$39 from amortization of intangible assets without SAC and \$123 from amortization of SAC and service connection costs. The increase in depreciation and amortization corresponds 27% to the Fixed Services segment and 73% to the mobile services segments.

Gain on disposal of PP&E and impairment of PP&E

Gain on disposal of PP&E and impairment of PP&E amounted to a loss of \$22 in 1Q16 and to a gain of \$3 in 1Q15, respectively, and were mainly related to the Personal Mobile Services segment.

- **Operating income**

Operating income amounted to \$1,997 in 1Q16 (+\$317 or 18.9% vs. 1Q15). The margin over consolidated revenues represented 16.0% in 1Q16 (vs. 18.9% in 1Q15). This growth was mainly fueled by the Personal Mobile Services segment (+\$240 or +18.0% vs. 1Q15) and the Fixed Services segment (+\$98 or +33.4% vs. 1Q15).

- **Financial results, net**

Net financial results resulted in a net loss of \$557, representing an increase of \$468 vs. 1Q15. The higher loss was mainly due to higher net foreign currency exchange losses (+\$355 vs. 1Q15) and higher interests on loans (+\$268 vs. 1Q15), partially offset by higher interests on

receivables (+\$22 vs. 1Q15) and higher investments results (+\$159 vs. 1Q15).

- Net income**

Telecom Argentina reached a net income of \$935 in 1Q16, -\$106 or -10.2% as compared to 1Q15, representing 7.5% of the consolidated revenues in 1Q16 (vs. 11.7% in 1Q15). Net income attributable to Telecom Argentina amounted to \$925 in 1Q16, -\$103 or -10.0% as compared to 1Q15.

7. Outlook

A new political, economic and regulatory environment for the telecommunications industry is being developed in 2016. Activity levels will continue depending on the country's macroeconomic situation and, in particular, on the purchasing power and levels of consumption of our customers. We are aware that in the first half of 2016 readjustments in prices of many goods and services are being implemented as a result of their adaptation to changes in the US dollar exchange rate, after certain exchange restrictions were eliminated and the subsidy policy of several public services was reduced. However, a deceleration of the inflation rate and a reactivation of the economic activity are expected during the second half of 2016.

We are confident that our products and services demand will remain at fair levels, especially those related to the fixed and mobile Internet usage, taking into account the innovative offerings that the Telecom Group is planning to launch in the market.

The fixed telephony evolution will continue in line with the trend in recent years, influenced by the maturity of the market. The steadily deploying of the Ultra-Broadband will continue for Broadband, with new technologies replacing copper with optical fiber in different points of the network. During 2016, the Company expects to add 4,000 kilometers of optical fiber to the existing 22,000 kilometers, expanding the network capacity throughout the country, granting more speed and security to our customers' consumption. The Company will continue providing convergent solutions to the corporate segment with a portfolio that provides customers next-generation Datacenter services.

To maximize business, Personal will continue to focus on the quality of service, innovation and the deployment of the LTE/4G network at national level. Personal will also continue to work on optimizing the customers' experience to offer the best User experience, improving the coverage and speed of the network. 3G technology will also be expanded with new frequencies and more investment, thus continuing with the technological conversion and capacity enlargement of the network. This infrastructure improvement comes together with the evolution of the Data Centric offering in line with the evolution of the mobile market and the new business model that requires evolution and simplification.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

Customer service quality will continue to focus mainly on the efficiency of channels and segmentation of the service customer with a customer-centric vision. The self-management channel will also continue to be encouraged (promoting the use of social networks), in order to simplify more and more the customers' management and control over their lines.

Operational excellence will remain a goal to aim a better use of the physical, human and technological resources of the Group so as to continue meeting profitability expectations of our stakeholders without neglecting the business profitability.

The strategy implemented by the Company's Management, renewed with the incorporation of a new indirect controlling shareholder and its management team, will procure to lead the convergent connectivity of people, homes and companies. The Telecom Group believes that this goal will be achieved by placing customers and their experience in the core of the operation, developing an innovative offering, establishing an agile and excellent organization, strengthening the employees' satisfaction and commitment, implementing a major investment plan and reaffirming day by day its commitment to the country and its people.

Table of Contents**NOTE 1 BASIS OF PREPARATION OF THE UNAUDITED CONDENSED CONSOLIDATED FINANCIAL STATEMENTS AND SIGNIFICANT ACCOUNTING POLICIES****a) Basis of preparation and significant accounting policies**

As required by the CNV for most of public companies, these consolidated financial statements have been prepared in accordance with RT 26 of FACPCE (as amended by RT 29) and in accordance with IFRS as issued by the IASB, as adopted by the CPCECABA.

For the preparation of these consolidated financial statements, the Company has elected to make use of the option provided by IAS 34, so, these consolidated financial statements do not include all the information required in an annual financial statement, and must be read jointly with the 2015 annual consolidated financial statements which can be consulted at the Company's website (www.telecom.com.ar/inversores).

As of March 31, 2016, entities included in the consolidation process and the respective equity interest owned by Telecom Argentina is presented as follows:

Subsidiaries	Percentage of capital stock owned and voting rights (i)	Indirect control through	Date of acquisition	Segment that consolidates (Note 4)
Telecom USA	100.00%		09.12.00	Fixed Services
Micro Sistemas (ii)	99.99%		12.31.97	Fixed Services
Personal	99.99%		07.06.94	Personal Mobile Services
Núcleo (iii)	67.50%	Personal	02.03.98	Núcleo Mobile Services
Personal Envíos (iii)	67.50%	Núcleo	07.24.14	Núcleo Mobile Services

(i) Percentage of equity interest owned has been rounded.

(ii) Dormant entity as of March 31, 2016 and December 31, 2015 and for the three-month periods ended March 31, 2016 and 2015.

(iii) Non-controlling interest of 32.50% is owned by the Paraguayan company ABC Telecomunicaciones S.A.

For the preparation of these consolidated financial statements, the Company followed the same accounting policies applied in the most recent annual consolidated financial statements.

The preparation of these consolidated financial statements in conformity with IFRS requires the Company's Management to use certain critical accounting estimates. Actual results could differ from those estimates.

These consolidated financial statements (except for cash flow information) are prepared on an accrual basis of accounting. Under this basis, the effects of transactions and other events are recognized when they occur. Therefore income and expenses are recognized at fair value on an accrual basis regardless of when they are perceived or paid. When significant, the difference between the fair value and the nominal amount of income and expenses is recognized as finance income or expense using the effective interest method over the relevant period.

These consolidated financial statements have also been prepared on a going concern basis, as there is a reasonable expectation that Telecom Argentina and its subsidiaries will continue its operational activities in the foreseeable future (and in any event with a time horizon of more than twelve months).

Publication of these consolidated financial statements for the period ended March 31, 2016 was approved by resolution of the Board of Directors meeting held on May 9, 2016.

b) **Financial statement formats**

The financial statement formats adopted are consistent with IAS 1, In particular:

- the consolidated statements of financial position have been prepared by classifying assets and liabilities according to current and non-current criterion. Current assets and liabilities are those that are expected to be realized within twelve months after the period-end;
- the consolidated income statements have been prepared by classifying operating expenses by nature of expense as this form of presentation is considered more appropriate and representative of the specific business of the Telecom Group as evaluated by the Management, and are in line with the industrial sector of telecommunications;

Table of Contents

- the consolidated statements of comprehensive income include the profit or (loss) for the period as shown in the consolidated income statement and all components of other comprehensive income;
- the consolidated statements of changes in equity have been prepared showing separately (i) profit (loss) for the period, (ii) other comprehensive income (loss) for the period, and (iii) transactions with shareholders (controlling and non-controlling);
- the consolidated statements of cash flows have been prepared by presenting cash flows from operating activities according to the indirect method, as permitted by IAS 7.

These consolidated financial statements contain all material disclosures required under IAS 34. Some additional disclosures required by the LGS and/or by the CNV have been also included, among them, complementary information required in the last paragraph of Article 1 Chapter III Title IV of the CNV General Resolution No. 622/13. Such information is disclosed in Notes 2 and 6 to these consolidated financial statements, as admitted by IFRS.

c) **Segment reporting**

An operating segment is defined as a component of an entity that engages in business activities from which it may earn revenues and incur expenses, and whose financial information is available, held separately, and evaluated regularly by the Telecom Group's Chief Executive Officer (CEO).

Operating segments are reported in a consistent manner with the internal reporting provided to the CEO, who is responsible for allocating resources and assessing performance of the operating segments at the net income (loss) level and under the accounting principles effective (IFRS as issued by the IASB) at each time for reporting to the Regulatory Bodies. The accounting policies applied for segment information are the same for all operating segments.

Information regarding segment reporting is included in Note 4.

d) **Net income per share**

The Company computes net income per common share by dividing net income for the period attributable to Telecom Argentina (Controlling Company) by the weighted average number of common shares outstanding during the period. Diluted net income per share is computed by dividing the net income for the period by the weighted average number of common and dilutive potential common shares then outstanding during the period. Since the Company has no dilutive potential common stock outstanding, there are no dilutive earnings per share amounts.

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

For the three-month periods ended March 31, 2016 and 2015, the weighted average number of shares outstanding totaled 969,159,605 shares, respectively.

- Maximum amount to be invested: \$1,200.
- Deadline for the acquisitions: until April 30, 2014.

According to the offer made on November 7, 2013 by Fintech Telecom LLC for the acquisition of the controlling interest of the Telecom Italia Group in Telecom Argentina (see Note 5.a to these consolidated financial statements), Telecom Argentina suspended the acquisition of treasury shares and its Board of Directors considered appropriate to request the opinion of the CNV on the applicability of the new provisions contained in the rules issued by that entity (Title II, Chapter I, Art.13 and concurring) with respect to the continuation of the Treasury Shares Acquisition Program.

The CNV did not answer the Company's request and the Telecom Argentina's Board of Directors, at its meeting held on May 8, 2014, decided to conclude the request considering that the Treasury Shares Acquisition Program finished on April 30, 2014, which had been approved by Telecom Argentina's Board of Directors Meeting held on May 22, 2013.

Telecom Argentina's Board of Directors, at its meeting held on June 27, 2014, decided to request a new opinion from the CNV to confirm whether Telecom Argentina is obliged to refrain from acquiring treasury shares in the market under Section 13, Chapter I, Title II of the CNV rules (NT 2013).

Table of Contents

NOTE 10 RECENT DEVELOPMENTS CORRESPONDING TO THE THREE-MONTH PERIOD ENDED MARCH 31, 2016 FOR THE TELECOM GROUP**a) Change of indirect parent company of the Telecom Group**

Edgar Filing: TELECOM ARGENTINA SA - Form 6-K

On November 14, 2013, Telecom Italia S.p.A and Telecom Italia International N.V. (jointly, the Sellers) and Tierra Argentea (a company controlled by the Sellers) announced the acceptance of an offer by Fintech Telecom LLC to acquire the controlling stake held by the Telecom Italia Group in Telecom Argentina, owned by the Sellers, through its subsidiaries Sofora, Nortel and Tierra Argentea. Closing of the transfer of the Telecom Italia Group s shares in Sofora was subject to certain required regulatory authorizations.

On December 10, 2013, Tierra Argentea transferred to Fintech Telecom LLC Telecom Argentina s Class B shares representing 1.58% of Telecom Argentina s capital stock and Nortel s ADRs representing 8% of Nortel s Preferred Class B Shares.

On October 25, 2014, Telecom Italia S.p.A. announced its acceptance of an offer by Fintech Telecom LLC to amend and restate the agreement announced on November 14, 2013. Within the frame of this amendment agreement: 1) on October 29, 2014 Telecom Italia International N.V. transferred 17% of Sofora s capital stock to Fintech Telecom LLC; 2) it was confirmed that the transfer of the 51% controlling interest in Sofora was subject to the prior approval of the telecommunications regulatory authority (previously the SC, then the AFTIC and currently the ENACOM).

On October 16, 2015, AFTIC s Resolution No. 491/2015 was published in the Official Bulletin, denying authorization for the transfer of Telecom Italia s controlling equity interest in Sofora to Fintech. Such Resolution was challenged in several opportunities by Fintech, the Sellers, W de Argentina Inversiones S.A., Telecom Argentina and Personal.

On February 17, 2016 Telecom Argentina was notified of ENACOM Resolution No. 64/16 pursuant to which ENACOM partially revoked AFTIC Resolution No. 491/15 and decided to continue analyzing the transfer of Telecom Italia Group's shares in Sofora.

On February 24, 2016, Telecom Argentina was notified of Fintech Telecom LLC's intention to launch a Mandatory Tender Offer (the OPA) resulting from a change of control event for all Class B common shares of Telecom Argentina listed on the Buenos Aires Securities Market, or Mercado de Valores de Buenos Aires S.A. The OPA's background and purpose, price, timing and terms of acceptance, and details of the facts that condition its performance, are described in an OPA notice published in the newspaper *El Cronista Comercial* on February 24, 2016, in page No.5.

On March 7, 2016, ENACOM Resolution No. 277/16 authorized Fintech's acquisition of 51% of Sofora's shares of common stock, and on March 8, 2016, the transfer of Telecom Italia Group's 51% stake in Sofora to Fintech was closed.

On March 8, 2016, the new members of the Board of Directors of Telecom Argentina and Personal appointed by Fintech replaced the members of such Boards of Directors appointed by the Telecom Italia Group. The Personal's Unanimous General Ordinary and Extraordinary Shareholders Meeting held on March 29, 2016 and the Telecom Argentina's General Ordinary and Extraordinary Shareholders Meeting held on April 8, 2016 approved, among other items, the performance of duties of the directors and alternate directors and the members of the Supervisory Committee appointed by the Sellers in such companies and appointed new directors and alternate directors and members of the Supervisory Committee to cover the vacancy generated by those appointed by the Sellers. This new directors and alternate directors and members of the Supervisory Committee would hold their positions until the next Shareholders Meetings that would consider the financial statements as of December 31, 2015.

On March 8, 2016 the change of Sofora's controlling shareholder became effective and, accordingly, the Telecom Italia Group ceased being the Company's indirect controlling shareholder (position assumed by Fintech). Based on such facts, on April 15, 2016 Telecom Argentina and Personal notified the CNCD that the *Telco and TI-W Commitments have become moot and have completely lost its cause and purpose*.

Additional information regarding the transaction between the Telecom Italia Group and Fintech as well as the OPA promoted by Fintech is available in the Relevant Facts section of the CNV at www.cnv.gob.ar, and in the Company filings section (Telecom Italia S.p.A and Telecom Argentina) of the SEC at www.sec.gov.

However, on March 11, 2016, the Company informed the ENACOM that the new rate of SBT for the residential segment will be \$38 Argentine pesos (plus VAT) since May 1st, 2016, in response to a collaboration request made by the Regulatory Authority taking into

The Commission will be responsible for the study of both laws reforms under the principles established therein.

Table of Contents

The Commission should submit a pre-draft of reform, updating and adaptation of a unified system of the Regulatory Framework Law for the Telecommunications and Audiovisual Communication Services in Argentina, within the 180 days from the date of its constitution. This term could be extended at the Commission's request.

According to Law No. 26,122, rejection of a Decree by both Chambers of Congress would repeal the Decree, while upholding the rights acquired during its enforcement (Article 24 of Law No. 26,122). On April 8, 2016, the Congress voted in favor of the validity of the DNU No. 267/15, so it has entered into force.
