Risk Factors

Please see the Preliminary Offering Documents for a description of certain risks related to this investment, including, but not limited to, the following:

Edgar Filing: BANK OF NOVA SCOTIA - Form FWP

- Depending on the performance of the Market Measure as measured shortly before the maturity date, your investment may result in a loss; there is no return of principal.
- Payments on the notes are subject to the credit risk of BNS, and actual or perceived changes in the creditworthiness of BNS are expected to affect the value of the notes. If BNS becomes insolvent or is unable to pay its obligations, you may lose your entire investment.
- Your investment return is limited to the return represented by the Capped Value and may be less than a comparable investment directly in the stock of BNS or the Market Measure.
- The initial estimated value of the notes on the pricing date will be less than their public offering price.
- If you attempt to sell the notes prior to maturity, their market value may be lower than both the public offering price and the initial estimated value of the notes on the pricing date.
- You will have no rights of a holder of the securities represented by the Market Measure, and you will not be entitled to receive securities or dividend distributions by the issuers of those securities.
- Your return on the notes may be affected by factors affecting the international securities markets, specifically changes within the Eurozone. The Eurozone has been undergoing severe financial stress, and the political, legal and regulatory ramifications are impossible to predict. Changes within the Eurozone could adversely affect the performance of the Index and, consequently, the value of the notes. In addition, you will not obtain the benefit of any increase in the value of the euro against the U.S. dollar which you would have received if you had owned the securities in the Index during the term of your notes, although the level of the Index may be adversely affected by exchange rate movements in the market.

Final terms will be set on the pricing date within the given range for the specified Market-Linked Investment. Please see the Preliminary Offering Documents for more complete disclosure, including related risks and tax disclosure.

The Bank of Nova Scotia (BNS) has filed a registration statement (which includes a prospectus) with the U.S. Securities and Exchange Commission (SEC) as described in this Guidebook.
