INFORMATION ABOUT THE MEETING

Why am I receiving these materials?

Our Board of Directors has made these materials available to you on the internet, or, upon your request, will deliver printed proxy materials to you, in connection with the solicitation of proxies for use at our 2013 Annual Meeting of Stockholders, which will be held at the Westin Memphis Beale Street, located at 170 Lt. George W. Lee Avenue, Memphis, TN 38103, on May 14, 2013, beginning at 8 a.m. (Central Time). As a stockholder, you are invited to attend the Annual Meeting and are requested to vote on the items of business described in this proxy statement.

Why did I receive a notice in the mail regarding the internet availability of proxy materials instead of a full set of proxy materials?

In accordance with rules adopted by the Securities and Exchange Commission (SEC), we may furnish proxy materials, including this Proxy Statement and our 2012 Annual Report, to our stockholders by providing access to such documents on the internet instead of mailing printed copies. Most stockholders will not receive printed copies of the proxy materials unless they request them. Instead, the Notice of Internet Availability of Proxy Materials (Notice), which was mailed to our stockholders, will instruct you as to how you may access and review all of the proxy materials on the internet.

How do I get electronic access to the proxy materials?

The Notice will instruct you as to how you may access and review all of the proxy materials on the internet. The Notice also instructs you as to how you may submit your proxy on the internet. If you would like to receive a paper or email copy of our proxy materials, you should follow the instructions for requesting such materials in the Notice.

What is the purpose of the meeting?

At the meeting, our stockholders will vote on the following items:

1. Approval of an amendment to our certificate of incorporation increasing the maximum size of our Board of Directors to ten directors;
2. Election of nine directors to serve on our Board of Directors for a term of one year;
3. Subject to approval of Proposal 1, election of a tenth director to serve on our Board of Directors for a term of one year;
4. Approval of the Amended and Restated 2002 Employee Stock Purchase Plan;
5. Approval of the Second Amended and Restated 2009 Equity Incentive Plan;
6. Approval of the Amended and Restated 2010 Executive Performance Incentive Plan;
7. An advisory vote to approve the compensation of our named executive officers; and
8. Ratification of the selection of KPMG LLP as our independent registered public accounting firm for 2013.

Stockholders also will transact any other business that properly comes before the meeting. In addition, our management may report on our performance during 2012 and will respond to appropriate questions from stockholders.

Who is entitled to vote?

The record date for the meeting is March 15, 2013. Only stockholders of record at the close of business on March 15, 2013, are entitled to receive notice of the meeting and to vote at the meeting the shares of our common stock that they held on that date. Each outstanding share of common stock entitles its holder to one vote on each matter voted on at the meeting. At the close of business on March 15, 2013, there were 46,721,450 outstanding shares of common stock.

Table of Contents

Am I entitled to vote if my shares are held in “street name”?

If you are the beneficial owner of shares held in “street name” by a brokerage firm, bank, or other nominee, such entity, as the record holder of the shares, is required to vote the shares in accordance with your instructions. If you do not give instructions to your nominee, it will nevertheless be entitled to vote your shares on “discretionary” items but will not be permitted to do so on “non-discretionary” items. Proposal 1 (approval of certificate of incorporation amendment), Proposal 2 (election of nine directors), Proposal 3 (election of a tenth director), Proposal 4 (approval of the Amended and Restated 2002 Employee Stock Purchase Plan), Proposal 5 (approval of the Second Amended and Restated 2009 Equity Incentive Plan), Proposal 6 (approval of the Amended and Restated 2010 Executive Performance Incentive Plan), and Proposal 7 (advisory vote to approve the compensation of our named executive officers) are non-discretionary items for which a nominee will not have discretion to vote in the absence of voting instructions from you. However, Proposal 8 (ratification of the selection of the independent registered public accounting firm) is an item on which your nominee will be entitled to vote your shares even in the absence of instructions from you.

How many shares must be present to conduct business at the meeting?

A quorum must be present at the meeting before conducting any business. The presence at the meeting, in person or by proxy, of the holders of a majority of the shares of our common stock outstanding on the record date of March 15, 2013, will constitute a quorum. Abstentions and broker non-votes will be included in the number of shares considered present at the meeting for the purpose of determining whether there is a quorum.

What happens if a quorum is not present at the meeting?

If a quorum is not present at the scheduled time of the meeting, the holders of a majority of the shares present in person or represented by proxy at the meeting may adjourn the meeting to another place, date, or time until a quorum is present. The place, date, and time of the adjourned meeting will be announced when the adjournment is taken, and no other notice will be given unless the adjournment is for more than thirty days, or if after the adjournment a new record date is fixed for the adjourned meeting.

How do I vote my shares?

If you are a registered stockholder, you may vote by telephone or internet. If you are a registered stockholder (i.e., your shares are held in your own name), you may vote by telephone or on the internet by following the instructions included on the proxy card. You do not need to return your proxy card if you vote by telephone or on the internet.

If your shares are held in “street name,” you may be eligible to provide voting instructions to your nominee by telephone or on the internet. If you are a beneficial owner of shares held in “street name” (i.e., your shares are held in the name of a brokerage firm, bank, or other nominee), you may be eligible to provide voting instructions to your nominee by telephone or on the internet. A large number of brokerage firms, banks, and other nominees participate in a program provided through Broadridge Investor Communications Solutions (Broadridge) that offers telephone and internet voting options. If your shares are held in “street name” by a brokerage firm, bank, or other nominee that participates in the Broadridge program, you may provide voting instructions to your nominee by telephone or on the internet by following the instructions set forth on the voting instruction form provided to you. You do not need to return your proxy card if you provide voting instructions to your nominee by telephone or on the internet.

You may vote by mail. If you are a registered stockholder, you may vote by properly completing, signing, dating, and returning the accompanying proxy card. The enclosed postage-paid envelope requires no additional postage if it is mailed in the United States or Canada. If you are a beneficial owner of shares held in “street name,” you may provide voting instructions to the brokerage firm, bank, or other nominee that holds your shares by properly completing, signing, dating, and returning the voting instruction form provided to you by your nominee.

You may vote in person at the meeting. If you are a registered stockholder and attend the meeting, you may deliver your completed proxy card in person. In addition, we will pass out written ballots to registered stockholders who wish to vote in person at the meeting. If you are a beneficial owner of shares held in “street name” and wish to vote at the meeting, you will need to obtain a proxy form from the brokerage firm, bank, or other nominee that holds your shares.

Table of Contents

Can I change my vote after I submit my proxy?

Yes, you can revoke your proxy and change your vote at any time before the polls are closed at the meeting in any of the following ways: (1) by voting again by telephone or on the internet, because only your latest telephone or internet vote will be counted; (2) by properly completing, signing, dating, and returning another proxy card with a later date; (3) if you are a registered stockholder, by voting in person at the meeting; (4) if you are a registered stockholder, by giving written notice of such revocation to our Corporate Secretary prior to or at the meeting; or (5) if you are a beneficial owner of shares held in "street name," by following the instructions given by the brokerage firm, bank, or other nominee that holds your shares. Your attendance at the meeting itself will not revoke your proxy unless you give written notice of revocation to our Corporate Secretary before the polls are closed.

Who will count the votes?

Broadridge will tabulate and certify the stockholder votes submitted by proxy. A representative of Broadridge will serve as the inspector of election at the meeting.

How does our Board of Directors recommend that I vote on the proposals?

Our Board of Directors recommends that you vote:

1. "FOR" the approval of an amendment to our certificate of amendment increasing the maximum size of our Board of Directors to ten directors;
2. "FOR" the election of nine directors to serve on our Board of Directors for a term of one year;
3. "FOR" subject to the approval of Proposal 1, the election of a tenth director to serve on our Board of Directors for a term of one year;
4. "FOR" the approval of the Amended and Restated 2002 Employee Stock Purchase Plan;
5. "FOR" the approval of the Second Amended and Restated 2009 Equity Incentive Plan;
6. "FOR" the approval of the Amended and Restated 2010 Executive Performance Incentive Plan;
7. "FOR" the approval of the compensation of our named executive officers; and
8. "FOR" the ratification of the selection of KPMG LLP as our independent registered public accounting firm for 2013.

What happens if I do not specify how my shares are to be voted?

If you submit a proxy but do not indicate any voting instructions, your shares will be voted in accordance with the recommendations of our Board of Directors, which are stated in the previous answer.

Will any other business be conducted at the meeting?

As of the date hereof, our Board of Directors knows of no business that will be presented at the meeting other than the proposals described in this Proxy Statement. However, if any other proposal properly comes before the stockholders for a vote at the meeting, the proxy holders will vote your shares in accordance with their best judgment.

How many votes are required for action to be taken on each proposal?

Approval of Proposal 1 above (approval of certificate of incorporation amendment) requires the affirmative vote of two-thirds of the shares issued, outstanding and entitled to vote on the subject matter thereof.

For Proposal 2 (election of nine directors), director nominees will be elected to serve on our Board of Directors for a term of one year if they receive a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter. This means that the nine director nominees receiving the most votes will be elected at the

Table of Contents

meeting. If you vote to “Withhold Authority” with respect to the election of one or more director nominees, your shares will not be voted with respect to the person or persons indicated, although they will be counted for the purpose of determining whether there is a quorum at the meeting.

For Proposal 3 above (election of a tenth director), subject to the approval of Proposal 1 by our stockholders, the tenth director nominee, Douglas G. Watson, will be elected to serve on our Board of Directors for a term of one year if the director nominee receives a plurality of the votes of the shares present in person or represented by proxy at the meeting and entitled to vote on the subject matter.

Approval of Proposal 4 (approval of the Amended and Restated 2002 Employee Stock Purchase Plan), Proposal 5 (approval of the Second Amended and Restated 2009 Equity Incentive Plan), Proposal 6 (approval of the Amended and Restated 2010 Executive Performance Incentive Plan), Proposal 7 (advisory vote to approve the compensation of our named executive officers) and Proposal 8 (ratification of selection of independent registered public accounting firm) requires the affirmative vote of a majority of the shares present in person or represented by proxy at the annual meeting and entitled to vote on the subject matter thereof.

How will abstentions be treated?

You do not have the option of abstaining from voting on Proposal 2 (election of nine directors) and Proposal 3 (election of a tenth director), but you may abstain from voting on Proposal 1 (approval of certificate of incorporation amendment), Proposal 4 (approval of the Amended and Restated 2002 Employee Stock Purchase Plan), Proposal 5 (approval of the Second Amended and 2009 Restated Equity Incentive Plan), Proposal 6 (approval of the Amended and Restated 2010 Executive Performance Incentive Plan), Proposal 7 (advisory vote to approve the compensation of our named executive officers) and Proposal 8 (ratification of the selection of the independent registered public accounting firm). With respect to Proposal 2 and Proposal 3, because the directors are elected by a plurality vote, an abstention will have no effect on the outcome of the vote and, therefore, is not offered as a voting option on the proposal. In the case of an abstention on Proposal 1, Proposal 4, Proposal 5, Proposal 6, Proposal 7 or Proposal 8, your shares would be included in the number of shares considered present at the meeting for the purpose of determining whether there is a quorum. Because your shares would be voted but not in favor of Proposal 1, Proposal 4, Proposal 5, Proposal 6, Proposal 7 or Proposal 8, your abstention would have the same effect as a negative vote in determining the outcome of the vote on the proposal.

How will broker non-votes be treated?

A “broker non-vote” occurs when a brokerage firm, bank, or other nominee does not vote shares that it holds in “street name” on behalf of a beneficial owner, because the beneficial owner has not provided voting instructions to the nominee with respect to a non-discretionary item. Proposal 1 (approval of certificate of incorporation amendment), Proposal 2 (election of nine directors), Proposal 3 (election of a tenth director), Proposal 4 (approval of the Amended and Restated 2002 Employee Stock Purchase Plan), Proposal 5 (approval of the Second Amended and Restated 2009 Equity Incentive Plan), Proposal 6 (approval of the Amended and Restated 2010 Executive Performance Incentive Plan), and Proposal 7 (advisory vote to approve the compensation of our named executive officers) are non-discretionary items for which a nominee will not have discretion to vote in the absence of voting instructions from the beneficial owner. Proposal 8 (ratification of the selection of the independent registered public accounting firm), on the other hand, is a discretionary item for which a nominee will have discretion to vote even without voting instructions from the beneficial owner. Accordingly, it is possible for there to be broker non-votes with respect to Proposal 1, Proposal 2, Proposal 3, Proposal 4, Proposal 5, Proposal 6, and Proposal 7, but there will not be broker non-votes with regard to Proposal 8. In the case of a broker non-vote, your shares would be included in the number of shares considered present at the meeting for the purpose of determining whether there is a quorum. A broker non-vote, being shares not entitled to vote, would not have any effect on the outcome of the vote on Proposal 2 or Proposal 3.

BOARD OF DIRECTORS

General

Our Board of Directors currently consists of nine directors. Our directors are David D. Stevens (chairman), Gary D. Blackford, Martin J. Emerson, Lawrence W. Hamilton, Ronald K. Labrum, John L. Miclot, Robert J. Palmisano, Amy S. Paul, and Robert J. Quillinan. The directors are elected at each annual meeting of stockholders and serve for a term of one year until the next annual meeting of stockholders and until their respective successors are elected and qualified, subject to their prior death, resignation, retirement, disqualification, or removal from office. All of our directors were elected at the 2012 Annual Meeting of stockholders.

Director Independence

It is the policy of our Board of Directors that a majority of the directors be independent as defined by the listing standards of the NASDAQ Stock Market (Nasdaq). Our Board of Directors has determined that eight of nine directors - Gary D. Blackford, Martin J. Emerson, Lawrence W. Hamilton, Ronald K. Labrum, John L. Miclot, Amy S. Paul, Robert J. Quillinan, and David D. Stevens - are independent as defined in Nasdaq's listing standards. In addition, Douglas G. Watson, if elected to our Board of Directors, would be independent as defined in Nasdaq's listing standards.

Board Leadership Structure

Our Board of Directors has chosen to separate the Chief Executive Officer and Board Chairman positions. Our Board of Directors is currently led by an independent Chairman, David D. Stevens. Mr. Palmisano, our Chief Executive Officer, is the only member of our Board of Directors who is not an independent director as defined in the listing standards of Nasdaq. We believe that this leadership structure enhances the accountability of the Chief Executive Officer to our Board of Directors and strengthens our Board of Directors' independence from management. In addition, separating these roles allows Mr. Palmisano to focus his efforts on managing the business, while our Board of Directors benefits from Mr. Palmisano's experience, expertise, and judgment.

Risk Oversight

Our Board of Directors is responsible for overseeing our risk management process. Our Board of Directors focuses on our general risk management strategy, the most significant risks to us, and ensures that appropriate risk mitigation strategies are implemented by management. Our Board of Directors is also apprised of particular risk management matters in connection with its general oversight and approval of corporate matters.

Under our Audit Committee's charter, our Audit Committee discusses with management and the independent auditor our major financial risk exposures and the steps management has taken to monitor and control such exposures, including our risk assessment and risk management policies and guidelines.

Our management is responsible for day-to-day risk management. Our finance and accounting, legal, and compliance areas serve as the primary monitoring and testing function for company-wide policies and procedures, and manage the day-to-day oversight of our risk management strategy for our ongoing business. This oversight includes identifying, evaluating, and addressing potential risks that may exist at the enterprise, strategic, financial, operational, compliance, and reporting levels.

The other committees of our Board of Directors also consider and address risk as they perform their respective committee responsibilities. All committees report to the full Board of Directors as appropriate, including when a matter rises to the level of a material or enterprise level risk.

We believe the division of risk management responsibilities described above is an effective approach for addressing the risks facing us.

Meetings Attended by Directors

Our Board of Directors holds meetings on a quarterly basis and on other occasions as necessary or appropriate. Our Board of Directors met 11 times in 2012. Our Board of Directors has three standing committees - the Audit Committee, the Compensation Committee, and the Nominating, Compliance and Governance Committee. The Audit Committee, the Compensation Committee, and the Nominating, Compliance and Governance Committee met 7, 8 and 5 times, respectively, in 2012. Each director attended at least 81% of the total number of meetings of our Board of Directors and its committees on which he or she served in 2012.

Our independent directors have regularly scheduled meetings at which only they are present. Our independent directors met 5 times in 2012. Pursuant to our Corporate Governance Principles, the chairman of the Nominating, Compliance and Governance Committee or another independent director selected by a majority of the independent directors presides at these meetings.

Our directors are encouraged to attend our annual meeting of stockholders absent exceptional cause. With the exception of Messrs. Blackford, Emerson and Labrum, each director attended the 2012 Annual Meeting.

Board of Directors Committees

Our Board of Directors delegates certain of its functions to its standing Audit Committee, Compensation Committee, and Nominating, Compliance and Governance Committee. Information regarding the responsibilities of these committees and their members is provided below.

Audit Committee. The Audit Committee oversees our accounting and financial reporting processes and the audits of our financial statements. In this role, the Audit Committee monitors and oversees the integrity of our financial statements and related disclosures, the qualifications, independence, and performance of our independent auditor, the performance of our internal auditing function, and our compliance with applicable legal requirements and our business conduct policies. The Audit Committee has a written charter, which was revised by our Board of Directors on May 11, 2011. A copy of the charter is posted on our website at <http://www.wmt.com/corporate/corporate-governance>. The information on our website, however, is not a part of this Proxy Statement. The Audit Committee is composed of three directors who are appointed by our Board of Directors upon the recommendation of the Nominating, Compliance and Governance Committee. The members of the Audit Committee are Robert J. Quillinan (chairman), Gary D. Blackford, and Martin J. Emerson, all of whom are independent as defined in Nasdaq's listing standards and meet the independence criteria set forth in the SEC's rules. Our Board of Directors has determined that each member of the Audit Committee is an audit committee financial expert as defined in the SEC's regulations. The report of the Audit Committee appears on page 13 of this Proxy Statement.

Compensation Committee. The Compensation Committee oversees our compensation and benefit programs, including director compensation, executive compensation, equity compensation, incentive compensation, selection and retention of key management, and succession planning. The Compensation Committee has a written charter, which was revised by our Board of Directors on February 13, 2013. A copy of the charter is posted on our website at <http://www.wmt.com/corporate/corporate-governance>. The information on our website, however, is not a part of this Proxy Statement. The Compensation Committee is composed of three directors who are appointed by our Board of Directors upon the recommendation of the Nominating, Compliance and Governance Committee. Labrum, all of whom are independent as defined in Nasdaq's listing standards and meet the independence criteria set forth in the SEC's rules. The report of the Compensation Committee appears beginning on page 14 of this Proxy Statement.

Nominating, Compliance and Governance Committee. The Nominating, Compliance and Governance Committee oversees our corporate compliance and governance processes. In this role, the Nominating, Compliance and Governance Committee identifies and recommends individuals qualified to become members of our Board of Directors, makes recommendations regarding the establishment and membership of the committees of our Board of Directors, develops and reviews corporate governance principles applicable to us, and leads the annual review of the performance of our Board of Directors and its committees. The Nominating, Compliance and Governance Committee also oversees our corporate compliance function. Our Chief Compliance Officer reports directly to the Committee, which receives regular reports from the Chief Compliance Officer. The Nominating Compliance and Governance Committee evaluates the performance of the Chief Compliance Officer. The Nominating, Compliance and

Governance Committee has a written charter, which was revised by our Board of Directors on May 9, 2012. A copy of the charter is posted on our website at <http://www.wmt.com/corporate/corporate-governance>. The information on our website, however, is not a part of this Proxy Statement. Miclot (chairman), Amy S. Paul, Gary D. Blackford, and David D. Stevens, each of whom is independent as defined in Nasdaq's listing standards and meet the independence criteria set forth in the SEC's rules.

Director Nominations

Our Board of Directors will consider all potential candidates for nomination by our Board of Directors for election as directors at subsequent elections who are recommended by our stockholders, directors, officers, and employees. All director recommendations must be made in accordance with the provisions of Article II, Section 5 of our bylaws, which set forth requirements concerning the information about the candidate to be provided and the timing for the submission of the recommendations. All director recommendations should be sent to the Nominating, Compliance and Governance Committee, c/o Corporate Secretary, Wright Medical Group, Inc., 5677 Airline Road, Arlington, Tennessee 38002. The Nominating, Compliance and Governance Committee will screen all potential director candidates in the same manner, regardless of the source of their recommendation. The Nominating, Compliance and Governance Committee's review typically will be based on the written materials provided with respect to a potential director candidate. The Nominating, Compliance and Governance Committee will evaluate and determine whether a potential candidate meets our minimum qualifications and specific qualities and skills for directors and whether requesting additional information or an interview is appropriate.

Our Board of Directors and the Nominating, Compliance and Governance Committee believe that our Board of Directors, as a whole, should possess a diverse combination of perspectives, expertise, and experience necessary to oversee our current and future needs. Our Board of Directors has adopted the following series of minimum qualifications and specific qualities and skills for our directors, which will serve as the basis upon which potential director candidates are evaluated by the Nominating, Compliance and Governance Committee:

• Directors should possess the highest personal and professional ethics, integrity, and values.

• Directors should have an inquisitive and objective perspective, practical wisdom, and mature judgment.

• Directors should have expertise and experience at policy-making levels in areas that are relevant to our business.

• Directors should have, or demonstrate an ability and willingness to acquire in short order, a clear understanding of the fundamental aspects of our business.

• Directors should be committed to representing the long-term interests of our stockholders.

• Directors should be willing to devote sufficient time to carry out their duties and responsibilities effectively and should be committed to serving on our Board of Directors for an extended period of time.

• Directors should offer their resignation in the event of any significant change in their personal circumstances, including a change in their principal job responsibilities.

Directors, who also serve as the chief executive officer, chief operating officer, or chief financial officer of another public company should not serve on more than two boards of public companies in addition to our Board of Directors, and other directors should not serve on more than four boards of public companies in addition to our Board of Directors.

In making our determinations regarding director nominees, our Board of Directors will consider whether a potential candidate has previously served as our director. Our Board of Directors does not believe, however, that directors should expect to be automatically renominated on an annual basis. Instead, the annual self-assessment of the performance of our Board of Directors and its committees is an important determinant of director tenure.

Each current director and candidate for reelection in Proposal 2 (election of nine directors) and the nominee for election in Proposal 3 (election of a tenth director) brings a strong and unique set of experience, qualifications, attributes and skills in a wide variety of areas, including board service, executive management, sales, marketing and international business. Set forth below are the specific experience, qualifications, attributes and skills of the nominees for reelection to our Board of Directors that led to the conclusion that the nominee should serve as a member of our Board of Directors.

Table of Contents

With this experience, he brings valuable insight into our business and its development since 2004. In addition, Mr. Stevens has extensive experience serving as a chief executive officer and as a director in public companies, which we believe makes him well suited to lead our Board of Directors as our Board of Directors' chairman.

Gary D. Blackford has served as a chief executive officer of a wound-management company and as a director with other public companies in the healthcare industry. We believe his experience provides valuable insight into the market for our biologics products, and his extensive experience leading healthcare companies contributes to the effectiveness of our Board of Directors.

Mr. Emerson also has management experience with international operations of medical device and other companies, which allows him to provide guidance on our international operations.

Lawrence W. Hamilton has significant management experience in human resources. We believe that Mr. Hamilton's experience in managing employees and establishing compensation policies and guidelines provides us with a valuable resource for our compensation and human resources functions.

During the past five years, Mr. Palmisano has served on the Board of Directors of ev3, Inc., Osteotech, Inc. and Advance Medical Optics, Inc., all publicly-held companies. Mr. Palmisano's qualifications to serve on our Board of Directors include his experience serving on other public companies' boards of directors and his extensive business knowledge working with other public companies in the medical device industry. As our Chief Executive Officer, we believe that Mr. Palmisano's perspective into our business is an invaluable resource for our Board of Directors.

We believe that Ms. Paul's executive experience in sales and marketing in the medical device industry provides us with leadership in our most critical functions.

Douglas G. Watson has served as the chief executive officer of a life science company and a director of several private and public companies. In addition, Mr. Watson and his accounting background provide our Board of Directors with additional financial expertise. Further, as a past director of BioMimetic Therapeutics, Inc., Mr. Watson brings to our Board of Directors an institutional knowledge of BioMimetic's products and operations as they are integrated into our own.

Corporate Governance Principles

Our Board of Directors has adopted Corporate Governance Principles to guide our Board of Directors in carrying out its governance duties along with the provisions of our Certificate of Incorporation, By-laws, and all applicable rules, regulations, and laws. The Corporate Governance Principles, which were revised by our Board of Directors on May 9, 2012, are posted on our website at <http://www.wmt.com/corporate/corporate-governance>. The information on our website, however, is not a part of this Proxy Statement. In addition to other matters, our Corporate Governance Principles require that any director up for election at our annual meeting of stockholders, who fails to receive at least a majority of the votes cast for election, shall offer to resign from our Board of Directors. The Nominating, Compliance and Governance Committee then makes a recommendation to our Board of Directors whether to accept, reject, or take other action regarding the offered resignation. Our Board of Directors must review the recommendation of the Nominating, Compliance and Governance Committee and act promptly to accept, reject, or take other action it deems

appropriate under the circumstances. The affected director does not take part in the deliberations or

actions of the Nominating, Compliance and Governance Committee or our Board of Directors in this matter. If our Board of Directors accepts the resignation, then our Board of Directors will fill the resulting vacancy pursuant to our Certificate of Incorporation and By-laws, and all applicable rules, regulations, and laws.

The Audit Committee chairman, acting alone, may approve those transactions with related persons that meet the foregoing criteria and that are valued at \$25,000 or less. All approvals made by the Audit Committee chairman are required to be reported to the entire Audit Committee at the next available opportunity.

The Audit Committee or its chairman will consider all relevant factors, including as applicable, (i) the benefits of the transaction to us, (ii) whether the transaction is material to us, (iii) the effect, if any, of the transaction on a director's independence in the event the related person is a director or an immediate family member or affiliate of a director, (iv) the availability of other sources for comparable products or services, (v) the terms of the transaction and whether they are fair and reasonable to us, (vi) the terms available to or from unrelated third parties or to employees generally, (vii) the role of the related person in arranging the transaction, (viii) the interests of the related person, and (ix) whether the potential transaction with a related person is consistent with our Code of Business Conduct. The Audit Committee will annually review and consider any previously approved or ratified transaction with a related person that remains ongoing to determine whether the transaction requires additional or continuing approval and if conditions should be imposed with respect to the transaction.

We are not currently and have not been engaged in any transactions with related persons since January 1, 2012.

Compensation Committee Report

The Compensation Committee of our Board of Directors has the primary authority for determining our compensation philosophy and establishing compensation for our executive officers. The Compensation Committee sets performance goals and objectives for the President and Chief Executive Officer (CEO) and the other executive officers, evaluates their performance with respect to those goals and sets their compensation based upon the evaluation of their performance. In evaluating executive officer compensation, the Compensation Committee considers recommendations from our CEO with respect to goals and compensation of the other executive officers and assesses the information that it receives. The Compensation Committee recommends the compensation of the CEO for approval by the independent directors of our Board of Directors. The Compensation Committee also periodically reviews director compensation. From time to time we may engage consultants with specific expertise related to executive officer or director compensation and benefits. All decisions with respect to executive officer and director compensation are approved by the Compensation Committee.

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis for the year ended December 31, 2012 with management. Based upon such review and discussion, the Compensation Committee recommended to our Board of Directors, and our Board of Directors has approved, that the following Compensation Discussion and Analysis be included in this Proxy Statement for the Annual Meeting of Stockholders to be held on May 14, 2013 to be filed with the SEC.

Compensation Discussion and Analysis

In the following Compensation Discussion and Analysis, we describe the material elements of compensation awarded to our CEO, our chief financial officer, and our three other most highly compensated executive officers who were serving in such capacities on December 31, 2012 (collectively, our named executive officers). We focus primarily on the 2012 information contained in the tables and related footnotes and narrative under the heading "Executive Compensation" below, but also describe compensation actions taken during other periods to the extent it enhances the understanding of our executive compensation disclosure for 2012. In this discussion, we refer to each "named executive officer" identified in the tables as an "executive officer."

Our executive compensation programs have remained substantially the same for several years. We believe our programs are effectively designed and working well in alignment with the interests of our stockholders and are instrumental to achieving

our business strategy. In determining executive compensation for 2012, the Compensation Committee considered the overwhelming stockholder support that the “Say-on-Pay” proposal received at our May 9, 2012 Annual meeting of stockholders. As a result, the Compensation Committee continued to apply the same effective principles and philosophy it has used in previous years in determining executive compensation and will continue to consider stockholder concerns and feedback in the future.

Significant Factors Impacting Executive Compensation. When considering our executive compensation, it should be noted that we experienced significant business challenges over the course of 2011. These challenges included the extension of our Deferred Prosecution Agreement (DPA) for an additional 12 month period, significant customer losses in our OrthoRecon business, deteriorating financial performance and a depressed stock price. In addition, we experienced extensive senior management turnover, which included the departures of our Chief Executive Officer, Chief Technology Officer, Chief Compliance Officer and General Counsel. Collectively, these departures represented approximately 50% of our senior management team.

Our Board of Directors and its Compensation Committee believed that despite these challenges we had significant potential for creating stockholder value and began a search for a new CEO to lead us. As a result of this search, in September of 2011, we appointed Mr. Palmisano, who possessed substantial experience in the successful leadership of medical device companies, as CEO to lead our turnaround. Mr. Palmisano's experience includes turning around and significantly improving the operating performance of several device companies, including Summit Autonomous, Inc., IntraLase Corporation and, most recently, ev3 Inc. In order to attract a CEO of Mr. Palmisano's caliber and experience, it was necessary to offer a compensation package at the high end of the range for CEOs in our peer group of companies. After joining us in September 2011 and putting a plan in place to improve our performance, Mr. Palmisano began filling the open senior management positions, completing this process with the hiring of Mr. Pascal Girin, our Executive Vice President and Chief Operating Officer, in November of 2012.

We believe these actions were necessary and have been justified by the results achieved. Entering 2012, we were in a position of decreasing sales, earnings and free cash flow, due primarily to the impact of challenges which arose prior to Mr. Palmisano's appointment. In early 2012, Mr. Palmisano announced a transformational plan to improve our performance. The first stage of this plan was focused on improving the growth rate of our foot and ankle business and increasing free cash flow. In 2012, we exceeded expectations in both of these key areas. Additionally, we successfully exited our DPA. As a result of this strong execution, we ended the year with a solid foundation for continued growth in 2013 and beyond.

These results have been reflected in our stock price. Although our stock performance over the past three and five year periods has been below peer levels, our stock appreciated 27.1% in calendar 2012, and 45.0% since Mr. Palmisano became our CEO (measured as of February 28, 2013). Over the same time periods, the average stock appreciation in our peer group was 13.05% and 15.59% respectively.

The combination of the challenges we faced prior to Mr. Palmisano's appointment, including significant senior management turnover and deteriorating financial performance, and our success in executing on transformational initiatives since that time, were key factors impacting executive compensation in 2011 and 2012.

General Philosophy. We compensate our executive officers through a mix of base salary, performance incentive bonuses, long-term equity incentives, and employee benefits and perquisites designed to:

• attract and retain high caliber executive officers and motivate them to achieve superior performance for the benefit of our stockholders;

• motivate our executive officers to achieve our key strategic and financial performance measures; and

• incentivize the executive officers to increase our stock price and maximize stockholder value.

We believe that a portion of our executive officers' compensation potential on an annual basis should be at risk based on our performance. If our performance does not meet the criteria established by the Compensation Committee, incentive compensation will be adjusted accordingly. The Compensation Committee oversees our general programs of compensation and benefits for all employees and determines the compensation of our executive officers and directors.

Our compensation setting process consists of establishing (i) a base salary, (ii) a performance incentive bonus, and (iii) long-term equity compensation for each executive officer. The Compensation Committee designs the performance incentive bonus to reward executive officers for our performance through linking their compensation to revenue, cash flow and earnings targets, as well as certain other corporate objectives. We utilize equity-based awards, currently consisting of stock options and restricted stock, to provide the

15

greatest long-term potential value to our executive officers and to firmly align such executive officers' interests with those of our stockholders.

The total cash compensation (i.e., base salary plus performance incentive bonus) paid to our executive officers is intended to be competitive with the total cash compensation paid to executive officers in similar positions at companies engaged primarily in the orthopaedic medical device industry with revenues similar to ours as well as comparable to other companies with metrics similar to ours.

The Compensation Committee reviews the targeted total compensation (i.e., the aggregate level of cash and long-term equity compensation that we will pay if performance goals are fully met) to ensure the total compensation is aligned with our goals of comparability and incentivizing performance. We also provide our executive officers with a variety of other benefits that we make available generally to all salaried employees.

The Role of the Compensation Committee. The Compensation Committee has the primary authority to determine our compensation philosophy and to establish compensation for our executive officers. In determining the appropriate level of compensation, the Compensation Committee reviews a variety of sources to determine and set compensation. The Compensation Committee reviews the performance and compensation for our CEO annually and recommends the compensation level for approval by the independent directors of our Board of Directors. With respect to equity compensation awarded to our CEO, the Compensation Committee grants options and/or restricted stock in an amount based generally upon our peer group companies.

The performance of each member of our executive management team is reviewed annually by the Compensation Committee. Our CEO assists the Compensation Committee by providing annual recommendations regarding the compensation of all other executive officers. Each executive officer participates in an annual performance review with the CEO to provide input about the executive officer's contributions to our success for the period being assessed. With respect to equity compensation awarded to executive officers other than the CEO, the Compensation Committee grants options and/or restricted stock in an amount based generally upon the recommendation of the CEO and a comparison of our peer group companies.

The Compensation Committee has the power and authority to hire outside advisors or consultants to assist the Compensation Committee in fulfilling its responsibilities. In 2012, the Compensation Committee selected an independent compensation consultant, Compensation Strategies, to review the overall executive compensation programs, including benchmarking of total compensation, review of program design and peer group makeup going forward. Compensation Strategies reports directly and solely to the Compensation Committee. Compensation Strategies exclusively provides executive compensation consulting services and does not provide any other services to the Company. The Compensation Committee regularly reviews the current engagements and the objectivity and independence of the advice that Compensation Strategies provides to the Compensation Committee on executive compensation. The Compensation Committee assessed the independence of Compensation Strategies pursuant to the applicable rules and concluded that Compensation Strategies' work did not raise any conflict of interest that would prevent it from independently representing our Compensation Committee.

Our executive compensation decisions are congruent with Sections 162(m) and 409A of the Internal Revenue Code of 1986, as amended (the "Code"), and compensation charges under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Section 718, Compensation - Stock Compensation. However, the Compensation Committee from time-to-time may approve payment of compensation that does not qualify for the exclusion from the limitation on deductibility of Section 162(m) if the Compensation Committee determines that such payments are consistent with our overall objective to attract, motivate, and retain our executive officers.

Total Compensation. The total compensation package offered to each executive officer is comprised of four elements, which are described in more detail below:

• base salary;

• performance incentive bonus (cash and/or equity based);

• long-term equity incentive awards; and

employee benefits and perquisites.

Table of Contents

In allocating compensation across these elements, the Compensation Committee does not follow any strict policy or guidelines. To determine whether our executive compensation is comparable to our competitors and other companies with similar metrics, the Compensation Committee compares the compensation of executive officers at similar companies, taking into consideration the company's size, industry, and geographic locality, as well as, the comparable named executive officer's level of responsibility and years of experience. The criteria used to select companies similar to us include companies: (i) in the medical equipment and device industry; (ii) with revenues between \$224 million and \$986 million; (iii) whose current enterprise market value is between \$245 million and \$2.13 billion; and (iv) whose number of employees is between 590 and 4,700. These companies are considered comparable to us and generally recruit individuals to fill executive positions that have similar skills and background to those we recruit. The comparative data that we used in reviewing executive officer compensation consisted of data from the EQUILARINSIGHT™ Public Medical Companies database. The list of such companies is comprised of the following companies (with us listed simply to show our relative position among the peer companies) based on information available at the time of the compensation review:

We can review in detail only those individuals for whom compensation information is publicly disclosed. This is typically only the five most highly compensated officers at each company. Generally, this correlates to our CEO, Senior Vice President and Chief Financial Officer (CFO), and certain other executive officers.

The overall result of this review provides the starting point for the analysis of the Compensation Committee. The Compensation Committee looks more extensively at a number of other factors, including the total compensation, the mean, minimum, and maximum for each executive officer position. The Compensation Committee strongly believes in retaining the best talent among our executive management team.

The Compensation Committee believes that the compensation of our executive officers - those having the greatest ability to influence our performance - should include greater levels of performance-based incentive compensation, while other levels of management should receive a greater portion of their compensation in base salary. The Compensation Committee's review of the comparable companies chosen, although each had a different compensation structure, indicated that all appear to provide their executive officers with average base salaries of approximately 20% to 45% of overall compensation, average targeted bonus compensation of up to 23% of overall compensation and average equity compensation of approximately 34% to 60% of overall compensation.

During 2011, we entered into an employment agreement with our current President and Chief Executive Officer, Robert J. Palmisano. The term of Mr. Palmisano's agreement began on September 17, 2011 and ends on September 17, 2014, subject to earlier termination under certain circumstances. Commencing on September 17, 2013 and each anniversary of the effective date

17

thereafter, the term of Mr. Palmisano's agreement will automatically extend for an additional one-year period, unless at least thirty days prior to such date, either party gives notice of non-extension to the other.

We entered into amended and restated separation pay agreement with each of Messrs. Berry, Garen and Griffin effective November 6, 2012. On November 26, 2012, we entered into a separation pay agreement with Mr. Girin. Commencing on the second anniversary of the effective date and each anniversary of the effective date thereafter, the term of each separation pay agreement will automatically extend for an additional one-year period, unless at least ninety days prior to such date, either party gives notice of non-extension to the other.

Base Salaries. We want to provide our executive officers with a level of assured cash compensation in the form of base salary to compensate them for the services they provide and their level of professional experience and knowledge. The Compensation Committee reviews executive officer compensation annually. In establishing base salaries, the Compensation Committee seeks relevant compensation information, including: (i) scope of the position; (ii) responsibilities of the position; (iii) experience and length of service with us, the industry, and the community; (iv) effort and performance; (v) team building skills; (vi) observance of our ethics and compliance programs; (vii) salaries paid by competitive companies to officers in similar positions; and (viii) overall macroeconomic trends. The Compensation Committee considers the input of the CEO with respect to the base salaries of our other executive officers. Increases in base salary from year to year are based upon the performance and relevant experience of the executive officers, comparisons of our compensation to our competitors' compensation for similar positions and responsibilities, as well as relevant economic market considerations, as assessed, reviewed and approved by the Compensation Committee. The Compensation Committee assesses these factors with respect to the CEO. The Compensation Committee recommends the compensation of the CEO for approval by the independent directors of our Board of Directors. The Compensation Committee estimates that we provide our executive officers with average base salaries of approximately 20% to 45% of overall compensation. It is the Compensation Committee's goal that the total compensation levels of our executive officers at approximately the 50th percentile of the total compensation levels in effect for comparable executive officers positions at our peer group companies. The Compensation Committee estimates that the total compensation levels of our executive officers range between the 26th and 76th percentile for comparable executive positions at companies in our peer group. The pay-for-performance nature of our executive performance incentive plans, which are described in greater detail below, will result in lower than target payout for total direct cash compensation. Our executive officers have a significant level of valuable industry specific knowledge and experience. We believe they are a key factor in our future success.

An employment agreement establishes the initial base salary of Mr. Palmisano and provides that the Compensation Committee will review compensation annually and may make such increases in base salary as are merited based on the executive officer's performance and as are consistent with our compensation policies. The base salaries of our other executive officers are set annually by the Compensation Committee, typically effective April 1. In April 2012, our executive officers could elect to take their respective salary increases in the form of stock options and restricted stock with an aggregate fair market value equal to their respective salary increase. Each of our named executive officers, with the exception of Mr. Girin whose employment had not yet commenced, made such an election. The base salaries of our executive officers are set forth below.

Name	Annual Base Salary as of January 1, 2012	Annual Base Salary as of April 1, 2012
Robert J. Palmisano	\$750,000	\$750,000
Lance A. Berry ⁽¹⁾	300,900	300,900
Daniel J. Garen ⁽²⁾	N/A	310,000
Pascal E.R. Girin ⁽³⁾	N/A	N/A
William L. Griffin, Jr.	318,300	318,300

(1) Mr. Berry's salary was increased to \$340,000 effective as of November 2012. The increase was a result of certain recommendations made by Compensation Strategies, our independent compensation consultant, in order to provide

Mr. Berry with a base salary in the approximated 50th percentile of our peer group.

(2)Mr. Garen's employment commenced on January 30, 2012 with a base salary of \$310,000.

(3)Mr. Girin's employment commenced on November 26, 2012 with a base salary of \$500,000.

Performance Incentive Bonus. The Compensation Committee of our Board of Directors adopted the 2010 Executive Performance Incentive Plan in March 2010. Our stockholders approved the material terms of the 2010 Executive Performance Incentive Plan at our 2010 Annual Meeting of stockholders. The Compensation Committee of our Board of Directors administers the 2010 Executive Performance Incentive Plan. During 2012, each of Messrs. Palmisano, Berry, Garen, and Griffin were eligible to participate in the 2010 Executive Performance Incentive Plan. Since Mr. Girin's employment did not commence until November 26, 2012, he was not able to participate under the 2010 Executive Performance Plan. Under the 2010 Executive Performance Incentive Plan, the Compensation Committee must establish performance goals based upon performance measures such as sales revenue, operating income before or after taxes, net income before or after taxes, net income before securities transactions, net or operating income excluding non-recurring charges, return on assets, return on equity, return on capital, market share, earnings per share, cash flow, revenue, revenue growth, expenses, stock price, dividends, total stockholder return, price/earnings ratio, market capitalization, book value, product quality, customer retention, unit sales, strategic business objectives or any other performance measure (including, for example, objectives tied to safety, quality, compliance and standards of behavior) deemed appropriate by the Compensation Committee in its discretion. The target performance bonus is stated as a percentage of base salary for each participant and represents the amount of cash that a participant will receive if all performance goals for each performance measure are met or exceeded. Partial payments of the target performance bonus may be paid only if minimum performance thresholds are achieved. A participant may not be paid for performance below the minimum performance threshold of any component of the performance measures. If the target performance goals for a performance year are exceeded, the Compensation Committee shall pay a bonus in excess of the target performance bonus. However, no participant may be paid an amount that exceeds twice the target performance bonus. In no event may any payment under the 2010 Executive Performance Incentive Plan to a participant exceed \$1,500,000 for any performance year.

For 2012, the Compensation Committee established certain objectives for adjusted net income, constant currency revenue, and free cash flow for our executive officers. Each executive officer's bonus payment under the 2010 Executive Performance Incentive Plan was determined by multiplying the executive officer's target bonus amount (the executive officer's incentive target times the executive officer's base salary) for the year by a payout percentage determined based on the achievement of corporate financial performance goals and personal goals, to the extent applicable. The Compensation Committee, in its sole and absolute discretion, may determine that the amount of an executive officer's actual performance incentive bonus is less than the amount earned by the executive officer under the 2010 Executive Performance Incentive Plan. The amount of the performance incentive bonus payable to an executive officer may vary from zero to 200% of the executive officer's annual target.

We provide our executive officers with targeted bonus compensation of 45% to 100% of overall compensation. As a percent of base compensation, the target bonus levels for executive officers during 2012 ranged from 100% to 45%, as shown in the table below. These levels were determined based on peer company data and reviewed against data from several survey services, including the ORC Sirs Survey and the Equilar Top 25 Survey.

For 2012, the Compensation Committee established the following targeted bonus levels for our executive officers:

Position	2012 Target Bonus (% of base salary)
CEO	100%
COO ⁽¹⁾	75%
CFO	60%
Other Named Executive Officers	45%

(1) As noted above, Mr. Girin's employment commenced on November 26, 2012, and as such, he was not eligible to participate in the 2010 Executive Performance Incentive Plan.

Table of Contents

Our executive officers have performance measures for their incentive bonuses based upon corporate objectives that are described in the table below.

Bonus Objective ⁽¹⁾	2012 Weight	
	Messrs. Palmisano & Berry	Messrs. Garen & Griffin
Adjusted Net Income	33.3%	25%
Constant Currency Revenue	33.3%	25%
Free Cash Flow	33.3%	25%
Annual Strategic Goals	N/A	25%

These performance measures are calculated using non-GAAP measures, which we believe provide meaningful (1) supplemental information regarding our core operational performance, as more fully described in Appendix A to this Proxy Statement. Additionally, the net income measure is adjusted for bonus over-achievement.

The Compensation Committee selected these criteria after reviewing measurement criteria from the Equilar Top 25 Survey - Bonus Summary report for comparable key positions. Further, the Compensation Committee believes these measurement criteria are best aligned with total stockholder return.

The percentage of the target bonus earned by bonus objective was based on the following performance levels:

Performance Levels	Percent of Target Bonus Earned
Minimum	0%
Threshold	50.1% to 99.9%
Target	100%
Target II	100.1% to 150%
High	150.1% to 200%

The performance levels of each bonus objective achieved for 2012 were based on the following:

Performance Levels	Adjusted Net Income	Constant Currency Revenue	Free Cash Flow
Minimum	< \$6,456,500	< \$454,831,440	< \$15,026,000
Threshold	\$6,456,501 to \$12,912,999	\$454,831,441 to \$494,381,999	\$15,026,001 to \$30,051,999
Target	\$12,913,000	\$494,382,000	\$30,052,000
Target II	\$12,913,001 to \$16,786,900	\$494,382,001 to \$509,213,460	\$30,052,001 to \$39,067,600
High	\$16,786,901 to \$20,660,800	\$509,213,461 to \$533,932,560	\$39,067,601 to \$48,083,200

For 2012, Adjusted Net Income was approximately \$18,881,000; Constant Currency Revenue was approximately \$489,122,000; and Free Cash Flow was approximately \$49,499,000. Furthermore, the Compensation Committee determined that each of Messrs. Griffin and Garen achieved their respective annual strategic goals. As such, the performance incentive bonus earned by our executive officers in 2012 under the 2010 Executive Performance Incentive Plan is set forth in the following table.

Table of Contents

Name	Performance Incentive Bonus	Percent of 2012 Base Salary
Robert J. Palmisano	\$1,165,669	155.4%
Lance A. Berry	\$287,848	84.7%
Daniel J. Garen	\$195,601	63.1%
Pascal E.R. Girin ⁽¹⁾	N/A	N/A
William L. Griffin, Jr.	\$214,593	67.4%

(1) As noted above, Mr. Girin's employment commenced on November 26, 2012, and as such, he was not eligible to participate in the 2010 Executive Performance Incentive Plan.

Long-Term Equity Incentive Awards. Long-term incentives comprise the largest portion of each executive officer's compensation package, consistent with our philosophy and principles discussed above. Our Compensation Committee's objective is to provide executive officers with long-term incentive award opportunities that are at the 50th percentile of executive officers in comparable positions at companies in our peer group. The Compensation Committee estimates that the long-term equity incentive compensation levels of our executive officers range between the 18th and 62nd percentile for comparable executive officer positions at companies in our peer group.

Through the grant of these equity incentives, we seek to align the long-term interests of our executive officers with the long-term interests of our stockholders by creating a strong and direct linkage between compensation and long-term stockholder return. We may grant long-term, equity-based incentive awards to our executive officers under our Amended and Restated 2009 Equity Incentive Plan (Equity Incentive Plan). Our Compensation Committee administers the Equity Incentive Plan. Under the Equity Incentive Plan, we may grant awards in the form of incentive stock options, nonqualified stock options, stock appreciation rights, restricted stock, restricted stock units, performance share units, and stock bonuses. Based on an assessment of factors, which include the competitive level of awards made by the peer companies, issues related to retention of key talent and the equity value of prior grants, the Compensation Committee determines an award that is suitable for providing an adequate incentive for the performance and retention of each executive officer.

The Compensation Committee grants shares of restricted stock or restricted stock units and options to purchase shares of common stock. The Compensation Committee may award a limited number of stock options to closely align the interests of executive officers with those of our stockholders. Stock options may be issued to executive officers upon starting employment, in other special situations, and as part of their annual compensation. To encourage retention, stock options may be granted with a vesting period of one or more years. The Compensation Committee has taken the position that stock options should be granted with an exercise price that is equal to the fair market value of the common stock on the grant date, calculated as the closing price per share of stock on the trading day immediately prior to the grant date. The actual value of stock option compensation, therefore, depends on the market value of the common stock increasing after the grant date. In the future, we may issue other forms of equity compensation allowed under the Equity Incentive Plan.

The Compensation Committee has adopted a general policy related to equity awards under which: (i) non-performance based awards will not fully vest prior to a minimum of three years (including cliff-vesting awards) and there will be a minimum performance period of one year for performance based awards; (ii) the Compensation Committee will not waive vesting periods for any awards except in the case of death, disability, retirement or change in control; and (iii) the above restrictions will apply to a total of 90% of the shares of common stock authorized under the Equity Incentive Plan.

Guidelines for the number of restricted stock awards and stock options granted to each executive officer are determined using a procedure approved by the Compensation Committee based upon several factors, including the executive officer's level of responsibility, salary grade, performance, and the value of the stock at the time of grant. With the exception of promotions and new hires, we generally grant these awards effective as of the date of our annual meeting of stockholders. This timing enables us to consider our prior performance as well as the performance of the potential recipients, and our expectations for the current year. Also, it follows our annual performance evaluations.

The awards also are made as early as practicable in the year in order to optimize the time-period for the incentives associated with the awards. The Compensation Committee's schedule is determined several months in advance, and the proximity of any awards to earnings announcements or other market events is coincidental. For 2012, we granted restricted stock and stock options with a grant date value of approximately 312% of Mr. Palmisano's base salary, approximately 303% of Mr. Girin's base salary, approximately 185% of Mr. Garen's base salary, approximately 98% of

21

Table of Contents

the base salary of Mr. Berry and approximately 111% of the base salary of Mr. Griffin. Mr. Girin's and Mr. Garen's awards were primarily attributable to their inducement grants, which were negotiated to attract them to join us. A typical annual grant would be approximately 125% of Mr. Girin's base salary and 75% of Mr. Garen's base salary. The benchmark for these grants is the average level of annual restricted stock awards and stock option grants for similar positions at our peer group companies, adjusted using the above factors and taking into consideration such equivalency factors as our number of shares outstanding and market capitalization, compared to the peer group companies.

Each restricted stock award allows the executive officer to acquire shares of common stock upon vesting. Each stock option allows the executive officer to acquire shares of common stock at the fair market value on the grant date over a specified period of time, up to ten years. Stock option awards will provide a return to the executive officer only if the market price of the shares appreciates over the term of the award.

In 2009, our Board of Directors adopted Executive Officer Stock Ownership Guidelines, which require our executive officers to acquire and hold shares of common stock equal in value to a multiple of their annual base salary. Our Board of Directors and the Compensation Committee generally encourage our executive officers to have a financial stake in us to align the interests of our stockholders and management, and view restricted stock awards and stock options as a means of furthering this goal. The guidelines are described in the heading "Executive Officer Stock Ownership Guidelines" below.

To address stockholders' potential concerns regarding the number of options, restricted shares and restricted stock units we grant in a given year, the Compensation Committee adopted an annual cap on the number of options, restricted stock and restricted stock unit awards granted for each of the next three years, effective beginning January 1, 2010. During this period, we did not grant a number of shares subject to awards under our Equity Incentive Plan to employees and non-employee directors, in the aggregate, greater than the Risk Metrics Group (RMG) burn rate threshold percentage for our GICS peer group (3510-Health Care Equipment & Services) of shares of our common stock that we believe will be outstanding at the end of each year over such 3-year period. This would limit awards to no greater than the RMG 2010 threshold for 2010, which was 3.65%, the RMG 2011 threshold for 2011, which was 4.66%, and the RMG 2012 threshold for 2012, which was 4.69%. This limitation does not apply to awards under plans assumed in acquisitions, equity issuances for the inducement of employment as covered under NASDAQ Marketplace Rule 5635(C)(4) or issuances under tax-qualified employee stock purchase plans. Solely for the purposes of calculating the "burn rate," each stock option will be counted once, and each share subject to restricted stock or restricted stock unit will be counted twice (equivalent to two shares).

The long-term equity incentive awards granted in 2012 to each of our executive officers is set forth below. All of the long-term equity incentive awards shown below were granted pursuant to our Equity Incentive Plan except for Mr. Garen's stock options for 50,000 shares and Mr. Girin's stock options for 184,500 shares, both of which were made pursuant to inducement stock option award agreements, which were negotiated to attract them to join us.

Our Compensation Committee estimates that we provide our executive officers with equity compensation of approximately 34% to 60% of overall compensation.

Inducement Stock Option Grants. In light of the challenges we faced attracting a new CEO and other senior executives, including, among other things, the operational challenges described above under “Significant Factors Impacting Executive Compensation,” our size relative to competitors, the location of our corporate headquarters and the competitive marketplace for talented and experienced senior executives, we recognized a need for competitive pay packages that included meaningful equity

grants. Between September 2011 and November 2012, we hired Messrs. Palmisano, Garen, Girin and Lightman, and Ms. Tracy, who we refer to collectively, as the new executives. Consistent with our general compensation practices and objectives, we granted inducement stock options to the new executives as set forth in the table below.

Name	Date	Number of Shares	Exercise Price
Robert J. Palmisano, President and Chief Executive Officer	9/17/2011	610,000	\$ 16.03
Daniel J. Garen, Senior Vice President and Chief Compliance Officer	1/30/2012	50,000	\$ 17.35
Pascal E.R. Girin, Executive Vice President and Chief Operating Officer	11/26/2012	184,500	\$ 21.24
James A. Lightman, Senior Vice President and General Counsel	12/29/2011	65,000	\$ 16.23
Julie D. Tracy, Senior Vice President, Chief Communications Officer	10/17/2011	30,000	\$ 18.33
New executives as a group		939,500	

In light of the challenges we faced and the results we achieved, we believe the compensation paid to the new executives, including the inducement stock option grants, was reasonable, competitive and in the best interest of our stockholders.

Other Elements of Compensation and Perquisites. In order to attract and retain employees while paying market levels of compensation, we provide our executive officers the following benefits and perks.

Medical Insurance. We provide to each executive officer and the executive officer's spouse and children such health, dental, and vision insurance coverage as we may from time to time make available to our other employees. We pay a portion of the premiums for this insurance for all employees.

Life and Disability Insurance. We provide to each executive officer such life and/or disability insurance, as we, in our sole discretion, may from time to time make available to our other executive employees of the same level of employment.

Housing Allowance & Relocation Costs. In order to attract and retain management talent, we provide relocation benefits, including a housing allowance, to certain executive officers upon their employment with us. The allowance is intended to partially defray the additional cost of housing while the employee relocates as well as actual expenses related to the sale and purchase of a home, household moving expenses and similar related items. We provide the same relocation benefits to all senior management employees. We gross up certain of these relocation benefits because such benefits result in taxable income to relocating executive officers.

Defined Contribution Plan. We, and our designated affiliates, offer a Section 401(k) Savings/Retirement Plan (401(k) Plan), a tax-qualified retirement plan, to our eligible employees. Our 401(k) Plan permits eligible employees to defer from 1% to 100% of their annual eligible compensation, subject to certain limitations imposed by the Code. The employees' elective deferrals are immediately vested and non-forfeitable in the 401(k) Plan. We currently match up to 4% of our employee's contributions to the 401(k) Plan.

Stock Purchase Plan. Our 2002 Employee Stock Purchase Plan (ESPP), which qualifies under Section 423 of the Code, permits participants to purchase our common stock on favorable terms. ESPP participants are granted a purchase right to acquire shares of common stock at a price that is 85% of the stock price on either the first day of the plan period or the stock price on the last day of the plan period, whichever is lower. The purchase dates occur on the last business day of June and December of each year. To pay for the shares, each participant may authorize periodic payroll deductions from their cash compensation, subject to certain limitations imposed by the Code. All payroll deductions collected from the participant in a period are automatically applied to the purchase of common stock on that period's purchase date provided the participant remains an eligible employee and has not withdrawn from the ESPP prior to that date. Our ESPP is available only to U.S. employees. Shares of stock purchased pursuant to the

ESPP are generally subject to a holding period lasting between one and one and one-half years after such stock is purchased, during which time the shares may not be sold, exchanged, pledged, hypothecated, or otherwise transferred, except in the case of demonstrated financial emergency.

Other. We make available certain other perquisites or fringe benefits to certain executive officers, such as travel insurance, airline club dues, professional society dues, reimbursement of financial planning, and insurance.

Severance Benefits. We believe that companies should provide their executive officers with reasonable severance benefits, which should reflect the fact that it may be difficult for them to find comparable employment within a short period of time, that the executive officers will be better able to focus on their respective duties without the worry and uncertainty related to being terminated, and that executive officers' interests should be aligned with our stockholders' interests in connection with a potential change in control. Further, severance benefits help clarify what will happen in the event of our executive officers' termination from employment. To that end, we have entered into amended and restated separation pay agreements with each of Messrs. Berry, Garen and Griffin, effective November 6, 2012, and a separation pay agreement with Mr. Girin, effective November 26, 2012, collectively, the separation pay agreements. The terms of the separation pay agreements each continue until its third anniversary. The terms of each separation pay agreement will be extended automatically for one additional year unless we or the executive officer provide notice of termination of the separation pay agreement. Our employment agreement with Mr. Palmisano also included a provision for separation pay. Under all employment agreements and separation pay agreements, in the event that the executive officer is terminated for cause or the executive officer terminates employment other than for good reason we shall have no obligations other than payment of accrued obligations described below. In the event of an involuntary termination of Messrs. Palmisano, Berry, Garen, Girin or Griffin, we will be obligated to pay a separation payment and accrued obligations and provide benefits to the executive officer as described below pursuant to the separation pay agreements or Mr. Palmisano's employment agreement, as applicable.

Accrued Obligations. Under the separation pay agreements, accrued obligations include (i) any accrued base salary through the date of termination, (ii) any annual cash incentive compensation awards earned but not yet paid, (iii) the value of any accrued vacation, (iv) reimbursement for any unreimbursed business expenses, and, (v) only in the case of an involuntary termination after a change in control or a termination at any time by reason of death, an annual incentive payment at target for the year that includes the date of termination, prorated for the portion of the year that the executive officer was employed. Under Mr. Palmisano's employment agreement, Mr. Palmisano has the right to receive the accrued obligations specified in clauses (i) through (iv) above, his target annual incentive for the year, whether or not termination is made upon a change in control, and a monthly amount equal to the monthly rental payment under a housing lease until its expiration.

Separation Payment upon Involuntary Termination Prior to Change in Control and After the Change in Control Protection Period Expires. The total separation payment for Messrs. Berry, Garen, Girin, and Griffin, prior to a change in control or after the change in control protection period expires, is the amount equal to the sum of (i) the executive's then current annual base salary plus (ii) the executive's then current annual target bonus; provided that if the executive's annual base salary or target bonus has been reduced during the sixty day period prior to the separation, then for purposes of the separation payment calculation, the higher figure will be used. Half of the total separation payment amount will be payable at or within a reasonable time after the date of termination. The remaining half of the total separation payment amount will be payable in installments beginning six months after the date of termination, with a final installment of the balance of the remaining half of the total separation payment to be made on or before March 15 of the calendar year following the year of termination. The total separation payment for Mr. Palmisano is the amount equal to 48 months multiplied by his monthly base salary. The separation payment, as applicable, will be paid to Mr. Palmisano in a lump sum, less all applicable taxes withheld, on the 60th day following the date of termination.

Separation Payment upon Involuntary Termination in Connection with and after a Change in Control. The total separation payment for Messrs. Berry, Garen, Girin, and Griffin, prior to a change in control or after the change in control protection period expires, is the amount equal to two times (2x) the sum of (i) the executive's then current annual base salary plus (ii) the executive's then current annual target bonus; provided that if the executive's annual base salary or target bonus has been reduced during the sixty day period prior to the separation, then for purposes of the separation payment calculation, the higher figure will be used. Half of the total separation payment amount will be

payable at or within a reasonable time after the date of termination. The remaining half of the total separation payment amount will be payable in installments beginning six months after the date of termination, with a final installment of the balance of the remaining half of the total separation payment to be made on or before March 15 of the calendar year following the year of termination. The total separation payment for Mr. Palmisano is the amount equal to 72 months multiplied by his monthly base salary, in the event Mr. Palmisano is terminated in connection with a change in control. The separation payment, as applicable, will be paid to Mr. Palmisano in a lump sum, less all applicable taxes withheld, on the 60th day following the date of termination.

Table of Contents

Benefits upon Involuntary Termination Prior to Change in Control and After the Change in Control Protection Period Expires. Messrs. Berry, Garen, Girin and Griffin pursuant to the terms of their respective separation pay agreements, will also receive benefits that include (i) health and dental coverage under the Consolidated Omnibus Budget Reconciliation Act (COBRA), which we must pay for a period of up to 12 months, (ii) outplacement assistance for a period of 12 months, subject to termination if the executive officer accepts employment with another employer, (iii) financial planning services for a period of 12 months, (iv) payment to continue insurance coverage equal to the annual supplemental executive officer insurance benefit provided to the executive officer prior to the date of termination, and (v) reasonable attorneys' fees and expenses if any such fees or expenses are incurred to enforce the separation pay agreement.

Benefits upon Involuntary Termination in Connection with and after a Change in Control. Messrs. Berry, Garen, Girin and Griffin pursuant to the terms of their respective separation pay agreements, will also receive benefits that include (i) health and dental coverage under the Consolidated Omnibus Budget Reconciliation Act (COBRA), which we must pay for a period of up to 18 months, (ii) outplacement assistance for a period of two years, subject to termination if the executive officer accepts employment with another employer, (iii) financial planning services for a period of two years, (iv) payment to continue insurance coverage equal to twice the annual supplemental executive officer insurance benefit provided to the executive officer prior to the date of termination, and (v) reasonable attorneys' fees and expenses if any such fees or expenses are incurred to enforce the separation pay agreement.

Benefits upon Involuntary Termination for Mr. Palmisano. Mr. Palmisano, whether or not paid in connection with a change in control, is entitled to receive (i) health and dental coverage under the Consolidated Omnibus Budget Reconciliation Act (COBRA), which we must pay for a period of up to 12 months, (ii) outplacement assistance for a period of 12 months, subject to termination if the executive officer accepts employment with another employer, (iii) financial planning services for a period of 12 months, and (iv) reasonable attorneys' fees and expenses if any such fees or expenses are incurred to enforce the separation pay agreement. If Mr. Palmisano has elected to obtain medical insurance personally, then, instead of receiving the COBRA benefits described in clause (i) above, he would continue to receive reimbursement of insurance premiums for a period of 12 months.

Pursuant to the separation pay agreements and the employment agreement with Mr. Palmisano, involuntary termination will occur if we terminate the employment of the executive officer other than for cause, disability, voluntary retirement or death of the executive officer or if the executive officer resigns for good reason. A termination of the executive officer before a change in control by reason of the executive officer's retirement on or after age 65 does not constitute an involuntary termination.

The definition of cause under the separation pay agreements includes (i) willful failure of the executive officer to substantially perform the executive officer's duties that amounts to an intentional and extended neglect of the executive officer's duties, (ii) only prior to a change in control, continued, documented poor performance after giving the executive officer sufficient time to improve, (iii) the determination by our Board of Directors that the executive officer has engaged or is about to engage in conduct materially injurious to us, (iv) the executive officer's conviction or entering of a guilty or no contest plea to a felony charge, or (v) the executive officer's participation in the activities proscribed by the confidentiality, non-solicitation, and non-competition covenants described below or a material breach of any of the other covenants contained in the separation pay agreement. The definition under Mr. Palmisano's employment agreement includes (a) clauses (i) and (iii) through (v) above, (b) the determination by the Board that the executive has engaged in or is about to engage in conduct that is materially inconsistent with our legal and healthcare compliance policies, programs or obligations, and (c) the executive's bar from participation in programs administered by the United States Department of Health and Human Services or the United States Food and Drug Administration or any succeeding agencies.

Prior to a change in control, the definition of good reason under the separation pay agreements includes (i) the assignment to the executive officer of any duties materially inconsistent with the range of duties and responsibilities

appropriate to our senior executive officer, (ii) a material reduction in the executive officer's overall standing and responsibilities, provided however, that no change in reporting relationship resulting from organization realignment due to the addition of a chief operating officer or chief commercial officer shall be excepted, (iii) a material reduction in the executive officer's aggregate annualized compensation and benefits opportunities, (iv) our failure to pay the executive officer any portion of the executive officer's compensation and benefits within 30 days after they become due, (v) the failure by us to obtain an agreement from any our successors requiring such successor to assume and agree to perform our obligations under the separation pay agreement, (vi) the failure by us to provide indemnification and directors and officers insurance protection contemplated by the agreement, (viii) the relocation of

Table of Contents

the executive officer's principal place of employment to a location that is more than 40 miles from the executive officer's prior principal place of employment or (viii) the failure by us to comply with any material provision of the separation pay agreement.

The definition of good reason under Mr. Palmisano's employment agreement includes (i) the assignment to the executive officer of any duties materially inconsistent with the range of duties and responsibilities appropriate to our senior executive officer, (ii) a material and adverse change in the executive officer's titles, authority as President and Chief Executive Officer, duties, responsibilities or reporting lines, (iii) a material reduction in the executive officer's aggregate annualized compensation and benefits opportunities, (iv) our failure to pay the executive officer any portion of the executive officer's compensation and benefits within 30 days after they become due, (v) the failure by us to obtain an agreement from any our successors requiring such successor to assume and agree to perform our obligations under the employment agreement, (vi) the failure by us to provide indemnification and directors and officers insurance protection contemplated by the agreement, (vii) the failure to agree on an alternative compensation for equity incentive compensation under certain circumstances, (viii) the relocation of the executive's principal place of employment to a location that is more than 40 miles from the executive officer's principal place of employment immediately prior to such move, and (ix) the failure by us to comply with any material provision in the employment agreement.

Under Mr. Palmisano's employment agreement and the separation pay agreements with Messrs. Berry, Garen, Girin and Griffin, the executive officer makes certain covenants that impose future obligations on the executive officer regarding confidentiality of information, transfer of inventions, nonsolicitation of our employees for a period of 12 to 24 months, and noncompetition with our business for a period of 12 to 24 months. If we determine that a breach of any of these covenants has occurred, then our obligations to make payments or provide benefits shall cease immediately and permanently, and the executive officer shall repay an amount equal to (i) 30% of the payments and benefits previously provided under the employment agreement, with interest, (ii) 90% of the payments and benefits previously provided under the respective separation pay agreement, with interest, as applicable. Upon termination for any reason other than cause, the executive officer must enter into a mutual release of all claims within 45 days after the date of termination before any payments will be made to the executive officer.

If we are required to restate our balance sheet or statement of operations affecting any reporting period that transpires during the term of any employment agreement or separation pay agreement due to our material noncompliance with any financial requirements under securities laws, we may require Messrs. Berry, Garen, Girin and Griffin to reimburse us for any bonus or incentive-based or equity-based compensation received by the executive officer during the term of his respective agreement and any profits realized from the sale of our securities by the executive officer during the term of his respective agreement. If our Board of Directors determines that such a forfeiture is appropriate, we may withhold future amounts owed to the executive officer as compensation, and we may commence legal action to collect such sums as our Board of Directors determine is owed to us.

All payments under the separation pay agreement will be net of applicable tax withholdings. Each of the separation pay agreements contains a provision that limits payment under the separation pay agreement to avoid taxation under Section 4999 of the Code for "parachute payments" within the meaning of Section 280G of the Code.

Additionally, Mr. Palmisano's employment agreement provides that if any severance payments or other payments or benefits deemed made in connection with a future change in control are subject to the "golden parachute" excise tax under Section 4999 of the Internal Revenue Code, the payments will be reduced to one dollar less than the amount that would subject Mr. Palmisano to the excise tax if the reduction results in the executive receiving a greater amount on a net-after tax basis than would be received if he received the payments and benefits and paid the excise tax.

Change in Control Benefits. Our executive officers and other employees have built us into the successful enterprise that we are today, and the Compensation Committee believes that it is important to protect them in the event of a change in control. Further, it is our belief that the interests of stockholders will be best served if the interests of our executive officers are aligned with them, and providing change in control benefits should at least reduce the reluctance of executive officers to pursue potential change in control transactions that may be in the best interests of stockholders. Relative to our overall value, these potential change in control benefits are relatively minor.

Under the terms of Mr. Palmisano's employment agreement and the separation pay agreements with Messrs. Berry, Garen, Girin and Griffin, these change in control benefits are "double trigger," which requires (i) a change in control and (ii) a termination without cause or by an executive officer for good reason within 12 to 24 months of the change in control before the executive officer receives their change in control benefit. If we give notice of termination of the separation pay agreement less than one year after a change in control, then the term of the separation pay agreement will be automatically extended until the later of the one year anniversary that follows such written notice or the second anniversary of the change in control. The change in

Table of Contents

control benefit requires us to pay a separation payment and accrued obligations and provide benefits to the executive officer as described above under the heading Severance Benefits.

Subject to several exceptions, under the separation pay agreements, a change in control occurs if (i) any person or group of persons acquires more than 50% of our capital stock, (ii) any person or group of persons acquires 35% or more of the voting power represented by our capital stock in a 12-month period, (iii) any person or group of persons acquires 40% of our assets in a 12-month period, (iv) a majority of our directors are replaced in any 12-month period by directors whose election is not endorsed by a majority of our directors, or (v) a merger or consolidation occurs pursuant to which 40% of our assets are to be transferred to a different entity.

Subject to several exceptions, under Mr. Palmisano's employment agreement, a change in control occurs if (i) any person or group of persons acquires more than 50% of our capital stock or voting securities, (ii) a reorganization, merger, consolidation or sale of substantially of our assets occurs which results in a change in beneficial ownership of our capital stock and voting securities of more than 40%, (iii) the stockholders approve a complete liquidation or dissolution of us, (iv) a sale of at least 80% of our assets is consummated, or (v) the current directors cease to constitute the majority of the Board of Directors, unless such directors were approved by at least a 2/3rds vote of the then-current directors.

Additionally, upon a change in control, all unexercisable options will immediately vest and become exercisable and all restrictions on restricted stock will lapse. The Compensation Committee believes that these levels of benefits are consistent with the general practice among our peers, although we have not conducted a study to confirm this.

Compensation of Chief Executive Officer. Robert J. Palmisano became our President and Chief Executive Officer effective as of September 17, 2011. We entered into an employment agreement providing Mr. Palmisano with a base salary of \$750,000 per year. During 2012, Mr. Palmisano was paid \$750,000 in base salary. As noted above, in 2012, Mr. Palmisano was eligible for a salary increase and he elected to receive this increase in the form of 1,542 shares of restricted stock and an option to purchase 3,989 shares of common stock with an exercise price of \$18.24 per share, which was the closing price on the trading day immediately prior to the grant date. The restricted stock and the stock option will vest in equal annual installments over a period of two years after the grant date. In addition, Mr. Palmisano earned a cash bonus of \$1,165,669. On May 9, 2012, we granted Mr. Palmisano 54,173 shares of restricted common stock under the Equity Incentive Plan. The grant will vest in equal annual installments over a period of four years after the grant date. In addition, we granted Mr. Palmisano an option to purchase 141,139 shares of common stock under the Equity Incentive Plan on May 9, 2012. The exercise price of the stock option is \$21.39 per share, which was the closing price on the trading day immediately prior to the grant date. The stock option will vest in equal annual installments over a period of four years after the grant date. The Compensation Committee considers the compensation paid to Mr. Palmisano for 2012 reasonable and appropriate under the circumstances.

CEO Succession Plan. In 2009, our Board of Directors adopted a policy that requires our Board of Directors to regularly approve a CEO succession plan. Our Board of Directors reviewed and approved the CEO succession plan, and Robert J. Palmisano was hired as our President and Chief Executive Officer under implementation of such plan.

Executive Officer Stock Ownership Guidelines. In 2009, our Board of Directors adopted Executive Officer Stock Ownership Guidelines, which require our executive officers to acquire and hold shares of common stock equal in value to a multiple of their annual base salary. The CEO must maintain value equal to three times his annual salary, and the remaining executive officers must maintain value equal to twice their annual salary. Qualifying shares include owned shares, unvested restricted stock, unvested restricted stock units, and the value of any vested stock options.

There is a five-year accumulation period beginning on the later of (i) becoming an officer subject to the share ownership guidelines or (ii) July 1, 2010.

Compensation and Risk. We believe that our performance-based compensation and equity programs create appropriate incentives to increase long-term stockholder value. These programs have been designed and administered in a manner that discourages undue risk-taking by employees. Relevant features of these programs include:

• limits on annual incentive and long-term performance awards, thereby defining and capping potential payouts;

• proportionately greater award opportunity derived from the long-term incentive program compared to annual incentive plan, creating a greater focus on sustained company performance over time;

the application of an annual incentive metric that aligns senior management with the balanced objectives of revenues, increasing net income, and generating cash flow;

27

Table of Contents

• use of three long-term incentive vehicles-restricted stock, restricted stock units and stock options-that vest over a number of years, thereby providing strong incentives for sustained operational and financial performance;

• a long-term incentive program with overlapping vesting periods, such that at any one time up to four separate awards are affected by current year performance, thereby requiring sustained high levels of performance; and

• share ownership guidelines for senior executives, monitored by the Compensation Committee, that ensure alignment with shareholder interests over the long term.

In light of these features of our compensation program, we conclude that the risks arising from our employee compensation policies and practices are not reasonably likely to have a material adverse effect on us.

Estimated Future Payouts Under Non-Equity Incentive Plans represent the threshold, target, and maximum amounts that could be earned under the Bonus Plan at targets established for each level. Each named executive officer had a target incentive amount that could be earned if we met the targets established. Until the threshold performance is obtained, no incentive is earned. If the maximum performance had been achieved, the named executive officers would have received 200% of their target bonus amount.

(2) The exercise price of each stock option granted to our named executive officers is equal to the fair market value, within the meaning of the Equity Incentive Plan and the applicable Inducement Stock Option Grant Agreements of the underlying shares of common stock on the grant date, calculated as the closing price on the trading day

immediately prior to the grant date. The closing market price on the trading day immediately prior to the grant date was \$17.35 on January 27, 2012, \$18.24 on April 13, 2012, \$21.39 on May 8, 2012 and \$21.24 on November 23, 2012.

The grant date fair value is computed in accordance with FASB ASC Topic 718. For Stock Awards, which consist of restricted stock, the grant date fair value per share is equal to the closing price of our stock on the date of grant. (3) See note 14 to our Audited Financial Statements contained in our Annual Report on Form 10-K for a discussion of assumptions used to determine fair value of Option Awards.

See Compensation Discussion and Analysis above for a complete description. All stock options granted to the named executive officers were granted under the Equity Incentive Plan, except for Mr. Garen's stock options granted on January 30, 2012 and Mr. Girin's stock options, each of which were made pursuant to an inducement stock option award agreement. The Compensation Committee, which administers the Equity Incentive Plan, has general authority to accelerate, extend, or otherwise

modify the benefits under the stock options in certain circumstances, subject to limitations of the plan. The Compensation Committee has no present intention to exercise that authority with respect to these stock options.

All the shares of restricted stock were granted under our Equity Incentive Plan.

All stock options and shares of restricted stock vest upon a change in control, as defined in the Equity Incentive Plan or the applicable inducement stock option grant agreements of Messrs. Garen and Girin. All stock options and restricted shares granted to our named executive officers in 2012 vest in equal annual installments over a period of four years after the grant date.

Where applicable, the benefit amounts set forth in the table above reflect an automatic reduction in the payment to the extent necessary to prevent the payment from being subject to an excise tax, but only if by reason of the reduction, the after-tax benefit of the reduced payment exceeds the after-tax benefit if such reduction were not made.

(1) This amount represents a pro-rated portion of the executive's target bonus under the 2010 Executive Performance Incentive Plan.

(2) The amounts in the Other termination benefits rows include the cost of financial planning services and continued executive insurance. Reimbursement of reasonable attorneys' fees and expenses is not included as the amount is not estimable.

(3) Stock option acceleration is calculated as the intrinsic value of the unvested options on December 31, 2012. The intrinsic value is calculated as the difference between the market value of our common stock as of December 31, 2012, and the exercise price of the stock option. The market value as of December 31, 2012, was \$20.99 per share, which is the closing sale price of our common stock reported for transactions effected on the Nasdaq Global Select Market on December 31, 2012.

(4) Restricted Stock acceleration is calculated as the market value of the unvested awards on December 31, 2012. The market value as of December 31, 2012, was \$20.99 per share, which is the closing sale price of our common stock reported for transactions effected on the Nasdaq Global Select Market on December 31, 2012.

(5) For purposes of the benefits shown for executive officers, a change of control is deemed to occur, in general, under the circumstances described in the Compensation Discussion and Analysis section above under the heading Severance Benefits.

PROPOSAL 1

AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO
INCREASE THE MAXIMUM SIZE OF THE BOARD OF DIRECTORS TO TEN DIRECTORS

Introduction

On November 19, 2012, we entered into an Agreement and Plan of Merger (the “Merger Agreement”) with BioMimetic Therapeutics, Inc., a Delaware corporation. Pursuant to the Merger Agreement, we agreed submit to our stockholders for approval at our 2013 annual meeting of stockholders an amendment to our Fourth Amended and Restated Certificate of Incorporation, as amended (the “Certificate of Incorporation”), to increase the maximum size of our Board of Directors to ten directors.

Our current Certificate of Incorporation provides that our number of directors shall not be less than one nor more than nine directors. Within this range, the Board of Directors is authorized to fix the exact number of directors from time to time pursuant to our Certificate of Incorporation and Second Amended and Restated Bylaws. The number of directors on our Board of Directors is currently set at nine.

Summary and Effect of Proposed Amendment

In accordance with the Merger Agreement, our Board of Directors has adopted a resolution proposing an amendment to our Certificate of Incorporation to increase the maximum size of our Board of Directors from nine to ten directors. If the proposed amendment, a copy of which is attached as Appendix B to this Proxy Statement, is approved by our stockholders, the maximum size of our Board of Directors shall be increased to ten directors. Furthermore, pursuant to a resolution adopted by our Board of Directors, the number of directors on our Board of Directors will be increased to ten. If the proposed amendment is not approved, the number of directors on our Board of Directors will remain at nine.

Text of Amendment

If the proposed amendment is approved by our stockholders, the first sentence of Article IX of the Certificate of Incorporation will be amended to read as follows:

“The number of directors which shall constitute the entire Board of Directors shall not be less than one (1) nor more than ten (10), which number shall be determined from time to time by the Board of Directors.”

The affirmative vote of two-thirds of our shares issued, outstanding and entitled to vote on the subject matter will be required to approve this amendment to our Certificate of Incorporation.

Effective Date of Amendment

If the proposed amendment is approved by our stockholders, we intend shortly thereafter to file a Certificate of Amendment to the Certificate of Incorporation with the office of the Secretary of State of the State of Delaware. The Certificate of Amendment will become effective upon its filing. The only changes to the current Certificate of Incorporation will be those made to Article IX as shown above.

Board of Directors' Recommendation

THE BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO INCREASE THE MAXIMUM SIZE OF OUR BOARD OF DIRECTORS TO TEN DIRECTORS. Each proxy solicited on behalf of the Board of Directors will be voted FOR the amendment to our Certificate of Incorporation increasing the maximum size of our Board of Directors to ten Directors unless the stockholder instructs otherwise in the proxy.

ELECTION OF TENTH DIRECTOR

Subject to Approval of Proposal 1, the Election of Tenth Director

As described above under “Proposal 1 - Amendment to Our Certificate of Incorporation to Increase the Maximum Size of our Board of Directors to Ten Directors”, we entered into the Merger Agreement with BioMimetic Therapeutics, Inc. In addition to submitting an amendment to our certificate of incorporation increase the maximum size of our Board of Directors from nine to ten directors (Proposal 1), we agreed in the Merger Agreement to nominate and recommend for election at the Annual Meeting an individual nominated by BioMimetic, who was an independent director of BioMimetic, to serve as the tenth director on our Board of Directors. BioMimetic has nominated Douglas G. Watson. Upon the recommendation of the Nominating, Compliance and Governance Committee, our Board of Directors has nominated Douglas G. Watson for election as the tenth director. Because Mr. Watson would be the tenth director, his election can only occur if the proposed amendment to our certificate of incorporation is approved. If the amendment to our certificate of incorporation is not approved, Mr. Watson will not be eligible for election.

Mr. Watson, whose biographical information follows, has consented to serve on our Board of Directors. Our Board of Directors does not know of any reason why Mr. Watson would not be able to serve as a director. However, if Mr. Watson were to become unable to serve as a director, our Board of Directors may designate a substitute nominee, in which case the persons named as proxies will vote for such substitute nominee.

PROPOSAL 4

APPROVAL OF OUR AMENDED AND RESTATED 2002 EMPLOYEE STOCK PURCHASE PLAN

Introduction

The Wright Medical Group, Inc. 2002 Employee Stock Purchase Plan (the “ESPP”) was adopted by our Board of Directors on February 14, 2002, and approved by the stockholders on May 30, 2002. The ESPP was amended on February 6, 2003 to make certain administrative changes. Under the terms of the ESPP, we are authorized to issue shares of common stock to eligible employees. The purpose of the ESPP is to provide a method whereby employees have an opportunity to acquire a proprietary interest in us through the purchase of shares of our common stock. The objectives of the ESPP are to strengthen the commitment of employees to our welfare by providing them with a convenient method for purchasing common stock at below-market price through voluntary, regular payroll deductions. The ESPP is intended to qualify as an “employee stock purchase plan” under Section 423 of the Internal Revenue Code of 1986, as amended (the “Code”).

Summary of Proposed Changes

Our Board of Directors has reviewed the ESPP and has concluded that it would be in our best interests and the best interest of our stockholders for the ESPP to be amended and restated to increase by 200,000 the number of shares of our common stock to be offered and to reflect administrative changes and applicable changes in the law. Our Board of Directors has adopted, as of February 11, 2013, the Wright Medical Group, Inc. Amended and Restated 2002 Employee Stock Purchase Plan (the “Amended and Restated ESPP”) to effect these changes, subject to approval by our stockholders. If our stockholders do not approve the Amended and Restated ESPP, the ESPP will continue to operate in accordance with its terms.

At present, we are authorized to issue under the ESPP up to 200,000 shares. At December 31, 2012, we had issued 182,275 shares of common stock to employees, leaving 17,725 shares of common stock available for issuance under the ESPP.

We believe that in the near future there will not be a sufficient number of shares of common stock available for future issuance under the ESPP to enable us to continue to achieve our objectives. Therefore, as contemplated in the Amended and Restated ESPP, the maximum number of shares of common stock for which we may grant awards will be increased by 200,000 shares from 200,000 to 400,000 shares. Our Board of Directors believes this number represents reasonable potential equity dilution and provides a significant incentive for employees to increase our value for all stockholders. If this Proposal is approved, this increase of 200,000 shares in the amount of shares reserved for issuance represents approximately 0.5% of the outstanding shares of our common stock as of December 31, 2012. The purpose of this increase is to secure an adequate number of shares for future issuance over the next seven to ten years. In addition, the Amended and Restated ESPP includes other changes intended to ensure the plan's compliance with Section 423 of the Code.

Summary of Amended and Restated ESPP

The following is a summary of the detailed provisions of the Amended and Restated ESPP. The statements contained herein are qualified in their entirety by reference to the Amended and Restated ESPP, a copy of which is attached as Appendix C to this Proxy Statement.

Plan Administration. The Amended and Restated ESPP will be administered by the Compensation Committee. The Compensation Committee will have authority to interpret the Amended and Restated ESPP, construe its terms, adopt rules and regulations, prescribe forms, and make all determinations under the Amended and Restated ESPP.

Shares Available. The Amended and Restated ESPP increases the maximum number of shares of common stock that will be offered under the Stock Purchase Plan, from 200,000 to 400,000 shares, subject to appropriate adjustment in the case of any stock split, reorganization, merger, reclassification, or similar corporate event affecting the common stock. Although shares purchased by participants under the Amended and Restated ESPP can be newly issued shares, treasury shares or shares acquired by us in the open market, we intend to use newly-issued shares.

Eligible Persons. Generally, our employees or employees of any of our subsidiaries that are designated by the Compensation Committee for participation in the Amended and Restated ESPP will be eligible to participate in the Amended and Restated ESPP, provided their customary employment with us or any designated subsidiary is more than 20 hours per week and more than five months per year. However, no employee who, immediately after the grant

of an option under the Amended and Restated ESPP, would own stock and/or hold outstanding options to purchase stock possessing 5% or more of the total combined voting power or value of all classes of our stock, shall be eligible to participate in the Amended and Restated ESPP. Approximately 1,148 employees are currently eligible to participate.

Plan Periods. The Amended and Restated ESPP provides for two six-month "Plan Periods" in each calendar year, one commencing on January 1 and terminating on the following June 30, and one commencing on July 1 and terminating on the

Table of Contents

following December 31. The first day of a Plan Period is the “Entry Date” and the last day is the “Exercise Date.” The Compensation Committee may change the beginning date, ending date, and duration of Plan Periods on a prospective basis, provided that Plan Periods will in all cases comply with applicable limitations under Section 423 of the Code. Participation. An eligible employee may enroll for a Plan Period by delivering a signed subscription agreement to us no later than 15 days after the Entry Date of the Plan Period for which he or she desires to enroll. After initial enrollment in the Amended and Restated ESPP, the employee will be automatically re-enrolled in the Amended and Restated ESPP for subsequent Plan Periods unless he or she withdraws from the Amended and Restated ESPP before a new Plan Period begins, terminates employment, or otherwise becomes ineligible to participate.

Payroll Deductions, Option Price, and Shares Purchased. Upon enrollment in the Amended and Restated ESPP, the employee must elect the rate at which he or she will make payroll contributions for the purchase of common stock, which may be either a fixed amount or a percentage of the employee's compensation. Participants can elect to contribute an amount not more than 5% of their compensation during a Plan Period, or \$5,000, whichever is less. For this purpose, “compensation” is defined as the total annual compensation paid to the employee during a Plan Period by us and our designated subsidiaries to the extent such compensation would be subject to F.I.C.A. tax withholding but for the maximum dollar amount of the F.I.C.A. wage base established by federal law; less the amount of such compensation that consists of bonuses, contest awards, reimbursement of moving expenses, life insurance premiums, payments characterized as deferred compensation for purposes of Section 404 or Section 409A of the Code, and compensation reportable to the employee on account of his or her participation in any restricted stock or incentive stock option plans of us or our subsidiaries. A participant is not permitted to purchase common stock having a fair market value, as of the beginning of the Plan Period, in excess of \$25,000 in any single calendar year.

All employee contributions will be made by means of direct payroll deduction. The contribution rate elected by a participant will continue in effect until modified, but a participant may not change his or her previously elected contribution rate during a Plan Period. A participant's contributions will be credited to a payroll deduction account maintained on behalf of such participant. No interest will be credited on payroll contributions.

On each Entry Date, a participant will be deemed to have been granted an option to purchase up to the number of shares of common stock that results from dividing (i) by (ii) where: (i) is either (x) the percentage of compensation the employee has elected to have withheld during the Plan Period multiplied by the employee's compensation for the Plan Period or (y) the fixed amount per pay date which the employee has elected to have withheld during the Plan Period multiplied by the number of pay dates in the Plan Period and (ii) is the Option Price, determined as set forth in the next paragraph. On the Exercise Date of each Plan Period, the Compensation Committee will automatically exercise each participant's option to purchase the number of whole shares that results from dividing the balance of each participant's payroll deduction account by the Option Price.

At the end of the Plan Period, shares of common stock will be purchased under the Amended and Restated ESPP at a price equal to the lesser of 85% of the fair market value of common stock on the Entry Date of the Plan Period or 85% of the fair market value of the common stock on the Exercise Date of the Plan Period. We will sell the shares directly to the Plan at that price for delivery to participating employees. If the aggregate number of whole shares which could be purchased by all participants exceeds the total number of shares of common stock with respect to which the Compensation Committee granted options on the Entry Date of a Plan Period, then the option will be exercised to purchase each participant's pro rata share of the available common stock, and any excess balance in a participant's payroll deduction account will be refunded.

Transferability. Shares purchased under the Amended and Restated ESPP cannot be sold, exchanged, pledged, hypothecated or otherwise transferred until the later of (i) a period of one year after the Exercise Date when they were purchased, or (ii) a period of two years after the date the option to acquire the shares was granted under the Amended and Restated ESPP (the “Holding Period”). These restrictions will be evidenced by an appropriate legend on each stock certificate issued to a participant. The restrictions may be waived by the Compensation Committee if the participant demonstrates that he or she has a financial emergency which necessitates liquidating the shares and makes adequate arrangements to cover withholding taxes resulting from the early sale of the common stock.

Participants' rights under the Amended and Restated ESPP are nontransferable except pursuant to the laws of descent and distribution. A participant does not become the owner of shares purchased under the Amended and Restated ESPP

and does not have any voting, dividend or other rights as a stockholder with respect to such shares until the shares have been transferred to the participant on our stockholder records.

Withdrawal and Termination of Employment. A participant may withdraw his or her payroll deductions from the Amended and Restated ESPP at any time by giving written notice to our Secretary, and such notice will also stop any further payroll deductions under the Amended and Restated ESPP. However, if the notice to withdraw is not received prior to the Exercise Date

Table of Contents

for a Plan Period, the participant's option to purchase shares will automatically be exercised pursuant to the terms of the Amended and Restated ESPP, and the payroll deductions will be used to pay for the shares covered by such option.

Enrollment in the Amended and Restated ESPP will also terminate upon termination of a participant's employment by us or one of our designated subsidiaries. Upon termination of employment for any reason other than death, the payroll deductions credited to a participant's account will be returned. Upon termination of employment because of death, a participant's beneficiary may elect to either withdraw the payroll deductions credited to a participant's account, or exercise the participant's option to purchase common stock on the next Exercise Date.

Amendment and Termination. The Board of Directors may terminate, amend or modify the Amended and Restated ESPP without obtaining approval from our stockholders, except that the Board of Directors will not, without stockholder approval, increase the maximum number of shares which may be issued under the Amended and Restated ESPP (other than adjustments for stock splits and other changes in capitalization as provided in the Amended and Restated ESPP), amend the requirements for eligibility to participate in the Amended and Restated ESPP, amend the Amended and Restated ESPP in any manner which would have the effect of causing the Amended and Restated ESPP not to be an "employee stock purchase plan" as defined and set forth in Section 423 of the Code, or change the shares with respect to which the option to purchase may be granted or change the granting corporation. However, no termination, amendment or modification of the Amended and Restated ESPP may be made which would adversely affect the rights of any employee then having an option to purchase shares under the Amended and Restated ESPP without the affected employee's consent.

Adjustments Upon Changes in Capitalization. In the event of any change in the structure of our common stock, such as a reorganization, merger, recapitalization, reclassification, stock split, reverse stock split or similar transaction, the Compensation Committee may make an appropriate adjustment in the number, kind and price of shares available for purchase under the Amended and Restated ESPP.

Federal Income Tax Consequences

Rights to purchase shares under the Amended and Restated ESPP are intended to constitute "options" issued pursuant to an "employee stock purchase plan" within the meaning of Section 423 of the Code. We believe that under present law the following federal income tax consequences would generally result under the Amended and Restated ESPP:

1.No taxable income results to the participant upon the grant of an option or upon the purchase of shares for his or her account under the Amended and Restated ESPP (although the amount of a participant's payroll deductions under the Amended and Restated ESPP will be taxable as ordinary income as if received by the participant).

2.If the participant (i) disposes of shares after the expiration of the Holding Period (i.e., after the later of one year after the Exercise Date of the Plan Period with respect to which the shares were purchased or two years after the option to acquire the shares was granted under the Amended and Restated ESPP), or (ii) dies at any time while holding shares acquired under the Amended and Restated ESPP, then at the time the participant disposes of the shares he or she will recognize ordinary income in an amount equal to the lesser of (x) the fair market value of the shares on the Entry Date of the Plan Period with respect to which they were acquired, and (y) the excess of the fair market value of the shares on the date of disposition or death over the amount of the participant's payroll deductions used to purchase the shares.

3.If the participant disposes of shares prior to the expiration of the Holding Period (i.e., before the later of one year after the Exercise Date of the Plan Period with respect to which the shares were purchased or two years after the option to acquire the shares was granted under the Amended and Restated ESPP), then at that time the participant will recognize ordinary income in an amount equal to the excess of the fair market value of the shares on the Exercise Date over the amount of the participant's payroll deductions used to purchase the shares. The participant will be considered to have disposed of a share if the participant sells, exchanges, makes a gift or transfers (except by death) legal title to the share.

4.In addition, the participant will recognize a long-term or short-term capital gain or loss, as the case may be, in an amount equal to the difference between the amount realized upon any sale of common stock and the participant's basis

in the common stock (i.e., the purchase price plus the amount, if any, taxed to the participant as ordinary income, as described in (2) and (3) above).

5.If the Holding Period is satisfied, we will not receive any deduction for federal income tax purposes with respect to any discount in the sale price of shares purchased under the Amended and Restated ESPP. If the Holding Period is not satisfied, we generally should be entitled to a tax deduction in an amount equal to the amount taxed to the participant as ordinary income.

Table of Contents

Dividends, if any, on shares purchased pursuant to the Amended and Restated ESPP will be taxable as ordinary income in the year paid.

The foregoing provides only a general description of the application of Federal income tax laws to the Amended and Restated ESPP and does not purport to be complete. The summary does not address the effects of other Federal taxes or taxes imposed under state, local, or foreign tax laws. Because of the complexities of the tax laws, participants are urged to consult a tax advisor as to their individual circumstances.

New Plan Benefits

The benefits to be received by participants in the Amended and Restated ESPP will depend upon the number of eligible employees who enroll in the Amended and Restated ESPP, the payroll deduction elections made by such employees, and the availability of shares under the Amended and Restated ESPP. Therefore, it is not possible to determine the benefits that will be received in the future by participants in the Amended and Restated ESPP or the benefits that would have been received by such participants if the Amended and Restated ESPP had been in effect in the year ended December 31, 2012.

PROPOSAL 5

APPROVAL OF OUR SECOND AMENDED AND RESTATED 2009 EQUITY INCENTIVE PLAN

Introduction

The 2009 Equity Incentive Plan originally was adopted by our Board of Directors and approved by the stockholders on May 13, 2009. On May 9, 2010, the 2009 Equity Incentive Plan was amended and restated to increase the number of shares of our common stock available for awards thereunder by 3,500,000 shares. Under the 2009 Equity Incentive Plan, as amended and restated (the “Equity Incentive Plan”), we are authorized to grant equity-based awards in the form of stock options, stock appreciation rights, restricted stock, restricted stock units, performance share units, and stock bonuses to our and our subsidiaries' employees (including executive officers), directors, and consultants. The purpose of the Equity Incentive Plan is to provide a means for us to attract able persons to become and remain employees and directors of and consultants to us and our subsidiaries by providing them with long-term, equity based incentive compensation. The objectives of the Equity Incentive Plan are to strengthen the commitment of our employees, directors, and consultants to our welfare and to promote an identity of interest between them and our stockholders.

Summary of Proposed Changes

The Compensation Committee of our Board of Directors has reviewed the Equity Incentive Plan and has concluded that it would be in our best interests and the best interest of our stockholders for Equity Incentive Plan to be further amended to increase by 3,500,000 the number of shares of our common stock available for awards thereunder, to create a fungible share pool that reduces the share reserve more rapidly when “full value” awards such as restricted stock are granted, and to provide certain minimum vesting requirements for awards. The Compensation Committee has adopted the Second Amended and Restated 2009 Equity Incentive Plan to effect these changes, subject to approval by our stockholders in a manner that complies with applicable law, the rules and regulations of the SEC, and the rules and regulations of Nasdaq. If approved by our stockholders, the Second Amended and Restated 2009 Equity Incentive Plan will become effective as of May 14, 2013, the date of our 2013 Annual Meeting.

At present, we are authorized to grant equity-based awards under the Equity Incentive Plan for up to 1,450,000 shares plus the number of shares of common stock granted under the 1999 Equity Incentive Plan that are not exercised or are forfeited, lapsed, or expired, or otherwise terminate without delivery of any shares of common stock subject thereto, to the extent such common stock would otherwise again have been available under the 1999 Equity Incentive Plan. At December 31, 2012, we had granted stock options to approximately 160 employees, directors and independent distributors. At December 31, 2012, we had granted restricted stock to approximately 360 employees, directors and independent distributors. At December 31, 2012, we had granted restricted stock units to approximately 40 employees, directors and independent distributors. We thus far have not granted any stock appreciation rights, performance share units, or stock bonuses under the Equity Incentive Plan. At December 31, 2012, we had issued 197,053 shares of common stock pursuant to stock option exercises, and there were outstanding stock options to purchase 3,181,934 shares of common stock (the weighted-average exercise price for which is \$22.92 and the weighted-average remaining term for which is 5.3 years) and unvested restricted shares and restricted stock units of 813,825. As a result, at December 31, 2012, there were 1,588,329 remaining shares of common stock available for future awards under the Equity Incentive Plan, our only active equity incentive plan.

As noted in “Compensation Discussion and Analysis”, we believe the equity compensation aligns the long-term interests of our executive officers with the long-term interests of our stockholders by creating a strong and direct linkage between compensation and long-term stockholder return. Based on our current compensation policies and in connection with our acquisition of BioMimetic, the Compensation Committee believes that in the near future there will not be a sufficient number of shares of common stock available for future awards under the Equity Incentive Plan to enable us to continue to achieve our objectives. Therefore, as contemplated in the Second Amended and Restated 2009 Equity Incentive Plan, the maximum number of shares of common stock for which we may grant awards will be increased by 3,500,000 shares from 1,450,000 to 4,950,000 shares, plus the number of shares of common stock granted under the 1999 Equity Incentive Plan that are not exercised or are forfeited, lapsed, or expired, or otherwise terminate without delivery of any shares of common stock subject thereto, to the extent such common stock would otherwise again have been available under the 1999 Equity Incentive Plan. The additional shares represent a 241% increase in the number of authorized shares under the Equity Incentive Plan, but constitute only 8.8% of the shares of

common stock that were outstanding on December 31, 2012. If the additional shares were all granted and issued as “full value” awards, after adjusting for the impact of the fungible share ration described below, the number of shares issued from the additional 3,500,000 shares would be only 1,750,000 shares representing 4.4% of the shares of common stock that were outstanding on December 31, 2012. Our Board of Directors believes this number represents reasonable potential equity dilution and provides a significant incentive for employees, directors and consultants to increase our value for all stockholders. The additional 3,500,000 shares, together with the existing 1,588,239 shares at December 31, 2012, are expected to provide us

Table of Contents

with a sufficient number of available shares of common stock to make awards under the Second Amended and Restated 2009 Equity Incentive Plan for approximately the next 2 to 4 years.

The Compensation Committee has chosen to add a provision making the number of shares of common stock available for issuance under the Equity Incentive Plan a fungible share pool. Accordingly, shares issued in respect of any full value award (any award under the plan other than a options or stock appreciation rights) granted under the plan after March 14, 2013 shall be counted against the share limit as two shares for every one share actually issued in connection with such award. Shares issued in respect of any other award (not a full value award) shall be counted against the share limit as one share. Therefore, as noted previously, if stockholders approve the Second Amended and Restated 2009 Equity Incentive Plan and all of 3,500,000 additional shares are issued as full value awards, the total number of additional shares issued under the Second Amended and Restated 2009 Equity Incentive Plan will be 1,750,000.

To address stockholders' potential concerns regarding the number of options, restricted shares and restricted stock units we grant in a given year, the Compensation Committee has committed that, with respect to the number of shares subject to awards granted over the next three fiscal years, we will maintain an average annual burn rate over that period that does not exceed 5.09% of weighted common shares outstanding. For purposes of calculating the number of shares granted in a particular year, all awards will first be converted into option-share equivalents. In this case, each share that is subject to a full value award will count as equivalent to 2.5 shares. This burn rate limitation does not apply to awards under plans assumed in acquisitions, awards subject to performance vesting, or issuances under tax-qualified employee stock purchase plans.

To address stockholders' potential concerns regarding the vesting terms of awards granted under the Equity Incentive Plan, the Compensation Committee has chosen to add a provision providing for minimum vesting requirements for most awards. With the exception of substitute awards granted in a business combination, performance-based awards must have a minimum vesting period of at least one year, and non-performance based awards must vest over at least three years. Certain awards are excluded from the minimum vesting requirements, including awards in lieu of for cash compensation, awards to non-employee directors, accelerated vesting due to a participant's death, disability or retirement or a change in control, and awards covering less than 10% of the shares authorized under the Equity Incentive Plan.

The Second Amended and Restated 2009 Equity Incentive Plan became effective on February 11, 2013. If approved by our stockholders, Second Amended and Restated 2009 Equity Incentive Plan will expire on May 13, 2019. If our stockholders do not approve the Second Amended and Restated 2009 Equity Incentive Plan, the Equity Incentive Plan as in effect immediately prior to February 11, 2013 will continue to operate in accordance with its terms.

Summary of Second Amended and Restated 2009 Equity Incentive Plan

The following is a summary of the detailed provisions of the Second Amended and Restated 2009 Equity Incentive Plan. The statements contained herein are qualified in their entirety by reference to the Second Amended and Restated 2009 Equity Incentive Plan, a copy of which is attached as Appendix D to this Proxy Statement.

General. The Second Amended and Restated 2009 Equity Incentive Plan authorizes us to grant to eligible persons the following types of equity-based awards: options to purchase common stock that qualify as "incentive stock options" within the meaning of Section 422 of the Code; options to purchase common stock that do not qualify as incentive stock options under the Code, which are also referred to as "nonqualified stock options"; stock appreciation rights (SARs); shares of restricted stock; restricted stock units; performance share units; and stock bonuses.

Eligible Persons. Approximately 130 non-union employees and directors of our related entities are eligible to receive equity-based awards under the Second Amended and Restated 2009 Equity Incentive Plan. Under present law, incentive stock options may be granted only to employees.

Shares Available. As contemplated by the amendment, the aggregate number of shares of common stock which may be made subject to all awards granted under the Second Amended and Restated 2009 Equity Incentive Plan is 4,950,000 shares, plus the number of shares of common stock granted under the 1999 Equity Incentive Plan that are not exercised or are forfeited, lapsed, or expired, or otherwise terminate without delivery of any shares of common stock subject thereto, to the extent such common stock would otherwise again have been available under the 1999 Equity Incentive Plan. As of December 31, 2012, and as contemplated under the Second Amended and Restated 2009 Equity Incentive Plan, there will be 5,088,329 remaining shares of common stock available for future awards, of

which full value awards will be limited to 2,544,164 shares. Any and all shares of stock that may be made subject to Awards are authorized to be issued pursuant to Incentive Stock Options. The awards granted under the Second Amended and Restated 2009 Equity Incentive Plan and the foregoing share limitations are subject to equitable adjustment or substitution, as determined by the Compensation Committee, in its sole discretion, in the event of certain changes in our outstanding shares of common stock or its capital structure resulting from stock dividends, stock splits, reverse stock splits, recapitalizations, reorganizations, mergers, consolidations, combinations, exchanges, or other relevant changes in

capitalization. In the event that any stock option, SAR, restricted stock, restricted stock unit, or performance share unit expires or is surrendered, terminated, or forfeited, the shares of common stock no longer subject to such award will be released and thereafter available for new awards to be granted under the Second Amended and Restated 2009 Equity Incentive Plan. The Compensation Committee may grant awards under the Second Amended and Restated 2009 Equity Incentive Plan in substitution for awards held by employees of another entity who become our employees as a result of a business combination, and such substitute awards will not count against the plan share reserve.

As of December 31, 2012, we had granted stock options and stock bonuses to approximately 160 employees, directors and independent distributors. As of December 31, 2012, we had granted full value awards to approximately 400 employees, directors and independent distributors. We thus far have not granted any stock appreciation rights, performance share units, or stock bonuses under the Equity Incentive Plan. As of December 31, 2012, there were outstanding stock options to purchase 3,181,934 shares of common stock (the weighted-average exercise price for which is \$22.92 and the weighted-average remaining term for which is 5.3 years) and unvested restricted shares and restricted stock units of 813,825.

Administration. The Compensation Committee of our Board of Directors is authorized to administer the Second Amended and Restated 2009 Equity Incentive Plan. The Compensation Committee has the authority, subject to the provisions of the Second Amended and Restated 2009 Equity Incentive Plan, to establish, adopt, or revise such rules and regulations and to make all such determinations relating to the administration of the Second Amended and Restated 2009 Equity Incentive Plan as it may deem necessary or advisable. The Compensation Committee has the power, subject to the provisions of the Second Amended and Restated 2009 Equity Incentive Plan, to select the eligible persons to participate in the Second Amended and Restated 2009 Equity Incentive Plan; determine the nature and extent of the awards to be made to each participant; determine the time or times when awards will be made to participants; establish the performance goals and determine the period of time within which performance is measured with respect to performance share units; determine the period of time during which shares of restricted stock are subject to restrictions; determine the conditions for the payment of awards; and prescribe the forms of agreements and documents evidencing the awards.

Types of Equity-Based Awards.

Stock Options. The Compensation Committee may grant awards of stock options to eligible persons under the Second Amended and Restated 2009 Equity Incentive Plan. Nonqualified stock options may be granted to all eligible persons, but incentive stock options may be granted only to employees of ours and our related entities.

The Compensation Committee may set the exercise price of stock options, provided that the exercise price is not less than the fair market value of the underlying common stock on the date of grant. Stock options will vest and become exercisable in such a manner and on such date or dates as are determined by the Compensation Committee. The stock options will expire after a period not exceeding 10 years from the date of grant, as determined by the Compensation Committee, subject to earlier termination in the event that the participant's employment or service with us or a related entity ceases before the end of the option period. If an incentive stock option is granted to a participant who owns or is deemed to own more than 10% of the combined voting power of all classes of our stock, the option period may not exceed five years and the exercise price may not be less than 110% of the fair market value of the underlying common stock on the date of grant. Each stock option is to be evidenced by a stock option agreement containing such provisions, consistent with the Second Amended and Restated 2009 Equity Incentive Plan, as are determined by the Compensation Committee.

Stock Appreciation Rights. The Compensation Committee may grant awards of stock appreciation rights to eligible persons, alone or in tandem with stock options, pursuant to the Second Amended and Restated 2009 Equity Incentive Plan. A SAR confers on the participant the right to receive the value equal to the excess of the fair market value of one share of common stock on the date of exercise over the exercise price of the SAR. We may pay an exercised SAR's excess value in the form of cash, shares of common stock, or a combination of both as determined by the Compensation Committee. If, on the day that an unexercised SAR is scheduled to expire, the fair market value of the common stock exceeds the exercise price of the SAR, the SAR will be deemed to have been exercised by the participant on such last day, and we will make the appropriate payment therefore. Each SAR is to be subject to such terms and conditions as are imposed by the Compensation Committee and are not inconsistent with the Second

Amended and Restated 2009 Equity Incentive Plan.

Restricted Stock. The Compensation Committee may grant awards of restricted stock to eligible persons under the Second Amended and Restated 2009 Equity Incentive Plan. Upon the award of the restricted stock, we issue such stock to be held in a restricted book entry account in the name of the participant. The participant's rights to the restricted stock are subject to certain transferability and forfeiture restrictions during a restricted period which commences on the date of grant of the restricted stock and expires from time to time in accordance with a schedule established by the Compensation Committee. While the restrictions are in place, the participant generally has the rights and privileges of a stockholder as to the restricted stock, including the right to vote the restricted stock and to receive dividends thereon. Upon the expiration of the restricted period, the restrictions are of

Table of Contents

no further force or effect with respect to the restricted stock, and we will remove the restrictions of such restricted book entry account. Each restricted stock award is to be evidenced by an agreement between us and the participant setting forth the applicable restrictions.

Restricted Stock Units. The Compensation Committee may grant awards of restricted stock units to eligible persons pursuant to the Second Amended and Restated 2009 Equity Incentive Plan. A restricted stock unit is a hypothetical investment equal to one share of common stock. We do not issue any shares of common stock when a restricted stock unit award is made, and the participant is not considered a stockholder of ours. The participant's rights with respect to the restricted stock units are subject to certain forfeiture provisions during a restricted period which commences as of the date of grant of the restricted stock units and expires from time to time in accordance with a schedule established by the Compensation Committee. Upon the expiration of the restricted period, we deliver to the participant one share of common stock for each restricted stock unit for which the restrictions have expired. The terms and conditions of each grant of restricted stock units are to be reflected in a written award agreement.

Performance Share Units. The Compensation Committee is authorized to establish performance share unit programs and may grant awards of performance share units to eligible persons in accordance with such programs under the Second Amended and Restated 2009 Equity Incentive Plan. The Compensation Committee determines the number of performance share units to be granted to each eligible person who is selected to receive such an award. At the beginning of each performance measurement period, referred to in the Second Amended and Restated 2009 Equity Incentive Plan as an "award period," the Compensation Committee establishes written performance goals based on our financial objectives for such award period and a schedule relating the accomplishment of the performance goals to the performance share units to be earned by the participants. The performance goals may include absolute or relative growth in earnings per share or rate of return on stockholders' equity or any other measurement of corporate performance and may be determined on an individual basis or by categories of participants. The Compensation Committee may adjust the performance goals during the award period to account for certain events affecting us. At the completion of the award period, the Compensation Committee calculates the number of shares of common stock earned with respect to each participant's performance share unit award by multiplying the number of performance share units granted to the participant by a performance factor representing the degree of attainment of the performance goals. Payment of earned performance share units is made in the form of shares of common stock or, at the Compensation Committee's discretion, cash if requested by the participant.

Stock Bonuses. The Compensation Committee may issue unrestricted shares of common stock to eligible persons pursuant to the Second Amended and Restated 2009 Equity Incentive Plan. The Compensation Committee may grant the stock awards as or in payment of a bonus to the participant, to provide incentives for the participant, or to recognize the participant's special achievements or contributions.

Transferability. A participant's rights and interest under the Second Amended and Restated 2009 Equity Incentive Plan, including amounts payable, may not be sold, assigned, donated, transferred or otherwise disposed of, mortgaged, pledged or encumbered except, in the event of a participant's death, to a designated beneficiary to the extent permitted in the Second Amended and Restated 2009 Equity Incentive Plan, or in the absence of such designation, by will or the laws of descent and distribution. The Compensation Committee, however, may allow for the transfer of awards other than incentive stock options to other persons or entities.

Change of Control Provisions. The award agreements entered into under the Second Amended and Restated 2009 Equity Incentive Plan may provide for change in control provisions. In the absence of such provisions, in the event of any of the following: (i) we are merged or consolidated with another corporation or entity and, in connection therewith, consideration is received by our stockholders in a form other than stock or other equity interests of the surviving entity, (ii) all or substantially all of our assets are acquired by another person, or (iii) the reorganization or liquidation of us, the Compensation Committee may in its discretion and upon at least ten days advance notice to the affected persons, cancel any outstanding awards and pay to the holders in cash the value of such awards based upon the price per share of stock received or to be received by our other stockholders in such event.

Minimum Vesting Requirements. Except in the case substitute awards granted in a business combination as described above, full-value awards shall either (i) be subject to a minimum vesting period of three years (which may include graduated vesting within such three-year period), or one year if the vesting is based on performance criteria other than

continued service, or (ii) be granted solely in lieu of foregone cash compensation. However, the Compensation Committee may at its discretion (i) accelerate vesting of such full-value awards in the event of the participant's death, disability, or retirement, or the occurrence of a change in control, or (ii) grant full-value awards without the minimum vesting requirements described above with respect to awards covering 10% or fewer of the total number of shares authorized under the Second Amended and Restated 2009 Equity Incentive Plan. The minimum vesting requirements shall not apply to awards made to non-employee directors

Amendment and Termination. Our Board of Directors may terminate the Second Amended and Restated 2009 Equity Incentive Plan at any time. Our Board of Directors or the Compensation Committee may suspend and, if suspended, reinstate the Second Amended and Restated 2009 Equity Incentive Plan in whole or in part at any time and from time to time. Any amendment of the Second Amended and Restated 2009 Equity Incentive Plan must be approved by our stockholders to the extent that such approval is required by the Second Amended and Restated 2009 Equity Incentive Plan, applicable law, the rules and regulations of the SEC, or the rules and regulations of any national securities exchange on which the common stock is then listed.

Federal Income Tax Consequences

The following is a summary of the material anticipated United States federal income tax consequences of the Second Amended and Restated 2009 Equity Incentive Plan to us and the participants. The summary is based on current federal income tax law, which is subject to change, and does not address state, local, or foreign tax consequences or considerations.

Stock Options. The grant of a stock option that does not have a readily ascertainable value will not result in taxable income at the time of the grant for either us or the optionee. Upon exercising an incentive stock option, the optionee will have no taxable income (except that the alternative minimum tax may apply) and we will receive no deduction. Upon exercising a nonqualified stock option, the optionee will recognize ordinary income in the amount by which the fair market value of the common stock at the time of exercise exceeds the stock option exercise price, and we will be entitled to a deduction for the same amount. The optionee's income is subject to withholding tax as wages. The optionee's basis for determining any subsequent gain or loss on the sale of stock acquired through the exercise of an option includes both the exercise price and any income recognized.

The tax treatment of the optionee upon a disposition of shares of common stock acquired through the exercise of a stock option is dependent upon the length of time that the shares have been held and on whether such shares were acquired by exercising an incentive stock option or a nonqualified stock option. If an employee exercises an incentive stock option and holds the shares for two years from the date of grant and one year after exercise, then any gain or loss realized based on the exercise price of the stock option will be treated as long-term capital gain or loss. Shares obtained upon exercise of an incentive stock option that are sold without satisfying these holding periods will be treated as shares received from the exercise of a nonqualified stock option. Generally, upon the sale of shares obtained by exercising a nonqualified stock option, the optionee may recognize capital gain or loss, the character of which is dependent upon the length of time that the shares have been held. Generally, there will be no tax consequence to us in connection with the disposition of shares of common stock acquired under a stock option, except that we may be entitled to a deduction in the case of a disposition of shares acquired upon exercise of an incentive stock option before the applicable holding periods have been satisfied.

Stock Appreciation Rights. The grant of a SAR will not result in taxable income to the participant at the time of the award. Upon exercising the SAR, the participant will recognize ordinary income in the amount by which the fair market value of the common stock or the amount of cash, as the case may be, exceeds the SAR exercise price, if any. We will be entitled to a deduction for the same amount. The participant's income is subject to withholding tax as wages. Upon a disposition of shares of common stock acquired through the exercise of the SAR, the participant may recognize capital gain or loss, the character of which is dependent upon the length of time that the shares have been held. Generally, there will be no tax consequences to us in connection with the disposition of shares of common stock acquired under a SAR.

Restricted Stock. An award of shares of common stock that is limited in terms of transferability and is subject to a substantial risk of forfeiture (i.e., restricted stock) will not result in taxable income to the participant at the time of the grant. Prior to the lapse of either of the restrictions on the restricted stock, any dividends on such shares will be paid currently and will be treated as ordinary compensation income to the participant, subject to withholding. Upon the lapse of either of the restrictions, the participant will recognize ordinary compensation income in the amount of the fair market value of the shares of common stock at the time that the restriction lapses, less the amount paid for the shares, if any.

Alternatively, within 30 days after transfer of the restricted stock, a participant may make an election under Section 83(b) of the Code, which would allow the participant to include in income in the year that the restricted

common stock is awarded an amount equal to the fair market value of the restricted stock on the date of such award determined as if the restricted common stock were not subject to restrictions. The employer is then entitled to a compensation-paid deduction in the same amount. The election is required to be written and delivered to both the Internal Revenue Service and the employer within that 30-day period. The participant is also required to confirm the election with the filing of the participant's federal income tax return for the year in which the award is made. Failure to satisfy any of these requirements may invalidate the intended election. In the event of a valid Section 83(b) election, the participant will not recognize income at the time that the restrictions actually lapse. In addition, any appreciation or depreciation in the value of the stock and any dividends paid on the stock after a valid Section 83(b) election are not deductible by the employer as compensation paid. For purposes of determining the period of time that the participant holds the restricted stock, the holding period begins on the award date when a participant makes a Section 83(b) election. Further,

Table of Contents

any dividends received after the Section 83(b) election is made will constitute ordinary dividend income to the participant and will not be deductible by the employer. If the restricted stock subject to the Section 83(b) election is subsequently forfeited, however, the participant is not entitled to a deduction or tax refund with respect to the income recognized because of the election, but may take a capital loss with respect to the amount paid for the shares, if any. We will be entitled to a deduction for the year in which the participant recognizes ordinary income with respect to the restricted stock in an amount equal to such income.

Restricted Stock Units. The grant of a restricted stock unit will not result in taxable income to the participant at the time of the grant. At the time that we make a payment with respect to the restricted stock unit, the participant will recognize ordinary compensation income in an amount equal to the fair market value of the shares of common stock received or in the amount of the cash received, as the case may be. Wage withholding rules will apply. We will be entitled to a deduction at the time of payment in an amount equal to such income.

Performance Share Units. The grant of a performance share unit will not result in taxable income to the participant at the time of the grant. At the time that we make a payment with respect to the performance share units, the participant will recognize ordinary compensation income in an amount equal to the fair market value of the shares of common stock received or in the amount of the cash received, as the case may be. Wage withholding rules will apply. We will be entitled to a deduction at the time of payment in an amount equal to such income.

Stock Bonuses. A participant who receives a stock bonus will recognize ordinary compensation income upon receipt of the stock in an amount equal to the fair market value of the stock on the date of grant. Wage withholding rules will apply. We will be entitled to a deduction at the time of grant in an amount equal to such income.

Effect of Section 162(m) of the Code. Section 162(m) of the Code limits to \$1,000,000 per person the annual amount that we may deduct for compensation paid to any of our most highly compensated employees. Compensation payable as a result of the attainment of performance goals may be excluded from this limit. To qualify as performance-based compensation, the Second Amended and Restated 2009 Equity Incentive Plan and the awards made thereunder must meet certain requirements. For example, stock options and SARs granted with an exercise price not less than the fair market value of the underlying shares of common stock are considered performance-based compensation, so long as the Second Amended and Restated 2009 Equity Incentive Plan and the stock option or SAR meet certain requirements, because the amount of compensation is attributable to an increase in the price of the common stock. Restricted stock awards may or may not qualify as performance-based compensation, depending on whether the vesting of the restricted stock is based on the attainment of performance-based goals.

Common Stock Price

The last sale price of our common stock on December 31, 2012, as reported by the Nasdaq Global Select Market, was \$20.99 per share.

PROPOSAL 6

APPROVAL OF OUR AMENDED AND RESTATED
2010 EXECUTIVE PERFORMANCE INCENTIVE PLAN

Introduction

The 2010 Executive Performance Incentive Plan (the “Performance Incentive Plan”) was originally adopted by our Compensation Committee on March 20, 2010, and the material terms of the Performance Incentive Plan were approved by our stockholders on May 13, 2010. The Performance Incentive Plan provides for objective, performance-based awards for selected senior executives, subject to a maximum limit, as described in more detail below. Amounts paid under the Performance Incentive Plan are intended to qualify as “performance-based compensation,” which is excluded from the \$1,000,000 limit on deductible compensation set forth in Section 162(m) of the Internal Revenue Code of 1986, as amended (the “Code”).

Summary of Proposed Changes

The Compensation Committee of our Board of Directors has reviewed the Performance Incentive Plan and has concluded that it would be in our best interest and the best interest of our stockholders for the Performance Incentive Plan to be amended and restated (i) to allow for awards to be paid, in whole or in part, in shares of our common stock, at the election of the participant, (ii) to permit all awards to be paid as soon as the performance goals have been achieved and certified to in writing by the Compensation Committee, and (iii) to make certain other administrative, clarifying and conforming amendments to the provisions of, and definitions used in, the Performance Incentive Plan. Our Board of Directors, upon the recommendation by the Compensation Committee, has adopted the Amended and Restated 2010 Equity Performance Incentive Plan (the “Amended and Restated Performance Incentive Plan”) to effect these changes, subject to approval by our stockholders in a manner that complies with applicable law, the rules and regulations of the SEC, the rules and regulations of Nasdaq and Section 162(m) of the Code.

Our Board of Directors is requesting that our stockholders approve the Amended and Restated Performance Incentive Plan to enable us to fully deduct for tax purposes payments under the Amended and Restated Performance Incentive Plan that are intended to qualify as “performance-based compensation.” Under Section 162(m), the federal income tax deductibility of compensation paid to our CEO and our three other most highly compensated officers (other than our CEO and principal financial officer) determined pursuant to the executive compensation disclosure rules under the Securities Exchange Act of 1934 (collectively, the “Covered Employees”) may be limited to the extent such compensation exceeds \$1,000,000 in any taxable year. However, we may deduct compensation paid to our Covered Employees in excess of that amount if it qualifies as performance-based compensation. In addition to certain other requirements, for awards under the Amended and Restated Performance Incentive Plan to constitute performance-based compensation, the material terms of the Amended and Restated Performance Incentive Plan must be disclosed to and approved by our stockholders. Under the Section 162(m) regulations, the material terms of the Amended and Restated Performance Incentive Plan are (i) the maximum amount of compensation that may be paid to a participant under the Amended and Restated Performance Incentive Plan during a specified period, (ii) the employees eligible to receive compensation under the Amended and Restated Performance Incentive Plan, and (iii) the business criteria on which performance goals are based. These material terms are disclosed below, respectively, in the following sections: (i) “Summary of the Amended and Restated Performance Incentive Plan - Maximum Award,” (ii) “Summary of the Amended and Restated Performance Incentive Plan - Individuals Who May Participate,” and (iii) “Summary of the Amended and Restated Performance Incentive Plan - Administration of the Amended and Restated Performance Incentive Plan and Performance Goals.” Our stockholders' approval of the Amended and Restated Performance Incentive Plan itself will constitute approval of each of the material terms of the Amended and Restated Performance Incentive Plan for purposes of the approval requirements of Section 162(m) of the Code.

As noted in “Compensation Discussion and Analysis”, we believe the equity compensation aligns the long-term interests of our executive officers with the long-term interests of our stockholders by creating a strong and direct linkage between compensation and long-term stockholder return. If the Amended and Restated Performance Incentive Plan is approved by our stockholders, we may issue shares of common stock as payment of awards granted under the Amended and Restated Performance Incentive Plan. Any shares of common stock awarded under the Amended and

Restated Performance Incentive Plan will be granted from the Amended and Restated 2009 Equity Incentive Plan, as may be amended from time-to-time, or any subsequently adopted equity incentive plan of the Company.

The Amended and Restated Performance Incentive Plan became effective on January 1, 2013. If approved by our stockholders, the Amended and Restated Performance Incentive Plan will expire on May 14, 2018. If our stockholders do not approve the Amended and Restated Performance Incentive Plan, the Performance Incentive Plan as in effect immediately prior to January 1, 2013, will continue to operate in accordance with its terms.

Summary of the Amended and Restated Performance Incentive Plan

The following is a summary of the Amended and Restated Performance Incentive Plan, including its material terms. It does not purport to be a complete description of all the provisions of the Amended and Restated Performance Incentive Plan and should be read in conjunction with, and is qualified in its entirety by reference to, the complete text of the Amended and Restated Performance Incentive Plan, a copy of which is attached as Appendix E to this Proxy Statement.

Administration of the Amended and Restated Performance Incentive Plan and Performance Goals. The Compensation Committee administers and interprets the Amended and Restated Performance Incentive Plan, and any determination made by the Compensation Committee will be final and conclusive. The Compensation Committee may employ such legal counsel, consultants and agents (including counsel or agents who are our employees) as it may deem desirable for the administration of the Amended and Restated Performance Incentive Plan and may rely upon any opinion received from any such counsel or consultant or agent and any computation received from such consultant or agent. All expenses incurred in the administration of the Amended and Restated Performance Incentive Plan, including, without limitation, for the engagement of any counsel, consultant, or agent, will be paid by us.

The Compensation Committee has the sole and absolute authority to designate the participants in the Amended and Restated Performance Incentive Plan from the pool of employees qualified to participate in the Amended and Restated Performance Incentive Plan.

Within 90 days of the start of each calendar year, but in no case later than the date that is 25% of the period being measured, the Compensation Committee must establish the performance objectives for all applicable measuring periods during the year. The Compensation Committee must determine the performance periods (e.g., quarterly or full-year) for which performance goals will be measured. The Compensation Committee or its designee must communicate performance goals, financial performance measures, the relative weighting of each measure, and the performance minimum threshold, target bonus, and maximum bonus to each participant. However, the weighting of measures of cash flow shall not be greater than the weighting of measures of net income.

Performance goals must be based upon performance measures, such as sales revenue, operating income before or after taxes, net income before or after taxes, net income before securities transactions, net or operating income excluding non-recurring charges, return on assets, return on equity, return on capital, market share, earnings per share, cash flow, revenue, revenue growth, expenses, stock price, dividends, total stockholder return, price/earnings ratio, market capitalization, book value, product quality, customer retention, unit sales, strategic business objectives or any other performance measure deemed appropriate by the Compensation Committee in its discretion.

The Compensation Committee must determine a target performance bonus, stated as a percentage of base salary, for each participant. The target performance bonus represents the award that a participant will receive if all performance goals for each performance measure are met or exceeded.

The Compensation Committee must determine minimum performance thresholds for each of the performance measures. Partial payments of the target performance bonus may be paid only if the minimum performance thresholds are achieved. A participant may not be paid for performance below the minimum performance threshold of any component of the performance measures.

If the performance goals for a performance year are exceeded, the Compensation Committee may pay additional bonus in excess of the target performance bonus. However, no participant may be paid an amount, in cash and/or common stock, that exceeds twice the target performance bonus unless otherwise determined by the Compensation Committee.

Awards granted under the Amended and Restated Performance Incentive Plan will be prorated for each component of the performance measures between the minimum performance threshold and the target performance goal and between the target performance goal and the maximum performance bonus.

As soon as practicable, the Compensation Committee will determine whether the performance goals of any participant have been attained for any applicable performance period and will certify to such attainment in writing. The Compensation Committee will determine, in its sole discretion, the awards to be paid to the participants under the Amended and Restated Performance Incentive Plan. Awards will be calculated based on the participant's basis for award calculation, which is the participant's base salary in effect at the end of the quarter or performance year,

prorated to cover the period under consideration, plus any lump sum merit increases that may have been granted to the participant during the performance year, prorated to cover the period under consideration. All other compensatory incentives, premiums, bonuses or payments will be excluded from the basis for award calculation.

Table of Contents

If performance goals are not achieved for any quarterly performance period but, due to full-year financial results, which is allocated equally amongst the four quarters, one or more quarterly performance goals would be achieved, the payment of awards for the entire performance year will also include an additional payment equal to the amount of the quarterly awards that are deemed achieved based on the equal allocation of the full-year financial results. Awards based on quarterly financial results of the first, second or third quarterly performance periods each will not exceed twenty percent (20%) of a participant's target bonus for the entire performance year.

Awards granted under the Amended and Restated Performance Incentive Plan will be paid as soon as practicable upon achievement of the performance goals and the Compensation Committee's certification to such achievement for any applicable performance period. Payment of the awards must occur on or prior to March 15 of the calendar year following the performance year for which such awards are made. Awards under the Amended and Restated Performance Incentive Plan will generally be paid in cash. However, a participant may elect for the participant's award to be paid in shares of common stock, in lieu of cash, or a combination of cash and shares of common stock. Upon such election, the participant will receive such number of shares equal to (a) the amount of the award, divided by (b) the fair market value of a share of common stock, as of the date of the participant's election, provided that such number of shares of common stock are available for issuance under the Amended and Restated 2009 Equity Incentive Plan, as may be amended from time-to-time, or any subsequently adopted equity incentive plan of the Company. Subject to certain exceptions, a participant must be employed as of the last day of a performance year to be entitled to a payment under the Amended and Restated Performance Incentive Plan. A participant's payments under the Amended and Restated Performance Incentive Plan will be prorated if the participant leaves his or her position due to disability, dies, or takes a military leave.

Newly hired individuals may become participants if they are hired on or prior to September 30 of a performance year. Individuals who transfer within us or our subsidiaries may also become participants. All awards made to such newly hired or transferred individuals will be prorated for the period of participation in the Amended and Restated Performance Incentive Plan. Awards granted to such newly hired individuals may not be based upon performance measures achieved under the Amended and Restated Performance Incentive Plan prior to the date of hire.

Maximum Award. In no event may any payment, whether in cash and/or common stock, under the Amended and Restated Performance Incentive Plan to a participant exceed \$1,500,000 for any performance year.

Individuals Who May Participate. The Compensation Committee has the sole and absolute authority to designate the participants in the Amended and Restated Performance Incentive Plan. To be eligible to participate in the Amended and Restated Performance Incentive Plan, an individual must be a regular full-time or part-time executive employed by us or our subsidiaries and be designated as an officer of us or our subsidiaries by our Board of Directors of such entity. In addition, an individual must (i) be employed by us or one of our subsidiaries for at least three months during the performance year with a hire date on or prior to September 30 and must be an employee on December 31 of the performance year, (ii) have met minimum job expectations and have performed satisfactorily, as determined by the participant's manager/supervisor in conjunction with our Human Resource Department; and (iii) be employed in the United States, Canada or in a European country in the business unit designated by us as "EMEA."

If a participant does not maintain an acceptable level of overall performance, the participant may, at the sole discretion of the Compensation Committee, be suspended from the Amended and Restated Performance Incentive Plan.

As of December 31, 2012, eleven executive officers were eligible to participate in the Amended and Restated Performance Incentive Plan.

Transfer Restrictions; No Right to Continued Employment. A participant's rights and interest under the Amended and Restated Performance Incentive Plan, including amounts payable, may not be sold, assigned, donated, or transferred or otherwise disposed of, mortgaged, pledged or encumbered except, in the event of a participant's death, to a designated beneficiary to the extent permitted by the Amended and Restated Performance Incentive Plan, or in the absence of such designation, by will or the laws of descent and distribution.

Neither the Amended and Restated Performance Incentive Plan nor any action taken under the Amended and Restated Performance Incentive Plan may be construed as giving any participant any right to be retained in the employ or service of us or our subsidiaries.

Term and Amendment. The Amended and Restated Performance Incentive Plan became effective as of January 1, 2013 and, if approved by our stockholders, will expire on May 14, 2018.

Table of Contents

Our Board of Directors or the Compensation Committee may at any time amend, suspend, discontinue, or terminate the Amended and Restated Performance Incentive Plan; provided, however, that no such amendment, suspension, discontinuance or termination shall adversely affect any then existing rights of any participant in any respect of any performance year that has already begun.

The affirmative vote of a majority of the shares present in person or represented by proxy at the annual meeting and entitled to vote on the subject matter will be required for our stockholders to approve the Amended and Restated Performance Incentive Plan.

Federal Income Tax Consequences

The following is a summary of the material anticipated United States federal income tax consequences of the Amended and Restated Performance Incentive Plan to the participants and us. The summary is based on current federal income tax law, which is subject to change, and does not address state, local, or foreign tax consequences or considerations.

A participant will generally recognize ordinary income equal to the amount of the award, whether paid in cash and/or shares of common stock, at the time the award is received by the participant. Such income will be subject to applicable income and withholding tax by us. Any withholding of federal, state, or local taxes will be deducted from all awards paid in cash under the Amended and Restated Performance Incentive Plan. In the case of awards paid in shares of common stock, the participant receiving such common stock may be required to pay, prior to delivery of such common stock, the amount of any such taxes which are required to be withheld, if any, with respect to such common stock. Otherwise, shares of common stock of equivalent fair market value may be accepted for payment of such withholding tax obligations if the participant elects to make payment in such manner.

If, and to the extent that, award payments under the Amended and Restated Performance Incentive Plan satisfy the requirements of Section 162(m) of the Code and otherwise satisfy the requirements of deductibility under the federal income tax law, we will receive a deduction for the amount constituting ordinary income to the participant.

If an award is paid to a participant in shares of common stock, upon any transfer or sale of the common stock, the participant will recognize a short-term or long-term capital gain or loss, as the case may be, in an amount equal to the difference between the amount realized upon any sale of common stock and the participant's basis in the common stock (i.e., the amount of the award taxed to the participant as ordinary income upon receipt).

Common Stock Price

The last sale price of our common stock on December 31, 2012, as reported by the Nasdaq Global Select Market, was \$20.99 per share.

Future Award Payments. Future award grants under the Amended and Restated Performance Incentive Plan are at the discretion of the Compensation Committee. Because award payments under the Amended and Restated Performance Incentive Plan depend on future corporate performance and performance goals may vary from year to year, the actual amounts we will pay or the number of shares of stock that will be awarded under the plan for future years are not yet determinable. See “Compensation Discussion and Analysis - Performance Incentive Bonus” and the Summary Compensation Table for information regarding our recent practices with respect to the performance incentive bonuses.

PROPOSAL 8

RATIFICATION OF SELECTION OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

General

The Audit Committee of our Board of Directors has selected KPMG LLP (KPMG) as the independent registered public accounting firm to perform the audit of our consolidated financial statements for 2013. KPMG has been our independent registered public accounting firm since 2002.

Our Board of Directors is asking the stockholders to ratify the selection of KPMG as our independent registered public accounting firm for 2013. Although not required by law, Nasdaq's listing standards, or our bylaws, our Board of Directors is submitting the selection of KPMG to the stockholders for ratification as a matter of good corporate practice. Even if the selection is ratified, the Audit Committee, in its discretion, may select a different registered public accounting firm at any time during the year if it determines that such a change would be in the best interests of us and our stockholders.

Representatives of KPMG are expected to be present at the meeting. They will have an opportunity to make a statement if they desire and will be available to respond to appropriate questions from our stockholders.

Board of Directors' Recommendation

OUR BOARD OF DIRECTORS RECOMMENDS THAT YOU VOTE FOR THE RATIFICATION OF THE SELECTION OF KPMG AS OUR INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM FOR 2013.

Each proxy solicited on behalf of our Board of Directors will be voted FOR the ratification of the selection of KPMG as our independent registered public accounting firm for 2013 unless the stockholder instructs otherwise in the proxy. If the stockholders do not ratify the selection, the matter will be reconsidered by the Audit Committee and our Board of Directors.

Audit and Non-Audit Services

The Audit Committee is directly responsible for the appointment, compensation, and oversight of our independent auditor. In addition to retaining KPMG to audit our consolidated financial statements for 2012, the Audit Committee retained KPMG to provide other auditing and advisory services in 2012. The Audit Committee understands the need for KPMG to maintain objectivity and independence in its audits of our financial statements. The Audit Committee has reviewed all non-audit services provided by KPMG in 2012 and has concluded that the provision of such services was compatible with maintaining KPMG's independence in the conduct of its auditing functions.

To help ensure the independence of the independent auditor, the Audit Committee has adopted a policy for the pre-approval of all audit and non-audit services to be performed for us by our independent auditor. Pursuant to this policy, all audit and non-audit services to be performed by the independent auditor must be approved in advance by the Audit Committee. The Audit Committee may delegate to one or more of its members the authority to grant the required approvals, provided that any exercise of such authority is presented to the full Audit Committee at its next regularly scheduled meeting.

The table below sets forth the aggregate fees billed by KPMG for audit and non-audit services provided to us in 2012 and 2011.

Fees	2012	2011
Audit Fees	\$1,259,000	\$1,150,000
Audit-Related Fees	22,000	30,000
Tax Fees	264,000	124,000
All Other Fees	—	82,000
Total	\$1,545,000	\$1,386,000

In the above table, in accordance with the SEC's definitions and rules, "audit fees" are fees for professional services for the audit of a company's financial statements included in the annual report on Form 10-K, for the review of a company's financial statements included in the quarterly reports on Form 10-Q, and for services that are normally provided by the accountant in connection with statutory and regulatory filings or engagements; "audit-related fees" are

fees for assurance and related services that are reasonably related to the performance of the audit or review of a company's financial statements and are not included in "audit fees" and consisted of audits our benefit plan; "tax fees" are fees for tax compliance and consultation primarily related

58

to assistance with international tax compliance and tax audits; and “all other fees” are fees for any services not included in the first three categories, which includes fees for a risk management review and assessment.

Other Independence Measures

We have taken additional steps to ensure the independence of our independent auditor. The Audit Committee requires that the lead and concurring partners assigned to the audit of our consolidated financial statements be rotated off the independent auditor's audit engagement at least every five years. Our Board of Directors, upon the recommendation of the Audit Committee, also has adopted a policy restricting the hiring of employees or former employees of the independent auditor, who participated in any capacity in the audit of our consolidated financial statements.
