August 14, 2018

U.S. Securities and Exchange Commission
Washington, D.C. 20549
Form 10-Q

QUARTERLY REPORT UNDER SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended June 30, 2018

Commission File No. 1-15555

Tengasco, Inc.
(Exact name of registrant as specified in its charter)

Delaware 87-0267438
(State or other jurisdiction of incorporation or organization) (IRS Employer Identification No.)

8000 E. Maplewood Ave, Suite 130, Greenwood Village, CO 80111
(Address of principal executive offices)

720-420-4460
(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Exchange Act during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by checkmark whether the registrant has submitted electronically and posted on its corporate website, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company
(Do not check if a smaller reporting company)	Emerging growth company
	If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

Edgar Filing: TENGASCO INC - Form 10-Q

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date: 10,624,493 common shares at August 6, 2018.

Tengasco, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

(1) Description of Business and Significant Accounting Policies

Tengasco, Inc. (the “Company”) is a Delaware corporation. The Company is in the business of exploration for and production of oil and natural gas. The Company’s primary area of exploration and production is in Kansas.

The Company’s wholly-owned subsidiary, Tengasco Pipeline Corporation (“TPC”) owned and operated a pipeline which it constructed to transport natural gas from the Company’s Swan Creek Field to customers in Kingsport, Tennessee. The Company sold all its pipeline assets on August 16, 2013.

The Company’s wholly-owned subsidiary, Manufactured Methane Corporation (“MMC”) operated treatment and delivery facilities in Church Hill, Tennessee for the extraction of methane gas from a landfill for eventual sale as natural gas and for the generation of electricity. The Company sold all its methane facility assets, except the applicable U.S. patent, on January 26, 2018 for \$2.65 million. (See Note 11. Discontinued Operations)

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements as of June 30, 2018 and June 30, 2017 have been prepared in accordance with generally accepted accounting principles in the United States of America (“U.S. GAAP”) for interim financial information and with the instructions to Form 10-Q and Item 210 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. The condensed consolidated balance sheet as of December 31, 2017 is derived from the audited financial statements, but does not include all disclosures required by U.S. GAAP. The Company believes that the disclosures made are adequate to make the information not misleading. In the opinion of management, all adjustments (consisting of only normal recurring accruals) considered necessary for a fair presentation for the periods presented have been included as required by Regulation S-X, Rule 10-01. Operating results for the six months ended June 30, 2018 are not necessarily indicative of the results that may be expected for the year ended December 31, 2018. It is suggested that these condensed consolidated financial statements be read in conjunction with the Company’s consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended December 31, 2017.

Principles of Consolidation

The accompanying condensed consolidated financial statements include the accounts of the Company and its wholly-owned subsidiaries after elimination of all significant intercompany transactions and balances.

Use of Estimates

The accompanying condensed consolidated financial statements are prepared in conformity with U.S. GAAP which require management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the dates of the financial statements and the reported amounts of revenues and expenses during the reporting periods. Significant estimates include reserve quantities and estimated future cash flows associated with proved reserves, which significantly impact depletion expense and potential impairments of oil and natural gas properties, income taxes and the valuation of deferred tax assets, stock-based compensation and commitments and contingencies. We analyze our estimates based on historical experience and various other assumptions that we believe to be reasonable. While we believe that our estimates and assumptions used in preparation of the condensed consolidated financial statements are appropriate, actual results could differ from those estimates.

Revenue Recognition

Effective January 1, 2018, the Company adopted ASU 2014-09 Revenue from Contracts with Customers. The Company identifies the contracts with each of its customers and the separate performance obligations associated with each of these contracts. Revenues are recognized when the performance obligations are satisfied and when it transfers control of goods or services to customers at an amount that reflects the consideration to which it expects to be entitled in exchange for those goods or services.

Crude oil is sold on a month-to-month contract at a price based on an index price from the purchaser, net of differentials. Crude oil that is produced is stored in storage tanks. The Company will contact the purchaser and request them to pick up the crude oil from the storage tanks. When the purchaser picks up the crude from the storage tanks, control of the crude transfers to the purchaser, the Company's contractual obligation is satisfied, and revenues are recognized. The sales of oil represent the Company's share of revenues net of royalties and excluding revenue interests owned by others. When selling oil on behalf of royalty owners or working interest owners, the Company is acting as an agent and thus reports revenues on a net basis. Fees and other deductions incurred prior to transfer of control are recorded as production costs. Revenues are reported net of fees and other deductions incurred after transfer of control.

Table of Contents

Tengasco, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

Electricity from the Company's methane facility was sold on a long term contract. There were no specific volumes of electricity that were required to be delivered under this contract. Electricity passed through sales meters located at the Carter Valley landfill site, at which time control of the electricity transferred to the purchaser, the Company's contractual obligation was satisfied, and revenues were recognized. The Company sold its methane facility and generation assets on January 26, 2018 and therefore will not recognize revenues associated with any sales volumes after this date. Revenues associated with the methane facility are included in Discontinued Operations. (See Note 11. Discontinued Operations)

The Company operates certain salt water disposal wells, some of which accept water from third parties. The contracts with the third parties primarily require a flat monthly fee for the third parties to dispose water into the wells. In some cases, the contract is based on a per barrel charge to dispose water into the wells. There is no requirement under the contracts for these third parties to use these wells for their water disposal. If the third parties do dispose water into the Company operated wells in a given month, the Company has met its contractual obligations and revenues are recognized for that month.

The following table presents the disaggregated revenue by commodity for the three months and six months ended June 30, 2018 and 2017 (in thousands):

	Three Months Ended		Six Months Ended	
	June 30, 2018	June 30, 2017	June 30 2018	June 30, 2017
Revenues (in thousands):				
Crude oil	\$ 1,468	\$ 1,129	\$ 2,825	\$ 2,332
Salt water disposal fees	7	9	18	15
Total	\$ 1,475	\$ 1,138	\$ 2,843	\$ 2,347

There were no natural gas imbalances at June 30, 2018 or December 31, 2017.

Cash and Cash Equivalents

Cash and cash equivalents include temporary cash investments with a maturity of ninety days or less at date of purchase.

Inventory

Inventory consists of crude oil in tanks and is carried at lower of cost or market value. The cost component of the oil inventory is calculated using the average cost per barrel for the three months ended June 30, 2018 and December 31, 2017. These costs includes production costs and taxes, allocated general and administrative costs, depletion, and allocated interest cost. The market value component is calculated using the average June 2018 and December 2017 oil sales prices received from the Company's Kansas properties. In addition, the Company also carried equipment and materials to be used in its Kansas operation and is carried at the lower of cost or market value. The cost component of the equipment and materials inventory represents the original cost paid for the equipment and materials. The market component is based on estimated sales value for similar equipment and materials at the end of each period. At June 30, 2018 and December 31, 2017, inventory consisted of the following (in thousands):

June 30, December 31,

	2018	2017
Oil – carried at cost	\$ 497	\$ 436
Equipment and materials – carried at market	105	105
Total inventory	\$ 602	\$ 541

Full Cost Method of Accounting

The Company follows the full cost method of accounting for oil and gas property acquisition, exploration, and development activities. Under this method, all costs incurred in connection with acquisition, exploration, and development of oil and gas reserves are capitalized. Capitalized costs include lease acquisitions, seismic related costs, certain internal exploration costs, drilling, completion, and estimated asset retirement costs. The capitalized costs of oil and gas properties, plus estimated future development costs relating to proved reserves and estimated asset retirement costs which are not already included net of estimated salvage value, are amortized on the unit-of-production method based on total proved reserves. The Company has determined its reserves based upon reserve reports provided by LaRoche Petroleum Consultants Ltd. since 2009. The costs of unproved properties are excluded from amortization until the properties are evaluated, subject to an annual assessment of whether impairment has occurred. The Company had \$0 in unevaluated properties as of June 30, 2018 and December 31, 2017. Proceeds from the sale of oil and gas properties are accounted for as reductions to capitalized costs unless such sales cause a significant change in the relationship between costs and the estimated value of proved reserves, in which case a gain or loss is recognized.

Table of Contents

Tengasco, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

At the end of each reporting period, the Company performs a “ceiling test” on the value of the net capitalized cost of oil and gas properties. This test compares the net capitalized cost (capitalized cost of oil and gas properties, net of accumulated depreciation, depletion and amortization and related deferred income taxes) to the present value of estimated future net revenues from oil and gas properties using an average price (arithmetic average of the beginning of month prices for the prior 12 months) and current cost discounted at 10% plus cost of properties not being amortized and the lower of cost or estimated fair value of unproven properties included in the cost being amortized (ceiling). If the net capitalized cost is greater than the ceiling, a write-down or impairment is required. A write-down of the carrying value of the asset is a non-cash charge that reduces earnings in the current period. Once incurred, a write-down may not be reversed in a later period.

Accounts Receivable

Accounts receivable consist of uncollateralized joint interest owner obligations due within 30 days of the invoice date, uncollateralized accrued revenues due under normal trade terms, generally requiring payment within 30 days of sales of oil and gas production and within 60 days of sales of produced electricity, and other miscellaneous receivables. No interest is charged on past-due balances. Payments made on accounts receivable are applied first to the earliest unpaid items. We review accounts receivable periodically and reduce the carrying amount by a valuation allowance that reflects our best estimate of the amount that may not be collectible. An allowance was recorded at June 30, 2018 and December 31, 2017.

The following table sets forth information concerning the Company’s accounts receivable (in thousands):

	June 30, 2018	December 31, 2017
Revenue	\$ 523	\$ 479
Joint interest	20	23
Other	26	29
Allowance for doubtful accounts	(14)	(14)
Total accounts receivable	\$ 555	\$ 517

Reclassifications

Certain prior year amounts have been reclassified to conform to current year presentation with no effect on net income.

(2)Liquidity

The Company incurred a net loss of approximately \$574,000 in 2017. In January 2018, the Company sold its methane facility for \$2.65 million. During 2018, the Company believes its revenues as well as the proceeds received from the sale of the methane facility will be sufficient to fund operating and general and administrative expenses and to remain in compliance with its bank covenants. If revenues and the proceeds from the sale of the methane facility are not sufficient to fund these expenses or if the Company needs additional funds for capital spending, the Company could borrow funds against the credit facility as this facility currently has a \$2.0 million borrowing base with no funds currently drawn. In addition, if required, the Company could also issue additional shares of stock and/or sell assets as needed to further fund operations.

(3)Income Taxes

Income taxes are reported in accordance with U.S. GAAP, which requires the establishment of deferred tax accounts for all temporary differences between the financial reporting and tax bases of assets and liabilities, using currently enacted federal and state income tax rates. In addition, deferred tax accounts must be adjusted to reflect new rates if enacted into law.

The deferred income tax assets or liabilities for an oil and gas exploration and development company are dependent on many variables such as estimates of the economic lives of depleting oil and gas reserves and commodity prices. Accordingly, the asset or liability is subject to continuous recalculation, and revision of the numerous estimates required, and may change significantly in the event of occurrences such as major acquisitions, divestitures, commodity price changes, changes in reserve estimates, changes in reserve lives, and changes in tax rates or tax laws.

Table of Contents

Tengasco, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

At December 31, 2017, federal net operating loss carryforwards amounted to approximately \$30.2 million which expire between 2019 and 2036. The net total deferred tax asset was \$242,000 at June 30, 2018 and December 31, 2017. In 2017, The Company released a portion of the allowance related to the Company's Minimum Tax Credit ("MTC") as a result of the 2017 Tax Act. The Company recorded an allowance on the remaining deferred tax asset at June 30, 2018 and December 31, 2017 primarily due to cumulative losses incurred during the 3 years ended December 31, 2017. The Company expects to utilize its net operating losses and reduce its valuation allowance to offset taxable income resulting from the sale of the methane facility assets. There were no recorded unrecognized tax benefits at June 30, 2018.

(4)Capital Stock

Common Stock

There were no common shares issued during the three months ended June 30, 2018.

Rights Agreement

Effective March 17, 2017 the Board of Directors declared a dividend of one right (a "Right") for each of the Company's issued and outstanding shares of common stock, \$0.001 par value per share ("Common Stock"). The dividend was paid to the stockholders of record at the close of business on March 27, 2017 (the "Record Date"). Each Right entitles the registered holder, subject to the terms of the Rights Agreement dated as of March 16, 2017 (the "Rights Agreement") between the Company and the Rights Agent, Continental Stock Transfer & Trust Company, to purchase from the Company one one-thousandth of a share of the Company's Series A Preferred Stock at a price of \$1.10 (the "Exercise Price"), subject to certain adjustments.

The purpose of the Rights Agreement is to reduce the risk that the Company's ability to use its net operating losses to reduce potential future federal income tax obligations would be limited by reason of the Company's experiencing an "ownership change," as defined in Section 382 of the Internal Revenue Code. A company generally experiences an ownership change if the percentage of its stock owned by its "5-percent shareholders," as defined in Section 382 of the Tax Code, increases by more than 50 percentage points over a rolling three-year period. The Rights Agreement is designed to reduce the likelihood that the Company will experience an ownership change under Section 382 of the Tax Code by discouraging any person or group from becoming a 4.95% shareholder and also discouraging any existing 4.95% (or more) shareholder from acquiring additional shares of the Company's stock.

The Rights will not be exercisable until the "Distribution Date", which is generally defined as the earlier to occur of:(i) a public announcement or filing that a person or group has, become an "Acquiring Person" which is defined as a person or group of affiliated or associated persons or persons acting in concert who, at any time after the date of the Rights Agreement, have acquired, or obtained the right to acquire, beneficial ownership of 4.95% or more of the Company's outstanding shares of Common Stock; or a person or group currently owning 4.95% (or more) of the Company's outstanding shares acquires additional shares of the Company's stock; subject to certain exceptions; or (ii) the commencement of, or announcement of an intention to commence, a tender offer or exchange offer the consummation of which would result in any person becoming an Acquiring Person.

The Rights will expire prior to the earlier of March 16, 2020; or a date the Board of Directors determines by resolution in its business judgment that the Agreement is no longer necessary or appropriate; or in certain other specified circumstances.

At any time after any person or group of affiliated or associated persons becomes an Acquiring Person, the Board, at its option, may exchange each Right (other than Rights owned by such person or group of affiliated or associated persons which will have become void), in whole or in part, at an exchange ratio of two shares of Common Stock per outstanding Right (subject to adjustment).

For further information on the Rights Agreement, please refer to the Rights Agreement that was attached in full as an exhibit to the Company's Form 8-K filed with SEC on March 17, 2017.

Preferred Stock

Series A Preferred Stock has a par value of \$0.0001 and 10,000 shares have been designated. No shares of Series A Preferred Stock have been issued by the Company pursuant to the Rights Agreement described above or otherwise.

Tengasco, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

(5) Earnings per Common Share

We report basic earnings per common share, which excludes the effect of potentially dilutive securities, and diluted earnings per common share which include the effect of all potentially dilutive securities unless their impact is anti-dilutive. The following are reconciliations of the numerators and denominators of our basic and diluted earnings per share, (in thousands except for share and per share amounts):

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2018	2017	2018	2017
Income (numerator):				
Net income (loss) from continuing operations	\$ 99	\$ (230)	\$ 232	\$ (400)
Net income from discontinued operations	\$ 10	\$ 52	\$ 1,120	\$ 9
Weighted average shares (denominator):				
Weighted average shares – basic	10,624,493	10,608,792	10,624,468	9,536,420
Dilution effect of share-based compensation, treasury method	—	—	—	—
Weighted average shares – dilutive	10,624,493	10,608,792	10,624,468	9,536,420
Income (loss) per share – Basic and Dilutive:				
Continuing operations	\$ 0.01	\$ (0.02)	\$ 0.02	\$ (0.04)
Discontinued operations	\$ 0.00	\$ 0.00	\$ 0.11	\$ 0.00

Options issued to the Company's directors in which the exercise price was higher than the average market price each quarter were excluded from diluted shares.

(6) Recent Accounting Pronouncements

In February 2016, the FASB issued Update 2016-02 Leases (Topic 842). This guidance was issued to increase transparency and comparability among organizations by recognizing lease assets and lease liabilities on the balance sheet and disclosing key information about leasing arrangements. This guidance is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early application of the amendments in this Update is permitted for all entities. To date, the Company has identified each of its leases and is in the process of determining the impact of this new guidance on each of the identified leases. The Company does not expect this to impact its operating results or cash flows, however, the Company does expect to carry a portion of future lease costs as an asset and a liability on its balance sheet.

(7) Related Party Transactions

On September 17, 2007, Hoactzin Partners, L.P. ("Hoactzin") subscribed to a drilling program offered by the Company consisting of wells to be drilled on the Company's Kansas Properties (the "Program"). Peter E. Salas, the Chairman of the Board of Directors of the Company, is the controlling person of Hoactzin and of Dolphin Offshore Partners, L.P., the Company's largest shareholder.

On December 18, 2007, the Company entered into a Management Agreement with Hoactzin to manage on behalf of Hoactzin all of its working interest in certain oil and gas properties owned by Hoactzin and located in the onshore Texas Gulf Coast, and offshore Texas and offshore Louisiana. As part of the consideration for the Company's agreement to enter into the Management Agreement, Hoactzin granted to the Company an option to participate in up

to a 15% working interest on a dollar for dollar cost basis in any new drilling or workover activities undertaken on Hoactzin's managed properties during the term of the Management Agreement. The Management Agreement expired on December 18, 2012.

Table of Contents

Tengasco, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

The Company entered into a transition agreement with Hoactzin whereby the Company no longer performs operations, but administratively assists Hoactzin in becoming operator of record of these wells and transferring all bonds from the Company to Hoactzin. This assistance is primarily related to signing the necessary documents to effectuate this transition. Hoactzin and its controlling member are indemnifying the Company for any costs or liabilities incurred by the Company resulting from such assistance, or the fact that the Company is the listed operator of record on an expired lease owned by Hoactzin where a production platform remains located. The Company performs no operations on any property in the Gulf including that expired lease and platform, but regulations do not allow removal of the last listed operator on any expired lease. As of the date of this Report, the Company continues to administratively assist Hoactzin with this transition process.

As operator during the term of the Management Agreement that expired in 2012, the Company routinely contracted in its name for goods and services with vendors in connection with its operation of the Hoactzin properties. In practice, Hoactzin directly paid these invoices for goods and services that were contracted in the Company's name. As a result of the operations performed in late 2009 and early 2010, Hoactzin had significant past due balances to several vendors, a portion of which were included on the Company's balance sheet. Payables related to these past due and ongoing operations remained outstanding at June 30, 2018 and December 31, 2017 in the amount of \$159,000. The Company has recorded the Hoactzin-related payables and the corresponding receivable from Hoactzin as of June 30, 2018 and December 31, 2017 in its Consolidated Balance Sheets under "Accounts payable – other" and "Accounts receivable – related party". The outstanding balance of \$159,000 should not increase in the future. However, Hoactzin has not made payments to reduce the \$159,000 of past due balances from 2009 and 2010 since the second quarter of 2012. Based on these circumstances, the Company has elected to record an allowance in the amount of \$159,000 for the balances outstanding at June 30, 2018 and December 31, 2017. This allowance was recorded in the Company's Consolidated Balance Sheets under "Accounts receivable – related party". The resulting balances recorded in the Company's Consolidated Balance Sheets under "Accounts receivable – related party, less allowance for doubtful accounts of \$159" are \$0 at June 30, 2018 and December 31, 2017.

(8) Oil and Gas Properties

The following table sets forth information concerning the Company's oil and gas properties (in thousands):

	June 30, 2018	December 31, 2017
Oil and gas properties	\$ 5,957	\$ 5,704
Unevaluated properties	—	—
Accumulated depreciation, depletion and amortization	(1,340)	(984)
Oil and gas properties, net	\$ 4,617	\$ 4,720

The Company recorded depletion expense of \$348,000 and \$414,000 for the six months ended June 30, 2018 and 2017, respectively. During the six months ended June 30, 2018 and 2017, the Company also recorded in "Accumulated depreciation, depletion, and amortization" a \$8,000 gain on asset retirement obligations and a \$2,000 gain on asset retirement obligations, respectively.

(9) Asset Retirement Obligation

Our asset retirement obligations represent the estimated present value of the amount we will incur to plug, abandon, and remediate our producing properties at the end of their productive lives in accordance with applicable laws. The following table summarizes the Company's Asset Retirement Obligation transactions for the six months ended June

30, 2018 (in thousands):

Balance December 31, 2017	\$2,270
Accretion expense	71
Liabilities incurred	—
Liabilities settled	(13)
Balance June 30, 2018	\$2,328

(10) Long-Term Debt

Long-term debt to unrelated entities consisted of the following (in thousands):

	June 30, 2018	December 31, 2017
Note payable to a financial institution, with interest only payment until maturity.	\$ —	\$ —
Installment notes bearing interest at the rate of 4.16% to 4.60% per annum collateralized by vehicles with monthly payments including interest, insurance and maintenance of approximately \$10	169	90
Total long-term debt	169	90
Less current maturities	(61)	(41)
Long-term debt, less current maturities	\$ 108	\$ 49

At June 30, 2018, the Company had a revolving credit facility with Prosperity Bank. This has historically been the Company's primary source to fund working capital and future capital spending. Under the credit facility, loans and letters of credit are available to the Company on a revolving basis in an amount outstanding not to exceed the lesser of \$50 million or the Company's borrowing base in effect from time to time. As of June 30, 2018, the Company's borrowing base was \$2 million. The credit facility is secured by substantially all of the Company's producing and non-producing oil and gas properties. The credit facility includes certain covenants with which the Company is required to comply. At June 30, 2018, these covenants include the following: (a) Current Ratio > 1:1; (b) Funded Debt to EBITDA < 3.5x; and (c) Interest Coverage > 3.0x. At June 30, 2018, the interest rate on this credit facility was 5.50%. The Company was in compliance with all covenants during the quarter ended June 30, 2018.

On March 21, 2018, the Company's senior credit facility with Prosperity Bank after Prosperity Bank's most recent review of the Company's currently owned producing properties was amended to increase the borrowing base to \$2 million and the maturity date was extended to July 31, 2020. The borrowing base remains subject to the existing periodic redetermination provisions in the credit facility. The interest rate remained prime plus 0.50% per annum. This rate was 5.00% at the date of the amendment. The maximum line of credit of the Company under the Prosperity Bank credit facility remained \$50 million and the Company had no outstanding borrowing under the facility as of June 30, 2018. The next borrowing base review will take place in August 2018.

Accrued and other current liabilities	22	16
Discontinued operations included in current liabilities	\$ 22	\$ 43

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2018	2017	2018	2017
Revenues	\$ —	\$ 180	\$ 6	\$ 315
Production costs and taxes	10	(112)	(40)	(275)
Depreciation, depletion, and amortization	—	(16)	(4)	(31)
Interest income	—	—	1	—
Gain on sale of assets	—	—	1,157	—
Deferred income tax benefit	—	—	—	—
Net income (loss) from discontinued operations	\$ 10	\$ 52	\$ 1,120	\$ 9

The Discontinued Operations are related to the Manufactured Methane facilities. The Company sold all its methane facility assets, except the applicable U.S. patent, on January 26, 2018 for \$2.65 million.

(12) Fair Value Measurements

FASB ASC 820, "Fair Value Measurements and Disclosures", establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Table of Contents

Tengasco, Inc. and Subsidiaries

Notes to Unaudited Condensed Consolidated Financial Statements

Level 1 – Observable inputs, such as unadjusted quoted prices in active markets, for substantially identical assets and liabilities.

Level 2 – Observable inputs other than quoted prices within Level 1 for similar assets and liabilities. These include quoted prices for similar assets and liabilities in active markets, quoted prices for identical assets and liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data. If the asset or liability has a specified or contractual term, the input must be observable for substantially the full term of the asset or liability.

Level 3 – Unobservable inputs that are supported by little or no market activity, generally requiring a significant amount of judgment by management. The assets or liabilities fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Further, although the Company believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Upon completion of wells, the Company records an asset retirement obligation at fair value using Level 3 assumptions.

Nonfinancial assets and liabilities are measured at fair value on a nonrecurring basis upon impairment. The carrying amounts of other financial instruments including cash and cash equivalents, accounts receivable, account payables, accrued liabilities and long term debt in our balance sheet approximates fair value as of March 31, 2018 and December 31, 2017.

(13) Commitments and Contingencies

The Company as designated operator of the Hoactzin properties was administratively issued an “Incident of Non-Compliance” by the Bureau of Safety and Environmental Enforcement (“BSEE”) during the quarter ended September 30, 2012 concerning one of Hoactzin’s operated properties. This action called for payment of a civil penalty of \$386,000 for failure to provide, upon request, documentation to the BSEE evidencing that certain safety inspections and tests had been conducted in 2011. On July 14, 2015, the federal district court in the Eastern District of Louisiana affirmed the civil penalty without reduction. The Company did not further appeal. In the third quarter of 2015, the Company paid the civil penalty and statutory interest thereon from funds borrowed under its credit facility. In the fourth quarter of 2015, the Company received a return of the cash collateral previously provided to RLI Insurance Company. The Company has not advanced any funds to pay any obligations of Hoactzin and no borrowing capability of the Company has been used in connection with its obligations under the Management Agreement, except for those funds used to pay the civil penalty and interest thereon.

During the second quarter of 2015, the Company received from Hoactzin a copy of an internal analysis prepared by Hoactzin setting out certain issues that Hoactzin may consider to form the basis of operational and other claims against the Company primarily under the Management Agreement. This analysis raised issues other than the “Incident of Non-Compliance” discussed above. The Company is discussing this analysis, as well as the civil penalty discussed above, with Hoactzin in an effort to determine whether there is possibility of a reasonable resolution of some or all of these matters on a negotiated basis.

In the normal course of business, the Company enters into commitments to spend capital on oil and gas properties. Since June 30, 2018, the Company has entered into a drilling commitment in the amount of approximately \$280,000. The work associated with this commitment is anticipated to start in August 2018.

Cost Reduction Measures

Commencing in the quarter ended March 31, 2015 and continuing through the quarter ended March 31, 2018, the Company implemented cost reduction measures including compensation reductions for each employee as well as members of the Board of Directors. These compensation reductions were to remain in place until such time, if any, that the market price of crude oil, calculated as a thirty day trailing average of WTI postings as published by the U.S. Energy Information Administration meets or exceeds \$70 per barrel. In May 2018, oil prices as so calculated exceeded \$70 and compensation reverted to the levels in place before the reductions became effective. At such time, if any, that the market price of crude oil, calculated as a thirty day trailing average of WTI postings as published by the U.S. Energy Information Administration meets or exceeds \$85 per barrel, all previous reductions made will be reimbursed, a portion which may be paid in stock, to each employee and members of the Board of Directors if is still employed by the Company or still a member of the Board of Directors. For the period January 1, 2015 through June 30, 2018, the reductions were approximately \$451,000. The Company has not accrued any liabilities associated with these compensation reductions.

Legal Proceedings

The Company is not a party to any pending material legal proceeding. To the knowledge of management, no federal, state, or local governmental agency is presently contemplating any proceeding against the Company which would have a result materially adverse to the Company. To the knowledge of management, no director, executive officer or affiliate of the Company or owner of record or beneficially of more than 5% of the Company's common stock is a party adverse to the Company or has a material interest adverse to the Company in any proceeding.

Table of Contents

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
2. OPERATIONS

Results of Operations and Financial Condition

During the first six months of 2018, 61.6 MBbl gross of oil were sold from the Company's properties. Of the 61.6 MBbl sold, 47.4 MBbl were net to the Company after required payments to all of the royalty interests and drilling program participants. The Company's net sales from its properties during the first six months of 2018 of 47.4 MBbl of oil compares to net sales of 52.3 MBbl of oil during the first six months of 2017. The Company's net revenue from its oil and gas properties was \$2.8 million during the first six months of 2018 compared to \$2.3 million during the first six months of 2017. This increase in net revenue was primarily due to a \$714,000 increase related to an \$15.06 per barrel increase in the average oil price from \$44.55 per barrel during the first six months of 2017 to \$59.61 per barrel during the first six months of 2018, partially offset by a \$220,000 decrease related to the 4.9 MBbl decrease in sales volumes. The 4.9 MBbl decrease was primarily due to natural declines on the Albers, Coddington, Howard A, McElhany A, Riffe, and Veverka B, C, and D leases.

Comparison of the Quarters Ended June 30, 2018 and 2017

The Company reported a net income from continuing operations of \$99,000 or \$0.01 per share of common stock during the second quarter of 2018 compared to a net loss from continuing operations of \$230,000 or \$0.02 per share of common stock during the second quarter of 2017. The \$329,000 increase in net income was primarily due to a \$337,000 increase in revenues, and a \$30,000 decrease in DD&A, partially offset by a \$30,000 increase in production cost and taxes, and a \$14,000 increase in general and administrative expense.

The Company recognized \$1.5 million in revenues during the second quarter of 2018 compared to \$1.1 million during the second quarter of 2017. The \$337,000 increase in net revenue was primarily due to a \$452,000 increase related to a \$19.04 per barrel increase in the average oil price from \$42.82 per barrel during the second quarter of 2017 to \$61.86 per barrel during the second quarter of 2018, partially offset by a \$113,000 decrease related to the 2.6 MBbl decrease in sales volumes. The 2.6 MBbl decrease was primarily due to natural declines and timing of crude pickup by the refineries.

Production cost and taxes increased \$30,000 from \$880,000 during the second quarter of 2017 to \$910,000 during the second quarter of 2018. This increase was primarily related to a \$38,000 increase in well and equipment repair costs, and a \$31,000 increase in franchise tax costs, partially offset by a \$33,000 decrease due to a change in the quarterly oil inventory adjustment.

DD&A decreased \$30,000 from \$226,000 during the second quarter of 2017 to \$196,000 during the second quarter of 2018. This decrease was primarily due to a \$15,000 decrease related to a 2.6 MBbl decrease in oil sales volumes, and a \$12,000 decrease related to a lower oil depletion rate.

General and administrative costs increased \$14,000 from \$258,000 during the second quarter of 2017 to \$272,000 during the second quarter of 2018. This increase was primarily related to an increase in legal and accounting costs.

Comparison of the Six Months Ended June 30, 2018 and 2017

The Company reported a net income from continuing operations of \$232,000 or \$0.02 per share of common stock during the first six months of 2018 compared to a net loss from continuing operations of \$400,000 or \$0.04 per share of common stock during the first six months of 2017. The \$632,000 increase in net income was primarily due to a \$496,000 increase in revenues, a \$69,000 decrease in DD&A, a \$47,000 decrease in production cost and taxes, a \$19,000 increase on gain from asset sales, a \$17,000 decrease in interest expense, partially offset by a \$16,000

increase in general and administrative costs.

The Company recognized \$2.8 million in revenues during the first six months of 2018 compared to \$2.3 million during the first six months of 2017. The revenue increase from 2017 levels was primarily due to a \$714,000 increase related to a \$15.06 per barrel increase in the average oil price from an average price of \$44.55 per barrel during the first six months of 2017 compared to an average price of \$59.61 per barrel during the first six months of 2018, partially offset by a \$220,000 decrease related to 4.9 MBbl decrease in sales volumes, primarily due to natural declines on the Albers, Coddington, Howard A, McElhany A, Riffe, and Veverka B, C, and D leases.

Production costs and taxes decreased \$47,000 from \$1.7 million during the first six months of 2017 to \$1.6 million during the first six months of 2018. This decrease was primarily due to a \$178,000 change in the oil inventory adjustment, partially offset by a \$71,000 increase in well and equipment repair costs, and a \$42,000 increase in franchise tax costs.

Table of Contents

DD&A decreased \$69,000 from \$448,000 during the first six months of 2017 to \$379,000 during the first six months of 2018. This decrease was primarily due to a \$39,000 decrease related to a 4.9 MBbl decrease in oil sales volumes, and a \$26,000 decrease related to a lower oil depletion rate.

General and administrative costs increased \$16,000 from \$592,000 during the first six months of 2017 to \$608,000 during the first six months of 2018. This increase was primarily due to an increase in legal and accounting cost.

Liquidity and Capital Resources

At June 30, 2018, the Company had a revolving credit facility with Prosperity Bank. This has historically been the Company's primary source to fund working capital and future capital spending. Under the credit facility, loans and letters of credit are available to the Company on a revolving basis in an amount outstanding not to exceed the lesser of \$50 million or the Company's borrowing base in effect from time to time. As of June 30, 2018, the Company's borrowing base was \$2 million. The credit facility is secured by substantially all of the Company's producing and non-producing oil and gas properties. The credit facility includes certain covenants with which the Company is required to comply. At June 30, 2018, these covenants include the following: (a) Current Ratio > 1:1; (b) Funded Debt to EBITDA < 3.5x; and (c) Interest Coverage > 3.0x. At June 30, 2018, the interest rate on this credit facility was 5.50%. The Company was in compliance with all covenants during the quarter ended June 30, 2018.

On March 21, 2018, the Company's senior credit facility with Prosperity Bank after Prosperity Bank's most recent review of the Company's currently owned producing properties was amended to increase the borrowing base to \$2 million and the maturity date was extended to July 31, 2020. The borrowing base remains subject to the existing periodic redetermination provisions in the credit facility. The interest rate remained prime plus 0.50% per annum. This rate was 5.00% at the date of the amendment. The maximum line of credit of the Company under the Prosperity Bank credit facility remained \$50 million and the Company had no outstanding borrowing under the facility as of June 30, 2018. The next borrowing base review will take place in August 2018.

The Company incurred a net loss of approximately \$574,000 in 2017. In January 2018, the Company sold its methane facility for \$2.65 million. During 2018, the Company believes its revenues as well as the proceeds received from the sale of the methane facility will be sufficient to fund operating and general and administrative expenses and to remain in compliance with its bank covenants. If revenues and the proceeds from the sale of the methane facility are not sufficient to fund these expenses or if the Company needs additional funds for capital spending, the Company could borrow funds against the credit facility as this facility currently has a \$2.0 million borrowing base with no funds currently drawn. In addition, if required, the Company could also issue additional shares of stock and/or sell assets as needed to further fund operations.

Net cash provided by operating activities from continuing operations was \$479,000 during the first six months of 2018 compared to \$144,000 provided by operating activities from continuing operations during the first six months of 2017. Cash flow used in working capital was \$185,000 during the first six months of 2018 compared to \$32,000 provided by working capital during the first six months of 2017. The \$217,000 increase in cash flow used in working capital was primarily due to changes in inventory and changes in accounts receivable, partially offset by changes in accounts payable and accrued liabilities. Net cash used in investing activities from continuing operations was \$122,000 during the first six months of 2018 compared to \$134,000 used in investing activities from continuing operations during the first six months of 2017. Cash flow used in financing activities from continuing operations during the first six months of 2018 was \$24,000 compared to \$169,000 provided by financing activities during the first six months of 2017. During the first six months of 2017, the Company raised approximately \$2.7 million in proceeds as a result of a rights offering which closed on February 2, 2017. The direct costs associated with this rights offering was approximately \$242,000, of which \$140,000 was incurred during 2016. The net proceeds from this offering were used primarily to pay off the Company's credit facility.

Critical Accounting Policies

Effective January 1, 2018, the Company adopted ASU 2014-09 Revenue from Contracts with Customers.

Commitments and Contingencies

The Company as designated operator of the Hoactzin properties was administratively issued an “Incident of Non-Compliance” by the Bureau of Safety and Environmental Enforcement (“BSEE”) during the quarter ended September 30, 2012 concerning one of Hoactzin’s operated properties. This action called for payment of a civil penalty of \$386,000 for failure to provide, upon request, documentation to the BSEE evidencing that certain safety inspections and tests had been conducted in 2011. On July 14, 2015, the federal district court in the Eastern District of Louisiana affirmed the civil penalty without reduction. The Company did not further appeal. In the third quarter of 2015, the Company paid the civil penalty and statutory interest thereon from funds borrowed under its credit facility. In the fourth quarter of 2015, the Company received a return of the cash collateral previously provided to RLI Insurance Company. The Company has not advanced any funds to pay any obligations of Hoactzin and no borrowing capability of the Company has been used in connection with its obligations under the Management Agreement, except for those funds used to pay the civil penalty and interest thereon.

Table of Contents

During the second quarter of 2015, the Company received from Hoactzin a copy of an internal analysis prepared by Hoactzin setting out certain issues that Hoactzin may consider to form the basis of operational and other claims against the Company primarily under the Management Agreement. This analysis raised issues other than the “Incident of Non-Compliance” discussed above. The Company is discussing this analysis, as well as the civil penalty discussed above, with Hoactzin in an effort to determine whether there is possibility of a reasonable resolution of some or all of these matters on a negotiated basis.

In the normal course of business, the Company enters into commitments to spend capital on oil and gas properties. Since June 30, 2018, the Company has entered into a drilling commitment in the amount of approximately \$280,000. The work associated with this commitment is anticipated to start in August 2018.

Cost Reduction Measures

Commencing in the quarter ended March 31, 2015 and continuing through the quarter ended March 31, 2018, the Company implemented cost reduction measures including compensation reductions for each employee as well as members of the Board of Directors. These compensation reductions were to remain in place until such time, if any, that the market price of crude oil, calculated as a thirty day trailing average of WTI postings as published by the U.S. Energy Information Administration meets or exceeds \$70 per barrel. In May 2018, oil prices as so calculated exceeded \$70 and compensation reverted to the levels in place before the reductions became effective. At such time, if any, that the market price of crude oil, calculated as a thirty day trailing average of WTI postings as published by the U.S. Energy Information Administration meets or exceeds \$85 per barrel, all previous reductions made will be reimbursed, a portion which may be paid in stock, to each employee and members of the Board of Directors if is still employed by the Company or still a member of the Board of Directors. For the period January 1, 2015 through June 30, 2018, the reductions were approximately \$451,000. The Company has not accrued any liabilities associated with these compensation reductions.

Legal Proceedings

The Company is not a party to any pending material legal proceeding. To the knowledge of management, no federal, state, or local governmental agency is presently contemplating any proceeding against the Company which would have a result materially adverse to the Company. To the knowledge of management, no director, executive officer or affiliate of the Company or owner of record or beneficially of more than 5% of the Company’s common stock is a party adverse to the Company or has a material interest adverse to the Company in any proceeding.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The Company’s Borrowing Base under its Credit Facility may be reduced by the lender.

The borrowing base under the Company’s revolving credit facility will be determined from time to time by the lender, consistent with its customary natural gas and crude oil lending practices. Reductions in estimates of the Company’s natural gas and crude oil reserves could result in a reduction in the Company’s borrowing base, which would reduce the amount of financial resources available under the Company’s revolving credit facility to meet its capital requirements. Such a reduction could be the result of lower commodity prices or production, inability to drill or unfavorable drilling results, changes in natural gas and crude oil reserve engineering, the lender’s inability to agree to an adequate borrowing base or adverse changes in the lenders’ practices regarding estimation of reserves. If cash flow from operations or the Company’s borrowing base decreases for any reason, the Company’s ability to undertake exploration and development activities could be adversely affected. As a result, the Company’s ability to replace naturally declining production may be limited. In addition, if the borrowing base is reduced, the Company may be required to pay down its borrowings under the revolving credit facility so that outstanding borrowings do not exceed the reduced borrowing base. This requirement could further reduce the cash available to the Company for capital

spending and, if the Company did not have sufficient capital to reduce its borrowing level, could cause the Company to default under its revolving credit facility.

As of June 30, 2018, the Company's borrowing base was approximately \$2 million of which zero had been drawn down by the Company. The Company's next periodic borrowing base review will take place in August 2018.

Commodity Risk

The Company's major market risk exposure is in the pricing applicable to its oil production. Realized pricing is primarily driven by the prevailing worldwide price for crude oil. Historically, prices received for oil and gas production have been volatile and unpredictable and price volatility is expected to continue. The average monthly Kansas oil prices received during the first six months of 2018 ranged from a low of \$56.66 per barrel to a high of \$64.04 per barrel.

As of June 30, 2018, the Company has no open positions related to derivative agreements relating to commodities.

Table of Contents

Interest Rate Risk

At June 30, 2018, the Company had debt outstanding of approximately \$169,000, none of which was owed on its credit facility with Prosperity Bank. As of June 30, 2018, the interest rate on the credit facility was variable at a rate equal to prime plus 0.50% per annum. The Company's credit facility interest rate at June 30, 2018 was 5.50%. The Company's remaining debt of \$169,000 has fixed interest rates ranging from 4.16% to 4.60%.

The annual impact on interest expense and the Company's cash flows of a 10% increase in the interest rate on the credit facility would be approximately zero assuming borrowed amounts under the credit facility remained at the same amount owed as of June 30, 2018. The Company did not have any open derivative contracts relating to interest rates at June 30, 2018 or December 31, 2017.

Forward-Looking Statements and Risk

Certain statements in this report, including statements of the future plans, objectives, and expected performance of the Company, are forward-looking statements that are dependent upon certain events, risks and uncertainties that may be outside the Company's control, and which could cause actual results to differ materially from those anticipated. Some of these include, but are not limited to, the market prices of oil and gas, economic and competitive conditions, inflation rates, legislative and regulatory changes, financial market conditions, political and economic uncertainties of foreign governments, future business decisions, and other uncertainties, all of which are difficult to predict.

There are numerous uncertainties inherent in projecting future rates of production and the timing of development expenditures. The total amount or timing of actual future production may vary significantly from estimates. The drilling of exploratory wells can involve significant risks, including those related to timing, success rates and cost overruns. Lease and rig availability, complex geology and other factors can also affect these risks. Additionally, fluctuations in oil and gas prices, or a prolonged period of low prices, may substantially adversely affect the Company's financial position, results of operations, and cash flows.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

The Company's Chief Executive Officer and Chief Financial Officer has evaluated the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)). Based on such evaluation, the Company's Chief Executive Officer and Chief Financial Officer has concluded that the Company's disclosure controls and procedures, as of the end of the period covered by this Report, were adequate and effective to provide reasonable assurance that information required to be disclosed by the Company in reports that it files or submits under the Exchange Act, is recorded, processed, summarized and reported, within the time periods specified in the SEC's rules and forms. The effectiveness of a system of disclosure controls and procedures is subject to various inherent limitations, including cost limitations, judgments used in decision making, assumptions about the likelihood of future events, the soundness of internal controls, and fraud. Due to such inherent limitations, there can be no assurance that any system of disclosure controls and procedures will be successful in preventing all errors or fraud, or in making all material information known in a timely manner to the appropriate levels of management.

Changes in Internal Controls

During the six months ended June 30, 2018, there have been no changes to the Company's system of internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, the Company's system of controls over financial reporting. As part of a continuing effort to improve the Company's business processes, management is evaluating its internal controls and may update certain controls to accommodate any modifications to its business processes or accounting procedures.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

None.

ITEM 1A. RISK FACTORS
