(b) Pro forma financial information.

The unaudited pro forma financial statements set forth:

- the Pro Forma Condensed Consolidated Balance Sheet (unaudited) as of December 31, 2006;
- the Pro Forma Condensed Consolidated Statement of Operations (unaudited) for the year ended December 31, 2006; and
- the notes to Pro Forma Condensed Consolidated Financial Statements (unaudited).

The unaudited pro forma condensed consolidated balance sheet of the Company as of December 31, 2006 assumes the Company's acquisition of the EntreCap Portfolio was consummated on December 31, 2006. The unaudited pro forma condensed consolidated statements of operations for the year ended December 31, 2006 assume the Company's acquisition of the EntreCap Portfolio occurred on January 1, 2006. The pro forma condensed consolidated financial statements do not purport to represent what our financial position or results of operations would have been if the acquisitions had been consummated as of the dates indicated, nor do they purport to project our financial position or results of operations at any future date or for any future period. These pro forma condensed consolidated financial statements should be read in conjunction with our 2006 historical financial statements as included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2006.

The pro forma financial statements are based upon assumptions contained in the notes thereto and should be read in conjunction with such notes.

Notes to Pro Forma Condensed Consolidated Financial Statements
(Unaudited)

1. Basis of Presentation

The accompanying unaudited pro forma condensed consolidated financial statements are presented to reflect the acquisition by the Company of the EntreCap Portfolio.

The accompanying unaudited pro forma condensed consolidated balance sheet presents the historical financial information of the Company as of December 31, 2006 as adjusted for the acquisition of the EntreCap Portfolio as if the transaction had occurred on December 31, 2006.

The accompanying unaudited pro forma condensed consolidated income statement for the year ended December 31, 2006 combines the historical operations of the Company with the expected operations of the EntreCap Portfolio as if the transaction had occurred on January 1, 2006.

2. Pro Forma Adjustments

The unaudited pro forma condensed consolidated financial statements reflect the following significant pro forma adjustments:

- (a) Adjustment to reflect the Company's purchase of the EntreCap Portfolio, for a purchase price of \$364.4 million. The Company has allocated the purchase price to buildings and improvements in the accompanying pro forma consolidated balance sheet. The Company is in the process of determining if any intangible assets were acquired which may result in future adjustments to the allocation of the purchase price. See Note 2(d). The Company's final purchase price allocation will also include defeasance costs related to the prepayment of assumed debt and transaction costs related to the portfolio acquisition.
- (b) Adjustment to reflect mortgage debt assumed and short-term borrowings incurred in connection with the Company's acquisition of the EntreCap Portfolio. Upon closing of the acquisition, the Company assumed an aggregate of \$159.3 million of mortgage debt and borrowed an aggregate of \$210.3 million pursuant to a short-term credit agreement with Wachovia Bank, N.A. (the "Bridge Facility"). The Bridge Facility has a 90 day term, subject to the Company's right to extend the term for an additional 45 days upon satisfaction of certain conditions.

For purposes of the pro forma Income Statement, the Company has assumed that the Bridge Facility will be repaid in full on the initial 90-day maturity date. The Company has used an interest rate of 7.82% on the Bridge Facility borrowings during the 90-day period such borrowings are outstanding, which is the Company's current borrowing rate under the Bridge Facility.

The Company intends to refinance substantially all of the mortgage debt it assumed on the EntreCap Portfolio within a few months of the acquisition date. Therefore, for purposes of the pro forma Income Statement, the Company has also assumed that it will borrow an aggregate on \$209.6 million in connection with refinancing the debt it assumed, and it will leave in place an aggregate of \$31.2 million of assumed mortgage debt. The Company has used an interest rate of 5.77% on the \$209.6 million of new debt, which is the Company's best current estimate of its borrowing cost on long-term mortgage debt. The Company has used its actual interest rate on the assumed debt that will remain in place, or \$18.4 million at 9.8%, and \$12.8 million at 10.76%.

For purposes of the pro forma Income Statement, the Company has also assumed that it will finance the balance of the purchase price for the EntreCap Portfolio upon repayment of the Bridge Facility, with short-term borrowings of \$139.9 million. The Company has used an interest rate of 6.27% on these borrowings, which is the Company's current estimate of its borrowing cost on short-term secured debt.

In the event of a 1/8 percent change in the Company's interest rate on all variable rate debt, total interest expense for the year would increase or decrease approximately \$197,000.

- (c) Adjustment to reflect other amounts paid in connection with the acquisition of the EntreCap Portfolio and the closing of the related Bridge Facility. The amounts include \$4.9 million of transaction related expenses, \$4.3 million of interest reserve funded on the Bridge Facility, and \$1.0 million of debt defeasance costs. The Company expects a portion of the transaction expenses to be reclassified to "Real estate investments, net" on its Balance Sheet, when the Company's purchase price allocation is finalized.
 - (d) Adjustment required for the estimated rental revenues for the EntreCap Portfolio. Rental income is recognized on a straight-line basis. The Company intends to account for the acquisition in accordance with Statements of Financial Accounting Standards No. 141, "Business Combinations," and No. 142, "Goodwill and Other Intangibles," and is currently in the process of analyzing the fair value of the acquired property's in-place leases. No value has yet been assigned to the leases and, therefore, the purchase price allocation is preliminary and subject to change.
 - (e) Adjustment for \$2.6 million of fees paid to Wachovia Bank, N.A. pursuant to the Bridge Facility.
 - (f) Adjustment required to reflect depreciation on the EntreCap Portfolio, based on the total allocated cost of the acquisition to depreciable assets. For GAAP purposes, the Company depreciates the properties using the straight-line method with an estimated useful life of 40 years. As discussed in Notes 2(a) and 2(d), the Company has not finalized the allocation of the purchase price. Any change to the allocation may result in changes to depreciation.
