REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Plan Administrator and Trustee of the
MSC Industrial Direct 401(k) Plan

We have audited the accompanying statements of net assets available for benefits of the MSC Industrial Direct 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statement of changes in net assets available for benefits for the year ended December 31, 2009. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan's internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2009 and 2008, and the changes in its net assets available for benefits for the year ended December 31, 2009, in conformity with US generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets held at end of year as of December 31, 2009, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. This supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

MSC INDUSTRIAL DIRECT 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
 DECEMBER 31, 2009

1. DESCRIPTION OF PLAN

The following description of the MSC Industrial Direct 401(k) Plan, as amended (the “Plan”) provides only general information. Participants should refer to the plan document for a more complete description of the Plan’s provisions.

General

The Plan is a defined contribution plan, covering all Employees (as defined in the Plan) of participating employers (other than Employees who are non-resident aliens with no earned income from a participating employer which constitutes income from services within the United States and Employees covered by a collective bargaining agreement) who meet certain age and service requirements of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). MSC Industrial Direct Co., Inc. (the “Company”) is responsible for the administration of the Plan. T. Rowe Price Trust Company is the Plan Trustee and T. Rowe Price Retirement Plan Services, Inc. is the recordkeeper for the Plan.

Eligibility

An Employee is eligible for participation in the Plan on the first day of the month following one full calendar month of service, or anytime thereafter, and must be at least eighteen years of age. Both full-time and part-time employees are eligible to join the Plan.

Contributions and Vesting

Participants may elect to contribute between 1% and 40% of their annual compensation, as defined in the Plan. The maximum annual contribution a participant could make into the Plan, as established by the Internal Revenue Code of 1986, as amended (the “Code”), was \$16,500 (\$22,000 for participants eligible to make catch-up contributions) during 2009. Participants may also contribute amounts representing distributions from other qualifying plans. Participants are immediately vested in their pre-tax and rollover contributions.

The Employer (as defined in the Plan) may make a discretionary matching contribution to eligible participants. The Employer determined to make, for 2009 (through March 29, 2009) and 2008, a discretionary matching contribution of 50% of the first 6% of a participant’s pre-tax contribution. The Employer may also make a discretionary profit sharing contribution to eligible participants to be allocated in the same ratio as each eligible participant’s compensation bears to the total of such compensation of all eligible participants. No discretionary profit sharing contributions were made in 2009 or 2008. In general, participants must have completed 1,000 hours of service during a calendar year and be employed on the last day of the Plan year to be eligible to share in the allocation of any profit sharing employer contributions. Participants vest in Employer contributions as follows:

Completed Years of Service	Vested Percentage
Less than 2	0%
2 but less than 3	20%

Edgar Filing: MSC INDUSTRIAL DIRECT CO INC - Form 11-K

3 but less than 4	40%
4 but less than 5	60%
5 but less than 6	80%
6 or more	100%

In addition, 100% vesting occurs upon termination of the Plan.

In 2009, the Employer's discretionary matching contributions were \$975,958. This includes the application of forfeitures accumulated in 2009 and previous Plan years of \$8,464. Effective March 29, 2009, the Company suspended the Employer matching contribution. Employer matching contributions made prior to March 29, 2009 will continue to vest according to the above schedule. Effective May 23, 2010, the Company reinstated the Employer discretionary matching contribution to eligible participants.

PLAN NUMBER: 003
EIN: 13-5526506

MSC INDUSTRIAL DIRECT 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 (continued)

Participant Accounts

Individual accounts are maintained for each participant in the Plan. Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contributions and (b) earnings and losses from applicable investment performance, and, if not paid by the Employer, administrative expenses.

Forfeited Accounts

Forfeited balances of terminated participants' non-vested employer contributions are used to pay administrative expenses of the Plan or to reduce future employer discretionary matching contributions and future employer discretionary profit sharing contributions. Forfeitures accumulated during 2009 and previous Plan years were \$52,742, with a forfeiture balance of \$57,589 as of December 31, 2009.

Participant Loans

The Plan has a loan provision, which allows participants to borrow from the Plan. The minimum loan is \$1,000, and the maximum loan is generally 50% of a participant's total vested account balance, not to exceed \$50,000. The interest rate is established by the prime rate plus one percent. Interest rates on outstanding loans as of December 31, 2009 ranged from 4.25% to 10.50%. Interest paid by a participant on an outstanding loan is paid directly into the participant's account. Principal and interest is paid ratably through payroll deductions. The repayment period cannot exceed five years unless the loan is used to acquire a participant's principal residence, in which case the repayment period cannot exceed ten years. A participant can have a maximum of two loans outstanding from the Plan at any given time.

PLAN NUMBER: 003
EIN: 13-5526506

MSC INDUSTRIAL DIRECT 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 (continued)

In-Service Withdrawals

The Plan permits a participant to withdraw participant pre-tax, vested discretionary matching and vested discretionary profit sharing contributions to the extent necessary to satisfy the participant's hardship (as defined in the Plan). In addition, the Plan permits participants who have attained age 59-1/2 to make in-service withdrawals from the Plan.

Payment of Benefits

On termination of service due to death, disability, retirement or for any other reason, if the participant's vested balance exceeds \$5,000, a participant (beneficiary upon death) may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account or installments over a fixed period, a direct rollover into an Individual Retirement Account or another Qualified Plan, or may elect to defer distribution. If a participant's vested account balance is less than or equal to \$5,000, the participant's vested account balance will be paid in a lump-sum distribution. If the amount of such mandatory distribution is more than \$1,000 and the participant does not elect to have such distribution directly rolled over into an IRA or other eligible retirement plan or paid directly to him or her, such amount will be directly rolled over into an IRA established by the Plan administrator in the participant's name.

Plan Expenses

Expenses for recordkeeping, investment and other costs are generally paid by the Plan. Accounting fees are generally paid by the Company.

Amendment and Restatement

On December 23, 2009, the Plan was amended and restated, generally effective January 1, 2009, utilizing a prototype document sponsored by AccuDraft, Inc. As part of such restatement, the Plan was amended to, among other things, incorporate into the Plan document previously-adopted amendments required by the Economic Growth Tax Relief Reconciliation Act of 2001 and subsequent legislative and regulatory changes.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records and financial statements of the Plan are prepared on the accrual basis in accordance with accounting principles generally accepted in the United States and are based upon data provided by the record keeper and/or custodian, adjusted for accruals for contributions receivable and excess contribution payments due to participants based on the results of ERISA limit testing.

Investment contracts held by a defined-contribution plan or by a fund within a defined-contribution plan are required to be reported at fair value. However, contract value, which is equal to contributions plus earnings less withdrawals and expenses, is the relevant measurement attribute for that portion of the net assets available for benefits of a

defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Plan invests in investment contracts through its participation in the T.Rowe Price Stable Value Common Trust Fund (the "Fund"), a common collective trust fund. The Statements of Net Assets Available for Benefits present the fair value of the investment in the Fund as well as the adjustment of the investment in the Fund from fair value to contract value. The fair value of the Plan's interest in the Fund is based on information reported by the issuer of the common collective trust at year end. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Information pertaining to the Fund for the year ending December 31, 2009 is as follows:

Average Yield	Crediting Interest Rate	Investments at Fair Value	Investments at Contract Value	Adjustment to Contract Value
4.26%	4.62%	\$18,546,020	\$17,989,089	\$(556,931)

Information pertaining to the Fund for the year ending December 31, 2008 is as follows:

Average Yield	Crediting Interest Rate	Investments at Fair Value	Investments at Contract Value	Adjustment to Contract Value
4.23%	4.82%	\$15,626,484	\$15,772,968	\$146,484

PLAN NUMBER: 003
EIN: 13-5526506

MSC INDUSTRIAL DIRECT 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 (continued)

New Accounting Pronouncements

In January 2010, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Codification (“ASC”) Update No. 2010-06, Fair Value Measurements and Disclosures (Topic 820) – Improving Disclosures about Fair Value Measurements. This guidance requires: (i) separate disclosure of significant transfers between Level 1 and Level 2 and reasons for the transfers; (ii) disclosure, on a gross basis, of purchases, sales, issuances, and net settlements within Level 3; (iii) disclosures by class of assets and liabilities; and (iv) a description of the valuation techniques and inputs used to measure fair value for both recurring and non-recurring fair value measurements. This guidance is effective for reporting periods beginning after December 15, 2009, except for the Level 3 disclosure requirements, which will be effective for fiscal years beginning after December 15, 2010 and interim periods within those fiscal years with early adoption permitted. The Plan early adopted the Level 3 disclosure requirements for its year ended December 31, 2009. Refer to Note 3 to the Financial Statements.

In September 2009, the FASB issued ASC Update No. 2009-12, Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent). ASC Update No. 2009-12 is effective for periods ending after December 15, 2009. This new standard requires the Plan to disclose information about fair value measurements of investments in certain entities that calculate net asset value per share or its equivalent. See Note 3 for the Plan’s required disclosures. The Plan’s adoption of this standard did not have a material impact on the Plan’s financial statements.

In June 2009, the FASB issued guidance under ASC Topic 105, Generally Accepted Accounting Principles, which was formerly referred to as FASB Statement of Financial Accounting Standards No. 168, FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles – A Replacement of FASB Statement No. 162. This guidance establishes the FASB Accounting Standards Codification (the “Codification”) as the source of authoritative U.S. generally accepted accounting principles (“GAAP”) for non-governmental entities. The Codification supersedes all existing non-Securities and Exchange Commission (“SEC”) accounting and reporting standards. Rules and interpretive releases of the SEC under authority of federal security laws remain authoritative GAAP for SEC registrants. This guidance and the Codification are effective for financial statements issued for interim and annual periods ending after September 15, 2009. As the Codification did not change existing GAAP, the adoption did not have an impact on the Plan’s financial statements.

In May 2009, the FASB issued a statement which establishes general standards of accounting for and disclosure of events that occur after the balance sheet date but before financial statements are issued. In February 2010, the FASB issued ASC Update No. 2010-09, Subsequent Events, which amends the previous guidance on subsequent events and no longer requires SEC filers to disclose the date through which subsequent events have been evaluated. The subsequent event provisions are effective for interim and annual reporting periods ending after June 15, 2009. The amendments are effective February 2010. The adoption of this statement did not have an impact on the Plan’s financial statements.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts in the financial statements and accompanying notes. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan investment options include various investment securities. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults, and credit rating downgrades. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment balances will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

The Plan's exposure to a concentration of credit risk is limited by the diversification of investments across the participant-directed fund elections. Additionally, the investments with each participant-directed fund election are further diversified into varied financial instruments, with the exception of investments in the Company's common stock and potentially the individual investments in the tradelink accounts under the Plan. Investment decisions are made, and the resulting risks are borne, exclusively by the Plan participant who made such decisions.

As of December 31, 2009 and 2008, 3% and 4%, respectively, of the Plan's net assets available for benefits at fair value were invested in the Class A Common Stock of MSC Industrial Direct Co., Inc. (quoted market prices of \$47.00 and \$36.83 per share, respectively). As of June 18, 2010, the market price of the MSC Industrial Direct Co., Inc. Class A Common Stock was \$52.76 per share.

PLAN NUMBER: 003
EIN: 13-5526506

MSC INDUSTRIAL DIRECT 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 (continued)

Investments

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis.

Benefit Payments

Benefits are recorded when paid.

Reclassifications

Certain prior period amounts have been reclassified to conform with current year presentation.

3. FAIR VALUE MEASUREMENTS

For the year ended December 31, 2009, the Plan adopted the provisions of FASB ASC Topic 820, Fair Value Measurements and Disclosures (“ASC 820”) for its financial assets and liabilities carried at fair value on a recurring basis in its financial statements. ASC 820 defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). ASC 820 also establishes a fair value hierarchy that requires assets and liabilities measured at fair value to be categorized into one of three levels based on the inputs used in the valuation. The three levels are defined as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Following is a description of the valuation methodologies used for assets measured at fair value.

Common stocks, corporate bonds and U.S. government securities: Valued at the closing price reported on the active market on which the individual securities are traded and are classified as Level 1 investments.

Mutual funds: Valued at the net asset value (“NAV”) of shares held by the plan at year end and are classified as Level 1 investments. There are no restrictions as to the redemption of these investments nor does the Plan have any contractual obligations to further invest in any of the individual mutual funds.

Common Collective Trusts: The Equity Index Trust is composed of substantially all of the stocks in the S&P 500 Index and valued at the NAV of shares held by the plan at year end and is classified as a Level 1 investment.

The Stable Value Common Trust Fund is composed of fully benefit-responsive investment contracts and is classified as a Level 2 investment. The investments in this Trust are generally not available in an exchange and active market and generally must be held to maturity.

There are no imposed redemption restrictions nor does the Plan have any contractual obligations to further invest in any of the individual trusts.

Participant loans: Valued at their outstanding balances, which approximate fair value and are classified as Level 3 investments. The Company has determined that cost approximates fair value as:

- The weighted average interest rate of the loans outstanding is not significantly different than the interest rate for loans issued at the end of the 2009 Plan year;
- There have been very low loan default rates on the participant loans based on historical trends in the Plan; and
- If there is a default, the Plan’s investments in the participant loan will be classified as a distribution to the participant thereby limiting any further obligation by the Plan for the participant’s account.

PLAN NUMBER: 003
EIN: 13-5526506

MSC INDUSTRIAL DIRECT 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 (continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009

	Level 1	Level 2	Level 3	Total
Mutual Funds	\$ 88,121,446	\$ -	\$ -	\$ 88,121,446
Common/Collective Trusts	6,531,661	18,546,020	-	25,077,681
Common Stocks	4,016,010	-	-	4,016,010

4. INVESTMENTS

The fair value of individual investments that represent 5% or more of the Plan's net assets at December 31, 2009 and 2008 are as follows:

	December 31, 2009	December 31, 2008
T. Rowe Price Equity Income Fund	\$ *	\$ 4,536,632
T. Rowe Price Equity Index Trust	6,531,661	5,108,996
T. Rowe Price Global Stock Fund	7,494,038	5,138,572
T. Rowe Price Growth Stock Fund	11,210,229	7,522,461
T. Rowe Price Personal Strategy Balanced Fund	7,416,135	4,967,881
T. Rowe Price Personal Strategy Growth Fund	11,420,081	7,829,165
T. Rowe Price Stable Value Common Trust Fund	18,546,020	15,626,484
PIMCO Total Return Fund	9,647,833	7,221,677

* Does not represent 5% or more of the Plan net assets at December 31, 2009.

During the Plan year ended December 31, 2009, net appreciation in fair value of investments was as follows:

	December 31, 2009
Common Trusts	\$ 1,370,379
MSC Industrial Direct Co., Inc. Class A Common Stock	854,350
Mutual Funds	19,906,815
Other	976,390
Total	\$ 23,107,934

5. INVESTMENT OPTIONS

Participants may allocate their contributions into the Plan among the following 20 options:

- 1) MSC Industrial Direct Co., Inc. Class A Common Stock— The Plan Trustee is permitted to acquire, with amounts directed by participants to be invested in shares of Class A Common Stock of MSC Industrial Direct Co., Inc. ("Common Stock") directly from the Company.

The Plan Trustee may acquire (sell) shares of Common Stock by purchasing (selling) such shares on the principal national securities exchange on which shares of Common Stock are traded on that date, and the cost of such shares will be the weighted average purchase price (weighted average sale price) paid by the Plan Trustee during a day. The price includes commissions incurred in the purchase or sale. Alternatively, the Plan Trustee may acquire shares of Common Stock directly from the Company. If acquired directly from the Company, the cost of the shares of Common Stock will be the average of the high and low of the Common Stock as traded on the principal national securities exchange on which such shares are traded on the date issued by the Company. All of the shares of Common Stock purchased (sold) by the Plan Trustee in the Plan year were traded through the principal national securities exchange.

The Plan Trustee may acquire shares of Common Stock in a single purchase or over time, as it determines in its sole discretion.

If circumstances so require, the Plan Trustee may suspend the purchase and sale of shares of Common Stock. Such suspension will last until the Plan Trustee determines that the circumstances causing the suspension have ceased to exist.

The value of the Common Stock held by the Plan is subject to fluctuation in the market price of the shares of Common Stock. There is no guarantee of investment performance. Likewise, there is no guarantee that the Company will pay dividends in the future.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 (continued)

- 2) T. Rowe Price Personal Strategy Growth Fund— Seeks capital appreciation; income is a secondary concern. The fund typically invests approximately 80% of assets in stocks and 20% in bonds and money market securities.
- 3) T. Rowe Price Personal Strategy Balanced Fund— Seeks capital appreciation and income. The fund typically invests approximately 60% of assets in stocks, 30% in bonds, and 10% in money market securities.
- 4) T. Rowe Price Personal Strategy Income Fund— Seeks income; capital growth is a secondary concern. The fund typically invests approximately 40% of assets in stocks, 40% in bonds, and 20% in money market securities.
- 5) PIMCO Total Return Fund— Seeks total return consistent with preservation of capital. The fund normally invests at least 65% of assets in a diversified portfolio of fixed income instruments of varying maturities, which may be represented by forwards or derivatives such as options, futures contracts, or swap agreements. The fund may invest up to 10% of assets in high-yield securities. The fund may invest all assets in derivative instruments, such as options, futures contracts or swap agreements, or in mortgage-or asset-backed securities. The portfolio duration generally averages from 3.5 years to 6 years.
- 6) T. Rowe Price Balanced Fund— Seeks capital growth, current income, and preservation of capital. The fund normally invests approximately 60% of assets in U.S. and foreign common stocks and 40% of assets in fixed-income securities. It normally invests at least 25% of assets in senior fixed-income securities. The fund may also invest in other securities, including futures, options and swaps.
- 7) T. Rowe Price Equity Income Fund— Seeks dividend income and long-term capital appreciation. The fund invests at least 80% of assets in common stocks, with 65% of assets in the common stocks of well-established companies paying above-average dividends. It invests most assets in U.S. common stocks, and may also purchase other securities including foreign stocks, futures, and options.
- 8) T. Rowe Price Equity Index Trust— Seeks long-term capital appreciation by investing primarily in common stocks. Specifically, the trust seeks to replicate the total return performance of the U.S. equity market as represented by the Standard & Poor's 500 Stock Index. The trust aims to invest in substantially all 500 stocks comprising the S&P 500 in proportion to their respective weighting in the index to the extent practical.

- 9) T. Rowe Price Growth Stock Fund— Seeks long-term growth of capital and income is secondary. The fund normally invests at least 80% of assets in common stock of a diversified group of growth companies. It mostly seeks investments in companies that have the ability to pay increasing dividends through strong cash flow. The fund generally looks for companies with an above-average rate of earnings growth and a lucrative niche in the economy. While it invests most assets in U.S. common stocks, the fund may also purchase other securities including foreign stocks, futures, and options.
- 10) T. Rowe Price Global Stock Fund— Seeks long-term capital growth. The fund diversifies broadly by investing in a variety of industries in developed and, to a lesser extent, emerging-markets. The fund invests in at least five countries, one of which is the United States. The fund purchases stocks without regard to a company's market capitalization, but generally invests in large and, to a lesser extent, medium-sized companies. It invests at least 80% of net assets in U.S. and foreign stocks and the percentage varies over time.
- 11) T. Rowe Price International Stock Fund— Seeks long-term growth of capital. The fund normally invests at least 80% of assets in stocks of established non-U.S. issuers. It may invest in companies of any size, but the focus is on large and, to a lesser extent, medium-sized companies. The fund may invest in both developing and developed countries.
- 12) T. Rowe Price Media and Telecommunications Fund— Seeks long-term growth of capital. The fund normally invests at least 80% of assets in the common stocks of media and telecommunications companies, including those in the entertainment, broadcasting, and advanced communication industries. Generally, the fund invests in companies in the large to mid-capitalization range.
- 13) Keeley Small Cap Value Fund — Seeks capital appreciation. The fund normally invests at least 80% of net assets plus the amount of any borrowings for investment purposes in common stocks and other equity type securities, including preferred stock, convertible debt securities, and warrants, of companies with small market capitalization.
- 14) T. Rowe Price Stable Value Common Trust Fund— Seeks to provide maximum current income while maintaining stability of principal. The trust will invest primarily in Guaranteed Investment Contracts ("GICs"), Bank Investment Contracts ("BICs"), Synthetic Investment Contracts ("SICs"), and Separate Account Contracts ("SACs") that meet quality and credit standards. The trust seeks to reduce risk by diversifying its investments by issuer, quality, and duration.

- 15) Janus Growth and Income Fund— Seeks long-term growth of capital and current income. The fund normally invests up to 75% of assets in equity securities with growth potential, and at least 25% of assets in securities with income potential. It may invest in foreign equity and debt securities, which may include investments in emerging markets.
- 16) T. Rowe Price New Horizons Fund— Seeks long-term capital growth. The fund will invest primarily in a diversified group of small, emerging growth companies, preferably early in the corporate life cycle. It may also invest in companies that offer the possibility of accelerating earnings growth because of rejuvenated management, new products, or structural changes in the economy. While the fund invests most assets in U.S. common stocks, it may also purchase other securities including foreign stocks, futures, and options.
- 17) T. Rowe Price Mid-Cap Value Fund— Seeks long-term capital appreciation. The fund normally invests at least 80% of assets in companies whose market capitalization falls within the range of the companies in the S&P MidCap 400 index or the Russell Midcap Value index. While the fund invests most assets in U.S. common stocks, it may also purchase other securities including foreign stocks, futures, and options.
- 18) T. Rowe Price Value Fund— Seeks long-term capital appreciation and income is a secondary consideration. The fund normally invests at least 65% of assets in common stocks the fund manager regards as undervalued. Holdings primarily consist of large-cap stocks, but may also include mid-cap and small-cap companies. It will invest most assets in U.S. common stocks, but may also purchase other securities, including foreign stocks, futures, and options, in keeping with fund objectives.
- 19) T. Rowe Price Mid-Cap Growth Fund— Seeks long-term capital appreciation. The fund normally invests at least 80% of assets in a diversified portfolio of common stocks of mid-cap companies whose earnings T. Rowe Price expects to grow at a faster rate than the average company. While it invests most assets in U.S. common stocks, the fund may also purchase other securities including foreign stocks, futures, and options.
- 20) Tradelink Investments— An optional brokerage account that offers participants the ability to diversify investments through the purchase of individual stocks, bonds, and other securities plus thousands of mutual funds from many well-known fund families.

Effective November 3, 2008, the T. Rowe Price Small Cap Stock Fund was replaced with the Keeley Small Cap Value Fund.

6. INCOME TAX STATUS

The underlying non-standardized prototype plan has received an opinion letter from the Internal Revenue Service (IRS) dated March 31, 2008 stating that the form of the plan is qualified under Section 401(a) of the Internal Revenue Code, and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2007-6 and 2005-16, the Plan Sponsor has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. The Plan has been submitted to the IRS, on April 30, 2010, for a determination that the Plan, as adopted, complies in form with the qualification requirements of Section 401(a) of the Code. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Sponsor has indicated that it

will take the necessary steps, if any, to bring the Plan's operations into compliance with the Code.

7. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds and trusts managed by T.Rowe Price. T.Rowe Price is the trustee as defined by the Plan and, therefore, these transactions qualify as permitted party-in-interest transactions. These investments represent \$98,722,192, or 80% of total net assets available for plan benefits at fair value at December 31, 2009 and \$70,479,829, or 79% of total net assets available for plan benefits at fair value at December 31, 2008.

Plan investments in shares of common stock issued by the Company were \$4,016,010, or 3% of total net assets available for plan benefits at fair value at December 31, 2009 and \$3,339,921, or 4% of total net assets available for plan benefits at fair value at December 31, 2008. The Company is responsible for the administration of the Plan.

8. PLAN TERMINATION

The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan termination, participants will become 100% vested in their accounts.

9. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Form 5500:

	December 31,	
	2009	2008
Net assets available for benefits per the financial statements	\$ 122,818,141	\$ 89,696,451
Adjustment to contract value for fully benefit-responsive investment contracts	556,931	(146,484)
Net assets available for benefits per the Form 5500	\$ 123,375,072	\$ 89,549,967

The following is a reconciliation of the net increase in the net assets available for benefits per the financial statements for the year ended December 31, 2009 to Form 5500:

	December 31, 2009
Net increase in net assets available for benefits	\$ 33,121,690
Add: Reversal of prior year adjustment from contract value to fair value for fully benefit-responsive investment contracts	146,484

Add: Adjustment from contract value to fair value for fully benefit-responsive investment contracts	556,931
---	---------

Net increase in net assets per Form 5500	\$ 33,825,105
--	---------------
