ACTOZ SOFT CO., LTD.

FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2004 AND 2003

AND

INDEPENDENT AUDITORS' REPORT

INDEPENDENT AUDITORS' REPORT

To the Board of Directors and Shareholders of
Actoz Soft Co., Ltd.

We have audited the accompanying balance sheet of Actoz Soft Co., Ltd., or Actoz, as of December 31, 2004, and the related statements of income, appropriation of retained earnings and cash flows for the year then ended (all expressed in Korean won). These financial statements are the responsibility of Actoz's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not examine investments in equity securities of Wemade Entertainment Co., Ltd., or Wemade, accounted for under the equity method. The carrying value for Wemade was W 12,043,171 thousand, or 21% of Actoz's total assets, as of December 31, 2004 and Actoz's equity in earnings of Wemade was W 4,051,446 thousand, or 37% of income before income taxes, for 2004. Those investment accounts were examined by other auditors whose report thereon has been furnished to us, and our opinion expressed herein, insofar as it relates to the amounts included for those investment accounts, is based solely upon the report of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of Actoz as of December 31, 2004 and the results of its operations, the changes in its retained earnings and its cash flows for the year then ended in accordance with the Financial Accounting Standards, as established by the Financial Supervisory Commission of the Republic of Korea.

Actoz's financial statements for the year ended December 31, 2003, presented herein for comparative purposes, were audited by other auditors whose report dated February 7, 2004 expressed an unqualified opinion thereon.

Without qualifying our opinion, we draw attention to the following:

As discussed in Note 8 to the accompanying financial statements, Actoz has transactions with Wemade Entertainment Co., Ltd. and other related parties in its normal course of business. Sales to its related parties were W2,019 million for the year ended December 31, 2004 . Service fees paid to its related parties were W 23,205 million for the year ended December 31, 2004. The related trade receivables were W 405 million, and the related trade payables were W 6,142 million as of December 31, 2004. In addition, the short-term loans to shareholders, officers and employees were W 364 million as of December 31, 2004, and the related interest income included in other income were W 46 million for the year ended December 31, 2004 .

As discussed in Note 21 to the accompanying financial statements, in February 2005, Shanda Interactive Entertainment Limited, or Shanda, purchased an approximately 29% stake in Actoz from certain shareholders of Actoz. Completion of this purchase followed Shanda's purchase of an amount of Actoz shares on the KOSDAQ market equal to approximately 9% of the Actoz's issued and outstanding shares.

Accounting principles and their application in practice vary among countries. The accompanying financial statements are not intended to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries other than the Republic of Korea.

ACTOZ SOFT CO., LTD.

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2004 AND 2003

### 1. General

Actoz Soft Co., Ltd., or Actoz, was incorporated on October 29, 1996 under the laws of the Republic of Korea. Actoz is engaged in developing and distributing the online game software products. Actoz is registered as a venture business in the Korean Small and Medium Enterprise Service in accordance with the special law for the promotion of venture businesses. Actoz's capital stock as of December 31, 2004 amounts to W4,457,250 thousand. Actoz's shares have been registered on the Korea Securities Dealers Automated Quotation (KOSDAQ) market since August 14, 2001.

### 2. Summary of Significant Accounting Policies

#### a. Basis of Presentation of Financial Statements

Actoz maintains its official accounting records in Korean won and prepares financial statements in the Korean language (Hangul) in conformity with the accounting principles generally accepted in the Republic of Korea including the statements of Korean financial accounting standards No. 1 through No. 13. Certain accounting principles applied by Actoz that conform with financial accounting standards and accounting principles in the Republic of Korea may not conform with generally accepted accounting principles in other countries. Accordingly, these financial statements are intended for use by those who are informed about Korean accounting principles and practices.

Certain information attached to the Korean language financial statements, but not required for a fair presentation of Actoz's financial position, results of operations or cash flows, is not presented in the accompanying financial statements.

The accounts of Onlineworks Co., Ltd., a wholly owned subsidiary, were not consolidated into the accounts of Actoz as allowed under Financial Accounting Standards, as established by the Financial

## Edgar Filing: SHANDA INTERACTIVE ENTERTAINMENT LTD - Form 6-K

Supervisory Commission of the Republic of Korea. The investment in the subsidiary was accounted under the equity method (see note 5)

### b. Cash and Cash Equivalents

Actoz records in cash and cash equivalents account, currencies, currency substituting securities such as third party issued checks, current deposits, ordinary deposits, and marketable securities and short-term financial instruments which maturities or repayments are due within three months when acquired and easily convertible into cash without incurring material transaction costs and which have no material risks of the value changes due to the change of interest rates.

### c. Financial Instruments

11

Short-term financial instruments are time deposits and installment deposits of financial institutes which are held for the purpose of short-term operations of the funds and which maturities are due within one year. Long-term financial instruments are financial instruments not classified as current assets.

### d. Allowance for Doubtful Accounts

Actoz provides an allowance for doubtful accounts to cover estimated losses on receivables, based on collection experience and analysis of the collectibility of individual outstanding receivables.

### e. Marketable Securities

Marketable securities bought and held for the purpose of selling them in the near term are classified as short-term trading securities and debt securities which repayment amounts are fixed or can be fixed and which Actoz has the intent and ability to hold to maturity are classified as held-to-maturity securities and marketable securities not classified as either short-term trading securities or held-to-maturity securities are classified as available-for-sale securities.

Marketable securities are initially carried at cost, using the moving average method. The following paragraphs describe the subsequent accounting for securities by the type of security.

Held-to-maturity securities are carried at cost, adjusted for the amortization or accretion of premiums or discounts. Short-term trading securities and available-for-sale securities are reported at fair value. Available-for-sale equity securities that do not have readily determinable market or fair values are reported at cost.

Unrealized gains or losses arising from the differences between the fair value and the acquisition cost are recorded in current operations for short-term trading securities, and are reported as a capital adjustment in shareholders' equity for available-for-sale securities which accumulated amounts in shareholders' equity are reflected in current operations when disposing the securities or recognizing impairment losses.

When estimated recoverable values from marketable securities are

## Edgar Filing: SHANDA INTERACTIVE ENTERTAINMENT LTD - Form 6-K

less than acquisition costs of equity securities or debt securities adjusted for the amortization or accretion of premiums or discounts, impairment losses are recorded in current operation. Subsequent recoveries are also recorded in current operations up to the original cost of the securities.

### f. Investment Securities Valued Using the Equity Method of Accounting

Investments in equity securities of companies, over which Actoz exercises significant influence, are reported using the equity method of accounting. Under the equity method of accounting, Actoz records changes in its proportionate equity of the book value of the investee as current operations, capital adjustments or adjustments to retained earnings, depending on the nature of the underlying change in book value of the investee.

Differences between the purchase cost and Actoz's proportionate equity in net asset value of the investee are amortized over five years using the straight-line method. Unrealized profits arising from sales by Actoz to equity-method investees are fully eliminated. Actoz's proportionate unrealized profits arising from sales by equity-method investees to Actoz or transactions between equity-method investees are also eliminated.

For overseas affiliates whose financial statements are prepared in foreign currency, assets and liabilities are translated at the exchange rate on the balance sheet date,

12

shareholders' equity is translated at the historical exchange rate, and statement of income items are recorded at the weighted average exchange rate of the reporting period. Net translation adjustments are recorded as a component of shareholders' equity.

### g. Property and Equipment

Property and equipment are stated at acquisition cost. Major renewals and betterments, which prolong the useful life or enhance the value of assets, are capitalized; expenditure for maintenance and repairs are charged to expense as incurred. Depreciation is computed using the declining balance method over the following useful lives:

Description	Useful lives (years)
Machinery and equipment	4
Furniture and fixtures	4
Vehicles	4

Depreciation expenses on the long-term idle facilities are recorded in other expenses. When the recoverable amount is significantly less than the carrying value of property and equipment due to obsolescence, physical damage, decline in market value or other causes, an impairment loss in the amount of the difference between the recoverable amount and the carrying value is recorded in the

## Edgar Filing: SHANDA INTERACTIVE ENTERTAINMENT LTD - Form 6-K

current operations with the carrying amount of the asset adjusted reflecting the impairment.

### h. Intangible Assets

Development costs for development of new products that satisfy certain specific conditions and future economic benefits related to such costs can be reliably determined, are capitalized and amortized over a five year period beginning in the year the related products are first saleable or usable. When the recoverable amount is significantly less than the carrying value of development costs due to the uncertainty of their future economic benefits, an impairment loss in the amount of the difference between the recoverable amount and the carrying value is recorded in the current operations with the carrying amount of the asset adjusted reflecting the impairment.

Other intangible assets, including industrial property rights, are stated at cost and amortized on a straight-line basis over a five year period.

### i. Deferred Income Taxes

Deferred tax assets and liabilities are recorded for future tax consequences of operating loss carryforwards, tax credits and temporary differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets are recognized to the extent that they are expected to be realizable. Deferred tax assets and liabilities are presented on the balance sheet as a single non-current net number.

### j. Severance Indemnity

In accordance with Actoz's policy, all employees with more than one year of service with Actoz are entitled to severance indemnity. Actoz pays severance indemnity on a yearly basis.

### k. Foreign Currency Transactions and Translation

Transactions denominated in foreign currencies are recorded in Korean won translated at the exchange rate prevailing on the transaction date. Monetary assets and liabilities denominated in foreign currency are translated into Korean won at the

13

Base Rates announced by Seoul Money Brokerage Services Limited on the balance sheet date. Gains or losses arising from the settlement of foreign currency transactions and the translation of foreign currency assets and liabilities are charged or credited to current operations.

### l. Revenue Recognition

Service revenue is recognized by reference to the stage of completion of the transaction at the balance sheet date. The percentage of completion method for the service revenue can be employed when the following conditions are met: (a) the amount of revenue can be measured reliably; (b) it is probable that the economic benefits will flow to Actoz; (c) the stage of completion of

## Edgar Filing: SHANDA INTERACTIVE ENTERTAINMENT LTD - Form 6-K

the transaction at the balance sheet date can be measured reliably; and (d) the costs incurred for the transaction and the costs to complete the transactions can be measured reliably. Revenues for up-front license fees are recognized if such up-front license fees are non-refundable and Actoz does not have any obligation to provide further services after the cash has been received. For sales of merchandises and finished goods, revenue is recognized based on the delivery of goods for domestic sales and on the shipping dates for export.

### m. Contingent Liabilities

Contingent losses are recorded in liabilities if it is certain that net assets have decreased as of the balance sheet date and the loss amount can be reasonably estimated.

### n. Reclassification of Certain Accounts

Certain amounts in 2003 financial statements have been reclassified to conform with the 2004 financial statement presentation. These reclassifications did not have an effect on the financial position of Actoz as of December 31, 2003, or the results of its operations for the year then ended.

## 3. Cash and Cash Equivalents and Short-term Financial Instruments

Details of cash and cash equivalents and short-term financial instruments as of December 31, 2004 and 2003 are as follows:

	Annual interest rate(%)	Thousands of Korean won	
		2004	2003
Cash	-	-	-
Ordinary deposit	1.0	W 101,141	W 200,000
Money Market Deposit Account ("MMDA")	4.0	-	-

Time deposits	3.8-4.2	W 16,500,000	W 200,000
Total		W 16,500,000	W 200,000

## 4. Marketable Securities

Marketable securities of Actoz at December 31, 2004 and 2003 are classified as available-for-sale

Edgar Filing: SHANDA INTERACTIVE ENTERTAINMENT LTD - Form 6-K

securities according to its purpose of acquisition and intent of holding and consist of the following:
