PROPOSAL ONE: ELECTION OF DIRECTORS

The nominees for the Board of Directors are listed below. If elected, each nominee will hold office until next year's annual meeting of shareholders and until their successors have been duly elected and qualified. All nominees are currently directors. The Board of Directors has no reason to believe any nominee would be unable or unwilling to serve if elected. In the event a nominee is unable to serve, the persons designated as proxyholders for the company will vote for the remaining nominees and for such other person as the Board of Directors may nominate.

A director is elected if a majority of the votes cast with respect to the director are voted FOR. However, if the number of nominees exceeds the number of directors to be elected, a director is elected by the affirmative vote of a plurality of the votes cast. Votes cast shall include votes for or against a director. An abstention shall not count as a vote cast with respect to a director. If a majority fails to reelect an incumbent director when a majority vote is required, he or she shall continue to serve: until the next annual meeting and until his or her successor is duly elected; or until the Board of Directors accepts his or her resignation or removes him or her, if earlier. If the Board of Directors accepts an incumbent director's resignation, or if a non-incumbent nominee for director is not elected, the Board of Directors, in its sole discretion, may fill any resulting vacancy, or may decrease the size of the Board of Directors, in each case pursuant to the provisions of Sections 1 and 2 of Article II of the company's by-laws.

BOARD OF DIRECTORS GENERAL INFORMATION

Composition of the Board; Board Leadership Structure

The company's by-laws require the Board of Directors to consist of between five and ten directors. The number of directors is currently fixed at nine, consisting of a Chairman, the CEO, and seven independent directors. Each director holds a one-year term until the next annual meeting of shareholders. The board has three committees: the Audit Committee, the Compensation Committee, and the Nominating and Corporate Governance Committee.

The primary tasks of the board include oversight of the company's strategy and governance matters, review of the company's financial matters, and evaluation of how the company executes against objectives. Management's tasks include setting strategy and running the company's operations. The company believes having a separate CEO and Chairman allows the Chairman to function as an important liaison between management and the board, helping ensure the board fulfills its oversight responsibilities.

To ensure the board has sufficient independence from management, the board has also established a lead independent director (the Presiding Director) who oversees executive sessions of the independent directors and all meetings of directors at which the Chairman is not present. The Presiding Director also coordinates with the Nominating and Corporate Governance Committee on director nominations as described in the Nominating and Corporate Governance Committee report below. Mr. Salice is currently serving as the Presiding Director.

Corporate Governance Guidelines

The board has established corporate governance guidelines that contribute to the overall operating framework of the board and the company. These guidelines cover topics including director qualifications, the director nomination process, the responsibilities of directors (including with respect to leadership development and management succession), meetings of non-management directors, and director compensation. The guidelines are available on the company's website at www.mt.com under About Us/Investor Relations/Corporate Governance and are available in print to any shareholder who requests them. Shareholders may request copies free of charge from Investor Relations, Mettler-Toledo International Inc., 1900 Polaris Parkway, Columbus, OH 43240, USA, telephone +1 614 438 4748.

Responsibility of the Board of Directors in Governance & Role in Risk Oversight

It is the responsibility of the Board of Directors to establish and monitor the company's internal governance practices and work toward the long-term success of the company. The company has adopted a code of business conduct and ethics, known as the code of conduct. All actions of the company's Board of Directors, executive officers, and employees are governed by the company's code of conduct. The board did not approve any waiver of the code of conduct by an executive officer or director in 2013. A copy of the code of conduct is available at www.mt.com under About Us/Investor Relations/Corporate Governance and is available in print to any shareholder who requests it.

The board is involved in the oversight of the company's risk management process as follows. Each year, the company conducts an enterprise risk assessment under the supervision of the Executive Vice President. The full board receives the results of the assessment, including an evaluation of risks and a description of actions taken by the company to

mitigate risk. The Audit Committee reviews the results in detail and reports on its review to the board.

Compensation-Related Risk

Management and the Compensation Committee have evaluated the company's compensation programs generally at different levels throughout the organization. Among other things, we considered that for executives who have the largest potential incentive compensation, a significant portion of total compensation is comprised of stock options that vest over five years and have a ten-year life, which drives emphasis on long-term performance. We also considered the applicability of the various situations described in Item 402(s) of Regulation S-K. We concluded from our evaluation that risks arising from our compensation policies and practices for our employees are not reasonably likely to have a material adverse effect on the company.

6

BOARD OF DIRECTORS GENERAL INFORMATION

Minimum Qualifications for Directors

Members of the Board of Directors must demonstrate integrity, reliability, knowledge of corporate affairs, and an ability to work well together. We also consider diversity in business background, area of expertise, gender, and ethnicity when selecting board nominees. The company's corporate governance guidelines contain additional details.

Independence of the Board

The board uses the following criteria in evaluating independence: (i) independence under the rules of the New York Stock Exchange; and (ii) no relationships with the company (other than as a director or shareholder) or only immaterial relationships. The independence criteria are contained in the company's corporate governance guidelines. The board solicits information from directors as to any relationship the director or his immediate family member has with the company that might affect the director's independence. The board also evaluates directors' independence pursuant to current New York Stock Exchange rules.

The Board of Directors has determined that the following types of relationships are categorically immaterial:

Commercial business relationships where METTLER TOLEDO buys from or sells to companies where directors serve as employees, or where their immediate family members serve as executive officers, and where the annual purchases or sales are less than the greater of \$1 million or 2% of either company's consolidated gross revenues.

In light of these criteria, the board has determined that Messrs. Chu, Contino, Kelly, Madaus, Maerki, Milne, and Salice are independent. Mr. Sperry, Chairman of the Board, and Mr. Filliol, President and Chief Executive Officer, are not independent.

Meeting of Non-Employee Directors

The board schedules regular executive sessions for its non-employee members, typically as part of each board meeting. The Presiding Director acts as chairman of these meetings.

Director Attendance at Board Meetings and the Annual Meeting

The board expects that its members will attend all meetings of the board and the annual meeting of shareholders. The Board of Directors met four times in 2013. Each director attended at least 75% of all board and committee meetings of which the director is a member and all directors attended the 2013 annual meeting of shareholders.

Policy Limiting Director Service on Other Public Company Boards; Director Resignation

The board has adopted a policy that directors may not serve on more than six public company boards. The board also has a policy that directors will offer their resignation upon a change in professional position or in circumstances that might affect a director's ability to serve on the board. In such circumstances, the Nominating and Corporate Governance Committee takes the lead on determining the appropriate course of action.

Director Retirement Policy

The Board of Directors has adopted a retirement policy pursuant to which directors will retire immediately after the annual meeting that follows their 72nd birthday. In adopting this policy, the Board of Directors considered the importance of ensuring a mix of ages among board members and the balance of continuity versus fresh perspectives.

Director Share Ownership

The company's equity ownership guidelines adopted in July 2009 call for non-employee Directors to hold company shares with a value equal to five times their cash retainer. The Chairman shall hold company shares with a value equal to five times his base salary. All directors currently satisfy the ownership requirement.

AUDIT COMMITTEE REPORT

The Audit Committee assists the board in overseeing the accounting and financial reporting processes of the company and audits of the financial statements of the company. The Audit Committee operates pursuant to a written charter, a copy of which can be found on the company's website at www.mt.com under About Us/Investor Relations/Corporate Governance. In discharging its oversight role, the Audit Committee discussed the audited financial statements contained in the 2013 annual report separately with the company's independent registered public accounting firm and the company's management and reviewed the company's internal controls and financial reporting.

The company's independent registered public accounting firm, PricewaterhouseCoopers LLP (PwC), is responsible for auditing the company's consolidated financial statements as well as the company's internal control over financial reporting. PwC issues opinions as to (1) whether the financial statements present fairly, in all material respects, the financial position, results of operations and cash flows of the company and its subsidiaries in accordance with accounting principles generally accepted in the United States of America, and (2) whether the company maintained, in all material respects, effective control over financial reporting.

Audited Financial Statements

In reviewing the company's audited financial statements with PwC, the Audit Committee discussed the matters required to be discussed by the Public Company Accounting Oversight Board's Statement on Auditing Standards No. 16, as amended, and other matters including, without limitation:

PwC's responsibilities under generally accepted auditing standards, including the nature and scope of their audits; the written disclosures and confirming letter from PwC regarding their independence required under the Independence Standards Board Standard No. 1;
 significant accounting policies, such as revenue recognition, goodwill and other intangible assets, and income taxes;
 management judgments and accounting estimates;
 any material weaknesses or significant deficiencies in internal controls over financial reporting; and
 the extent of any significant accounting adjustments.

In reviewing the company's audited financial statements with the company's management, the Audit Committee discussed the same topics listed above with management, including, without limitation, the process used by management in formulating accounting estimates and the reasonableness of those estimates.

Based on the review and discussions referred to above, the Audit Committee recommended to the Board of Directors, and the board approved, that the audited financial statements be included in the company's Annual Report on Form 10-K for the year ended December 31, 2013.

Audit Fees Represents fees for the audit of the annual financial statements, including the Sarbanes-Oxley §404 attestation opinion, review of financial statements included in quarterly reports on Form 10-Q, and audit services provided in relation to our Blue Ocean program of information technology investment.

Audit-Related Fees The audit-related fees in 2013 and 2012 related primarily to due diligence work in connection with acquisition transactions.

Tax Fees The 2013 and 2012 tax fees were primarily for tax compliance-related services.

Other Fees No significant other services were performed by PwC for the company in 2013 or 2012.

The Audit Committee has determined that PwC's provision of the services included in the categories Tax Fees and Other Fees is compatible with PwC maintaining its independence. All non-audit services were approved in advance by the Audit Committee pursuant to the procedures described below.

Audit Committee Approval of Non-Audit Services

The Audit Committee approves all non-audit services PwC provides in accordance with the following framework:

The Audit Committee is considered to have pre-approved any project in an approved category that is less than \$50,000 in fees. Specific projects in excess of this amount and any potential projects not included in the pre-approval framework are presented to the Audit Committee Chairman for his advance approval.

On a quarterly basis, PwC reports all non-audit services outside of the pre-approval framework to the Audit Committee and any proposals for non-audit services in the upcoming quarter.

The Audit Committee reviews all non-audit fees at least annually.

The independent registered public accounting firm ensures that all audit and non-audit services provided to the company have been approved by the Audit Committee. Each year, the company's management and the independent registered public accounting firm confirm to the Audit Committee that every non-audit service being proposed is permissible.

Independent Registered Public Accounting Firm for 2014

The Audit Committee has appointed PwC as the company's independent registered public accounting firm to audit and report on the company's consolidated financial statements for the fiscal year ending December 31, 2014 and to perform such other services as may be required of them.

NOMINATING AND CORPORATE GOVERNANCE COMMITTEE REPORT

The Nominating and Corporate Governance Committee assists the board in identifying and recommending individuals to be nominated for election to the Board of Directors by shareholders. The committee is responsible for advising the board on the structure and membership of committees of the board as well as developing corporate governance guidelines applicable to the operation of the company. The Nominating and Corporate Governance Committee operates pursuant to a written charter, a copy of which can be found on the company's website at www.mt.com under About Us/Investor Relations/Corporate Governance. We describe below the process established by the committee to nominate directors to the Board of Directors as well as some of the recent corporate governance activities undertaken by the committee.

Director Nomination Process

When there is an actual or anticipated board vacancy, candidates for the Board of Directors may be recommended by (i) any member of the Nominating and Corporate Governance Committee, (ii) other board members, (iii) third parties engaged for that purpose by the committee, and/or (iv) the company's shareholders. The Nominating and Corporate Governance Committee will consider shareholder recommendations and evaluate them in the same manner as other candidates. Shareholders interested in recommending a person to be a director of the company must make such recommendation in writing. The recommendation must be forwarded to the Secretary of the company at: Mettler-Toledo International Inc., Im Langacher 44, 8606 Greifensee, Switzerland. Shareholder recommendations must include the information and be sent within the time-frames specified in the company's by-laws, a copy of which can be obtained from the Secretary. Additional details regarding minimum qualifications for director nominees can be found in the corporate governance guidelines on the company's website at www.mt.com under About Us/Investor Relations/Corporate Governance.

The Nominating and Corporate Governance Committee proceeds as follows in nominating candidates for a position on the company's Board of Directors.

The committee begins by working with the Presiding Director, Chief Executive Officer, and Chairman of the Board to determine the specific qualifications, qualities, and skills that are desired for potential candidates to fill the vacancy on the board. The committee makes this determination based upon the current composition of the board, the specific needs of the company, and the Minimum Qualifications for Directors included in the corporate (1) governance guidelines. These state that the Board of Directors should be composed of successful individuals who demonstrate integrity, reliability, knowledge of corporate affairs, a general understanding of the company's business, and an ability to work well together. The committee considers diversity in business background, area of expertise, gender, and ethnicity. The committee also evaluates longer-term board succession, taking into account the demographics of respective board members.

The Nominating and Corporate Governance Committee will then compile a list of all candidates recommended to fill the vacancy on the board. Candidates who meet the desired qualifications, qualities, and skills will be required (2) to complete a questionnaire that solicits information regarding the candidates' background, experience, independence, and other information.

Members of the Nominating and Corporate Governance Committee, the Presiding Director, the Chairman of the (3) Board, and, in appropriate cases, other board members, will interview those candidates who have completed the questionnaire.

(4) Following these interviews, the full Nominating and Corporate Governance Committee considers the qualifications of each candidate to ensure that each candidate meets the specific qualities and skills that are desired. The

committee will forward to the Board of Directors for consideration a list of candidates qualified for the position.

NOMINATING AND CORPORATE GOVERNANCE COMMITTEE REPORT

During 2013, the Nominating and Corporate Governance Committee evaluated changes in individual Directors professional status to evaluate their ability to continue serving on the board. With regard to the current board nominees, the Nominating and Corporate Governance Committee has recommended to the board that the nine current directors be nominated for re-election.

In 2013, the Nominating and Corporate Governance Committee also proposed an amendment to the director retirement policy.

Nominating and Corporate Governance
Committee:

Hans Ulrich Maerki

COMPENSATION DISCUSSION AND ANALYSIS

Compensation Discussion and Analysis

The Compensation Committee oversees compensation of the company's executive officers. In carrying out its duties, the Compensation Committee receives information and recommendations from the Chairman, the Head of Human Resources, and the Chief Executive Officer, and consults with outside compensation consultants as it deems appropriate. The Compensation Committee has historically used the firm Pearl Meyer & Partners to provide market surveys of executive compensation in technology firms in comparable industries (including scientific instrument firms), which are considered in setting compensation levels. See the Compensation Committee Report for a discussion of the Committee's review of Pearl Meyer & Partners's independence.

The objectives of the company's executive compensation programs are to:

Ensure compensation reflects market performance. The company links pay to performance in part by setting challenging, objectively measurable targets, and paying cash incentives designed to reward (over) achievement of those targets. At the same time, when performance is only at or below target, compensation tends to be below market. **Focus executives on achieving financial and operating objectives that provide long-term shareholder value creation.** The company does this in part by linking long-term compensation to the company's long-term performance. The annual cash incentive is also tied to relevant metrics, including growth in earnings per share.

Align executives' interests with those of the company's shareholders. The company does this by enforcing the equity ownership guidelines described below.

Attract and retain the best talent. Total compensation must be competitive in the global personnel market in which we operate.

In establishing executive compensation policies the Compensation Committee considers, among other things, the results of the Advisory Vote to Approve Executive Compensation from the prior year's Annual Meeting of Shareholders. The result of the advisory vote in 2013 was very positive with 94% of votes cast in favor of the company's compensation of its named executive officers. In 2013, the Compensation Committee did not make any material changes to its executive compensation policies.

2013 Compensation Highlights

In 2013, we grew earnings per share by 9% despite a challenging economic environment, due to management's proactive gross margin and cost control.

In light of this achievement, the key components of 2013 executive compensation were as follows:

Salaries Base salaries were reviewed and left unchanged or moderately increased based on salary survey data, local market conditions, and individual performance.

Annual Cash Incentives The average target achievement for our named executive officers in 2013 was 99.2%, resulting in incentive payments of between 28% and 67% of base salary.

Long-Term Incentives The value of stock options granted to our named executive officers in 2013 increased by between 4% and 12% compared to 2012, reflecting both survey data and expansion of certain individual responsibilities.

Compensation Program Elements

The company's compensation program consists of three main elements: base salary, an annual cash incentive, and long-term incentive compensation. The majority of executive compensation is performance based, and is paid in the form of the annual cash incentive and long-term incentive compensation.

17

COMPENSATION DISCUSSION AND ANALYSIS

Our goal is to ensure that the three main elements of compensation are carefully considered and fair, and that executives are motivated to further the interests of shareholders, both short-term and long-term.

Each year the Compensation Committee separately reviews each of the three elements, as well as total compensation. It takes into account the company's growth and performance, individual executive performance, and developments in the markets in which we compete for talent. In evaluating the competitiveness of the company's executive compensation, the Compensation Committee periodically conducts both broad based surveys of executive compensation and surveys of the compensation of executives in the instruments and electronics industries. In 2013, Pearl Meyer & Partners provided survey data using confidential surveys relating to CEO and senior executive compensation at technology companies in comparable industries, including scientific instruments firms, and firms of similar size to the company. They also provided data on peer company compensation at Ametek, Bio-Rad Laboratories, Bruker, FLIR Systems, Pall, PerkinElmer, Rockwell Automation, Roper Industries, Teledyne Technologies, and Waters. The Compensation Committee also reviewed CEO compensation data from certain Swiss industrial public companies of a similar size and international organizational structure as the company.

Base Salary

The company's goal is to pay average base salaries that are approximately at or somewhat below the median. Based on broad based and peer company surveys, we believe base salaries for our executive officers are generally slightly lower than those at peer companies. Although a competitive base salary is necessary and appropriate to attract and retain high quality talent, we believe the majority of executive compensation should be paid in ways that link pay with performance. We accomplish this through the annual cash incentive and long-term incentives.

Changes in 2013 Compensation

Based on its review of the salary survey data referred to above, local market conditions, and taking into account each individual's performance, the Compensation Committee left the 2013 base salary for Messrs. Filliol, Caratsch, and Kirk unchanged and increased the base salary for Mr. de la Guéronnière and Mr. Donnelly by 2%, in each case effective April 1st. Based on the quality of leadership of the management team, and the overall performance of the company, the committee believes management's compensation is appropriate.

Annual Cash Incentive

We link pay with performance through our cash incentive plan, called POBS Plus. The purpose of the incentive plan is to provide an incentive to key employees of the company to reward them for driving the financial success of the company as measured based on objective financial criteria. The incentive plan is administered by the Compensation Committee. At the end of each year, the Compensation Committee establishes the performance targets on which each participant's incentive is based for the coming year. The targets used relate closely to our annual plan and budget, which are approved by the full Board of Directors each year. The targets are set taking into account the economic environment, the health of the company's end-user markets, and the challenges and opportunities of the company's various businesses. See *2013 Threshold, Target, Maximum and Actual Performance* below.

In addition, between 12 and 20 percent of the incentive for each participant in the POBS Plus incentive plan is based on individual objective performance targets relating to the company's annual business objectives. The Compensation

Committee directly evaluates the Chief Executive Officer's performance on his individual targets, and reviews the CEO's recommendation on the individual target performance of the other executive officers. The Compensation Committee reviews the audited results of the company's performance against each participant's performance targets and determines the incentive payment, if any, earned by each participant.

COMPENSATION DISCUSSION AND ANALYSIS

Cash Incentive Payment as % of Base Salary

Name	Achievement vs. Target Levels	
	100% (Target)	130% (Maximum)
Olivier A. Filliol	50 %	169.4 %
William P. Donnelly	45 %	157.5 %
Other Named Executive Officers	45 %	160.5 %

The plan provides that targets for 100% achievement should be challenging and ambitious, but also realistic and attainable such that it is possible to achieve and exceed them. The impact of over- or under-achieving targets on the annual incentive can be significant. The company and Board of Directors therefore approach the target setting process with care and consideration. We believe targets are set consistently with the philosophy of the POBS Plus plan that they be challenging and ambitious. In the last five years the average target achievement for executive officers has ranged from 97% to approximately 120%, resulting in incentive payments of between 23% and 155% of base salary.

2013 Threshold, Target, Maximum and Actual Performance

<u>2013 Performance Targets</u>	<u>Threshold</u>	<u>Target</u>	<u>Maximum</u>	<u>Actual</u>
Adjusted Non-GAAP Earnings Per Share(1)	\$ 10.46	\$ 10.70	\$ 11.42	\$ 10.58
Net Cash Flow(2)	\$ 354.9 million	\$ 364.1 million	\$ 391.7 million	\$ 385.4 million
Last 12 Months Inventory Turnover	5.15	5.20	5.35	5.17
Group Sales (at budgeted currency rates)	\$ 2,385.0 million	\$ 2,409.1 million	\$ 2,481.4 million	\$ 2,363.6 million

(1) Excludes purchased intangible amortization (net of tax) of \$3.6 million, and restructuring charges (net of tax) of \$15 million.

(2) Represents cash flow from operations before tax payments and voluntary pension payments less capital expenditures, restructuring payments, and excess tax benefits from share-based payment arrangements.

The 2013 weighted performance relative to targets resulted in the following incentive payments as a percent of base salary under the POBS Plus plan for 2013:

Mr. Filliol	47 %
Mr. Donnelly	39 %
Mr. Caratsch	28 %
Mr. de la Guéronnière	67 %
Mr. Kirk	32 %

Clawback Policy

The board believes it is good corporate governance and in the interests of shareholders to have a recoupment or clawback policy concerning incentive-based compensation, specifically with regard to the company's variable cash compensation, the POBS Plus plan. As a matter of basic fairness, the board wishes to correct for errors in the event of certain accounting restatements affecting incentive-based compensation to ensure that amounts paid are not erroneously too high.

In July 2013, the board adopted a clawback policy that applies to all executive officers and certain other individuals. In the event the company is required to prepare an accounting restatement due to the material noncompliance of the company with any financial reporting requirement under the securities laws (other than a restatement caused by a change in applicable accounting rules or interpretations), the board will review the specific facts and circumstances and take such actions as it considers appropriate in its sole discretion with respect to the incentive-based compensation of covered individuals as follows:

With respect to POBS Plus cash incentives, the board will determine the amount that would have been due under the restated financial results, and whether to seek reimbursement of any excess amount that was paid (net of any taxes paid but taking into account any deductions that may be taken upon repayment) for cash incentives paid within the three-year period prior to the determination of the necessary restatement.

COMPENSATION DISCUSSION AND ANALYSIS

Long-Term Incentives

Another method we have historically used to link pay with performance is awarding stock options, which we believe aligns management's long-term interests with those of the company's shareholders. Our stock options (including those granted in 2013) typically vest over five years, 20% per year, starting on the first anniversary of the date of grant. In 2008, we granted certain performance options that would only vest in five years if the company met a 15% per year

EPS growth target for the five year period 2008-2012. The company satisfied the EPS growth target, and the performance options vested by their terms on March 1, 2013. Options generally have a term of ten years, except for certain grants to Swiss residents having terms of ten and a half years.

In determining the size of each named executive officer's stock option grants, the Compensation Committee evaluates the relative importance of the individual's job, the contribution and performance of the individual, their years of service and their total compensation, as well as competitive information about equity as described above relative to each individual. In 2013, these factors led to the grant of stock options with the grant date fair values each as described in the table Grant of Plan-Based Awards.

The Compensation Committee believes that past performance is just one factor to take into account in determining the size of future awards.

Option Grant Practices and Policy

The Compensation Committee approves all option grants. Option grants are typically made once each year when the overall annual compensation review takes place (typically in late October or early November each year). The Compensation Committee and Board meeting dates are set several years in advance, and the option grants are made on the meeting date. This is typically shortly before the announcement of the company's earnings. In the past, the Committee has also made initial grants to individual executive officers at the time they started serving as executive officers. All options have an exercise price equal to the closing price of the company's shares on the New York Stock Exchange on the date of grant.

Equity Ownership Guidelines

The Compensation Committee feels it is important for senior executives to have a significant portion of their ongoing compensation tied to the interests of shareholders. In 2009, the Compensation Committee implemented equity ownership guidelines for executive officers that call for the individuals to accumulate equity ownership as follows:

<u>Category</u>	<u>Value of Equity Ownership Required</u>
CEO	5x base salary
Executive Vice President and CFO	3x base salary
Other executive officers	2x base salary

The following types of equity count towards the ownership requirement: shares held directly, vested and unvested restricted stock units (if any), and the in-the-money value of vested stock options. Individuals have a five-year period to meet the ownership requirement, running from July 2009. For officers joining after that date, the five-year period

runs from the date of appointment as an officer. If an individual does not meet the requirement within the relevant time periods, the Compensation Committee has the discretion not to make further equity grants to that person. If an individual has met their requirement but subsequently falls below due to a drop in share price, they will have 24 months to rebuild their ownership, subject to Compensation Committee discretion. As of June 30, 2013, all officers who had been serving with the company for more than three years had already met their equity ownership target.

Company Equity Hedging Policy

The board and the company's executive officers are prohibited from hedging the ownership of company securities, including trading in publicly-traded options, puts, calls, or other derivative instruments that are directly related to company securities.

COMPENSATION DISCUSSION AND ANALYSIS

Share Purchase Plan

In 2007, the board approved the Mettler-Toledo 2007 Share Purchase Plan. Under the plan, executive officers may purchase company shares using all or a portion of their cash incentive payable under the POBS Plus plan, subject to approval of the Compensation Committee. The issue price for shares under the plan will be equal to the New York Stock Exchange closing price on the date of issuance, which occurs before March 15 of each year. All shares issued pursuant to the plan are restricted for a period of five years from the date of issuance, during which time they may not be sold, assigned, transferred or otherwise disposed of, nor may they be pledged or otherwise hypothecated, except in the case of death or disability.

Swiss Pension Plan

The Swiss-based executive officers (Messrs. Caratsch, Filliol, and Kirk) participate in a Swiss pension plan called Mettler-Toledo Fonds, which is a cash balance benefit (or pension) plan. Each year we contribute to the plan 22% of each participating named executive officer's covered salary. The covered salary for pension purposes is equal to 77.27% of the individual's target salary (consisting of the base salary plus the cash incentive earned at 100% target achievement) and was capped by Swiss law at a maximum of CHF 842,400 in 2013 and CHF 835,200 in 2012 and 2011. Individual employees may also make their own direct contributions to the plan from their own funds. Amounts in the plan bear interest depending on the annual performance of the pension plan, including certain minimum amounts as set by Swiss law. Retirement benefits are paid in the form of a lump-sum payment when the employee reaches the normal retirement age under the plan of 65.

Tax Treatment

Section 162(m) of the Internal Revenue Code prohibits the company from deducting compensation in excess of \$1 million paid to certain employees, generally its CEO and its three other most highly compensated executive officers (excluding the CFO), unless that compensation qualifies as performance-based compensation. We maintain flexibility to balance the need to fairly compensate the company's executive officers with the company's ability to deduct compensation pursuant to Section 162(m).

Tax Equalization Agreements (Swiss Executives)

The company is a party to tax equalization agreements with Messrs. Caratsch, Filliol, and Kirk, who are non-U.S. citizens and non-U.S. residents and who pay income tax on their earnings in Switzerland. The individuals do not receive any cash benefit from the agreements, the principle of which is to leave the employee in exactly the same position (i.e., no better and no worse off) than if they had not become subject to U.S. taxation on a portion of their income. Under the tax equalization agreements, the company has agreed to pay taxes borne by these executives in respect of incremental taxation being due in the United States by virtue of their work for the company there. Because the individuals are left no better and no worse off than had they not become subject to U.S. taxation, the Compensation Committee does not believe it is appropriate to take into account the U.S. taxes paid by the company under the tax equalization agreements when determining the employees' compensation each year. In cases where the individual's Swiss taxes are lower as a result of the company having paid these U.S. tax amounts, the individual may need to make a payment to the company under the tax equalization agreement.

Employment Agreements

The company is a party to employment agreements with each of the named executive officers. These agreements provide for a base salary subject to adjustment and participation in our cash incentive plan and other employee benefit plans. Each agreement prohibits the executive from competing with the company for a period of 12 months after termination of employment. The agreements have no fixed term but may be terminated without cause by either party on 12 months notice, during which period the executive is entitled to full compensation under the agreement, including payment of base salary, target cash incentive, and continuation of benefits.

The equity compensation arrangements are separately described in the sections below entitled Grants of Plan-Based Awards and Outstanding Equity Awards at Fiscal Year-End. The operation of the employment agreements in the context of a termination or a change in control is separately described below under Payments Upon Termination or Change in Control.

All amounts shown were paid in Swiss francs, except amounts paid to Mr. Donnelly and U.S. tax equalization payments, which were paid in U.S. dollars, and amounts paid to Mr. de la Guéronnière, which were paid in Euros.

(1) For purposes of this table, all amounts paid in Swiss francs were converted to U.S. dollars at a rate of CHF 0.9272 to \$1.00, and amounts paid in Euros were converted to U.S. dollars at a rate of EUR 0.7534 to \$1.00, in each case the respective average exchange rate in 2013.

(2) Represents the aggregate grant date fair value of stock option awards for each individual computed in accordance with ASC 718. The valuation assumptions associated with such awards are discussed in Note 12 to the company's financial statements included in the Form 10-K for the fiscal year ending December 31, 2013.

(3) Amounts shown are the annual cash incentive earned under the company's POBS Plus incentive plan.

(4) Represents the change in actuarial present value of each individual's accumulated benefit under the Mettler-Toledo Fonds pension plan, a Swiss cash balance benefit plan, consisting of the company's contributions to the plan on behalf of each individual. In the case of Mr. de la Guéronnière, represents the company's contributions to the French pension plan.

(5) Includes tax equalization payments and other miscellaneous benefits as set out below. As described in the Compensation Discussion and Analysis above, the individuals do not receive any cash benefit from the tax equalization payments. The principle of the tax equalization is to leave the employee in exactly the same position (i.e., no better and no worse) than if they had not become subject to U.S. taxation on a portion of their income. As

such, the Compensation Committee does not believe it is appropriate to include these tax equalization amounts when determining the employees' compensation each year. Negative amounts represent payments by the individual to the company, for example as a result of lower Swiss taxes being due by virtue of the U.S. tax payments. Miscellaneous personal benefits, none of which individually exceeds \$25,000 in value unless otherwise stated, include car allowances, expense allowances, tax return preparation, and the value of meals in the company cafeteria. In Mr. Donnelly's case, they also include the company's matching payments under its 401(k) plan, access to a company-rented apartment in Columbus in lieu of hotel accommodations (through mid-2013), and the dollar value of life insurance premiums paid by the company. In Mr. de la Guéronnière's case, benefits in 2011 include a housing allowance of \$26,743 and a schooling allowance of \$18,708. In Mr. Kirk's case, benefits in 2013 and 2012 include a schooling allowance of \$97,066.

Represents the range of cash incentive payments possible under the company's POBS Plus incentive plan in respect of the 2013 fiscal year. The maximum incentive possible is 169.4% of base salary for Mr. Filliol, 157.5% for Mr. Donnelly, and 160.5% of base salary for the other named officers. The target cash incentive is 50% of base salary for Mr. Filliol and 45% of base salary for the other named officers. The actual incentive earned in each year is included in the Summary Compensation Table above.

(2)

Each of the stock and option awards was made under the Mettler-Toledo International Inc. 2013 Equity Incentive Plan. The option grants vest in five equal annual installments starting on the first anniversary of the date of grant. The grant date fair value of the options of \$66.33 per share has been computed in accordance with ASC 718 using the Black-Scholes option pricing model, based upon the following assumptions: estimated time until exercise of five years; a risk-free interest rate of 1.31%; a volatility rate of 28%; and a zero dividend yield. The Black-Scholes option pricing model is only one method of valuing options. The actual value of the options may significantly differ, and depends on the excess of the market value of the common stock over the exercise price at the time of exercise.

Mr. Kirk received a grant of 1,090 restricted stock units in February 2012. The restrictions on these restricted stock (2) units lapse ratably over five years from the first anniversary of the date of grant. (1) The Swiss-based executive officers (Messrs. Caratsch, Filliol, and Kirk) participate in a Swiss pension plan called Mettler-Toledo Fonds, which is a form of cash balance benefit (or pension) plan. Each year we contribute to the plan 22% of each participating named executive officer's covered salary. The covered salary for pension purposes is equal to 77.27% of the individual's target salary (consisting of the base salary plus the cash incentive earned at 100% target achievement) and was capped by Swiss law at a maximum of CHF 842,400 in 2013 and CHF 835,200 in 2012 and 2011. Mr. de la Guéronnière participates in the French pension system, which is a type of contributory pension plan under which pensions are calculated on the basis of points acquired according to contributions made by the employer and employee during the employment period.

(2) Swiss franc amounts have been converted to U.S. dollars at a rate of CHF 0.8904 to \$1.00, the exchange rate on December 31, 2013. Individual employees may also make their own direct contributions to the plan from their own funds. Of the amounts shown, Mr. Filliol has individually contributed \$3.4 million, Mr. Caratsch has contributed \$3.6 million, and Mr. Kirk has contributed \$0.7 million.

Payments Upon Termination or Change in Control

Pursuant to their employment agreements described above, each of the named executive officers may be terminated after giving the requisite notice. In the event of certain terminations, the executives are entitled to receive full compensation during the notice period.

The following table reflects payments that would have been made to the named executive officers if they had been terminated on various grounds, assuming that notice of termination was given on December 31, 2013. The actual amounts to be paid out can only be determined at the time of any such executive's termination of employment. This table does not include information about any contracts, agreements, plans, or arrangements to the extent they do not discriminate in scope, terms, or operation in favor of executive officers and that are available generally to all salaried employees.

In all termination scenarios, the named executive officer retains vested amounts in the company's pension plans these amounts are described in the Present Value of Accumulated Benefit column of the Pension Benefits table above. In a change in control situation, unless otherwise provided in an option agreement, all unvested outstanding (1) options will accelerate and become fully exercisable. Starting in 2013, grants to the named executive officers (except Messrs. Filliol and Donnelly) do not vest automatically upon a change in control. For purposes of the table below, we assume that all outstanding options accelerate and become fully exercisable as of December 31, 2013 (and that unvested restricted stock units vest in the case of Mr. Kirk). The expense associated with this acceleration

is the same as absent a change in control, but would be incurred by the company earlier than over the normal course of the vesting period. The value of the named executive officers' unvested stock options (and unvested restricted stock units of Mr. Kirk) as of December 31, 2013 is as follows (calculated as the difference between the share price on that date of \$242.59 and the respective exercise price):

Name	Net Value of Accelerated Unvested Stock Options
Olivier A. Filliol	\$ 12,650,272
William P. Donnelly	4,805,375
Thomas Caratsch	1,965,115
Marc de la Guéronnière	2,446,363
Simon Kirk	587,596

The named executive officers are not entitled to any additional compensation from the company or any additional option vesting upon a termination for cause or termination relating to disability or upon death or retirement. In a (2) termination for cause, each employee forfeits vested as well as unvested stock options. U.S.-based employees have company-provided life insurance paying one time their annual compensation (up to \$500,000) upon the employee's death during employment. In Mr. Donnelly's case, the insured amount is \$500,000.

In all other terminations (including not for cause or for good reason), the individual is entitled to base salary, the cash incentive, and certain benefits for the contractual notice period in their respective employment agreement. (3) Pursuant to the operation of our equity plans applicable to all employees, the individual is also entitled to additional option vesting during the notice period.

COMPENSATION COMMITTEE REPORT

The Compensation Committee assists the board in reviewing and monitoring the compensation of the company's executives. The Compensation Committee operates pursuant to a written charter, a copy of which can be found on the company's website at www.mt.com under About Us/Investor Relations/Corporate Governance.

The Compensation Committee is responsible for establishing compensation arrangements that allow the company to retain, attract, and motivate highly qualified employees. The Compensation Committee reviews the company's total compensation budget, and sets the annual compensation of the company's executive officers, including the Chief Executive Officer. It also evaluates and sets the compensation of the directors. In carrying out its duties, the Compensation Committee receives input and recommendations from the Chairman, Head of Human Resources, and the Chief Executive Officer regarding the amount and form of executive and director compensation.

Pursuant to its charter, the Compensation Committee has the sole authority to retain, terminate, obtain advice from, oversee, and compensate its outside advisors, including its compensation consultant. The Company has provided appropriate funding to the Committee to do so. In 2013, the Compensation Committee retained Pearl Meyer & Partners (PM&P) as its independent executive compensation consultant. PM&P reports directly to the Compensation Committee, and the Compensation Committee may replace PM&P or hire additional consultants at any time. PM&P attends meetings of the Compensation Committee, as requested, and communicates with the Chair of the Compensation Committee between meetings; however, the Compensation Committee makes all decisions regarding the compensation of the company's executive officers.

PM&P provides various executive compensation services to the Compensation Committee at its request with respect to the company's executive officers and other key employees, as well as the Board of Directors and Chairman of the Board. The services PM&P provides include advising the Compensation Committee on the principal aspects of the executive compensation program and evolving best practices, and providing market information and analysis regarding the competitiveness of the company's program design and awards in relation to the company's performance.

The Compensation Committee reviews the services provided by its outside consultants and believes that PM&P is independent in providing executive compensation consulting services. The Compensation Committee conducted a specific review of its relationship with PM&P, and determined that PM&P's work for the Committee in 2013 did not raise any conflicts of interest, consistent with the guidance provided under the Dodd-Frank Act, or applicable rules and regulations of the SEC and the NYSE. In making this determination, the Compensation Committee noted that during 2013:

PM&P did not provide any services to the company or its management other than service to the Compensation Committee, and its services were limited to executive compensation consulting. Specifically, it did not provide, directly or indirectly through affiliates, any non-executive compensation services, including, but not limited to, pension consulting or human resource outsourcing;

Fees from the company were less than 0.02% of PM&P's total revenue during the year of 2013; PM&P maintains a Conflicts Policy, which was provided to the Compensation Committee, with specific policies and procedures designed to ensure independence;

With regard to whether any of the individuals on the PM&P team assigned to the company has any business or personal relationship with members of the Compensation Committee outside of the engagement, there is just one business relationship which we and PM&P have reviewed and believe does not impact PM&P's independence: Mr. Salice is on the Compensation Committee of Waters Corporation, which is a client of Mr. Van Putten, the lead consultant from PM&P providing services to the company's Compensation Committee.

COMPENSATION COMMITTEE REPORT

None of the PM&P consultants working on the company engagement, or PM&P, had any business or personal relationship with executive officers of the company; and

None of the PM&P consultants working on the company engagement directly own company stock.

The Committee monitors the independence of its compensation consultant on an annual basis.

The Compensation Committee has reviewed and discussed with management the Compensation Discussion and Analysis contained in this Proxy Statement. On the basis of such review and discussions, the Compensation Committee recommended to the Board of Directors, and the board approved, that the Compensation Discussion and Analysis be included in this Proxy Statement.

Respectfully submitted by the members of the
Compensation Committee:

Thomas P. Salice, *Chairman*

Michael A. Kelly

Hans Ulrich Maerki

PROPOSAL THREE: ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

Under the Dodd-Frank Wall Street Reform and Consumer Protection Act enacted in July 2010 (the Dodd-Frank Act), the shareholders of the company are entitled to vote at the annual meeting to approve the compensation of the company's named executive officers, as disclosed in this proxy statement pursuant to Item 402 of Regulation S-K under the Securities Act and the Exchange Act.

As described more fully in the Compensation Discussion and Analysis section of this proxy statement and accompanying tables and narratives, our compensation program consists of three main elements: base salary, an annual cash incentive, and long-term incentive compensation. Our goal is to ensure that the three main elements of compensation are carefully considered and fair, and that executives are motivated to further the interests of shareholders, both short and long-term. The company has in the past sought approval from shareholders regarding the incentive plans that we use to motivate, retain, and reward our executives. Those incentive plans, including the POBS Plus Incentive System for Group Management and the 2013 Equity Incentive Plan, make up a majority of the pay that the company provides to our executives.

We have a long track record of delivering superior results for our shareholders. In the ten year period ending December 31, 2013, the company's total return to shareholders has been 475%, compared with 104% for the S&P 500 and 206% for companies in SIC Code 3826 (Laboratory Analytical Instruments). Our executive compensation programs have played a material role in our ability to drive strong financial results and attract and retain a highly qualified team to run the company.

We believe our executive compensation programs are transparent, consistent with current best practices, appropriately benchmarked to peers, and effective in supporting our company and our business objectives.

Our compensation programs are substantially tied to the achievement of key business objectives and to long-term shareholder returns.

Performance is objectively measured.

Targets are set at challenging levels.

Stock options granted to executives have a ten-year term and vest over five years, which helps management focus on sustainable and long-term value creation.

We carefully monitor the compensation of executives from companies of similar size and complexity to help us to ensure our programs are within the range of market practices.

The company seeks your advisory vote on our executive compensation programs. Shareholder advisory votes on our executive compensation programs will occur annually. After the 2014 Annual Meeting of Shareholders the next such shareholder advisory vote will occur at the 2015 Annual Meeting of Shareholders. We ask that you support the compensation of our named executive officers as disclosed in the Compensation Discussion and Analysis section and the accompanying tables and narratives contained in this proxy statement. Because your vote is advisory, it will not be binding on the Board of Directors. However, the board will review the voting results and take such results into consideration when making future decisions regarding executive compensation. Accordingly, we ask our shareholders to vote **FOR** the following resolution at the annual meeting:

RESOLVED, that the compensation paid to the company's named executive officers, as disclosed pursuant to Item 402 of Regulation S-K, including the Compensation Discussion and Analysis, compensation tables and narrative

discussion, is hereby APPROVED.

The Board of Directors recommends that you vote *FOR* the approval of the compensation of our named executive officers as disclosed in this proxy statement pursuant to the compensation and disclosure rules of the Securities and Exchange Commission.

Section 16(a) Beneficial Ownership Reporting Compliance

Section 16(a) of the Securities Exchange Act of 1934 requires the company's executive officers and directors, and persons who own more than ten percent of a registered class of the company's equity securities, to file reports of ownership and changes in ownership with the Securities and Exchange Commission (the SEC) and The New York Stock Exchange.
