3 October 2012

STATEMENT ON EBA CAPITAL EXERCISE

## Edgar Filing: HSBC HOLDINGS PLC - Form 6-K

HSBC Holdings plc notes the announcements made today by the European Banking Authority and the Financial Services Authority regarding the final assessment of the capital exercise and fulfilment of the EBA December 2011 Recommendation, which shows the following result for HSBC Holdings plc.

HSBC's consolidated Core Tier 1 ('CT1') ratio under the EBA's published capital definitions and prescribed approach was 11.3% as at 30 June 2012. Accordingly HSBC meets the 9% Core Tier 1 ratio including the sovereign buffer as stated in the EBA December 2011 recommendation.

The appendices, via the link below and also available at <http://www.hsbc.com/1/2/capitalposition>, provide further details, based on positions as at 31 December 2011 and 30 June 2012 of: (A) the composition of CT1 capital based on EBA's published capital definitions and prescribed approach; (B) risk-weighted assets; and (C) European Sovereign exposures - central, regional and local government in the EEA.

HSBC will issue an Interim Management Statement for the third quarter of 2012 on 5 November 2012.

Notes to editors:

### 1. Background on the EBA capital exercise

The EBA Recommendation on the creation of temporary capital buffers to restore market confidence was adopted by the Board of Supervisors on 8 December 2011 to address the difficult situation in the EU banking system, especially with regard to the sovereign exposures, by restoring stability and confidence in the markets. The Recommendation was part of a suite of measures agreed at EU level.

The Recommendation called on National Authorities to require banks included in the sample to strengthen their capital positions by building up an exceptional and temporary buffer such that their Core Tier 1 capital ratio reaches a level of 9% by the end of June 2012. In addition, banks were required to hold an exceptional and temporary capital buffer against sovereign debt exposures to reflect market prices as at the end of September 2011. The amount of the sovereign capital buffer has not been revised.

The initial sample of the Capital Exercise included 71 banks. However, the 6 Greek banks were treated separately as the country is currently under an EU/IMF assistance programme. Moreover, four banks (Österreichische Volksbank AG, Dexia, WestLB AG and Bankia) from the original sample have been identified as undergoing a significant restructuring process, and are being monitored separately. Therefore, the final assessment published today refers to 61

banks.

2. HSBC Holdings plc

HSBC Holdings plc, the parent company of the HSBC Group, is headquartered in London. The Group serves customers worldwide from around 6,900 offices in over 80 countries and territories in Europe, the Asia-Pacific region, North and Latin America, and the Middle East and North Africa. With assets of US\$2,652bn at 30 June 2012, the HSBC Group is one of the world's largest banking and financial services organisations.
