Today's announcement on Barclays growth, ABN AMRO and half-year results

Today we announced a unique opportunity for Barclays to accelerate dramatically its growth, a revised offer for ABN AMRO and excellent half year results.

The investments by China Development Bank and Temasek and the strategic partnership with China Development Bank will deepen our already strong Asian franchise. Barclays Capital will have unprecedented access to distribute financing and risk management solutions, products and services into China. BGI becomes one of China Development Bank's preferred asset managers. Our Wealth business, with its Asian Head Office already in Singapore, will also benefit from this unique access into China.

The revised ABN AMRO offer is an excellent one and I am confident that their shareholders and Barclays shareholders will see the terrific value that we should be able to create with the enlarged geographic footprint and capabilities of our combined businesses.

We can all be proud that our new strategic Asian investors were introduced and the revised offer structure executed by Barclays Capital as advisers to Barclays.

The full half year earnings announcement will be made on August 2nd and there will be an all staff update on August 3rd when I will give the Investment Banking and Investment Management (IB&IM) teams a deeper insight into today's announcement and what it means, as well as more detail on our results.

Barclays Group had a strong first half of the year. Profit before tax increased 12% to £4,101m and income rose 9% to £11,902m. IB&IM drove this performance and delivered more profits in the first six months of 2007 than we did in the whole of 2005 and that was a very good year.

Edgar Filing: BARCLAYS PLC - Form 425

Barclays Capital delivered record results, with its two best quarters ever. Profit rose 33%. This was due to a very strong income performance driven by continued strong growth across asset classes and regions, and in particular across the structured credit and credit derivatives, equities and commodities platforms, underpinned by the strength of the client franchise and its focus on delivering risk management and financing solutions.

Barclays Global Investors profit rose 7% in Sterling, while both income and profits were up substantially more in Dollars. This reflects the continued strength of the franchise and significant new flows and revenues into our suite of exchange traded funds, alternative asset classes, and quantitative active strategies.

The profit of Barclays Wealth rose 34%. This reflects strong income growth from increased client funds and transaction volumes as well as our continued investments in the business in areas such as increased hiring of private bankers and investment professionals and upgrading our technology and operating platforms.

Once again I am asking you to keep focused on delivering to our clients around the world. I know that we have the stamina and the determination to see this merger through while we continue to build on our achievements and deliver a first class service to our clients. I want to thank you all for the contribution you make and will continue to make to Barclays. I am very proud to be a part of this team.
