The equity underwriting business performed stronger than is normally seen for the first quarter, while M&A-related business enjoyed an increase in activity, and international operations contributed to revenue led by Europe, which has been the focus of a strategic build up. These factors combined to produce a record level of first-quarter net revenue since we started reporting results on a quarterly basis in the year ended March 31, 2002.

In equity financing, we acted as lead manager for such deals as a public offering by Daikin Industries and a secondary offering by Japan Petroleum Exploration. We ranked number one in the Equity and Equity-related (Japan) league table² for the first half of CY2007.

In M&A, we acted as financial advisor on All Nippon Airways' sale of its hotel business and the business restructuring of Jupiter TV by Sumitomo Corporation. We also ranked number one in the Any Japanese Involvement Financial Advisors league table² for M&A Advisory during the first half of CY2007.

First quarter business segment results

Domestic Retail

In Domestic Retail, despite a decline in first-quarter net revenue compared to the prior quarter, income before income taxes increased 16.8% quarter-on-quarter to 50.6 billion yen.

Domestic Client Assets rose by 3.1 trillion yen from the end of March to 88.3 trillion yen, while client accounts with a balance reached 4 million. Nomura is well on its way to achieving its target of 100 trillion yen in Domestic Client Assets and 5 million accounts by the end of March 2010.

A total of twelve investment trusts saw sales of over 30 billion yen during the quarter. As a result, commissions for the distribution of investment trusts reached 39.6 billion yen, a record level since the start of quarterly reporting. In addition, investment trust administration fees and other increased for the tenth straight quarter. Stock brokerage commissions, meanwhile, decreased 23.3% from the prior quarter to 22.2 billion yen due to a decline in equity agency transaction value.

Global Markets

In Global Markets, net revenue grew from the prior quarter and income before income taxes increased 8.8% quarter-on-quarter to 26.0 billion yen.

Net revenue in Fixed Income jumped 94.8% compared to the prior quarter, as order flow for interest rate and currency-linked structured bonds reached a record level, more than offsetting the 31.2 billion yen loss booked due to deterioration of the US residential mortgage-backed securities market.

Net revenue in Equity declined 7.0% from the previous quarter due primarily to a drop in MPO trading revenue.
