Report of Independent Registered Public Accounting Firm

Amgen Manufacturing, Limited, as Named Fiduciary, and the Plan Participants of The Retirement and

Savings Plan for Amgen Manufacturing, Limited

We have audited the accompanying statements of net assets available for benefits of The Retirement and Savings Plan for Amgen Manufacturing, Limited (the Plan) as of December 31, 2008 and 2007, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan s management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. We were not engaged to perform an audit of the Plan s internal control over financial reporting. Our audits included consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan s internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, and evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan at December 31, 2008 and 2007, and the changes in its net assets available for benefits for the years then ended, in conformity with U.S. generally accepted accounting principles.

Our audits were performed for the purpose of forming an opinion on the financial statements taken as a whole. The accompanying supplemental schedule of assets (held at end of year) as of December 31, 2008, is presented for purposes of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan s management. The supplemental schedule has been subjected to the auditing procedures applied in our audits of the financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements

December 31, 2008

1. Description of the Plan

The following description of The Retirement and Savings Plan for Amgen Manufacturing, Limited (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan s provisions.

General

The Plan was established effective January 1, 2002, restated effective January 1, 2006 and subsequently amended, with the most recent amendment effective on September 26, 2008. The Plan is a defined contribution plan covering substantially all domestic employees of Amgen Manufacturing, Limited (the Company), a wholly owned subsidiary of Amgen Inc. (Amgen). The Plan, as amended, is intended to qualify under sections 1165(a) and (e) of the Puerto Rico Internal Revenue Code of 1994, as amended (the PR Code) (see Note 5, *Income Tax Status*) and section 407(d)(3)(A) of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Effective January 1, 2008, subject to certain limitations (as defined in the Plan), participants may elect to make pre-tax contributions up to 30% of their eligible annual compensation. A participant s pre-tax contributions could not exceed \$8,000 in 2008. In 2007, a participant s pre-tax contributions could not exceed the lesser of \$8,000 or 10% of the participant s eligible compensation. Participants that were employed as of March 1, 2008 may elect to make after-tax contributions of up to 10% of their eligible compensation not to exceed a maximum of \$1,500 for 2008. Participants hired after March 1, 2008 may elect to make after-tax contributions beginning January 1, of the year following the year the participant was hired. In addition, combined pre-tax and after-tax contributions cannot exceed 30% of eligible compensation. Unless an employee has voluntarily enrolled in the Plan or has declined to participate in the Plan within the first 30 days of employment, all newly eligible participants are automatically enrolled in the Plan and contributions equal to 5% of their eligible compensation are withheld and contributed to the Plan as pre-tax contributions. Participants may elect to adjust, cease or resume their contributions at any time.

Participants may also contribute pre-tax and after-tax amounts representing distributions from other defined benefit or defined contribution plans qualified in Puerto Rico, referred to as rollover contributions (as defined in the Plan). Participants who are at least age 50 before the close of the Plan year can also make certain additional contributions, referred to as catch-up contributions, subject to the PR Code and Plan limits of \$1,000 per year in 2008 and 2007.

Each pay period, the Company makes a non-elective contribution for all eligible participants, whether or not they have elected to make contributions to the Plan, equal to 4% of each participant s eligible compensation (Core Contribution). In addition, the Company makes a contribution of 100% of up to 5% of eligible compensation contributed by the participant (Matching Contribution).

4

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

Participants select the investments in which their contributions, including Core Contributions and Matching Contributions (collectively Company Contributions), are to be invested, electing among various alternatives, including Amgen Inc. common stock (Amgen stock). Effective October 1, 2008, a maximum of 20% of contributions can be invested in Amgen stock; prior to October 1, 2008, a maximum of 50% of contributions could be invested in Amgen stock. Participants may transfer amounts among the investment options at any time, subject to certain limitations. Notwithstanding the foregoing, if 20% or more (50% or more prior to October 1, 2008) of the value of a participant s Plan account is invested in Amgen stock, no transfers from other investment options can be made to invest in Amgen stock.

The accounts of participants who had never made an investment election are allocated to investments under a qualified default investment alternative which is intended to be compliant with ERISA regulations. At any time, participants may elect to alter the investments in their accounts made under a qualified default investment alternative.

Vesting

Participants who are or became eligible employees on or after January 1, 2007 are 100% vested with respect to all of their individual contributions, Company Contributions, and earnings and losses (hereafter referred to as earnings) thereon. Participants who are not and do not become eligible employees on or after January 1, 2007 are subject to certain vesting conditions (as defined in the Plan) with regard to Company contributions and related earnings thereon.

Participant Accounts

Each participant s account is credited with the participant s contributions and an allocation of (a) Company Contributions and (b) earnings. The benefit to which a participant is entitled is the benefit that can be provided from the vested portion of the participant s account.

Plan Investments

Effective October 1, 2008, participants can invest in any of 14 different asset classes as well as Amgen stock or may actively manage their account under a self-directed brokerage arrangement under which a wider array of investment options are available. Each asset class has investments in mutual funds, collective trust funds and/or investment portfolios which are separately managed exclusively for the benefit of Plan participants. Prior to October 1, 2008, participants could invest in mutual funds, Amgen stock and investment portfolios which were separately managed exclusively for the benefit of Plan participants. The separately managed portfolios have underlying investments primarily in publicly traded common stocks of domestic and foreign entities, mutual funds, and/or collective trust funds.

Notes to Financial Statements (continued)

Payments of Benefits

Upon termination of employment, including termination due to disability (as defined in the Plan), death or retirement, a participant or their named beneficiary may elect to receive an amount equal to the value of their vested account balance in (a) a single lump sum payment in cash, (b) a single sum distribution in full shares of Amgen stock (with any fractional shares paid in cash), (c) a single sum distribution paid in a combination of cash and full shares of Amgen stock, or (d) a rollover distribution to an eligible retirement plan, as defined in the Plan.

Subsequent to termination of employment, a participant may also elect to maintain their vested account balance in the Plan, provided that their account balance is greater than \$1,000.

Certain restrictions apply to withdrawals from the Plan while a participant continues to be employed by the Company.

Participant Loans

Subject to certain restrictions, a participant can have outstanding up to two loans at any one time from their Plan account up to a combined maximum amount (as defined in the Plan) equal to the lesser of (a) 50% of their vested account balance or (b) \$50,000 less certain adjustments, as applicable (as defined in the Plan). Loans made prior to January 1, 2006 bear interest at fixed rates based on the average borrowing rates of certain major banks. Loans made on or after January 1, 2006 bear interest at fixed rates based on the prime rate plus one percentage point as published in The Wall Street Journal determined as of the last day of the calendar quarter preceding origination or such other rate as may be required by law. As of December 31, 2008, outstanding participant loans bear interest at rates ranging from 5.5% to 12.7%. Loans are generally payable in installments over periods ranging from one to five years, unless the loan is used to acquire a principal residence for which the term of the loan may be up to 20 years. Principal and interest payments are allocated to the participant s account.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, participants would receive distributions of their vested account balances.

Trustee

Effective April 1, 2007, Banco Popular de Puerto Rico became the Plan s trustee. Prior to April 1, 2007, Banco Santander Puerto Rico served as the Plan s trustee.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Fair Value Measurement

The investments of the Plan are reported at fair value. As of January 1, 2008, the Plan adopted the provisions of Statement of Financial Accounting Standards (SFAS) No. 157, *Fair Value Measurements* (SFAS 157). Under SFAS 157, fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date (see Note 3, *Fair Value Measurements*).

Investment Income and Losses

Dividend income is recognized on the ex-dividend date and interest income is recorded on an accrual basis. Unrealized gains and losses on investments are measured by the change in the difference between the fair value and cost of the securities held at the beginning (or date purchased if acquired during the Plan year) and the end of the year. Realized gains and losses from security transactions are recorded based on the weighted-average cost of securities sold.

Cash and Cash Equivalents

Cash and cash equivalents include cash and short-term interest-bearing investments with initial maturities of three months or less. Such amounts are recorded at carrying value, plus accrued interest.

Collective Trust Funds

Collective trust funds represent interests in pooled investment vehicles designed typically for collective investment of employee benefit trusts. The fair values of these investments, which are provided by the fund managers, are determined by reference to the fair value of the trusts underlying assets, which are principally marketable equity and fixed income securities and short-term investments.

Fully Benefit-Responsive Investment Contracts

The Plan holds units of collective trust funds that have investments in fully benefit-responsive investment contracts. As described in Financial Accounting Standards Board Staff Position, FSP AAG INV-1 and SOP 94-4-1, Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans (the FSP), such contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate qualified transactions with regard to the collective trust holding the contract. As required by the FSP, the Statement of Net Assets Available for Benefits presents these contracts at fair value with an adjustment to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Other Investments

Common stock (including Amgen stock), preferred stock and mutual funds traded in active markets are valued at closing prices on the last business day of each period presented. Such investments traded in markets that are not considered active are valued using broker or dealer quotations. Fixed income securities are valued using quoted market prices of recent transactions or are benchmarked to transactions of very similar securities. Participant loans are valued at carrying amount, which approximates fair value.

Due from/to Brokers

Purchases and sales of investments are recorded on a trade-date basis. Due from brokers and due to brokers arise from unsettled sale and purchase transactions as of December 31, 2008.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Fair Value Measurements

On January 1, 2008, the Plan adopted SFAS 157 which defines fair value as the price that would be received to sell an asset or paid to transfer a liability (the exit price) in an orderly transaction between market participants at the measurement date. The adoption of SFAS 157 did not have a material impact on the financial statements of the Plan.

SFAS 157 establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available. Observable inputs are inputs that market participants would use in pricing the asset or liability based on market data obtained from independent sources. Unobservable inputs are inputs that reflect assumptions about the inputs that market participants would use in pricing the asset or liability and are developed based on the best information available in the circumstances.

8

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

The fair value hierarchy is broken down into three levels based on the source of inputs as follows:

Level 1 Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities that are accessible;

Level 2 Valuations based on quoted prices for similar assets or liabilities in active markets, quoted prices for identical or similar assets or liabilities in markets that are not active and models for which all significant inputs are observable, either directly or indirectly;

Level 3 Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

The availability of observable inputs can vary among the various types of assets and liabilities. To the extent that the valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for financial statement disclosure purposes, the level in the fair value hierarchy within which the fair value measurement is categorized is based on the lowest level input that is significant to the overall fair value measurement.

The following fair value hierarchy table presents information about each major category of the Plan s financial assets as of December 31, 2008:

	Investment Assets at Fair Value as of December 31, 2008			
	Level 1	Level 2	Level 3	Total

Other	(42,716)		
	\$ (21,490,811)	\$ (3,767,925)	

5. Income Tax Status

The Plan received a determination letter from the Puerto Rico Treasury Department, dated June 22, 2007 and with an effective date of January 1, 2006, stating that the Plan is qualified, in form, under the PR Code and, therefore, the related trust forming a part of the Plan is exempt from taxation. Subsequent to this determination by the Puerto Rico Treasury Department, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the PR Code to maintain its qualification. The Company believes the Plan is being operated in compliance with the applicable requirements of the PR Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt. If, at any time, it is determined that the Plan is not qualified and the related trust is not tax exempt, the Company has indicated that it will take the necessary steps, if any, to bring the Plan s operations into compliance with

The Retirement and Savings Plan for Amgen Manufacturing, Limited

Notes to Financial Statements (continued)

the PR Code. Subsequent amendments have been structured and are intended to maintain the Plan s tax qualified status.

6. Services Provided by the Company

During 2008 and 2007, the Company has paid trustee fees and certain other administrative costs on behalf of the Plan.

7. Reconciliation of Financial Statements to Form 5500
