While maintaining a stable development, the Company strengthened efforts at business restructuring and has achieved remarkable success. First, the structure of regular premium business kept on improving, and the proportion of first-year regular premiums to the gross written premiums from first year long-term traditional insurance contracts increased to 97.63% in the first half of 2009 from 92.23% in the first half of 2008. The renewal premiums grew 23.03% from the corresponding period in 2008, and the proportion of renewal premiums to gross written premiums increased to 66.84% in the first half of 2009 from 60.44% in the corresponding period in 2008. Third, the value of new business was enhanced significantly. - The simple annualized gross investment yield = (the gross investment yield for the first half year/180)*365
