Item 1.01 Entry into a Material Definitive Agreement

On March 23, 2010, Pro-Pharmaceuticals, Inc. (OTC: PRWP), a developer of therapeutics that target Galectin receptors to treat cancer and fibrosis, has granted PROCAPS S.A. exclusive rights to market and sell DAVANAT[®] to treat cancer in Colombia, South America. Phase II clinical trial results for late-stage colorectal cancer patients demonstrate that when DAVANAT[®] is co-administered with the chemotherapy drug 5-FU, survival increased by 46% over the best standard of care and reduced serious adverse events associated with chemotherapy. PROCAPS S.A. is a large, international, privately held pharmaceutical company based in Barranquilla, Colombia.

Under terms of the agreement, PROCAPS S.A. is responsible for obtaining regulatory and pricing approval in Colombia, South America. PROCAPS S.A. also will be responsible for the vial filling, packaging, marketing and distribution of DAVANAT[®] in the region.

Pro-Pharmaceuticals will receive a transfer payment for each dose of DAVANAT[®] shipped to PROCAPS S.A., in addition to a royalty above a minimum annual sales threshold. PROCAPS S.A. will purchase an initial minimum order of DAVANAT[®] from Pro-Pharmaceuticals to qualify their vial-filling process and to replicate Pro-Pharmaceuticals' stability study. Pro-Pharmaceuticals retains all intellectual property rights and is the owner of the regulatory approval of DAVANAT[®] in the region.

PROCAPS S.A. has first negotiation rights to other countries in South and Central America and the Caribbean. Based on approval in Colombia, PROCAPS S.A. may then obtain the marketing authorization in more than 10 countries in Latin America.

According to the World Health Organization, there were approximately 24,000 new cases of colorectal cancer in 2007 in Colombia.
