2011 ANNUAL MEETING OF STOCKHOLDERS TO BE HELD ON

GENERAL INFORMATION ABOUT THE ANNUAL MEETING

Why Did You Send Me this Proxy Statement?

We sent you this Proxy Statement and the enclosed proxy card because the Board of Directors (the Board) of Amicus Therapeutics, Inc. (sometimes referred to as Amicus or the Company) is soliciting your proxy to vote at the 2011 Annual Meeting of Stockholders (the Annual Meeting) and any adjournments of the meeting to be held at the offices of Amicus Therapeutics, Inc., located at 6 Cedar Brook Drive, Cranbury, New Jersey 08512 on Tuesday, May 24, 2011 at 9:00 a.m. Eastern Daylight Time. This Proxy Statement along with the accompanying Notice of Annual Meeting of Stockholders summarizes the purposes of the meeting and the information you need to know to vote at the Annual Meeting. You are invited to attend the Annual Meeting to vote on the proposals described in this Proxy Statement. You do not need to attend the Annual Meeting to vote your shares. Instead you may simply complete, sign and return the enclosed proxy card, or follow the instructions on the enclosed proxy card to submit your proxy by telephone or on the internet.

We intend to mail this Proxy Statement, our 2010 Annual Report on Form 10-K, the attached Notice of Annual Meeting and the enclosed proxy card to all stockholders entitled to vote at the Annual Meeting on or about April 25, 2011.

IMPORTANT NOTICE REGARDING THE AVAILABILITY OF PROXY MATERIALS

FOR THE ANNUAL MEETING TO BE HELD ON MAY 24, 2011.

THE PROXY STATEMENT FOR OUR 2011 ANNUAL MEETING OF STOCKHOLDERS AND OUR ANNUAL REPORT ON FORM 10-K FOR THE YEAR ENDED DECEMBER 31, 2010 ARE AVAILABLE AT: www.sec.gov, through the Investor Relations section of our web site at www.amicustherapeutics.com or at

<http://www.amstock.com/ProxyServices/ViewMaterial.asp?CoNumber=15417>.

Who Can Vote?

Only stockholders of record at the close of business on April 1, 2011 are entitled to vote at the Annual Meeting. On this record date, there were 34,516,180 shares of our common stock (Common Stock) outstanding and entitled to vote. Each share of Common Stock is entitled to one vote. The Common Stock is our only outstanding class of voting stock.

Stockholder of Record: Shares Registered in Your Name

If, on April 1, 2011, your shares were registered directly in your name with our transfer agent, American Stock Transfer & Trust Company, then you are a stockholder of record. As a stockholder of record, you may vote in person at the Annual Meeting or vote by proxy. Whether or not you attend the Annual Meeting, we urge you to fill out and return the enclosed proxy card or follow the instructions on the proxy card to submit your vote by telephone or internet to ensure your vote is counted.

Beneficial Owner: Shares Registered in the Name of a Broker or Bank

If, on April 1, 2011, your shares were held, not in your name, but rather in an account at a brokerage firm, bank, dealer, or other similar organization, then you are the beneficial owner of shares held in street name and these proxy materials are being forwarded to you by that organization. The organization holding your account is considered the stockholder of record for purposes of voting at the Annual Meeting. As a beneficial owner, you have the right to direct your broker or other agent on how to vote the shares in your account. A number of brokers and banks enable beneficial owners to give voting instructions via telephone or the internet. Please refer to the voting instructions provided by your bank or broker. You are also invited to attend the Annual Meeting. However, since you are not the stockholder of record, you may not vote your shares in person at the meeting unless you provide a valid proxy from your broker, bank or other custodian.

What am I voting on?

There are three matters scheduled for a vote:

Election of two Class I directors;

Approval of the Amended and Restated 2007 Equity Incentive Plan; and

Ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for our fiscal year ending December 31, 2011.

How Do I Vote?

Whether you plan to attend the Annual Meeting or not, we urge you to vote by proxy. Voting by proxy will not affect your right to attend the Annual Meeting.

Stockholder of Record: If your shares are registered directly in your name, you may vote:

By mail. Complete and mail the enclosed proxy card in the enclosed postage prepaid envelope. Your proxy will be voted in accordance with your instructions. If you sign the proxy card but do not specify how you want your shares voted, they will be voted as recommended by our Board of Directors.

In person at the meeting. If you attend the meeting, you may deliver your completed proxy card in person or you may vote by completing a ballot, which will be available at the meeting.

By telephone. You may vote over the telephone by calling toll-free 1-800-PROXIES (1-800-776-9437) in the United States or 1-718-921-8500 from outside the United States and follow the recorded instructions. Please have your proxy card available when you call. Your vote must be received by 11:59 p.m. Eastern Daylight Time on May 23, 2011 to be counted.

Internet. You may vote via the internet by going to www.voteproxy.com and follow the on-screen instructions. Please have your proxy card available when you access the web page. Your vote must be received by 11:59 p.m. Eastern Daylight Time on May 23, 2011 to be counted.

Beneficial Owner: If your shares are held in street name (held in the name of a bank, broker or other nominee), you must provide the bank, broker or other nominee with instructions on how to vote your shares and can do so as follows:

Edgar Filing: AMICUS THERAPEUTICS INC - Form DEF 14A

By mail. You will receive instructions from your broker or other nominee explaining how to vote your shares.

In person at the meeting. Contact the broker or other nominee who holds your shares to obtain a broker's proxy card and bring it with you to the meeting. You will not be able to vote at the meeting unless you have a proxy card from your broker.

- 2 -

How Many Votes do I have?

Each share of Common Stock that you own as of April 1, 2011, entitles you to one vote on each matter to be voted on at the Annual Meeting.

What if I return a proxy card but do not make specific choices?

If you return a signed and dated proxy card without marking any voting selections, your shares will be voted **For** the election of both nominees for director, **For** the Amended and Restated 2007 Equity Incentive Plan, and **For** ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for our fiscal year ending December 31, 2011. If any other matter is properly presented at the Annual Meeting, your proxy (one of the individuals named on your proxy card) will vote your shares using his best judgment.

Will My Shares be Voted if I Do Not Return My Proxy Card?

If your shares are registered in your name, they will not be voted if you do not return your proxy card by mail or vote at the meeting as described above under **How Do I Vote?** If your shares are held in street name and you do not provide voting instructions to the bank, broker or other nominee that holds your shares as described above under **How Do I Vote?**, the bank, broker or other nominee has the authority to vote your unvoted shares only for Proposal 3 if it does not receive instructions from you. The broker, bank or other nominee will not be permitted to vote on the other Proposals without your voting instructions. We encourage you to provide voting instructions. This ensures your shares will be voted at the meeting in the manner you desire. If your broker cannot vote your shares on a particular matter because it has not received instructions from you and does not have discretionary voting authority on that matter or because your broker chooses not to vote on a matter for which it does have discretionary voting authority, this is referred to as a **broker non-vote**.

May I Revoke My Proxy?

If you give a proxy, you may revoke it at any time before the Annual Meeting. You may revoke your proxy in any one of the following ways:

signing a new proxy card and submitting it as instructed above;

notifying the Company's Secretary in writing before the Annual Meeting that you have revoked your proxy; or

attending the meeting in person and voting in person if you are a stockholder of record. Attending the meeting in person will not in and of itself revoke a previously submitted proxy unless you specifically request it.

What if I Receive More Than One Proxy Card?

You may receive more than one proxy card or voting instruction form if you hold shares of our Common Stock in more than one account, which may be in registered form or held in street name. Please vote in the manner described under **How Do I Vote?** for each account to ensure that all of your shares are voted.

How Does the Board of Directors Recommend That I Vote on the Proposals?

The Board of Directors recommends that you vote as follows:

FOR the election of the nominees for director;

FOR the approval of the Amended and Restated 2007 Equity Incentive Plan; and

FOR ratification of the selection of Ernst & Young LLP as our independent registered public accounting firm for our fiscal year ending December 31, 2011.

If any other matter is properly presented, the proxy card provides that your shares will be voted by the proxy holder listed on the proxy card in accordance with his best judgment. At the time this Proxy Statement was printed, we knew of no matters that needed to be acted on at the Annual Meeting, other than those discussed in this Proxy Statement.

What Vote is Required to Approve Each Proposal and How are Votes Counted?

Proposal 1: Elect Directors

The nominees for director who receive the most votes (also known as a plurality of the votes) will be elected. Abstentions are not counted as voting on the matter for purposes of electing directors. You may vote FOR all of the nominees, WITHHOLD your vote from all of the nominees or WITHHOLD your vote from any one or more of the nominees. Votes that are withheld will not be included in the vote tally for the election of directors. Brokerage firms do not have authority to vote customers' unvoted shares held by the firms in street name for the election of directors. These broker non-votes will have no effect on the results of this vote.

Proposal 2: Approve the Amended and Restated 2007 Equity Incentive Plan

The affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on such matter is required to approve the Amended and Restated 2007 Equity Incentive Plan. Abstentions will have the effect of a vote against this proposal. Brokerage firms do not have the authority to vote customers' unvoted shares held by the firms in street name on this proposal. These broker non-votes will have no effect on the results of this vote. Our Board has approved the Amended and Restated 2007 Equity Incentive Plan and believes it is in the best interest of the stockholders to approve it.

Proposal 3: Ratify Selection of Independent Registered Public Accounting Firm

The affirmative vote of a majority of the shares present in person or represented by proxy at the Annual Meeting and entitled to vote on such matter is required to ratify the selection of independent registered public accounting firm. Abstentions will have the effect of a vote against this proposal. Brokerage firms have authority to vote customers' unvoted shares held by the firms in street name on this proposal. If a broker does not exercise this authority, such broker non-votes will have no effect on the results of this vote. We are not required to obtain the approval of our stockholders to select our independent registered public accounting firm. However, our Board believes it is advisable to give stockholders the opportunity to ratify this selection. If our stockholders do not ratify the selection of Ernst & Young LLP as our independent registered public accounting firm for the fiscal year ending December 31, 2011, the Audit Committee of our Board will reconsider its selection.

How are votes counted?

Votes will be counted by the inspector of election appointed for the Annual Meeting, who will separately count For and Withhold and (with respect to proposals other than the election of directors) Against votes, abstentions and broker non-votes. Shares represented by abstentions and broker non-votes will be counted in determining whether there is a quorum for the Annual Meeting. Abstentions will have no effect on Proposal 1 but will have the effect of a vote against Proposals 2 and 3. Broker non-votes will not be counted towards the vote total for any proposal.

Who Will Pay the Costs of Soliciting these Proxies and How Are They Being Solicited?

We will pay all of the costs of soliciting these proxies. Our directors and employees may solicit proxies in person or by telephone, fax or email. We will pay these employees and directors no additional compensation for these services. We will ask banks, brokers and other institutions, nominees and fiduciaries to forward these proxy materials to their principals and to obtain authority to execute proxies. We will then reimburse them for their expenses.

What Constitutes a Quorum for the Meeting?

The presence, in person or by proxy, of the holders of a majority of the issued and outstanding shares of our Common Stock is necessary to constitute a quorum at the meeting. Votes of stockholders of record who are present at the meeting in person or by proxy, abstentions and broker non-votes are counted for purposes of determining whether a quorum exists.

How can I find out the results of the voting at the Annual Meeting?

Preliminary voting results will be announced at the Annual Meeting. Final voting results will be published in a Current Report on Form 8-K within four business days after the Annual Meeting.

When are stockholder proposals due for next year's Annual Meeting?

If you wish to submit a proposal to be considered for inclusion in next year's proxy materials or nominate a director, your proposal must be in proper form according to Securities and Exchange Commission (SEC) Regulation 14A, Rule 14a-8 and received by the Secretary of the Company no later than December 27, 2011. Proposals received after that date will not be voted on at the Annual Meeting. If a proposal is received before that date, the proxies that management solicits for the meeting may still exercise discretionary voting authority on the proposal under circumstances consistent with the proxy rules of the SEC. To be timely, stockholder notice of any such proposal must be received by us not earlier than November 27, 2011 and not later than December 27, 2011; provided, however, that in the event that the date of the Annual Meeting is more than thirty (30) days before or more than sixty (60) days after the anniversary date of the preceding year's Annual Meeting, notice by the stockholder to be timely must be delivered not earlier than the close of business on the ninetieth (90) day prior to such Annual Meeting and not later than the close of business on the later of the sixtieth (60th) day prior to such Annual Meeting or the tenth (10th) day following the day on which we make a public announcement of the date of such meeting. All stockholder proposals should be marked for the attention of Secretary, c/o Amicus Therapeutics, Inc., 6 Cedar Brook Drive, Cranbury, New Jersey 08512.

Attending the Annual Meeting

The Annual Meeting will be held at the offices of Amicus Therapeutics, Inc., located at 6 Cedar Brook Drive, Cranbury, New Jersey 08512 on Tuesday, May 24, 2011 at 9:00 a.m. Eastern Daylight Time. Except as indicated in footnotes to this table, we believe that the stockholders named in this table have sole voting and investment power with respect to all shares of Common Stock shown to be beneficially owned by them based on information provided to us by these stockholders. MANAGEMENT

The Board of Directors

Our Restated Certificate of Incorporation and Restated By-laws provide that our business is to be managed by or under the direction of our Board of Directors. Our Board is divided into three classes for purposes of election. Generally, one class is elected at each Annual Meeting of Stockholders to serve for a three-year term. Our Board currently consists of ten members, divided into three classes as follows:

The Class I directors are Drs. Barkas and Barrett and Mr. Neff and their term will expire at the 2011 Annual Meeting of Stockholders;

The Class II directors are Drs. Barer, Topper and Mr. Hayden and their term will expire at the 2012 Annual Meeting of Stockholders; and

The Class III directors are Messrs. Crowley, Raab, and Sblendorio and Ms. McGlynn, and their term will expire at the 2013 Annual Meeting of Stockholders.

Our Restated Certificate of Incorporation and Restated By-laws provide that the authorized number of directors may be changed only by resolution of the Board. Our Board has authorized that the size of the Board be set at ten members.

On April 18, 2011, our Board of Directors, upon the recommendation of the Nominating and Corporate Governance Committee, voted to nominate Drs. Barkas and Barrett for re-election as Class I directors for a term of three years to serve until the 2014 Annual Meeting of stockholders, and until their respective successors have been duly elected and qualified. In March 2011, Mr. Neff informed the Company that he would not stand for re-election when his term expires at the 2011 Annual Meeting of Stockholders. The Nominating and Corporate Governance Committee has not yet nominated a person to fill this vacancy in our Class I directors.

The Board has determined that each of the director nominees possesses the requisite skills, personal integrity, business judgment, industry experience and willingness to devote adequate time and effort necessary to serve as an effective member of the Board. A description of the background of each, along with other specific experiences, qualifications, attributes or skills that contributed to the Board's decision to nominate the nominees, is set forth below, followed immediately by like disclosure for our existing directors whose terms of office extend beyond the Annual Meeting.

Board Leadership Structure

On April 18, 2011, John Crowley resigned as chief executive officer of the Company in order to devote more time to interests related to public policy, civic service and philanthropic endeavors. In order to effect an orderly transition of leadership at the Company, the Board appointed Mr. Crowley as executive chairman, effective immediately upon his resignation as chief executive officer, for a term ending on September 30, 2011, with a possible extension for up to three months upon the mutual agreement of Mr. Crowley and the Company. In his role as executive chairman, Mr. Crowley will perform all the duties of chairman of the Board and such other executive officer duties as the Board may assign him from time to time at its sole discretion. Upon the conclusion of his service as executive chairman, Mr. Crowley will no longer serve as a member of the Board. Mr. Patterson currently serves as acting chief executive officer and is a candidate for the permanent chief executive officer role.

Previously, in February 2010, the Board elected Mr. Crowley as chairman of the Board in addition to his role as chief executive officer to succeed Donald J. Hayden, Jr. Simultaneous with Mr. Crowley's election to chairman, the Board appointed Mr. Hayden as Lead Independent Director. As Lead Independent Director, Mr. Hayden is responsible for, among other things:

leading executive sessions of the Board's independent directors,

advising the independent Board committee chairs in fulfilling their responsibilities to the Board,

assisting the Board and the Company's officers in complying with the Company's governance guidelines, and

overseeing the process of evaluating, developing and compensating the chief executive officer.

The Company believes that by creating a Lead Independent Director position held by Mr. Hayden, it has designed a governance structure that best advances the objectives of the Company while maintaining proper checks and balances on senior management, and providing the independent members of the Board with open and transparent communication regarding the Company's strategic planning activities. In connection with our search for a permanent chief executive officer, the Board will consider whether the roles of chairman of the Board and chief executive officer will continue to be separate. This decision will depend on a number of factors including the skills and experience of the individual who is elected as the permanent replacement for Mr. Crowley as chief executive officer and the availability of a current or future member of the Board to serve as chairman.

Risk Oversight Management

Our Board provides risk oversight for the Company primarily through the Audit Committee. During 2009, we initiated an Enterprise Risk Management Risk Assessment Action Plan. Under this plan, the Company identified risks throughout our organization utilizing various methodologies, including interviews with senior employees and members of the Board. We then evaluated the identified risks and began implementing

procedures and activities designed to manage and mitigate such risks. We presented several reports on this risk identification, management and mitigation process to the Audit Committee throughout 2009, who provided guidance and feedback to senior management. The Audit Committee apprised the Board of our progress throughout the year. The Audit Committee continued this process during 2010 and will maintain oversight and monitoring of senior management's efforts in the future to identify and manage the Company's risks.

Risk Analysis of Compensation Policies and Practices

The Compensation Committee is aware that compensation arrangements, if not properly designed, could encourage inappropriate or excessive risk taking. We believe that our overall compensation program encourages our named executive officers and other employees to focus on both short-term and long-term objectives and does not encourage excessive risk taking. While the value of stock options is inherently tied to the performance of the Company, our stock options vest over multiple years and are not linked to the achievement of defined metrics. In addition, cash incentive bonuses tied to the achievement of Company goals and, for employees below vice president, individual goals, have historically made up a small percentage of our employees' total compensation package; although in 2010 payouts under our cash incentive bonus plan represented approximately 25% of the total compensation awarded to our named executive officers as a result of the corporate multiplier being set at 108.5%. Further, as a development stage company, we operate as a single business unit and therefore are not exposed to the risks that may be associated with operating through several segments, such as one business unit being significantly more profitable than another or having a compensation structure that is significantly different than that of other units. The Compensation Committee will continue to review risk as one of the elements it considers in the planning process for executive compensation in the future.

Policies Governing Director Nominations

Director Qualifications. Our Nominating and Corporate Governance Committee is responsible for reviewing with the directors from time to time the appropriate qualities, skills and characteristics desired of members of the Board in the context of the needs of the business and the composition of the Board. This assessment includes consideration of the following minimum qualifications that the Nominating and Corporate Governance Committee believes must be met by all directors:

a reputation for integrity, honesty and adherence to high ethical standards;

the ability to exercise sound business judgment;

substantial business or professional experience and the ability to offer meaningful advice and guidance to the Company's management based on that experience; and

the ability to devote the time and effort necessary to fulfill their responsibilities to the Company.

The Nominating and Corporate Governance Committee also considers numerous other qualities, skills and characteristics when evaluating director nominees, including whether the nominee has specific strengths that would augment existing skills and experience of the Board, such as an understanding of and experience in technology, accounting, governance, finance or marketing and whether the nominee has leadership experience with public companies or other sophisticated and complex organizations.

Process for Identifying and Evaluating Director Nominees. Our Nominating and Corporate Governance Committee has established a process for identifying and evaluating nominees for director. Although the Nominating and Corporate Governance Committee will consider nominees recommended by stockholders, it believes that the process it uses to identify and evaluate nominees for director is designed to produce nominees that possess the educational, professional, business and personal attributes that are best suited to further the Company's mission. The Nominating and Governance Committee may identify nominees through the use of professional search firms that may utilize proprietary screening techniques to match candidates to the Committee's specified qualifications. The Committee may also receive recommendations from existing directors,

executive officers, key business partners, and trade or industry affiliations. The Committee will evaluate nominations at regular or special meetings, and in evaluating nominations, will seek to achieve a balance of knowledge, experience and capability on the Board and to address the membership criteria set forth above under Director Qualifications. The Board itself is ultimately responsible for recommending candidates for election to the stockholders or for appointing individuals to fulfill a vacancy. Although the Board does not have a policy with regard to the consideration of diversity in identifying director nominees, among the various factors the Nominating and Corporate Governance Committee considers in selecting candidates for nomination to the Board are the benefits to the Company of national origin, gender, race, scientific and pharmaceutical experience and cultural diversity in board composition.

Procedures for Recommendation of Director Nominees by Stockholders. The Nominating and Corporate Governance Committee will consider director candidates recommended by our stockholders. In evaluating candidates recommended by our stockholders, the Nominating and Corporate Governance Committee applies the same criteria set forth above under Director Qualifications. Any stockholder recommendations of director nominees proposed for consideration by the Nominating and Corporate Governance Committee should include the nominee's name and qualifications for Board membership and should be addressed in writing to the Nominating and Corporate Governance Committee, care of: Amicus Therapeutics Inc., 6 Cedar Brook Drive, Cranbury, New Jersey 08512, Attention: Secretary. In addition, our By-laws permit stockholders to nominate directors for consideration at an annual stockholder meeting in accordance with certain procedures described in this Proxy Statement under the heading Stockholder Proposals and Nominations for Director.

Meeting Attendance. During the year ended December 31, 2010, there were nine meetings of our Board of Directors, and the various committees of the Board met a total of 36 times. No director attended fewer than 75% of the total number of meetings of the Board and of committees of the Board on which he or she served during 2010. The Board has adopted a policy under which each member of the Board is strongly encouraged to attend each Annual Meeting of our Stockholders. All of the directors attended our 2010 Annual Meeting of Stockholders.

Compensation Committee Interlocks and Insider Participation. None of our executive officers serves as a member of the Board or compensation committee, or other committee serving an equivalent function, of any entity that has one or more of its executive officers serving as a member of our Board or our Compensation Committee. None of the members of our Compensation Committee has ever been an officer or employee of the Company.

Stockholder Communications to the Board

Any stockholders who wish to address questions regarding our business directly with the Board, or any individual director, should direct his or her questions in writing to the Chairman of the Board, c/o Amicus Therapeutics, Inc., 6 Cedar Brook Drive, Cranbury, New Jersey 08512. Communications will be distributed to the Board, or to any individual director or directors as appropriate, depending on the facts and circumstances outlined in the communications.

COMPENSATION DISCUSSION AND ANALYSIS

Executive Summary

The Compensation Committee, in consultation with the Board of Directors, is responsible for establishing, implementing and overseeing our overall compensation strategy and policies, including our executive compensation program, in a manner that supports our business objectives. In 2010, the Company made significant progress in advancing its product pipeline and increasing its financial stability through the achievement of several strategic objectives, including the following:

In October 2010, we entered into a collaboration agreement with GlaxoSmithKline (GSK) for the development of our lead product candidate, Amigal (migalastat hydrochloride) for Fabry disease. Under the terms of the collaboration, we received an upfront license payment of \$30 million and are eligible to receive further payments of approximately \$170 million upon the successful achievement of development and commercialization milestones, as well as tiered double-digit royalties on global sales of Amigal.

We reduced our future operating costs by entering into the collaboration with GSK, who will fund 50% of the development costs for Amigal in 2011 and 75% of the development costs in 2012 and beyond subject to both annual and aggregate cost caps for Amicus.

We enrolled a majority of the anticipated 60 patients in our Phase 3 study of Amigal in Fabry disease, the Company's first Phase 3 study in its history.

We expanded the potential uses of our pharmacological chaperone technology through clinical and preclinical studies examining co-administration of pharmacological chaperones with existing therapies and in diseases of neurodegeneration.

We successfully completed a registered direct offering of our Common Stock for gross proceeds of \$18.5 million. Additionally, in connection with the collaboration agreement, GSK purchased approximately 6.9 million shares of our Common Stock for an equity investment of approximately \$31 million.

In recognition of these and other accomplishments throughout the year, the Compensation Committee determined that the corporate multiplier used in determining cash bonuses for our named executive officers for 2010 should be set at 108.5%, resulting in bonuses for such officers above their targets.

We describe our executive compensation program below in more detail and provide an analysis of the compensation paid and earned in 2010 by our named executive officers our executive chairman and former chief executive officer, principal financial officer and three other most highly compensated executive officers. In 2010, our named executive officers were Messrs. Crowley, Patterson, McAdam and Ganesan and Drs. Boudes and Lockhart. John McAdam served as our principal financial officer until September 2010 and Mohan Ganesan served as our principal financial officer for the remainder of the year. Daphne Quimi, treasurer and corporate controller of the Company, currently serves as our principal financial officer. Mr. Crowley served as our chief executive officer until April 2011 when he transitioned to his current position as executive chairman. Mr. Patterson was appointed as our acting chief executive officer and principal executive officer at that time in addition to his duties as president. Upon the recommendation of the Compensation Committee, the Board previously approved the promotion of Mr. Patterson to president in February 2011 as a result of his significant contribution to the Company's successful 2010 and to the overall leadership of the Company.

Objectives and Philosophy of Executive Compensation

We are a biopharmaceutical company focused on the discovery, development and commercialization of orally administered, small molecule drugs known as pharmacological chaperones for the treatment of rare diseases. Pharmacological chaperones are a novel, first-in-class approach to treating a broad range of diseases including lysosomal storage disorders and diseases of neurodegeneration. We operate in an extremely competitive, rapidly changing and heavily regulated industry and the long-term success of our business requires a high degree of innovation and adaptability. We believe that the skill, talent and dedication of our executive officers and other executives are critical factors affecting our long-term success. Therefore, our compensation program for our executive officers, including our named executive officers, is designed to attract, retain and motivate the best possible executive talent. Utilizing a pay-for-performance compensation philosophy, we have designed a program that provides the ability to differentiate the total compensation mix of our named executive officers based on their demonstrated performance and their potential to contribute to our long-term success.

Our compensation philosophy is to:

provide our executives a competitive total compensation opportunity relative to the organizations with which we compete for executive talent;

attract and retain individuals of superior ability and managerial talent who can successfully perform and succeed in our environment;

increase the incentive to achieve key strategic and financial performance measures by linking compensation opportunities and actual compensation earned through our pay for performance compensation program to the achievement of corporate goals; and

deliver pay in a cost efficient manner that aligns employees' compensation with stockholders' long-term interests.

Our compensation program is designed to reward the accomplishment of our corporate goals in a manner consistent with the Company's values, which stresses not only results but how those results are attained. In order to meet the objectives of our compensation philosophy, we maintain a robust goal setting and performance management program. Corporate objectives are established at the beginning of each year and are the basis for determining corporate performance for the year. Key strategic corporate, financial and operational goals that are established by our Board include:

continued progress in our clinical development programs including Fabry disease;

continued progress in our pre-clinical research and development programs including our work in diseases of neurodegeneration and co-administration of pharmacological chaperones with enzyme replacement therapy;

implementation of appropriate financing or business development strategies; and

efficient, strategic management of our cash.

Prior to 2009, annual cash incentive bonuses for our named executive officers were determined on the basis of both corporate performance and the individual performance of such executive officers. However, beginning with calendar year 2009, the Compensation Committee determined that our named executive officers' cash bonus should be determined only on the basis of the Company's performance as measured by the corporate multiplier. The Compensation Committee believes that by focusing on the accountability of our named executive officers for the Company's annual performance, our named executive officers' compensation is more closely aligned with the interests of our stockholders. The exception to this bonus structure is the amount of cash bonus paid to Mr. Ganesan. Because Mr. Ganesan did not become a named executive officer until September 2010 and did not serve as a vice president of the Company at any time during the year, his annual cash incentive bonus was calculated based on both the corporate multiplier and an individual multiplier. The corporate and individual multipliers are discussed in detail below.

Compensation Program Elements and Pay Level Determination

Each year, the Compensation Committee reviews and determines base salaries, annual cash incentive and long-term incentive awards for all executive officers. For 2010, the base salaries, annual cash incentives and long-term incentive awards determination for all named executive officers, including our chief executive officer, were approved by our Compensation Committee, which is comprised solely of independent directors.

As part of the compensation evaluation process, the chief executive officer and the senior vice president of Human Resources present to the Compensation Committee a detailed individual assessment of each named executive officer's performance, excluding the chief executive officer's performance, over the prior year, as well as the recommended compensation action for each named executive officer. Based on corporate and individual performance, the chief executive officer makes a compensation recommendation for each officer which includes actions on base salary. As discussed above, recommendations on payouts under our cash incentive plan were based on evaluations of the Company's performance for the year. The results of the named executive officer's performance are a determination by his supervisor and chief executive officer with input from other peers, and direct reports as appropriate. The chief executive officer's performance is assessed by all independent directors under the leadership of our Lead Independent Director. Long term incentive grants are based on an executive's level within the organization and are designed to motivate the executive team to best achieve the Company's goals and implement our business strategy thereby increasing stockholder value.

Individual goals and objectives are established at the beginning of each year and are designed to support the achievement of the corporate goals. All employees participate in annual goal setting as well as mid-year and annual performance reviews.

We target our total compensation for our named executive officers and each of its comprising elements base salary, bonus and long-term incentive awards at the 5th to 7th percentile of a broad set of companies from the peer group discussed below. Actual compensation levels for each named executive officer depend on factors such as individual performance, Company performance, skills/capabilities, overall impact/contribution, experience in position, criticality of position and internal equity. The Compensation Committee considered all the information presented (including external competitiveness, the performance review, Company performance and internal equity) and applied its collective knowledge and discretion to determine the compensation for each named executive officer.

Recent Developments in Company Leadership and Compensation

On April 18, 2011, John Crowley resigned as chief executive officer of the Company in order to devote more time to interests related to public policy, civic service and philanthropic endeavors. In order to effect an orderly transition of leadership at the Company, the Board appointed Mr. Crowley executive chairman, effective immediately upon his resignation as chief executive officer, for a term ending on September 30, 2011, with a possible extension for up to three months upon the mutual agreement of Mr. Crowley and the Company. At the same time, Mr. Patterson was appointed acting chief executive officer, and the Company announced that it would shortly commence a search for a new chief executive officer to replace Mr. Crowley. At that time, the Company also announced that Mr. Patterson would be considered a candidate for the permanent chief executive officer role.

The Company previously appointed Mr. Patterson president of the Company in February 2011 in addition to his duties as chief operating officer in recognition of his strong performance, leadership and significant contribution to the Company's success. In connection with his promotion, Mr. Patterson's base salary was raised from \$347,500 to \$425,000 and his bonus target was increased from 40% to 50% of base salary. Upon his appointment to acting chief executive officer, the Company granted Mr. Patterson 50,000 shares of restricted stock in order to provide Mr. Patterson with an additional incentive to continue in service with the Company through this transition period and until the Company announces preliminary results of its phase 3 study evaluating the Company's lead drug product candidate for the treatment of Fabry disease, Amigal (Study 011). The Compensation Committee therefore determined that the restricted stock should vest in full upon the earlier of (i) eighteen months after the grant date, or October 18, 2012, (ii) two days following the public disclosure by the Company of the preliminary results from Study 011, or (iii) the date on which Mr. Patterson's employment with the Company ceases due to a termination by the Company without cause or a resignation by Mr. Patterson for good reason. Good reason is defined to include the appointment of a person other than Mr. Patterson to the permanent chief executive officer position. We also amended Mr. Patterson's severance and change in control agreement to provide for additional base salary continuation, option vesting and health care coverage, all as described under Severance Benefits and Change of Control Arrangements on page 34.

We previously amended our employment agreement with Mr. Crowley in December 2010 (the 2010 Employment Agreement) in order to (i) compensate Mr. Crowley for the loss of certain medical benefits afforded to him under his prior agreement that the Company is no longer able to provide because of the enactment of the Patient Protection and Affordable Care Act, and (ii) limit the Company's exposure to expected future growth in medical expenses for Mr. Crowley and his family. In addition, based on Mr. Crowley's performance as chief executive officer, the Company wished to increase his base salary and annual bonus target to better align his compensation with the Company's peer group. As a result, we (i) agreed to pay out-of-pocket medical expenses incurred by Mr. Crowley, his spouse or children up to \$1.8 million per year, (ii) increased his base salary from \$447,000 to \$545,000, and (iii) increased his target bonus from 50% of base salary to 60%.

In connection with his appointment to executive chairman, Mr. Crowley and the Company entered into a new employment agreement (the 2011 Employment Agreement) pursuant to which his base salary was reduced by 50% to \$272,500 per year and he became ineligible to receive a bonus. In addition, at the conclusion of his service as executive chairman, Mr. Crowley will no longer receive medical benefits from the Company, other than his ability to elect continued coverage under COBRA, and payments for out-of-pocket medical expenses discussed above will cease (absent a termination without cause). The Compensation Committee agreed to extend the expiration date of Mr. Crowley's options that are vested as of the end of his term as executive chairman based on a rolling 18-month schedule discussed in more detail below.

Mr. Crowley's 2011 Employment Agreement and 2010 Employment Agreement are more fully described under Employment Agreements on page 39.

Peer Group

The Compensation Committee, with the help of its independent executive compensation consultant, Pay Governance, established the peer group set forth below to better align target compensation with competitive data. The Compensation Committee, upon advice of Pay Governance, selected the companies that comprise our peer group through a robust screening process that considered publicly traded U.S. biopharmaceutical companies that were similar to Amicus in size, market capitalization and business operating model and operate in geographic locations that generally have similar pay levels. Several companies were removed from the peer group established last year due primarily to acquisitions or other changes in structure or size, including market capitalization. The Compensation Committee replaced these entities with Alexza Pharmaceuticals, Cytokinetics, Peregrine Pharmaceuticals and PolyMedix upon the recommendation of Pay Governance. The Compensation Committee intends to continue reviewing and revising the peer group periodically to ensure that it continues to reflect companies of similar size and business model.

Elements of Compensation

Our executive compensation consists of a number of elements, each of which plays an important role in our pay-for-performance philosophy and in achieving our compensation program objectives. For each element of compensation we target an overall executive compensation program that is competitive with market data.

Base Salary

Base salaries are paid to our named executive officers to provide a level of compensation that is both competitive with the external market and is commensurate with each executive officer's scope of responsibilities, past performance, experience and skills. The salary increase from 2009 to 2010 for our named executive officers other than Messrs. Ganesan and McAdam was 2% based on market data; increases for Mr. Ganesan and Mr. McAdam were 9.0% and 7.6%, respectively, in light of their increased responsibilities. For 2011, base salaries for Drs. Boudes and Lockhart were increased by 3% based on market data, while base salaries for Messrs. Crowley and Patterson were increased by 22% in connection with the amendments to Mr. Crowley's employment agreement and Mr. Patterson's promotion to president of the Company, respectively. As discussed above, Mr. Crowley's base salary was subsequently reduced by 50% in April 2011 upon his appointment as executive chairman. Mr. McAdam and Mr. Ganesan are no longer with the Company.

Annual Cash Incentive Plan

We maintain an annual cash incentive program to motivate and reward the attainment of annual strategic, operational, financial and individual goals. For all program participants, annual cash incentive opportunities, which are expressed as a percentage of base salary, are targeted at the 50th percentile of the market. For 2010, these percentages of base salary were determined by level in the organization accordance with our plan as follows:

| Position | 2010 Targeted Bonus % of Base Salary |
|-------------------------|---|
| Chief Executive Officer | 50% |
| Other Chief Officers | 40% |
| Vice Presidents | 30% |

For 2010, bonuses awarded under the plan to our named executive officers, other than Mr. Ganesan, were determined by reference to a corporate multiplier. As discussed above, Mr. Ganesan's bonus was awarded based on both the corporate multiplier and an individual multiplier because he did not serve as a vice president of the Company at any time during 2010, and was not named principal financial officer until September 2010. Mr. McAdam was not eligible to receive a bonus for 2010 service.

The corporate multiplier is based upon a determination of how the Company performed against the corporate goals established at the beginning of the year and the other significant corporate activities that occurred during the year. This corporate multiplier may range from 0% to 150%. For bonuses related to 2010 performance, the corporate multiplier was set at 108.5% for the reasons discussed below. In order to determine bonus calculations under the plan, the target bonus for each named executive officer, other than Mr. Ganesan, was multiplied by the 108.5% corporate multiplier. Mr. Ganesan's bonus was determined by first multiplying his target bonus by the 108.5% corporate multiplier and then multiplying that amount by his individual multiplier of 120%. The table on page 26 illustrates further how 2010 awards under the plan were calculated for our named executive officers.

The Corporate Multiplier

On an annual basis, the Board works with management to set Company goals and objectives that reflect a high degree of difficulty and an ambitious timetable for the execution of the Company's strategies commensurate with our short and long-term business plan. The Company's internal goals and objectives reflect complex assumptions based on internal analyses and projections, and are intended to encourage the Company to pursue its business plan in an expedited, aggressive manner. Once the Company's goals and objectives have been developed, they are reviewed by the Compensation Committee and finally approved by the full Board.

At the time the goals and objectives are set, the Compensation Committee believes that their full attainment will be extremely difficult and may not be reached, despite great effort, due in part to internal and external factors, many of which may be out of the Company's control. The objectives are set with the understanding that the Company is in its development stage and the recognition that some objectives, especially those tied to timing of events, may need to be altered as events throughout the course of the year shape the best path for the development of the Company's product candidates. However, while total achievement of all goals and objectives set at the beginning of the year may not be expected, the Compensation Committee considers the achievement of the corporate objectives in its sole discretion in setting the corporate multiplier and demands that management significantly advance the Company's general business objectives throughout the year in order to achieve a 100% corporate multiplier.

For 2010, our corporate objectives were as follows:

complete enrollment in Study 011,

initiate a Phase 2 clinical trial examining the co-administration of a pharmacological chaperone with enzyme replacement therapy, or ERT, the current standard of care for lysosomal storage diseases such as Fabry disease,

establish initial proof of concept for pharmacological chaperones in an Alzheimer's disease animal model, and

end 2010 with a minimum of 12 months of cash necessary to operate our business.

In reaching its recommendation on the corporate multiplier for 2010, the Compensation Committee applied a weighting to the corporate objectives as follows:

| Objective | Weighting | % Completed | Score |
|--|-------------|-------------|---------------|
| Complete Phase 3 Enrollment in Fabry Study | 40% | 65% | 26% |
| Initiate Co-administration Study | 15% | 100% | 15% |
| Initial Proof of Concept in Alzheimer's Disease Animal Model | 15% | 100% | 15% |
| End 2010 with a Minimum of 12 Months of Cash | 30% | 175% | 52.5% |
| TOTAL | 100% | | 108.5% |

The Compensation Committee believed that completing enrollment of Study 011 was the most important corporate objective for 2010 because the phase 3 development of Amigal, our lead product candidate, is our primary focus. Our success in this program could lead to a significant increase in stockholder value, and, therefore, is important to our investors. A successful completion of this study is necessary for us to begin the approval process for Amigal and eventually commercialize this product. In addition, we are eligible to receive milestone and royalty payments from GSK as our Amigal program advances under the terms of our collaboration agreement with GSK. Therefore, the progress of this program directly affects our cash position. While the Company made significant progress in this study during 2010, and enrolled a majority of the anticipated 60 patients, it did not fully meet this objective. Therefore, the Compensation Committee decided that the objective was 65% completed and determined a score of 26% by multiplying the 40% weighting by the 65% completion percentage.

The Compensation Committee determined that ending the year with at least 12 months of cash was the second most important corporate objective because our cash position directly affects our ability to conduct our clinical and preclinical activities, hire and retain qualified and talented employees and pursue business development opportunities. This objective was far exceeded by the Company due largely to two accomplishments during 2010: the establishment of our collaboration with GSK in October and our \$18.5 million registered direct offering completed in March. The Compensation Committee believes that these events, particularly the GSK collaboration, merited significant recognition as both were critical in the Company's continued success and development. The Compensation Committee therefore weighted this objective as 30% of the overall objectives and applied a completion percentage of 175% to arrive at a score of 52.5%.

Initiating a Phase 2 clinical trial examining the co-administration of our technology with ERT and establishing proof of concept in an animal model of Alzheimer's disease were important accomplishments for the Company because they represent an expansion of our pharmacological chaperone technology. While the vast majority of our efforts from inception have been focused on developing monotherapy treatments for lysosomal storage disorders, these activities are designed to investigate and potentially demonstrate that our technology may have broader application by improving existing therapies and treating diseases of neurodegeneration. Both of these corporate objectives were fully met and each was assigned a weighting and score of 15%. An additional

corporate objective, establishing proof of concept in a Parkinson's disease animal model with a clinical candidate molecule, was included as an objective at the beginning of 2010; however, the Company, in consultation and agreement with the Board, decided not to pursue this objective early in the year due to a variety of factors, including budget considerations. As a result, this objective was not considered by the Compensation Committee in setting the corporate multiplier.

The Individual Multiplier

As discussed above, Mr. Ganesan was the only named executive officer whose annual cash incentive bonus was determined based on both the corporate multiplier and an individual multiplier. Mr. Ganesan's individual multiplier was recommended by his supervisor and approved by the Compensation Committee based largely on his (i) role in establishing and monitoring the Company's operating and capital budgets for 2010, (ii) significant role in financial due diligence and modeling activities for potential business development opportunities, including significant contributions related to the GSK collaboration, and (iii) increased responsibilities upon his appointment to principal financial officer in September 2010. In order to determine Mr. Ganesan's cash bonus for 2010, his target bonus was first multiplied by the 108.5% corporate multiplier, and then multiplied by his individual multiplier of 120%, resulting in an annual cash incentive payout of \$46,891.

Calculation of Annual Cash Incentive Bonuses

The calculation of the named executive officers' individual cash incentive payments for service in 2010, other than Mr. McAdam, is summarized in the table below. Because Mr. McAdam was not employed by the Company at the time annual cash incentive bonuses were paid, he did not receive a bonus.

| Name and Principal Position | Corporate Multiplier (%) | Individual Multiplier (%) | Target Bonus (%) | Base Salary (\$) | Payout (\$) |
|--|--------------------------|---------------------------|------------------|------------------|-------------|
| John F. Crowley Executive Chairman | 108.5 | N/A | 50 | \$ 446,505 | \$ 242,229 |
| Matthew R. Patterson Acting Chief Executive Officer and President | 108.5 | N/A | 40 | 347,510 | 150,819 |
| David J. Lockhart, Ph.D. Chief Scientific Officer | 108.5 | N/A | 40 | 367,710 | 159,586 |
| Pol F. Boudes, M.D. Chief Medical Officer | 108.5 | N/A | 40 | 346,800 | 150,511 |
| Mohan Ganesan Principal Financial Officer ⁽¹⁾ | 108.5 | 120 | 20 | 180,074 | 46,891 |

(1) Mr. Ganesan served as our principal financial officer from September 2010 until his resignation in February 2011.

Long-term Incentive Program

We believe that long-term performance will be achieved through an ownership culture that rewards our executives for maximizing stockholder value over time and that aligns the interests of our employees and management with those of stockholders. Our 2007 Amended and Restated Equity Incentive Plan, or the Existing Plan, and our 2002 Equity Incentive Plan, or the 2002 Plan, authorize or authorized us to grant stock options or restricted stock. We have historically elected to use stock options as the primary long-term equity incentive vehicle. We typically grant an initial stock option award to new employees and annual long-term incentive awards as part of our overall compensation program as well as option grants to reflect promotions, as necessary. For the named executive officers, our stock option awards vest over a four year period with 25% vesting one year

after the vesting commencement date and the remainder vesting ratably each month thereafter in equal installments over a three-year period subject to continued employment or association with us, and expire ten years after the date of grant.

We have used stock options as a long-term incentive vehicle because we believe that:

Stock options and the vesting period of stock options attract and retain executives.

Stock options are inherently performance based. Because all the value received by the recipient of a stock option is based on the growth of the stock price, stock options enhance the executives' incentive to increase our stock price and maximize stockholder value.

Stock options help to provide a balance to the overall executive compensation program as base salary and our annual performance bonus program focus on short-term compensation, while stock options reward executives for increases in stockholder value over the longer term.

As the Company evolves as an organization, we will continue to explore and evaluate the use of alternative long-term incentive vehicles in combination with stock options. In particular, the Company is actively evaluating the use of restricted stock as an element of its long-term incentive program, and could decide to incorporate grants of restricted stock into its annual long-term incentive awards to employees. As a result, the Company is proposing to amend the Existing Plan to increase the number of shares available for use as grants of restricted stock and other similar awards.

Initial Stock Option Awards

Executives who join us are awarded initial stock option grants. These grants have an exercise price equal to the closing price of our Common Stock on the date of grant, or the first date of employment, whichever date is later. Our goal is to create a total compensation package for new employees that is competitive with other biotechnology companies and that will enable us to attract high quality people. None of our named executive officers received an initial stock option award in 2010.

Annual Stock Option Awards

Our historical practice has been to make annual stock option awards to our named executive officers in the form of incentive stock options within the meaning of Section 422 of the Internal Revenue Code, as amended (the "Code"). The Compensation Committee believes that providing additional option grants beyond the initial grant provides management with a strong link to long-term corporate performance and the creation of stockholder value as well as providing continued retention via long-term vesting.

We have typically awarded the largest amount of options in each grant to our executive chairman and former chief executive officer in recognition of his role as our principal executive officer, chairman of the Board and primary decision maker for the Company. Historically, we have made equal grants to each of our other chief officers—chief operating, medical and science officers—because the Compensation Committee believes that each shares equally in ensuring the success and development of the Company, including the departments within the Company that each is responsible for managing. However, the Compensation Committee may, in the future, choose to make different grants to our chief officers at its discretion.

The Compensation Committee determines the number of shares subject to options that are granted to our named executive officers in its sole discretion. In applying that discretion, the Compensation Committee takes into account a number of factors including the current price of our Common Stock, peer group data and recent Company developments. In 2010, we made one stock option grant to our named executive officers in connection with company-wide grants. All of the stock option awards are subject to our standard four year vesting schedule. The 2010 stock option grants are described in the section entitled "Grants of Plan-Based Awards" on page 32.

For 2011, we intend to move to a semi-annual option grant cycle. We made a company-wide grant of options in January 2011 and intend to make another grant in the second half of the year. Each grant will represent half of the total option grant for the year for the executives. The Compensation Committee believes that moving to a semi-annual grant cycle will spread the incentives of the option grants across a broader time horizon and take into account the volatility of our stock price.

Restricted Stock

Our 2002 Plan and our Existing Plan authorize us to grant restricted stock. As discussed above, we are actively evaluating the use of restricted stock as part of our long-term incentive program, and may decide to incorporate grants of restricted stock into this program. We are therefore seeking stockholder approval to amend the Existing Plan to increase the number of shares that may be granted or sold as awards of restricted stock, restricted stock units, stock grants and any other similar awards from 300,000 to 1,146,600, which represents 20% of the total shares that would be available under the 2007 Plan if it is approved by our stockholders, up from 14% under the current version of the plan. For further discussion of this proposal, please see Proposal No. 2 Approval of the Amended and Restated 2007 Equity Incentive Plan.

Other Compensation

Consistent with our compensation philosophy, we intend to continue to maintain our current benefits for our named executive officers, including medical, dental, vision and life insurance coverage. All employees receive Company paid term life insurance equal to two times annual base salary, up to a maximum benefit of \$1,000,000.

In addition, we provide a Company match for our 401(k) Plan, subject to Federal guidelines and plan maximums. We match \$1 for each \$1 a participant defers into the plan up to 5% of each participant's salary and bonus paid during the year. The match vests 25% per year on a cliff vesting schedule over the first four years of employment for each participant.

Additional Executive Chairman Benefits

Our Company is engaged in a highly competitive industry and developing medicines for unique and complicated genetic disorders. As chief executive officer from 2005 to April 2011, Mr. Crowley has had significant responsibility for leading our Company and managing its progress toward achieving our corporate goals. During 2011, Mr. Crowley will continue to have significant leadership responsibility at the Company in his role as executive chairman. Mr. Crowley's compensation reflects this responsibility both as former chief executive officer and current executive chairman and takes into account his unique circumstances.

As part of his overall compensation, Mr. Crowley receives significant payments and benefits from the Company related to the healthcare and other associated costs incurred by his family. These amounts reflect substantial costs incurred for the treatment of a rare medical condition afflicting two members of Mr. Crowley's immediate family. Specifically, in 2010, the Company provided Mr. Crowley with two additional compensation components: (1) certain payments pursuant to his employment agreement, and (2) Company-paid premiums for a supplemental health insurance plan. As discussed above, we amended Mr. Crowley's employment agreement in December 2010 and no longer provide Mr. Crowley with a supplemental health insurance plan. Rather, we make monthly compensation payments of \$150,000 to Mr. Crowley to help defray the substantial out-of-pocket medical expenses incurred by Mr. Crowley and his family and associated tax liabilities up to \$1.8 million per year. Under the terms of the 2011 Employment Agreement, we will continue to make these payments during the term of Mr. Crowley's service as executive chairman, and will cease doing so thereafter (absent a termination without cause). The terms of Mr. Crowley's amended and restated employment agreements are more fully set forth under Employment Agreements on page 39.

Employment Agreement Payments: As outlined in Mr. Crowley's employment agreement prior to its amendment in December 2010, we paid Mr. Crowley the maximum annual amount of \$220,000 for medical expenses not covered by any of the Company's medical insurance plans in 2010 and made corresponding gross-up payments on behalf of Mr. Crowley to the appropriate federal and state taxing authorities in the amount of \$183,078. These payments were made on a quarterly basis during the year.

Additional Health Insurance: In addition to the basic health insurance plan provided to all employees, we maintained an additional medical insurance plan in which the named executive officers and other executives could participate. As mentioned above, the Company initiated this insurance plan primarily to address significant medical costs incurred by the family of Mr. Crowley. In 2010, in addition to Mr. Crowley, Mr. Patterson participated and received benefits under the plan. This plan was terminated at the end of the year.

Termination Based Change of Control Compensation

Upon termination of employment under certain circumstances, our named executive officers are entitled to receive varying types of compensation. Elements of this compensation may include payments based upon a number of months of base salary, bonus amounts, acceleration of vesting of equity, health care coverage and other similar benefits. We believe that our termination-based compensation and acceleration of vesting of equity arrangements are in line with severance packages offered to named executive officers of other similar companies based upon market information, and are otherwise appropriate given the executive's role and service to the Company. We also have granted severance and acceleration of vesting of equity benefits to our named executive officers in the event of a change of control if the executive is terminated within a certain period of time following the change of control. We believe that change of control-related benefits are necessary in order for our named executive officers to direct their full attention to the successful consummation of a transaction without distraction, and that this "double trigger" requirement maximizes stockholder value because it prevents an unintended windfall to management in the event of a friendly or non-hostile change of control. In addition, this structure is more appropriate than a single trigger acceleration mechanism contingent only upon a change of control because unvested equity awards would continue to encourage our executives to remain with the Company following a change of control. The specifics of each named executive officer's arrangements are described in further detail below under "Severance Benefits and Change of Control Arrangements" on page 34.

Option Exercises and Stock Vested at Year End

None of our named executive officers exercised options or vested in any stock awards during the year ended December 31, 2010.

Pension Benefits

None of our named executive officers participates in or has account balances in qualified or non-qualified defined benefit plans sponsored by us.

Nonqualified Deferred Compensation

None of our named executive officers participate in or have account balances in non-qualified defined contribution plans or other deferred compensation plans maintained by us. The Compensation Committee, which is comprised solely of independent directors, may elect to provide our officers and other employees with non-qualified defined contribution or deferred compensation benefits if the Compensation Committee determines that doing so is in our best interests.

Severance Benefits and Change of Control Arrangements

We have agreed to provide severance benefits and change of control arrangements to our current executives, as described below.

John F. Crowley. We employ Mr. Crowley as our executive chairman pursuant to the 2011 Employment Agreement. The agreement will terminate on September 30, 2011, with a possible extension for up to three months upon the mutual agreement of Mr. Crowley and the Company. Upon expiration of the 2011 Employment Agreement, or if he resigns before the end of the term, Mr. Crowley will receive no severance benefits of any kind, but his outstanding, vested stock options as of that date will remain exercisable for a scheduled period, with 100% remaining exercisable until September 30, 2012, approximately 70% remaining exercisable until December 31, 2012, and approximately 36% remaining exercisable until March 31, 2013. Upon the termination of his employment by us other than for cause, Mr. Crowley has the right to receive (i) continued payment of his monthly base salary then in effect, payable in accordance with our regular payroll practices, for a period of nine months, (ii) continuation of health care coverage under COBRA with premiums to be paid by the Company for nine months, and (iii) continued monthly payments of \$150,000 for medical expenses for a period of nine months. Further, the vesting of all options then held by Mr. Crowley shall accelerate by nine months. Mr. Crowley is not entitled to severance payments if we terminate him for cause or if he resigns.

If, prior to the expiration of the 2011 Employment Agreement, we or our successor terminate Mr. Crowley without cause following a change of control of the Company, or if we terminate him without cause and a change of control occurs within three months after the effective date of such termination, then Mr. Crowley has the right to receive continued payment of his monthly base salary then in effect, payable in accordance with our regular payroll schedule for a period of eighteen months. In addition, Mr. Crowley is entitled to continuation of health care coverage under COBRA with premiums to be paid by the Company for a comparable period. Mr. Crowley would also receive continuation of the current monthly payments of \$150,000 for medical expenses for a period of eighteen months. Further, the vesting of all remaining unvested options then held by him shall accelerate in full. We believe that the severance package for our executive chairman is appropriate considering his role as executive chairman and his excellent historical service to the Company.

Other Named Executive Officers. We have entered into severance agreements with the following named executive officers: Matthew R. Patterson, David J. Lockhart and Pol F. Boudes, M.D. If any of these named executive officers is terminated without cause, or additionally, in the case of Mr. Patterson, resigns for good reason, then the executive has the right to receive:

twelve months of base salary following termination for Mr. Patterson and six months of base salary following that termination for Drs. Lockhart and Boudes;

an amount equal to any bonus paid to such executive in the previous year pro-rated for the number of months actually worked in the year of termination, and only if termination occurs after June 30 of the calendar year;

vesting on option awards then held by them will automatically accelerate by twelve months for Mr. Patterson and six months for Drs. Lockhart and Boudes;

continuation of health care coverage under COBRA with premiums to be paid by the Company for a period of twelve months; and

in the case of Mr. Patterson, any otherwise unvested restricted stock will fully vest.

In addition, if any of these named executive officers is terminated other than for cause within twelve months following certain corporate changes or, if following those changes, the executive resigns for good reason, then the executive has the right to receive:

in the case of Mr. Patterson, eighteen months of base salary in effect as of the date of the corporate change and, for Drs. Lockhart and Boudes, twelve times the monthly base salary in effect as of the date of the corporate change;

an amount equal to any bonus paid to such executive in the previous year pro-rated for the number of months actually worked in the year of termination, and only if termination occurs after June 30 of the calendar year;

any outstanding unvested stock options held by the executive will fully vest;

continuation of health care coverage under COBRA with premiums to be paid by the Company for a period of twelve months, and in the case of Mr. Patterson, a period of eighteen months; and

in the case of Mr. Patterson, any otherwise unvested restricted stock will fully vest.

As a condition to the payment of the foregoing severance benefits, a departing executive is required to execute a general release of claims against the Company and its affiliates. Each named executive officer is bound by non-disclosure, inventions transfer, non-solicitation and non-competition covenants that prohibit the executive from competing with us during the term of his or her employment and for twelve months after termination of employment.

Potential Payments Upon Termination Without Cause

For each named executive officer other than Messrs. McAdam and Ganesan, the following table sets forth quantitative estimates of the benefits that would have accrued to each of our named executive officers if his employment had been terminated without cause or, in the case of Mr. Crowley, he resigned for good reason, on December 31, 2010. Amounts below reflect potential payments pursuant to the employment agreements for such named executive officers. Mr. McAdam's employment with the Company ended on September 3, 2010 and Mr. Ganesan was not eligible to receive benefits if he was terminated on December 31, 2010. For a discussion of the benefits that Mr. Crowley and Mr. Patterson would each receive, respectively, under their current agreements in the event of termination without cause, please see "Severance Benefits and Change of Control Arrangements" on page 34.

Potential Payments Upon Termination Due to Change of Control

The following table sets forth quantitative estimates of the benefits that would have accrued to each of our named executive officers, other than Mr. McAdam, if his employment had been terminated due to constructive termination upon a change of control on December 31, 2010, assuming that such termination occurred within the period beginning on the first day of the calendar month immediately preceding the calendar month in which the effective date of a change of control occurs and ending on the last day of the twelfth calendar month following the calendar month in which the effective date of a change of control occurs, or, in the case of Mr. Crowley, within three months prior to or twelve months following the date on which the change of control occurs. Amounts below reflect potential payments pursuant to the amended employment agreements for such named executive officers and for Mr. Ganesan, a change in control agreement. For a discussion of the benefits that Mr. Crowley and Mr. Patterson would each receive, respectively, under their current agreements in the event either is terminated due to constructive termination upon a change of control, please see [Severance Benefits and Change of Control Arrangements](#) on page 34.

The 2007 Director Option Plan provides that each director shall automatically receive an annual grant of options to purchase 10,000 shares on the date of our Annual Meeting of Stockholders and the grants will vest in full at the next Annual Meeting of Stockholders. The exercise price of each option granted to a non-employee director will be equal to 100% of the fair market value on the date of grant of the shares covered by the option. Options will have a maximum term of 10 years measured from the grant date, subject to termination in the event of the optionee's cessation of Board service. All of our directors are eligible to participate in our 2007 Equity Incentive Plan.

In February 2009 and March 2010, we granted Sol. J. Barer and Margaret G. McGlynn, respectively, options to purchase 30,000 shares of our Common Stock in connection with their election to the Board. The exercise price of these options is equal to 100% of the fair market value on the date of grant of the shares covered by the option. Unlike the annual grant to our directors, but consistent with our grants to our named executive officers, these initial grant awards vests over a four year period with 25% vesting one year after the vesting commencement date and the remainder vesting ratably each month thereafter in equal installments over a 3-year period subject to continued service as a director. We may in the future make additional initial grants of stock options to new Board members.

Employment Agreements

John F. Crowley. In December 2010, we entered into the 2010 Employment Agreement with Mr. Crowley pursuant to which he served as our chief executive officer. We amended Mr. Crowley's employment agreement mainly to (i) compensate him for the loss of certain medical benefits afforded to Mr. Crowley under his previous agreement that the Company is no longer able to provide to him because of the enactment of the Patient Protection and Affordable Care Act (the "Act"), and (ii) limit the Company's exposure to Mr. Crowley's expected growth in future medical expenses. Specifically, the prior employment agreement required the Company to provide Mr. Crowley and his family with a medical reimbursement contract with a third party health insurance company to cover certain medical expenses (the "Health Plan Contract"). In addition, the Company provided Mr. Crowley with a quarterly compensation payment of \$55,000 to cover additional medical expenses for himself and his family and made corresponding tax gross-up reimbursements. As a result of the passage of the Act, the third party insurance providers were no longer able to make the Health Plan Contract available, making it impossible for the Company to meet its obligations under the agreement. Further, the Company's current health insurance provider also severely limited certain key medical benefits that were provided to Mr. Crowley and his family, namely durable medical equipment coverage, and the Company was unable to contract with alternative providers.

We therefore entered into the amended and restated employment agreement to provide that:

effective January 1, 2011, the Company makes monthly compensation payments of \$150,000 to Mr. Crowley to cover both (1) out-of-pocket medical expenses incurred by Mr. Crowley, his spouse or children (the "Medical Expenses") and (2) corresponding tax gross-up reimbursements (the "Tax Gross-up Payments") up to a maximum of \$1.8 million per year;

each quarter, Mr. Crowley shall submit receipts evidencing the Medical Expenses to an independent auditing firm which shall confirm that the Medical Expenses meet the definition of "medical expenses" under the then-applicable Internal Revenue Service regulations ("Allowable Expenses"); and

if, at the end of each calendar year, the total amount of the Allowable Expenses and corresponding Tax Gross-Up Payments is less than \$1.8 million, then Mr. Crowley shall pay such difference to the Company.

In addition, based on Mr. Crowley's excellent performance as chairman and chief executive officer, the Company decided to increase Mr. Crowley's base salary and annual bonus target to better align his compensation with the Company's peer group. Under the amended agreement, Mr. Crowley was entitled to an annual base salary of \$545,000, subject to increase by our Board of Directors, and he was eligible to receive an annual cash bonus targeted at 60% of his base salary if the corporate objectives were met for the year in which the bonus is to be paid.

In connection with Mr. Crowley's transition to executive chairman, the Company and Mr. Crowley entered into the 2011 Employment Agreement. This agreement expires on September 30, 2011 and may be extended for

up to three months upon the mutual agreement of Mr. Crowley and the Company. Under the terms of the agreement, Mr. Crowley is required to perform all the duties of chairman of the Board and such other executive officer duties as the Board may assign him from time to time at its sole discretion and to provide at least 20 hours of service per week to the Company. In connection with his new role, we agreed to pay Mr. Crowley an annual salary of \$272,500 and to continue the monthly payment of \$150,000 compensation for the Medical Expenses. We also clarified that, in the event the Allowable Expenses for the year are less than the amount we paid Mr. Crowley for the Medical Expenses, net of estimated taxes, Mr. Crowley will pay us such difference. Mr. Crowley will continue to participate in the Company's insured group health plan subject to the same qualifications as other senior management of the Company. Mr. Crowley is no longer eligible to participate in the Company's annual cash incentive plan. In addition, we modified the termination provisions of his agreement as described above in Severance Benefits and Change of Control Arrangements. As with his prior employment agreements, the 2011 Employment Agreement provides that Mr. Crowley's compensation and benefits, including health benefits for him and his family, continue in full during the term of any active duty service with the U.S. Navy Reserve. Finally, all of Mr. Crowley's options that are vested as of the effective date of his termination will remain exercisable on an extended basis as described above under the heading Severance Benefits and Change of Control Arrangements.

Other Named Executive Officers. We have entered into employment agreements with Matthew R. Patterson and David Lockhart, Ph.D. These agreements set forth the named executive officer's position, duties, base salary, and benefits, and severance arrangements as described previously in the sections above. Our executive employment agreements with Dr. Lockhart and Mr. Patterson provide for an initial term of two years, and will continue thereafter for successive two-year periods until we provide the executive with written notice of the end of the agreement in accordance with its terms. There is no employment agreement in place for Dr. Boudes, who is employed at will.

COMPENSATION COMMITTEE REPORT

The Compensation Committee is comprised entirely of independent directors. The Compensation Committee of our Board of Directors has reviewed and discussed the Compensation Discussion and Analysis required by Item 402(b) of Regulation S-K, which appears in this Proxy Statement, with our management. Based on this review and discussion, the Compensation Committee has recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and our 2010 Annual Report on Form 10-K.

Sol J. Barer, Ph.D.

SECTION 16(a) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE

Section 16(a) of the Exchange Act requires our directors, executive officers and persons who own more than 10% of a registered class of our equity securities to file reports of holdings and transactions in our Common Stock with the SEC. Based on our records and other information, we believe that, in 2010, none of our directors, executive officers or 10% stockholders failed to file a required report on time.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS AND DIRECTOR INDEPENDENCE

Our Board maintains a formal policy such that all transactions between us and our officers, directors, principal stockholders and their affiliates must be approved by a majority of the members of the Board, including a majority of the independent and disinterested members of the Board, and that such transactions must be on terms no less favorable to us than those that could be obtained from unaffiliated third parties. We do not intend at this time to adopt specific standards for the approval of these transactions, but instead intend to have our Board review all such transactions on a case by case basis.

March 2010 Registered Direct Offering

In March 2010, we sold 4.95 million shares of our Common Stock and warrants to purchase 1.85 million shares of Common Stock in a registered direct offering to a select group of institutional investors. The shares of Common Stock and warrants were sold in units consisting of one share of Common Stock and one warrant to purchase 0.375 shares of Common Stock at a price of \$3.74 per unit. The warrants have a term of four years and are exercisable any time on or after the six month anniversary of the date they were issued, at an exercise price of \$4.43 per share. The net proceeds of the offering were approximately \$17.1 million after deducting the placement agency fee and all other offering expenses. Funds affiliated with Palo Alto Investors, our largest stockholder, participated in the offering and purchased 1.1 million shares of our Common Stock and 412,500 warrants.

Investor Rights Agreement

Pursuant to a third amended and restated investor rights agreement, dated as of September 13, 2006, by and among entities who held our redeemable convertible preferred stock (which was converted to Common Stock at our initial public offering) and us, we granted registration rights to all such holders, to Mount Sinai School of Medicine of New York University, or MSSM, and to the holder of a warrant which has since been exercised. Entities affiliated with Prospect Venture Partners II, L.P., New Enterprise Associates, Frazier Healthcare Ventures and Palo Alto Investors, LLC, each a holder of 5% or more of our voting securities, and their affiliates are parties to this investor rights agreement.

Subject to certain limitations, these stockholders may demand that, on up to two occasions, we register all or part of their securities for sale under the Securities Act as long as the aggregate price to the public for the securities to be sold in each instance is \$5,000,000 or more. If we are eligible to register any of our Common Stock on Form S-3, these stockholders may make the same demand; provided, however, that we will not be required to register their securities if (i) we have already effected a registration within 90 days prior to the request or have effected two or more registrations on Form S-3 within the preceding 12 month period, or (ii) if the aggregate price to the public for the securities to be sold is less than \$2,500,000. Additionally, if we believe that such registration would have a materially detrimental effect on any material corporate event, we may delay the request for up to three months, but not more than once in any twelve month period.

These stockholders may also request registration of their shares if we register any of our Common Stock, either for our own account or for the account of other security holders. In such an event, these stockholders are entitled to notice of the registration and to include their shares of Common Stock in such registration. In the case of an underwritten registration, we must use our reasonable best efforts to obtain the permission of the underwriters to the inclusion of the holder's shares in the offering on the same terms.

With specified exceptions, a holder's right to include shares in a registration is subject to the right of the underwriters to limit the number of shares included in the offering. All fees, costs and expenses of any registrations will generally be paid by us.

Mt. Sinai School of Medicine License Agreement

We acquired exclusive worldwide patent rights to develop and commercialize our lead products and other pharmacological chaperones pursuant to a license agreement with MSSM. In connection with this agreement, we issued 232,266 shares of our Common Stock to MSSM in April 2002. In October 2006 we issued MSSM an additional 133,333 shares of Common Stock and made a payment of \$1.0 million in consideration of an expanded field of use under that license. Under this agreement, to date we have paid no upfront or annual license fees and we have no milestone or future payments other than royalties on net sales. However, on October 31, 2008, we amended and restated this license agreement to, among other items, provide us with the sole right to control the prosecution of patent rights under such agreement. In connection therewith, we agreed to pay MSSM \$2.6 million in connection with the \$50 million up front payment that we received in November 2007 from Shire Pharmaceuticals Ireland Ltd. as part of our former collaboration agreement and an additional \$2.6 million for the sole right to and control over the prosecution of patent rights. In addition, we paid MSSM \$3 million of the \$30 million upfront payment received from GSK in the fourth quarter of 2010. This agreement expires upon expiration of the last of the licensed patent rights, which will be in 2019, or later subject to any patent term extension that may be granted.

CODE OF CONDUCT AND ETHICS

We have adopted a code of conduct and ethics that applies to all of our employees, including our principal executive officer and principal financial and accounting officer, and our directors. The text of the code of conduct and ethics is posted on our web site at www.amicustherapeutics.com and will be made available to stockholders without charge, upon request, in writing to Secretary, c/o Amicus Therapeutics, Inc. at 6 Cedar Brook Drive, Cranbury, New Jersey 08512. Disclosure regarding any amendments to, or waivers from, provisions of the code of conduct and ethics that apply to our directors, principal executive and financial and accounting officers will be included in a Current Report on Form 8-K within four business days following the date of the amendment or waiver, unless web site posting of such amendments or waivers is then permitted by the rules of The Nasdaq Stock Market LLC.

PROPOSAL NO. 1 ELECTION OF DIRECTORS

The Board of Directors has voted to nominate Alexander E. Barkas, Ph.D. and James Barrett, Ph.D. for election at the 2011 Annual Meeting for a term of three years to serve as Class I directors until the 2014 Annual Meeting of Stockholders, and until their respective successors are duly elected and qualified. The third current Class I director, P. Sherrill Neff, previously informed the Company that he would not stand for re-election at this Annual Meeting. The Class II directors Sol J. Barer, Ph.D., Donald J. Hayden and James N. Topper, M.D., Ph.D. and the Class III directors John F. Crowley, Margaret G. McGlynn, R.Ph., Michael G. Raab, and Glenn P. Sblendorio will serve until the Annual Meetings of Stockholders to be held in 2012 and 2013, respectively, and until their respective successors have been elected and qualified.

Unless authority to vote for any of these nominees is withheld, the shares represented by the enclosed proxy will be voted **FOR** the election as directors of Alexander E. Barkas, Ph.D. and James Barrett, Ph.D. In the event that any nominee becomes unable or unwilling to serve, the shares represented by the enclosed proxy will be voted for the election of such other person as the Board of Directors may recommend in his or her place. We have no reason to believe that any nominee will be unable or unwilling to serve as a director.

A plurality of the shares voted at the Annual Meeting is required to elect each nominee as a director.

The Board of Directors recommends the vote FOR the election of each of Alexander E. Barkas, Ph.D. and James Barrett, Ph.D. as a director, and proxies solicited by the Board will be voted in favor thereof unless a stockholder has indicated otherwise on the proxy.

PROPOSAL NO. 2 APPROVAL OF THE AMENDED AND

RESTATED 2007 EQUITY INCENTIVE PLAN

We are asking our stockholders to approve our Amended and Restated 2007 Equity Incentive Plan (the 2007 Plan). The Compensation Committee approved the 2007 Plan, subject to approval of the Board and the stockholders, and the Board approved the 2007 Plan, subject to approval of the stockholders. If our stockholders do not approve the 2007 Plan, the existing version of the Amended and Restated 2007 Equity Incentive Plan (the Existing Plan) will remain in effect.

The following is a summary description of the 2007 Plan. While the material features of the 2007 Plan are described below, the summary is in all respects subject to the complete text of the 2007 Plan contained in Appendix A.

Background and Reason for the Proposal

Equity compensation has historically been a key element of our compensation program. The ability to grant stock options and restricted stock has enabled us to attract and retain highly talented employees. Additionally, equity awards have also allowed us to link incentive rewards to Company performance, to encourage employee ownership in our stock and to align the interests of employees with those of our stockholders. Equity based compensation is a common form of compensation in our industry. Without the ability to grant stock options and restricted stock, we would be at a disadvantage against our competitors for recruiting and retaining key talent. We would also be unable to offer competitive total compensation packages necessary to attract, retain and motivate individuals critical to our future success.

The purpose of the 2007 Plan is to encourage ownership of our Common Stock by employees, consultants and directors of the Company and to provide additional incentive for them to promote the success of the Company s business through the grant of awards of shares of the Company s Common Stock. As of March 31, 2011, there are only 732,997 shares remaining for issuance under the Existing Plan. We are therefore seeking approval of the 2007 Plan in order to make an additional 5,000,000 shares of our Common Stock available for issuance. In addition, we are seeking approval to amend the 2007 Plan to increase the number of shares that may be granted or sold as awards of restricted stock, restricted stock units, stock grants and any other similar awards from 300,000 to 1,146,600 shares.

The Board believes that the 2007 Plan will serve a critical role in attracting and retaining officers and employees and in motivating these individuals to strive to meet our goals and that, without the additional shares which may be offered under the 2007 Plan, we would be at a competitive disadvantage to our peers. The Board further believes that the cap on granting restricted stock and similar awards should be increased to account for the increased number of shares that would be available for issuance under the 2007 Plan and to provide the Compensation Committee with the flexibility to make the types and amounts of awards it believes are necessary to attract and retain qualified individuals, especially given that a growing number of our competitive peers now include grants of restricted stock as part of their long-term incentive programs . However, the Board believes that a limitation on the number of shares that may be awarded as restricted stock and similar awards is appropriate given our stage of development and its desire to continue utilizing stock options as the primary component of our long-term incentive program. The Board therefore determined that the cap on these types of awards should be set at 20% of the total number of shares available for issuance under the 2007 Plan, or 1,146,600 shares, up from 14% of the total amount of shares available under the Existing Plan.

Eligible Participants/Administration

The 2007 Plan provides for the grant of incentive stock options, within the meaning of Section 422 of the Code, to employees, and non-qualified stock options and restricted and other stock awards to our employees,

directors, and consultants. As of April 1, 2011, approximately 103 employees, nine directors and 7 consultants are eligible to participate in the 2007 Plan. The 2007 Plan will be administered by the Compensation Committee of our Board, provided that the Board may itself exercise any of the powers and responsibilities assigned to the Committee under the 2007 Plan.

Subject to the provisions of the 2007 Plan, the Compensation Committee has been granted the discretion to determine when awards are made, which directors, employees or consultants receive awards, the form of an award, the number of shares subject to each award, and all other relevant terms of the award, including vesting and acceleration of vesting, if any. The Compensation Committee also has been granted broad discretion to construe and interpret the 2007 Plan and adopt rules and regulations thereunder.

Number of Shares Authorized Under the 2007 Plan

The aggregate number of shares of our Common Stock that would be issuable under the 2007 Plan is 5,732,997 shares, subject to adjustment to avoid dilution or enlargement of intended benefits in the event of certain significant corporate events. The aggregate number of shares of Common Stock that may be granted in any calendar year to any one person pursuant to the 2007 Plan may not exceed 50% of the aggregate number shares of our Common Stock that may be issued pursuant to the 2007 Plan. In addition, no more than 1,146,600 shares of Common Stock may be granted or sold under the 2007 Plan as awards of restricted stock, restricted stock units, stock grants and any other similar awards whose intrinsic value is not solely dependent on appreciation in the price of our Common Stock after the date of grant. If any shares covered by an award granted under the 2007 Plan, or to which such an award relates, are forfeited, or if an award has expired, terminated or has been canceled for any reason whatsoever (other than by reason of exercise or vesting), then the shares covered by such award shall again be, or shall become, shares with respect to which awards may be granted under the 2007 Plan.

Term of the 2007 Plan

No award may be granted under the 2007 Plan after the tenth anniversary of the effective date of the plan, which is the most recent date on which the 2007 Plan is approved (or reapproved) by our stockholders. Awards granted prior to the expiration of the 2007 Plan shall not expire solely by reason of the termination of the plan.

Terms and Conditions of Options

Options granted under the 2007 Plan shall be, as determined by the Compensation Committee, non-qualified or incentive stock options for federal income tax purposes, and shall be subject to the foregoing and the following terms and conditions and to such other terms and conditions, not inconsistent therewith, as determined by the Compensation Committee:

Option Exercise Price. The price at which shares of Common Stock may be acquired under each incentive stock option shall not be less than 100% of the fair market value of a share on the date an option is granted; provided, however, that the exercise price of any incentive stock option granted to any participant who, at the time of grant, owns more than 10% of the total combined voting power of all classes of the Company's stock (a Ten Percent Holder) shall be at least 110% of the fair market value of the stock on the date of such grant. The closing price of a share of our Common Stock on April 1, 2011 was \$6.81.

Exercisability. Options granted under the 2007 Plan shall be exercisable at such time and upon such terms and conditions as may be determined by the Committee; provided, however, that in no event shall an option be exercisable more than ten years after its grant date or five years after the date it is granted to a Ten Percent Holder. An option may be exercised by a participant providing written notice specifying the number of shares of

Common Stock with respect to which the option is then being exercised. The purchase price for the shares as to which an option is exercised shall be paid to the Company pursuant to one or more of the following methods:

- (i) cash or check payable to the Company;
- (ii) shares of Common Stock having a fair market value equal to the aggregate option exercise price for the shares being purchased, and only with the Compensation Committee's approval;
- (iii) a promissory note executed by the participant in the principal amount equal to the exercise price of the shares being purchased, and only with the Compensation Committee's approval; or
- (iv) if there is a public market for the shares at such time, through and under the terms and conditions of any formal cashless exercise program authorized by the Company entailing the sale of Common Stock subject to any option in a brokered transaction (other than to the Company).

No participant shall be deemed for any purpose to be a stockholder of the Company with respect to any shares of Common Stock issuable pursuant to an option until the participant has given written notice of exercise of the option and has paid in full for such shares.

Terms and Conditions of Restricted Stock

Shares of restricted stock may be issued under the 2007 Plan for such consideration, in cash, other property or services, or any combination thereof, as determined by the Compensation Committee. During the period of time in which the shares of restricted stock are subject to a risk of forfeiture (the Restriction Period), such shares shall be subject to limitations on transferability and a risk of forfeiture arising on the basis of such conditions related to the performance of services, Company performance or otherwise as the Compensation Committee may determine and set forth in an award agreement. Any such risk of forfeiture may be waived or terminated, or the Restriction Period shortened, at any time by the Compensation Committee on such basis as it deems appropriate. Except as otherwise provided in the 2007 Plan or an applicable award agreement, at all times prior to the lapse of the Restriction Period, the participant shall have all of the rights of a stockholder of the Company, including the right to vote the shares of restricted stock.

Terms and Conditions of Restricted Stock Units

Each restricted stock unit shall entitle the recipient to a share of Common Stock at the close of a Restriction Period as established by the Compensation Committee and subject to a risk of forfeiture arising on the basis of such conditions related to the performance of services, Company performance or otherwise as the Compensation Committee may determine and set forth in an award agreement. Any such risk of forfeiture may be waived or terminated, or the Restriction Period shortened, at any time by the Compensation Committee on such basis as it deems appropriate. A participant holding restricted stock units shall not be deemed for any purpose to be a stockholder of the Company with respect to any of the shares of Common Stock subject to such restricted stock units except to the extent that the Restriction Period with respect to such restricted stock units shall have closed and a certificate shall have been issued for such shares of Common Stock.

Terms and Conditions of Stock Grants

Stock grants may be issued under the 2007 Plan for such consideration, in cash or other property or services, or any combination thereof, as determined by the Compensation Committee. Stock grants may be awarded in such circumstances as the Compensation Committee deems appropriate, including in recognition of significant contributions to the success of the Company or in lieu of compensation otherwise already due.

Transferability

Unless otherwise determined by the Compensation Committee, an award (other than a stock award) shall not be transferable or assignable by a participant otherwise than by will or by the laws of descent and

distribution. However, the applicable award agreement or the Compensation Committee may provide that a nonstatutory stock option, shares of restricted stock or restricted stock units may be transferred by the participant to a family member, so long as such transfer is without payment of any consideration.

Change in Control

Subject to the applicable provisions of the award agreement, in the event of a change of control of the Company after the effective date of the 2007 Plan, the Compensation Committee shall have the discretion to provide for any or all of the following:

the acceleration, in whole or in part, of any or all outstanding options that are not exercisable in full at the time of the change of control;

the lapse or termination of the risk of forfeiture with respect to outstanding awards of restricted stock and restricted stock units;

the assumption of outstanding options or restricted stock units, or the substitution of outstanding options or restricted stock units with equivalent options or restricted stock units, as the case may be, by the acquiring or succeeding corporation or entity; or

the termination of all options and restricted stock units (other than those assumed or substituted for), which termination may or may not be in exchange for some payment or other consideration, as determined in the sole discretion of the Compensation Committee.

Adjustments

In the event of any change in the outstanding shares by reason of merger, consolidation, sale of all or substantially all of the property of the Company, reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split, or other distribution with respect to such outstanding shares, an appropriate and proportionate adjustment will be made in (i) the maximum number and kinds of shares that may be issued under the 2007 Plan, (ii) the numbers and kinds of shares or other securities subject to the then outstanding awards; (iii) the exercise price for each share or other unit of any other securities subject to then outstanding options; and (iv) the repurchase price of each share of restricted stock then subject to a risk of forfeiture in the form of a Company repurchase right.

Amendments to the 2007 Plan

The Board may at any time terminate or make such amendments or modifications of the 2007 Plan as it shall deem advisable; provided, however, that no such amendment or modification shall be made without the consent of a participant if such change would:

reduce the number of shares subject to an award, increase the purchase price applicable to shares subject to such award or materially adversely affect the provisions applicable to such award that relate to the vesting or exercisability of such award or the shares subject thereto;

result in an incentive stock option no longer being treated as such within the meaning of Section 422 of the Code; or

not apply to all other awards outstanding on the date of such amendment or modification.

Section 162(m) of the Internal Revenue Code

Section 162(m) of the Code limits the amounts a public company may deduct for income tax purposes in respect of the compensation of certain of its named executive officers. The 2007 Plan is intended to enable stock options granted thereunder to meet the requirements for exemption from the limitations under Section 162(m) of the Code, provided certain other operational requirements are satisfied.

Federal Income Tax Consequences Relating to Awards Under the 2007 Plan

The current United States federal income tax treatment of awards under the 2007 Plan is generally described below. This description of tax consequences is not a complete description. There may be different income tax consequences under certain circumstances, and there may be gift and estate tax consequences. Local, state and other taxing authorities may also tax awards under the plan. Tax laws are subject to change.

Incentive Stock Options

There generally are no federal income tax consequences to a participant or to the Company upon the grant of an incentive stock option. A participant will not recognize income for purposes of the regular federal income tax upon the exercise of an incentive stock option. However, for purposes of the alternative minimum tax, in the year in which a participant exercises an incentive stock option the amount by which the fair market value of the shares acquired upon exercise exceeds the exercise price will be included in a participant's alternative minimum taxable income.

A participant will recognize income when he or she sells stock acquired upon exercise of an incentive stock option. If a participant disposes of the shares acquired upon exercise of an incentive stock option after two years from the date the option was granted and one year from the date the shares were transferred upon the exercise of the option, a participant will recognize long-term capital gain or loss in the amount of the difference between the amount realized on the sale and the exercise price. The Company will not be entitled to any corresponding tax deduction.

If a participant disposes of shares acquired upon the exercise of an incentive stock option before satisfying both holding period requirements (a disqualifying disposition), a participant's gain recognized on the disposition will be taxed as ordinary income to the extent of the difference between the fair market value of the shares on the date of exercise (or the amount realized on the disposition, if less) and the exercise price. The Company will generally be entitled to a deduction in that amount. The gain, if any, in excess of the amount recognized as ordinary income will be long-term or short-term capital gain, depending upon the length of time the participant held the shares before the disposition.

Nonqualified Stock Options

There are generally no federal income tax consequences to a participant or to the Company upon the grant of a nonqualified stock option. Upon the exercise of a nonqualified stock option, a participant will recognize ordinary income in an amount equal to the excess of the fair market value of the shares at the time of exercise over the aggregate exercise price paid. The Company generally will be entitled to a corresponding federal income tax deduction. The participant will have a tax basis in the shares equal to the exercise price plus the amount of income recognized at the time of exercise.

When a participant sells shares of stock acquired through the exercise of a nonqualified stock option, the participant will have a capital gain or loss in an amount equal to the difference between the amount realized on the sale and the tax basis in the shares. The capital gain tax rate will depend on a number of factors, including the length of time the participant held the shares prior to selling them.

Restricted Stock

A participant will generally not recognize federal taxable income when he or she receives a grant of restricted stock, and the Company will not be entitled to a deduction, until the stock is transferable by the participant or is otherwise no longer subject to a substantial risk of forfeiture. When the stock is either transferable or is no longer subject to a substantial risk of forfeiture, a participant will recognize ordinary income in an amount equal to the fair market value of the shares at that time (less any amounts paid for the shares), and

generally, the Company will be entitled to a deduction in the same amount. Any gain or loss recognized by the participant upon a later disposition of the shares will be capital gain or loss. A participant's holding period for purposes of determining whether that capital gain or loss is long-term or short-term will be counted from the date the stock became transferable or ceased to be subject to a substantial risk of forfeiture.

A participant may elect to recognize ordinary income in the year when the share award is granted in an amount equal to the fair market value of the shares subject to the award (less any amounts paid for such shares) at the time of grant, determined without regard to any restrictions. This election is referred to as a Section 83(b) election. In that event, the Company will be entitled to a corresponding deduction in the same year. Any gain or loss recognized by the participant upon a later disposition of the shares will be capital gain or loss. A participant's holding period for purposes of determining whether that capital gain or loss is long-term or short-term will be counted from the date of the original transfer to the participant. The participant may not claim a credit for any tax previously paid on stock that is later forfeited.

Restricted Stock Units

If a participant is granted a restricted stock unit, he or she will not be required to recognize any taxable income at the time of grant. Upon distribution of shares or cash in respect of a restricted stock unit, the fair market value of those shares or the amount of that cash will be taxable to the participant as ordinary income and the Company will receive a deduction equal to the income recognized by the participant. The subsequent disposition of shares acquired pursuant to a restricted stock unit will result in capital gain or loss (based on the difference between the price received on disposition and the market value of the shares at the time of their distribution). The capital gain tax rate will depend on a number of factors, including the length of time the participant held the shares prior to selling them.

Vote Required

The affirmative vote of a majority of shares present in person or represented by proxy at the Annual Meeting and entitled to vote on such matter is required to approve the 2007 Plan.

New Plan Benefits

If the 2007 Plan is approved by stockholders, awards under the 2007 Plan will be determined by the Compensation Committee in its discretion, and it is, therefore, not possible to predict the awards that will be made to particular officers in the future under the 2007 Plan.

The following table presents fees for professional audit services rendered by Ernst & Young LLP for the audit of our annual financial statements for the years ended December 31, 2010 and 2009, and fees billed for other services rendered by Ernst & Young LLP during those periods. All of such fees were approved by the Audit Committee.

Policy on Audit Committee Pre-Approval of Audit and Permissible Non-audit Services of Independent Registered Public Accounting Firm

Consistent with SEC policies regarding auditor independence, the Audit Committee has responsibility for appointing, setting compensation and overseeing the work of the independent registered public accounting firm. In recognition of this responsibility, the Audit Committee has established a policy to pre-approve all audit and permissible non-audit services provided by the independent registered public accounting firm.

Prior to engagement of the independent registered public accounting firm for the next year's audit, management will submit an aggregate estimate of services expected to be rendered during that year for each of four categories of services to the Audit Committee for approval.

1. *Audit* services include audit work performed in the preparation of financial statements, as well as work that only the independent registered public accounting firm can reasonably be expected to provide,

including comfort letters, statutory audits, and attest services and consultation regarding financial accounting and/or reporting standards.

2. *Audit-Related* services are for assurance and related services that are traditionally performed by the independent registered public accounting firm, including due diligence related to mergers and acquisitions, employee benefit plan audits, and special procedures required to meet certain regulatory requirements.
3. *Tax* services include all services performed by the independent registered public accounting firm's tax personnel except those services specifically related to the audit of the financial statements, and includes fees in the areas of tax compliance, tax planning, and tax advice.
4. *Other Fees* are those associated with services not captured in the other categories.

Prior to engagement, the Audit Committee pre-approves these services by category of service. The fees are budgeted and the Audit Committee requires the independent registered public accounting firm and management to report actual fees versus the budget periodically throughout the year by category of service. During the year, circumstances may arise when it may become necessary to engage the independent registered public accounting firm for additional services not contemplated in the original pre-approval. In those instances, the Audit Committee requires specific pre-approval before engaging the independent registered public accounting firm.

The Audit Committee may delegate pre-approval authority to one or more of its members. The member to whom such authority is delegated must report, for informational purposes only, any pre-approval decisions to the Audit Committee at its next scheduled meeting.

In the event the stockholders do not ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm, the Audit Committee will reconsider its appointment.

The affirmative vote of a majority of the shares voted affirmatively or negatively on the matter at the Annual Meeting is required to ratify the appointment of the independent registered public accounting firm.

The Board of Directors recommends the vote FOR to ratify the appointment of Ernst & Young LLP as our independent registered public accounting firm, and proxies solicited by the Board will be voted in favor of such ratification unless a stockholder indicates otherwise on the proxy.

This Committee reviews and reassesses our charter annually and recommends any changes to the Board for approval. The Audit Committee is responsible for overseeing our financial reporting process on behalf of the Board, and for the appointment, compensation, retention, and oversight of the work of Ernst & Young LLP. In fulfilling its responsibilities for the financial statements for fiscal year 2010, the Audit Committee took the following actions:

Reviewed and discussed the audited financial statements for the fiscal year ended 2010 with management and Ernst & Young LLP, our independent registered public accounting firm;

Discussed with Ernst & Young LLP the matters required to be discussed by Statement on Auditing Standards No. 61, as amended, as adopted by the Public Company Accounting Oversight Board in Rule 3200T, relating to the conduct of the audit; and

Received written disclosures and the letter from Ernst & Young LLP regarding its communications with the Audit Committee concerning independence as required by applicable requirements of the Public Company Accounting Oversight Board. The Audit Committee further discussed Ernst & Young's independence with Ernst & Young LLP. The Audit Committee also considered the status of pending litigation, taxation matters and other areas of oversight relating to the financial reporting and audit process that the committee determined appropriate.

Based on the Audit Committee's review of the audited financial statements and discussions with management and Ernst & Young LLP, the Audit Committee recommended to the Board that the audited financial statements be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2010 for filing with the Securities and Exchange Commission.

the Company possessing at least the Applicable Voting Control Percentage of the total voting power of the outstanding A-1 capital stock of the Company and (B) immediately prior to such acquisition, such person or Group, together with their respective Affiliates, did not own or hold shares of capital stock of the Company possessing at least the Applicable Voting Control Percentage of the total voting power of the outstanding capital stock of the Company. Unless the Plan shall have been earlier terminated by the Board, Awards may be granted under this Plan at any time in the period commencing on the effective date of approval of the Plan by the Board and ending immediately prior to the tenth anniversary of the most recent date on which the Plan was approved (or reapproved) by the Company's stockholders. Awards granted pursuant to the Plan within such period shall not expire solely by reason of the termination of the Plan.

4. Stock Subject to the Plan

Subject to the provisions of Section 8 of the Plan, at no time shall the number of shares of Common Stock issued pursuant to or subject to outstanding Awards granted under the Plan (including, without limitation, pursuant to Incentive Options), nor the number of shares of Common Stock issued pursuant to Incentive Options, exceed Five Million Seven Hundred Thirty-Two Thousand Nine Hundred Ninety-Seven (5,732,997) shares of Common Stock. For purposes of applying the foregoing limitation, if any Option expires, terminates, or is cancelled for any reason without having been exercised in full, or if any Award of Restricted Stock is forfeited, the shares not purchased by the Participant or forfeited by the Participant shall again be available for Awards thereafter to be granted under the Plan. Shares of Common Stock issued pursuant to the Plan may be either authorized but unissued shares or shares held by the Company in its treasury.

In addition, not more than 1,146,600 of the total number of shares of Common Stock reserved for issuance under the Plan (as adjusted under Section 8) may be granted or sold as Awards of Restricted Stock, Restricted Stock Units, Stock Grants, and any other similar Awards (Full-Value Awards) whose intrinsic value is not solely dependent on appreciation in the price of Shares after the date of grant. Options and any other similar Awards shall not be subject to, and shall not count against, the limit described in the preceding sentence. If a Full-Value Award expires, is forfeited, or otherwise lapses as described in this Section 4, the shares of Common Stock that were subject to the Award shall be restored to the total number of shares of Common Stock available for grant or sale as Full-Value Awards.

5. Administration

The Plan shall be administered by the Committee; *provided, however*, that at any time and on any one or more occasions the Board may itself exercise any of the powers and responsibilities assigned the Committee under the Plan and when so acting shall have the benefit of all of the provisions of the Plan pertaining to the Committee's exercise of its authorities hereunder; *and provided further* that the Committee may delegate to an executive officer or officers the authority to grant Awards hereunder to employees who are not officers, and to consultants, in accordance with such guidelines as the Committee shall set forth at any time or from time to time. Subject to the provisions of the Plan, the Committee shall have complete authority, in its discretion, to make or to select the manner of making all determinations with respect to each Award to be granted by the Company under the Plan in addition to any other determination allowed the Committee under the Plan including, without limitation: (a) the employee, consultant or director to receive the Award; (b) the form of Award; (c) whether an Option (if granted to an employee) will be an Incentive Option or a Nonstatutory Option; (d) the time of granting an Award; (e) the number of shares subject to an Award; (f) the exercise price of an Option or purchase price, if any, for shares of Restricted Stock or for a Stock Grant and the method of payment of such exercise price or such purchase price; (g) the term of an Option; (h) the vesting period of shares of Restricted Stock or of Restricted Stock Units and any acceleration thereof; (i) the exercise date or dates of an Option and any acceleration thereof; and (j) the effect of termination of any employment, consulting or Board member relationship with the Company or any of its Affiliates on the subsequent exercisability of an Option or on the Risk of Forfeiture of Restricted Stock or Restricted Stock Units. In making such determinations, the Committee may take into account the nature of the services rendered by the respective employees, consultants and directors, their present and potential contributions to the success of the Company and its Affiliates, and such other factors as the Committee in its discretion shall deem relevant. Subject to the provisions of the Plan, the Committee shall also have complete authority to interpret the Plan, to prescribe, amend and rescind rules and regulations relating to it, to determine the terms and provisions of the respective Award Agreements (which need not be identical), and to make all other determinations necessary or advisable for the administration of the Plan. The Committee's determinations made in good faith on matters referred to in this Plan shall be final, binding and conclusive on all persons having or claiming any interest under the Plan or an Award made pursuant hereto.

6. Authorization and Eligibility

The Committee may grant from time to time and at any time prior to the termination of the Plan one or more Awards, either alone or in combination with any other Awards, to any employee of or consultant to one or more of the Company and its Affiliates or to any non-employee member of the Board or of any board of directors (or similar governing authority) of any Affiliate. However, only employees of the Company or of any parent or subsidiary corporations of the Company, as defined in Sections 424(e) and (f), respectively, of the Code, shall be eligible for the grant of an Incentive Option. Further, in no event shall the number of shares of Common Stock covered by Options or other Awards granted to any one person in any one calendar year (or portion of a year) ending after such date exceed fifty percent (50%) of the aggregate number of shares of Common Stock subject to the Plan.

Each grant of an Award shall be subject to all applicable terms and conditions of the Plan (including but not limited to any specific terms and conditions applicable to that type of Award set out in the following Section),

and such other terms and conditions, not inconsistent with the terms of the Plan, as the Committee may prescribe. No prospective Participant shall have any rights with respect to an Award, unless and until such Participant has executed an agreement evidencing the Award, delivered a fully executed copy thereof to the Company, and otherwise complied with the applicable terms and conditions of such Award.

7. Specific Terms of Awards

7.1 Options.

(a) *Date of Grant.* The granting of an Option shall take place at the time specified in the Award Agreement. Only if expressly so provided in the applicable Award Agreement shall the Grant Date be the date on which the Award Agreement shall have been duly executed and delivered by the Company and the Optionee.

(b) *Exercise Price.* The price at which shares of Common Stock may be acquired under each Incentive Option shall be not less than 100% of the Market Value of Common Stock on the Grant Date, or not less than 110% of the Market Value of Common Stock on the Grant Date if the Optionee is a Ten Percent Owner. The price at which shares may be acquired under each Nonstatutory Option shall not be so limited solely by reason of this Section.

(c) *Option Period.* No Incentive Option or Nonstatutory Option may be exercised on or after the tenth anniversary of the Grant Date, or on or after the fifth anniversary of the Grant Date if the Optionee is a Ten Percent Owner.

(d) *Exercisability.* An Option may be immediately exercisable or become exercisable in such installments, cumulative or non-cumulative, as the Committee may determine. In the case of an Option not otherwise immediately exercisable in full, the Committee may Accelerate such Option in whole or in part at any time; *provided, however,* that in the case of an Incentive Option, any such Acceleration of such Incentive Option would not cause such Incentive Option to fail to comply with the provisions of Section 422 of the Code or the Optionee consents to such Acceleration.

(e) *Effect of Termination of Employment, Consulting or Board Member Relationship.* Unless the Committee shall provide otherwise with respect to any Option, if the applicable Optionee's association with the Company or any of its Affiliates as an employee, director or consultant ends for any reason or no reason, regardless of whether the end of such association is effected by the Company, any such Affiliate or such Optionee (whether voluntarily or involuntarily, including because an entity with which such Optionee has any such association ceases to be an Affiliate of the Company), and immediately following the end of any such association, such Optionee is not associated with the Company or any of its Affiliates as an employee, director or consultant, or if such Optionee dies, then any outstanding Option initially granted to such Optionee, whether then held by such Optionee or any other Participant, shall cease to be exercisable in any respect not later than ninety (90) days following the end of such association or such death and, for the period it remains exercisable following the end of such association or such death, shall be exercisable only to the extent exercisable on the date of the end of such association or such death. Military or sick leave or other bona fide leave shall not be deemed a termination of employment, provided that it does not exceed the longer of ninety (90) days or the period during which the absent Optionee's reemployment rights, if any, are guaranteed by statute or by contract.

(f) *Transferability.* Except as otherwise provided in this subsection (f), Options shall not be transferable, and no Option or interest therein may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution (subject always to the provisions of subsection (e) above). Except as otherwise provided in this subsection (f), all of a Participant's rights in any Option may be exercised during the life of such Participant only by such Participant or such Participant's legal representative. However, the applicable Award Agreement or the Committee (at or after the grant of a Nonstatutory Option) may provide that a Nonstatutory Option may be transferred by the applicable Participant to a family member;

provided, however, that any such transfer is without payment of any consideration whatsoever and that no transfer of a Nonstatutory Option shall be valid unless first approved by the Committee, acting in its sole discretion, unless such transfer is permitted under the applicable Award Agreement. For this purpose, family member means any child, stepchild, grandchild, parent, stepparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships, any person sharing the applicable Participant's household (other than a tenant or employee), a trust in which the foregoing persons and/or the applicable Participant have more than fifty percent (50%) of the beneficial interests, a foundation in which the foregoing persons and/or the applicable Participant control the management of assets, and any other entity in which these persons and/or the applicable Participant own more than fifty percent (50%) of the voting interests. The Committee may at any time or from time to time delegate to one or more officers of the Company the authority to permit transfers of Nonstatutory Options to third parties pursuant to this subsection (f), which authorization shall be exercised by such officer or officers in accordance with guidelines established by the Committee at any time and from time to time. The restrictions on transferability set forth in this subsection (f) shall in no way preclude any Participant from effecting cashless exercises of an Option pursuant to the terms of the Plan.

(g) *Method of Exercise.* An Option may be exercised by a Participant giving written notice, in the manner provided in Section 15, specifying the number of shares of Common Stock with respect to which the Option is then being exercised. The notice shall be accompanied by payment in the form of cash or check payable to the order of the Company in an amount equal to the exercise price of the shares of Common Stock to be purchased or, subject in each instance to the Committee's approval, acting in its sole discretion and subject to such conditions, if any, as the Committee may deem necessary to comply with applicable laws, rules and regulations or to avoid adverse accounting effects to the Company, by delivery to the Company of (i) shares of Common Stock having a Market Value equal to the exercise price of the shares to be purchased, or (ii) the Participant's executed promissory note in the principal amount equal to the exercise price of the shares to be purchased and otherwise in such form as the Committee shall have approved. If the Common Stock is traded on an established market, payment of any exercise price may also be made through and under the terms and conditions of any formal cashless exercise program authorized by the Company entailing the sale of the Common Stock subject to any Option in a brokered transaction (other than to the Company). Receipt by the Company of such notice and payment in any authorized or combination of authorized means shall constitute the exercise of the Option. Within thirty (30) days thereafter but subject to the remaining provisions of the Plan, the Company shall deliver or cause to be delivered to the Participant or his agent a certificate or certificates for the number of shares then being purchased. Such shares shall be fully paid and nonassessable. Notwithstanding any of the foregoing provisions in this subsection (g) to the contrary, (A) no Option shall be considered to have been exercised unless and until all of the provisions governing such exercise specified in the Plan and in the relevant Award Agreement shall have been duly complied with; and (B) the obligation of the Company to issue any shares upon exercise of an Option is subject to the provisions of Section 9.1 hereof and to compliance by the Optionee and the Participant with all of the provisions of the Plan and the relevant Award Agreement.

(h) *Limit on Incentive Option Characterization.* An Incentive Option shall be considered to be an Incentive Option only to the extent that the number of shares of Common Stock for which the Option first becomes exercisable in a calendar year does not have an aggregate Market Value (as of the date of the grant of the Option) in excess of the current limit. The current limit for any Optionee for any calendar year shall be \$100,000 minus the aggregate Market Value at the date of grant of the number of shares of Common Stock available for purchase for the first time in the same year under each other Incentive Option previously granted to the Optionee under the Plan, and under each other incentive stock option previously granted to the Optionee under any other incentive stock option plan of the Company and its Affiliates, after December 31, 1986. Any shares of Common Stock which would cause the foregoing limit to be violated shall be deemed to have been granted under a separate Nonstatutory Option, otherwise identical in its terms to those of the Incentive Option.

(i) *Notification of Disposition.* Each person exercising any Incentive Option granted under the Plan shall be deemed to have covenanted with the Company to report to the Company any disposition of such shares prior to

the expiration of the holding periods specified by Section 422(a)(1) of the Code and, if and to the extent that the realization of income in such a disposition imposes upon the Company federal, state, local or other withholding tax requirements, or any such withholding is required to secure for the Company an otherwise available tax deduction, to remit to the Company an amount in cash sufficient to satisfy those requirements.

(j) *Rights Pending Exercise.* No person holding an Option shall be deemed for any purpose to be a stockholder of the Company with respect to any of the shares of Common Stock issuable pursuant to such Option, except to the extent that such Option shall have been exercised with respect thereto and, in addition, a certificate shall have been issued therefor and delivered to such person or his agent.

7.2 *Restricted Stock.*

(a) *Purchase Price.* Shares of Restricted Stock shall be issued under the Plan for such consideration, in cash, other property or services, or any combination thereof, as is determined by the Committee.

(b) *Issuance of Certificates.* Subject to subsection (c) below, each Participant receiving an Award of Restricted Stock shall be issued a stock certificate in respect of such shares of Restricted Stock. Such certificate shall be registered in the name of such Participant, and, if applicable, shall bear an appropriate legend referring to the terms, conditions, and restrictions applicable to such Award substantially in the following form:

The transferability of this certificate and the shares represented by this certificate are subject to the terms and conditions of the Amicus Therapeutics, Inc. Amended and Restated 2007 Equity Incentive Plan and an Award Agreement entered into by the registered owner and Amicus Therapeutics, Inc. Copies of such Plan and Agreement are on file in the offices of Amicus Therapeutics, Inc.

(c) *Escrow of Shares.* The Committee may require that the stock certificates evidencing shares of Restricted Stock be held in custody by a designated escrow agent (which may but need not be the Company) until the restrictions thereon shall have lapsed, and that the Participant deliver a stock power, endorsed in blank, relating to the Common Stock covered by such Award.

(d) *Restrictions and Restriction Period.* During the Restriction Period applicable to shares of Restricted Stock, such shares shall be subject to limitations on transferability and a Risk of Forfeiture arising on the basis of such conditions related to the performance of services, Company or Affiliate performance or otherwise as the Committee may determine and provide for in the applicable Award Agreement. Any such Risk of Forfeiture may be waived or terminated, or the Restriction Period shortened, at any time by the Committee on such basis as it deems appropriate.

(e) *Rights Pending Lapse of Risk of Forfeiture or Forfeiture of Award.* Except as otherwise provided in the Plan or the applicable Award Agreement, at all times prior to lapse of any Risk of Forfeiture applicable to, or forfeiture of, an Award of Restricted Stock, the Participant shall have all of the rights of a stockholder of the Company, including the right to vote the shares of Restricted Stock.

(f) *Effect of Termination of Employment, Consulting or Board Member Relationship.* Unless otherwise determined by the Committee at or after grant and subject to the applicable provisions of the Award Agreement, if the applicable original grantee's association with the Company or any of its Affiliates as an employee, director or consultant ends for any reason or no reason during the Restriction Period, regardless of whether the end of such association is effected by the Company, any such Affiliate or such original grantee (whether voluntarily or involuntarily, including because an entity with which such original grantee has any such association ceases to be an Affiliate of the Company), and immediately following the end of any such association, such original grantee is not associated with the Company or any of its Affiliates as an employee, director or consultant, or if such original grantee dies, then all outstanding shares of Restricted Stock initially granted to such original grantee that are still subject to Risk of Forfeiture, whether then held by such original grantee or any other Participant, shall be forfeited or otherwise subject to return to or repurchase by the Company if and to the extent so provided by, and

subject to and in accordance with, the terms of the applicable Award Agreement; provided, however, that military or sick leave or other bona fide leave shall not be deemed a termination of employment, if it does not exceed the longer of ninety (90) days or the period during which the absent original grantee's reemployment rights, if any, are guaranteed by statute or by contract.

(g) *Lapse of Restrictions.* If and when the Restriction Period expires without a prior forfeiture of the Restricted Stock, the certificates for such shares shall be delivered to the Participant promptly if not theretofore so delivered.

(h) *Transferability.* Except as otherwise provided in this subsection (h), shares of Restricted Stock shall not be transferable, and no share of Restricted Stock or interest therein may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated, other than by will or by the laws of descent and distribution (subject always to the provisions of subsection (f) above). The applicable Award Agreement or the Committee (at or after the grant of a share of Restricted Stock) may provide that such share of Restricted Stock may be transferred by the applicable Participant to a family member; provided, however, that any such transfer is without payment of any consideration whatsoever and that no transfer of a share of Restricted Stock shall be valid unless first approved by the Committee, acting in its sole discretion, unless such transfer is permitted under the applicable Award Agreement. For this purpose, family member means any child, stepchild, grandchild, parent, stepparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships, any person sharing the applicable Participant's household (other than a tenant or employee), a trust in which the foregoing persons and/or the applicable Participant have more than fifty percent (50%) of the beneficial interests, a foundation in which the foregoing persons and/or the applicable Participant control the management of assets, and any other entity in which these persons and/or the applicable Participant own more than fifty percent (50%) of the voting interests. The Committee may at any time or from time to time delegate to one or more officers of the Company the authority to permit transfers of shares of Restricted Stock to third parties pursuant to this subsection (h), which authorization shall be exercised by such officer or officers in accordance with guidelines established by the Committee at any time and from time to time.

7.3. *Restricted Stock Units.*

(a) *Character.* Each Restricted Stock Unit shall entitle the recipient to a share of Common Stock at a close of such Restriction Period as the Committee may establish and subject to a Risk of Forfeiture arising on the basis of such conditions relating to the performance of services, Company or Affiliate performance or otherwise as the Committee may determine and provide for in the applicable Award Agreement. Any such Risk of Forfeiture may be waived or terminated, or the Restriction Period shortened, at any time by the Committee on such basis as it deems appropriate.

(b) *Issuance of Certificates.* Unless otherwise determined by the Committee at or after grant and subject to the applicable provisions of the Award Agreement, at the close of the Restriction Period applicable to any Restricted Stock Units (including, without limitation, the close of the applicable Restriction Period as a result of (i) any Acceleration of Restricted Stock Units in accordance with the terms of this Plan or any applicable Award Agreement, (ii) any waiver, lapse or termination of the Risk of Forfeiture applicable to Restricted Stock Units in accordance with the terms of this Plan or any applicable Award Agreement or (iii) any shortening of the Restriction Period applicable to any Restricted Stock Units in accordance with the terms of this Plan or any applicable Award Agreement), the Company shall deliver or cause to be delivered to the Participant that is the holder of such Restricted Stock Units a stock certificate in respect of the shares of Common Stock subject to such Restricted Stock Units. Such certificate shall be registered in the name of such Participant, and, if applicable, shall bear an appropriate legend referring to the terms, conditions, and restrictions applicable to such shares of Common Stock substantially in the following form:

The transferability of this certificate and the shares represented by this certificate are subject to the terms and conditions of the Amicus Therapeutics, Inc. Amended and Restated 2007 Equity Incentive Plan

and an Award Agreement entered into by the registered owner and Amicus Therapeutics, Inc. Copies of such Plan and Agreement are on file in the offices of Amicus Therapeutics, Inc.

(c) *Dividends.* At the discretion of the Committee, Participants may be entitled to receive payments equivalent to any dividends declared with respect to Common Stock referenced in grants of Restricted Stock Units but only following the close of the applicable Restriction Period and then only if the underlying Common Stock shall have been earned. Unless the Committee shall provide otherwise, any such dividend equivalents shall be paid, if at all, without interest or other earnings.

(d) *Effect of Termination of Employment, Consulting or Board Member Relationship.* Unless otherwise determined by the Committee at or after grant and subject to the applicable provisions of the Award Agreement, if the applicable original grantee's association with the Company or any of its Affiliates as an employee, director or consultant ends for any reason or no reason during the Restriction Period, regardless of whether the end of such association is effected by the Company, any such Affiliate or such original grantee (whether voluntarily or involuntarily, including because an entity with which such original grantee has any such association ceases to be an Affiliate of the Company), and immediately following the end of any such association, such original grantee is not associated with the Company or any of its Affiliates as an employee, director or consultant, or if such original grantee dies, then all outstanding Restricted Stock Units initially granted to such original grantee that are still subject to Risk of Forfeiture, whether then held by such original grantee or any other Participant, shall be forfeited or otherwise subject to return to the Company in accordance with the terms of the applicable Award Agreement; provided, however, that military or sick leave or other bona fide leave shall not be deemed a termination of employment, if it does not exceed the longer of ninety (90) days or the period during which the absent original grantee's reemployment rights, if any, are guaranteed by statute or by contract.

(e) *Transferability.* Except as otherwise provided in this subsection (e), Restricted Stock Units shall not be transferable, and no Restricted Stock Unit or interest therein may be sold, transferred, pledged, assigned, or otherwise alienated or hypothecated. The applicable Award Agreement or the Committee (at or after the grant of a Restricted Stock Unit) may provide that such Restricted Stock Unit may be transferred by the applicable Participant to a family member; provided, however, that any such transfer is without payment of any consideration whatsoever and that no transfer of a Restricted Stock Unit shall be valid unless first approved by the Committee, acting in its sole discretion, unless such transfer is permitted under the applicable Award Agreement. For this purpose, family member means any child, stepchild, grandchild, parent, stepparent, spouse, former spouse, sibling, niece, nephew, mother-in-law, father-in-law, son-in-law, daughter-in-law, brother-in-law, or sister-in-law, including adoptive relationships, any person sharing the applicable Participant's household (other than a tenant or employee), a trust in which the foregoing persons and/or the applicable Participant have more than fifty percent (50%) of the beneficial interests, a foundation in which the foregoing persons and/or the applicable Participant control the management of assets, and any other entity in which these persons and/or the applicable Participant own more than fifty percent (50%) of the voting interests. The Committee may at any time or from time to time delegate to one or more officers of the Company the authority to permit transfers of Restricted Stock Units to third parties pursuant to this subsection (e), which authorization shall be exercised by such officer or officers in accordance with guidelines established by the Committee at any time and from time to time.

(f) *Rights Pending Close of Applicable Restriction Period.* No person holding Restricted Stock Units shall be deemed for any purpose to be a stockholder of the Company with respect to any of the shares of Common Stock subject to such Restricted Stock Units, except to the extent that the Restriction Period with respect to such Restricted Stock Units shall have closed and, in addition, a certificate shall have been issued for such shares of Common Stock and delivered to such person or his agent. Shares of Common Stock subject to Restricted Stock Units shall be issued and outstanding only if and to the extent that a stock certificate representing such shares has been issued and delivered in accordance with the provisions of this Section 7.3.

7.4. Stock Grants.

(a) *In General.* Stock Grants shall be issued for such consideration, in cash, other property or services, or any combination thereof, as is determined by the Committee. Without limiting the generality of the foregoing, Stock Grants may be awarded in such circumstances as the Committee deems appropriate, including without limitation in recognition of significant contributions to the success of the Company or its Affiliates or in lieu of compensation otherwise already due. Stock Grants shall be made without forfeiture conditions of any kind.

(b) *Issuance of Certificates.* Each Participant receiving a Stock Grant shall be issued a stock certificate in respect of such Stock Grant. Such certificate shall be registered in the name of such Participant, and, if applicable, shall bear an appropriate legend referring to the terms, conditions, and restrictions applicable to such Award substantially in the following form:

The transferability of this certificate and the shares represented by this certificate are subject to the terms and conditions of the Amicus Therapeutics, Inc. 2007 Equity Incentive Plan. A copy of such Plan is on file in the offices of Amicus Therapeutics, Inc.

7.5. Awards to Participants Outside the United States. The Committee may modify the terms of any Award under the Plan granted to a Participant who is, at the time of grant or during the term of the Award, resident or primarily employed outside of the United States in any manner deemed by the Committee to be necessary or appropriate in order that such Award shall conform to laws, regulations, and customs of the country in which the Participant is then resident or primarily employed, or so that the value and other benefits of the Award to the Participant, as affected by foreign tax laws and other restrictions applicable as a result of the Participant's residence or employment abroad, shall be comparable to the value of such an Award to a Participant who is resident or primarily employed in the United States. An Award may be modified under this Section 7.4 in a manner that is inconsistent with the express terms of the Plan, so long as such modifications will not contravene any applicable law or regulation. The Committee may establish supplements to, or amendments, restatements, or alternative versions of the Plan for the purpose of granting and administering any such modified Award. No such modification, supplement, amendment, restatement or alternative version may increase the share limit of Section 4.

8. Adjustment Provisions

8.1 Adjustment for Corporate Actions. All of the share numbers set forth in the Plan reflect the capital structure of the Company immediately after the closing of the initial public offering of the Company's Common Stock. Subject to the provisions of Section 8.2, if subsequent to such closing the outstanding shares of Common Stock (or any other securities covered by the Plan by reason of the prior application of this Section) are increased, decreased, or exchanged for a different number or kind of shares or other securities, or if additional shares or new or different shares or other securities are distributed with respect to such shares of Common Stock or other securities, through merger, consolidation, sale of all or substantially all the property of the Company, reorganization, recapitalization, reclassification, stock dividend, stock split, reverse stock split, or other distribution with respect to such shares of Common Stock, or other securities, an appropriate and proportionate adjustment will be made in (i) the maximum numbers and kinds of shares provided in Section 4, (ii) the numbers and kinds of shares or other securities subject to the then outstanding Awards, (iii) the exercise price for each share or other unit of any other securities subject to then outstanding Options (without change in the aggregate purchase price as to which such Options remain exercisable), and (iv) the repurchase price of each share of Restricted Stock then subject to a Risk of Forfeiture in the form of a Company repurchase right.

8.2 Change of Control. Subject to the applicable provisions of the Award Agreement, in the event of a Change of Control, the Committee shall have the discretion, exercisable in advance of, at the time of, or (except to the extent otherwise provided below) at any time after, the Change of Control, to provide for any or all of the following (subject to and upon such terms as the Committee may deem appropriate): (A) the Acceleration, in

whole or in part, of any or all outstanding Options (including Options that are assumed or replaced pursuant to clause (D) below) that are not exercisable in full at the time the Change of Control, such Acceleration to become effective at the time of the Change of Control, or at such time following the Change of Control that the employment, consulting or Board member relationship of the applicable Optionee or Optionees with the Company and its Affiliates terminates, or at such other time or times as the Committee shall determine; (B) the lapse or termination of the Risk of Forfeiture (including, without limitation, any or all of the Company's repurchase rights) with respect to outstanding Awards of Restricted Stock, such lapse or termination to become effective at the time of the Change of Control, or at such time following the Change of Control that the employment, consulting or Board member relationship with the Company and its Affiliates of the Participant or Participants that hold such Awards of Restricted Stock (or the person to whom such Awards of Restricted Stock were initially granted) terminates, or at such other time or times as the Committee shall determine; (C) the lapse or termination of the Risk of Forfeiture with respect to any or all outstanding Awards of Restricted Stock Units (including Restricted Stock Units that are assumed or replaced pursuant to clause (D) below), such lapse or termination to become effective at the time of the Change of Control, or at such time following the Change of Control that the employment, consulting or Board member relationship with the Company and its Affiliates of the Participant or Participants that hold such Awards of Restricted Stock Units (or the person to whom such Awards of Restricted Stock Units were initially granted) terminates, or at such other time or times as the Committee shall determine; (D) the assumption of outstanding Options or Restricted Stock Units, or the substitution of outstanding Options or Restricted Stock Units with equivalent options or equivalent restricted stock units, as the case may be, by the acquiring or succeeding corporation or entity (or an affiliate thereof); (E) the termination of all Options (other than Options that are assumed or substituted pursuant to clause (D) above) that remain outstanding at the time of the consummation of the Change of Control, provided that, the Committee shall have made the determination to effect such termination prior to the consummation of the Change of Control and the Committee shall have given, or caused to be given, to all Participants written notice of such potential termination at least five business days prior to the consummation of the Change of Control, and provided, further, that, if the Committee shall have determined in its sole and absolute discretion that the Company make payment or provide consideration to the holders of such terminated Options on account of such termination, which payment or consideration shall be on such terms and conditions as the Committee shall have determined (and which could consist of, in the Committee's sole and absolute discretion, payment to the applicable Optionee or Optionees of an amount of cash equal to the difference between the Market Value of the shares of Common Stock for which the Option is then exercisable and the aggregate exercise price for such shares under the Option), then the Company shall be required to make, or cause to be made, such payment or provide, or cause to be provided, such consideration in accordance with the terms and conditions so determined by the Committee, otherwise the Company shall not be required to make any payment or provide any consideration in connection with, or as a result of, the termination of Options pursuant to the foregoing provisions of this clause (E); or (F) the termination of all Restricted Stock Units (other than Restricted Stock Units that are assumed or substituted pursuant to clause (D) above) that remain outstanding at the time of the consummation of the Change of Control, provided that, if the Committee shall have determined in its sole and absolute discretion that the Company make payment or provide consideration to the holders of such terminated Restricted Stock Units on account of such termination, which payment or consideration shall be on such terms and conditions as the Committee shall have determined (and which could consist of, in the Committee's sole and absolute discretion, payment to the applicable Participant or Participants of an amount of cash equal to the Market Value of the shares of Common Stock subject to the terminated Restricted Stock Units), then the Company shall be required to make such payment or provide such consideration in accordance with the terms and conditions so determined by the Committee, otherwise the Company shall not be required to make any payment or provide any consideration in connection with, or as a result of, the termination of Restricted Stock Units pursuant to the foregoing provisions of this clause (F). The provisions of this Section 8.2 shall not be construed as to limit or restrict in any way the Committee's general authority under Sections 7.1(d) or 7.2(d) hereof to Accelerate Options in whole or in part at any time or to waive or terminate at any time any Risk of Forfeiture applicable to shares of Restricted Stock or Restricted Stock Units. Each outstanding Option or Restricted Stock Unit that is assumed in connection with a Change of Control, or is otherwise to continue in effect subsequent to a Change of Control, will be appropriately adjusted, immediately after the Change of

Control, as to the number and class of securities and the price at which it may be exercised in accordance with Section 8.1.

8.3. *Dissolution or Liquidation.* Upon dissolution or liquidation of the Company, each outstanding Option shall terminate, but the Optionee (if at the time he or she has an employment, consulting or Board member relationship with the Company or any of its Affiliates) shall have the right, immediately prior to such dissolution or liquidation, to exercise the Option to the extent exercisable on the date of such dissolution or liquidation.

8.4. *Related Matters.* Any adjustment in Awards made pursuant to this Section 8 shall be determined and made, if at all, by the Committee and shall include any correlative modification of terms, including of Option exercise prices, rates of vesting or exercisability, Risks of Forfeiture and applicable repurchase prices for Restricted Stock, which the Committee may deem necessary or appropriate so as to ensure that the rights of the Participants in their respective Awards are not substantially diminished nor enlarged as a result of the adjustment and corporate action other than as expressly contemplated in this Section 8. No fraction of a share shall be purchasable or deliverable upon exercise, but in the event any adjustment hereunder of the number of shares covered by an Award shall cause such number to include a fraction of a share, such number of shares shall be adjusted to the nearest smaller whole number of shares. No adjustment of an Option exercise price per share pursuant to this Section 8 shall result in an exercise price which is less than the par value of the Common Stock.

9. Settlement of Awards

9.1 *Violation of Law.* Notwithstanding any other provision of the Plan or the relevant Award Agreement, if, at any time, in the reasonable opinion of the Company, the issuance of shares of Common Stock covered by an Award may constitute a violation of law, then the Company may delay such issuance and the delivery of a certificate for such shares until (i) approval shall have been obtained from such governmental agencies, other than the Securities and Exchange Commission, as may be required under any applicable law, rule, or regulation and (ii) in the case where such issuance would constitute a violation of a law administered by or a regulation of the Securities and Exchange Commission, one of the following conditions shall have been satisfied:

(a) the shares are at the time of the issue of such shares effectively registered under the Securities Act; or

(b) the Company shall have determined, on such basis as it deems appropriate (including an opinion of counsel in form and substance satisfactory to the Company) that the sale, transfer, assignment, pledge, encumbrance or other disposition of such shares or such beneficial interest, as the case may be, does not require registration under the Securities Act or any applicable state securities laws.

9.2 *Corporate Restrictions on Rights in Stock.* Any Common Stock to be issued pursuant to Awards granted under the Plan shall be subject to all restrictions upon the transfer thereof which may be now or hereafter imposed by the Certificate of Incorporation and the By-laws of the Company, each as amended and in effect from time to time. Whenever Common Stock is to be issued pursuant to an Award, if the Committee so directs at the time of grant (or, if such Award is an Option, at any time prior to the exercise thereof), the Company shall be under no obligation, notwithstanding any other provision of the Plan or the relevant Award Agreement to the contrary, to issue such shares until such time, if ever, as the recipient of the Award (and any person who exercises any Option, in whole or in part), shall have become a party to and bound by any agreement that the Committee shall require in its sole discretion. In addition, any Common Stock to be issued pursuant to Awards granted under the Plan shall be subject to all stop-transfer orders and other restrictions as the Committee may deem advisable under the rules, regulations and other requirements of any stock exchange upon which the Common Stock is then listed, and any applicable federal or state securities laws, and the Committee may cause a legend or legends to be put on any such certificates to make appropriate reference to such restrictions.

9.3 *Investment Representations.* The Company shall be under no obligation to issue any shares covered by an Award unless the shares to be issued pursuant to Awards granted under the Plan have been effectively

registered under the Securities Act or the Participant shall have made such written representations to the Company (upon which the Company believes it may reasonably rely) as the Company may deem necessary or appropriate for purposes of confirming that the issuance of such shares will be exempt from the registration requirements of that Act and any applicable state securities laws and otherwise in compliance with all applicable laws, rules and regulations, including but not limited to that the Participant is acquiring shares for his or her own account for the purpose of investment and not with a view to, or for sale in connection with, the distribution of any such shares.

9.4 Registration. If the Company shall deem it necessary or desirable to register under the Securities Act or other applicable statutes any shares of Common Stock issued or to be issued pursuant to Awards granted under the Plan, or to qualify any such shares of Common Stock for exemption from the Securities Act or other applicable statutes, then the Company shall take such action at its own expense. The Company may require from each recipient of an Award, or each holder of shares of Common Stock acquired pursuant to the Plan, such information in writing for use in any registration statement, prospectus, preliminary prospectus or offering circular as is reasonably necessary for such purpose and may require reasonable indemnity to the Company and its officers and directors from such holder against all losses, claims, damage and liabilities arising from such use of the information so furnished and caused by any untrue statement of any material fact therein or caused by the omission to state a material fact required to be stated therein or necessary to make the statements therein not misleading in the light of the circumstances under which they were made.

9.5 Lock-Up. Without the prior written consent of the Company or the managing underwriter in any public offering of shares of Common Stock, no Participant shall sell, make any short sale of, loan, grant any option for the purchase of, pledge or otherwise encumber, or otherwise dispose of, any shares of Common Stock during the one hundred-eighty (180) day period commencing on the effective date of the registration statement relating to any underwritten public offering of securities of the Company. The foregoing restrictions are intended and shall be construed so as to preclude any Participant from engaging in any hedging or other transaction that is designed to or reasonably could be expected to lead to or result in, a sale or disposition of any shares of Common Stock during such period even if such shares of Common Stock are or would be disposed of by someone other than such Participant. Such prohibited hedging or other transactions would include, without limitation, any short sale (whether or not against the box) or any purchase, sale or grant of any right (including without limitation any put or call option) with respect to any shares of Common Stock or with respect to any security that includes, relates to, or derives any significant part of its value from any shares of Common Stock. In the event of any amendment or modification of the Plan that is described in clause (i), (ii) or (iii) of the foregoing proviso, such amendment or modification of the Plan shall apply to any Award outstanding on the date of such amendment or modification only if the recipient of such Award consents in writing thereto.

The Committee may amend or modify, prospectively or retroactively, the terms of any outstanding Award without amending or modifying the terms of the Plan itself, *provided that* as amended or modified such Award is consistent with the terms of the Plan as in effect at the time of the amendment or modification of such Award, but no such amendment or modification of such Award shall, without the written consent of the recipient of such Award, reduce the number of shares subject to such Award, increase the purchase price applicable to shares subject to such Award, adversely affect the provisions applicable to such Award that relate to the vesting or exercisability of such Award or of the shares subject to such Award, or otherwise materially adversely affect the terms of such Award (except for amendments or modifications to the terms of such Award or of the stock subject to such Award that are expressly permitted by the terms of the Plan or that result from any amendment or modification of the Plan in accordance with the provisions of the first paragraph of this Section 13), or, if such Award is an Incentive Option, result in such Incentive Option no longer being treated as an incentive stock option within the meaning of Section 422 of the Code.

In addition, notwithstanding anything express or implied in any of the foregoing provisions of this Section 13 to the contrary, the Committee may amend or modify, prospectively or retroactively, the terms of any outstanding Award to the extent the Committee reasonably determines necessary or appropriate to conform such Award to the requirements of Section 409A of the Code (concerning non-qualified deferred compensation), if applicable.

Without the approval of the Company's stockholders, the Committee will not, directly or indirectly, reduce the exercise price of an outstanding Option (other than in accordance with the adjustment provisions of Section 8.1).
