Form DEFA14A
February 13, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

SCHEDULE 14A

Proxy Statement Pursuant to Section 14(a) of the

Securities Exchange Act of 1934

Filed by the Registrant

Filed by a Party other than the Registrant

Check the appropriate box:

Preliminary Proxy Statement

Confidential, For Use of the Commission Only (as permitted by Rule 14a-6(e)(2))

Definitive Proxy Statement

Definitive Additional Materials

Soliciting Material Pursuant to § 240.14a-12

InfuSystem Holdings, Inc.

(Name of Registrant as Specified In Its Charter)

(Name of Person(s) Filing Proxy Statement, if Other Than the Registrant)

Payment of Filing Fee (Check the appropriate box):

No fee required.

Fee computed on table below per Exchange Act Rules 14a-6(i)(4) and 0-11.

(1) Title of each class of securities to which transaction applies:

Edgar Filing: InfuSystem Holdings, Inc - Form DEFA14A

(2) Aggregate number of securities to which transaction applies:

(3) Per unit price or other underlying value of transaction computed pursuant to Exchange Act Rule 0-11 (set forth the amount on which the filing fee is calculated and state how it was determined):

(4) Proposed maximum aggregate value of transaction:

(5) Total fee paid:

.. Fee paid previously with preliminary materials.

.. Check box if any part of the fee is offset as provided by Exchange Act Rule 0-11(a)(2) and identify the filing for which the offsetting fee was paid previously. Identify the previous filing by registration statement number, or the Form or Schedule and the date of its filing.

(1) Amount Previously Paid:

(2) Form, Schedule or Registration Statement No.:

(3) Filing Party:

(4) Date Filed:

NYSE Amex: INFU
InfuSystem Holdings, Inc.

Safe Harbor Statement

This presentation may contain forward-looking statements within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. Forward-looking statements are statements that are not historical facts. Such forward-looking statements, based upon the current beliefs and expectations of InfuSystem's management, are subject to risks and uncertainties, which could cause actual results to differ from the forward-looking statements. The following factors, among others, could cause actual results to differ from those set forth in the forward-looking statements: dependence on our Medicare Supplier Number;

changes
in
third
party
reimbursement
rates;
availability
of
chemotherapy
drugs
in
our
infusion
pump
systems; physicians

use of infusion pump therapy over oral medications; our growth strategy, including entry into new fields of infusion-based therapy and potential acquisitions and strategic alliances; the current global financial crisis; industry competition; dependence upon our suppliers; and general economic conditions, as well as other relevant risks detailed in InfuSystem's filings with the SEC. The information set forth herein should be read in light of such risks. InfuSystem does not assume any obligation to update information contained in this presentation.

Definitive Proxy Statement

In connection with the solicitation of agent designation revocations, InfuSystem Holdings, Inc. has filed a definitive proxy statement with the Securities

and
Exchange
Commission
(the
SEC).

STOCKHOLDERS
ARE

URGED TO READ THE DEFINITIVE PROXY STATEMENT AND OTHER RELEVANT MATERIALS WHEN THEY BECOME

2020

Increasing Demand for Health Care Services

National Health Expenditures

In 2009, the U.S. spent \$2.5 trillion on healthcare, or 18% of total GDP

Growth in U.S. national health expenditures has significantly outpaced the overall economy

Major drivers behind this increase include:

introduction of medical technology, an aging population, and change in lifestyle

U.S. national health expenditures are expected to increase to \$4.6 trillion by 2020, a 6.3%

CAGR since 2000

(\$ in billions)

Source: Centers for Medicare & Medicaid Services

Strong Growth in Home Health Spending

The Home Health sector represented an estimated \$68.3 billion of revenue in 2009
Home Health is the lowest-cost clinical setting for patients, especially those with a chronic illness or following an inpatient stay
Favorable industry drivers such as an aging population, cost effectiveness and patient

preference for home care will continue to drive
the industry's growth

U.S. Home Health spending is expected to
increase to \$136 billion by 2020, a 7.4% CAGR
since 2000

Home Health Expenditures

(\$ in billions)

Source: Centers for Medicare & Medicaid Services

Growing Demand for Infusion Therapy

Colorectal cancer (CRC) is one of the most prevalent forms of cancer in the United States

The standard of care for the treatment of CRC relies upon continuous chemotherapy infusions delivered via electronic ambulatory infusion pumps

Clinical evidence demonstrates superior outcomes of continuous chemotherapy infusions

Payors recognize the positive outcomes and it is reflected in favorable

reimbursement for clinical services related to the delivery of this care
Since 2000, the approval of a number of chemotherapy protocols tied to infusion
have resulted in significantly improved overall survival rates for CRC patients
Source: Centers for Disease Control and Prevention

Increasing Outsourcing of Non-Core Activities

Hospitals are increasingly outsourcing non-core activities to reduce costs, improve inefficiencies and focus on core high value acute care competencies

Renting of medical equipment provides healthcare providers with greater financial and operating flexibility

Reduces capital expenditures in difficult economic environments

Increases
equipment
utilization
rates
by
allowing
for
short
term
equipment
investments

Limits equipment obsolescence risk

Helps to manage physician preferences

Eliminates maintenance staffing requirements

Ambulatory Oncology Infusion Overview

Leading provider of **ambulatory infusion pumps** for oncologists and their patients with significant market share

Pumps are primarily used for the continuous infusion of chemotherapy drugs to treat colorectal cancer

Provide a complete solution to doctors & patients

Pumps and related disposable supplies

Billing and collections directly from payors

Maintains, cleans & services equipment

Operates 24/7 oncology certified nurse-staffed patient support hotline

Strong, leverageable relationships with 1,400+ oncology clinics

Ambulatory Oncology Infusion Service Model

New Patient prescribed

CI pump by physician

Step 1

CI pump programmed,
drug loaded and therapy
initiated in physician's office

Step 2

Patient wears pump for
infusion regimen
(22-46 hours/treatment)

Step 3

Documentation collected
from physician's office and
claims submitted to payors
by InfuSystem

Step 4*

Pump returned to
InfuSystem for cleaning
and maintenance

Step 5

* Steps 1-4 are repeated for a given patient over their 4-6 month treatment cycle

Ambulatory Pump Financial Profile

Average cost: ~\$1,600 per pump

Average monthly revenue: ~\$300/pump

Pump useful life: 7-10 years

Depreciated over 5 years

Payback: <6 months

Lifetime revenue per pump: \$20,000+

Ambulatory fleet: ~23,000 pumps

Significant return on investment

Ambulatory Payor and Customer Mix

Customers Include

Leading Cancer Institutions:

Total number of customers: 1,400+

Consignment Service Line

Target Market Penetration

InfuSystem measures its market share not in terms of the number of practices, but in the pool of addressable patients

The Company estimates the number of patients with a particular diagnosis code in its 'book of business' to the total number of patients diagnosed with those

cancer types each year

The Company estimates how the other sectors divides what's left based on its own intimate knowledge of the market

The breakdown of the Company's current market share shows that despite being the predominant national player in continuous infusion, there is ample room for organic growth

Value to Payors

Lower cost

State of the art patient care

Improved patient outcomes

Compelling Ambulatory Value Proposition

Win-win-win proposition: patients, payors and providers all benefit

Value to Physicians

Large Volume Pump Division

Sells, rents, services and repairs new and pre-owned infusion pumps and other medical equipment

Convenience and flexibility of rentals & leases that don't require capital outlays but eliminate hassle of maintenance/service

Leading provider to alternate site healthcare facilities and hospitals in the United States and Canada

Minimal reimbursement revenue; transacts directly with

healthcare providers

Sells a variety of primary and secondary tubing, cassettes, catheters and other disposable items that are utilized with infusion pumps

World class biomedical repair for pumps, defibrillators, SCD's and most other general medical equipment

Biomedical Repair

In-house pump repair services

Large volume pumps require scheduled maintenance and calibration

Helps strengthen relationship with customers

Provides InfuSystem an opportunity to establish a business relationship with customers that acquired pumps through other

sources

Utilized to maintain and service InfuSystem s
ambulatory pump fleet

Provides one-stop shopping for pumps

Kleinheinz Dissident Group Solicitation

A Special Meeting is Unnecessary & Costly

The Board does not believe that a special meeting serves the interests of InfuSystem stockholders

The Board values input from stockholders and is always open to stockholder input regarding the composition of the Board

The entire Board will be up for election at the 2012 annual meeting of stockholders to be held in the spring

The special meeting has been demanded by a group of dissident

stockholders who have not articulated any plans for InfuSystem
The Kleinheinz Dissident Group has chosen to engage in a disruptive proxy
contest that will inflict significant costs on stockholders

Six of seven Board members are independent

David Dreyer

Timothy Kopra

Pat LaVecchia

Vice Chairman

Jean-Pierre Millon

John Voris

Wayne Yetter

InfuSystem's Board is comprised of seasoned executives, all of whom are actively engaged in creating value for all stockholders. InfuSystem has a Highly-Qualified and Independent Board.

Sean McDevitt *Chief Executive Officer and Chairman*

All directors have a deep understanding of InfuSystem's business, significant healthcare industry knowledge and experience as public company directors.

Strong Corporate Governance Profile

Strong, experienced, independent Board

Board is elected annually

Wholly independent Audit, Compensation and Governance &
Nominating committees

Board members own approximately 17.3% of the Company's
outstanding shares, aligning their interests with those of
stockholders

InfuSystem's Board is committed to ensuring that InfuSystem has the right plan and governance structure in place to deliver the most value to stockholders

The Board Values the Input of Our Stockholders

While the Board believes that the Company has the correct strategic plan and leadership in place, it remains open to all ideas designed to enhance stockholder value

The Board and management team, with the assistance of independent financial advisors, regularly undertake a thorough review of strategic alternatives

The Board remains open to all ideas designed to enhance

stockholder value, but the Kleinheinz Dissident Group has refused to share with the Company any ideas for enhancing stockholder value despite several requests

The Kleinheinz Dissident Group owns only 11.4% of the Company, yet is asking for full control of the company without paying a customary control premium

To
date,
the
Kleinheinz
Dissident

Group

has

failed

to

articulate

any

plan

or

proposal to create enhanced value for InfuSystem stockholders

The Kleinheinz Dissident Group's Solicitation Statement also provides no

information as to what actions the group might undertake to improve

stockholder value if it were to gain control of the Board

Rather than engage with the Company constructively, the Kleinheinz

Dissident Group has made baseless allegations that the Board is actively

impeding improvements

without offering any examples of such behavior

The Kleinheinz Dissident Group has Not

Articulated a New Strategy for the Company

If the Kleinheinz Dissident Group were to take control of the Board, there would be several immediate adverse consequences to InfuSystem:

An event of default would occur under the Company's Credit Agreement and would give lenders the right to declare the outstanding principal and accrued interest (\$25.1 as of September 30, 2011) due and payable

The Kleinheinz Dissident Group has categorically stated it believes the lenders would be unlikely to exercise this right, but admits that this assertion is not informed by any discussions with the Company's lenders

InfuSystem's business depends upon its management's deep knowledge of the industry, relationships with third-party payors and the relationships between its sales forces and its customers, and the Board believes InfuSystem may have difficulty retaining key employees

The Kleinheinz Dissident Group has not disclosed any plans for addressing these adverse consequences

The Kleinheinz Dissident Group has Not Addressed Adverse Consequences of Replacing Entire Board

The Kleinheinz Dissident Group Nominees

Not Right for InfuSystem

The Company believes that the Kleinheinz Dissident Group's nominees would fail to enhance the composition of the Board

Five of the seven nominees have no meaningful experience in the healthcare industry

In our view, electing the Kleinheinz Dissident Group nominees could:

Interrupt the ongoing implementation of InfuSystem's

strategic plan;

Disrupt the ongoing strategic alternatives review process;

Reduce the level of relevant experience on the Board; and

Negatively impact stockholder value

Electing the dissident's nominees could interrupt the ongoing implementation of the strategic plan and may negatively impact stockholder value

Do not designate the Kleinheinz Dissident Group as an agent for your shares

do not sign their white agent designation card

The Kleinheinz Dissident Group's nominees have neither the qualifications nor the experience to assist the Board in creating stockholder value

InfuSystem's Board and management have:

Taken extensive measures to position InfuSystem for continued success as

well as to enhance stockholder value

Developed a strategic plan that puts InfuSystem on a trajectory of significant revenue growth in revenue which is already delivering results

40

Support your Board's efforts to drive value for ALL stockholders

InfuSystem Directors

Sean McDevitt (Chief Executive Officer and Chairman of the Board)

Sean McDevitt has served as the Company's Chief Executive Officer since September 2009 and Chairman of the Board of Directors since August 2005. Previously, Mr. McDevitt was a Managing Director of FTN Midwest Securities Corp. from September 2004 to January 2007. In 1999, Mr. McDevitt co-founded Alterity Partners, a boutique investment bank which provided capital markets and merger and acquisition advisory services to high growth companies. Alterity Partners was acquired by FTN Midwest Securities Corp. in September 2004. Mr. McDevitt was formerly a senior investment banker at Goldman Sachs & Company from 1995 through 1999

where

he

led

deal

teams

in

a

variety

of

technology

and

healthcare/biopharmaceutical

transactions,

including

mergers and acquisitions, divestitures and initial public offerings. Prior to Goldman Sachs & Company, Mr. McDevitt worked in sales and marketing at Pfizer Inc. from 1991 until 1994. He was a Captain in the U.S. Army Rangers and was decorated for combat in the Panama invasion. He is a member of the Council on Foreign Relations. Mr. McDevitt received his B.S. in Computer Science and Electrical Engineering from the U.S. Military Academy at West Point and an M.B.A. from Harvard Business School. Mr. McDevitt brings to the Company and the Board of Directors extensive experience as an investment banker, especially dealing with mergers, acquisitions and other transactions in the healthcare industry.

InfuSystem Directors

David Dreyer

David Dreyer has been a member of the Company's Board of Directors since April 2008. Mr. Dreyer has served as Chief Financial Officer and Secretary of Patient Safety Technologies (OTCBB: PSTX), since October 2010.

Previously Mr. Dreyer was Chief Financial Officer of Alphastaff Group, Inc., a human resource outsourcing company,

from

August

2009

to

September

2010.

Mr.

Dreyer

served

as

Chief

Financial

Officer

and

Chief

Accounting Officer of AMN Healthcare Services, Inc. (NYSE: AHS) from September 2004 to August 2009, and

Treasurer from 2006 to August 2009. During Mr. Dreyer's tenure, AMN grew to become the leader in

healthcare staffing for physicians, travel nurses, and allied travel, doubling its revenue to \$1.2 billion in 4 years.

From 1997 through 2004, Mr. Dreyer served as Chief Financial Officer and Chief Accounting Officer of Sicor,

Inc., a manufacturer of complex pharmaceuticals with operations in the United States, Italy, Mexico, Lithuania,

China

and

Switzerland,

which

was

acquired

by

Teva

Pharmaceutical

Limited.

Prior

to

joining

Sicor,

Mr.

Dreyer

served in related senior financial management positions within the pharmaceutical industry, working for Elan

Corporation plc, Athena Neurosciences and Syntex. Mr. Dreyer is a Certified Public Accountant in California.

Mr. Dreyer brings to the Company and the Board of Directors financial expertise from his experience serving as

a Chief Financial Officer of Sicor, Inc., AMN Healthcare Services, Inc. and Alphastaff Group, Inc.

InfuSystem Directors

Timothy Kopra

Timothy Kopra has been a member of the Company's Board of Directors since April 8, 2010. Mr. Kopra began his military service in 1985 and has held a variety of leadership and technical positions as a U.S. Army officer and aviator. After assignments within the U.S. and Germany and deployment to Operations Desert Shield and Desert Storm, Mr. Kopra completed the U.S. Navy Test Pilot School and was designated as an experimental test pilot in 1996. He then served as the developmental test director for the Comanche helicopter program. In July 2000, Mr. Kopra was selected as an astronaut and completed two years of Space Shuttle, Space Station, and T-

38 flight training. Mr. Kopra then served in the Astronaut Office, where his primary focus involved testing crew interfaces for International Space Station (ISS) unpressurized modules as well as the implementation of support computers and operational Local Area Network on ISS. Mr. Kopra completed his first space flight in 2009, logging two months in space and one spacewalk. Mr. Kopra continues to be an employee of the National Aeronautics and Space Administration (NASA). Mr. Kopra received a Bachelor of Science from the United States Military Academy at West Point, a Master of Science in Aerospace Engineering from the Georgia Institute

of
Technology,
and
a
Master
of

experience serving on various boards of directors and as an officer of other companies in the
healthcare industry is valuable to the Company.

InfuSystem Directors

Wayne Yetter

Wayne Yetter has served a member of the Company's Board of Directors since September 2005. He served as Chief Executive Officer of Verispan, LLC, a healthcare information company founded by Quintiles Transnational Corp. and McKesson Corp, from September 2005 to August 2008. From November 2004 through September 2005, Mr. Yetter served as President and Chief Executive Officer of Odyssey Pharmaceuticals, Inc. to assist Odyssey's parent, PLIVA d.d., implement its strategy to exit the proprietary pharmaceutical business. Mr. Yetter has built and led a variety of multi-million dollar businesses and pharmaceutical operations for some of the

largest companies in the world. After serving in Vietnam, Mr. Yetter began his career in the pharmaceuticals industry in 1970 as a sales representative for Pfizer. From Pfizer, he joined Merck & Co in 1977, where he led the Marketing Operations Group and then became President of the Asia Pacific region before starting the new company, Astra Merck, in 1991 as President and Chief Executive Officer. Under his leadership, Astra Merck's product, Prilosec, grew to be the #1 pharmaceutical product in the United States at the time. Mr. Yetter then joined Novartis Pharmaceuticals in 1997, where he was President and Chief Executive Officer of the United States pharmaceutical business. In 1999, he joined IMS and later led its spinout company, Synavant, where he was Chairman and Chief Executive Officer for three years before Synavant merged with Dendrite International in 2003. He also served as an advisor to Alterity Partners from 2003 until 2004. Mr. Yetter was formerly Chairman of the Board for Transkaryotic Therapies Inc., which was acquired by Shire Pharmaceuticals. Mr. Yetter currently serves on the Board of Directors of EpiCept Corporation (OTCOX: EPCT), Strategic Diagnostics Inc. (NASDAQ: SDIX) and is Chairman of the Board of NuPathe, Inc. (NASDAQ: PATH). Mr. Yetter's experience serving on various boards of directors and as an officer of other companies in the healthcare industry is valuable to the Company.
