ITEM 2.05 COSTS ASSOCIATED WITH EXIT OR DISPOSAL ACTIVITIES.

On October 30 2012, Navistar International Corporation (the Company) announced its plan to cease operations and close its Garland, Texas, truck manufacturing operations (the Garland Facility) in the first half of 2013. The plan is part of the Company's effort to reduce costs and optimize its manufacturing footprint. Beginning in January 2013, the Company will transition truck volumes being produced at the Garland Facility to other North America operations that produce similar models.

As a result of the planned closure of the Garland Facility, the Company expects to incur pre-tax charges of \$40 million to \$60 million, which consist of charges of: (i) \$10 million to \$15 million for employee separation benefits, (ii) \$20 million to \$30 million for accelerated depreciation of certain assets, and (iii) \$10 million to \$15 million of other-related charges. The Company expects to incur less than \$10 million of these charges in the fourth quarter of fiscal 2012 with the remaining charges expected to be incurred in fiscal 2013. The Company anticipates these pre-tax charges will result in future cash expenditures of \$20 million to \$30 million.
