SEMIANNUAL REPORT · NOVEMBER 30, 2012

Fund Type

Short Duration, High Yield Bond

Objective

High level of current income

The views expressed in this report and information about the Fund's portfolio holdings are for the period covered by this report and are subject to change thereafter.

The accompanying financial statements as of November 30, 2012, were not audited and, accordingly, no auditor's opinion is expressed on them.

Prudential Investments, Prudential, the Prudential logo, the Rock symbol, and Bring Your Challenges are service marks of Prudential Financial, Inc. and its related entities, registered in many jurisdictions worldwide.

January 17, 2013

Dear Shareholder:

We hope you find the semiannual report for the Prudential Short Duration High Yield Fund, Inc. informative and useful. The report covers performance for the six-month period that ended November 30, 2012.

We recognize that ongoing market volatility may make it a difficult time to be an investor. We continue to believe a prudent response to uncertainty is to maintain a diversified portfolio of funds consistent with your tolerance for risk, time horizon, and financial goals.

Your financial advisor can help you create a diversified investment plan that may include funds covering all the basic asset classes and that reflects your personal investor profile and risk tolerance. Keep in mind, however, that diversification and asset allocation strategies do not assure a profit or protect against loss in declining markets.

Prudential Investments® is dedicated to helping you solve your toughest investment challenges whether it's capital growth, reliable income, or protection from market volatility and other risks. We offer the expertise of Prudential Financial's affiliated asset managers* that strive to be leaders in a broad range of funds to help you stay on course to the future you envision. They also manage money for major corporations and pension funds around the world, which means you benefit from the same expertise, innovation, and attention to risk demanded by today's most sophisticated investors.

Thank you for choosing the Prudential Investments family of funds.

Sincerely,

Stuart S. Parker, President

Prudential Short Duration High Yield Fund, Inc.

*Most of Prudential Investments' equity funds are advised by Jennison Associates LLC, Quantitative Management Associates LLC (QMA), or Prudential Real Estate Investors. Prudential Investments' fixed income and money market funds are advised by Prudential Investment Management, Inc. (PIM) through its Prudential Fixed Income unit. Jennison Associates, QMA, Prudential Investments, LLC and PIM are registered investment advisers and Prudential Financial companies. Prudential Real Estate Investors is a unit of PIM.

Your Fund's Performance

Performance data quoted represent past performance and assume the reinvestment of all dividends. Past performance does not guarantee future results. An investor may obtain performance data as of the most recent month-end by visiting our website at www.prudentialfunds.com.

Investment Objective

The Fund seeks to provide a high level of current income by investing primarily in higher-rated, below investment grade fixed income instruments¹. The Fund seeks to maintain a weighted average portfolio duration of three years or less and a weighted average maturity of five years or less.

¹There can be no guarantee the Fund will achieve its objective. Higher-rated high yield bonds are below investment grade, commonly referred to as junk bonds, and are considered speculative. Rated Ba, B by Moody's Investors Service, Inc. (Moody's); BB, B by Standard & Poor's Ratings Services (S&P) or Fitch, Inc.; or comparably rated by another nationally recognized statistical rating organization (NRSRO), or if unrated, are considered of comparable quality.

Performance Snapshot as of 11/30/12

Price Per Share	Total Return* For Six Months Ended November 30, 2012
\$19.25 (NAV)	6.74%
\$19.94 (Market Price)	3.12%

Performance figures for periods shorter than one year represent cumulative figures and are not annualized.

* Total returns are based on changes in NAV or market price, respectively. NAV total return assumes the reinvestment of all distributions, including returns of capital, if any, at NAV. Market Price total return assumes the reinvestment of all distributions, including returns of capital, if any, in additional shares in accordance with the Fund's Dividend Reinvestment Plan.

** The Fund's current prospectus contains a description of Moody's and Standard & Poor's ratings.

Principal amount shown in U.S. dollars unless otherwise stated.

See Notes to Financial Statements.

18 Visit our website at www.prudentialfunds.com

- (a) Variable rate instrument. The interest rate shown reflects the rate in effect at November 30, 2012.
 (b) Represents security, or portion thereof, segregated as collateral for loan outstanding (See Note 7).
 (c) Standard & Poor's Rating.
 (d) Indicates a security that has been deemed illiquid.
 (e) Indicates a restricted security; the aggregate original cost of such securities is \$56,583,958. The aggregate value of \$56,720,642 is approximately 8.9% of net assets.
 (f) Prudential Investments LLC, the manager of the Portfolio, also serves as manager of the Prudential Investment Portfolios 2 - Prudential Core Taxable Money Market Fund.
 (g) Includes net unrealized appreciation on the following derivative contracts held at reporting period end:

Credit default swap agreement outstanding at November 30, 2012:

Reference Entity/Obligation	Termination Date	Fixed Rate	Notional Amount (000)(3)#	Fair Value(2)	Upfront Premium Paid/(Received)	Unrealized Appreciation	Counterparty
Over-the-counter credit default swaps on credit indices Sell Protection(1):							
CDX.NA.HY.15.V4	12/20/15	5.000%	\$ 14,400	\$ 950,342	\$ 213,200	\$ 737,142	Morgan Stanley Capital Services

The Fund entered into credit default swaps as the protection seller on credit indices to take an active short position with respect to the likelihood of a particular issuer's default or the referenced entity's credit soundness.

- (1) If the Fund is a seller of protection, it receives the fixed rate. When a credit event occurs, as defined under the terms of that particular swap agreement, the Fund will either (i) pay to the buyer of protection an amount equal to the notional amount of the swap and take delivery of the referenced obligation or underlying securities comprising the referenced index or (ii) pay a net settlement amount in the form of cash or securities equal to the notional amount of the swap less the recovery value of the referenced obligation or underlying securities comprising the referenced index.
 (2) The fair value of credit default swap agreements on asset-backed securities and credit indices serves as an indicator of the current status of the payment/performance risk and represents the likelihood of an expected liability (or profit) for the credit derivative should the notional amount of the swap agreement be closed/sold as of the reporting date. Increasing fair value in absolute terms, represents a deterioration of the referenced entity's credit soundness and a greater likelihood of risk of default or other credit event occurring as defined under the terms of the agreement.
 (3) Notional amount represents the maximum potential amount the Fund could be required to pay as a seller of credit protection or receive as a buyer of credit protection if a credit event occurs as defined under the terms of that particular swap agreement.
 # Notional amount is shown in U.S. dollars unless otherwise stated.

See Notes to Financial Statements.

Portfolio of Investments

as of November 30, 2012 (Unaudited) continued

Various inputs are used in determining the value of the Fund's investments. These inputs are summarized in the three broad levels listed below.

Level 1 - quoted prices generally in active markets for identical securities.

Level 2 - other significant observable inputs including, but not limited to, quoted prices for similar securities, interest rates and yield curves, prepayment speeds, foreign currency exchange rates, and amortized cost.

Level 3 - significant unobservable inputs for securities valued in accordance with Board approved fair valuation procedures.

The following is a summary of the inputs used as of November 30, 2012 in valuing such portfolio securities:

	Level 1	Level 2	Level 3
Investments in Securities			
Bank Loans	\$	\$ 44,000,492	\$ 12,713,750
Corporate Bonds		805,470,393	3,235,287
Affiliated Money Market Mutual Fund	4,304,755		
Other Financial Instruments*			
Credit Default Swap Agreement		737,142	
Total	\$ 4,304,755	\$ 850,208,027	\$ 15,949,037

The following is a reconciliation of assets in which significant unobservable inputs (Level 3) were used in determining fair value:

	Bank Loans	Corporate Bonds
Balance as of 05/31/12	\$	\$
Realized gain (loss)	7,500	
Change in unrealized appreciation (depreciation)**	(7,500)	189,111
Purchases	13,463,750	969,750
Sales	(750,000)	(205,655)
Accrued discount/premium		
Transfers into Level 3		2,282,081

Edgar Filing: Prudential Short Duration High Yield Fund, Inc. - Form N-CSRS

Transfers out of Level 3

Balance as of 11/30/12	\$ 12,713,750	\$ 3,235,287
-------------------------------	---------------	--------------

See Notes to Financial Statements.

20 Visit our website at www.prudentialfunds.com

* Other financial instruments are derivative instruments not reflected in the Portfolio of Investments, such as futures, forwards and swap contracts, which are recorded at the unrealized appreciation/depreciation on the instrument.

** Of which, \$181,611 was included in Net Assets relating to securities held at the reporting period end.

It is the Fund's policy to recognize transfers in and transfers out at the fair value as of the beginning of period. At the reporting period end, there were two Corporate Bonds transferred into Level 3 as a result of using single broker quotes.

Included in the table above, under Level 3, are securities that were fair valued using pricing methodologies approved by the Valuation Committee, which contain unobservable inputs. Such methodologies include, but not limited to, using prices provided by a single broker/dealer, the cost of the investment, and prices of any recent transactions or bids/offers for such securities or any comparable securities.

The industry classification of portfolio holdings and liabilities in excess of other assets shown as a percentage of net assets as of November 30, 2012 were as follows:

Media & Entertainment	18.6%
Technology	14.6
Healthcare & Pharmaceutical	9.7
Foods	9.3
Cable	8.1
Gaming	8.1
Automotive	7.7
Metals	7.0
Capital Goods	6.9

Packaging	4.3
Chemicals	4.1
Aerospace & Defense	3.2%
Building Materials & Construction	3.1
Retailers	2.3
Non-Captive Finance	2.2
Banking	1.7
Consumer	1.0
Pipelines & Other	0.8
Affiliated Money Market Mutual Fund	0.7
Paper	0.5
	136.2
Liabilities in excess of other assets	(36.2)
	100.0%

Edgar Filing: Prudential Short Duration High Yield Fund, Inc. - Form N-CSRS

The Fund invested in derivative instruments during the reporting period. The primary type of risk associated with these derivative instruments is credit risk. The effect of such derivative instruments on the Fund's financial position and financial performance as reflected in the Statement of Assets and Liabilities and Statement of Operations is presented in the summary below.

See Notes to Financial Statements.

Prudential Short Duration High Yield Fund, Inc. 21

Portfolio of Investments

as of November 30, 2012 (Unaudited) continued

Fair values of derivative instruments as of November 30, 2012 as presented in the Statement of Assets and Liabilities:

Derivatives not designated as hedging instruments, carried at fair value	Asset Derivatives		Liability Derivatives	
	Balance Sheet Location	Fair Value	Balance Sheet Location	Fair Value
Credit contracts	Unrealized appreciation on swap agreements	\$ 737,142	Unrealized depreciation on swap agreements	\$
Credit contracts	Premiums paid for swap agreements	213,200	Premiums received for swap agreements	
		\$ 950,342		\$

The effects of derivative instruments on the Statement of Operations for the six months ended November 30, 2012 are as follows:

Amount of Realized Gain or (Loss) on Derivatives Recognized in Income	
Derivatives not designated as hedging instruments, carried at fair value	Swaps
Credit contracts	\$ 1,398,812

Change in Unrealized Appreciation or (Depreciation) on Derivatives Recognized in Income	
Derivatives not designated as hedging instruments, carried at fair value	Swaps
Credit contracts	\$ 1,738,789

For the period ended November 30, 2012, the Fund's average notional amount for credit default swap as writer was \$28,967,000.

See Notes to Financial Statements.

Notes to Financial Statements

(Unaudited)

Prudential Short Duration High Yield Fund, Inc. (the Fund) is a diversified, closed-end management investment company, registered under the Investment Company Act of 1940, as amended, (1940 Act). The Fund was incorporated as a Maryland corporation on November 14, 2011. The Fund's investment objective is to provide a high level of current income.

Note 1. Accounting Policies

The following is a summary of significant accounting policies followed by the Fund in the preparation of its financial statements.

Securities Valuation: The Fund holds portfolio securities and other assets that are fair valued at the close of each day the New York Stock Exchange (NYSE) is open for trading. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Directors (the Board) has delegated fair valuation responsibilities to Prudential Investments LLC (PI or Manager) through the adoption of Valuation Procedures for valuation of the Fund's securities. Under the current Valuation Procedures, a Valuation Committee is established and responsible for supervising the valuation of portfolio securities and other assets. The Valuation Procedures allow the Fund to utilize independent pricing vendor services, quotations from market makers and other valuation methods in events when market quotations are not readily available or not representative of the fair value of the securities. A record of the Valuation Committee's actions is subject to review, approval and ratification by the Board at its next regularly scheduled quarterly meeting.

Various inputs are used in determining the value of the Fund's investments, which are summarized in the three broad level hierarchies based on any observable inputs used as described in the table following the Portfolio of Investments. The valuation methodologies and significant inputs used in determining the fair value of securities and other assets classified as Level 1, Level 2 and Level 3 of the hierarchy are as follows:

Common stocks, exchange-traded funds and financial derivative instruments (including futures contracts and certain options and swap contracts on securities), that are traded on a national securities exchange are valued at the last sale price as of the close of trading on the applicable exchange. Securities traded via NASDAQ are

Notes to Financial Statements

(Unaudited) continued

valued at the NASDAQ official closing price. To the extent these securities are valued at the last sale price or NASDAQ official closing price, they are classified as Level 1 of the fair value hierarchy.

In the event there is no sale or official closing price on such day, these securities are valued at the mean between the last reported bid and asked prices, or at the last bid price in absence of an asked price. These securities are classified as Level 2 of the fair value hierarchy as these inputs are considered as significant other observable inputs to the valuation.

For common stocks traded on foreign securities exchanges, certain valuation adjustments will be applied when events occur after the close of the security's foreign market and before the Fund's normal pricing time. These securities are valued using pricing vendor services that provide model prices derived using adjustment factors based on information such as local closing price, relevant general and sector indices, currency fluctuations, depositary receipts, and futures, as applicable. Securities valued using such model prices are classified as Level 2 of the fair value hierarchy as the adjustment factors are considered as significant other observable inputs to the valuation.

Investments in open-end, non-exchange-traded mutual funds are valued at their net asset values as of the close of the NYSE on the date of valuation. These securities are classified as Level 1 as they have the ability to be purchased or sold at their net asset values on the date of valuation.

Fixed income securities traded in the over-the-counter market, such as corporate bonds, municipal bonds, U.S. Government agencies issues and guaranteed obligations, U.S. Treasury obligations and sovereign issues are usually valued at prices provided by approved independent pricing vendors. The pricing vendors provide these prices usually after evaluating observable inputs including yield curves, credit rating, yield spreads, default rates, cash flows as well as broker/dealer quotations and reported trades. Securities valued using such vendor prices are classified as Level 2 of the fair value hierarchy.

Asset-backed and mortgage-related securities are usually valued by approved independent pricing vendors. The pricing vendors provide the prices using their internal pricing models with inputs from deal terms, tranche level attributes, yield

curves, prepayment speeds, default rates and broker/dealer quotes. Securities valued using such vendor prices are classified as Level 2 of the fair value hierarchy.

Short-term debt securities of sufficient credit quality, which mature in sixty days or less, are valued using amortized cost method, which approximates fair value. The amortized cost method involves valuing a security at its cost on the date of purchase and thereafter assuming a constant amortization to maturity of the difference between the principal amount due at maturity and cost. These securities are categorized as Level 2 of the fair value hierarchy.

Over-the-counter financial derivative instruments, such as option contracts, foreign currency contracts and swaps agreements, are usually valued using pricing vendor services, which derive the valuation based on underlying asset prices, indices, spreads, interest rates, exchange rates and other inputs. These instruments are categorized as Level 2 of the fair value hierarchy.

Securities and other assets that cannot be priced using the methods described above are valued with pricing methodologies approved by the Valuation Committee. In the event there are unobservable inputs used when determining such valuations, the securities will be classified as Level 3 of the fair value hierarchy.

When determining the fair value of securities, some of the factors influencing the valuation include: the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of the issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

Restricted and Illiquid Securities: The Fund may invest in illiquid securities. Illiquid securities are those that, because of the absence of a readily available market or due to legal or contractual restrictions on resale, cannot be sold within seven days in the ordinary course of business at approximately the amount at which the Fund has valued the investment. Therefore, the Fund may find it difficult to sell illiquid securities at the time considered most advantageous by its Subadviser and may incur expenses that would not be incurred in the sale of securities that were freely marketable. Certain securities that would otherwise be considered illiquid because of

Notes to Financial Statements

(Unaudited) continued

legal restrictions on resale to the general public may be traded among qualified institutional buyers under Rule 144A of the Securities Act of 1933. These Rule 144A securities, as well as commercial paper that is sold in private placements under Section 4(2) of the Securities Act, may be deemed liquid by the Fund's Subadviser under the guidelines adopted by the Fund. However, the liquidity of the Fund's investments in Rule 144A securities could be impaired if trading does not develop or declines.

Swap Agreements: The Fund may enter into credit default, interest rate, total return and other forms of swap agreements. A swap agreement is an agreement to exchange the return generated by one instrument for the return generated by another instrument. Swap agreements are negotiated in the over-the-counter market and may be executed in either directly with counterparty (OTC Traded) or through a central clearing facility, such as a registered commodities exchange (Exchange Traded). Swaps are valued daily at current market value and any change in value is included in the net unrealized appreciation or depreciation on investments.

Payments received or paid by the Fund are recorded as realized gains or losses upon termination or maturity of the swap. Risk of loss may exceed amounts recognized on the Statements of Assets and Liabilities. Swap agreements outstanding at reporting date, if any, are listed on the Portfolio of Investments.

Credit Default Swaps: Credit default swaps involve one party (the protection buyer) making a stream of payments to another party (the protection seller) in exchange for the right to receive a specified payment in the event of a default or as a result of a default (credit event) for the referenced party, typically corporate issues or sovereign issues of an emerging country, on its obligation; or in the event of a write-down, principal shortfall, interest shortfall or default of all or part of the referenced entities comprising a credit index.

The Fund is subject to credit risk in the normal course of pursuing its investment objectives. The Fund sold protection using credit default swaps to take an active short position with respect to the likelihood of a particular issuer's default. A master netting arrangement between the Fund and the counterparty permits the Fund to offset amounts payable by the Fund to the same counterparty against amounts to be received; and by the receipt of collateral from the counterparty by the Fund to cover the Fund's exposure to the counterparty. However, there is no assurance that such mitigating factors are easily enforceable.

30 Visit our website at www.prudentialfunds.com

As a seller of protection on credit default swap agreements, the Fund will generally receive from the buyer of protection an agreed upon payment throughout the term of the swap provided that there is no credit event. As the seller, the Fund would effectively increase investment risk to its portfolio because, in addition to its total net assets, the Fund may be subject to investment exposure on the notional amount of the swap.

The maximum amount of the payments that a Fund as a seller of protection could be required to make under a credit default swap agreement would be equal to the notional amount of the underlying security or index contract as a result of a credit event. These potential amounts will be partially offset by any recovery values of the respective referenced obligations, or net amounts received from the settlement of buy protection credit default swap agreements entered into by the Fund for the same referenced entity or index. As a buyer of protection, the Fund generally receives an amount up to the notional value of the swap if a credit event occurs.

Implied credit spreads, represented in absolute terms, utilized in determining the market value of credit default swap agreements on corporate issues or sovereign issues of an emerging country as of reporting date are disclosed in the footnotes to the Portfolio of Investments and serve as an indicator of the current status of the payment/performance risk and represent the likelihood of risk of default for the credit derivative. The implied credit spread of a particular referenced entity reflects the cost of buying/selling protection and may include upfront payments required to enter into the agreement. For credit default swap agreements on asset-backed securities and credit indices, the quoted market prices and resulting values serve as the indicator of the current status of the payment/performance risk. Wider credit spreads and increasing market value in absolute terms, when compared to the notional amount of the swap, represent a deterioration of the referenced entity's credit soundness and a greater likelihood of risk of default or other credit event occurring as defined under the terms of the agreement.

In addition to each instrument's primary underlying risk exposure (e.g. interest rate, credit, equity or foreign exchange, etc.), swap agreements involve, to varying degrees, elements of credit, market and documentation risk. Such risks involve the possibility that there will be no liquid market for these agreements, that the counterparty to the agreement may default on its obligation to perform or disagree as to the meaning of the contractual terms in the agreement, and that there will be unfavorable changes in net interest rates. In connection with these agreements, securities may be identified as collateral or received as collateral from the counterparty in accordance with the terms of the respective swap agreements to provide or receive assets of value and serve as recourse in the event of default or bankruptcy/insolvency of either party. Such

Notes to Financial Statements

(Unaudited) continued

over-the-counter derivative agreements include conditions which when materialized, give the counterparty the right to cause an early termination of the transactions under those agreements. Any election by the counterparty for early termination of the contract(s) may impact the amounts reported on financial statements.

As of November 30, 2012, the Fund has not met conditions under such agreements that give the counterparty the right to call for an early termination.

Cash Flow Information: The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of stockholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

Accounting practices that do not affect reporting activities on a cash basis include carrying investments at value, accruing income on PIK (payment-in-kind) securities and accreting discounts and amortizing premiums on debt obligations.

Securities Transactions and Net Investment Income: Securities transactions are recorded on the trade date. Realized gains or losses from investment transactions are calculated on the identified cost basis. Dividend income is recorded on the ex-dividend date. Interest income, including amortization of premium and accretion of discount on debt securities, as required, is recorded on an accrual basis. Expenses are recorded on the accrual basis, which may require the use of certain estimates by management, that may differ from actual.

Dividends and Distributions: The Fund intends to make a level dividend distribution each month to the holders of Common Stock. The level dividend rate may be modified by the Board from time to time, and will be based upon the past and projected performance and expenses of the Fund. The Fund intends to also make a distribution during or with respect to each calendar year (which may be combined with a regular monthly distribution), which will generally include any net investment income and net realized capital gain for the year not otherwise distributed.

PI has received an order from the Securities and Exchange Commission granting the Fund an exemption from Section 19(b) of the 1940 Act and Rule 19b-1 thereunder to permit certain closed-end funds managed by PI and certain closed-end funds

managed by PI to include realized long-term capital gains as a part of their respective regular distributions to the holders of Common Stock more frequently than would otherwise be permitted by the 1940 Act (generally once per taxable year). The Fund intends to rely on this exemptive order. The Board may, at the request of PI, adopt a managed distribution policy.

Dividends and distributions to stockholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-dividend date. Permanent book/tax differences relating to income and gains are reclassified amongst undistributed net investment income, accumulated net realized gain or loss and paid-in capital in excess of par, as appropriate.

Organization and Offering Costs: PI has agreed to pay all of the Fund's organizational costs and all of the Fund's offering costs (other than sales load) that exceed \$0.04 per share of common stock. Organizational costs are expensed by the Fund as incurred. PI will reimburse the Fund for all organizational expenses.

Federal Income Taxes: It is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to its stockholders. Therefore, no federal income tax provision is required.

Estimates: The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those amounts.

Note 2. Agreements

The Fund has a management agreement with PI. Pursuant to this agreement, PI has responsibility for all investment advisory services and supervises the subadviser's performance of such services. PI has entered into a subadvisory agreement with Prudential Investment Management, Inc. (PIM). The subadvisory agreement provides that PIM will furnish investment advisory services in connection with the management of the Fund. In connection therewith, PIM is obligated to keep certain books and records of the Fund. PI pays for the services of PIM, the cost of compensation of officers of the Fund, occupancy and certain clerical and bookkeeping costs of the Fund. The Fund bears all other cost and expenses.

The management fee paid to PI is computed daily and payable monthly, at an annual rate of .80% of the average daily value of the Fund's investable assets. Investable

Notes to Financial Statements

(Unaudited) continued

assets refers to the net assets attributable to the outstanding Common Stock of the Fund plus the liquidation preference of any outstanding preferred stock issued by the Fund, the principal amount of any borrowings and the principal on any debt securities issued by the Fund.

PI and PIM are indirect, wholly-owned subsidiaries of Prudential Financial, Inc. (Prudential).

Note 3. Other Transactions with Affiliates

The Fund invests in the Prudential Core Taxable Money Market Fund (the Core Fund), a portfolio of the Prudential Investment Portfolios 2, registered under 1940 Act, and managed by PI. Earnings from the Core Fund are disclosed on the Statement of Operations as affiliated dividend income.

Note 4. Fund Securities

Purchases and sales of portfolio securities, other than short-term investments, for the six months ended November 30, 2012, aggregated \$ 451,065,883 and \$275,678,900, respectively.

Note 5. Distributions and Tax Information

The United States federal income tax basis of the Fund's investments and the net unrealized depreciation as of November 30, 2012 were as follows:

Tax Basis	Appreciation	Depreciation	Net Unrealized Depreciation
\$870,074,584	\$7,900,540	\$(8,250,447)	\$(349,907)

The difference between book basis and tax basis is primarily attributable to deferred losses on wash sales and differences in the treatment of premium amortization as of the most recent fiscal year end.

Edgar Filing: Prudential Short Duration High Yield Fund, Inc. - Form N-CSRS

For federal income tax purposes, the Fund had a capital loss carryforward as of May 31, 2012 of approximately \$54,000 which can be carryforward for an unlimited period. No capital gains distributions are expected to be paid to shareholders until net gains have been realized in excess of such losses.

34 Visit our website at www.prudentialfunds.com

Management has analyzed the Fund's tax positions taken on federal income tax returns for all open tax years and has concluded that no provision for income tax would be required in the Fund's financial statements for the current reporting period. The Fund's federal and state income tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Note 6. Capital

There are 1 billion shares of \$0.001 par value common stock authorized. Prior to commencement of operations on April 30, 2012, the Fund issued 5,240 shares of common stock to Prudential at an aggregate purchase price of \$100,084. As of November 30, 2012, Prudential owned 5,375 shares of the Fund.

For the period ended November 30, 2013, the Fund issued 83,671 shares in connection with the Fund's dividend reinvestment plan.

On June 13, 2012, an additional 2,575,000 shares were issued in connection with the exercise of the underwriters over-allotment option. An amount of \$49,182,500 (net of sales load of \$2,317,500) was received pursuant to this allotment. An amount of \$103,000 (\$0.04 per share of the common stock) will be used to offset any offering costs as described in Note 1 of the Notes to the Financial Statements.

During the period ended May 31, 2012, the Fund issued 30,500,000 shares of common stock in its initial public offering. These shares were all issued at \$20.00 per share before a sales load of \$0.90 per share. Offering costs of \$1,220,000 (representing \$0.04 per share) were offset against the proceeds of the offering and have been charged to paid-in capital in excess of par.

Note 7. Borrowings

The Fund currently is a party to a committed credit facility (the credit facility) with a bank. The credit facility provides for a maximum commitment of \$300 million. Interest on any borrowings under the credit facility is payable at the negotiated rates. The Fund's obligations under the credit facility are secured by the assets of the Fund segregated for the purpose of securing the amount borrowed. The purpose of the credit facility is to provide the Fund with portfolio leverage and meet its general cash flow requirements.

During the six months ended November 30, 2012, the Fund utilized the credit facility and had an average daily outstanding loan balance of \$194,939,891 during the 183

Notes to Financial Statements

(Unaudited) continued

day period that the facility was utilized, at an average interest rate of 1.07%. The maximum amount of loan outstanding during the period was \$234,000,000. There was a balance of \$234,000,000 outstanding at November 30, 2012.

Note 8. New Accounting Pronouncements

In December 2011, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2011-11 regarding Disclosures about Offsetting Assets and Liabilities . The amendments, which will be effective for annual reporting periods beginning on or after January 1, 2013 and interim periods within those annual periods, require an entity to disclose information about offsetting and related arrangements for assets and liabilities, financial instruments and derivatives that are either currently offset in accordance with current requirements or are subject to enforceable master netting arrangements or similar agreements. At this time, management is evaluating the implications of ASU No. 2011-11 and its impact on the financial statements has not yet been determined.

Note 9. Subsequent Event

Dividends and Distributions: On December 4, 2012 the Fund declared monthly dividends of \$0.1225 per share payable on December 31, 2012, January 31, 2013 and February 28, 2013, respectively, to shareholders of record on December 19, 2012, December 28, 2012 and February 21, 2013, respectively. The ex-dividend dates were December 17, 2012, December 26, 2012 and February 19, 2013, respectively. In addition, the Fund declared a special dividend of \$0.095 per share payable on December 31, 2012, to shareholders of record on December 19, 2012. The ex-dividend date was December 17, 2012.

Financial Highlights

(Unaudited)

	Six Months Ended November 30, 2012	April 30, 2012(a) through May 31, 2012
Per Share Operating Performance:		
Net Asset Value, Beginning Of Period	\$18.75	\$19.10*
Income (loss) from investment operations:		
Net investment income	.62	.07
Net realized and unrealized gain (loss) on investment transactions	.62	(.38)
Total from investment operations	1.24	(.31)
Less Dividends:		
Dividends from net investment income	(.74)	-
Fund share transactions:		
Common stock offering costs charged to paid-in capital in excess of par	-(f)	(.04)
Net asset value, end of period	\$19.25	\$18.75
Market price, end of period	\$19.94	\$20.09
Total Return(b):	3.12%	.35%
Ratios/Supplemental Data(c):		
Net assets, end of period (000)	\$638,505	\$571,884
Average net assets (000)	\$629,989	\$576,384
Ratios to average net assets:		
Expenses	1.47%(d)(e)(g)	1.16%(d)(e)(g)
Net investment income	6.36%(e)(g)	4.20%(e)(g)
Portfolio turnover rate	35%(h)	12%(h)
Asset coverage	373%	524%
Total debt outstanding at period-end (000)	\$234,000	\$135,000

*Initial public offering price of \$20.00 per share less sales load of \$.90 per share.

(a) Commencement of operations.

(b) Total return is calculated assuming a purchase of common stock at the current market price on the first day and a sale at the closing market price on the last day for the period reported. Dividends are assumed, for the purpose of this calculation, to be reinvested at prices obtainable under the Fund's dividend reinvestment plan. This amount does not reflect brokerage commissions or sales load. Total returns for periods less than a full year are not annualized.

(c) Does not include expenses of the underlying portfolio in which the Fund invests.

(d) The annualized expense ratio without interest expense would have been 1.13% and 1.08% for the periods ended November 30, 2012 and May 31, 2012, respectively.

(e) Net of expense waiver/reimbursement. If the investment manager had not waived/reimbursed expenses, the expense ratios with and without interest expense and net investment income ratio would have been 1.58%, 1.24% and 6.25%, respectively, for the period ended November 30, 2012, and 1.20%, 1.12% and 4.16%, respectively, for the period ended May 31, 2012.

(f) Less than \$.005 per share.

(g) Annualized.

(h) Not annualized.

See Notes to Financial Statements.

Prudential Short Duration High Yield Fund, Inc. 37

Other Information

(Unaudited)

Dividend Reinvestment Plan. Unless a holder of Common Stock elects to receive cash by contacting Computershare Trust Company, N.A. (the Plan Administrator), all dividends declared on Common Stock will be automatically reinvested by the Plan Administrator pursuant to the Fund's Automatic Dividend Reinvestment Plan (the Plan), in additional Common Stock. The holders of Common Stock who elect not to participate in the Plan will receive all dividends and other distributions (together, a Dividend) in cash paid by check mailed directly to the stockholder of record (or, if the Common Stock is held in street or other nominee name, then to such nominee) by the Plan Administrator as dividend disbursing agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the Dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared Dividend. Such notice will be effective with respect to a particular Dividend. Some brokers may automatically elect to receive cash on behalf of the holders of Common Stock and may re-invest that cash in additional Common Stock.

The Plan Administrator will open an account for each common stockholder under the Plan in the same name in which such common stockholder's Common Stock is registered. Whenever the Fund declares a Dividend payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Stock. The Common Stock will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Stock from the Fund (Newly Issued Common Stock) or (ii) by purchase of outstanding Common Stock on the open market (Open-Market Purchases) on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price of the Common Stock plus per share fees (as defined below) is equal to or greater than the NAV per share of Common Stock (such condition being referred to as market premium), the Plan Administrator will invest the Dividend amount in Newly Issued Common Stock on behalf of the participants. The number of Newly Issued Common Stock to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the NAV per share of Common Stock on the payment date, provided that, if the NAV per share of Common Stock is less than or equal to 95% of the closing market price per share of Common Stock on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Stock on the payment date. If, on the payment date for any Dividend, the NAV per share of Common Stock is greater than the closing market value per share of Common Stock plus per share fees (such condition being referred to as market discount), the Plan Administrator will invest the Dividend amount in shares of

Common Stock acquired on behalf of the participants in Open-Market Purchases. Per share fees include any applicable brokerage commissions the Plan Administrator is required to pay.

In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Stock trades on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Stock acquired in Open-Market Purchases on behalf of participants. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per share of Common Stock exceeds the NAV per share of Common Stock, the average per share purchase price paid by the Plan Administrator for Common Stock may exceed the NAV per share of the Common Stock, resulting in the acquisition of fewer shares of Common Stock than if the Dividend had been paid in Newly Issued Common Stock on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Stock at the NAV per share of Common Stock at the close of business on the Last Purchase Date, provided that, if the NAV is less than or equal to 95% of the then current market price per share of Common Stock, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date for purposes of determining the number of shares issuable under the Plan.

The Plan Administrator maintains all stockholder accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by stockholders for tax records. Common Stock in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each stockholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of the holders of Common Stock such as banks, brokers or nominees that hold shares of Common Stock for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of shares of Common Stock certified from time to time by the record stockholder's name and held for the account of beneficial owners who participate in the Plan.

Other Information

(Unaudited) continued

The Plan Administrator's service fee, if any, and expenses for administering the plan will be paid for by the Fund. If a participant elects by written, Internet or telephonic notice to the Plan Administrator to have the Plan Administrator sell part or all of the shares held by the Plan Administrator in the participant's account and remit the proceeds to the participant, the Plan Administrator is authorized to deduct a \$15.00 transaction fee plus a \$0.12 per share fee. If a participant elects to sell his or her shares of Common Stock, the Plan Administrator will process all sale instructions received no later than five business days after the date on which the order is received by the Plan Administrator, assuming the relevant markets are open and sufficient market liquidity exists (and except where deferral is required under applicable federal or state laws or regulations). Such sale will be made through the Plan Administrator's broker on the relevant market and the sale price will not be determined until such time as the broker completes the sale. In every case the price to the participant shall be the weighted average sale price obtained by the Plan Administrator's broker net of fees for each aggregate order placed by the participant and executed by the broker. To maximize cost savings, the Plan Administrator will seek to sell shares in round lot transactions. For this purpose the Plan Administrator may combine a participant's shares with those of other selling participants.

There will be no brokerage charges with respect to shares of Common Stock issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. Each participant will be charged a per share fee (currently \$0.05 per share) on all Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. See Tax Matters. Participants that request a sale of Common Stock through the Plan Administrator are subject to brokerage commissions.

Each participant may terminate the participant's account under the Plan by so notifying the Plan Administrator via the Plan Administrator's website at www.computershare.com/investor, by filling out the transaction request form located at the bottom of the participant's Statement and sending it to the Plan Administrator or by calling the Plan Administrator. Such termination will be effective immediately if the participant's notice is received by the Plan Administrator prior to any dividend or distribution record date. Upon any withdrawal or termination, the Plan Administrator will cause to be delivered to each terminating participant a statement of holdings for the appropriate number of the Fund's whole book-entry shares of Common Stock and a check for the cash adjustment of any fractional share at the market value of the Fund's shares of Common Stock as of the close of business on the date the termination is effective less any applicable fees. In the event a participant's notice of

40 Visit our website at www.prudentialfunds.com

termination is on or after a record date (but before payment date) for an account whose dividends are reinvested, the Plan Administrator, in its sole discretion, may either distribute such dividends in cash or reinvest them in shares of Common Stock on behalf of the terminating participant. In the event reinvestment is made, the Plan Administrator will process the termination as soon as practicable, but in no event later than five business days after the reinvestment is completed. The Plan may be terminated by the Fund upon notice in writing mailed to each participant at least 30 days prior to any record date for the payment of any dividend or distribution by the Fund.

The Fund reserves the right to amend or terminate the Plan. There is no direct service charge to participants with regard to purchases in the Plan; however, the Fund reserves the right to amend the Plan to include a service charge payable by the participants.

All correspondence or questions concerning the Plan should be directed to the Plan Administrator, Computershare Trust Company, N.A., P.O. Box 43078, Providence, RI 02940-3078 or by calling (toll free) 800-451-6788.

Privacy Notice

This notice is being provided on behalf of the companies listed in this Notice. It describes how information about you is handled and the steps we take to protect your privacy. We call this information "customer data" or just "data." If you have other Prudential products or relationships, you may receive a separate privacy notice describing the practices that apply to those products or relationships. If your relationship with us ends, we will continue to handle data about you the same way we handle customer data.

Protecting Customer Data

We maintain physical, electronic, and procedural safeguards to protect customer data. The only persons who are authorized to have access to it are those who need access to do their jobs. We require them to keep the data secure and confidential.

Information We Collect

We collect data you give us and data about the products and relationships you have with us, so that we can serve you, including offering products and services to you. It includes, for example:

- your name and address,
- income and Social Security number.

We also collect data others give us about you, for example:

- medical information for insurance applications,
- consumer reports from consumer reporting agencies, and
- participant information from organizations that purchase products or services from us for the benefit of their members or employees, for example, group life insurance.

Sharing Data

We may share data with affiliated companies and with other companies so that they can perform services for us or on our behalf. We may, for example, disclose data to other companies for customer service or administrative purposes. We may disclose limited information such as:

- your name,
- address, and
- the types of products you own

to service providers so they can provide marketing services to us.

We may also disclose data as permitted or required by law, for example:

- to law enforcement officials,
- in response to subpoenas,
- to regulators, or

to prevent fraud.

Prudential, the Prudential logo and the Rock symbol are service marks of Prudential Financial, Inc. and its related entities, registered in many jurisdictions worldwide.

Your Financial Security, Your Satisfaction & Your Privacy

Privacy 0019 Ed. 8/2012

MUTU-D5077

We do not disclose data to Prudential affiliates or other companies to allow them to market their products or services to you. We may tell you about a product or service that a Prudential company or other companies offer. If you respond, that company will know that you were in the group selected to receive the information.

Annual Notices

We will send notices at least once a year, as federal and state laws require. We reserve the right to modify this policy at any time.

If you have questions about Prudential's Privacy Notice please call us. The toll-free number is (800) 236-6848.

AVAILABILITY OF PORTFOLIO SCHEDULE

The Fund files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-Q. The Fund's Forms N-Q are available on the Commission's website at www.sec.gov. The Fund's Forms N-Q may also be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation and location of the Public Reference Room may be obtained by calling (202) 551-8090. The Fund's schedule of portfolio holdings is also available on the Fund's website as of the end of each month.

CERTIFICATIONS

The Fund has submitted to the New York Stock Exchange (NYSE) the certifications of the Fund's Chief Executive Officer and Chief Financial Officer as required by Section 302 of the Sarbanes-Oxley Act, on the Fund's Form N-CSR filed with the Securities and Exchange Commission, for the period of this report.

This report is transmitted to shareholders of the Fund for their information. This is not a prospectus, circular or representation intended for use in the purchase or sale of shares of the Fund or any securities mentioned in this report.

An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may purchase, from time to time, shares of its common stock at market prices.
