UNITED STATES
SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended September 30, 2013

or

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission file number 001-35522

BANC OF CALIFORNIA, INC.

(Exact name of registrant as specified in its charter)

Maryland

(State or other jurisdiction of
incorporation or organization)

04-3639825

(IRS Employer Identification No.)

18500 Von Karman Ave, Suite 1100, Irvine, California

(Address of principal executive offices)

92612

(Zip Code)

(949) 236-5211

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (Section 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of large accelerated filer, accelerated filer, and smaller reporting company in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer

Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act.) Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock as of the latest practicable date.

As of October 31, 2013 the registrant had outstanding 18,021,789 shares of voting common stock and 584,674 shares of Class B non-voting common stock.

Safe Harbor Statement Under the Private Securities Litigation Reform Act of 1995

When used in this report and in public shareholder communications, in other documents of Banc of California, Inc. (the Company, we, us and our) filed with or furnished to the Securities and Exchange Commission (the SEC), or in oral statements made with the approval of an authorized executive officer, the words or phrases believe, will, should, will likely result, are expected to, will continue, is anticipated, estimate, plans, guidance or similar expressions are intended to identify forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. You are cautioned not to place undue reliance on any forward-looking statements, which speak only as of the date made. These statements may relate to our future financial performance, strategic plans or objectives, revenue, expense or earnings projections, or other financial items. By their nature, these statements are subject to numerous uncertainties that could cause actual results to differ materially from those anticipated in the statements.

Factors that could cause actual results to differ materially from the results anticipated or projected include, but are not limited to, the following: (i) risks that the Company's recently completed acquisition of The Private Bank of California (PBOC) may disrupt current plans and operations, the potential difficulties in customer and employee retention as a result of the transaction and the amount of the costs, fees, expenses and charges related to the transaction; (ii) a worsening of current economic conditions, as well as turmoil in the financial markets; (iii) the credit risks of lending activities, which may be affected by deterioration in real estate markets and the financial condition of borrowers, may lead to increased loan and lease delinquencies, losses and nonperforming assets in our loan and lease portfolio, and may result in our allowance for loan and lease losses not being adequate to cover actual losses and require us to materially increase our loan and lease loss reserves; (iv) the quality and composition of our securities portfolio; (v) changes in general economic conditions, either nationally or in our market areas; (vi) continuation of the historically low short-term interest rate environment, changes in the levels of general interest rates, and the relative differences between short- and long-term interest rates, deposit interest rates, our net interest margin and funding sources; (vii) fluctuations in the demand for loans and leases, the number of unsold homes and other properties and fluctuations in commercial and residential real estate values in our market area; (viii) results of examinations of us by regulatory authorities and the possibility that any such regulatory authority may, among other things, require us to increase our allowance for loan and lease losses, write-down asset values, increase our capital levels, or affect our ability to borrow funds or maintain or increase deposits, which could adversely affect our liquidity and earnings; (ix) legislative or regulatory changes that adversely affect our business, including changes in regulatory capital or other rules; (x) our ability to control operating costs and expenses; (xi) staffing fluctuations in response to product demand or the implementation of corporate strategies that affect our work force and potential associated charges; (xii) errors in our estimates in determining fair value of certain of our assets, which may result in significant declines in valuation; (xiii) the network and computer systems on which we depend could fail or experience a security breach; (xiv) our ability to attract and retain key members of our senior management team; (xv) costs and effects of litigation, including settlements and judgments; (xvi) increased competitive pressures among financial services companies; (xvii) changes in consumer spending, borrowing and saving habits; (xviii) adverse changes in the securities markets; (xix) earthquake, fire or other natural disasters affecting the condition of real estate collateral; (xx) the availability of resources to address changes in laws, rules or regulations or to respond to regulatory actions; (xxi) inability of key third-party providers to perform their obligations to us; (xxii) changes in accounting policies and practices, as may be adopted by the financial institution regulatory agencies or the Financial Accounting Standards Board or their application to our business, including additional guidance and interpretation on accounting issues and details of the implementation of new accounting methods; (xxiii) war or terrorist activities; and (xxiv) other economic, competitive, governmental, regulatory, and technological factors affecting our operations, pricing, products and services and the other risks described in this report and from time to time in other documents that we file with or furnish to the SEC, including, without limitation, the risks described under Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2012. You should not place undue reliance on forward-looking statements, and we undertake no obligation to update any such statements to reflect circumstances or events that occur after the date on which the forward-looking statement is made.

September 30, 2013

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Principles of Consolidation: The accompanying unaudited consolidated financial statements include the accounts of Banc of California, Inc. (the Company, we, us and our) and its wholly owned subsidiaries, Banc of California, National Association (the Bank), the Palisades Group, LLC (the Palisades Group), and PTB Property Holdings, LLC, as of September 30, 2013 and December 31, 2012 and for the nine months ended September 30, 2013 and 2012, except that the accounts of the Palisades Group were not included for amounts prior to September 10, 2013 and The Private Bank of California were not included for amounts prior to July 1, 2013. Significant intercompany accounts and transactions have been eliminated in consolidation. Unless the context requires otherwise, all references to the Company include its wholly owned subsidiaries. As discussed in Note 19, *Subsequent Events*, on October 11, 2013, the Company completed the merger of the Company's two banking subsidiaries, Pacific Trust Bank (sometimes referred to herein as PacTrust Bank) and The Private Bank of California, to form the Bank. Unless the context indicates otherwise, references to the Bank prior to October 11, 2013 means Pacific Trust Bank and The Private Bank of California (Beach Business Bank prior to July 1, 2013), collectively, and references to the Bank on or after October 11, 2013 refer to Banc of California, National Association.

Nature of Operations: The principal business of the Company is the ownership of the Bank. The Bank operates under a national bank charter issued by the Office of the Comptroller of the Currency (the OCC), its primary regulator. The Bank is a member of the Federal Home Loan Bank (FHLB) system, and maintains insurance on deposit accounts with the Federal Deposit Insurance Corporation (FDIC). PTB Property Holdings, LLC manages and disposes of other real estate owned properties and the Palisades Group, LLC provides financial advisory and asset management services.

The Bank is engaged in the business of retail banking, with operations conducted through 23 banking offices as of September 30, 2013, serving San Diego, Los Angeles, Orange and Riverside counties, California and 50 producing loan production offices in California, Arizona, Oregon, Washington and Montana as of September 30, 2013. Upon the completion of branch sales to AmericanWest Bank on October 4, 2013, the number of the Company's banking offices decreased to fifteen. As of September 30, 2013, single family residential (SFR) loans and Green loans (SFR mortgage lines of credit) accounted for approximately 53.6 percent and 6.4 percent, respectively, of the Company's loan and lease portfolio, with a high percentage of such loans concentrated in Southern California. The customer's ability to repay their loans or leases is dependent on the real estate market and general economic conditions in the area.

The accounting and reporting policies of the Company are based upon U.S. generally accepted accounting principles (GAAP) and conform to predominant practices within the banking industry. The Company has not made any significant changes in its critical accounting policies or in its estimates and assumptions from those disclosed in its 2012 Annual Report on Form 10-K other than the adoption of new accounting pronouncements and other authoritative guidance that became effective for the Company on or after January 1, 2013. Refer to *Accounting Pronouncements* for discussion of accounting pronouncements adopted in 2013.

Basis of Presentation: The accompanying unaudited interim consolidated financial statements have been prepared pursuant to the rules and regulations for reporting on Form 10-Q. Accordingly, certain disclosures required by GAAP are not included herein. These interim statements should be read in conjunction with the consolidated financial statements and notes included in the Annual Report on Form 10-K for the year ended December 31, 2012 filed by the Company with the Securities and Exchange Commission. The December 31, 2012 balance sheet presented herein has been derived from the audited financial statements included in the Annual Report on Form 10-K for the year ended December 31, 2012 filed with the Securities and Exchange Commission, but does not include all of the disclosures required by GAAP.

In the opinion of management of the Company, the accompanying unaudited interim consolidated financial statements reflect all of the adjustments (consisting of normal recurring adjustments) necessary for a fair presentation of the consolidated financial position and consolidated results of operations for the periods presented. Certain reclassifications have been made in the prior period financial statements to conform to the current period presentation.

The results of operations for the three and nine months ended September 30, 2013 are not necessarily indicative of the results to be expected for the full year.

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Use of Estimates in the Preparation of Financial Statements: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions based on available information. These estimates and assumptions affect the amounts reported in the financial statements and disclosures provided, and actual results could differ. The allowance for loan and lease losses, reserve for loss reimbursements on sold loans, servicing rights, other real estate owned, realization of deferred tax assets, goodwill, other intangible assets, mortgage banking derivatives, fair value of assets and liabilities acquired in business combinations, fair value estimate of private label residential mortgage-backed securities, and the fair value of financial instruments are particularly subject to change and such change could have a material effect on the consolidated financial statements.

Table of Contents

Income Taxes: Income tax expense is the total of the current year income tax due or refundable and the change in deferred tax assets and liabilities. Deferred tax assets and liabilities are the expected future tax amounts for the temporary differences between carrying amounts and tax bases of assets and liabilities, computed using enacted tax rates. A valuation allowance is established when necessary to reduce deferred tax assets when it is more-likely-than-not that a portion or all of the net deferred tax assets will not be realized. The Company had \$12.3 million and \$8.4 million of valuation allowance related to its deferred tax assets at September 30, 2013 and December 31, 2012 (See further discussion in Note 11, Income Taxes).

Accounting Pronouncements: During the nine months ended September 30, 2013, the following pronouncements applicable to the Company were issued or became effective:

In January 2013, the FASB issued ASU 2013-01, *Balance Sheet (Topic 210), Clarifying the Scope of Disclosures about Offsetting Assets and Liabilities* (ASU 2013-01). ASU 2013-01 clarifies that ordinary trade receivables and other receivables are not in the scope of ASU 2011-11, *Balance Sheet (Topic 210), Disclosures about Offsetting Assets and Liabilities* (2011- 11). Specifically, ASU 2011-11 applies only to derivatives, repurchase agreements and reverse repurchase agreements, and securities borrowing and securities lending transactions that are either offset in accordance with specific criteria contained in the ASC or subject to a master netting arrangement or similar agreement. The amendments in ASU 2013-01 are effective for fiscal years beginning on or after January 1, 2013, and interim periods within those annual periods. Adoption of the new guidance did not have a significant impact on the Company's consolidated financial statements.

In February 2013, the FASB issued ASU 2013-02, *Other Comprehensive Income (Topic 220), Reporting of Amounts Reclassified out of Other Comprehensive Income* (ASU 2013-02). The provisions in the ASU supersede and replace the presentation requirements for reclassifications out of accumulated other comprehensive income (AOCI) in ASUs 2011-05 and 2011-12. ASU 2013-02 requires entities to disclose additional information about reclassification adjustments, including (1) changes in AOCI balances by component and (2) significant items reclassified out of AOCI. The new disclosure requirements are effective for fiscal years, and interim periods within those years, beginning after December 15, 2012. Adoption of the new guidance did not have a significant impact on the Company's consolidated financial statements.

NOTE 2 BUSINESS COMBINATIONS AND BRANCH SALES*Beach Business Bank Merger*

Effective July 1, 2012, the Company acquired Beach Business Bank pursuant to the terms of the Agreement and Plan of Merger (the Merger Agreement) dated August 30, 2011, as amended October 31, 2011. At the effective time of the transaction, a newly formed and wholly owned subsidiary of the Company (Merger Sub) merged with and into Beach (the Merger), with Beach continuing as the surviving entity in the Merger and a wholly owned subsidiary of the Company. Pursuant and subject to the terms of the Merger Agreement, each outstanding share of Beach common stock (other than specified shares owned by the Company, Merger Sub or Beach, and other than in the case of shares in respect of, or underlying, certain Beach options and other equity awards, which were treated as set forth in the Merger Agreement) was converted into the right to receive \$9.21415 in cash and one warrant. Each warrant entitled the holder to purchase 0.33 of a share of Company common stock at an exercise price of \$14.00 per share for a period of one year. All of the warrants expired on June 30, 2013 without being exercised. The aggregate cash consideration paid to Beach shareholders in the Merger was approximately \$39.1 million. In addition, Beach shareholders received in aggregate warrants to purchase the equivalent of 1,401,959 shares of the Company's common stock with an estimated fair value of \$1.0 million.

Beach (re-named The Private Bank of California effective July 1, 2013 and merged with Pacific Trust Bank on October 11, 2013 to form the Bank) operated branches in Manhattan Beach, Long Beach, and Costa Mesa, California. Beach also has a division named The Doctors Bank®, which serves physicians and dentists nationwide. Additionally, Beach provides loans to small businesses based on Small Business Administration (SBA) lending programs. Beach's consolidated assets and equity (unaudited) as of June 30, 2012 totaled \$311.9 million and \$33.3 million, respectively. The acquired assets and liabilities were recorded at fair value at the date of acquisition and were reflected in the Company's consolidated September 30, 2013 and December 31, 2012 financial statements as such.

In accordance with GAAP guidance for business combinations, the Company recorded \$7.0 million of goodwill and \$4.5 million of other intangible assets during the year ended December 31, 2012. The other intangible assets are primarily related to core deposits and are being amortized on an accelerated basis over 2-7 years. For tax purposes purchase accounting adjustments, including goodwill are all non-taxable and/or non-deductible.

The unique market opportunity that was created with the acquisition is that it creates for our Company the opportunity to leverage Beach's branch network, SBA lending platform, the Doctors Bank product offerings and other programs that can be deployed throughout our market which we expect will help augment our customer base. This acquisition was consistent with the Company's strategy to build a regional presence in Southern California. The acquisition offers the Company the opportunity to increase profitability by introducing existing products and services

to the acquired customer base as well as acquire new customers in the expanded region.

Table of Contents

Gateway Bancorp Acquisition

Effective August 18, 2012, the Company acquired Gateway Bancorp, the holding company of Gateway Business Bank (Gateway) pursuant to the terms of the Stock Purchase Agreement (the Purchase Agreement) dated June 3, 2011, as amended on November 28, 2011, February 24, 2012, June 30, 2012, and July 31, 2012. The acquisition was accomplished by the Company's purchase of all of the outstanding stock of Gateway Bancorp, followed by the merger of Gateway into PacTrust Bank. Under the terms of the Purchase Agreement, the Company purchased all of the issued and outstanding shares of Gateway Bancorp for \$15.4 million in cash.

Gateway operated branches in Lakewood and Laguna Hills, California. As part of the acquisition, Mission Hills Mortgage Bankers (MHMB, a division of Gateway), including its 22 loan production offices in California, Arizona, Oregon and Washington, became a division of the Bank. Gateway's consolidated assets and equity (unaudited) as of August 17, 2012 totaled \$175.5 million and \$25.8 million, respectively. The acquired assets and liabilities were recorded at fair value at the date of acquisition and were reflected in the September 30, 2013 and December 31, 2012 consolidated financial statements as such.

In accordance with GAAP guidance for business combinations, the Company recorded \$11.6 million of bargain purchase gain and \$1.7 million of other intangible assets during the year ended December 31, 2012. The other intangible assets are related to \$720 thousand of core deposits, which are being amortized on an accelerated basis over 4 - 6 years, and \$955 thousand of trade name intangible which is being amortized over 20 years. For tax purposes the purchase accounting adjustments and bargain purchase gain are non-taxable and/or non-deductible. Due to circumstances that Gateway faced at the time the acquisition was negotiated, which include regulatory orders and operating losses, the terms negotiated included a purchase price that was \$5 million lower than Gateway Bancorp's equity book value. The discount was further increased to \$6.5 million in exchange for the elimination of any contingent liability to the shareholder of Gateway Bancorp related to mortgage repurchase risk. Due to delays in obtaining regulatory approval, the deal closed nine months later than originally planned. This passage of time allowed Gateway to eliminate all regulatory orders, return to profitability, improve asset quality, and increase the book value of equity by reducing the expected discount on assets. As a result, a bargain purchase gain of \$11.6 million resulted at the time of purchase.

This acquisition was consistent with the Company's strategy to build a regional presence in Southern California. The acquisition offers the Company the opportunity to increase profitability by introducing existing products and services to the acquired customer base as well as add new customers in the expanded region.

Private Bank of California Acquisition

On July 1, 2013, the Company completed its acquisition of The Private Bank of California, (PBOC) pursuant to the terms of the Agreement and Plan of Merger, dated as of August 21, 2012, as amended (the Merger Agreement), by and between the Company, Beach and PBOC. PBOC merged with and into Beach, with Beach continuing as the surviving entity in the merger and a wholly owned subsidiary of the Company, and changing its name to The Private Bank of California. On October 11, 2013, The Private Bank of California merged with the Company's other wholly owned banking subsidiary, Pacific Trust Bank, to form the Bank.

Pursuant and subject to the terms of the Merger Agreement, each outstanding share of PBOC common stock (other than specified shares owned by the Company). On July 1, 2013, merger between PBOC and Beach was completed. Based on the merger agreement, all of the issued and outstanding common stocks were converted into, in the aggregate, (1) 2,082,654 shares of BANC common shares par value \$0.01 per share, \$28.3 million at \$13.58 per share closing price on July 1, 2013, and (2) \$25.3 million in cash. Additionally, the Company paid out \$2.7 million for all outstanding options to acquire PBOC common stock in accordance with the merger agreement and converted outstanding PBOC stock options to the Company's stock options with an assumed fair value of approximately \$30 thousand. On the basis of the number of shares of PBOC Common Stock issued and outstanding immediately prior to the completion of the Merger, each outstanding share of PBOC Common Stock was converted into the right to receive \$6.52 in cash and 0.5379 shares of the Company Common Stock.

In addition, upon completion of the acquisition, each share of preferred stock issued by PBOC as part of the Small Business Lending Fund (SBLF) program of the United States Department of Treasury (10,000 shares in the aggregate with a liquidation preference amount of \$1,000 per share) was converted automatically into one substantially identical share of preferred stock of the Company. The terms of the preferred stock issued by the Company in exchange for the PBOC preferred stock are substantially identical to the preferred stock previously issued by the Company as part of its own participation in the SBLF program (32,000 shares in aggregate with a liquidation preference amount of \$1,000 per share).

PBOC provided a range of financial services, including credit and deposit products as well as cash management services, from its headquarters located in the Century City area of Los Angeles, California as well as a full-service branch in Hollywood and

Table of Contents

loan production offices in downtown Los Angeles and Irvine. PBOC's target clients included high-net worth and high income individuals, business professionals and their professional service firms, business owners, entertainment service businesses and non-profit organizations.

In accordance with GAAP guidance for business combinations, the Company has expensed approximately \$2.6 million of direct acquisition costs and recorded \$15.0 million of goodwill and \$10.4 million of other intangible assets. The other intangible assets are primarily related to core deposits and are being amortized on an accelerated basis over 2-7 years. Loans that were acquired from PBOC that were considered credit impaired were written down at the acquisition date in accordance with purchase accounting to fair value. In addition, the allowance for loan losses for all PBOC loans was not carried over to the Company's allowance for loan and lease losses. A full valuation allowance for the deferred tax asset was recorded as well. For tax purposes purchase accounting adjustments, including goodwill are all nontaxable and/or non-deductible. The Company does not expect material variances from these estimates and expects that final valuation estimates of the acquisition will be completed during the fourth quarter of 2013. The following table summarizes the fair value of the total consideration transferred as a part of the PBOC merger as well as the fair value of identifiable assets acquired and liabilities assumed as of the effective date of the transaction.

The following table summarizes the fair value marks to the Company's balance sheet as of close of the PBOC transaction, and the resulting goodwill derived.

The Palisades Group, LLC, Acquisition

Effective September 10, 2013, the Company acquired The Palisades Group, LLC (Palisades), a Delaware limited liability company and a registered investment adviser under the Investment Advisers Act of 1940, pursuant to the terms of the Amended and Restated Units Purchase Agreement dated as of November 30, 2012, amended and restated as of August 12, 2013, for \$50 thousand. Palisades provides financial advisory and asset management services to third parties, including the Bank, with respect to the purchase, sale and management of portfolios of residential mortgage loans.

In accordance with GAAP guidance for business combinations, the Company recorded no intangible assets related to Palisades. The following balance sheet of Palisades is presented at estimated fair value as of the acquisition date:

	September 10, 2013
Assets acquired:	
Cash and due from banks	\$ 900
Interest-bearing deposits	5
Other assets	364

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Total consideration paid	\$	50
Summary of considerations		
Cash paid	\$	50

Other assets include account receivables of \$265 thousand between Palisades and the Company, which is eliminated in the consolidated financials.

Table of Contents*Pro Forma Information*

The following table presents unaudited pro forma information as if the acquisitions of Beach, Gateway, PBOC and Palisades had occurred on January 1, 2012 after giving effect to certain adjustments. The unaudited pro forma information for the three and nine months ended September 30, 2013 and 2012 includes adjustments for interest income on loans and securities acquired, amortization of intangibles arising from the transaction, interest expense on deposits and borrowings acquired, and the related income tax effects. The unaudited pro forma financial information is not necessarily indicative of the results of operations that would have occurred had the transaction been effected on the assumed date.

	Pro Forma			
	Three Months Ended September 30, 2013		Nine Months Ended September 30, 2012	
	<i>(In thousands, except per share data)</i>			
SUMMARIZED INCOME STATEMENT DATA				
<i>(unaudited):</i>				
Net interest income	\$ 26,943	\$ 20,685	\$ 74,385	\$ 58,185
Provision for loan and lease losses	2,109	1,350	6,987	3,647
Non-interest income	18,262	16,854	65,062	40,140

Diluted earnings (loss) per share	\$ (0.57)	\$ (0.04)	\$ (0.23)	\$ 0.07

The above unaudited pro forma financial information for 2012 and 2013 includes the pre-acquisition periods for Beach, Gateway, PBOC and Palisades. Excluded from the above pro forma financial information for the three and nine months ended September 30, 2012 is revenue of \$12.1 million related to the bargain purchase gain recorded in connection with the Gateway acquisition. The above unaudited pro forma financial information includes pre-acquisition provision for loan and lease losses of \$319 thousand during the three months ended September 30, 2012 for PBOC, \$850 thousand and \$796 thousand for the nine months ended September 30, 2012 for Beach and PBOC, respectively, and \$792 thousand for the nine months ended September 30, 2013 for PBOC.

Branch Sales

On May 31, 2013, the Bank entered into a definitive agreement with AmericanWest Bank, a Washington state chartered bank (AWB), pursuant to which the Bank has agreed to sell eight branches and related assets and deposit liabilities to AWB. The transaction provides for the transfer of deposits to AWB in exchange for a deposit premium of 2.3 percent applied to certain deposit balances transferred at closing. Such deposits totaled approximately \$462.8 million as of September 30, 2013. Certain other assets related to the branches include the real estate for three of the branch locations and certain overdraft and other credit facilities related to the deposit accounts. These deposits and retail branch assets were classified as held-for-sale in the Consolidated Statements of Financial Condition as of September 30, 2013. As discussed in Note 19, *Subsequent Events*, this transaction was completed on October 4, 2013.

NOTE 3 FAIR VALUES OF FINANCIAL INSTRUMENTS

Fair Value Hierarchy. ASC 820-10 establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The topic describes three levels of inputs that may be used to measure fair value:

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the entity has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect a reporting entity's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

Table of Contents

Securities Available for Sale. The fair values of securities available for sale are generally determined by quoted market prices, if available (Level 1), or by matrix pricing, which is a mathematical technique widely used in the industry to value debt securities without relying exclusively on quoted prices for the specific securities but rather by relying on the securities' relationship to other benchmark quoted securities (Level 2). For securities where quoted prices or market prices of similar securities are not available, fair values are calculated using discounted cash flows or other market indicators (Level 3). The fair values of the Company's Level 3 securities are determined by the Company and an independent third-party provider using a discounted cash flow methodology. The methodology uses discount rates that are based upon observed market yields for similar securities. Prepayment speeds are estimated based upon the prepayment history of each bond and a detailed analysis of the underlying collateral. Gross weighted average coupon, geographic concentrations, loan to value, FICO and seasoning are among the different loan attributes that are factored into our prepayment curve. Default rates and severity are estimated based upon geography of the collateral, delinquency, modifications, loan to value ratios, FICO scores, and past performance.

Impaired Loans and Leases. The fair value of impaired loans and leases with specific allocations of the allowance for loan and lease losses based on collateral values is generally based on recent real estate appraisals (Level 2). These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value. The impaired loans categorized as Level 3 also include unsecured and other secured loans whose fair value is based on significantly unobservable inputs such as strength of guarantees, cash flows discounted at the effective loan rate, and management's judgment.

Loans Held for Sale. The fair value of loans held for sale is based on commitments outstanding from investors as well as what secondary markets are currently offering for portfolios with similar characteristics. Therefore, loans held for sale subjected to recurring fair value adjustments are classified as Level 2.

Derivative Assets and Liabilities. The Company's derivative assets and liabilities are carried at fair value as required by GAAP and are accounted for as freestanding derivatives. The Company has entered into pay-fixed, receive-variable interest rate swap contracts with institutional counterparties to hedge against variability in cash flow attributable to interest rate risk caused by changes in the LIBOR benchmark interest rate on the Company's ongoing LIBOR based variable rate deposits. The Company is accounting for the swaps as cash flow hedges under ASC 815. The other derivative assets are interest rate lock commitments (IRLCs) with prospective residential mortgage borrowers whereby the interest rate on the loan is locked by borrower prior to funding. These IRLCs are determined to be derivative instruments in accordance with GAAP. The derivative liabilities are hedging instruments typically mortgage-backed to-be-announced (TBA securities) used to hedge the risk of fair value changes affected by interest rates changes relating to the Company's mortgage banking operations. The Company hedges the period from the interest rate lock (assuming a fall-out factor) to the date of the loan sale. The estimated fair value is based on current market prices for similar instruments. Given the meaningful level of secondary market activity for derivative contracts, active pricing is available for similar assets and accordingly, the Company classifies its derivative assets and liabilities as Level 2.

Servicing Rights - Mortgage. The Company retains servicing on some of its mortgage loans sold and has elected the fair value option for valuation of these mortgage servicing rights. The value is based on a third party model that calculates the present value of the expected net servicing income from the portfolio based on key factors that include interest rates, prepayment assumptions, discount rate and estimated cash flows. Because of the significance of unobservable inputs, these servicing rights are classified as Level 3.

I/O Strips Receivable. The fair value is determined by discounting future cash flows using discount rates and prepayment assumptions that market participants would use for similar financial instruments. Because of the significance of unobservable inputs, the I/O strips receivable are classified as Level 3.

Other Real Estate Owned Assets (OREO). OREO are recorded at the fair value less estimated costs to sell at the time of foreclosure. The fair value of other real estate owned assets is generally based on recent real estate appraisals adjusted for estimated selling costs. These appraisals may utilize a single valuation approach or a combination of approaches including comparable sales and the income approach. Adjustments are routinely made in the appraisal process by the appraisers to adjust for differences between the comparable sales and income data available. Such adjustments are typically significant and result in a Level 3 classification of the inputs for determining fair value. Only OREO with a valuation allowance are considered to be carried at fair value. For the nine months ended September 30, 2013 and 2012, the Company experienced \$97 thousand and \$205 thousand in valuation allowance expense for those assets, respectively.

Table of Contents*Assets and Liabilities Measured on a Recurring and Non-Recurring Basis*

Available-for-sale securities, loans held for sale, derivative assets and liabilities, and mortgage servicing rights are measured at fair value on a recurring basis, whereas impaired loans and leases and other real estate owned are measured at fair value on a non-recurring basis.

The following table sets forth the Company's financial assets and liabilities measured at fair value on a recurring basis as of the dates indicated:

	Carrying Value	Fair Value Measurements Level		
		Quoted Prices in Active Markets for Identical Assets (Level One)	Other Observable Inputs (Level Two)	Significant Unobservable Inputs (Level Three)

Table of Contents

The following table sets forth the Company's financial assets and liabilities measured at fair value on a non-recurring basis as of the dates indicated:

	Carrying Value	Fair Value Measurements Level		
		Quoted Prices in Active Markets for Identical Assets (Level One)	Significant Other Observable Inputs (Level Two)	Significant Unobservable Inputs (Level Three)
September 30, 2013:				
Assets				
Impaired loans:				
Real estate 1-4 family first mortgage	\$ 13,202	\$	\$ 1,104	\$ 12,098
Real estate mortgage	5,896			5,896
HELOC's, home equity loans, and other consumer installment credit	1,055			1,055
Commercial and industrial	70			70
SBA	11			11
Other real estate owned assets:				
Land	1,383			1,383
December 31, 2012:				
Assets				
Impaired loans:				
Real estate 1-4 family first mortgage	\$ 21,778	\$	\$ 3,041	\$ 18,737
Multi-family	5,442			5,442
Real estate mortgage	2,531		829	1,702
HELOC's, home equity loans, and other consumer installment credit	3			3
Other real estate owned assets:				
Real estate 1-4 family first mortgage	118			118
Land	3,889			3,889

There were impaired loans of \$1.1 million and none with specific allowances tested for impairment using the fair value of the collateral for collateral dependent loans at September 30, 2013 and December 31, 2012.

Other real estate owned measured at fair value less costs to sell, had a net carrying value of \$1.4 million, which was comprised of the outstanding balance of \$1.4 million, net of a valuation allowance of \$42 thousand at September 30, 2013. At December 31, 2012, real estate owned had a net carrying value of \$4.5 million, which is made up of the outstanding balance of \$6.6 million, net of a valuation allowance of \$2.1 million.

The table below presents the gains and (losses) recognized on assets measured at fair value on a non-recurring basis as of the dates indicated:

	Three months ended September 30, 2013	Nine months ended September 30, 2013
<i>(In thousands)</i>		
Impaired loans:		
Real estate 1-4 family first mortgage	\$ (884)	\$ (1,195)
Real estate mortgage	(117)	(238)
SBA	(1)	(29)
HELOC's, home equity loans, and other consumer installment credit		(19)
Commercial and industrial	(2)	(2)

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Other real estate owned assets:		
Multi-family	83	84
Land	(21)	83
Real estate 1-4 family first mortgage	(7)	(40)

Table of Contents

The tables below present a reconciliation of assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the nine months ended September 30, 2013:

	Private label residential mortgage-backed securities	Mortgage Servicing Rights <i>(In thousands)</i>	Total
Balance of recurring Level 3 securities at January 1, 2013	\$ 2,214	\$ 1,739	\$ 3,953
Transfers out of Level 3			
Total gains or losses (realized/unrealized):			
Included in earnings realized			
Included in earnings fair value adjustment		251	251
Included in other comprehensive income			
Amortization of premium (discount)			
Additions		5,598	5,598
Sales, issuances and settlements	(2,214)	(368)	(2,582)
Balance of recurring Level 3 securities at September 30, 2013	\$	\$ 7,220	\$ 7,220

The table below presents a reconciliation of assets measured at fair value on a recurring basis using significant unobservable inputs (Level 3) for the nine months ended September 30, 2012:

	Private label residential mortgage-backed securities	Mortgage Servicing Rights <i>(In thousands)</i>	Total
Balance of recurring Level 3 securities at January 1, 2012	\$ 76,203	\$	\$ 76,203
Transfers out of Level 3			
Total gains or losses (realized/unrealized):			
Included in earnings realized	(83)		(83)
Included in earnings fair value adjustment		(107)	(107)
Included in other comprehensive income	(9)		(9)
Amortization of premium (discount)	(160)		(160)
Additions		1,778	1,778
Sales, issuances and settlements	(25,671)	(62)	(25,733)
Balance of recurring Level 3 securities at September 30, 2012	\$ 50,280	\$ 1,609	\$ 51,889

The following table presents quantitative information about Level 3 fair value measurements on a recurring basis as of the dates indicated:

	Fair Value	Valuation Technique(s)	Unobservable Input(s) <i>(\$ in thousands)</i>	Range (Weighted Average)
September 30, 2013:				
Mortgage servicing rights	\$ 7,220	Discounted cash flow	Discount rate Prepayment rate	10.00% to 17.46% (10.33%) 3.29% to 38.70% (10.89%)
December 31, 2012:				
	\$ 2,214	Discounted cash flow		3.15% to 8.00% (5.80%)

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Private label residential mortgage backed securities			Voluntary prepayment rate	8.46% to 8.56% (8.5%)
			Collateral default rate	
			Loss severity at default	55%
Mortgage servicing rights	1,739	Discounted cash flow	Discount rate	10.5% to 11.5% (10.5%)
			Prepayment rate	4.3% to 35.3% (13.8%)

Table of Contents

The significant unobservable inputs used in the fair value measurement of the Company's private label and agency residential mortgage backed securities are prepayment rates, collateral default rates, and loss severity in the event of default. Significant increases (decreases) in any of those inputs in isolation would result in a significantly lower (higher) fair value measurement. Generally, a change in the assumption used for the collateral default rates is accompanied by a directionally similar change in the assumption used for the loss severity and a directionally opposite change in the assumption used for prepayment rates.

The significant unobservable inputs used in the fair value measurement of the Company's mortgage servicing rights include the discount rate and estimated cash flows. There may be inherent weaknesses in any calculation technique, and changes in the underlying assumptions used, including discount rates and estimates of future cash flows, could significantly affect the results.

The carrying amounts and estimated fair values of financial instruments as of September 30, 2013 and December 31, 2012 were as follows:

	Carrying Amount	Fair Value Measurements Level			Total
		Level 1	Level 2 <i>(In thousands)</i>	Level 3	
September 30, 2013:					
Financial assets					
Cash and cash equivalents	\$ 416,010	\$ 416,010	\$	\$	\$ 416,010

Derivative liabilities	988		988		988
Accrued interest payable	1,639	1,335	304		1,639

The methods and assumptions used to estimate fair value are described as follows:

Carrying amount is the estimated fair value for cash and cash equivalents, FHLB stock, and accrued interest receivable and payable. The methods for determining the fair values for securities available for sale, derivatives assets and liabilities, and I/O strips are described above. For fixed rate loans or deposits and for variable rate loans or deposits with infrequent re-pricing or re-pricing limits, fair value is based on discounted cash flows using current market rates applied to the estimated life and credit risk. Fair value of long-term debt is based on current rates for

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

similar financing. It was not practicable to determine the fair value of FHLB stock due to restrictions placed on its transferability. The fair value of off-balance-sheet items is not considered material (or is based on the current fees or costs that would be charged to enter into or terminate such arrangements) and is not presented.

Table of Contents

NOTE 4 SECURITIES AVAILABLE FOR SALE

The following tables summarize the amortized cost and fair value of the available-for-sale investment securities portfolio at September 30, 2013 and December 31, 2012, respectively, and the corresponding amounts of gross unrealized gains and losses recognized in accumulated other comprehensive income (loss):

	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
	<i>(In thousands)</i>			
September 30, 2013:				
Available-for-sale				
U.S. Treasury note	\$ 110	\$	\$	\$ 110
SBA loan pools securities	1,794		(23)	1,771
U.S. government-sponsored entities and agency securities	1,925	17		1,942
Private label residential mortgage-backed securities	17,208	169	(43)	17,334
Agency mortgage-backed securities	147,469	593	(1,221)	146,841
Total securities available for sale	\$ 168,506	\$ 779	\$ (1,287)	\$ 167,998
December 31, 2012:				
Available-for-sale				
U.S. government-sponsored entities and agency securities	\$ 2,706	\$ 4	\$	\$ 2,710
State and Municipal securities	9,660	284		9,944
Private label residential mortgage-backed securities	41,499	475	(128)	41,846
Agency mortgage-backed securities	66,818	335	(234)	66,919
Total securities available for sale	\$ 120,683	\$ 1,098	\$ (362)	\$ 121,419

The Company recorded no other-than-temporary impairment (OTTI) for securities available for sale at September 30, 2013 or December 31, 2012.

The amortized cost and fair value of the available-for-sale securities portfolio are shown below by expected maturity. In the case of residential mortgage-backed securities and SBA loan pool securities, expected maturities may differ from contractual maturities because borrowers generally have the right to call or prepay obligations with or without call or prepayment penalties. For that reason, mortgage-backed securities and SBA loan pool securities are not included in the maturity categories.

	September 30, 2013	
	Amortized Cost	Fair Value

	\$ 168,506	\$ 167,998

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

At September 30, 2013 and December 31, 2012, there were no holdings of any one issuer, other than the U.S. Government and its agencies, in an amount greater than 10 percent of shareholders' equity.

Table of Contents

The following table summarizes the investment securities with unrealized losses at September 30, 2013 and December 31, 2012, respectively, by aggregated major security type and length of time in a continuous unrealized loss position:

	Less Than 12 Months		12 Months or Longer		Total	
	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses	Fair Value	Unrealized Losses
<i>(In thousands)</i>						
September 30, 2013:						
Available-for-sale						
SBA loan pools securities	\$ 1,771	\$ (23)	\$	\$	\$ 1,771	\$ (23)
Private label residential mortgage-backed securities	5,739	(41)	516	(2)	6,255	(43)
Agency residential mortgage-backed securities	60,763	(1,221)			60,763	(1,221)
Total available-for-sale	\$ 68,273	\$ (1,285)	\$ 516	\$ (2)	\$ 68,789	\$ (1,287)
December 31, 2012:						
Available-for-sale						
Private label residential mortgage-backed securities	\$ 2,194	\$ (13)	\$ 10,061	\$ (115)	\$ 12,255	\$ (128)
Agency residential mortgage-backed securities	37,388	(234)			37,388	(234)
Total available-for-sale	\$ 39,582	\$ (247)	\$ 10,061	\$ (115)	\$ 49,643	\$ (362)

As of September 30, 2013, the Company's securities available for sale portfolio consisted of 122 securities, 56 of which were in an unrealized loss position. The unrealized losses are related to interest rate increases of the agency mortgage-backed securities as discussed below.

The Company's private label residential mortgage-backed securities that are in an unrealized loss position had a fair value of \$6.3 million with unrealized losses of \$43 thousand at September 30, 2013. The Company's agency residential mortgage-backed securities that are in an unrealized loss position had a fair value of \$60.8 million with unrealized losses of \$1.2 million at September 30, 2013.

The Company monitors its securities portfolio to ensure it has adequate credit support. With respect to its securities in an unrealized loss position as of September 30, 2013, the Company believes there is no OTTI and it does not have the intent to sell these securities and believes it is not likely that it will be required to sell the securities before their anticipated recovery. Of the Company's \$168.0 million securities portfolio, \$163.2 million of the securities were rated A or above, and \$4.8 million were rated BBB based on the most recent credit rating as of September 30, 2013. The Company considers the lowest credit rating for identification of potential OTTI.

Table of Contents

Non Traditional Mortgage Loans

The Company's non-traditional mortgage (NTM) portfolio is comprised of three interest only products: the Green Account Loans (Green Loans), the hybrid interest only fixed or adjustable rate mortgage (Interest Only) and a small number of loans with the potential for negative amortization. As of September 30, 2013 and December 31, 2012, the non-traditional mortgage loans totaled \$374.3 million or 14.4 percent of the total gross loan portfolio and \$368.2 million or 29.5 percent of the total gross loan portfolio, respectively. Despite the decrease in percentage to total gross loan portfolio, total NTM loans increased \$6.0 million or 1.6 percent. The following table represents the composition of the NTM portfolio at the dates indicated:

	September 30, 2013			December 31, 2012		
	Count	Amount	Percent	Count	Amount	Percent
	<i>(\$ in thousands)</i>					
Green	203	\$ 164,826	44.0%	239	\$ 206,004	56.0%
Interest-only	292	192,363	51.4	191	142,978	38.8
Negative amortization	38	17,074	4.6	40	19,262	5.2
Total NTM loans	533	\$ 374,263	100.0%	470	\$ 368,244	100.0%
Total gross loan portfolio		\$ 2,594,142			\$ 1,246,559	
% of NTM to total gross loan portfolio		14.4%			29.5%	

Green Loans

Green Loans are single family residence first and second mortgage lines of credit with a linked checking account that allows all types of deposits and withdrawals to be performed. The loans are generally interest only with a 15 year balloon payment due at maturity. At September 30, 2013, Green Loans totaled \$164.8 million, a decrease of \$41.2 million or 20.0 percent from \$206.0 million at December 31, 2012, primarily due to reductions in principal balance and payoffs of \$9.2 million and \$39.7 million, respectively, partially offset by advances of \$7.7 million. As of September 30, 2013 and December 31, 2012, \$4.5 million and \$5.7 million, respectively, of the Company's Green Loans were non-performing. As a result of their unique payment feature, Green Loans possess higher credit risk due to the potential of negative amortization; however, management believes the risk is mitigated through the Company's loan terms and underwriting standards, including its policies on loan-to-value ratios. The Company discontinued origination of the Green Loan products in 2011.

Interest Only Loans

Interest only loans are primarily single family residence first mortgage loans with payment features that allow interest only payment in initial periods before converting to fully amortizing payments. As of September 30, 2013, our interest only loans increased by \$49.4 million or 34.5 percent to \$192.4 million from \$143.0 million at December 31, 2012, primarily due to purchases of \$55.7 million and originations of \$174.0 million, partially offset by sales of \$64.0 million, payoffs and principal reductions of \$87.8 million, and reclassification of \$28.4 million from NTM interest only to traditional loans due to the expiration of the initial interest only period and conversion to a fully amortizing basis. As of September 30, 2013 and December 31, 2012, \$297 thousand and \$6.2 million, respectively, of the Company's interest only loans were non-performing.

Loans with the Potential for Negative Amortization

Negative amortization loans decreased by \$2.2 million or 11.4 percent to \$17.1 million as of September 30, 2013 from \$19.3 million as of December 31, 2012. The Company discontinued origination of negative amortization loans in 2007. As of September 30, 2013 and December 31, 2012, \$158 thousand and none, respectively, of the Company's loans that had the potential for negative amortization were non-performing. These loans pose a potentially higher credit risk because of the lack of principal amortization and potential for negative amortization; however, management believes the risk is mitigated through the Company's loan terms and underwriting standards, including its policies on loan-to-value ratios.

Risk Management of Non-Traditional Mortgages

The Company has assessed that the most significant performance indicators for non-traditional mortgages (NTMs) are loan-to-value (LTV) and FICO scores. Accordingly, the Company manages credit risk in the NTM portfolio through semi-annual review of the loan portfolio that

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

includes refreshing FICO scores on the Green Loans and home equity lines of credit, typically in November and April or as needed in conjunction with portfolio management, and ordering third party automated valuation models. The loan review is designed to provide a method of identifying borrowers who may be experiencing financial difficulty before they actually fail to make a loan payment. Upon receipt of the updated FICO scores, an exception report is run to identify loans with a decrease in

Table of Contents

FICO of 10 percent or more and a resulting FICO of 620 or less. The loans are then further analyzed to determine if the risk rating should be downgraded which will increase the reserves the Company will establish for potential losses. A report of the semi-annual loan review is published and regularly monitored.

As these loans are revolving lines of credit, the Company, based on the loan agreement and loan covenants of the particular loan, as well as applicable rules and regulations, could suspend the borrowing privileges or reduce the credit limit at any time the Company reasonably believes that the borrower will be unable to fulfill their repayment obligations under the agreement or certain other conditions are met. In many cases, the decrease in FICO is the first red flag that the borrower may have difficulty in making their future payment obligations.

As a result, the Company proactively manages the portfolio by performing detailed analysis on its portfolio with emphasis on the non-traditional mortgage portfolio. The Company's Internal Asset Review Committee (IARC) conducts monthly meetings to review the loans classified as special mention, substandard, or doubtful and determines whether suspension or reduction in credit limit is warranted. If the line has been suspended and the borrower would like to have their credit privileges reinstated, they would need to provide updated financials showing their ability to meet their payment obligations.

On the interest only loans, the Company projects future payment changes to determine if there will be an increase in payment of 3.50 percent or greater and then monitors the loans for possible delinquency. The individual loans are monitored for possible downgrading of risk rating, and trends within the portfolio are identified that could affect other interest only loans scheduled for payment changes in the near future.

Non Traditional Mortgage Performance Indicators

The tables below represent the Company's non-traditional one-to-four SFR mortgage Green Loans first lien portfolio at September 30, 2013 by FICO scores that were obtained during the second quarter of 2013, comparing to the FICO scores that were obtained during the fourth quarter of 2012:

	September 30, 2013			December 31, 2012			Changes in count and amounts			
	Count	Amount	Percent	Count	Amount	Percent	Count change	Amount change	Percent change

(1) LTV represents estimated current loan to value ratio, determined by dividing current unpaid principal balance by latest estimated property value received per the Company's policy

At September 30, 2013, the increase in interest only loans primarily related to purchases of 153 loans with a carrying value of \$55.7 million and originations of \$174.0 million, partially offset by sales, payoffs, principal reductions, and conversions to traditional loans of \$180.1 million.

Allowance for Loan and Lease Losses

The Company has an established credit risk management process that includes regular management review of the loan and lease portfolio to identify problem loans and leases. During the ordinary course of business, management becomes aware of borrowers and lessees that may not be able to meet the contractual requirements of the loan and lease agreements. Such loans and leases are subject to increased monitoring. Consideration is given to placing the loan or lease on non-accrual status, assessing the need for additional allowance for loan and lease losses, and partial or full charge-off. The Company maintains the allowance for loan and lease losses at a level that is considered adequate to cover the estimated and known inherent risks in the loan portfolio and off-balance sheet unfunded credit commitments. The allowance for loan and lease losses includes allowances for loan, lease, and off-balance sheet unfunded credit commitment losses.

The credit risk monitoring system is designed to identify impaired and potential problem loans, and to permit periodic evaluation of impairment and the adequacy level of the allowance for credit losses in a timely manner. In addition, the Board of Directors of the Bank has adopted a credit policy that includes a credit review and control system which it believes should be effective in ensuring that the Company maintains an adequate allowance for credit losses. The Board of Directors provides oversight and guidance for management's allowance evaluation process, including quarterly valuations, and consideration of management's determination of whether the allowance is adequate to absorb losses in the loan and lease portfolio. The determination of the amount of the allowance for loan and lease losses and the provision for loan and lease losses is based on management's current judgment about the credit quality of the loan and lease portfolio and takes into consideration known relevant internal and external factors that affect collectability when determining the appropriate level for the allowance for loan and lease losses. The nature of the process by which the Company determines the appropriate allowance for loan and lease losses requires the exercise of considerable judgment. Additions to the allowance for loan and lease losses are made by charges to the provision for loan and lease losses. Identified credit exposures that are determined to be uncollectible are charged against the allowance for loan and lease losses. Recoveries of previously charged off amounts, if any, are credited to the allowance for loan and lease losses.

Table of Contents

The following is a summary of activity in the allowance for loan and lease losses and ending balances of loans evaluated for impairment for the three and nine months ended September 30, 2013 and 2012, respectively:

Troubled Debt Restructurings:								

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Troubled Debt Restructurings (TDRs) of loans are defined by ASC 310-40, Troubled Debt Restructurings by Creditors and ASC 470-60, Troubled Debt Restructurings by Debtors and evaluated for impairment in accordance with ASC 310-10-35. The concessions may be granted in various forms, including reduction in the stated interest rate, reduction in the amount of principal amortization, forgiveness of a portion of a loan balance or accrued interest, or extension of the maturity date. In order to determine whether a borrower is experiencing financial difficulty, an evaluation is performed of the probability that the borrower will be in payment default on any of its debt in the foreseeable future without the modification. This evaluation is performed under the Company's internal underwriting policy.

Table of Contents

For the three months ended September 30, 2013 and 2012, there were no and two modifications, respectively, through extension of maturity.

HELOC s, home equity loans, and other consumer installment credit	1,396	331	1	
Total	\$ 8,708	\$ 4,643	\$ 15,668	\$ 3,014

Troubled debt restructured loans, excluding purchased credit impaired loans, were \$8.7 million and \$15.7 million at September 30, 2013 and December 31, 2012, respectively. The Company did not have any commitments to lend to customers with outstanding loans or leases that are classified as troubled debt restructurings as of September 30, 2013 and December 31, 2012.

Credit Quality Indicators:

The Company categorizes loans and leases into risk categories based on relevant information about the ability of borrowers to service their debt such as: current financial information, historical payment experience, credit documentation, public information, and current economic trends, among other factors. The Company performs historical loss analysis that is combined with a comprehensive loan or lease to value analysis to analyze the associated risks in the current loan and lease portfolio. The Company analyzes loans and leases individually by classifying the loans and leases as to credit risk. This analysis includes all loans and leases delinquent over 60 days and non-homogenous loans and leases such as commercial and commercial real estate loans and leases. Classification of problem single family residential loans is performed on a monthly basis while analysis of non-homogenous loans and leases is performed on a quarterly basis. The Company uses the following definitions for risk ratings:

Special Mention. Loans and leases classified as special mention have a potential weakness that deserves management's close attention. If left uncorrected, these potential weaknesses may result in deterioration of the repayment prospects for the loan or lease or of the Company's credit position at some future date.

Substandard. Loans and leases classified as substandard are inadequately protected by the current net worth and paying capacity of the obligor or of the collateral pledged, if any. Loans and leases so classified have a well-defined weakness or weaknesses that jeopardize the liquidation of the debt. They are characterized by the distinct possibility that the institution will sustain some loss if the deficiencies are not corrected.

Doubtful/Loss. Loans and leases classified as doubtful have all the weaknesses inherent in those classified as substandard, with the added characteristic that the weaknesses make collection or liquidation in full, on the basis of currently existing facts, conditions, and values, highly questionable and improbable.

Not-Rated. When accrual of income on a pool of PCI loans with common risk characteristics is appropriate in accordance with ASC 310-30, individual loans in those pools are not risk-rated. The credit criteria are FICO scores, loan-to-value, delinquency, and actual cash flows versus expected cash flows of the loan pools.

Loans and leases not meeting the criteria above that are analyzed individually as part of the above described process are considered to be pass rated loans and leases.

Table of Contents

The following table displays the Company's risk categories for loans and leases as of September 30, 2013:

	September 30, 2013					TOTAL

The recent loan pool purchased in the NTM and traditional loans during the third quarter of 2013 has not been risk rated as of September 30, 2013. All loans in this pool were current or less than 60 days past due as of September 30, 2013. The loan pool will be evaluated and risk rated consistent with the other single family residential loans in the fourth quarter of 2013. PCI loan pools are not risk rated.

Table of Contents**Purchased Credit Impaired Loans and Leases**

For the nine months ended September 30, 2013 and year ended December 31, 2012, the Company purchased loans and leases for which there was, at acquisition, evidence of deterioration of credit quality subsequent to origination and it was probable, at acquisition, that all contractually required payments would not be collected. The outstanding balance and carrying amount of those loans and leases, which are sometimes collectively referred to as PCI loans at September 30, 2013 and December 31, 2012 is as follows:

	September 30, 2013		December 31, 2012	
	Outstanding Balance	Carrying Amount	Outstanding Balance	Carrying Amount
	<i>(In thousands)</i>			
Commercial				
Commercial and industrial	\$ 5,119	\$ 3,600	\$ 11,350	\$ 6,808
Real estate mortgage	25,405	18,987	22,698	21,837
Multi-family	1,188	831	1,208	845
SBA	5,096	3,801	7,967	5,608
Consumer:				
Real estate 1-4 family first mortgage	421,446	321,078	108,428	65,066
HELOC s, home equity loans, and other consumer installment credit	954	831	110	56
Outstanding balance	\$ 459,208	\$ 349,128	\$ 151,761	\$ 100,220

Accretable yield, or income expected to be collected for the three and nine months ended September 30, 2013 and 2012 is as follows:

	Three months ended September 30,		Nine months ended September 30,	
	2013	2012	2013	2012
	<i>(In thousands)</i>			
Balance at beginning of period	\$ 98,239	\$ 6,608	\$ 32,207	\$
New loans or leases purchased	59,798	28,852	155,416	35,892
Accretion of income	(4,684)	(318)	(12,195)	(750)
Reclassifications from (to) nonaccretable difference	154		(5,034)	
Disposals	(5,881)		(22,768)	
Balance at end of period	\$ 147,626	\$ 35,142	\$ 147,626	\$ 35,142

During the nine months ended September 30, 2013, the Company completed five seasoned SFR mortgage loan pool acquisitions with unpaid principal balances and fair values of \$1.02 billion and \$846.6 million (excluding accrued interest paid and acquisition costs at settlement), respectively, at the respective acquisition dates. The Company determined that certain of these loans displayed evidence of credit quality deterioration since origination and it was probable, at acquisition that all contractually required payments would not be collected (2013 PCI Loans). During the three months ended September 30, 2013, the Company sold a portion of 2013 PCI loans with unpaid principal balances and carrying values of \$11.1 million and \$6.6 million, respectively. The total unpaid principal balances and carrying values of the 2013 PCI Loans as of September 30, 2013 were \$333.7 million and \$267.2 million, respectively.

Table of Contents

NOTE 6 SERVICING RIGHTS

The Company retains mortgage servicing rights (MSRs) from its sales of certain residential mortgage loans. MSRs on residential mortgage loans are reported at fair value. Income earned by the Company on its MSRs is derived primarily from contractually specified mortgage servicing fees and late fees, net of curtailment costs and third party subservicing costs. The Company retains servicing rights in connection with its SBA loan operations, which are measured using the amortization method. Prior to the acquisition of Gateway, the Company did not have any MSRs and prior to the acquisitions of Beach and Gateway, the Company did not have any SBA servicing rights. Income earned from servicing rights for the nine months ended September 30, 2013 and 2012 was \$939 thousand and \$146 thousand, respectively, and \$293 thousand and \$146 thousand for the three months ended September 30, 2013 and 2012, respectively. This amount is reported in loan servicing income in the consolidated statements of operations. At September 30, 2013 and December 31, 2012, servicing rights are comprised of the following:

	September 30, 2013	December 31, 2012
	<i>(In thousands)</i>	
Mortgage servicing rights, at fair value	\$ 7,220	\$ 1,739
SBA servicing rights, at cost	383	539
Total	\$ 7,603	\$ 2,278

Servicing retained sold mortgage loans are not reported as assets and are subserviced by a third party vendor. The unpaid principal balance of these loans at September 30, 2013 and December 31, 2012 was \$760.8 million and \$211.4 million, respectively. Custodial escrow balances maintained in connection with serviced loans were \$5.7 million and \$1.1 million at September 30, 2013 and December 31, 2012 respectively.

Mortgage Servicing Rights

Following is a summary of the key characteristics, inputs and economic assumptions used to estimate the fair value of the Company's MSRs as of September 30, 2013 and December 31, 2012:

	September 30, 2013	December 31, 2012
	<i>(In thousands)</i>	
Fair value of retained MSRs	\$ 7,220	\$ 1,739
Decay (prepayment/default)	9.18%	25.19%
Discount rate	10.33%	10.50%
Constant prepayment rate	10.89%	13.86%
Weighted-average life (in years)	7.31	5.85

	Three months ended September 30,		Nine months ended September 30,	
	2013	2012	2013	2012
	<i>(In thousands)</i>			
Balance at beginning of period	\$ 4,620	\$ 1,534	\$ 1,739	\$ 1,534
Acquired in business combinations		1,534		1,534
Additions	2,836	244	5,598	244
Prepayments	(146)		(308)	
Changes in fair value resulting from valuation inputs or assumptions	(79)	(107)	251	(107)
Other loans paid off	(11)	(62)	(60)	(62)
Balance at end of period	\$ 7,220	\$ 1,609	\$ 7,220	\$ 1,609

Table of Contents*SBA Servicing Rights*

The Company used a discount rate of 7.25 percent to calculate the present value of cash flows and an estimated prepayment speed based on prepayment data available. Discount rates and prepayment speeds are reviewed quarterly and adjusted as appropriate.

	Three months ended September 30,		Nine months ended September 30,	
	2013	2012	2013	2012

Loans provided for sales of other real estate other real estate owned sold on contract	\$	\$	\$	\$ 917
Deferred gain on other real estate sold on contract				10
NOTE 8 GOODWILL AND OTHER INTANGIBLE ASSETS, NET				

At September 30, 2013, the Company had goodwill of \$22.1 million related to the PBOC and Beach acquisitions discussed above in Note 2, *Business Combinations*.

During the three months ended September 30, 2013, the Company wrote off all remaining trade name intangible assets of Beach, Gateway and PBOC of \$976 thousand due to the merger of the Company's two banking subsidiaries into a single bank.

Core deposit intangibles are amortized over their useful lives ranging from 4 to 7 years. As of September 30, 2013, the weighted average remaining amortization period for core deposit intangibles was approximately 6.25 years. The Company estimates that total amortization on core deposit intangibles will be \$2.6 million in 2013, \$3.5 million in 2014, \$2.9 million in 2015, \$2.3 million in 2016, \$1.7 million in 2017, \$1.1 million in 2018, \$524 thousand in 2019, and \$154 thousand in 2020. Other intangible assets were as follows at September 30, 2013 and December 31, 2012:

	Gross Carrying Value	Accumulated Amortization <i>(In thousands)</i>	Intangible Assets, net
September 30, 2013:			
Amortized intangible assets:			
Trade name	\$	\$	\$
Core deposit intangibles	15,520	2,329	13,191
	\$ 15,520	\$ 2,329	\$ 13,191
December 31, 2012:			
Amortized intangible assets:			
Trade name	\$ 980	\$ 28	\$ 952
Core deposit intangibles	5,190	668	4,522
	\$ 6,170	\$ 696	\$ 5,474

Aggregate amortization expense was \$973 thousand and \$329 thousand for the three months ended September 30, 2013 and 2012, respectively, and \$1.7 million and \$329 thousand for the nine months ended September 30, 2013 and 2012, respectively.

NOTE 9 FEDERAL HOME LOAN BANK ADVANCES

At September 30, 2013, all \$25.0 million of advances from the FHLB were fixed rate and had interest rates ranging from 0.59 percent to 0.82 percent with a weighted average rate of 0.73 percent. At December 31, 2012, \$63.0 million of the Bank's advances from the FHLB were fixed rate and had interest rates ranging from 0.28 percent to 0.82 percent with a weighted average rate of 0.47 percent. At December 31, 2012, \$12.0 million of advances from the FHLB were variable rate and had a weighted average interest rate of 0.28 percent as of that date.

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Each advance is payable at its maturity date. Advances paid early are subject to a prepayment penalty. At September 30, 2013 and December 31, 2012, the Bank's advances from the FHLB were collateralized by certain real estate loans with an aggregate unpaid principal balance of \$765.2 million and \$458.9 million, respectively, and by investment securities with a market value of \$56.5 million and none, respectively. The Bank's investment of capital stock of the FHLB of San Francisco totaled \$14.4 million and \$8.4 million, respectively, at September 30, 2013 and December 31, 2012. Based on this collateral and the Bank's holdings of FHLB stock, the Bank was eligible to borrow an additional \$527.4 million at September 30, 2013. In addition, the Bank had available lines of credit with the Federal Reserve Bank totaling \$156.9 million at September 30, 2013.

Table of Contents

NOTE 10 LONG TERM DEBT

On April 23, 2012, the Company completed the public offering of \$33.0 million aggregate principal amount of its 7.50 percent Senior Notes due April 15, 2020 (the Notes) at a price to the public of \$25.00 per Note. Net proceeds after discounts were approximately \$31.7 million. The Notes were issued under the Senior Debt Securities Indenture, dated as of April 23, 2012 (the Base Indenture), as supplemented by the First Supplemental Indenture, dated as of April 23, 2012 (the Supplemental Indenture, and together with the Base Indenture, the Indenture), between the Company and U.S. Bank National Association, as trustee.

On December 6, 2012, the Company completed the issuance and sale of an additional \$45.0 million aggregate principal amount of the Notes at a price to the public of \$25.00 per Note, plus accrued interest from October 15, 2012. Net proceeds after discounts, including a full exercise of the \$6.8 million underwriters' overallotment option on December 7, 2012, were approximately \$50.1 million.

The Notes are the Company's senior unsecured debt obligations and rank equally with all of the Company's other present and future unsecured unsubordinated obligations. The Notes bear interest at a per-annum rate of 7.50 percent. The Company makes interest payments on the Notes quarterly in arrears.

The Notes will mature on April 15, 2020. However, the Company may, at the Company's option, on April 15, 2015, or on any scheduled interest payment date thereafter, redeem the Notes in whole or in part on not less than 30 nor more than 60 days' prior notice. The Notes will be redeemable at a redemption price equal to 100 percent of the principal amount of the Notes to be redeemed plus accrued and unpaid interest to the date of redemption.

The Indenture contains several covenants which, among other things, restrict the Company's ability and the ability of the Company's subsidiaries to dispose of or incur liens on the voting stock of certain subsidiaries and also contains customary events of default.

NOTE 11 INCOME TAXES

For the three months ended September 30, 2013 and 2012, income tax benefit was \$710 thousand and \$1.1 million, respectively, and the effective tax rate was 7.7 percent and (13.2) percent, respectively. For the nine months ended September 30, 2013 and 2012, income tax expense (benefit) was \$1.7 million and \$(1.4) million, respectively, and the effective tax rate was (116.4) percent and (18.4) percent, respectively. The Company's effective tax rate increased due to increases in the deferred tax asset valuation allowances and other permanent detriments.

The Company accounts for income taxes by recognizing deferred tax assets and liabilities based upon temporary differences between the amounts for financial reporting purposes and tax basis of its assets and liabilities. A valuation allowance is established when necessary to reduce deferred tax assets when it is more-likely-than-not that a portion or all of the net deferred tax assets will not be realized. In assessing the realization of deferred tax assets, management evaluates both positive and negative evidence, including the existence of any cumulative losses in the current year and the prior two years, the amount of taxes paid in available carry-back years, the forecasts of future income, applicable tax planning strategies, and assessments of current and future economic and business conditions. This analysis is updated quarterly and adjusted as necessary. As of September 30, 2013, the Company had a net deferred tax asset of \$5.5 million, net of a \$12.3 million valuation allowance and as of December 31, 2012, the Company had a net deferred tax asset of \$7.6 million, net of an \$8.4 million valuation allowance. The net deferred tax asset as of September 30, 2013 and December 31, 2012 is supported by tax planning strategies.

The Company has adopted the provisions of ASC 740-10-25 (formally FIN 48), which relates to the accounting for uncertainty in income taxes recognized in an enterprise's financial statements on January 1, 2007. ASC 740-10-25 prescribes a threshold and a measurement process for recognizing in the financial statements a tax position taken or expected to be taken in a tax return and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. As of September 30, 2013 and December 31, 2012, the Company had no unrecognized tax benefits. In the event the Company is assessed interest and/or penalties by federal or state tax authorities, such amounts will be classified in the consolidated financial statements as income tax expense. At September 30, 2013 and December 31, 2012, the Company had no accrued interest or penalties. The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. The Company is no longer subject to examination by U.S. federal taxing authorities for years before 2009 (except for Gateway Bancorp's pre-acquisition federal tax return which is currently under examination by the Internal Revenue Service for the 2008 and 2009 tax years). The statute of limitations for the assessment of California franchise taxes has expired for tax years before 2008 (other state income and franchise tax statutes of limitations vary by state).

Table of Contents

Assessment of Deferred Tax Asset Valuation Allowances

The evaluation of the recoverability of the deferred tax asset and the need for a valuation allowance requires the Company to weigh all positive and negative evidence to reach a conclusion that is more likely than not that all or some portion of the deferred tax asset will not be realized. The weight given to the evidence is commensurate with the extent to which it can be objectively verified. The more negative evidence that exists, the more positive evidence is necessary and the more difficult it is to support a conclusion that a valuation allowance is not needed.

The Company's framework for assessing the recoverability of deferred tax assets weighs the projection of operating profitability, various prudent and feasible tax planning strategies, and cumulative pre-tax book losses over the prior 36 months. The framework requires the Company to consider all available evidence, including:

the predictability of future operating profitability of the character necessary to realize the deferred tax assets;

the nature, frequency, and severity of cumulative financial reporting losses in recent years;

the recognition of the gains and losses on business dispositions;

prudent and feasible tax planning strategies that would be implemented, if necessary, to protect against the loss of the deferred tax assets; and

the effect of reversing taxable temporary differences.

Despite several favorable developments, the Company cannot reasonably predict future operating profitability necessary to realize all of its deferred tax assets. Based on this evidence at September 30, 2013, the Company cannot yet overcome this significant negative evidence to assert at this time that the deferred tax asset will be realized in its entirety.

At September 30, 2013 and December 31, 2012, the valuation allowance was \$12.3 million and \$8.4 million, respectively.

NOTE 12 MORTGAGE BANKING ACTIVITIES

Banc Home Loans, formerly MHMB that was acquired in connection with the acquisition of Gateway, is a residential lending division of the Bank. Banc Home Loans originates single family mortgage loans and sells these loans in the secondary market. During the three months ended September 30, 2013, the mortgage operations unit expanded its platform to include wholesale and warehouse lending and added 8 new producing loan production offices. The amount of net gain on mortgage banking activities is a function of mortgage loans originated for sale and the fair value of these loans. Net gain on mortgage banking activities includes mark to market pricing adjustments on loan commitments and forward sales contracts, initial capitalized value of mortgage servicing rights (MSRs) and loan origination fees.

During the nine months ended September 30, 2013, Banc Home Loans originated \$1.39 billion of loans and sold \$1.25 billion of loans in the secondary market. The net gain and margin on these sales were \$29.6 million and 2.4 percent, respectively, and loan origination fees were \$8.8 million for the nine months ended September 30, 2013. In addition, we also had changes in amounts related to derivatives and the fair value of the mortgage loans held for sale. Changes in amounts related to loan commitments and forward sales commitments amounted to a net loss of \$5.0 million for the nine months ended September 30, 2013. The net change in the fair value of the loans held for sale was a net gain of \$12.9 million for the nine months ended September 30, 2013. The initial capitalized value of our MSRs totaled \$5.4 million on \$561.1 million of loans sold to Fannie Mae, Freddie Mac and Ginnie Mae for the nine months ended September 30, 2013. Other fee income associated with loan originations and sales, net of other adjustments, were \$1.2 million for the nine months ended September 30, 2013.

In addition to net gain on mortgage banking activities, the Company records provisions to the representation and warranty reserve representing our initial estimate of losses on probable mortgage repurchases or loss reimbursements. Provision for loan repurchases totaled \$1.4 million and \$172 thousand for the nine months ended September 30, 2013 and 2012.

Table of Contents*Mortgage Loan Repurchase Obligations*

Following is a summary of activity in the reserve for loss reimbursements on sold loans for the three and nine months ended September 30, 2013:

	Three months ended September 30,		Nine months ended September 30,

Provision for loan repurchases	375	172	1,363	172
Payments made for loss reimbursement on sold loans	(67)		(566)	
Balance, end of period	\$ 4,282	\$ 2,665	\$ 4,282	\$ 2,665

NOTE 13 RISK MANAGEMENT AND DERIVATIVE INSTRUMENTS

The Company uses derivative instruments and other risk management techniques to reduce its exposure to adverse fluctuations in interest rates in accordance with its risk management policies. The Company utilizes forward contracts and investor commitments to economically hedge mortgage banking products and may from time to time use interest rate swaps as hedges against certain liabilities.

On September 30, 2013, the Company entered into pay-fixed, receive-variable interest-rate swap contracts with institutional counterparties to hedge against variability in cash flows attributable to interest rate risk caused by changes in the LIBOR benchmark interest rate on the Company's ongoing LIBOR based variable rate deposits. The Company is accounting for the swaps as cash flow hedges under ASC 815. The notional amount of the interest rate swaps were \$50.0 million with a maturity date of September 27, 2018. The fair values of the interest rate swaps were zero as of September 30, 2013, the inception date of the swaps.

The Company originates residential real estate mortgage loans and generates revenues from the origination and sale of these loans. Although management closely monitors market conditions, such activities are sensitive to fluctuations in prevailing interest rates and real estate markets. As of September 30, 2013, approximately 85.6 percent of all properties securing loans held for sale were located in California. A change in the underlying economic conditions of the California residential real estate market could have an adverse impact on the Company's results of operations.

In connection with mortgage banking activities, if interest rates increase, the value of the Company's loan commitments to borrowers and fixed rate mortgage loans held-for-sale are adversely impacted. The Company attempts to economically hedge the risk of the overall change in the fair value of loan commitments to borrowers and mortgage loans held for sale by selling forward contracts on securities with government-sponsored enterprises (GSEs) and investors in loans. Forward contracts on securities of GSEs and loan commitments to borrowers are non-designated derivative instruments and the gains and losses resulting from these derivative instruments are included in net gain on mortgage banking activities in the accompanying consolidated statements of operations. At September 30, 2013, the resulting derivative asset of \$7.6 million and liability of \$5.9 million, are included in other assets and accrued expenses and other liabilities, respectively, on the accompanying consolidated statements of financial condition. At September 30, 2013, the Company had outstanding forward sales commitments totaling \$326.4 million. At September 30, 2013, the Company was committed to fund loans for borrowers of approximately \$181.3 million.

The net losses relating to free-standing derivative instruments used for risk management were \$4.3 million for the three and nine months ended September 30, 2013, and are included in net gain on mortgage banking activities in the consolidated statements of operations. Prior to the third quarter of 2012, the Company held no derivatives.

Table of Contents

The following table reflects the amount and market value of mortgage banking derivatives included in the consolidated statements of financial condition as of September 30, 2013 and December 31, 2012. Note 3, Fair Value of Financial Instruments, contains further disclosures pertaining to the fair value of mortgage banking derivatives.

	September 30, 2013		December 31, 2012

NOTE 14 STOCK COMPENSATION PLANS

Share-based Compensation Expense

For the three months ended September 30, 2013 and 2012, share-based compensation expense was \$446 thousand and \$578 thousand, respectively, and the related tax benefits were none and \$237 thousand, respectively. For the nine months ended September 30, 2013 and 2012, share-based compensation expense was \$1.3 million and \$1.1 million, respectively, and the related tax benefits were none and \$455 thousand, respectively.

On July 16, 2013, the Company's stockholders approved the Company's 2013 Omnibus Stock Incentive Plan (the 2013 Omnibus Plan). Upon the approval of the 2013 Omnibus Plan, no new awards may be granted under the Company's 2011 Omnibus Incentive Plan or any prior equity incentive plans. The 2013 Omnibus Plan provides that the aggregate number of shares of Company common stock that may be subject to awards under the 2013 Omnibus Plan will be 20 percent of the then outstanding shares of Company common stock (the Share Limit), provided that in no event will the Share Limit be less than the greater of 2,384,711 shares of Company common stock and the aggregate number of shares of Company common stock with respect to which awards have been properly granted under the 2013 Omnibus Plan up to that point in time. As of September 30, 2013, the Share Limit and available shares for future awards under the 2013 Omnibus Plan were 3,603,810 shares.

Unrecognized Share-based Compensation Expense

As of September 30, 2013, unrecognized share-based compensation expense was as follows:

	Unrecognized Expense	Average Expected Recognition Period
	<i>(\$ in thousands)</i>	
Stock option awards	\$ 953	2.5 years
Restricted stock awards	3,295	3.2 years
Total	\$ 4,248	3.0 years

Stock Options

The Company has issued stock options to certain employees, officers and directors. Stock options are issued at the current market price on the date of grant, and generally have provided for a three-year to five-year vesting period and contractual terms of 7 to 10 years.

Table of Contents

The following table represents stock option activity as of and for the three months ended September 30, 2013:

	Shares	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term	Aggregate Intrinsic Value <i>(In thousands)</i>
Outstanding at beginning of period	605,235	\$ 12.36	8.4 years	\$ 889

The following table represents changes in unvested stock options and related information as of and for the three and nine months ended September 30, 2013:

	Three months ended September 30, 2013		Nine months ended September 30, 2013	
	Shares	Weighted Average Exercise Price	Shares	Weighted Average Exercise Price
Non-vested options outstanding at beginning of period	328,334	\$ 12.16	233,334	\$ 11.75
Granted	100,000	\$ 13.60	200,000	\$ 13.36
Vested	(15,000)	\$ 12.24	(20,000)	\$ 12.14
Forfeited	(100,000)	\$ 13.60	(100,000)	\$ 13.60
Non-vested options outstanding at end of period	313,334	\$ 12.16	313,334	\$ 12.16

Restricted Stock Awards

Additionally, the Company also has granted restricted stock awards to certain employees, officers and directors. The restricted stock awards are valued at the closing price of the Company's stock on the date of award. The restricted stock awards fully vest after one to five years of continued employment from the date of grant. The Company recognizes an income tax deduction in an amount equal to the taxable income reported by the holders of the restricted stock, generally when vested.

Table of Contents

A summary of changes in the Company's nonvested shares for the three and nine months ended September 30, 2013 follows:

	Three months ended September 30, 2013		Nine months ended September 30, 2013	
	Shares	Weighted Average Grant Date Fair Value Per Share	Shares	Weighted Average Grant Date Fair Value Per Share
Non-vested shares outstanding at beginning of period	224,490	\$ 11.62	162,876	\$ 11.73
Granted	101,890	\$ 14.75	214,311	\$ 12.98
Vested	(17,621)	\$ 12.91	(50,901)	\$ 11.86
Forfeited	(808)	\$ 11.35	(18,335)	\$ 11.67
Non-vested shares outstanding at end of period	307,951	\$ 12.58	307,951	\$ 12.58

Stock Appreciation Right

On August 21, 2012, the Company granted to its chief executive officer a ten-year stock appreciation right (SAR) with respect to 500,000 shares (Initial SAR) of the Company's common stock with a base price of \$12.12 per share. Compensation expense for the SAR is recognized over the vesting period based on the fair value as calculated using Black Scholes as of the grant date and adjusted each quarter. The SAR will be settled in cash. One third of the SAR vested on the grant date, one third vested on the first anniversary of the grant date and one-third will vest on the second anniversary of the grant date such that the SAR will be fully vested on the second anniversary of the grant date. On June 21, 2013, a SAR with respect to an additional 150,933 shares (Additional SAR I) with a base price of \$13.00 per share was granted to the Company's chief executive officer pursuant to the anti-dilutive provision under his SAR agreement with the Company due to the Company's issuance on that date of shares of common stock in an underwritten public offering. On July 1, 2013 and July 2, 2013, SARs with respect to an additional 88,366 shares and 15,275 shares (Additional SARs II and III, respectively) with a base price of \$13.49 per share were granted to the Company's chief executive officer pursuant to his SAR agreement with the Company due to the Company's issuances on those dates of shares of common stock in connection with the completion of the PBOC acquisition and the exercise of the over-allotment option granted to the underwriters of the Company's public common stock offering initially completed on June 21, 2013. The Additional SARs have the same terms and conditions as the Initial SAR granted pursuant to the SAR agreement.

The weighted-average grant date fair value of all of the SARs was \$3.58 per share, or \$1.8 million, and the adjusted fair value as of September 30, 2013 was \$2.60 per share or \$1.3 million for the Initial SAR. The Additional SARs had adjusted fair values of \$2.27, \$2.09 and \$2.09 per share or \$342 thousand, \$185 thousand and \$32 thousand, respectively, for Additional SAR I, II and III as of September 30, 2013. Compensation expense recognized for the SARs was \$832 thousand and \$1.1 million for the three and nine months ended September 30, 2013, respectively. At September 30, 2013, there was \$272 thousand of total unrecognized compensation cost related to the unvested portion of the SARs. The unrecognized cost is expected to be recognized over a period of 11 months. The fair values of the SARs as of September 30, 2013 were determined using the following assumptions:

	September 30, 2013
SARs granted	754,574
Weighted average estimated fair value per share of SARs granted	\$ 12.48
Risk-free interest rate	0.56%
Expected term	2.75 years
Expected stock price volatility	29.43%
Dividend yield	3.78%

NOTE 15 SHAREHOLDERS' EQUITY

Warrants

On November 1, 2010, the Company issued warrants to TCW Shared Opportunity Fund V, L.P. for up to 240,000 shares of non-voting common stock at an exercise price of \$11.00 per share, subject to anti-dilutive adjustments. These warrants are exercisable from the date of issuance

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

through November 1, 2015. On November 1, 2010, the Company also issued warrants to COR Advisors LLC to purchase up to 1,395,000 shares of non-voting stock at an exercise price of \$11.00 per share, subject to anti-dilutive adjustments. These warrants are exercisable at the time of issuance based upon the additional shares issued and the anti-dilutive provisions set in the agreement and became fully exercisable at the time the anti-dilutive occurred. These warrants are exercisable for five years after the original vesting date. The warrants are exercisable for voting common stock in lieu of non-voting common stock following the transfer of the warrants in a widely disbursed offering or in other limited circumstances.

Table of Contents

On July 1, 2012, in connection with the Company's acquisition of Beach, the Company issued one-year warrants to purchase an aggregate of 1,401,959 shares of the Company's common stock at an exercise price of \$14.00 per share. All of the warrants expired on June 30, 2013 without being exercised. See Note 2, Business Combinations.

Common Stock

On June 21, 2013, the Company issued 2,268,000 shares of its voting common stock in an underwritten public offering for gross proceeds of approximately \$29.5 million and 1,153,846 shares of voting common stock to two institutional investors in a registered direct offering for gross proceeds of approximately \$15 million. On July 2, 2013, the Company issued an additional 360,000 shares of voting common stock upon the exercise in full by the underwriters of the underwritten public offering of their 30-day over-allotment option, for additional gross proceeds of approximately \$4.4 million.

Perpetual Preferred Stock

On June 12, 2013, in an underwritten public offering, the Company sold 1,400,000 depositary shares, each representing a 1/40th interest in a share of its 8.00 percent Non-Cumulative Perpetual Preferred Stock, Series C, par value \$0.01 per share and liquidation preference of \$1,000 per share, at an offering price of \$25.00 per depositary share, for gross proceeds of \$33.9 million. The Company also granted the underwriters a 30-day option to purchase up to an additional 210,000 depositary shares to cover over-allotments, if any, at the same price, for potential additional gross proceeds of \$5.1 million, which the underwriters exercised in full on July 8, 2013.

As discussed under Note 2, *Business Combinations and Branch Sales*, on July 1, 2013, the Company completed its previously announced acquisition of PBOC. Upon completion of the acquisition, each share of preferred stock issued by PBOC as part of the Small Business Lending Fund (SBLF) program of the United States Department of Treasury (10,000 shares in the aggregate with a liquidation preference amount of \$1,000 per share) was converted automatically into one substantially identical share of preferred stock of the Company with a liquidation preference amount of \$1,000 per share, designated as the Company's Non-Cumulative Perpetual Preferred Stock, Series B. The terms of the preferred stock issued by the Company in exchange for the PBOC preferred stock are substantially identical to the preferred stock previously issued by the Company as part of its own participation in the SBLF program (32,000 shares in aggregate with a liquidation preference amount of \$1,000 per share), designated as the Company's Non-Cumulative Perpetual Preferred Stock, Series A.

Table of Contents

NOTE 16 EARNINGS (LOSS) PER COMMON SHARE

Basic earnings (loss) per common share (EPS) is computed by dividing net income (loss) available to common shareholders by the weighted average number of shares outstanding. Diluted EPS is computed by dividing net income (loss) available to common shareholders by the weighted average number of shares outstanding, adjusted for the dilutive effect of the outstanding stock options, restricted stock awards, and warrants to purchase common stock. Computations for basic and diluted EPS are provided below.

	Three months ended September 30,					
	Common Stock	2013 Class B Common Stock	Total	Common Stock	2012 Class B Common Stock	Total

Add: Dilutive effects of stock awards	356					356
Average shares and dilutive potential common shares	13,197,764	880,284	14,078,048	10,604,992	1,072,896	11,677,888
Diluted (loss) earnings per common share	\$ (0.32)	\$ (0.32)	\$ (0.32)	\$ 0.70	\$ 0.70	\$ 0.70

For three and nine months ended September 30, 2013, there were 605,235 stock options and 754,574 warrants that were not considered in computing diluted earnings per common share, because they were anti-dilutive. For three and nine months ended September 30, 2012, there were 528,569 stock options and 3,036,959 warrants and 152,740 stock awards that were not considered in computing diluted earnings per common share, because they were anti-dilutive.

Table of Contents**NOTE 17 OFF-BALANCE SHEET COMMITMENTS**

Some financial instruments such as loan commitments, credit lines, letters of credit, and overdraft protection are issued to meet customer financing needs. These are agreements to provide credit or to support the credit of others, as long as conditions established in the contract are met, and usually have expiration dates. Commitments may expire without being used. Risk of credit loss exists up to the face amount of these instruments. The same credit policies are used to make such commitments as are used for loans, including obtaining collateral at exercise of the commitment.

The contractual amount of financial instruments with off-balance-sheet risk was as follows for the dates indicated:

	Contract Amount			
	September 30, 2013 Fixed Rate	Variable Rate	December 31, 2012 Fixed Rate	Variable Rate
	<i>(In thousands)</i>			
Financial instruments whose contract amounts represent credit risk				
Commitments to extend credit	\$ 73,072	\$ 26,776	\$ 52,883	\$ 21,317
Unused lines of credit	7,666	241,463	4,021	84,036
Standby letters of credit	10	6,275	10	1,396

Commitments to make loans are generally made for periods of 30 days or less.

As of September 30, 2013, the Company had total commitments to sell loans of \$249.5 million. Total commitments outstanding for the loans held for sale portfolio and IRLCs were \$235.9 million and \$13.8 million, respectively. For the loans held for sale commitments, \$225.5 million and \$10.4 million were mandatory commitments and best efforts commitments, respectively. Generally speaking, best efforts commitments do not have a financial penalty for non-delivery. As of September 30, 2013, the IRLCs commitments consisted of \$13.8 million best efforts commitments and \$167.5 million of mandatory commitments.

NOTE 18 RELATED-PARTY TRANSACTIONS

The Bank has granted loans to certain officers and directors and their related interests. Such loans amounted to none and \$9 thousand at September 30, 2013 and December 31, 2012, respectively.

Deposits from principal officers, directors, and their related interests amounted to \$13.3 million and \$11.4 million at September 30, 2013 and December 31, 2012, respectively.

On December 27, 2012, the Company entered into a Management Services Agreement (the *Services Agreement*) with CS Financial, Inc. (the *Consultant*), a Southern California-based mortgage banking firm controlled by Jeffrey T. Seabold, then a member of the Boards of Directors of the Company and Bank, and in which certain relatives and entities affiliated with relatives of Steven A. Sugarman, Chief Executive Officer of the Company and member of the Board of Directors of the Company and Bank, also own certain minority, non-controlling interests. Under the *Services Agreement*, CS Financial agreed to provide the Bank such reasonably requested financial analysis, management consulting, knowledge sharing, training services and general advisory services as the Bank and CS Financial mutually agreed upon with respect to the Bank's residential mortgage lending business, including strategic plans and business objectives, compliance function, monitoring, reporting and related systems, and policies and procedures, at a monthly fee of \$100,000. The *Services Agreement* was recommended by disinterested members of management of the Bank and negotiated and approved by special committees of the Board of Directors of each of the Company and the Bank (the *Special Committees*), comprised exclusively of independent, disinterested directors of the Boards. Each of the Boards of Directors of the Bank and the Company also considered and approved the *Services Agreement*, upon the recommendation of the *Special Committees*. On May 13, 2013, the Bank hired Mr. Seabold as Managing Director of its residential lending division and entered into a three-year employment agreement with Mr. Seabold. Simultaneously, the Bank terminated, with immediate effect, its *Services Agreement* with the *Consultant*. For the three and nine months ended September 30, 2013, total compensation paid to CS Financial Inc. amounted to none and \$439 thousand, respectively.

Table of Contents

NOTE 19 SUBSEQUENT EVENTS

Merger of the Company's Two Banking Subsidiaries

On October 11, 2013, the Company announced the completion of the merger of the Company's two banking subsidiaries, Pacific Trust Bank and The Private Bank of California, into a single bank with a national bank charter issued by the Office of the Comptroller of the Currency, named Banc of California, National Association.

Completion of Branch Sales

As discussed under Note 2, *Business Combinations and Branch Sales*, on May 31, 2013, the Bank entered into a definitive agreement with AmericanWest Bank, a Washington state chartered bank (AWB), pursuant to which the Bank has agreed to sell eight branches and related assets and deposit liabilities to AWB. This transaction was completed on October 4, 2013. The transaction will result in the transfer of deposits to AWB in exchange for a blended deposit premium of 2.3 percent applied to certain deposit balances transferred at closing approximating \$10.7 million. The transferred deposits totaled approximately \$464.3 million as of October 4, 2013. Certain other assets related to the branches were sold to AWB as a part of the transaction including the sale of the real estate for three of the branch locations and certain overdraft and other credit facilities related to the deposit accounts.

The sale of these branches is a key part of the Bank's ongoing effort to improve its overall efficiency and profitability and to reshape the Bank's retail branch network to focus on servicing small to mid-sized businesses and high net worth families throughout Los Angeles, Orange and San Diego Counties.

Closing of CS Financial Acquisition

As previously disclosed and as discussed under Note 18, *Related Party Transactions*, on May 13, 2013, the Bank entered into an employment agreement (the *Employment Agreement*) with Jeffrey T. Seabold pursuant to which Mr. Seabold granted to the Company and Bank an option (the *Call Option*), to acquire CS Financial, Inc. (*CS Financial*), a Southern California-based mortgage banking firm controlled by Mr. Seabold, for a purchase price of \$10 million, payable pursuant to the terms provided under the *Employment Agreement*. Based upon the recommendation of the special committees of independent, disinterested directors of the Board of Directors of each of the Company and Bank (the *Special Committees*), with the assistance of outside financial and legal advisors and consultants, the Boards of Directors of the Company and Bank, with Mr. Steven A. Sugarman, Chief Executive Officer of the Company recusing himself from the discussions and vote due to previously disclosed conflicts of interest, approved the recommendation of the *Special Committees* and, pursuant to a letter dated July 29, 2013, the Company indicated that the *Call Option* was being exercised by the Bank, subject to the negotiation and execution of definitive transaction documentation consistent with the applicable provisions of the *Employment Agreement* and the satisfaction of the terms and conditions set forth therein. The Company completed its acquisition of CS Financial on October 31, 2013.

ITEM 2 MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion compares the consolidated financial condition of Banc of California, Inc. (the Company or we, us and our), at September 30, 2013, to its financial condition at December 31, 2012, and the results of operations for the three and nine months ended September 30, 2013 and 2012. This discussion should be read in conjunction with the unaudited interim consolidated financial statements and footnotes included herein.

The Company is the bank holding company of Banc of California, National Association (the Bank). The Company derives substantially all of its revenues from the retail, commercial, and mortgage banking services provided by the Bank.

The Company's assets consist primarily of loans and investment securities, which are funded by deposits, borrowings and capital. The primary source of revenue is net interest income, the difference between interest income on loans and investments, and interest expense on deposits and borrowed funds. The Company also generates non-interest income by providing fee based banking services and by the origination and sale of conventional conforming and FHA/VA residential mortgage loans to the secondary market. The Company's basic strategy is to maintain and grow net interest income and non-interest income by the retention of its existing customer base and the expansion of its core businesses and branch offices within its current market and plans to expand its banking offices further into Southern California and its loan production offices throughout the western United States. The Company's primary market risk exposure is interest rate risk and credit risk.

CRITICAL ACCOUNTING POLICIES

Our financial statements are prepared in accordance with GAAP and general practices within the banking industry. Within these financial statements, certain financial information contains approximate measurements of financial effects of transactions and impacts at the Consolidated Statements of Financial Condition dates and our results of operations for the reporting period. As certain accounting policies require significant estimates and assumptions that have a material impact on the carrying value of assets and liabilities, we have established critical accounting policies to facilitate making the judgment necessary to prepare financial statements. Our critical accounting policies are described in "Notes to Consolidated Financial Statements" in our Annual Report on Form 10-K in the "Critical Accounting Policies" section of Management's Discussion and Analysis of Financial Condition and Results of Operations and in Note 1 to the Consolidated Financial Statements, "Significant Accounting Policies."

EXECUTIVE OVERVIEW

This overview of management's discussion and analysis highlights selected information in the financial results of the Company and may not contain all of the information that is important to you. For a more complete understanding of trends, commitments, uncertainties, liquidity, capital resources and critical accounting policies and estimates, you should carefully read this entire document. Each of these items could have an impact on the Company's consolidated financial condition and results of operations.

The Company announced July 16, 2013 that its corporate name was changed from First PacTrust Bancorp, Inc. to Banc of California, Inc. The new name is intended to reflect the Company's goal to be the leading community banking organization serving businesses and families in California.

On July 1, 2013, the Company completed its previously announced acquisition of The Private Bank of California (PBOC). The acquisition was accomplished by merging PBOC into Beach Business Bank (Beach), a wholly owned subsidiary of the Company. Upon completion of the transaction, Beach was renamed The Private Bank of California. On October 11, 2013, the Company merged PBOC, a California-chartered bank, with the Company's other banking subsidiary, Pacific Trust Bank, a federal savings bank, to form the Bank, which has a national bank charter issued by the Office of the Comptroller of the Currency. Unless the context indicates otherwise, references to the Bank prior to October 11, 2013 mean Pacific Trust Bank and PBOC (Beach prior to July 1, 2013), collectively, and references to the Bank on or after October 11, 2013 refer to Banc of California, National Association.

In connection with the rebranding and renaming of the Company and the Bank, the Bank's residential lending divisions Mission Hills Mortgage Bankers and PacTrust Home Mortgage were consolidated and rebranded under a single national brand, Banc Home Loans. As a division of Banc of California, Banc Home Loans will be positioned to leverage all of the products and resources of the Bank as Banc Home Loans seeks to establish a national presence as a leading provider and innovator in the residential lending business.

As a bank holding company, the Company generally is prohibited from acquiring direct or indirect ownership or control of more than 5 percent of the voting shares of any company which is not a bank or bank holding company, or from engaging directly or indirectly in activities other than those of banking, managing or controlling banks, or providing services for its subsidiaries. The principal exceptions to these prohibitions involve certain non-bank activities which, by statute or by regulation or order of the Federal Reserve Board, have been identified as activities closely related to the business of banking or managing or controlling banks.

The Bank is a community-oriented financial institution offering a variety of financial services to meet the banking and financial needs of the communities the Bank serves. The Bank is headquartered in Orange County, California. As of September 30, 2013, the Bank operated twenty-three banking offices in San Diego, Riverside, Orange, and Los Angeles Counties in California and 50 producing loan production offices in California, Arizona, Oregon, Washington and Montana. On October 4, 2013, eight of the Bank's banking offices were sold to AmericanWest Bank. The sale of these banking offices is a key part of the Bank's ongoing effort to improve its overall efficiency and profitability and to reshape the Bank's retail branch network to focus on servicing small to mid-sized businesses and high net worth families throughout Los Angeles, Orange and San Diego Counties.

The principal business of the Bank consists of attracting deposits from the general public and investing these funds primarily in loans secured by first mortgages on owner-occupied, one-to-four SFR residences, a variety of consumer loans, multi-family and commercial real estate and commercial business loans. The Bank offers a variety of deposit accounts for both individuals and businesses with varying rates and terms, which generally include savings accounts, money market deposits, certificate accounts and checking accounts. The Bank solicits deposits in its market area and, to a lesser extent, from institutional depositors nationwide, and in the past has accepted brokered deposits. Banc Home Loans, the Bank's residential lending division, operates 50 producing loan production offices and focuses on originating and selling mortgage loans. The Bank also provides SBA loans, as member of the SBA's Preferred Lender Program. In addition, the acquisition of PBOC gave the Company the ability to offer specialized private banking services to high net worth individuals, family owned businesses, entrepreneurs, law firms, the entertainment business and others who require a very high level of personalized banking services and customized solutions.

During the three months ended September 30, 2013, the Company purchased a certain improved real property office complex located at 1588 South Coast Drive, Costa Mesa, California (the Property) at a purchase price of approximately \$40.0 million. The Property is under construction for improvement and will be used for the Company's main office in the future.

Growth Strategies

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Expand our franchise through acquisitions or the establishment of de novo branches or banks in markets that offer regional continuity, such as the greater Southern California market and other western markets. The plan is to develop a scalable and

Table of Contents

meaningful platform for retail bank relationships, residential lending infrastructure and commercial banking development, to which the Company added 8 new producing loan production offices during the three months ended September 30, 2013. In addition, the Company closed the PBOC transaction on July 1, 2013.

Continue as a public company with a common stock that is quoted and traded on a national stock market. In addition to providing access to growth capital, we believe a public currency provides flexibility in structuring acquisitions and will allow us to attract and retain qualified management through equity-based compensation.

Expand our commercial business loan portfolio to diversify both our customer base and maturities of the loan portfolio and to benefit from the low cost deposits associated with individual accounts and the professional, general business, private banking and service industries that are common commercial borrowers. The Company successfully completed two acquisitions in 2012 and one acquisition in 2013 that includes a team of local commercial lending officers which has given us a greater network and far greater capacity to attract commercial and private banking relationships. The Company will seek to continue to develop its commercial lending loans through strategic lift outs of lending teams in various geographic markets that have particular business niches and specialty .

Diversify the residential lending platform through additional lending channels such as correspondent lending, warehouse lending and wholesale lending, which will result in expanding production sources and broadening our own product mix and geographic concentration. As a result of our 2012 Gateway acquisition, the Bank acquired a well-established mortgage banking platform (Mission Hills Mortgage Banking or MHMB). The platform provided us with 22 loan production offices in California, Arizona, Oregon and Washington. The Company has opened 28 additional loan production offices subsequent to the acquisition as of September 30, 2013 for a total of 50 producing loan production offices.

Enhance the residential lending product mix and loan sale alternatives with Ginnie Mae approval to originate qualified loans that are subsequently sold as mortgage backed securities with a full government credit guaranty. The Bank originated and sold \$97.3 million to Ginnie Mae during the third quarter of 2013.

Increase our SBA production. SBA loans provide us an option to portfolio or to sell the guaranteed portion of loans in the secondary market. The 2012 acquisitions of Beach and Gateway provided us with a well-established SBA platform from which to grow. With centralized underwriting in Southern California and strong marketing personnel, we anticipate both interest income and non-interest income from SBA production will continue to increase in the near term and become a stable source of recurring income.

Purchases of seasoned SFR mortgage loan pools. The Company completed three acquisitions of seasoned SFR mortgage loan pools during 2012 and acquired five pools during the nine months ended September 30, 2013 at a discount to both the current property value of the collateral and the note balance. As of September 30, 2013, the total unpaid principal balance and carrying values of these eight pools was \$927.9 million and \$789.5 million, respectively. The Company intends to continue the purchase and strategic sale of such loans where management believes it can obtain an attractive risk adjusted return as part of our portfolio diversification strategy.

Continue to grow our commercial real estate lending by leveraging the backgrounds and contacts of our experienced lending officers to expand market share.

Develop an expertise and core competency in the integration of the Company's community bank acquisition strategy to maximize utilization of banking expertise obtained in acquisitions from personnel. The Company also is investing in its infrastructure to have the ability to scale efficiently and effectively in line with our long-term goal of creating a complete community banking franchise.

The comparability of the Company's operating results for the three and nine months ended September 30, 2013 and 2012 is significantly impacted by the Company's acquisitions of PBOC during the third quarter of 2013 and Beach and Gateway during the third quarter of 2012, as

well as the seasoned SFR mortgage loan pool purchases and sales in 2012 and 2013.

Table of Contents

RESULTS OF OPERATIONS

	Three Months Ended September 30,		Increase (Decrease)	
	2013	2012	Amount	Percentage
	<i>(\$ in thousands)</i>			
Net interest income	\$ 26,943	\$ 14,408	\$ 12,535	87.0%

Noninterest income	18,226	19,512	(1,286)	-6.6%
Noninterest expense	(52,304)	(24,456)	(27,848)	113.9%
Income tax (expense) benefit	710	1,110	(400)	-36.0%
Net income (loss)	(8,534)	9,543	(18,077)	189.4%
Preferred stock dividends	(946)	(328)	(618)	188.4%
Net income (loss) available to common shareholders	\$ (9,480)	\$ 9,215	\$ (18,695)	202.9%

For the three months ended September 30, 2013, the Company recorded a net loss of \$8.5 million, a decrease of \$18.1 million from a net income of \$9.5 million for the three months ended September 30, 2012. Preferred stock dividends were \$946 thousand and \$328 thousand for the three months ended September 30, 2013 and 2012, respectively, and net (loss) income available to common shareholders was \$(9.5) million and \$9.2 million for the three months ended September 30, 2013 and 2012, respectively.

	Nine Months Ended September 30,		Increase (Decrease)	
	2013	2012	Amount	Percentage
	<i>(\$ in thousands)</i>			
Net interest income	\$ 63,927	\$ 31,715	\$ 32,212	101.6%
Provision for loan and leases losses	(6,195)	(2,001)	(4,194)	209.6%
Noninterest income	62,226	20,654	41,572	201.3%
Noninterest expense	(121,456)	(42,617)	(78,839)	185.0%
Income tax (expense) benefit	(1,744)	1,430	(3,174)	-222.0%
Net income (loss)	(3,242)	9,181	(12,423)	135.3%
Preferred stock dividends	(1,234)	(1,042)	(192)	18.4%
Net income (loss) available to common shareholders	\$ (4,476)	\$ 8,139	\$ (12,615)	155.0%

For the nine months ended September 30, 2013, the Company recorded a net loss of \$3.2 million, a decrease of \$12.4 million from a net income of \$9.2 million for the nine months ended September 30, 2012. Preferred stock dividends were \$1.2 million and \$1.0 million for the nine months ended September 30, 2013 and 2012, respectively, and net (loss) income available to common shareholders was \$(4.5) million and \$8.1 million for the three months ended September 30, 2013 and 2012, respectively.

Net Interest Income

For the three months ended September 30, 2013, net interest income increased by \$12.5 million, or 87.0 percent, to \$26.9 million, compared to \$14.4 million for the three months ended September 30, 2012. The increase in net interest income from 2012 to 2013 was primarily attributable to the increase in loan interest income from the loan growth, loans acquired in connection with the PBOC acquisition and purchases of seasoned SFR mortgage loan pools, partially offset by the increase in interest expense from a larger balance sheet, a full quarter of interest expense associated with the long term debt issued in December 2012, and the mix and higher pricing of deposits. Net interest margin decreased by 0.72 basis points to 3.25 percent for the three months ended September 30, 2013 from 3.97 percent for the three months ended September 30, 2012 as a result of decreasing yields on loans and earning assets, higher pricing of deposits with a larger balance average balance and a high cost on the long term debt. In an effort to increase core deposits, the Bank introduced a premier deposit program that has more aggressive pricing and

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

slightly above market rates during the fourth quarter of 2012.

For the nine months ended September 30, 2013, net interest income increased by \$32.2 million, or 101.6 percent, to \$63.9 million, compared to \$31.7 million for the nine months ended September 30, 2012. The increase in net interest income from 2012 to 2013 was primarily attributable to the increase in loan interest income from the loan growth, loans acquired in connection with the PBOC acquisition and purchases of seasoned SFR mortgage loan pools, partially offset by the increase in interest expense from a larger balance sheet, a full nine month-period of interest expense associated with the long term debt issued in April and December 2012, and the mix and higher pricing of deposits. Net interest margin decreased by 10 basis points to 3.56 percent for the nine months ended September 30, 2013 from 3.66 percent for the nine months ended September 30, 2012 as a result of higher pricing of deposits with a larger balance average balance and a high cost on the long term debt.

Table of Contents

The following table shows the average balances of assets, liabilities and shareholders' equity; the amount of interest income and interest expense; the average yield or rate for each category of interest-earning assets and interest-bearing liabilities; and the net interest spread and the net interest margin for the three months ended September 30, 2013 and 2012:

	Three months ended September 30,

Capital lease obligations	25	19	6
Long-term debts	1,076	1,022	54
Total interest-bearing liabilities	4,589	4,173	416
Net interest income	\$ 12,535	\$ 18,278	\$ (5,743)

Interest income increased by \$17.1 million, or 102.4 percent, to \$33.8 million for the three months ended September 30, 2013, compared to \$16.7 million for the three months ended September 30, 2012. The increase in interest income was primarily due to a \$16.1 million increase in interest on loans receivable, \$584 thousand increase in interest on securities and \$407 thousand increase in other interest-earning assets.

The increase in interest on loans receivable was due mainly to the seasoned SFR mortgage loan pool purchases of \$1.02 billion during the nine months ended September 30, 2013 and loan growth associated with the PBOC acquisition. The Company continues to evaluate potential purchases of seasoned SFR mortgage loans priced at an attractive discount.

Average gross loans receivable increased by \$1.33 billion, or 111.3 percent, to \$2.53 billion for the three months ended September 30, 2013, compared to \$1.20 billion for the three months ended September 30, 2012. Yield on average loans receivable decreased by 0.26 basis points to 5.03 percent for the three months ended September 30, 2013, compared to 5.29 percent for the three months ended September 30, 2012. The decrease in yield on average gross loans was due mainly to a large increase in mortgage loans, which generally have lower interest rates than other commercial loans. For the nine months ended September 30, 2013, mortgage loan growth drove 70.6 percent of total loan increase of \$1.35 billion. The decrease was partially offset by the attractive yield associated with the seasoned SFR mortgage loan pools. The effective yield on the purchased portfolios of seasoned SFR mortgage loans was 7.15 percent and 12.93 percent, and total interest income recorded from purchased loan pools was \$8.1 million and \$1.7 million, which includes discount accretion of \$4.2 million and \$770 thousand for the three months ended September 30, 2013 and 2012, respectively.

Interest expense increased \$4.6 million, or 198.3 percent, to \$6.9 million for the three months ended September 30, 2013, compared to \$2.3 million for the three months ended September 30, 2012. The increase in interest expenses was primarily due to increases in interest-bearing deposits and long-term debt interest expense. During the fourth quarter of 2012, the Bank introduced a premier deposit program that has a more

aggressive pricing and slightly above market rates.

Interest expense on interest-bearing deposits increased \$3.5 million, or 222.2 percent, to \$5.1 million for the three months ended September 30, 2013, compared to \$1.6 million for the three months ended September 30, 2012, due mainly to an increase in deposits through the acquisition of PBOC and management's successful strategy to increase core deposits. As a result of the relationship core deposit campaign commenced by the Bank, core deposits, defined as a sum of noninterest-bearing demand deposits, interest-bearing demand deposits, money market accounts and savings, increased \$1.99 billion, or 300.1 percent, to \$2.66 billion at September 30, 2013 from \$663.6 million at December 31, 2012.

Table of Contents

Average long-term debt increased by \$48.9 million, or 143.7 percent, to \$82.9 million for the three months ended September 30, 2013, compared to \$34.0 million for the three months ended September 30, 2012, due mainly to the additional long term debt raised for aggregate principal amounts of \$51.8 million during the three months ended December 31, 2012.

The following table shows the average balances of assets, liabilities and shareholders' equity; the amount of interest income and interest expense; the average yield or rate for each category of interest-earning assets and interest-bearing liabilities; and the net interest spread and the net interest margin for the nine months ended September 30, 2013 and 2012:

Capital lease obligations	55	49	6
Long-term debts	4,051	3,995	56
Total interest-bearing liabilities	10,118	9,745	373
Net interest income	\$ 32,212	\$ 30,294	\$ 1,918

Interest income increased by \$42.3 million, or 113.1 percent, to \$79.8 million for the nine months ended September 30, 2013, compared to \$37.4 million for the nine months ended September 30, 2012. The increase in interest income was primarily due to a \$41.7 million increase in interest on loans receivable and \$619 thousand increase in other interest-earning assets.

The increase in interest on loans receivable was due mainly to the seasoned SFR mortgage loan pool purchases of \$1.20 billion during the nine months ended September 30, 2013 and other loan purchases of \$66.7 million during the second half of 2012 along with loan growth associated with the business acquisitions. The Company continues to evaluate potential purchases of seasoned SFR mortgage loans priced at an attractive discount.

Average gross loans receivable increased by \$980.4 million, or 102.7 percent, to \$1.93 billion for the nine months ended September 30, 2013, compared to \$954.2 million for the nine months ended September 30, 2012. Yield on average loans receivable also increased by 39 basis points to 5.30 percent for the nine months ended September 30, 2013, compared to 4.91 percent for the nine months ended September 30, 2012. The increase in yield on average gross loans was due mainly to the attractive yield associated with the seasoned SFR mortgage loan pools. The effective yield on the purchased portfolios of seasoned SFR mortgage loans was 8.25 percent and 11.89 percent and total interest income recorded from purchased loan pools was \$20.1 million and \$2.7 million, which includes discount accretion of \$11.9 million and \$1.2 million, for the nine months ended September 30, 2013 and 2012, respectively.

The decrease in interest on securities was due mainly to a continuous reduction of the reinvestment rate from the current low interest rate environment.

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Interest expense increased \$10.1 million, or 177.2 percent, to \$15.8 million for the nine months ended September 30, 2013, compared to \$5.7 million for the nine months ended September 30, 2012. The increase in interest expenses was primarily due to increases in interest-bearing deposits and long-term debt interest expense.

Interest expense on interest-bearing deposits increased \$6.1 million, or 142.4 percent, to \$10.4 million for the nine months ended September 30, 2013, compared to \$4.3 million for the nine months ended September 30, 2012, due mainly to an increase in deposits through the business acquisitions and management's strategy to increase core deposits during 2013.

Table of Contents

Average long-term debt increased by \$64.3 million, or 331.2 percent, to \$83.7 million for the nine months ended September 30, 2013, compared to \$19.4 million for the nine months ended September 30, 2012, due mainly to an additional long term debt raised for aggregate principal amount \$51.8 million during the three months ended December 31, 2012.

Provision for Loan and Lease Losses

The Company maintains an allowance for loan and lease losses to absorb probable expected losses presently inherent in the loan and lease portfolio. The allowance is based on ongoing assessments of the estimated probable losses presently inherent in the loan and lease portfolio. In evaluating the level of the allowance for loan and lease losses, management considers the types of loans and leases and the amount of loans and leases in the loan portfolio, peer group information, historical loss experience, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing economic conditions. The Company currently takes into account many factors, including the Company's own historical and peer loss trends, loan and lease-level credit quality ratings, loan and lease specific attributes along with a review of various credit metrics and trends. In addition, the Company uses adjustments for numerous factors including those found in the Interagency Guidance on Allowance for Loan and Lease Losses, which include current economic conditions, loan and lease seasoning, underwriting experience, and collateral value changes among others. The Company evaluates all impaired loans and leases individually, primarily through the evaluation of cash flows or collateral values. Management uses available information to recognize loan and lease losses, however, future loan and lease loss provisions may be necessary based on changes in the above mentioned factors. In addition, regulatory agencies, as an integral part of their examination process, periodically review the allowance for loan and lease losses and may require the Bank to recognize additional provisions based on their judgment of information available to them at the time of their examination. The allowance for loan and lease losses as of September 30, 2013 was maintained at a level that represented management's best estimate of incurred losses in the loan and lease portfolio to the extent they were both probable and reasonably estimable as of the balance sheet date. This evaluation is inherently subjective as it requires estimates that are susceptible to significant revision as more information becomes available or as future events change. During the nine months ended September 30, 2013, the Company acquired five pools of loans which were partially ASC 310-30 loans. During the nine months ended September 30, 2013, there was no provision for loan and lease losses or allowance for loan and lease losses related to these pools as these loans were acquired at 16.9 percent discount to the aggregated unpaid principal balances and there was no impairment on these pools. The Company may recognize provision for loan and lease losses in the future should there be further deterioration in these loans after the purchase date should the impairment exceed the non-accretable yield.

Provisions for loan and lease losses are charged to operations at a level required to reflect probable incurred credit losses in the loan and lease portfolio. In this regard, a majority of the Company's loans and leases are to individuals and businesses in Southern California. During the three months ended September 30, 2013 and 2012, the Company provided \$2.1 million and \$1.0 million, respectively, and during the nine months ended September 30, 2013 and 2012, the Company provided \$6.2 million and \$2.0 million, respectively, to its provision for loan and lease losses. The increase in 2013 related primarily to general reserve allocations on new loan and lease originations and impairments on seasoned SFR mortgage loan pools and PCI loans related to the Beach and Gateway acquisitions. On a quarterly basis, the Company evaluates the PCI loans relating to the Beach Business Bank and Gateway Business Bank acquisitions and the loan pools for potential impairment. We had none and \$929 thousand provision for loan losses for the three and nine months ended September 30, 2013, respectively. There was no impairment on PCI loans in 2012. The provision for losses on these loans is the result of changes in expected cash flows, both amount and timing, due to loan payments and the Company's revised loss forecasts. The revisions of the loss forecasts were based on the results of management's review of the credit quality of the outstanding loans/loan pools and the analysis of the loan performance data since the acquisition of these loans. The Company will continue updating cash flow projections on PCI loans on a quarterly basis. Due to the uncertainty in the future performance of the PCI loans, additional impairments may be recognized in the future.

Table of Contents**Noninterest Income**

The following table sets forth the breakdown of non-interest income for the three months ended September 30, 2013 and 2012:

	Three Months Ended September 30,		Increase (Decrease)	
	2013	2012	Amount	Percentage
	<i>(\$ in thousands)</i>			
Customer service fees	\$ 621	\$ 543	\$ 78	14.4%
Loans servicing income	293	146	147	100.7%
Income from bank owned life insurance	42	69	(27)	-39.1%
Net gain (loss) on sale of securities available for sale	10	(12)	22	183.3%
Net gain on sale of loans	484	59	425	720.3%
Net gain on mortgage banking activities	16,231	5,546	10,685	192.7%
Bargain purchase gain		12,055	(12,055)	-100.0%
Other income	545	1,106	(561)	-50.7%
Total noninterest income	\$ 18,226	\$ 19,512	\$ (1,286)	-6.6%

Noninterest income decreased \$1.3 million to \$18.2 million for the three months ended September 30, 2013 compared to \$19.5 million for the three months ended September 30, 2012, primarily due to a bargain purchase gain of \$12.1 million recognized from the Company's acquisition of Gateway during the three months ended September 30, 2012, partially offset by a \$10.7 million increase in mortgage banking related income.

Customer service fees, which consist of deposit product related service charges, increased by \$78 thousand, or 14.4 percent, to \$621 thousand for the three months ended September 30, 2013, compared to \$543 thousand for the three months ended September 30, 2012 due mainly to increases in transaction deposit accounts.

Loans servicing income increased by \$147 thousand, or 100.7 percent, to \$293 thousand for the three months ended September 30, 2013, compared to \$146 thousand for the three months ended September 30, 2012 due mainly to an increase in servicing retained sold mortgage loans. The unpaid principal balance of these loans were \$760.8 million and \$202.0 million at September 30, 2013 and 2012, respectively.

Net gain on sale of loans increased by \$425 thousand, or 720.3 percent, to \$484 thousand for the three months ended September 30, 2013, compared to \$59 thousand for the three months ended September 30, 2012, due mainly to an increase in sales of other loans that were originated by divisions other than MHMB of the Bank's residential lending division. For the three months ended September 30, 2013, the Bank sold \$64.0 million of loans.

The Company reported \$16.2 million in net gain on mortgage banking activities related to the MHMB division of the Bank. MHMB originates single family residential mortgage loans and sells these loans in the secondary market. The amount of net gain on mortgage banking activities is a function of mortgage loans originated for sale and the fair value of these loans. Net gain on mortgage banking activities includes mark to market pricing adjustments on loan commitments and forward sales contracts, initial capitalized value of mortgage servicing rights (MSRs) and loan origination fees.

For the three months ended September 30, 2013, MHMB originated \$521.0 million in loans and sold \$517.5 million of loans in the secondary market. The net gain and margin on these sales were \$5.7 million and 1.1 percent, respectively, and loan origination fees were \$3.8 million for the three months ended September 30, 2013. In addition, we also had changes in amounts related to derivatives and the fair value of the mortgage loans held for sale. Changes in amounts related to loan commitments and forward sales commitments amount to a net loss of \$11.8 million for the three months ended September 30, 2013. The net change in the fair value of the loans held for sale was a net gain of \$11.4 million for the three months ended September 30, 2013. The initial capitalized value of our MSRs totaled \$2.8 million on \$304.1 million of loans sold servicing retained to Fannie Mae, Freddie Mac and Ginnie Mae for the three months ended September 30, 2013. Other fee income associated with loan originations and sales, net of other adjustments, was \$4.3 million for the three months ended September 30, 2013.

Table of Contents

The following table sets forth the breakdown of non-interest income for the nine months ended September 30, 2013 and 2012:

	Nine Months Ended September 30,		Increase (Decrease)	
	2013	2012	Amount	Percentage
	(\$ in thousands)			
Customer service fees	\$ 1,676	\$ 1,282	\$ 394	30.7%
Loans servicing income	939	146	793	543.2%
Income from bank owned life insurance	130	198	(68)	-34.3%
Net gain (loss) on sale of securities available for sale	319	(83)	402	484.3%
Net gain on sale of loans	4,520	204	4,316	2115.7%
Net gain on mortgage banking activities	52,862	5,546	47,316	853.2%
Bargain purchase gain		12,055	(12,055)	-100.0%
Other income	1,780	1,306	474	36.3%
Total noninterest income	\$ 62,226	\$ 20,654	\$ 41,572	201.3%

Noninterest income increased \$41.6 million to \$62.2 million for the nine months ended September 30, 2013 compared to \$20.7 million for the nine months ended September 30, 2012, primarily due to a \$47.3 million increase mortgage banking related income, a \$4.3 million increase in net gain on sale of loans, a \$793 thousand increase in loans servicing income, a \$394 thousand increase in customer service fees, partially offset by a \$12.1 million bargain purchase gain recognized for the three months ended September 30, 2012 from the acquisition of Gateway.

Customer service fees, which consist of deposit product related service charges, increased by \$394 thousand, or 30.7 percent, to \$1.7 million for the nine months ended September 30, 2013, compared to \$1.3 million for the nine months ended September 30, 2012 due mainly to increases in transaction deposit accounts.

Net gain on sale of securities available for sale increased as a result of the Company's decision to sell \$127.0 million of securities during the nine months ended September 30, 2013.

Net gain on sale of loans increased \$4.3 million due primarily to net gain of \$3.4 million recognized from a sale of seasoned SFR mortgage pools with total outstanding unpaid principal balance of \$162.2 million and a carrying value of \$100.6 million, plus accrued interest, and increase of sales of \$156.4 million loans originated by divisions other than MHMB during the nine months ended September 30, 2013.

The Company reported \$52.9 million in net gain on mortgage banking activities related to the MHMB division of the Bank. MHMB originates single family residential mortgage loans and sells these loans in the secondary market. The amount of net gain on mortgage banking activities is a function of mortgage loans originated for sale and the fair value of these loans. Net gain on mortgage banking activities includes mark to market pricing adjustments on loan commitments and forward sales contracts, initial capitalized value of mortgage servicing rights (MSRs) and loan origination fees.

For the nine months ended September 30, 2013, the MHMB mortgage operations unit has originated \$1.39 billion of loans and sold \$1.25 billion of loans in the secondary market. The net gain and margin on these sales were \$29.6 million and 2.4 percent, respectively, and loan origination fees were \$8.8 million for the nine months ended September 30, 2013. In addition, we also had changes in amounts related to derivatives and the fair value of the mortgage loans held for sale. Changes in amounts related to loan commitments and forward sales commitments amounted to a net loss of \$5.0 million for the nine months ended September 30, 2013. The net change in the fair value of the loans held for sale was a net gain of \$12.9 million for the nine months ended September 30, 2013. The initial capitalized value of our MSRs, which totaled \$5.4 million on \$561.1 million of loans sold to Fannie Mae, Freddie Mac and Ginnie Mae for the nine months ended September 30, 2013. Other fee income associated with loan originations and sales, net of other adjustments, were \$1.2 million for the nine months ended September 30, 2013.

Table of Contents**Noninterest Expense.**

The following table sets forth the breakdown of non-interest expense for the three months ended September 30, 2013 and 2012:

	Three Months Ended September 30,		Increase (Decrease)	
	2013	2012	Amount	Percentage
	<i>(\$ in thousands)</i>			
Salaries and employee benefits, excluding commissions	\$ 23,974	\$ 11,893	\$ 12,081	101.6%
Commissions	6,205	1,720	4,485	260.8%
Total Salaries and employee benefits	30,179	13,613	16,566	121.7%
Occupancy and equipment	5,247	2,473	2,774	112.2%
Professional fees	4,560	3,788	772	20.4%
Data processing	1,552	1,037	515	49.7%
Advertising	1,664	395	1,269	321.3%
Regulatory assessments	986	291	695	238.8%
Loan servicing and foreclosure expense	276	83	193	232.5%
Operating loss on equity investment	120	76	44	57.9%
Valuation allowance for OREO	18	36	(18)	-50.0%
Net (gain) loss on sales of OREO	(73)	42	(115)	-273.8%
Provision for loan repurchases	375	172	203	118.0%
Amortization of intangible assets	973	329	644	195.7%
Impairment on intangible assets	976		976	NM
Other expense	5,451	2,121	3,330	157.0%
Total noninterest expense	\$ 52,304	\$ 24,456	\$ 27,848	113.9%

Noninterest expense increased by \$27.8 million, or 113.9 percent, to \$52.3 million for the three months ended September 30, 2013 compared to \$24.5 million for the three months ended September 30, 2012. This increase was primarily the result of a \$16.6 million increase in salaries and employee benefits that includes a \$4.5 million increase in commissions paid for mortgage banking activities, a \$3.3 million increase in other expenses, a \$2.8 million increase in occupancy and equipment expense, a \$772 thousand increase in professional fees, a \$515 thousand increase in data processing, a \$976 thousand impairment on intangible assets and a \$1.3 million increase in advertising. The increase in expense relates predominately to the acquisitions of PBOC, Beach and Gateway. The mortgage banking strategy and growth has had an impact on the growth of overall noninterest expense as well.

Salaries and employee benefits excluding commissions represented 45.8 percent and 48.6 percent of total noninterest expense for the three months ended September 30, 2013 and September 30, 2012, respectively. Total salaries and employee benefits, excluding commissions, increased \$12.1 million, or 101.6 percent, to \$24.0 million for the three months ended September 30, 2013 from \$11.9 million for the three months ended September 30, 2012, due to additional compensation expense related to an increase in full-time equivalent employees resulting from the PBOC, Beach and Gateway acquisitions and business expansion from MHMB. Commission expense, which is a variable expense, primarily related to single family mortgage originations, approximated \$6.2 million for the three months ended September 30, 2013. Total originations for the three months ended September 30, 2013 were \$521.0 million.

Occupancy and equipment expense increased \$2.8 million, or 112.2 percent, to \$5.2 million for the three months ended September 30, 2013 from \$2.5 million for the three months ended September 30, 2012, primarily due to the increased building and equipment maintenance related to the relocation and expansion of the Company's headquarters to Irvine, new branch locations from the Beach and Gateway acquisitions last year, and 8 new producing loan production offices for MHMB opened for the three months ended September 30, 2013.

Total professional fees increased \$772 thousand, or 20.4 percent, to \$4.6 million for the three months ended September 30, 2013 from \$3.8 million for the three months ended September 30, 2012, due to increased accounting, consulting and legal fees related to the PBOC acquisition and other professional fees related to the integration of the Bank's current systems.

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

Data processing expense increased \$515 thousand or 49.7 percent, due mainly to a higher volume transactions and number of accounts from the increased loans and deposits.

Other expenses increased \$3.3 million, or 157.0 percent, to \$5.5 million for the three months ended September 30, 2013 from \$2.1 million for the three months ended September 30, 2012, due to the mortgage banking operations and filing and printing fees of the Company's SEC documents. During the three months ended September 30, 2013, the Company wrote off all remaining trade name of \$976 thousand due to the merger of the Company's two banking subsidiaries into a single bank.

Table of Contents

The following table sets forth the breakdown of non-interest expense for the nine months ended September 30, 2013 and 2012:

	Nine Months Ended September 30,		Increase (Decrease)	
	2013	2012	Amount	Percentage
	(\$ in thousands)			
Salaries and employee benefits, excluding commissions	\$ 58,252	\$ 21,937	\$ 36,315	165.5%
Commissions	16,318	1,720	14,598	848.7%
Total Salaries and employee benefits	74,570	23,657	50,913	215.2%
Occupancy and equipment	12,070	4,793	7,277	151.8%
Professional fees	9,804	5,318	4,486	84.4%
Data processing	3,827	1,946	1,881	96.7%
Advertising	3,076	848	2,228	262.7%
Regulatory assessments	1,578	971	607	62.5%
Loan servicing and foreclosure expense	628	788	(160)	-20.3%
Operating loss on equity investment	410	229	181	79.0%
Valuation allowance for OREO	97	205	(108)	-52.7%
Net (gain) loss on sales of OREO	(224)	(466)	242	51.9%
Provision for loan repurchases	1,363	172	1,191	692.4%
Amortization of intangible assets	1,707	329	1,378	418.8%
Impairment on intangible assets	976		976	NM
Other expense	11,574	3,827	7,747	202.4%
Total noninterest expense	\$ 121,456	\$ 42,617	\$ 78,839	185.0%

Noninterest expense increased by \$78.8 million, or 185.0 percent, to \$121.5 million for the nine months ended September 30, 2013 compared to \$42.6 million for the nine months ended September 30, 2012. This increase was primarily the result of a \$50.9 million increase in salaries and employee benefits that includes a \$14.6 million increase in commissions paid for mortgage banking activities, a \$7.3 million increase in occupancy and equipment expense, a \$7.7 million increase in other expense, a \$4.5 million increase in professional fees, a \$1.9 million increase in data processing, a \$976 thousand impairment on intangible assets, a \$1.2 million increase in provision for loan repurchases and a \$2.2 million increase in advertising. The increase in expense relates predominately to the acquisitions of PBOC, Beach and Gateway. The mortgage banking strategy and growth has had an impact on the growth of overall noninterest expense as well.

Salaries and employee benefits excluding commissions represented 48.0 percent and 51.5 percent of total noninterest expense for the nine months ended September 30, 2013 and September 30, 2012, respectively. Total salaries and employee benefits, excluding commissions, increased \$36.3 million, or 165.5 percent, to \$58.3 million for the nine months ended September 30, 2013 from \$21.9 million for the nine months ended September 30, 2012, due to additional compensation expense related to an increase in full-time equivalent employees resulting from the PBOC, Beach and Gateway acquisitions. The additional staff and the growth related to the mortgage banking operations has contributed to the increase to a significant degree. Commission expense, which is a variable expense, primarily related to single family mortgage originations, approximated \$16.3 million for the nine months ended September 30, 2013. Total originations for the nine months ended September 30, 2013 were \$1.39 billion.

Occupancy and equipment expense increased \$7.3 million, or 151.8 percent, to \$12.1 million for the nine months ended September 30, 2013 from \$4.8 million for the nine months ended September 30, 2012, primarily due to the increased building and equipment maintenance related to the relocation and expansion of the Company's headquarters to Irvine, new branch locations from the PBOC, Beach and Gateway acquisitions last year, and 27 new producing loan production offices for MHMB opened during the nine months ended September 30, 2013.

Total professional fees increased \$4.5 million, or 84.4 percent, to \$9.8 million for the nine months ended September 30, 2013 from \$5.3 million for the nine months ended September 30, 2012, due to increased accounting, consulting and legal fees related to the PBOC acquisition as well as consulting costs associated with the integration of the Bank's systems.

Data processing expense increased \$1.9 million or 96.7 percent due mainly to a higher volume transactions and number of accounts from the increased loans and deposits.

Table of Contents

Provision for loan repurchases on loans sold of \$1.2 million represents the expected losses on the \$1.39 billion of loans originated during the nine months ended September 30, 2013, as well as adjustments due to our changes in estimates of expected losses from probable repurchase obligations related to loans sold in prior periods.

Other expenses increased \$7.7 million, or 202.4 percent, to \$11.6 million for the nine months ended September 30, 2013 from \$3.8 million for the nine months ended September 30, 2012, due to the mortgage banking operations and filing and printing of the Company's SEC documents. The Company also wrote off all remaining trade name of \$976 thousand due to the merger of the Company's two banking subsidiaries into a single bank.

Income Tax Expense

For the three months ended September 30, 2013 and 2012, income tax benefit was \$710 thousand and \$1.1 million, respectively, and the effective tax rate was 7.7 percent and (13.2) percent, respectively. For nine months ended September 30, 2013 and 2012, income tax expense (benefit) was \$1.7 million and \$(1.4) million, respectively, and effective tax rate was (116.4) percent and (18.4) percent, respectively. The Company's effective tax rate increased due to increases in the valuation allowances and other permanent detriments.

The Company accounts for income taxes by recognizing deferred tax assets and liabilities based upon temporary differences between the amounts for financial reporting purpose and tax basis of its assets and liabilities. A valuation allowance is established when necessary to reduce deferred tax assets when it is more-likely-than-not that a portion or all of the net deferred tax assets will not be realized. In assessing the realization of deferred tax assets, management evaluates both positive and negative evidence, including the existence of any cumulative losses in the current year and the prior two years, the amount of taxes paid in available carry-back years, the forecasts of future income, applicable tax planning strategies, and assessments of current and future economic and business conditions. This analysis is updated quarterly and adjusted as necessary. As of September 30, 2013, the Company had a net deferred tax asset of \$5.5 million, net of a \$12.3 million valuation allowance and as of December 31, 2012, the Company had a net deferred tax asset of \$7.6 million, net of an \$8.4 million valuation allowance. The net deferred tax asset as of September 30, 2013 and December 31, 2012 is supported by tax planning strategies.

The Company adopted the provisions of ASC 740-10-25 (formally FIN 48), which relates to the accounting for uncertainty in income taxes recognized in an enterprise's financial statements on January 1, 2007. ASC 740-10-25 prescribes a threshold and a measurement process for recognizing in the financial statements a tax position taken or expected to be taken in a tax return and also provides guidance on derecognition, classification, interest and penalties, accounting in interim periods, disclosure and transition. As of September 30, 2013 and December 31, 2012, the Company had no unrecognized tax benefits. In the event we are assessed interest and/or penalties by federal or state tax authorities, such amounts will be classified in the consolidated financial statements as income tax expense. At September 30, 2013 and December 31, 2012, the Company had no accrued interest or penalties. The Company and its subsidiaries are subject to U.S. federal income tax as well as income tax of multiple state jurisdictions. The Company is no longer subject to examination by U.S. Federal taxing authorities for years before 2009 (except for Gateway Bancorp's pre-acquisition federal tax return which is currently under examination by the Internal Revenue Service for the 2008 and 2009 tax years). The statute of limitations for the assessment of California Franchise taxes has expired for tax years before 2008 (other state income and franchise tax statutes of limitations vary by state).

Assessment of Deferred Tax Asset Valuation Allowances

The evaluation of the recoverability of the deferred tax asset and the need for a valuation allowance requires the Company to weigh all positive and negative evidence to reach a conclusion that is more likely than not that all or some portion of the deferred tax asset will not be realized. The weight given to the evidence is commensurate with the extent to which it can be objectively verified. The more negative evidence that exists, the more positive evidence is necessary and the more difficult it is to support a conclusion that a valuation allowance is not needed.

The Company's framework for assessing the recoverability of deferred tax assets weighs the projection of operating profitability, various prudent and feasible tax planning strategies, and cumulative pre-tax book losses over the prior 36 months. The framework requires the Company to consider all available evidence, including:

the predictability of future operating profitability of the character necessary to realize the deferred tax assets;

the nature, frequency, and severity of cumulative financial reporting losses in recent years;

the recognition of the gains and losses on business dispositions;

Table of Contents

prudent and feasible tax planning strategies that would be implemented, if necessary, to protect against the loss of the deferred tax assets; and

the effect of reversing taxable temporary differences.

Despite several favorable developments, the Company cannot reasonably predict future operating profitability necessary to realize all of its deferred tax assets. Based on this evidence at September 30, 2013, the Company cannot yet overcome this significant negative evidence to assert at this time that the deferred tax asset will be realized in totality.

At September 30, 2013 and December 31, 2012, the valuation allowance was \$12.3 million and \$8.4 million, respectively.

Table of Contents**FINANCIAL CONDITION**

Total assets increased by \$2.04 billion, or 121.0 percent, to \$3.72 billion at September 30, 2013, compared to \$1.68 billion at December 31, 2012. The increase in total assets was due primarily to a \$1.34 billion increase in net loans and leases receivable, a \$254.0 million increase in loans held for sale, a \$307.4 million increase in cash and cash equivalents and a \$46.6 million increase in investment securities.

Investment Securities

The primary goal of our investment securities portfolio is to provide a relatively stable source of income while maintaining an appropriate level of liquidity. Investment securities provide a source of liquidity by being pledged as collateral for repurchase agreements and for certain public funds deposits. Investment securities classified as available-for-sale are carried at their estimated fair values with the corresponding changes in fair values recorded in accumulated other comprehensive income, as a component of shareholders' equity. All investment securities have been classified as available-for-sale securities as of September 30, 2013 and December 31, 2012.

Total investment securities available-for-sale increased by \$46.6 million, or 38.4 percent, to \$168.0 million at September 30, 2013, compared to \$121.4 million at December 31, 2012, due mainly to acquired securities of \$219.3 million from the acquisition of PBOC and \$51.5 million of purchases, partially offset by \$127.0 million of sales, \$82.9 million of principal payments and \$12.2 million of calls and pay-offs. Investment securities had a net unrealized loss of \$508 thousand at September 30, 2013, compared to a net unrealized gain of \$736 thousand at December 31, 2012.

Seasoned SFR Mortgage Loan Acquisition

During the nine months ended September 30, 2013, the Company completed five seasoned SFR mortgage loan pool acquisitions with unpaid principal balances and fair values of \$1.02 billion and \$846.6 million (excluding accrued interest paid and acquisition costs at settlement) at their respective acquisition dates. These loan pools generally consist of re-performing residential mortgage loans whose characteristics and payment history were consistent with borrowers that demonstrated a willingness and ability to remain in the residence pursuant to the current terms of the mortgage loan agreement. The Company was able to acquire these loans at a significant discount to both current property value at acquisition and note balance.

The Company determined that certain loans in these seasoned SFR mortgage loan acquisitions reflect credit quality deterioration since origination and it was probable, at acquisition, that all contractually required payments would not be collected. The unpaid principal balances and fair values of these loans at the respective dates of acquisition were \$471.4 million and \$342.2 million, respectively. At September 30, 2013, the unpaid principal balance and carrying value of these loans were \$333.7 million and \$267.2 million, respectively.

For each acquisition the Company was able to utilize its background in mortgage credit analysis to re-underwrite the borrower's credit to arrive at what it believes to be an attractive risk adjusted return for a highly collateralized investment in performing mortgage loans. The acquisition program implemented and executed by the Company involved a multifaceted due diligence process that included compliance reviews, title analyses, review of modification agreements, updated property valuation assessments, collateral inventory and other undertakings related to the scope of due diligence. In aggregate, the purchase price of the loans was less than 61.1 percent of current property value at the time of acquisition based on a third party broker price opinion, and less than 83.1 percent of note balance at the time of acquisition. At the time of acquisition, approximately 86.3 percent of the mortgage loans by current principal balance (excluding any forbearance amounts) had the original terms modified at some point since origination by a prior owner or servicer. The mortgage loans had a current weighted average interest rate of 4.39 percent, determined by current principal balance. The weighted average credit score of the borrowers comprising the mortgage loans at or near the time of acquisition determined by current principal balance and excluding those with no credit score on file was 655. The average property value determined by a broker price opinion obtained by third party licensed real estate professionals at or around the time of acquisition was \$292 thousand. Approximately 89.6 percent of the borrowers by current principal balance had made at least 12 monthly payments in the 12

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

months preceding the trade date (or, in some cases calculated as making 11 monthly payments in the 11 months preceding the trade date), and 94.0 percent had made nine monthly payments in the nine months preceding the trade date. The mortgage loans are secured by residences located in all 50 states and Washington DC, with California being the largest state concentration representing 36.3 percent of the note balance, and with no other state concentration exceeding 10.0 percent based upon the current note balance.

During the course of 2012, the Company completed three seasoned SFR loan acquisitions with unpaid principal balances and fair values of \$114.8 million and \$66.7 million at the respective acquisition dates. These loan pools generally consist of re-performing residential mortgage loans whose characteristics and payment history were consistent with borrowers that demonstrated a willingness and ability to remain in the residence pursuant to the current terms of the mortgage loan agreement. In aggregate, the purchase price of

Table of Contents

the loans was less than 70 percent of current property value at the time of acquisition based on a third party broker price opinion, and less than 60 percent of note balance at the time of acquisition. The mortgage loans had a current weighted average interest rate of 4.13 percent, determined by current unpaid principal balance. The weighted average credit score of the borrowers comprising the mortgage loans at or near the time of acquisition determined by current principal balance and excluding those with no credit score on file was 632. The average property value determined by a broker price opinion obtained by third party licensed real estate professionals at or around the time of acquisition was \$252 thousand. As of September 30, 2013, the unpaid principal balance and carrying value of these loans were \$87.5 million and \$53.7 million, respectively.

At September 30, 2013 and December 31, 2012, approximately 4.32 percent and 6.00 percent of unpaid principal balance of these loans were delinquent 60 or more days and 1.00 percent and 0.23 percent respectively were in bankruptcy or foreclosure. During the nine months ended September 30, 2013, delinquencies on seasoned SFR loan pools increased due to additional acquisitions as well as a transfer of servicing.

The outstanding balance and carrying amount of PCI loans and leases at September 30, 2013 and December 31, 2012 is as follows.

	September 30, 2013		December 31, 2012	
	Outstanding Balance	Carrying Amount	Outstanding Balance	Carrying Amount
	(\$ in thousand)			
Commercial				
Commercial and industrial	\$ 5,119	\$ 3,600	\$ 11,350	\$ 6,808

Balance at end of period	\$ 147,626	\$ 35,142	\$ 147,626	\$ 35,142

Seasoned SFR Mortgage Loan Acquisition Due Diligence

The acquisition program implemented and executed by the Company involved a multifaceted due diligence process that included compliance reviews, title analyses, review of modification agreements, updated property valuation assessments, collateral inventory and other undertakings related to the scope of due diligence. Prior to acquiring mortgage loans, the Company, its affiliates, sub-advisors or due diligence partners typically will review the loan portfolio and conduct certain due diligence on a loan by loan basis according to its proprietary diligence plan. This due diligence encompasses analyzing the title, subordinate liens and judgments as well as a comprehensive reconciliation of current property value. The Company, its affiliates, and its sub-advisors prepare a customized version of its diligence plan for each mortgage loan pool being reviewed that is designed to address certain identified pool specific risks. The diligence plan generally reviews several factors, including but not

limited to, obtaining and reconciling property value, confirming chain of titles, reviewing assignments, confirming lien position, confirming regulatory compliance, updating

Table of Contents

borrower credit, certifying collateral, and reviewing servicing notes. In certain transactions, a portion of the diligence may be provided by the seller. In those instances, the Company reviews the mortgage loan portfolio to confirm the accuracy of the provided diligence information and supplements as appropriate.

As part of the confirmation of property values in the diligence process, the Company conducts independent due diligence on the individual properties and borrowers prior to the acquisition of the mortgage loans. In addition, market conditions, regional mortgage loan information and local trends in home values, coupled with market knowledge, are used by the Company in calculating the appropriate additional risk discount to compensate for potential property declines, foreclosures, defaults or other risks associated with the mortgage loan portfolio to be acquired. Typically, the Company may enter into one or more agreements with affiliates or third parties to perform certain of these due diligence tasks with respect to acquiring potential mortgage loans.

Table of Contents**Non-Traditional Mortgage Portfolio**

The Company's non-traditional mortgage (NTM) portfolio is comprised of three interest only products: the Green Account Loans (Green Loans), the hybrid interest only fixed or adjustable rate mortgage (Interest Only) loans and a small number of loans with the potential for negative amortization. As of September 30, 2013 and December 31, 2012, the non-traditional mortgages totaled \$374.3 million or 14.4 percent of the total gross loan portfolio and \$368.2 million or 29.5 percent of the total gross loan portfolio, respectively. Despite the decrease in percentage to total gross loan portfolio, total NTM loans increased \$6.0 million or 1.6 percent. The following table represents the composition of the NTM portfolio at the dates indicated:

	September 30, 2013			December 31, 2012		
	Count	Amount	Percent	Count	Amount	Percent
	(\$ in thousands)					
Green	203	\$ 164,826	44.0%	239	\$ 206,004	56.0%
Interest-only	292	192,363	51.4	191	142,978	38.8
Negative amortization	38	17,074	4.6	40	19,262	5.2
Total NTM loans	533	\$ 374,263	100.0%	470	\$ 368,244	100.0%
Total gross loan portfolio		\$ 2,594,142			\$ 1,246,559	
% of NTM to total gross loan portfolio		14.4%			29.5%	
<i>Green Loans</i>						

Included in the Company's loan and lease portfolio segments are Total Green Loans in dollar amounts and in percentages as of the dates indicated:

	September 30, 2013		December 31, 2012	
	Amount	Percent	Amount	Percent
	(\$ in thousands)			
Green Loans (HELOC) First Liens	\$ 158,517	96.2%	\$ 198,351	96.3%
Green Loans (HELOC) Second Liens	6,309	3.8%	7,653	3.7%
Total Green Loans	\$ 164,826	100.0%	\$ 206,004	100.0%

At September 30, 2013, Green Loans totaled \$164.8 million, a decrease of \$41.2 million or 20.0 percent from \$206.0 million at December 31, 2012, primarily due to reductions in principal balance and payoffs of \$9.2 million and \$39.7 million, respectively, partially offset by advances of \$7.7 million. As of September 30, 2013 and December 31, 2012, \$4.5 million and \$5.7 million, respectively, of the Company's Green Loans were non-performing. As a result of their unique payment feature, Green Loans possess higher credit risk due to the potential of negative amortization; however, management believes the risk is mitigated through the Company's loan terms and underwriting standards, including its policies on loan-to-value ratios. The Company discontinued the Green Loan products in 2011.

The table below represents the Company's activity in the non-traditional one-to-four SFR Green Loan first lien portfolio for the period indicated:

Table of Contents

Green Loans are single family residence first mortgage lines of credit with a linked checking account that allows all types of deposits and withdrawals to be performed. The Company initiated the Green Loan products in 2005 and proactively refined underwriting and credit management practices as well as credit guidelines in response to changing economic environments, competitive conditions and portfolio performance. The Company continues to manage credit risk, to the extent possible, throughout the borrower's credit cycle. The Company discontinued the Green Loan products in 2011.

The Green Loans are similar to HELOCs in that they are collateralized primarily by the equity in one-to-four SFR Mortgage loans. However, some Green Loans are subject to differences from HELOCs relating to certain characteristics including one-action laws. Similar to a Green Loans, HELOCs allow the borrower to draw down on the credit line based on an established loan amount for a period of time, typically 10 years, requiring an interest only payment with an option to pay principal at any time. A typical HELOC provides that at the end of the term the borrower can continue to make monthly principal and interest payments based on the loan balance until the maturity date. The Green Loan is an interest only loan with a maturity of 15 years at which time the loan comes due and payable with a balloon payment due at maturity. The unique payment structure also differs from a traditional HELOC in that payments are made through the direct linkage of a personal checking account to the loan through a nightly sweep of funds into the Green Account. This reduces any outstanding balance on the loan by the total amount deposited into the checking account. As a result, every time a deposit is made, effectively a payment to the Green Loan is made. HELOCs typically do not cause the loan to be paid down by a borrower's depositing of funds into their checking account at the same bank.

Credit guidelines for Green Loans were established based on borrower FICO scores, property type, occupancy type, loan amount, and geography. Property types include one-to-four SFR and second trust deeds where the Company owned the first liens, owner occupied as well as non-owner occupied properties. The Company utilized its underwriting guidelines for first liens to underwrite the Green Loans secured by second trust deeds as if the combined loans were a single Green Loan.

One-to-four SFR loan sizes ranged up to \$7.0 million and the average loan size was \$1.0 million at their respective origination dates. As loan size increased, the maximum LTV decreased from 80 percent to 60 percent. Maximum LTVs were adjusted by 5 to 10 percent for specified property types such as condos. FICOs were based on the primary wage earners' mid FICO score and the lower of two mid FICO scores for full and alternative documentation, respectively. At the time of origination, 76 percent of the FICO scores exceeded 700. Loans greater than \$1 million were subject to a second appraisal or third party appraisal review at origination.

For all Green Loans, the loan income was underwritten using either full income documentation or alternative income documentation.

Interest Only Loans

Interest only loans are primarily single family residence first mortgage loans with payment features that allow interest only payment in initial periods before converting to fully amortizing payments. As of September 30, 2013, our interest only loans increased by \$49.4 million or 34.5 percent to \$192.4 million from \$143.0 million at December 31, 2012, primarily due to purchases of \$55.7 million and originations of \$174.0 million, partially offset by sales of \$64.0 million, payoffs and principal reductions of \$87.8 million, and reclassification of \$28.4 million from NTM interest only to traditional loans due to the expiration of the initial interest only period and conversion to a fully amortizing basis. As of September 30, 2013 and December 31, 2012, \$297 thousand and \$6.2 million, respectively, of the Company's interest only loans were non-performing.

The table below represents the Company's activity in the non-traditional interest only loans portfolio for the period indicated:

	September 30, 2013		December 31, 2012	
	Amount	Percent	Amount	Percent
	(\$ in thousands)			
Real estate 1-4 family first mortgage	\$ 192,250	99.9%	\$ 142,865	99.9%
Real estate 1-4 family junior lien mortgage	113	0.1%	113	0.1%
Total Interest Only loans	\$ 192,363	100.0%	\$ 142,978	100.0%

Interest only loans are primarily SFR first mortgage loans with payment features that allow interest only payment during the first one, three, or five years during which time the interest rate is fixed before converting to fully amortizing payments. Following the expiration of the fixed interest rate, the interest rate and payment begins to adjust on an annual basis, with fully amortizing payments that include principal and interest calculated over the remaining term of the loan. The loan can be secured by owner or non-owner occupied properties that include one-to-four

SFR units and second homes.

Table of Contents*Loans with the Potential for Negative Amortization*

The negative amortization loan balance decreased by \$2.2 million or 11.4 percent to \$17.1 million as of September 30, 2013 from \$19.3 million as of December 31, 2012. The Company discontinued origination of negative amortization loans in 2007. As of September 30, 2013 and December 31, 2012, \$158 thousand and none, respectively, of the Company's loans that had the potential for negative amortization were non-performing. These loans pose a potentially higher credit risk because of the lack of principal amortization and potential for negative amortization; however, management believes the risk is mitigated through the Company's loan terms and underwriting standards, including its policies on loan-to-value ratios. The Company discontinued origination of negative amortization loans in 2007.

The table below represents the Company's activity in the non-traditional loans with the potential for negative amortization portfolio for the period indicated:

	September 30, 2013		December 31, 2012	
	Amount	Percent	Amount	Percent
	(\$ in thousands)			
Real estate 1-4 family first mortgage	\$ 17,074	100.0%	\$ 19,262	100.0%
Total loans with the potential for Negative Amortization	\$ 17,074	100.0%	\$ 19,262	100.0%

Non-Traditional Mortgage Loan Credit Risk Management

To mitigate and manage the risk within the Company's loan portfolio, the Board of Directors established certain concentration limits. The aggregate maximum loan commitment amount for all non-traditional mortgage loans is 300 percent of the Company's Tier 1 capital plus allowance for loan and lease losses (ALLL). That limitation, as of September 30, 2013, was \$700.8 million. As of September 30, 2013, the Company has outstanding loan commitments of \$374.3 million or 53.4 percent of the maximum loan commitment limit resulting in available capacity of \$326.5 million or 46.6 percent.

The maximum loan commitments for SFR interest only mortgage loans is also 300 percent of the Company's Core Capital plus ALLL provided that the aggregate non-traditional mortgage maximum loan commitment of \$700.8 million has not been exceeded. The interest only mortgage loans that have original LTVs that exceed 70 percent are further limited to \$467.2 million. As of September 30, 2013, the outstanding loan commitments are \$192.4 million or 27.4 percent of loan maximum loan commitment with available capacity of \$508.4 million or 72.6 percent remaining.

The maximum loan commitments for SFR non-Green Loan HELOCs is 75 percent of the Company's Core Capital plus ALLL. That limitation is \$175.2 million as of September 30, 2013. As of September 30, 2013, the Company has outstanding loan commitments in the HELOC portfolio of \$6.3 million or 3.6 percent of the maximum commitment with available capacity of \$168.9 million or 96.4 percent remaining. Additionally HELOCs are further limited to not exceed \$81.8 million for new loans whose original LTV exceeds 75 percent.

The Company performs detailed reviews of collateral values on loans collateralized by residential real property including its non-traditional mortgage portfolio based on appraisals or estimates from third party automated valuation models (AVMs) to support property values performed on a semi-annual or on an as needed basis. AVMs are used to identify loans that have experienced collateral deterioration in the borrower's equity in the collateral of 50 percent or more. Once a loan meets this criterion, the Company will obtain updated drive by or full appraisals in order to confirm the AVM valuation. This information is used to update key monitoring metrics such as LTV. Additionally, FICO scores are obtained bi-annually in conjunction with the collateral analysis. In addition to LTV and FICO, the Company evaluates the portfolio on a specific loan basis through delinquency and portfolio charge-offs to determine whether any risk mitigation or portfolio management actions are warranted. The borrowers may be contacted as necessary to discuss material changes in loan performance or statistics.

The Company's risk management policy and credit monitoring includes reviewing delinquency, FICO scores, and collateral values on the non-traditional mortgage loan portfolio. We also continuously monitor market conditions for our geographic lending areas. The Company has assessed that the most significant performance indicators for non-traditional mortgages are LTV and FICO scores. The loan review provides an effective method of identifying borrowers who may be experiencing financial difficulty before they fail to make a loan payment. Upon receipt of the updated FICO scores, an exception report is run to identify loans with a decrease

Table of Contents

in FICO of 10 percent or more and a resulting FICO of 620 or less. The loans are then further analyzed to determine if the risk rating should be downgraded that will increase the ALLL the Company will establish for potential losses. A report of the semi-annual loan reviews is published and regularly monitored.

On the interest only loans, the Company projects future payment changes to determine if there will be an increase in payment of 3.50 percent or greater and then monitor the loans for possible delinquency. The individual loans are monitored for possible downgrading of risk rating, and trends within the portfolio are identified that could affect other interest only loans scheduled for payment changes in the near future.

As these loans are revolving lines of credit, the Company, based on the loan agreement and loan covenants of the particular loan, as well as applicable rules and regulations, could suspend the borrowing privileges or reduce the credit limit at any time the Company reasonably believes that the borrower will be unable to fulfill their repayment obligations under the agreement or certain other conditions are met. In many cases, the decrease in FICO is the first red flag that the borrower may have difficulty in making their future payment obligations.

As a result, the Company proactively manages the portfolio by performing detailed analysis on its portfolio with emphasis on the non-traditional mortgage portfolio. The Company's Internal Asset Review Committee (IARC) conducts monthly meetings to review the loans classified as special mention, substandard, or doubtful and determines whether suspension or reduction in credit limit is warranted. If the line has been suspended and the borrower would like to have their credit privileges reinstated, they would need to provide updated financials showing their ability to meet their payment obligations.

As a result of the last semi-annual review completed in the fourth quarter 2012, the Company identified 42 loans that had an original commitment of \$38.8 million and had suspended or curtailed available credit by \$2.75 million to a current commitment balance of \$35.1 million. As of part of ongoing monitoring on NTM loans, the Company curtailed additional \$2.1 million available credit during the nine months ended September 30, 2013.

Consumer and non-traditional mortgage loans may entail greater risk than do traditional one-to-four SFR mortgage loans, particularly in the case of consumer loans that are secured by rapidly depreciable assets, such as automobiles and recreational vehicles. In these cases, any repossessed collateral for a consumer and non-traditional mortgage loan are more dependent on the borrower's continued financial stability and, thus, are more likely to be adversely affected by job loss, divorce, illness, or personal bankruptcy.

Loans Held For Sale

The Company originates one-to-four SFR real estate loans primarily in California, Arizona, Washington and Oregon. The residential lending division offers diverse product offerings through both direct-to consumer retail and wholesale mortgage channels. The Company offers conventional mortgages eligible for sale to Fannie Mae, Freddie Mac or government insured Federal Housing Administration (FHA) and Veteran Affairs (VA) mortgages and jumbo loans that meet conventional underwriting criteria except that the loan amount exceeds Fannie Mae or Freddie Mac limits.

MHMB originated \$521.0 million and \$350.9 million representing an increase of \$170.1 million, or 48.5 percent, of SFR real estate through its Retail and Wholesale channels during the three months ended September 30, 2013 and December 31, 2012, respectively. The Company sold \$517.5 million and \$345.5 million, which is an increase of \$172.0 million, or 49.8 percent, for the three months ended September 30, 2013 and December 31, 2012, respectively. In addition, the Company has grown its SFR locked pipeline from \$90.3 million at December 31, 2012 to \$181.3 million at September 30, 2013, which represents an increase of \$90.2 million, or 99.9 percent. In conjunction with its business strategy, the Company opened 8 new producing loan production offices during the three months ended September 30, 2013.

Servicing Rights

Total mortgage and SBA servicing rights were \$7.6 million and \$2.3 million at September 30, 2013 and December 31, 2012, respectively. The fair value of the mortgage servicing rights (MSRs) amounted to \$7.2 million and \$1.7 million and the amortized cost of the SBA servicing rights was \$383 thousand and \$539 thousand at September 30, 2013 and December 31, 2012, respectively. The Company retains servicing rights from certain of its sales of SFR mortgage loans and SBA loans. A significant portion of these servicing rights were acquired as part of the Beach and Gateway acquisitions. The aggregate fair value of the servicing rights at the respective acquisition dates was \$2.2 million. The principal balance of the loans underlying our total MSRs and SBA servicing rights was \$760.8 million and \$25.6 million, respectively, at September 30, 2013 and \$211.4 million and \$45.2 million, respectively, at December 31, 2012. The recorded amount of the MSR and SBA servicing rights as a percentage of the unpaid principal balance of the loans we are servicing was 0.95 percent and 1.49 percent, respectively, at September 30, 2013 as compared to 0.82 percent and 1.22 percent, respectively, at December 31, 2012.

Table of Contents**Allowance for Loan and Lease Losses**

The Company maintains an allowance for loan and lease losses to absorb probable incurred losses inherent in the loan and lease portfolio at the balance sheet date. The allowance is based on ongoing assessment of the estimated probable losses presently inherent in the loan portfolio. In evaluating the level of the allowance for loan and lease losses, management considers the types of loans and leases and the amount of loans and leases in the portfolio, peer group information, historical loss experience, adverse situations that may affect the borrower's ability to repay, estimated value of any underlying collateral, and prevailing economic conditions. This methodology takes into account many factors, including the Company's own historical and peer loss trends, loan and lease-level credit quality ratings, loan and lease specific attributes along with a review of various credit metrics and trends. The process involves subjective as well as complex judgments. The Company uses a three year loss experience of the Company and its peers in analyzing an appropriate reserve factor for all loans. In addition, the Company uses adjustments for numerous factors including those found in the Interagency Guidance on Allowance for Loan and Lease Losses, which include current economic conditions, loan and lease seasoning, underwriting experience, and collateral value changes among others. The Company evaluates all impaired loans and leases individually using guidance from ASC 310 primarily through the evaluation of cash flows or collateral values. During the third quarter 2012, the Company acquired Beach Business Bank and Gateway Business Bank and their loans and leases are treated under ASC 805, accounting for acquisitions. The acquired loans and leases include loans and leases that are accounted for under ASC 310-30, accounting for purchase credit impaired loans and leases. In addition, the Company acquired three pools of credit impaired re-performing one-to-four SFR mortgage loans during 2012. On a quarterly basis, the Company re-forecasts its expected cash flows for the PCI loans relating to the Beach, Gateway, and the three loan pools acquired in 2012 to be evaluated for potential impairment. The provision for loans and leases losses on PCI loans reflected a decrease in expected cash flows on PCI loans compared to those previously estimated. The impairment reserve for PCI loans at September 30, 2013 was \$312 thousand.

For the nine months ended September 30, 2013, the Bank acquired five pools of loans which were partially ASC 310-30 loans. During the nine months ended September 30, 2013, there was no provision for loan and lease losses or allowance for loan and lease losses related to these pools as these loans were acquired at an aggregate 16.9 percent discount to the aggregated unpaid principal balances and there were no impairment on these pools. The Company may recognize provision for loan and lease losses in the future should there be further deterioration in these loans after the purchase date should the impairment exceed the non-accretable yield.

The allowance for loan and lease losses on originated loans receivable at September 30, 2013 was \$17.4 million, which represented 1.39 percent of the gross loans, excluding loans subject to fair market valuation, certain acquired loans and PCI loans totaling \$1.34 billion, as compared to \$14.4 million, or 1.56 percent, of the gross loans, excluding loans subject to fair market valuation, certain acquired loans and PCI loans totaling \$324.7 million, at December 31, 2012. Of the \$19.1 million allowance, \$1.4 million were specific allowance allocations to impaired loans and leases, including loans and leases which are subject to troubled debt restructurings, with \$17.4 million serving as a general allocation of allowance for loan and lease losses. An unallocated reserve of \$105 thousand was held at September 30, 2013. The allowance for loan and lease losses plus market discount for originated and acquired loans excluding the PCI loans to gross loans was 1.56 percent at September 30, 2013 versus 1.52 percent at December 31, 2012. The Company provided \$2.1 million to its provision for loan and lease losses during the three months ended September 30, 2013 related primarily to new commercial real estate mortgage loan production and impairment charges on PCI loans.

Reserve for Loss on Repurchased Loans

Reserve for loss on repurchased loans was \$4.3 million at September 30, 2013 and \$3.5 million at December 31, 2012. This reserve relates to our single family mortgage business. We sell most of the residential mortgage loans that we originate into the secondary mortgage market. If a customer defaults on a mortgage payment within the first few payments after the loan is sold, we may be required to repurchase the loan at the full amount paid by the purchaser. In addition, when we sell mortgage loans, we make customary representations and warranties to the purchasers about various characteristics of each loan, such as the manner of origination, the nature and extent of underwriting standards applied and the types of documentation being provided. Typically, these representations and warranties are in place for the life of the loan. If a defect in the origination process is identified, we may be required to either repurchase the loan or indemnify the purchaser for losses it sustains on the loan. If there are no such defects, generally we have no liability to the purchaser for losses it may incur on such loan. We maintain a reserve for loss on repurchased loans to account for the expected losses related to loans we might be required to repurchase (or the indemnity payments we may have to make to purchasers). The representation and warranty reserve takes into account both our estimate of expected losses on loans sold during the current accounting period, as well as adjustments to our previous estimates of expected losses on loans sold. In each case, these estimates are based on the most recent data available to us, including data from third parties, regarding demands for loan repurchases, actual loan repurchases, and actual credit losses on repurchased loans, among other factors. Provisions added to the reserve for loss on repurchased loans are recorded under non-interest expense in the consolidated statements of operations as an increase or decrease to provision for loss on repurchased loans.

Table of Contents

Following is a summary of activity in the reserve for loss on repurchased loans for the three and nine months ended September 30, 2013:

Deposits

The following table shows the composition of deposits by type as of the dates indicated.

	September 30, 2013	December 31, 2012	Increase (Decrease)	
			Amount	Percentage
	<i>(\$ in thousands)</i>			
Noninterest-bearing demand deposits	\$ 441,081	\$ 194,662	\$ 246,419	126.6%
Interest-bearing demand deposits	534,476	15,111	519,365	3437.0%
Money market	574,111	294,804	279,307	94.7%
Savings	1,105,360	159,055	946,305	595.0%
Certificates of deposit	604,346	642,710	(38,364)	-6.0%
Total Deposits	\$ 3,259,374	\$ 1,306,342	\$ 1,953,032	149.5%

Total deposits increased by \$1.95 billion, or 149.5 percent, to \$3.26 billion at September 30, 2013, compared to \$1.31 billion at December 31, 2012. The increase in total deposits primarily resulted from the acquisition of PBOC on July 1, 2013 and strategic plans aiming to increase core deposits. The composition of the deposits assumed in the PBOC acquisition was as follows as of the acquisition date:

	Amount
	<i>(\$ in thousands)</i>
Noninterest-bearing demand deposits	\$ 235,859
Interest-bearing demand deposits	25,983
Money market	207,746
Savings	2,959
Certificates of deposit	88,946
Total Deposits	\$ 561,493

In December 2012, the Company launched interest-bearing core deposits products with enhanced features to attract high net worth depositors in our target markets while reducing the reliance on certificates of deposit. As of September 30, 2013, deposits generated through this program totaled approximately \$1.24 billion.

Table of Contents

On May 31, 2013, the Bank entered into a definitive agreement with AWB, pursuant to which the Bank has agreed to sell eight branches and related assets and deposit liabilities to AWB. The deposits to be transferred totaled \$462.8 million as of September 30, 2013, with the composition of such deposits being as follows:

	Amount (\$ in thousands)	Percentage to be sold by category	Percentage to total deposits
Noninterest-bearing demand deposits	\$ 25,322	5.7%	0.8%
Interest-bearing demand deposits	53,280	10.0%	1.6%
Money market	36,547	6.4%	1.1%
Savings	183,178	16.6%	5.6%
Certificates of deposit	164,442	27.2%	5.0%
Total Deposits	\$ 462,769	14.2%	14.2%

The transaction with AWB was completed on October 4, 2013.

Federal Home Loan Bank Advances

At September 30, 2013, all \$25.0 million of advances from the FHLB were fixed rate and had interest rates ranging from 0.59 percent to 0.82 percent with a weighted average rate of 0.73 percent. At December 31, 2012, \$63.0 million of the Bank's advances from the FHLB were fixed rate and had interest rates ranging from 0.28 percent to 0.82 percent with a weighted average rate of 0.47 percent. At December 31, 2012, \$12.0 million of advances from the FHLB were variable rate and had a weighted average interest rate of 0.28 percent as of that date.

Each advance is payable at its maturity date. Advances paid early are subject to a prepayment penalty. At September 30, 2013 and December 31, 2012, the Bank's advances from the FHLB were collateralized by certain real estate loans with an aggregate unpaid principal balance of \$765.2 million and \$458.9 million, respectively, and by investment securities with a market value of \$56.5 million and none, respectively. The Bank's investment of capital stock of the FHLB of San Francisco totaled \$14.4 million and \$8.4 million, respectively, at September 30, 2013 and December 31, 2012. Based on this collateral and the Bank's holdings of FHLB stock, the Bank was eligible to borrow an additional \$527.4 million at September 30, 2013. In addition, the Bank had available lines of credit with the Federal Reserve Bank totaling \$156.9 million at September 30, 2013.

Long Term Debt

On April 23, 2012, the Company completed the public offering of \$33.0 million aggregate principal amount of its 7.50 percent Senior Notes due April 15, 2020 (the "Notes") at a price to the public of \$25.00 per Note. Net proceeds after discounts were approximately \$31.7 million. The Notes were issued under the Senior Debt Securities Indenture, dated as of April 23, 2012 (the "Base Indenture"), as supplemented by the First Supplemental Indenture, dated as of April 23, 2012 (the "Supplemental Indenture," and together with the Base Indenture, the "Indenture"), between the Company and U.S. Bank National Association, as trustee.

On December 6, 2012, the Company completed the issuance and sale of an additional \$45.0 million aggregate principal amount of the Notes at a price to the public of \$25.00 per Note, plus accrued interest from October 15, 2012. Net proceeds after discounts, including a full exercise of the \$6.8 million underwriters' overallotment option on December 7, 2012, were approximately \$50.1 million.

The Notes are the Company's senior unsecured debt obligations and rank equally with all of the Company's other present and future unsecured unsubordinated obligations. The Notes bear interest at a per-annum rate of 7.50 percent. The Company makes interest payments on the Notes quarterly in arrears.

The Notes will mature on April 15, 2020. However, the Company may, at the Company's option, on April 15, 2015, or on any scheduled interest payment date thereafter, redeem the Notes in whole or in part on not less than 30 nor more than 60 days prior notice. The Notes will be redeemable at a redemption price equal to 100 percent of the principal amount of the Notes to be redeemed plus accrued and unpaid interest to the date of redemption.

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

The Indenture contains several covenants which, among other things, restrict the Company's ability and the ability of the Company's subsidiaries to dispose of or incur liens on the voting stock of certain subsidiaries and also contains customary events of default.

Table of Contents

Liquidity

The Bank is required to have enough liquid assets in order to maintain sufficient liquidity to ensure a safe and sound operation. Liquidity may increase or decrease depending upon availability of funds and comparative yields on investments in relation to the return on loans. Historically, the Bank has maintained liquid assets above levels believed to be adequate to meet the requirements of normal operations, including potential deposit outflows. Cash flow projections are regularly reviewed and updated to ensure that adequate liquidity is maintained.

The Bank's liquidity, represented by cash and cash equivalents and securities available for sale, is a product of its operating, investing, and financing activities. The Bank's primary sources of funds are deposits, payments and maturities of outstanding loans and investment securities; and other short-term investments and funds provided from operations. While scheduled payments from the amortization of loans and mortgage-backed securities and maturing securities and short-term investments are relatively predictable sources of funds, deposit flows and loan prepayments are greatly influenced by general interest rates, economic conditions, and competition. In addition, the Bank invests excess funds in short-term interest-earning assets, which provide liquidity to meet lending requirements. The Bank also generates cash through borrowings. The Bank utilizes Federal Home Loan Bank advances to leverage its capital base, to provide funds for its lending activities, as a source of liquidity, and to enhance its interest rate risk management. The Bank also has the ability to obtain brokered certificates of deposit. Liquidity management is both a daily and long-term function of business management. Any excess liquidity would be invested in federal funds or authorized investments such as mortgage-backed or U.S. Agency securities. On a longer-term basis, the Bank maintains a strategy of investing in various lending products. The Bank uses its sources of funds primarily to meet their ongoing commitments, to pay maturing certificates of deposit and savings withdrawals, to fund loan commitments, and to maintain its portfolio of mortgage-backed securities and investment securities.

At September 30, 2013, there were \$99.8 million of approved loan origination commitments, \$249.1 million of unused lines of credit and \$6.3 million of outstanding letters of credit. Certificates of deposit maturing in the next 12 months totaled \$419.6 million and \$10.0 million of FHLB advances had maturities of less than 12 months at September 30, 2013. Additionally, the deposits to be transferred for the branch sale to AWB (which was completed on October 4, 2013) totaled \$462.8 million as of September 30, 2013, which included \$137.1 million of certificates of deposit maturing in the next 12 months. The Bank funded the transactions by utilizing current excess cash and additional FHLB advances.

Based on the competitive deposit rates offered and on historical experience, management believes that a significant portion of maturing deposits will remain with the Bank, although no assurance can be given in this regard. At September 30, 2013, the Company maintained \$416.0 million of cash and cash equivalents that was 11.18 percent to total assets. In addition, the Bank had the ability at September 30, 2013 to borrow an additional \$527.4 million from the FHLB and \$156.9 million from the Federal Reserve Bank. The Bank intends to replace these advances with new borrowings from the FHLB, Federal Reserve Bank or deposits, as and to the extent needed and depending on market conditions.

Table of Contents**Commitments**

The following tables provide information as of September 30, 2013 regarding our commitments and contractual obligations:

	Amount of Commitment Expiration Per Period				
	Total Amounts Committed	One Year or Less	Over One Year Through Three Years (In thousands)	Over Three Years Through Five Years	Over Five Years
Commitments to extend credit	\$ 99,848	\$ 77,823	\$ 6,924	\$ 7,975	\$ 7,126

Table of Contents**Capital**

Federal bank regulatory agencies require bank holding companies such as the Company to maintain a minimum ratio of qualifying total capital to risk-weighted assets of 8.0 percent and a minimum ratio of Tier 1 capital to risk-weighted assets of 4.0 percent. In addition to the risk-based guidelines, federal bank regulatory agencies require bank holding companies to maintain a minimum ratio of Tier 1 capital to average total assets, referred to as the leverage ratio, of 4.0 percent. In order to be considered well capitalized, federal bank regulatory agencies require depository institutions such as the Bank to maintain a minimum ratio of qualifying total capital to risk-weighted assets of 10.0 percent and a minimum ratio of Tier 1 capital to risk-weighted assets of 6.0 percent. In addition to the risk-based guidelines, the federal bank regulatory agencies require depository institutions to maintain a minimum ratio of Tier 1 capital to average total assets, referred to as the leverage ratio, of 5.0 percent.

The capital ratios of the Company and the Banks were as follows as of September 30, 2013 and December 31, 2012. Prior to July 1, 2013, PBOC was known as Beach Business Bank and effective October 11, 2013, Pacific Trust Bank and PBOC were merged to form the Bank.

In July 2013, the Federal banking regulators approved a final rule to implement the revised capital adequacy standards of the Basel Committee on Banking Supervision, commonly called Basel III, and to address relevant provisions of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act). The final rule strengthens the definition of regulatory capital, increases risk-based capital requirements, makes selected changes to the calculation of risk-weighted assets, and adjusts the prompt corrective action thresholds. The Company and the Bank will become subject to the new rule on January 1, 2015 and certain provisions of the new rule will be phased in over the period of 2015 through 2019.

Table of Contents

The final rule:

Permits banking organizations that had less than \$15 billion in total consolidated assets as of December 31, 2009, to include in Tier 1 capital trust preferred securities and cumulative perpetual preferred stock that were issued and included in Tier 1 capital prior to May 19, 2010, subject to a limit of 25% of Tier 1 capital elements, excluding any non-qualifying capital instruments and after all regulatory capital deductions and adjustments have been applied to Tier 1 capital.

Establishes new qualifying criteria for regulatory capital, including new limitations on the inclusion of deferred tax assets and mortgage servicing rights.

Requires a minimum ratio of common equity Tier 1 capital to risk-weighted assets of 4.5%.

Increases the minimum Tier 1 capital to risk-weighted assets ratio requirement from 4% to 6%.

Retains the minimum total capital to risk-weighted assets ratio requirement of 8%.

Establishes a minimum leverage ratio requirement of 4%.

Retains the existing regulatory capital framework for 1-4 family residential mortgage exposures.

Permits banking organizations that are not subject to the advanced approaches rule, such as the Company and the Bank, to retain, through a one-time election, the existing treatment for most accumulated other comprehensive income, such that unrealized gains and losses on securities available for sale will not affect regulatory capital amounts and ratios.

Implements a new capital conservation buffer requirement for a banking organization to maintain a common equity capital ratio more than 2.5% above the minimum common equity Tier 1 capital, Tier 1 capital and total risk-based capital ratios in order to avoid limitations on capital distributions, including dividend payments, and certain discretionary bonus payments. The capital conservation buffer requirement will be phased in beginning on January 1, 2016 at 0.625% and will be fully phased in at 2.50% by January 1, 2019. A banking organization with a buffer of less than the required amount would be subject to increasingly stringent limitations on such distributions and payments as the buffer approaches zero. The new rule also generally prohibits a banking organization from making such distributions or payments during any quarter if its eligible retained income is negative and its capital conservation buffer ratio was 2.5% or less at the end of the previous quarter. The eligible retained income of a banking organization is defined as its net income for the four calendar quarters preceding the current calendar quarter, based on the organization's quarterly regulatory reports, net of any distributions and associated tax effects not already reflected in net income.

Increases capital requirements for past-due loans, high volatility commercial real estate exposures, and certain short-term commitments and securitization exposures.

Expands the recognition of collateral and guarantors in determining risk-weighted assets.

Removes references to credit ratings consistent with the Dodd Frank Act and establishes due diligence requirements for securitization exposures.

The Company's management is currently evaluating the provisions of the final rule and their expected impact on the Company.

ITEM 3 QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

The rates of interest we earn on assets and pay on liabilities generally are established contractually for a period of time. Market interest rates change over time. Accordingly, our results of operations, like those of other financial institutions, are impacted by changes in interest rates and the interest rate sensitivity of our assets and liabilities. The risk associated with changes in interest rates and our ability to adapt to these changes is known as interest rate risk and is our most significant market risk.

As part of our attempt to manage our exposure to changes in interest rates and comply with applicable regulations, we monitor our interest rate risk. In monitoring interest rate risk we continually analyze and manage assets and liabilities based on their payment streams and interest rates, the timing of their maturities and/or prepayments, and their sensitivity to actual or potential changes in market interest rates.

In order to manage the potential for adverse effects of material and prolonged increases in interest rates on our results of operations, we adopted asset and liability management policies to better align the maturities and repricing terms of our interest-earning assets and interest-bearing liabilities. These policies are implemented by the asset and liability management committee. The asset and liability management committee is chaired by the treasurer and is comprised of members of our senior management. The asset and liability management policy establishes guidelines for the volume and mix of assets and funding sources taking into account relative costs and spreads, interest rate sensitivity and liquidity needs, while the asset and liability management committee monitors adherence to these guidelines. The objectives are to manage assets and funding sources to produce results that are consistent with liquidity, capital adequacy, growth, risk and profitability goals. The asset and liability management committee meets periodically to review, among other things, economic conditions and interest rate outlook, current and projected liquidity needs and capital position,

Table of Contents

anticipated changes in the volume and mix of assets and liabilities and interest rate risk exposure limits versus current projections pursuant to our net present value of equity analysis. At each meeting, the asset and liability management committee recommends appropriate strategy changes based on this review. The treasurer or his designee is responsible for reviewing and reporting on the effects of the policy implementations and strategies to the board of directors on a regular basis.

In order to manage our assets and liabilities and achieve the desired liquidity, credit quality, interest rate risk, profitability and capital targets, we have focused our strategies on:

- originating and purchasing adjustable-rate mortgage loans,
- originating shorter-term consumer loans,
- managing our deposits to establish stable deposit relationships,
- using FHLB advances to align maturities and repricing terms, and
- attempting to limit the percentage of fixed-rate loans in our portfolio.

At times, depending on the level of general interest rates, the relationship between long- and short-term interest rates, market conditions and competitive factors, the asset and liability management committee may determine to increase the Company's interest rate risk position somewhat in order to maintain its net interest margin.

As part of its procedures, the asset and liability management committee regularly reviews interest rate risk by forecasting the impact of alternative interest rate environments on net interest income and market value of portfolio equity, which is defined as the net present value of an institution's existing assets, liabilities and off-balance sheet instruments, and evaluating such impacts against the maximum potential changes in net interest income and market value of portfolio equity that are authorized by the Board of Directors of the Company.

Interest Rate Sensitivity of Economic Value of Equity and Net Interest Income

The following table presents the projected change in the Company's Economic Value of Equity as well as Net Interest Income at September 30, 2013 that would occur upon an immediate change in interest rates based on independent analysis, but without giving effect to any steps that management might take to counteract that change.

Change in Interest Rates in Basis Points (bp) (Rate Shock in Rates)(1)	Economic Value of Equity			Net Interest Income		
	\$ Amount	\$ Change	% Change	\$ Amount	\$ Change	% Change
	(\$ in thousands)					
+100 bp	344,094	(21,006)	(5.75)%	118,595	5,034	4.43%
0 bp	365,100			113,561		
-100 bp	383,400	18,300	5.01%	107,880	(5,681)	(5.00)%

(1) Assumes an instantaneous uniform change in interest rates at all maturities

As with any method of measuring interest rate risk, certain shortcomings are inherent in the method of analysis presented in the foregoing table. For example, although certain assets and liabilities may have similar maturities or periods to repricing, they may react in different degrees to changes in market interest rates. Also, the interest rates on certain types of assets and liabilities may fluctuate in advance of changes in market interest rates, while interest rates on other types may lag behind changes in market rates. Additionally, certain assets, such as adjustable rate

Edgar Filing: BANC OF CALIFORNIA, INC. - Form 10-Q

mortgage loans, have features which restrict changes in interest rates on a short-term basis and over the life of the asset. Further, if interest rates change, expected rates of prepayments on loans and early withdrawals from certificates of deposit could deviate significantly from those assumed in calculating the table.

The Company does not maintain any securities for trading purposes. The Company does not currently engage in trading activities. The Company does use derivative instruments to hedge its mortgage banking risks. In addition, interest rate risk is the most significant market risk affecting the Company. Other types of market risk, such as foreign currency exchange risk and commodity price risk, do not arise in the normal course of the Company's business activities and operations.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures: An evaluation of the Company's disclosure controls and procedures (as defined in Section 13a-15(e) of the Securities Exchange Act of 1934 (the "Act")) as of September 30, 2013 was carried out under the supervision and with the participation of the Company's Chief Executive Officer, Chief Financial Officer and other members of the

Table of Contents

Company's senior management. The Company's Chief Executive Officer and Chief Financial Officer concluded that, as of September 30, 2013, the Company's disclosure controls and procedures were effective in ensuring that the information required to be disclosed by the Company in the reports it files or submits under the Act is (i) accumulated and communicated to the Company's management (including the Chief Executive Officer and Chief Financial Officer) to allow timely decisions regarding required disclosure, and (ii) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms.

There were no changes in the Company's internal control over financial reporting (as defined in Rule 13a-15(f) under the Act) that occurred during the nine months ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

The Company does not expect that its disclosure controls and procedures and internal control over financial reporting will prevent all errors and fraud. A control procedure, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control procedure are met. Because of the inherent limitations in all control procedures, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within the Company have been detected. These inherent limitations include the realities that judgments in decision-making can be faulty, and that breakdowns can occur because of simple error or mistake. Additionally, controls can be circumvented by the individual acts of some persons, by collusion of two or more people, or by management override of the control. The design of any control procedure also is based in part upon certain assumptions about the likelihood of future events, and there can be no assurance that any design will succeed in achieving its stated goals under all potential future conditions; over time, controls may become inadequate because of changes in conditions, or the degree of compliance with the policies or procedures may deteriorate. Because of the inherent limitations in a cost-effective control procedure, misstatements due to error or fraud may occur and not be detected.

Table of Contents**PART II OTHER INFORMATION****ITEM 1. LEGAL PROCEEDINGS**

From time to time we are involved as plaintiff or defendant in various legal actions arising in the normal course of business. We do not anticipate incurring any material liability as a result of such currently pending litigation.

As previously reported in the Company's Annual Report on Form 10-K for the year ended December 31, 2012, on December 14, 2012, CMG Financial Services, Inc. (CMG) initiated a patent lawsuit against the Bank in the United States District Court for the Central District of California (styled *CMG Financial Services, Inc. v. Pacific Trust Bank, F.S.B., et al.*, Case No. 2:11-cv-10344-PSG-MRW) (the Action) alleging infringement of U.S. Patent No. 7,627,509 (the 509 Patent) of limited number of financial products previously offered by the Company. The 509 Patent relates to the origination and servicing of loans with characteristics similar to the Bank's Green Accounts. The Company and its counsel believe the asserted claim is without merit and the resolution of the matter is not expected to have a material impact on the Company's business, financial condition or results of operations, though no assurance can be given in this regard.

ITEM 1A. RISK FACTORS

There have been no material changes to the risk factors that appeared under Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2012.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

- (c) The following table sets forth information for the three months ended September 30, 2013 with respect to the repurchase of outstanding common stock.

ISSUER PURCHASES OF EQUITY SECURITIES

Period	Total # of shares Purchased	Average price paid per share	Total # of shares purchased as part of a publicly announced program	Maximum # of shares that may yet to be purchased
7/1/13-7/31/13	10,319	\$ 15.18		1,197,958
8/1/13-8/31/13	11,516	\$ 14.96		1,197,958
9/1/13-9/30/13	73,774	\$ 13.69	68,674	1,129,284
Total	95,609	\$ 14.00	68,674	1,129,284

The Company has purchased 95,609 shares during the three months ended September 30, 2013 at an average price of \$14.00 with a total cost of \$1.3 million, including fees, related to tax liability sales for employee stock benefit plans, consistent with past practices.

On September 5, 2013, the Company announced that its Board of Directors approved changes to the Company's previously announced share buyback program authorizing the Company to buy back, from time to time during the 12 months ending September 3, 2014, an aggregate amount representing up to 10% of the Company's currently outstanding common shares. The buyback program will include a 10b5-1 plan that was adopted by the Company on September 3, 2013 pursuant to which up to a maximum of 300,000 shares may be repurchased during the quarter ending December 31, 2013, subject to certain price and volume restrictions.
