You are being asked to elect three directors. The Board of Directors (the Board) is currently composed of nine directors and divided into three classes. The Class I directors are standing for election for a three year term at the Annual Meeting. The term of office for these Class I directors will expire at the Annual Meeting or until their successors are duly elected and qualified. All of our directors other than Mr. Owens are independent under New York Stock Exchange rules. Only independent directors serve on our Audit, Compensation, and Corporate Governance and Nominating Committees.

Vote required: Each director is elected by a plurality of the votes cast. However, if a nominee for director receives a greater number of votes withheld from his or her election than votes for such election, the director shall submit to the Board a letter of resignation for consideration. The Board of Directors recommends a vote FOR this proposal.

PROPOSAL 3 RATIFICATION OF APPOINTMENT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM (see page 62 for more information)

The Audit Committee has appointed KPMG LLP, as our independent registered public accounting firm for the fiscal year ending November 28, 2015. KPMG LLP has acted as our independent registered public accounting firm since 2004. Representatives of KPMG LLP will be present at the meeting and will have the opportunity to make a statement if they desire to do so and to respond to appropriate questions from shareholders.

The Board of Directors recommends a vote FOR this proposal.

2014 PERFORMANCE HIGHLIGHTS

Our focus is to accelerate profitable growth and we measure our results in large part by the metrics in our short-term incentive plan. Overall, in fiscal year 2014, the Company performed as follows:

Organic revenue grew by 3.1 percent year over year.

Adjusted operating income decreased 7.0 percent year-over-year.

Adjusted diluted earnings per share (EPS) from continuing operations decreased 9.7 percent year-over-year. Since fiscal 2010 our adjusted diluted EPS has increased at a compound annual rate of 9.9 percent.

Results were down versus the prior year due to a variety of factors including excess costs associated with the business integration project in Europe, Project ONE in North America and the organizational restructuring announced in the fourth quarter. For the 45th consecutive year, we implemented an increase in the amount of quarterly dividends we pay to shareholders, with a 19 percent increase this year.

The achievements in the financial metrics resulted in short-term incentive payouts for our CEO of 23.44% of target and ranged from 23.44% to 45.7% of target for our executive officers listed in the Summary Compensation Table in this Proxy Statement (the named executive officers or NEOs).

More information on our 2014 performance can be found on pages 30-31.

EXECUTIVE COMPENSATION PROGRAM (see pages 30-47 for more information)

Our executive compensation program is designed to provide a competitive compensation package that rewards executive officers for sustained financial and operating performance that creates long-term value for our shareholders. Highlights of our executive compensation program include:

Edgar Filing: FULLER H B CO - Form DEF 14A

A strong emphasis on paying for performance: Our short-term incentive program is a key way in which we pay for performance. In the *2014 Performance Highlights* section above, we

discuss our key metrics for the short-term incentive program. In fiscal 2014, we did not meet the thresholds for the EPS and Company operating income metrics. This resulted in a much lower short-term incentive payment for the CEO and NEOs than in the prior year. In addition, our grant of long-term incentive (stock options and restricted stock units) to our CEO contains a performance condition that must be met prior to the restricted units vesting. This performance condition was met for fiscal 2014 and previous years. Therefore, the restricted units will vest as long as Mr. Owens is employed by the Company on the vesting dates. Finally, our long-term incentive plan ties a significant portion of NEO total compensation to shareholder value creation, which is measured by stock price performance. See further discussion and detail in the *Compensation Discussion and Analysis* section of this Proxy Statement.

A policy regarding claw-backs of executive and key manager incentive compensation;

A prohibition on hedging, pledging and certain other transactions in the Company stock by directors and certain executive officers;

An emphasis on long-term equity awards to align the executives' interests with long-term goals and shareholder interests;

A prohibition on re-pricing of stock options; and

Stock ownership goals for our directors and executive officers.

QUESTIONS AND ANSWERS ABOUT THE MEETING

What is the purpose of the meeting?

At our annual meeting, shareholders will act upon the matters disclosed in the Notice of Annual Meeting of Shareholders that accompanies this Proxy Statement. These include the election of three directors, a non-binding advisory vote to approve the compensation of our named executive officers as disclosed in this Proxy Statement (the Say on Pay Proposal) and the ratification of the appointment of our independent registered public accounting firm.

We will also consider any other business that may properly be presented at the meeting, and management will report on H.B. Fuller's performance during the last fiscal year and respond to questions from shareholders.

How does the Board recommend that I vote?

The Board of Directors recommends a vote FOR each of the nominees for director, FOR the Say on Pay Proposal, and FOR the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for the fiscal year ending November 28, 2015.

Who is entitled to vote at the meeting?

If you were a shareholder of record at the close of business on February 11, 2015, you are entitled to vote at the meeting.

As of the record date, 50,384,520 shares of Common Stock were outstanding and eligible to vote.

What is the difference between a shareholder of record and a street name holder?

If your shares are registered directly in your name, you are considered the shareholder of record with respect to those shares.

If your shares are held in a stock brokerage account or by a bank or other nominee, you are considered the beneficial owner of those shares, and your shares are held in street name. If you are a street name holder you will receive a voting instruction card, which appears very similar to a proxy card. Please complete that card as directed in order to ensure your shares are voted at the meeting.

What are the voting rights of the shareholders?

Holders of Common Stock are entitled to one vote per share. Therefore, a total of 50,384,520 votes are entitled to be cast at the meeting. There is no cumulative voting for the election of directors.

How many shares must be present to hold the meeting?

A quorum is necessary to hold the meeting and conduct business. The presence of shareholders who can direct the voting of at least a majority of the outstanding shares of Common Stock as of the record date is considered a quorum. A shareholder is counted as present at the meeting if the shareholder is present and votes in person at the meeting or the shareholder has properly submitted a proxy by mail, telephone or Internet.

How do I vote my shares?

If you are a shareholder of record, you may give a proxy to be voted at the meeting either:

electronically, by following the instructions provided in the Notice of Internet Availability of Proxy Materials or proxy card; or

if you received printed proxy materials, you may also vote by mail or telephone as instructed on the proxy card. If you hold shares beneficially in street name, you may also vote by proxy over the Internet by following the instructions provided in the Notice of Internet Availability of Proxy Materials or, if you received printed proxy materials, you may also vote by mail or telephone by following the instructions provided in the voting instruction card provided to you by your broker, bank, trustee or nominee.

The telephone and Internet voting procedures have been set up for your convenience. The procedures have been designed to authenticate your identity, to allow you to give voting instructions, and to confirm that those instructions have been recorded properly. You may also vote in person at the meeting as described in *Can I vote my shares in person at the meeting?* below.

If you hold any shares in the H.B. Fuller Company 401(k) & Retirement Plan (sometimes referred to as the 401(k) Plan in this Proxy Statement), you are receiving or being provided access to, the same proxy materials as any other shareholder of record. However, your proxy vote will serve as voting instructions to the plan trustee. The shares held in the 401(k) Plan will be voted by the plan trustee.

What does it mean if I receive more than one Notice of Internet Availability of Proxy Materials, proxy card or voting instruction card?

It means you hold shares of H.B. Fuller stock in more than one account. To ensure that all of your shares are voted, sign and return each proxy card or voting instruction card or, if you vote by telephone or via the Internet, vote once for each proxy card, voting instruction card or Notice of Internet Availability of Proxy Materials you receive.

Can I vote my shares in person at the meeting?

Yes. If you are a shareholder of record, you may vote your shares at the meeting by completing a ballot at the meeting. However, even if you currently plan to attend the meeting, we recommend that you submit your proxy ahead of time so that your vote will be counted if, for whatever reason, you later decide to not attend the meeting.

If you hold your shares in street name, you may vote your shares in person at the meeting only if you obtain a signed proxy from your broker, bank, trustee or other nominee giving you the right to vote such shares at the meeting.

If you are a participant in the 401(k) Plan, you may submit a proxy vote as described above, but you may not vote your 401(k) Plan shares in person at the meeting.

What vote is required for the proposals to be approved?

Each director is elected by a plurality of the votes cast. However, if a nominee for director receives a greater number of votes withheld from his or her election than votes for such election, the director shall submit to the Board a letter of resignation for consideration. See the heading *Director Elections* in the *Corporate Governance* section of this Proxy Statement for more information. With respect to the Say On Pay Proposal and the ratification of the appointment of KPMG LLP as our independent registered public accounting firm, the affirmative vote of a majority of the shares of Common Stock represented and entitled to vote on each proposal is required, provided that the total number of shares of Common Stock that vote in favor of the proposal represents more than 25% of the shares outstanding on the record date.

How are votes counted?

Shareholders may either vote **FOR** or **WITHHOLD** authority to vote for each nominee for election to the Board of Directors. Shareholders may vote **FOR**, **AGAINST** or **ABSTAIN** on the Say on Pay Proposal and the ratification of the appointment of KPMG LLP.

If you vote **ABSTAIN** or **WITHHOLD**, your shares will be counted as present at the meeting for the purposes of determining a quorum. If you **ABSTAIN** from voting on a proposal, your abstention has the same effect as a vote against that proposal. If you **WITHHOLD** authority to vote for one or more of the nominees for director, this will have no effect on the election of any director from whom votes are withheld.

If you hold your shares in street name and do not provide voting instructions to your broker or nominee, your shares will be considered to be broker non-votes and will not be voted on any proposal on which your broker or nominee does not have discretionary authority to vote under the rules of the New York Stock Exchange. Shares that constitute broker non-votes will be present at the meeting for the purpose of determining a quorum, but are not considered entitled to vote on the proposal in question. Your broker or nominee has discretionary authority to vote your shares on the ratification of KPMG LLP as our independent registered public accounting firm even if your broker or nominee does not receive voting instructions from you. Your broker or nominee may not vote your shares on the election of directors or the Say on Pay Proposal without instructions from you.

What if I do not specify how I want my shares voted?

If you do not specify on your returned proxy card or voting instruction card (or when giving your proxy by telephone or via the Internet) how you want to vote your shares, we will vote them:

FOR all of the nominees for director;

FOR the Say on Pay Proposal;

FOR the ratification of the appointment of KPMG LLP as our independent registered public accounting firm for fiscal year ending November 28, 2015; and

with respect to such other matters that may properly come before the meeting, in accordance with the judgment of the persons named as proxies.

Can I change my vote?

Yes. If you are a shareholder of record, you may change your vote and revoke your proxy at any time before it is voted at the meeting in any of the following ways:

by sending a written notice of revocation to our Corporate Secretary;

by submitting another properly signed proxy card at a later date to our Corporate Secretary;

by submitting another proxy by telephone or via the Internet at a later date; or

by voting in person at the meeting.

If you are a street name holder, please consult your broker, bank, trustee or nominee for instructions on how to change your vote.

Who pays for the cost of proxy preparation and solicitation?

We pay for the cost of proxy preparation and solicitation, including the charges and expenses of brokerage firms or other nominees for forwarding proxy materials to beneficial owners of shares held in street name. We have retained The Proxy Advisory Group, LLC to assist in the solicitation of proxies for a fee of approximately \$10,000 plus associated costs and expenses.

We are soliciting proxies primarily by mail. In addition, proxies may be solicited by telephone or facsimile, or personally by our directors, officers and regular employees. These individuals will receive no compensation (other than their regular salaries) for these services.

Why did I receive a notice in the mail regarding the Internet availability of proxy materials instead of a full set of paper copies?

In accordance with rules adopted by the Securities and Exchange Commission (the "SEC"), we may furnish proxy materials to our shareholders by providing access to these documents on the Internet instead of mailing printed copies. In general, you will not receive printed copies of the materials unless you request them or you are a participant in the H.B. Fuller Company 401(k) & Retirement Plan. Instead, we mailed you the Notice of Internet Availability of Proxy Materials (unless you have previously consented to electronic delivery or already requested to receive paper copies), which instructs you as to how you may access and review all of the proxy materials on the Internet. The Notice of Internet Availability of Proxy Materials explains how to submit your proxy over the Internet. If you would like to receive a paper copy or e-mail copy of the proxy materials, please follow the instructions provided in the Notice of Internet Availability of Proxy Materials.

Are the proxy and related materials available electronically?

Yes.

PROPOSAL 1 ELECTION OF DIRECTORS

Proposal

The Board of Directors is currently composed of nine directors and is divided into three classes. Each year one class of directors stands for election for a three-year term. The term of office for Class I directors, consisting Thomas W. Handley, Maria Teresa Hilado and Ann W.H. Simonds, will expire at the annual meeting.

At the annual meeting, three persons are to be elected as Class I directors to hold a three-year term of office from the date of their election until the 2018 annual meeting or until their successors are duly elected and qualified. The three nominees for election as Class I directors are Thomas W. Handley, Maria Teresa Hilado and Ann W.H. Simonds, all of whom are currently directors. Each of the nominees has agreed to serve as a director if elected. Following the annual meeting, the Board will be

comprised of nine directors. Pursuant to our Company's Bylaws, no more than 15 persons may serve on the Board. For information on how a shareholder may suggest a person to be a nominee to the Board, see *How can a shareholder suggest a candidate for election to the Board?*

Unless earlier terminated due to retirement or resignation, the term of office for Class II directors, consisting of Dante C. Parrini, John C. van Roden, Jr. and James J. Owens will expire at the annual meeting in 2016, and the term of office for Class III directors, consisting of J. Michael Losh, Lee R. Mitau and R. William Van Sant, will expire at the annual meeting in 2017. All of the directors except Ms. Hilado and Ms. Simonds, who were appointed during fiscal 2013, were elected to the Board of Directors by the shareholders.

If, for any reason, any nominee becomes unable to serve before the election, the persons designated as proxies will vote your shares for a substitute nominee selected by the Board of Directors. Alternatively, the Board of Directors, at its option, may reduce the number of directors constituting Class I directors.

The Board of Directors recommends a vote FOR election of each of the nominees.

How can a shareholder suggest a candidate for election to the Board?

The Corporate Governance and Nominating Committee of the Board nominates all candidates for election to the Board. Generally, current directors or third party search firms engaged by the Corporate Governance and Nominating Committee identify candidates for consideration by the Committee. No third party search firm was engaged during fiscal 2014. The Corporate Governance and Nominating Committee will review all nominees to the Board of Directors, including an assessment of a nominee's judgment, experience, independence and such other factors as the Corporate Governance and Nominating Committee concludes are pertinent in light of the Board's needs. The Board of Directors believes that its membership should reflect a diversity of experience, skills, geography, gender and ethnicity. The Board of Directors considers each of these factors when evaluating director nominees and evaluates the makeup of the Board of Directors with regard to these factors on an ongoing basis as it searches for and asks director nominees to join the Board. The Corporate Governance and Nominating Committee will select qualified nominees and review its recommendations with the Board, which will decide whether to invite any nominee to join or stand for re-election to the Board. The Committee will consider candidates recommended by any shareholder using the same criteria set forth above. Recommendations may be sent to the Corporate Governance and Nominating Committee in care of the Corporate Secretary of H.B. Fuller. No shareholder recommended any candidate during fiscal year 2014.

CORPORATE GOVERNANCE

Corporate Governance Guidelines

The Board of Directors (the Board), upon recommendation of the Corporate Governance and Nominating Committee, has adopted Corporate Governance Guidelines, which summarize many of the corporate governance principles that the Board follows in governing H.B. Fuller. The guidelines are available for review on our website (www.hbfuller.com), in the *Governance* section of the Investor Relations page.

Code of Business Conduct

We have a Code of Business Conduct applicable to all of our directors and employees, including our principal executive officer, principal financial officer and principal accounting officer. A copy of this Code of Business Conduct is available for review on our website (www.hbfuller.com), in the *Governance* section of the Investor Relations page.

Communications with Directors

Any shareholder may contact the Board, independent directors as a group, any committee or an individual director, by mailing a letter addressed to the Board, independent directors, committee or individual director in care of the Corporate Secretary. The Corporate Secretary reviews all communications, and after ascertaining whether such communications are appropriate to the duties and responsibilities of the Board, will forward such correspondence to the directors for their information and consideration. The Board has requested that the Corporate Secretary not forward the following types of communications to the Board: general solicitations for business or products; job applications or resumes; and any other communication that does not relate to the responsibilities of the Board.

Director Independence

Pursuant to our Corporate Governance Guidelines and the listing standards of the New York Stock Exchange (NYSE), the Board has determined that all Board members, other than Mr. Owens, are independent. No director is considered independent unless the Board affirmatively determines that such director has no material relationship with H.B. Fuller. In assessing the materiality of any person's relationship with H.B. Fuller, the Board considers all relevant facts and circumstances, including not only direct relationships between H.B. Fuller and each director but also any relationships between H.B. Fuller and any entity with which a director is affiliated.

The Board reviewed certain transactions between H.B. Fuller and our directors and entities with which they are affiliated and determined that they were made or established in the ordinary course of business and that the directors had no direct or indirect material interest in the transactions. Mr. Handley, Ms. Hilado and Ms. Simonds recused themselves from this review and determination as it related to the entities with which they are affiliated. The Board considered customer-supplier transactions between: (i) the Company and Ecolab Inc., of which Mr. Handley is Senior Executive Vice President, (ii) the Company and PepsiCo, Inc., of which Ms. Hilado was a Senior Vice President for much of fiscal 2014, and (iii) the Company and General Mills, Inc. of which Ms. Simonds was a Senior Vice President. After consideration of these relationships, the Board of Directors determined that the directors had no direct or indirect material interest in the transactions. In addition, the dollar amounts involved in the transactions with Ecolab Inc., PepsiCo, Inc., and General Mills, Inc. fall below the thresholds set by the NYSE for director independence.

Meetings of the Board and Board Committees

Directors are expected to attend the Annual Meeting of Shareholders and all meetings (including teleconference meetings) of the Board and each committee on which they serve. During the 2014 fiscal

year, the Board held six meetings. The directors attended greater than 75% of the meetings of the Board and Board committees on which the directors served during the 2014 fiscal year. In addition, all of the directors attended our Annual Meeting of Shareholders held on April 10, 2014.

What are the roles of the Board's Committees?

The Board of Directors is responsible for the overall affairs of H.B. Fuller. The Board conducts its business through meetings of the Board and three standing committees: Audit; Compensation; and Corporate Governance and Nominating. The Board has adopted a written charter for each committee. The charters for each of these committees are available for review on our website (www.hbfuller.com) in the *Governance* section of the Investor Relations page. Information regarding the three standing committees is set forth below. When necessary, the Board may also establish ad hoc committees to address specific issues.

The Compensation Committee annually reviews and approves compensation for our non-employee directors including retainers, fees, stock-based awards, and other compensation and expense items.

The Compensation Committee may delegate its authority to the Chair of the Compensation Committee to accelerate vesting of outstanding awards. The Committee intends this delegation of authority to be for situations of retirement or termination, and where it is impractical to obtain participation by all Committee members.

The Compensation Committee may use outside compensation consultants to provide compensation advice, competitive survey data and other reference market information related to trends and competitive practices in executive compensation. Since April 2010, the Compensation Committee has used Buck Consultants, LLC, a wholly owned subsidiary of Xerox Corporation, to provide ongoing advice and information regarding design and implementation of the Company's executive compensation programs as requested by the Compensation Committee.

The Compensation Committee retained Buck Consultants to be its independent compensation consultant due to their independence and industry experience. Buck Consultants advises the Committee on director and executive compensation, but does no other work for the Company. The Company uses Towers Watson for actuarial, benefits, medical plan and employee engagement survey consulting services. During fiscal 2014, we purchased broad-based market compensation survey information from Towers Watson and Hewitt Associates. See discussion in the *Compensation Discussion and Analysis* section of this Proxy Statement.

The Compensation Committee believes that Buck Consultants provided candid, direct and objective advice to the Compensation Committee. To ensure independence:

The Compensation Committee directly hired and has the authority to terminate Buck Consultants

Buck Consultants is engaged by and reports directly to the Compensation Committee and its chairman

None of the members of the Compensation Committee have a business or personal relationship with the Buck Consulting consultant with whom the Committee works, outside of work he provides for the Compensation Committee. The consultant does not have any business or personal relationship with any executive officer of the Company and he does not own any stock in the Company.

The amount of fees that Buck Consultants receives for work performed for the Company is de minimis as a percentage of Buck Consultants' annual revenue

Buck Consultants does only work for the Compensation Committee that falls within the scope of work of the service agreement. No other work will be initiated without the Committee's approval.

Buck Consultants has direct access to all members of the Compensation Committee during and between meetings

No employee of Buck Consultants works for the Company

The Compensation Committee has approved direct interaction between Buck Consultants and management; however, these interactions are generally limited to discussions on behalf of the Compensation Committee and information that is presented to the Compensation Committee for approval

In addition, the Compensation Committee has assessed the independence of Buck Consultants pursuant to SEC rules and concluded that no conflict of interest exists that would prevent Buck Consultants, or the individual advisor employed by Buck Consultants with whom we work, from independently representing the Compensation Committee.

A representative of Buck Consultants generally attends Compensation Committee meetings to serve as a resource for the Compensation Committee. In order to encourage independent review and discussion of executive compensation matters, the Compensation Committee and the committee chair may request meetings with the independent compensation consultant in executive session without management present.

During fiscal 2014, the Compensation Committee asked Buck Consultants to conduct a review and analysis of non-employee director compensation. Buck Consultants presented information regarding director compensation to the Compensation Committee, provided a market data report on director compensation and presented its findings and recommendations for discussion. Buck Consultants provided these services and reported directly to the Compensation Committee Chair.

All of the members of the Compensation Committee are considered independent as that term is defined by our Corporate Governance Guidelines and the listing standards of the NYSE. The Compensation Committee Report for fiscal year 2014 is included in this Proxy Statement.

Corporate Governance and Nominating Committee

J. Michael Losh
Dante C. Parrini

John C. van Roden, Jr.
R. William Van Sant

Number of Meetings in fiscal year 2014: Four

Functions: The Corporate Governance and Nominating Committee reviews matters of corporate governance, including our organizational structure and succession planning. This Committee evaluates and recommends new director nominees and evaluates each current director prior to nominating such person for re-election. The Corporate Governance and Nominating Committee reviews a director's continued service if a director's occupation changes during his or her term. This Committee also evaluates the performance of the Chairman of the Board, the President and Chief Executive Officer, and the directors, and makes recommendations to the Board regarding any shareholder proposals. During fiscal 2014, the Corporate Governance and Nominating Committee recommended, and the Board approved, a plurality plus standard with regard to the election of directors in uncontested elections. Please see the heading *Director Elections* in this section below.

The Corporate Governance and Nominating Committee considers shareholder recommendations for potential director nominees. See *How can a shareholder suggest a candidate for election to the Board?*

All of the members of the Corporate Governance and Nominating Committee are considered independent as that term is defined by our Corporate Governance Guidelines and the listing standards of the NYSE.

Board's Role in Oversight of Risk

In General

The Board believes that effective enterprise risk management must be an integral part of Board and Committee deliberations and activities throughout the year. As part of the enterprise risk management, the Board engages in the following activities throughout the fiscal year:

The full Board of Directors reviews the Company's enterprise risk management process and a comprehensive assessment of key financial, operational and strategy risks identified by management, as well as mitigating practices.

The full Board of Directors discusses risks related to the Company's annual financial plan and budget each fiscal year and risks related to the Company's strategy at meetings where the strategy is presented and reviewed.

The Board of Directors also encourages management to promote a corporate culture that integrates risk management into the Company's strategy and day-to-day business operations in a way that is consistent with the Company's targeted risk profile.

Each committee conducts its own risk assessment and management activities throughout the year (some of which are highlighted in the section on Board committees above), and reports its conclusions to the Board.

Through these processes, the Board oversees a system to identify, assess and address material risks to the Company on a timely basis. In fiscal year 2011 and again in fiscal 2013, management conducted comprehensive reviews of our enterprise risk management activities and reviewed those activities and findings with our Board. As a result of these reviews, additional resources were committed to the risk management program and focus was put on the highest risk areas. After the 2013 review, some risks were deemed adequately mitigated through action plans and audit reviews. During 2014, the Company continued to focus resources and remedial actions on the issues deemed to be the highest risk areas for the Company. In addition, the Board's leadership structure, as described below in the section titled *Board Leadership Structure* supports its role in risk oversight. The Company presently has a separate Chairman of the Board and Chief Executive Officer. When those positions are combined, we have an independent Presiding Director. We have strong independent directors chairing each of our Board Committees, all of which are involved in risk oversight, and there is open communication between management and the non-employee directors.

Risk Assessment of Compensation Programs

Management conducted a risk assessment of the Company's policies and programs relating to the compensation of employees, including those that apply to our executive officers, with a focus on those programs that had changed from the prior fiscal year review. The format of this review was similar to that conducted in the prior fiscal year which was discussed with and approved by the Compensation Committee.

Management discussed the findings of the risk assessment review with the Compensation Committee. Based on the assessment, the Company believes that its compensation policies and practices create an appropriate balance among our base salary compensation, short-term incentive compensation and long-term incentive compensation, thereby reducing the possibility of imprudent risk-taking and that its compensation policies and practices do not create risks that are reasonably likely to have a material adverse effect on the Company.

Board Leadership Structure

Our Corporate Governance Guidelines provide that the Board of Directors has no policy with respect to the separation of the offices of Chairman and Chief Executive Officer. Separation of these

offices is an issue that is to be addressed as part of the Company's succession planning. When the Chairman and Chief Executive Officer are separate offices, the Chairman will serve as the Presiding Director. However, when the Chief Executive Officer also holds the position of Chairman, a Presiding Director will be appointed by the Board to further the achievement of a strong, independent Board with an appropriate balance between the Board and the Chief Executive Officer. In such cases, the Chair of the Corporate Governance and Nominating Committee shall serve as the Presiding Director.

Mr. Mitau has served as our independent Chairman of the Board since December 2006 and, in this capacity, has acted as the Presiding Director at Board of Director meetings and during executive sessions of the non-management directors. Our Board has separated the roles of Chairman of the Board and Chief Executive Officer since 2006 because our current Chief Executive Officer and our previous Chief Executive Officer both had limited public company chief executive officer experience at the time of each of their elections to the Board. Mr. Mitau serves as the Chairman of the Board of Graco Inc. and has significant public company experience. The Chief Executive Officer, in consultation with the Chairman, establishes the agenda for each Board meeting. At the beginning of each fiscal year, the Chairman also publishes a schedule of topics to be discussed. In addition, Mr. Van Sant has served as Vice Chairman of the Board since fiscal 2011 and in this role he provides special assistance, oversight and guidance to the Chairman of the Board in performing the duties of the Chairman, and he provides counsel to the Chief Executive Officer.

Director Elections

With respect to the election of directors, during fiscal 2014, our Board adopted a so-called "plurality-plus" standard. In accordance with procedures set forth in our Corporate Governance Guidelines, at any shareholder meeting at which directors are subject to an uncontested election (*i.e.*, an election where the only nominees are those recommended by the Board), any nominee for director who receives a greater number of votes withheld from his or her election than votes for such election shall submit to the Board a letter of resignation for consideration by the Corporate Governance and Nominating Committee. The Corporate Governance and Nominating Committee shall promptly consider the resignation offer and recommend to the full Board whether to accept it. In considering whether to accept or reject the resignation offer, the Corporate Governance and Nominating Committee will consider all factors deemed relevant by members of the Corporate Governance and Nominating Committee, including, without limitation, (i) the perceived reasons why shareholders withheld votes for election from the director, (ii) the length of service and qualifications of the director, (iii) the director's contributions to the Company, (iv) compliance with listing standards, (v) the purpose and provisions of these guidelines, and (vi) the best interests of the Company and its shareholders. To the extent that one or more directors' resignations are accepted by the Board, the Corporate Governance and Nominating Committee will recommend to the Board whether to fill such vacancy or vacancies or to reduce the size of the Board. Any director who tenders his or her offer to resign from the Board pursuant to this provision shall not participate in the Corporate Governance and Nominating Committee or Board deliberations regarding whether to accept the offer of resignation. The Board will act on the Corporate Governance and Nominating Committee's recommendation within 90 days following the certification of the shareholder vote by the Inspector of Elections, which action may include, without limitation, acceptance of the offer of resignation, adoption of measures intended to address the perceived issues underlying the vote, or rejection of the resignation offer. Thereafter, the Board will publicly disclose its decision whether to accept the director's resignation offer.

CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS

The Board of Directors has a written policy and procedures for the review, approval or ratification of transactions with executive officers, directors and nominees for director and their immediate family members. In general, the policy provides that certain transactions with these related persons and their immediate family members and certain transactions with any person who is a security holder known to us to be the beneficial owner of more than five percent of any class of our stock, are subject to the review, approval and/or ratification of the disinterested members of the Audit Committee. If ratification of a transaction is not forthcoming, management must make all reasonable efforts to cancel or annul that transaction. If a transaction with a related party is entered into without the pre-approval of the Audit Committee, it shall not be deemed to violate these policies and procedures, or be invalid or unenforceable, so long as the transaction is brought to the Audit Committee for ratification as promptly as reasonably practical after it is entered into or brought to the Company's attention. All executive officers and directors of H.B. Fuller are informed in writing on an annual basis of these policies and procedures. The Audit Committee may use any process and review any information that it determines is reasonable in order to determine if a transaction is fair and reasonable and on terms no less favorable to H.B. Fuller than could be obtained in a comparable arm's length transaction with a third party unrelated to H.B. Fuller.

In addition, on an annual basis, each of our directors and executive officers completes a questionnaire and discloses information regarding entities with which they and their immediate family members are affiliated. Any person nominated for election as a director must complete a questionnaire no later than the date he or she becomes a member of the Board of Directors. Any person who becomes an executive officer must complete a questionnaire as soon as reasonably practicable thereafter.

Our Audit Committee annually reviews all transactions and relationships disclosed in the director and officer questionnaires and approves or ratifies, as applicable, any transactions with related persons. The Board of Directors makes a formal determination regarding each director's independence.

During fiscal year 2014, we had transactions, arrangements and relationships with entities with which some of our related persons, specifically certain of our directors, are affiliated. However, in accordance with the procedures in the Company's policy, the Audit Committee determined that those related persons had no direct or indirect material interest in those transactions, arrangements and relationships.

DIRECTOR COMPENSATION

The form and amount of compensation for each director is determined and reviewed at least annually by the Compensation Committee. Such compensation reflects the practices of boards of similar public companies and is comprised of cash and H.B. Fuller Common Stock (or its equivalents). Similar to our executive compensation policy, the practice of generally aligning to the market median/50th percentile also applies to our director compensation.

2014 Review of Director Compensation

The Compensation Committee uses Buck Consultants, LLC, a wholly owned subsidiary of Xerox Corporation, to provide ongoing advice and information regarding design and implementation of the Company's executive and director compensation programs as requested by the Compensation Committee. See further discussion regarding the Compensation Committee's independent consultant under the heading *Compensation Committee* in the Corporate Governance section in this Proxy Statement. At its July 2014 meeting, the Compensation Committee reviewed a market analysis conducted by Buck Consultants relating to director compensation, including annual board retainers, committee chair retainers and annual stock-based awards. The market analysis included our peer group (see section titled *Executive Compensation Compensation Discussion and Analysis Competitive Market Peer Group Data* in this Proxy Statement), a subset of our peer group with revenues under \$4.1 billion and the 2013 Frederic W. Cook & Company Director Compensation Report: Non-Employee Director Compensation Across Industries and Size (which includes 300 companies: 100 Small Cap (Less than \$1B), 100 Mid Cap (\$1B - \$5B) and 100 Large Cap (Greater than \$5B)). The mid cap company information was the primary point of reference.

After a review of the market comparison data, the Compensation Committee determined the Directors' current compensation program was slightly below the market median and decided to increase annual cash retainer from \$75,000 to \$90,000 and to increase the annual equity-based award value from \$80,000 to \$90,000. This positions total compensation for a typical director competitively with peer companies with annual revenues less than \$4.1 billion. The change to the annual cash retainer was effective for the fourth quarter of fiscal 2014 and the change to the value of the equity-based award was effective for the grant made in July 2014. All other forms of compensation remain unchanged.

Cash Fees

The fees paid to our non-employee directors are set forth in the table below. Mr. Owens, our President and Chief Executive Officer, does not receive separate compensation for serving as a director or for attendance at any meeting.

The following fees are paid to our non-employee directors:

<u>Annual Cash Retainers</u>	
Board Member	\$ 90,000
Non-Executive Chairman	\$ 70,000
Non-Executive Vice Chairman	\$ 30,000
Audit Committee Chair	\$ 20,000
Compensation Committee Chair	\$ 12,000
Corporate Governance and Nominating Committee Chair	\$ 12,000
<u>Equity Awards</u>	
Annual Award of Restricted Common Stock or Common Stock units	Valued at \$90,000
One-time Initial Award of Restricted Stock	1,300 shares

Expense Reimbursement

We also reimburse each director for any out-of-pocket expenses related to attendance at any meeting or arising from other H.B. Fuller business.

Equity Awards

In addition to the board and chair retainers described above, the Board believes it is important that each director have an economic stake in our Common Stock. As a result, the Compensation Committee typically makes an annual grant of shares of restricted Common Stock or an award of Common Stock units to each non-employee director. On July 8, 2014, the Compensation Committee made a discretionary award of 1,877.35 Common Stock units to each non-employee director under the H.B. Fuller Company Directors' Deferred Compensation Plan (DDCP). This plan is described below. For this award, the Committee approved an award value of \$90,000 per director (based on a review of market data), which was divided by the fair market value of our Common Stock on the date of grant to determine the number of units awarded.

In addition, each non-employee director typically receives a one-time grant of restricted H.B. Fuller Common Stock (or its equivalent) upon his or her initial election to the Board. These Common Stock (or its equivalent) awards are granted under our 2009 Director Stock Incentive Plan, which is described below. In general, these shares vest three years from the date of grant subject to continued service during that period.

Directors' Deferred Compensation Plan

Under this plan, directors may elect to defer all or a percentage of their board and chair retainers. Deferred amounts are credited with gains and losses based on the performance of certain mutual funds or H.B. Fuller Common Stock as elected by the director prior to deferring any fees. Directors who elect their retainers to be deferred into H.B. Fuller Common Stock units as an investment are credited with phantom stock units that will be paid out in shares of Common Stock. Phantom stock units are credited with dividend equivalents equal to the amount of dividends, if any, paid on an equal number of shares of H.B. Fuller Common Stock. The dividend equivalents are converted into additional phantom stock units based on the fair market value of H.B. Fuller Common Stock on the dividend payment date. If a participant elects to defer retainers into the H.B. Fuller Common Stock account in this plan, we make a 10% matching contribution of additional phantom stock units to the amount invested in H.B. Fuller Common Stock by the director. The phantom stock units credited to the directors' accounts do not have voting rights. In addition, the Compensation Committee may make discretionary contributions to a participant's H.B. Fuller Common Stock account under this plan. As described above, during fiscal year 2014, the Committee exercised this discretion and awarded each non-employee director 1,877.35 Common Stock units under this plan.

Any amounts deferred under this plan are paid in shares of Common Stock or cash (depending on the election made by the director) at the earliest to occur of:

The later of the date of the director's retirement (that is, the date of resignation or removal from the Board or the end of the director's elected term) or such other date as elected and specified by the director, which is subject to approval by the Compensation Committee and is made only at the time of the director's initial elections and is irrevocable;

disability;

death;

the date of a change in control of H.B. Fuller; or

the date of termination of the plan.

2009 Director Stock Incentive Plan

Under this plan, we may issue to non-employee directors restricted stock, restricted stock units, options, stock appreciation rights, performance awards or other stock-based awards. In addition, shares of H.B. Fuller Common Stock are issued under this plan to satisfy any requirements under the DDCP. The Compensation Committee determines the type, amount and other terms and conditions of any awards under this plan.

Physical Examinations

Non-employee directors are reimbursed for a preventative/diagnostic annual physical examination and local travel expenses. In fiscal year 2014, no non-employee directors received reimbursement for a physical examination.

Matching Gifts to Educational, Arts and Cultural Organizations Program

Under this program, we match a non-employee director's contributions (up to \$1,000) to eligible educational, arts and cultural institutions. These amounts are shown in the *All Other Compensation* column of the *Director Compensation Table* in this Proxy Statement.

Stock Ownership Guidelines

We have goals for stock ownership by all non-employee directors. Our goal for director stock ownership is five times the annual board retainer within five years of becoming a director. A review of director stock ownership was conducted using June 30, 2014 stock values. At the time of this review, all directors, except Mr. Parrini (who joined the board in 2012) and Ms. Hilado and Ms. Simonds (who both joined the board in 2013) had met or exceeded this goal.

EXECUTIVE COMPENSATION

Compensation Discussion and Analysis

Executive Summary

This Compensation Discussion and Analysis describes the material elements of compensation awarded to each of our executive officers listed in the Summary Compensation Table in this Proxy Statement (the named executive officers or NEOs). This discussion and analysis focuses on the information contained in the tables and accompanying footnotes and narrative for fiscal year 2014 which follows. We discuss compensation actions taken during fiscal years 2013 and 2015 to the extent they enhance the understanding of our executive compensation program for fiscal year 2014.

Elements of Executive Compensation. We use base salary, a short-term incentive plan and a long-term incentive plan with equity grants to attract and motivate our executive officers to achieve results that are in the best long-term interests of our shareholders. We generally align with the market median for the three main elements of compensation, and we review these elements each year. The emphasis on short-term and long-term incentive compensation reflects our pay-for-performance philosophy.

Fiscal 2014 Business Results. Our focus is to accelerate profitable growth based on three main strategies:

to grow organically by targeting our growth efforts on specific segments where we see opportunity for competitive strength;

to manage margins by not allowing growth to come at the expense of margins; and

to efficiently deploy cash generated that returns additional value to shareholders.

We measure our success in these areas in large part by the metrics used in our short-term incentive plan. As it relates to our short-term incentive plan, organic revenue is a measure that focuses on our growth without taking into account acquisitions or foreign currency fluctuations. Operating income is a measure of operational effectiveness and profitability, and earnings per share is an overall measurement of profitability and of the effectiveness of the three strategies listed above. Overall, in fiscal year 2014, the Company performed as follows:

Organic revenue grew by 3.1 percent year over year.

Adjusted operating income decreased 7.0 percent year-over-year.

Adjusted diluted earnings per share (EPS) from continuing operations decreased 9.7 percent year over-year. Since fiscal 2010 our adjusted diluted EPS has increased at a compound annual rate of 9.9 percent.

For our overall company metrics, we did not meet our budgeted expectations with regard to Company operating income and EPS. We exceeded the threshold level for the Company organic revenue target. In addition, some business level targets were met or exceeded. Results were down versus the prior year due to a variety of factors, including excess costs associated with the business integration project in Europe, Project ONE in North America and the organizational restructuring announced in the fourth quarter. For the 45th consecutive year, we implemented an increase in the amount of quarterly dividends we pay to shareholders, with a 19 percent increase this year.

The achievements in the financial metrics discussed above resulted in short-term incentive payouts for our CEO of 23.44% of target and ranged from 23.44% to 45.7% of target for our other NEOs. Our short-term incentive plan is a key way we link pay for performance to compensation for our NEOs.

Please also see *Management's Discussion and Analysis of Financial Conditions and Results of Operations* section in our Annual Report on Form 10-K for more information on our fiscal 2014 financial performance.

Fiscal 2014 Compensation Actions. In setting the financial metrics for our short-term incentive plan for fiscal year 2014, our Compensation Committee reviewed company performance expectations and budgeted targets. The annual short-term incentive award targets were set based on predetermined ranges for the achievement of EPS, organic revenue, operating income and gross margin targets. In addition, EBITDA was added as a metric for one of our NEOs. The targets that were set were considered to be challenging, but achievable. See section below titled *Analysis of Fiscal 2014 Short-Term Incentive Awards* for a description of the targets and actual results.

Executive Compensation Best Practices. The Company's compensation program includes several best practices, such as:

a policy regarding clawbacks of executive and key manager incentive compensation which allows the Compensation Committee the discretion to claw back incentive-based compensation in the event that there is a material restatement of the Company's financial statements or in the event of misconduct by an executive officer or key manager;

a prohibition on hedging, pledging and certain other transactions in the Company stock by directors and certain executive officers, including all of the NEOs;

an emphasis on long-term equity awards to align the executives' interests with long-term goals and shareholder interests, with the CEO's long-term equity grant including a performance-based vesting restriction;

a prohibition on repricing of stock options; and

stock ownership goals for our directors and executive officers, which are reviewed annually.

Philosophy

The philosophy of our executive compensation program is to provide a competitive compensation package that rewards executive officers for sustained financial and operating performance that creates long-term value for our shareholders. We have designed and implemented our compensation programs for our executive officers to meet three principal goals:

Attract and retain qualified executive officers;

Motivate these individuals to achieve short-term and long-term corporate goals, without undue risk-taking; and

Promote equity among executive officer positions, while considering external competitiveness and differences in job responsibilities. To meet these goals, H.B. Fuller has the following guidelines:

Pay compensation that is competitive with the practices of companies in a broad number of industries, as well as in the chemical industry, with revenues comparable to our revenues;

Pay for performance by setting challenging performance goals for our executive officers and providing a short-term incentive plan that is based upon achievement of these goals; and

Provide long-term incentives in the form of stock options and restricted stock units that are designed to increase long-term shareholder value by aligning the interests of our executive officers with those of our shareholders.

We strive to keep the target value of each individual element of compensation at or near the market median/50th percentile.

Competitive Market

We use several surveys and data points when we review executive compensation as described below.

General Survey Data. We define our market as a broad range of companies across various industries in the \$1-3 billion revenue category. We chose this revenue category because revenue from our prior fiscal year was in this range and revenue from fiscal 2014 was expected to be in this range. The Compensation Committee uses published survey data from the following sources for our executive compensation analysis:

Aon Hewitt (\$1 - 2.49 billion revenue category for corporate positions and relevant revenue categories for non-corporate positions)

Towers Watson (\$1 - 3 billion revenue category for corporate positions and relevant revenue categories for non-corporate positions)
 H.B. Fuller participates in both of these surveys. The Aon Hewitt survey includes 472 companies and is titled "Total Compensation Measurement (TCM) Executive Total Compensation by Industry - United States 2013"; and the Towers Watson survey includes 442 companies and is titled "2013 Compensation Data Bank (CDB) General Industry Executive Compensation Single Regression Survey Report - U.S."

In the case of Mr. Kenny, our Senior Vice President, Europe, India, Middle East & Africa (EIMEA), the Compensation Committee reviews his total compensation relative to the market approximately every other year. In 2014, market data was provided by Towers Watson for a profit center head for the EIMEA region. As a result of this review, Mr. Kenny's short-term incentive target was increased from 50% to 65% of base salary to better align with market. No other changes were made to Mr. Kenny's compensation.

| Celanese Corp. | International Flavors & Fragrances Inc. | Sigma-Aldrich Corp. |
| Cytec Industries Inc. | Olin Corp. | Valspar Corp. |

These companies represent global, publicly-traded chemical and allied products companies in the 2800 Standard Industrial Classification Code with revenues between \$1.16 billion to \$13.25 billion (for the most recent fiscal year). During 2014, we removed Celanese Corp., Eastman Chemical Co. and Ecolab Inc. from our peer group because their revenues were at the high end of the group. We added Graco Inc. and Nordson Corporation as these two companies share common characteristics with the Company and serve as good comparators for compensation purposes. These changes also moved the Company to the 35th percentile (for annual revenue) of the peer group. We had previously been below the 25th percentile in annual revenue. The revised peer group has a revenue range between \$1.16 billion to \$6.14 billion (for the most recent fiscal year). The revised peer group will be used for future compensation reviews.

Use of Market Data in Fiscal 2014

When analyzing compensation paid to NEOs, the Compensation Committee uses specific data that matches revenue and job responsibilities from the published surveys named above, based on availability, by position. For fiscal 2014, the above-referenced survey data used by the Compensation Committee to review total compensation (base salary, short-term incentive compensation and long-term incentive compensation) for our executive officers showed that our total compensation was generally in line with the market data matched according to revenue and job responsibilities.

In addition, for the NEOs, management and the Compensation Committee used the peer group data, in conjunction with the general surveys, as a reference point for compensation design considerations. This data was derived from the most recent proxy statement available for each peer company. However, the primary data sources for pay level information for all of our executive officers are the survey sources listed in the section titled *General Survey Data*.

The Compensation Committee uses survey data and peer group data because these sources of data are considered reliable market information. When we refer to market data in the rest of this Compensation Discussion and Analysis, unless otherwise noted, we are referring to the *General Survey Data* and the *Peer Group Data* discussed above.

Compensation Process

The Compensation Committee reviews and approves all elements of compensation for our CEO, taking into account the Board of Directors review and assessment of the performance of the CEO as well as competitive market data and information from our human resources personnel and the Compensation Committee's independent compensation consultant. The Compensation Committee also reviews and approves all elements of compensation for our other executive officers using the same sources noted above and taking into account the recommendations of the CEO.

In determining the particular elements of compensation that will be used to implement our overall compensation policies, the Compensation Committee takes into consideration factors related to our performance, such as our earnings and revenue growth, and business-unit-specific operational and financial performance. Other considerations include our business objectives, corporate responsibilities (including equity among executive officer positions and affordability), competitive practices and trends, and local legal requirements. In deciding on the type and amount of compensation for each executive officer, the Compensation Committee focuses on both the current pay and the opportunity for future pay, and combines the compensation elements for each executive officer in a manner that optimizes the executive officer's contribution to the Company.

The Compensation Committee on occasion meets with the CEO and/or certain other executive officers to obtain recommendations with respect to our compensation program, practices and packages for executive officers and directors. The Compensation Committee considers, but is not bound to and does not always accept, management's recommendations with respect to executive compensation. The CEO typically attends the Compensation Committee's meetings, except when his compensation package is discussed. In addition, the Compensation Committee also holds executive sessions not attended by any members of management, including the CEO.

The Role of Shareholder Say on Pay Votes. The Company provides its shareholders with the opportunity to cast an annual advisory vote on executive compensation (a Say on Pay Proposal). At the Company's annual meeting of shareholders held in April 2014, 93.9% of the votes cast on the Say on Pay Proposal were voted in favor of the proposal. The Compensation Committee believes this is an overall endorsement by the shareholders of support of the Company's approach to executive

compensation, and did not change its approach materially in fiscal year 2014. The Compensation Committee will continue to take into account the outcome of the Company's Say on Pay Proposal votes when making future compensation decisions for the NEOs.

Compensation Consultant

The Compensation Committee uses Buck Consultants, LLC, a wholly owned subsidiary of Xerox Corporation, to provide ongoing advice and information regarding design and implementation of the Company's executive compensation programs as requested by the Compensation Committee. See further discussion regarding the Compensation Committee's independent consultant under the heading *Compensation Committee* in the Corporate Governance Section in this Proxy Statement. In this Proxy Statement, we discuss the use of compensation consultants when the Compensation Committee utilized its independent consultant for a specific project. In addition, from time to time, management receives information from the compensation consultant in preparation for Compensation Committee meetings.

Key Elements of the Executive Compensation Program

The key elements of the executive compensation program are:

Purpose	Considerations
<p>Base salary</p> <p>Attract and retain high caliber executive talent with competitive fixed compensation. Base salary is not performance based.</p>	<p>Each NEO's job is positioned in a salary grade based upon market data and an analysis of the related job responsibilities. Salary ranges are established to generally reflect competitiveness at the market median/50th percentile. Within these salary ranges, base salaries are set considering the experience and skills each NEO brings to the position. Salary increases are determined considering individual performance.</p>
<p>Short-term incentive (cash bonus)</p> <p>Aligns executive performance with achievement of annual company strategic goals and objectives and provides financial reward for meeting or exceeding specific metrics. Payouts are dependent on achievement of predetermined annual financial performance goals, which are aligned with long-term targets.</p>	<p>Short-term incentive awards are set for each executive officer so that the expected payout at target performance levels would result in competitive market levels of such compensation. Payments under the short-term incentive plan can range from no payment to a payment higher than the target, based upon actual results.</p> <p>The annual short-term incentive plan is designed to achieve several goals, including emphasizing the Company's commitment to competitive compensation practices, driving a high performance culture and ensuring accountability. The short-term incentive plan places emphasis on achievement of financial metrics and focuses attention on business results. It also reinforces the importance of measurable and aligned goals and objectives.</p>
<p>Long-term incentive (stock options and restricted stock units)</p> <p>Stock options and restricted stock units attract, retain and reward high caliber executive talent; ownership of common stock encourages long-term strategic decision making that is aligned with shareholder interests.</p>	<p>Our long-term incentive plan ties a significant portion of our executive officers' total compensation to shareholder value creation, as measured by stock price performance. The combination of stock options and restricted stock units provides an appropriate balance between performance-based rewards and retention. Prior to fiscal 2014, the long-term incentive awards were made in either restricted stock or restricted stock units, depending on location and retirement eligibility. The Compensation Committee decided to move to awards of restricted stock units only beginning in fiscal 2014 to better match market practice and to ensure consistency of awards.</p>

Purpose	Considerations
<p>Stock options and restricted stock units reward for performance and promote stock ownership.</p>	<p>Increase in H.B. Fuller Common Stock price increases value of options and restricted stock unit awards (and restricted stock awards for grants prior to fiscal 2014). CEO annual grant contains a performance goal which must be achieved before restricted stock and restricted stock units may vest.</p>
<p>Other Benefits (includes additional executive retirement and deferred compensation plans, severance, change-in-control and other perquisites)</p>	
<p>Attract and retain high caliber executive talent. These benefits are not performance-based.</p>	<p>In order to attract and retain high caliber executive talent, we provide NEOs market competitive perquisite and other benefit programs. We also provide some of these benefits to assist our executive officers so that they may efficiently use their time on H.B. Fuller business. Our U.S.-based NEOs participate in the same health and welfare programs as all other U.S.-based H.B. Fuller employees.</p>
<p>The graph below shows the percentage of each of the main elements of total compensation (base salary, short-term incentive, long-term incentive (stock options and restricted stock units)) as measured by actual amounts paid in fiscal 2014 for the CEO and the other NEOs as set forth in the <i>Summary Compensation Table</i> in this Proxy Statement.</p>	

Additional information regarding base salary, short-term incentive compensation and long-term incentive compensation follows.

Fiscal 2014 Base Salaries

In General. In January of each year, the Compensation Committee reviews and considers the annual performance of the CEO and the other NEOs. The effective date of annual merit increases is February 1st. In April, the Compensation Committee reviews the overall compensation (base salary, short-term incentive, long-term incentive and high-level review of perquisites) of all of the executive officers (including the NEOs) for market competitiveness.

The amount of annual base salary and year-over-year increase for each of the NEOs in fiscal year 2014 is set forth in the following table.

Named Executive Officer	Base Salary as of 12/1/2013 (\$)	Base Salary as of 2/1/2014 (\$)	Percent Increase from 12/1/2013 to 2/1/2014 (%)	Additional increase for car allowance effective 6/1/2014 ¹
James J. Owens	862,500	950,000	10.14%	18,000
James R. Giertz	540,000	561,600	4.00%	14,400
Patrick J. Trippel	420,000	432,600	3.00%	14,400
Traci L. Jensen	420,000	432,600	3.00%	14,400
Steven Kenny ²	418,492	431,047	3.00%	n/a

- (1) Effective June 1, 2014, the Compensation Committee decided to eliminate the car allowance for U.S. based executives due to declining market prevalence and to reduce the number of perquisites paid to executives. At that time, the amount paid for car allowance was added to each NEO's salary. Market practice in the EIMEA region supports a car allowance for Mr. Kenny and therefore this perquisite was not eliminated in that region.
- (2) Non U.S.-based compensation paid to Mr. Kenny is denominated in British Pounds Sterling and has been converted to U.S. dollars at the same exchange rate used for financial reporting purposes. Mr. Kenny's base salary as of December 1, 2013 differs from the base salary reported for fiscal year 2014 reported in last year's proxy statement due to different exchange rates used for financial reporting purposes in fiscal 2013 and fiscal 2014.

Analysis of Fiscal 2014 Base Salaries. In January 2014, the Compensation Committee reviewed Mr. Owens' base salary, short-term incentive target and long-term incentive target amount. The review included the following market data: Mercer 2013 U.S. Executive Benchmark Database (All Industries Median Annual Revenues of \$1.6 billion); Towers Watson 2013 Top Management Report (All Industries For Profit Organizations Only \$1-3 billion); and Hewitt Total Compensation Measurement (TCM) Executive Total Compensation by Industry United States 2013 (All industries, companies with revenues \$1-2.5 billion). The Compensation Committee also reviewed market data relating to our peer group, including both the entire peer group and a subset of the peer group of companies with revenues up to \$3.8 billion.

For fiscal 2014, Mr. Owens received a 10.14% merit increase. Previously, Mr. Owens was in the third quartile of the salary range for the CEO. Subsequently, Mr. Owens is in the fourth quartile of the salary range. The 10.14% increase was granted in recognition of his overall outstanding performance, which exceeded expectations for the performance metrics established for the year including the five year strategic plan goals, completion of the acquisition of PlexBond Quimica S/A, progress on the acquisition of intellectual property from Yantai Seayu Electronic Co., Ltd. and the progress on the new plant in Yantai, China.

Mr. Giertz's fiscal 2014 base salary was in the fourth quartile of his salary range. His salary has historically been higher than the midpoint in this salary range to reflect Mr. Giertz's extensive experience in both finance (as a CFO) and in operations with prior employers, where he held key

leadership positions in several companies. For fiscal 2014, Mr. Giertz received a merit increase of 4.0% effective February 1, 2014 and he remains in the fourth quartile of his salary range. Ms. Jensen and Mr. Trippel received merit increases of 3.0% effective February 1, 2014. Ms. Jensen's and Mr. Trippel's fiscal 2014 base salaries were approximately at the midpoint of their salary range. Mr. Kenny received a merit increase of 3.0% as well. Mr. Kenny's fiscal 2014 base salary was in the second quartile of his salary range.

For fiscal 2014, all merit increases for the NEOs (except for Mr. Owens see narrative above) fell within the Company's general merit increase guidelines for our general employee population.

Fiscal 2014 Short-Term Incentive Compensation

In General. Each year, the Compensation Committee establishes the annual cash incentive target opportunities as a percentage of base salary. Under the short-term incentive plan, the Compensation Committee may also consider extraordinary circumstances that may positively or negatively impact the achievement of the total Company performance objectives.

For fiscal 2014, based on market data, the annual cash incentive target opportunity for our executive officers ranged from 50% to 100% of base salary at a target level of performance. Potential payouts range from 0% to 200% of the target award based on attainment of operating unit and/or Company predetermined financial goals. The threshold level for the annual cash incentive was set at 80% of each financial target goal, except the organic revenue metrics had a threshold amount of 90%. At these levels, the annual cash incentive would pay out at 50% of the target incentive. Higher payouts are possible if performance is above threshold levels. For example, at the superior level, payout is 150% of target and at the superior stretch level, payout is 200% of target.

The Compensation Committee, in its discretion, has the right at any time to enhance, diminish or terminate all or any portion of any compensation plan or program, on a collective or individual basis for the NEOs.

All performance measures for the NEOs, and the percentage of short-term incentive compensation based on these measures as established by the Compensation Committee, are set forth in the table below:

Performance Measure	CEO	CFO	Regional Operating Unit ¹	SVP, Market Development ²
EPS ³	30%	30%	30%	30%
Company Organic Revenue ⁴	30%	30%		
Company Operating Income ⁵	40%	40%

Region or Business Operating Income			20%	
Construction Products EBITDA ⁶				15%
Global Key Market Organic Revenue			15%	20%
Global Key Market Gross Margin			15%	20%

(1) Includes Mr. Kenny and Ms. Jensen.

(2) Applies to Mr. Trippel.

(3) EPS is defined as net income divided by weighted average common stock shares outstanding (diluted).

(4) Organic revenue is defined as revenue, excluding the effects of changes due to foreign currency exchange rates and acquisitions/divestitures.

(5) Operating income (OI) is defined as gross profit less selling, general and administrative expenses.

(6) EBITDA (earnings before interest, taxes, depreciation and amortization) is defined as gross profit less selling, general and administrative expenses plus depreciation expense plus amortization expense.

Analysis of Fiscal 2014 Short-Term Incentive Awards. The financial performance measures approved by the Compensation Committee in early fiscal 2014 were selected because management believed they were the most representative measurements of our financial results and were key financial measures that linked to our long-term strategic plan. In establishing these goals for fiscal year 2014, we considered our prior year results, economic conditions and expected business opportunities. The specific performance goals for the target level are considered to be challenging but achievable. In addition, we set superior and superior stretch goals which pay amounts for performance exceeding the target. These are noted in the table on page 39 below. The following chart shows the percentage increase in fiscal year 2014 performance targets over fiscal year 2013 actual results for each measure used to determine the short-term incentive bonuses:

Performance Measure	FY 2014 Target to FY 2013 Actual Increase

For fiscal 2014, the financial performance measures for the target, superior and superior stretch performance and the actual performance were as set forth below. Amounts shown in the table below may differ from reported results due to adjustments which are allowed under the short-term incentive plan as set forth in footnote 1 in the table below.

The short-term incentive target and actual payment as a percent of base salary for fiscal 2014 for each of our NEOs is set forth in the table below:

- (2) Mr. Trippel's short term-incentive target increased from 56% to 65% of base salary effective December 1, 2013 in order to better align with the market.
- (3) Mr. Kenny's short-term incentive target increased from 50 to 65% of base salary effective June 1, 2014 in order to better align with the market.
- (4) Non U.S.-based compensation paid to Mr. Kenny is denominated in British Pounds Sterling and has been converted to U.S. dollars at the same exchange rate used for financial reporting purposes.

Fiscal 2014 Long-Term Incentive Compensation

In General. The fiscal 2014 long-term incentive plan design called for grants with a mix of 50% nonqualified stock options and 50% restricted stock units based on the grant value. The Compensation Committee decided to move to the sole use of awards of restricted stock units beginning in fiscal 2014 to better align with market practice and to ensure consistency of awards among all participants.

Stock Options. The standard nonqualified stock options typically vest in three equal installments on each anniversary date of the grant date, which enhances retention. Vested stock options provide a benefit to an executive officer only if the market value of the stock increases over the term of the option and if the executive officer remains employed at H.B. Fuller. Stock options are granted for a 10 year term. Stock options are granted at their fair market value on the date of grant.

Restricted Stock Units. Restricted stock unit grants typically vest in three equal annual installments from the grant date, which enhances retention. Restricted stock unit awards provide a benefit to an employee only if the employee remains employed until the award vests. Dividends are accrued on restricted stock units during the period prior to vesting and are subject to the same vesting requirements, with payment in the form of additional shares once vesting has occurred. Only restricted stock (for grants prior to fiscal 2014) has voting rights during the period prior to vesting. In addition, if the market value of the stock increases over the grant date price of the award, the employee further benefits from that appreciation in value. For our CEO, recent annual restricted stock and restricted stock unit grants include a performance goal which must be achieved or the restricted stock/restricted stock units will not vest and all rights will be forfeited.

The value of an individual's target award is established to generally reflect competitiveness at the market median/50th percentile for the applicable position and grade level. The CEO recommends to the Compensation Committee the number of stock options and restricted stock units to be granted to each executive officer. The Compensation Committee retains full authority to accept, modify or reject these recommendations and to increase or decrease the value of the award. The Compensation Committee also reviews total Company performance and the CEO's individual performance to determine the award for the CEO. The number of options is determined based on a Black-Scholes valuation, and a 30-day stock price average is applied. To determine the number of restricted stock/restricted stock units to be awarded, a 30-day stock price average is applied.

The Compensation Committee reviews and approves long-term incentives for our CEO and the other executive officers in January of each year. This long-term incentive grant date in January aligns with the annual individual performance review process and allows the grants to occur during the open trading period (after our fiscal year end annual earnings release) for H.B. Fuller stock as provided under Company policy. The grants of stock options are made with an exercise price determined as of the close of trading on the applicable grant day. We do not allow backdating of options, nor do we have a program, plan or practice to time stock option grants to executive officers in coordination with the release of material non-public information.

The target values for each named executive officer's long-term incentive award are set forth in the table below. It is the general practice of the Compensation Committee to make awards to executive officers in a range of 80% to 120% of the target value below.

Named Executive Officer	Target Value of Long-Term Incentive for FY 2014 (\$)	Actual Value of Long-Term Incentive for FY 2014 (\$)
James J. Owens	2,375,000	2,375,000
James R. Giertz	625,000 ¹	687,500
Patrick J. Trippel	500,000	500,000
Traci L. Jensen	500,000	500,000
Steven Kenny	500,000	500,000

(1) The target value of the long-term incentive for Mr. Giertz increased from \$500,000 to \$625,000 effective for fiscal 2014. This change was made due to his promotion to Executive Vice President during fiscal 2013.

Analysis of Fiscal 2014 Long-Term Incentive Awards. The January 2014 grant of restricted stock units to Mr. Owens contains a requirement that the restricted stock units will vest in three equal installments on January 23, 2015, January 23, 2016 and January 23, 2017 only if (1) one or more of the performance measures in the CEO's short-term incentive plan are met at the threshold level for fiscal 2014 as determined by the Compensation Committee and (2) Mr. Owens continues to be employed by the Company on the respective vesting date. Both of these requirements were met as of January 23, 2015. Therefore, the first installment has vested, and the remaining two will vest according to the vesting schedule as long as Mr. Owens remains employed by the Company.

During fiscal year 2014, all long-term incentive awards to the NEOs fell within 100% to 110% of the target value above. Fiscal year 2014 long-term incentive awards of stock options and restricted stock units are set forth in the *Grants of Plan-Based Awards During Fiscal Year 2014* table in this Proxy Statement.

Perquisites and Benefits

Retirement Plan

Description

For Mr. Kenny, who is based in England, our stakeholder pension plan is a defined contribution plan. Eligibility for the stakeholder pension plan is immediate upon hire. The contribution consists of a 4% non-elective credit and a matching credit on a 1 to 1 basis for the first 4% of employee contributions. Benefit payout is based on the employee decision. The employee may choose between an annuity of the retirement saving or a partial lump sum and annuity pay-out at retirement at age of 55 or later. Employees who leave the company before retirement age can choose to leave their account where it is or to transfer the value of their account to another personal or stakeholder plan.

Auto Allowance

Monthly allowance

Analysis of Fiscal 2014 Executive Benefits and Perquisites. We provide perquisites to our executive officers to generally reflect competitiveness at the market median/50th percentile.

In conjunction with the annual review of executive officer total compensation, the Compensation Committee reviews executive officer benefits and perquisites for market prevalence. In fiscal 2014, the Compensation Committee reviewed market data on the prevalence of the following benefits and perquisites: the Key Employee Deferred Compensation Plan, auto allowance, executive health programs, financial counseling, and Defined Contribution Restoration Plan. The survey data used to review the market prevalence of all of these benefits was provided by the 2013 Aon Hewitt U.S. TCM Executive Compensation Policies and Programs survey (524 participating companies). As a result of the Compensation Committee's review of these perquisite and benefit programs, the auto allowance program for U.S. based executives was discontinued. The monthly auto allowance amount was added to the salary of each U.S. based executive in the form of a one-time adjustment beginning June 1, 2014. No other changes were made as a result of the review because of the general market prevalence of these programs. These programs will be reviewed again in fiscal 2015.

This survey data did not cover the prevalence of personal excess liability insurance coverage and relocation programs. No changes were made to these programs.

All perquisites paid to our NEOs are disclosed in the *Summary Compensation Table* under the *Other Compensation* column and the footnotes thereto.

Severance, Change-in-Control and other Employment-Related Agreements

In General. H.B. Fuller does not have employment agreements with any of the NEOs that provide for a specified term of employment. The Company does have an employment agreement with Mr. Kenny as discussed below. The Company also has change-in-control agreements discussed under the heading *Change-in-Control Agreements* and executive severance agreements discussed under the heading *Severance*.

Severance. The executive severance agreements provide for payment of the following severance benefits if the eligible executive officer's employment is terminated involuntarily by the Company without cause (as defined in the agreement) or voluntarily by the executive officer for good reason (as defined in the agreement):

Severance pay equal to one times (two times for the CEO) base salary plus target annual bonus, payable over the 12 months (24 months for the CEO) following termination;

Continued group medical and dental insurance over 12 months (18 months for the CEO); and

Outplacement services with a value of up to \$20,000.

Except as indicated above with respect to the CEO, the same form of agreement was provided to all NEOs other than for Mr. Kenny. The severance agreement with Mr. Kenny provides for a reduction in any severance pay due to him for any severance pay required by local law.

Change-in-Control Agreements. All NEOs have entered into change-in-control agreements with H.B. Fuller. The agreements are a critical and effective tool to attract and retain executives, especially during times of uncertainty. These agreements provide for payments under certain circumstances following a change-in-control of the Company. The Compensation Committee believes that one of the purposes of providing change-in-control agreements is to provide financial security to the executive officer in the event the executive officer's employment is terminated in connection with a change-in-control. The agreement is intended to ensure the executive officer remains focused on activities related to a change-in-control that could be in the best interest of the Company and its shareholders, and that the executive officer is not distracted by compensation implications as a result of a change-in-control. The Compensation Committee also believes that change-in-control agreements assist in the retention of executive officers at a time when their departure might be detrimental to the Company and shareholders.

The change-in-control agreements contain a double trigger for receipt of change-in-control payments. This means that there must be a change in control of the Company and a termination of employment (or a material change to employment) during the covered period for the provisions to apply and benefits to be paid. The Compensation Committee believes that a double trigger is more appropriate than a single trigger, because a double-trigger prevents the unnecessary payment of benefits to an executive officer in the event that the change in control does not result in the executive officer's termination of employment or a material change in the terms of the executive officer's employment (such as demotion, pay cut or relocation).

Our change-in-control arrangements have been structured to ensure that executives receive the full intended benefits of these arrangements in the event that a transaction should take place, particularly when their short tenure creates an imbalance between intended benefit and potential tax liability. Our approach has been to provide our executives with arrangements that include a modified tax gross-up. These arrangements eliminate de minimis or inefficient gross up payments, only providing tax gross up in cases of significant imbalance. The Compensation Committee reviews all change-in-control packages periodically to ensure their continued effectiveness.

An explanation of any payments to be made under the change-in-control agreements is found under the heading *Involuntary (Not for Cause) Termination or Good Reason Termination after a Change-in-Control* in the section of this Proxy Statement titled *Potential Payments Made Upon Termination or Change-In-Control*.

Other. The Company has an employment agreement with Mr. Kenny, because employment agreements are customary in England where Mr. Kenny is based. The agreement with Mr. Kenny sets

forth his salary, job functions and benefits, and contains intellectual property ownership rights, termination, non-competition and confidentiality provisions. The agreement does not provide for any minimum term of employment. See the section titled *Potential Payments made upon Termination or Change-in-Control* later in this Proxy Statement for contractual payments that the Company may owe Mr. Kenny under his employment agreement.

Stock Ownership

We believe that ownership of H.B. Fuller Common Stock by executive officers encourages long-term, strategic decision making that helps to reduce undue short-term risk-taking and is aligned with the best interests of H.B. Fuller's shareholders and other constituents. Goals for recommended levels of executive stock ownership were established in 2003 and are reviewed annually by the Compensation Committee. An executive officer's stock ownership goal (which includes directly held H.B. Fuller stock, H.B. Fuller stock held in the H.B. Fuller Company 401(k) & Retirement Plan, restricted stock, restricted stock units and stock units held in the Key Employee Deferred Compensation Plan) ranges in dollar amount from one to five times the executive officer's annual base salary.

The guideline for the CEO is ownership of at least five times his base salary in H.B. Fuller Common Stock, and the guideline for other NEOs is ownership of at least three times their base salaries. The guideline provides that an executive should strive to reach and then maintain the applicable stock ownership goal within five years of appointment to their position. The review was based on job grades and stock values in effect as of June 30, 2014. At that point in time, the CEO and all other NEOs have met the applicable stock ownership goal.

If after five years in his or her position, a named executive officer has not met his/her stock ownership goal, the named executive officer must retain 100% of all after-tax profit shares from any exercise, vesting or payout of equity awards until the stock ownership guideline is met, unless a hardship exception is granted.

Named Executive Officer	Stock Ownership Guideline as of June 30, 2014	2014 % of Target as of June 30, 2014	Years at Grade/Target as of June 30, 2014
James J. Owens	5 times base salary	>100%	3
James R. Giertz	3 times base salary	>100%	6
Patrick J. Trippel	3 times base salary	>100%	3
Traci L. Jensen	3 times base salary	>100%	1
Steven Kenny	3 times base salary	>100%	4

Tax Considerations

Under Section 162(m) of the U.S. Internal Revenue Code, we must meet specified requirements related to our performance and must obtain shareholder approval of certain compensation arrangements in order for the Company to fully deduct compensation in excess of \$1,000,000 paid to a named executive officer other than the CFO. At the annual meeting for fiscal 2013, the shareholders approved the H.B. Fuller Company 2013 Master Incentive Plan (2013 Master Incentive Plan) which includes specific performance criteria established by the Compensation Committee; therefore, annual incentive awards granted under the 2013 Master Incentive Plan will be deemed to meet the requirements of Section 162(m). The Committee believes that compensation paid pursuant to the 2013 Master Incentive plan will be deductible. Additionally, cash compensation voluntarily deferred by our executive officers under our Key Employee Deferred Compensation Plan is not subject to the Section 162(m) cap until the year paid.

The Compensation Committee intends to continue its practice of paying competitive compensation consistent with our philosophy to attract, retain and motivate executive officers to manage our business in the best interests of H.B. Fuller and our shareholders. The Compensation Committee, therefore, may choose to provide non-deductible compensation to our executive officers if it deems such compensation to be in the best interests of H.B. Fuller and our shareholders. In fiscal 2014, the compensation subject to Section 162(m) did not exceed the \$1,000,000 cap for any of our NEOs, except for Mr. Trippel. The compensation paid to Mr. Trippel exceeded the \$1,000,000 cap by approximately \$5,117, and this portion of his compensation for fiscal 2014 was therefore not deductible for tax purposes.

Various programs, including our benefit plans that provide for deferrals of compensation, are subject to Section 409A of the Internal Revenue Code. We have reviewed such plans for compliance with Section 409A and believe that they are in compliance.

Actions for Fiscal 2015

During 2014, we made several changes to our peer group, which moved the Company to the 35th percentile (for annual revenue) of the peer group. We had previously been below the 25th percentile in annual revenue in our peer group. The revised peer group will be used for future compensation reviews. For more information, please see the *Peer Group Data* heading in the *Competitive Market* section above.

In January 2015, the Compensation Committee approved 2 new compensation programs – a Bonus Multiplier Program and a Special 2015 Performance Acceleration Bonus. The Bonus Multiplier Program pays +/-5 percent of an individual's Short-Term Incentive Plan (STIP) payout based on performance relative to an individual metric. All NEOs except Mr. Owens and Mr. Giertz are eligible for this program. The Special 2015 Performance Acceleration Bonus program pays up to 50% of an eligible individual's STIP target if a minimum threshold level of earnings per share for the first half of the 2015 fiscal year is achieved, in addition to attainment of an individual's applicable operating profit budget for the first half of 2015 fiscal year and mid-year performance that is meeting or exceeding expectations. All NEOs are eligible for this program.

Total Compensation for Named Executive Officers

We believe that the policies and programs described in the Compensation Discussion and Analysis maintain an appropriate balance between motivating achievement of short-term goals and strategically leading H.B. Fuller in a direction to provide long-term success, and therefore serve the interests of H.B. Fuller and its shareholders.

Non-GAAP Financial Measures

The *Compensation Discussion and Analysis* discussion in this Proxy Statement contains non-GAAP financial measures. See *Non-GAAP Financial Measures* in Annex A to this Proxy Statement for a reconciliation of these non-GAAP financial measures to GAAP results.

Compensation Committee Report

The Compensation Committee of the Board of Directors has reviewed and discussed with H.B. Fuller management the Compensation Discussion and Analysis. Based on this review and discussion with management, the Compensation Committee recommended to the Board of Directors that the Compensation Discussion and Analysis be included in this Proxy Statement and in the Annual Report on Form 10-K for the year ended November 29, 2014.

- (1) The amounts shown in these columns represent the bonus opportunity under our short-term incentive plan for fiscal 2014 performance discussed under *Fiscal 2014 Short-Term Incentive Compensation* in this Proxy Statement. The actual amount paid out in January 2015 under the short-term incentive plan is set forth in the Summary Compensation Table. For Mr. Kenny, this amount is typically reported in Euros and has been translated into U.S. Dollars at the same amount used for financial reporting purposes.
- (2) The restricted stock unit awards were granted under the H.B. Fuller Company 2013 Master Incentive Plan. The restricted stock units grants vest in three annual installments beginning on the first anniversary date of the grant. Under the H.B. Fuller Company 2013 Master Incentive Plan, dividends on restricted stock units are accrued by H.B. Fuller at the same rate as payable to all H.B. Fuller shareholders and are paid if and when the restricted stock units vest. The restricted stock units become immediately vested in the event of death, disability and change-in-control. The value of accrued dividends is included in the Summary Compensation Table in the *All Other Compensation* column.
- (3) These options are granted under the H.B. Fuller Company 2013 Master Incentive Plan and become exercisable at the rate of one-third each year beginning on the first anniversary of the grant date, and expire 10 years from the grant date. These options become immediately exercisable upon retirement (age 55 and 10 years of service), death, disability or change-in-control.

- (4) The fair value of the restricted stock unit awards is calculated by multiplying the number of units of restricted stock by the closing price of our Common Stock on the date of grant. The Black-Scholes option pricing method was used to estimate the grant date fair value of the options in this column. The assumptions used to develop the grant date valuations for the options are as follows: options granted on January 23, 2014 were

risk free rate of return of 1.3438%, dividend rate of .7974%, volatility rate of 37.059%, quarterly reinvestment of dividends and an average term of 4.75 years. No adjustments have been made for non-transferability or risk of forfeiture. The real value of the stock options in this table will depend on the actual performance of our common stock during the applicable period and the fair market value of our common stock on the date the options are exercised.

- (5) The restricted stock unit award for Mr. Owens was granted under the H.B. Fuller Company 2013 Master Incentive Plan. The terms of the award provide for vesting of the restricted stock unit grant in three annual installments on January 23, 2015, January 23, 2016 and January 23, 2017 only if (a) one or more of the performance measures in the CEO's short-term incentive program measures are met at the threshold level for fiscal 2014 as determined by the Compensation Committee and (b) Mr. Owens continues to be employed by the Company on the respective vesting date. The first condition was met on January 23, 2015, and accordingly the first installment vested on that date. Under the H.B. Fuller Company 2013 Master Incentive Plan, dividends on restricted stock units are accrued by H.B. Fuller at the same rate as payable to all H.B. Fuller shareholders and are paid if and when the restricted stock units vest. The restricted stock units become immediately vested in the event of death, disability and change-in-control. The value of accrued dividends is included in the Summary Compensation Table in the *All Other Compensation* column.

- (1) Stock options granted prior to December 3, 2009 generally vest in four equal annual installments beginning on the first anniversary of the grant date. Stock options granted on or after December 3, 2009 generally vest in three equal annual installments beginning on the first anniversary of the grant date. Options become immediately exercisable upon retirement (age 55 and 10 years of service), death, disability or change-in-control.
- (2) Restricted shares and units granted after December 4, 2008 generally vest in three equal annual installments beginning on the first anniversary of the grant date. For awards beginning in fiscal 2014, only restricted stock units were granted. The restricted shares and units become immediately vested in the event of death, disability and change-in-control. Grants of restricted shares and restricted stock units to the CEO typically contain performance measures which must be met in order for the stock to vest. One or more of these performance measures has been met for each of Mr. Owens grants. Therefore, the restricted stock and restricted stock unit awards will vest on the applicable dates as long as Mr. Owens continues to be employed by the Company on the respective vesting dates.
- (3) The market value is based on the closing price at November 28, 2014 (the last business day of the fiscal year) of \$43.19.

Key Employee Deferred Compensation Plan. The Key Employee Deferred Compensation Plan is a nonqualified deferred compensation plan that allows deferral of salary or short-term incentive awards on a pre-tax basis. Executive officers may defer up to 80% of their base salary or up to 100% of their short-term incentive award. The plan is unfunded and does not protect the executive from insolvency of the Company.

Amounts deferred under the Key Employee Deferred Compensation Plan are credited with earnings and investment gains and losses by assuming that deferred amounts were invested in one or more hypothetical investment options selected by the executive. Executive officers are allowed to change their investment elections at any time. The one year rates of return for such investments for fiscal 2014 are as follows: PIMCO VIT Total Return AC, 3.43%; PIMCO VIT Real Return AC, 3.15%; Fidelity VIP Equity-Income SC, 11.15%; T. Rowe Price Equity Income II, 8.32%; Dreyfus Stock Index IS, 16.12%; Fidelity VIP Contrafund SC, 14.95%; Oppenheimer Capital Appreciation VA Non-SS, 19.08%; Janus AS Forty SS, 11.90%; Goldman VIT MidCap Value, 15.34%; Fidelity VIP MidCap SC, 9.56%; T. Rowe Price MidCap Growth II, 15.54%; Royce Micro-Cap IC, -6.95%; Lincoln VIPT Baron Growth Opportunities SC, 6.27%; UIF US Real Estate Class I, 27.43%, Oppenheimer Global Securities VA Non-SS, 7.16%; Dreyfus VIF International Value Portfolio IS, -4.67%; Janus AS Overseas Portfolio SS, -6.24%; and H.B. Fuller Company stock, -14.8%. Participants who invest in the Company stock fund are eligible to receive a 10% match in Company stock. The value of the matching contributions received, if any, is disclosed in the Summary Compensation Table in this Proxy Statement. During fiscal year 2014, no named executive officers made contributions to this plan. In addition, the Compensation Committee may make discretionary contributions to a participant's Company stock account under this plan. For fiscal year 2014, no discretionary contributions were made to any of the named executive officers listed in the Summary Compensation Table. Balances in the plan reflect amounts that have accumulated over time.

Executive officers are always 100% vested in their Key Employee Deferred Compensation Plan account and are entitled to receive a distribution from their account under the following circumstances: separation from service, death, disability, age 65, date elected or unforeseeable emergency that results in severe financial hardship that is consistent with the meaning of that term under section 409A of the Internal Revenue Code. Distributions are made in either a lump sum or, if previously elected by the executive officer, up to 11 annual installments. Distributions from the Company stock account will be in the form of stock and all other amounts will be distributed in cash.

Defined Contribution Restoration Plan (DC Restoration Plan). The DC Restoration Plan is a non-qualified unfunded retirement plan that is intended to provide for retirement benefits above amounts available under H.B. Fuller's tax-qualified retirement plans. Participants in this plan receive annual credits in a bookkeeping account that is hypothetical in nature. Following are the three component accounts in the plan:

4% restoration plan match credit provides a contribution of 4% of eligible pay in excess of the IRS annual compensation limit as long as the participant defers the maximum allowed contribution under the H.B. Fuller Company 401(k) & Retirement Plan.

3% restoration non-elective credit provides a contribution of 3% of eligible pay in excess of the IRS annual compensation limit.

7% credit on all eligible earnings.

Mr. Kenny does not participate in this plan. This plan applies only to U.S. named executive officers (including expatriates).

Contributions made on behalf of named executive officers under the DC Restoration Plan are disclosed in the *Summary Compensation Table* in this Proxy Statement.

Potential Payments Upon Termination or Change-in-Control

In General.

The Company has certain arrangements, policies and practices covering the named executive officers in this Proxy Statement that require it to provide compensation in the event of certain types of terminations, including certain terminations due to a change-in-control of the Company.

The information set forth below describes amounts that the Company would pay or provide to a named executive officer or his or her beneficiaries in each of the following situations: voluntary termination, involuntary for cause termination, involuntary not for cause termination or good reason termination, involuntary (not for cause) or good reason termination after a change-in control, death, disability, early retirement and retirement. The estimated amounts payable are calculated as if the termination occurred on the last business day of the fiscal year, November 29, 2014, using the closing stock price from the last business day of the fiscal year.

We have not included payments or benefits that are fully disclosed in the Nonqualified Deferred Compensation Table of this Proxy Statement, unless such payment is enhanced or its vesting or other provisions are accelerated. We have also not included information or payments related to contracts, agreements, plans or arrangements to the extent that they do not discriminate in scope, term or operation in favor of the named executive officers and that are available generally to all salaried employees. We call these benefits "general benefits" and they include:

Accrued Vacation Pay

H.B. Fuller Company 401(k) & Retirement Plan (or similar applicable plan)

Health and Welfare Benefits

Life Insurance Proceeds

Voluntary Termination and Involuntary For Cause Termination

In the event of a voluntary termination or an involuntary for cause termination as of the last business day of the fiscal year, the Company is not obligated to provide any enhanced benefits or accelerate vesting of any existing benefits of a named executive officer. Should Mr. Kenny terminate his employment with the Company, he is required to give six months' notice of such termination.

Involuntary Not For Cause Termination or Good Reason Termination

In the event of an involuntary not for cause termination or a good reason termination as of the last business day of the fiscal year, a named executive officer's compensation would be affected as follows:

We have a severance arrangement with each of the named executive officers. If the named executive officer's employment with the Company is involuntarily terminated at the initiative of the Company for any reason other than cause or disability or at the initiative of the executive for good reason and such termination does not occur during the protected period of a change-in-control, then the executive officer is entitled to receive certain severance benefits. Good reason means a material reduction of the executive officer's base salary, material diminution in the executive officer's authority and duties, or a required change of the executive officer's principal work location of 50 miles or more. Protected period means the 24-month period immediately following each and every change-in-control. In order to receive severance, the executive officer must sign a release of claims in favor of the Company and be in compliance with the terms of the executive severance agreement, including that

the executive officer must agree not to compete with the Company or solicit customers or employees of the Company for two years after termination of employment. The severance benefit consists of the following:

A severance payment equal to one times (two times for the CEO) base salary plus target bonus, payable over the 12 months (24 months for the CEO) following termination. Any amount over the lesser of \$460,000 or \$490,000 (whichever is applicable per the individual's agreement) or two times the executive's annualized compensation based upon the annual rate of pay for services to the Company for the calendar year prior to the calendar year in which the date of termination occurs shall be paid out in a lump sum at the earliest of the executive's death or six months after the date of termination.

The executive is entitled to medical and dental insurance over 12 months (18 months for the CEO).

Outplacement services with a value up to \$20,000.

Benefits under the Defined Contribution Restoration Plan are not accelerated or automatically vested upon involuntary not for cause termination or good reason termination.

For Mr. Kenny, any benefits he receives pursuant to local law are offset against the severance benefits set forth above.

Involuntary (Not for Cause) Termination or Good Reason Termination after a Change-in-Control

We have entered into a change-in-control agreement with each of the named executive officers. The initial three-year term of these agreements automatically extends for an additional year on each subsequent anniversary of the agreement, unless our Board of Directors gives notice of non-renewal prior to an anniversary date. A protected period of 24 months follows each and every change-in-control of H.B. Fuller under the terms of these agreements. If during this protected period, the executive officer separates from service for any reason other than cause or disability, or the executive officer terminates his or her employment for good reason (including demotion, pay cut or certain relocations), the executive officer is entitled to receive a lump sum payment from us. The payment consists of the following:

The executive will receive a target short-term incentive plan payment prorated to the date of the termination without application of any denial provisions based on unsatisfactory personal performance or any other reason.

A severance payment equal to three times the sum of: (a) the execut
