Table of Contents**Sonic Foundry, Inc.****Notes to Condensed Consolidated Financial Statements****June 30, 2015****(Unaudited)****1. Basis of Presentation and Significant Accounting Policies*****Financial Statements***

In the opinion of management, the accompanying unaudited consolidated condensed financial statements contain all adjustments necessary to present fairly the Company's financial position, results of operations and cash flows for the periods presented. All such adjustments are of a normal recurring nature. Operating results for the nine month period ended June 30, 2015 are not necessarily indicative of the results that might be expected for the year ending September 30, 2015.

Inventory Valuation

Inventory consists of raw materials and supplies used in the assembly of Mediasite recorders and finished units. Inventory of completed units and spare parts are carried at the lower of cost or market, with cost determined on a first-in, first-out basis.

Inventory consists of the following (in thousands):

	June 30, 2015	September 30, 2014
Raw materials and supplies	\$ 484	\$ 549
Finished goods	1,234	1,172
	\$ 1,718	\$ 1,721

Capitalized Software Development Costs

Software development costs incurred in conjunction with product development are charged to research and development expense until technological feasibility is established. Thereafter, until the product is released for sale, software development costs are capitalized and reported at the net realizable value of the related product. Typically the period between achieving technological feasibility of the Company's products and the general availability of the products has been short. Consequently, software development costs qualifying for capitalization are typically immaterial and are generally expensed to research and development costs, as incurred. Upon product release, the amortization of software development costs is determined annually as the greater of the amount computed using the ratio of current gross revenues for the products to their total of current and anticipated future gross revenues, or the straight-line method over the estimated economic life of the products, expected to be three years. Amortization expense of software development costs of \$133 thousand is included in Cost of Revenue - Product for the nine months

ending June 30, 2015 and 2014, respectively. The gross amount of capitalized external and internal development costs is \$533 thousand at June 30, 2015 and September 30, 2014. There were no software development efforts that qualified for capitalization for the nine months ended June 30, 2015.

Legal Contingencies

In June 2014, the Company entered into a settlement agreement with Astute Technology, LLC (Astute). The key terms of the agreement were: 1) a grant of a non-revocable license of Astute patents to the Company; 2) a grant of a fully paid, non-refundable license of certain Sonic Foundry patents to Astute; 3) both Astute and our customer agreed to identify three meetings they currently capture that the other party will not seek or respond to any request for proposal; and 4) a payment of \$1.35 million to Astute. Pursuant to the settlement agreement, the payments were made in three equal amounts with the first paid in June 2014, the second paid in October 2014 and the final installment paid in March 2015. The Company contributed \$1.1 million of the \$1.35 million payable to Astute. Of the \$1.1 million, \$428 thousand related to prior use and was recorded as a charge to income during fiscal 2014. The remaining \$672 thousand was recorded as a product right asset, which is being amortized, on a straight-line basis, over the remaining life of the patents, through 2020. Future amounts due to Astute were accrued for as of the time of settlement.

Table of Contents

Except as reported above, no legal contingencies were recorded for the nine months ended June 30, 2015 and 2014, respectively.

Stock Based Compensation

The Company uses a lattice valuation model to account for all employee stock options granted. The lattice valuation model is a more flexible analysis to value options because of its ability to incorporate inputs that change over time, such as actual exercise behavior of option holders. The Company uses historical data to estimate the option exercise and employee departure behavior in the lattice valuation model. Expected volatility is based on historical volatility of the Company's stock. The Company considers all employees to have similar exercise behavior and therefore has not identified separate homogenous groups for valuation. The expected term of options granted is derived from the output of the option pricing model and represents the period of time that options granted are expected to be outstanding. The risk-free rate for periods the options are expected to be outstanding is based on the U.S. Treasury yields in effect at the time of grant. Forfeitures are based on actual behavior patterns.

The fair value of each option grant is estimated using the assumptions in the following table:

	Nine months ended June 30,	
	2015	2014
Expected life	4.8-5.0 years	4.8-4.9 years
Risk-free interest rate	0.96%-1.04%	0.60%-0.82%
Expected volatility	45.46%-49.47%	47.11%-47.18%
Expected forfeiture rate	10.72%-11.99%	11.6%-12.2%
Expected exercise factor	1.40-1.43	1.39-1.41
Expected dividend yield	0%	0%

A summary of option activity as of June 30, 2015 and changes during the nine months then ended is presented below:

	Options	Weighted- Average Exercise Price	Weighted- Average Remaining Contractual Period in Years
Outstanding at October 1, 2014	1,240,941	\$ 10.31	6.9
Granted	313,954	9.26	9.8

Exercisable at June 30, 2015	865,629	10.52	5.6

A summary of the status of the Company's non-vested shares and changes during the nine month period ended June 30, 2015 is presented below:

Non-vested Shares	Shares	2015	
		Weighted-Average Grant Date Fair Value	
Non-vested at October 1, 2014	539,519	\$	3.29

Vested	(227,629)		2.98
Forfeited	(21,746)		1.95
Non-vested at June 30, 2015	604,098	\$	3.35

Table of Contents

The weighted average grant date fair value of options granted during the nine months ended June 30, 2015 was \$3.19. As of June 30, 2015, there was \$880 thousand of total unrecognized compensation cost related to non-vested stock-based compensation, including \$144 thousand of estimated forfeitures. The cost is expected to be recognized over a weighted-average remaining life of 2.0 years.

Stock-based compensation recorded in the three month period ended June 30, 2015 of \$207 thousand was allocated \$129 thousand to selling and marketing expenses, \$22 thousand to general and administrative expenses, and \$56 thousand to product development expenses. Stock-based compensation recorded in the nine month period ended June 30, 2015 of \$745 thousand was allocated \$467 thousand to selling and marketing expenses, \$198 thousand to general and administrative expenses, and \$80 thousand to product development expenses. Stock-based compensation recorded in the three month period ended June 30, 2014 of \$204 thousand was allocated \$135 thousand to selling and marketing expenses, \$12 thousand to general and administrative expenses, and \$57 thousand to product development expenses. Stock-based compensation recorded in the nine month period ended June 30, 2014 of \$679 thousand was allocated \$449 thousand to selling and marketing expenses, \$40 thousand to general and administrative expenses, and \$190 thousand to product development expenses. Cash received from exercises under all stock option plans and warrants for the three and nine month periods ended June 30, 2015 was \$33 thousand and \$41 thousand, respectively. Cash received from exercises under all stock option plans and warrants for the three and nine month periods ended June 30, 2014 was \$61 thousand and \$243 thousand, respectively. There were no tax benefits realized for tax deductions from option exercises in either of the nine month periods ended June 30, 2015 or 2014. The Company currently expects to satisfy share-based awards with registered shares available to be issued.

The Company also has an Employee Stock Purchase Plan (Purchase Plan) under which an aggregate of 150,000 common shares may be issued. A total of 46,703 shares are available to be issued under the plan. The Company recorded stock compensation expense under this plan for the three month and nine month periods ended June 30, 2015 of \$5 thousand and \$18 thousand, respectively. The Company recorded stock compensation expense under this plan for the three and nine month periods ended June 30, 2014 of \$8 thousand and \$19 thousand, respectively.

Common Stock Warrants

On December 22, 2014, the company issued 74,802 warrants to two individuals in combination with the sale of a like number of shares of common stock, one of which is the Chairman of the Company's Board of Directors. These warrants were immediately exercisable, expire five years after the date of issuance and have an exercise and weighted average price of \$14.00. The remaining contractual life of these outstanding warrants as of June 30, 2015 was 4.48 years. The fair value of the warrants was determined using the lattice model and the same inputs as those used for valuing the Company's stock option fair value. The fair value of the warrants was \$133 thousand at the date of issuance. The Company determined that the warrants are freestanding and do not fall within the scope of ASC 480 or ASC 815. The warrants were recorded in conjunction with the stock issued.

Per share computation

Basic earnings (loss) per share has been computed using the weighted-average number of shares of common stock outstanding during the period, less shares that may be repurchased, and excludes any dilutive effects of options and warrants. In periods where the Company reports net income, diluted net income per share is computed using common equivalent shares related to outstanding options and warrants to purchase common stock. The numerator for the calculation of basic and diluted earnings per share is net income (loss). The following table sets forth the computation of basic and diluted weighted average shares used in the earnings per share calculations:

	Three Months Ended June 30,		Nine Months Ended June 30,	
	2015	2014	2015	2014
Denominator for basic earnings per share - weighted average common shares	4,355,049	4,246,265	4,324,868	4,147,938

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606) . The guidance substantially converges final standards on revenue recognition between the FASB and the International Accounting Standards Board providing a framework on addressing revenue recognition issues and, upon its effective date, replaces almost all existing revenue recognition guidance, including industry-specific guidance, in current U.S. generally accepted accounting principles. The FASB subsequently issued a one-year deferral of the effective date for the new revenue reporting standard for entities reporting under U.S. GAAP. In accordance with the deferral, the guidance is effective for annual reporting periods beginning after December 15, 2017. We are currently evaluating the impact of adopting ASU 2014-09 to determine the impact, if any, it may have on our financial statements.

In November 2014, the FASB issued Accounting Standards Update No. 2014-17, Business Combinations (Topic 805) Pushdown Accounting (ASU 2014-17). ASU 2014-17 is intended to provide guidance on whether and at what threshold an acquired entity that is a business or nonprofit activity can apply pushdown accounting in its separate financial statement. The amendments should reduce diversity in the timing and content of footnote disclosure. ASU 2014-17 is effective after November 18, 2014. The Company has adopted this guidance, but it does not have an impact on previous acquisitions.

In April 2015, the FASB issued ASU 2015-03, Simplifying the Presentation of Debt Issuance Costs (ASU 2015-03), which amends the current presentation of debt issuance costs in the financial statements. ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts, instead of as an asset. The amendments are to be applied retrospectively and are effective for public business entities for fiscal years, and for interim periods within those fiscal years, beginning after December 15, 2015, but early adoption is permitted. The adoption of the new guidance is not expected to have a material impact on the Company's condensed consolidated financial statements.

In April 2015, the FASB issued ASU 2015-05, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer's Accounting for Fees Paid in a Cloud Computing Arrangement (ASU 2015-05). The amendments in ASU 2015-05 provide guidance to customers about whether a cloud computing arrangement includes a software license. The amendments in ASU 2015-05 are effective for fiscal years beginning after December 15, 2015, and interim periods within those years. Early adoption is permitted. The guidance may be applied either prospectively to all arrangements entered into or materially modified after the effective date or retrospectively. The Company does not believe the implementation of this standard will result in a material impact to its financial statements.

In May 2015, the FASB issued ASU 2015-08, Business Combinations (Topic 805) Pushdown Accounting (ASU 2015-08). ASU 2015-08 amends various SEC paragraphs pursuant to the issuance of SEC Staff Accounting Bulletin No. 115. The Company does not believe the implementation of this standard will result in a material impact to its financial statements.

Accounting standards that have been issued but are not yet effective by the FASB or other standards-setting bodies that do not require adoption until a future date, which are not discussed above, are not expected to have a material impact on the Company's financial statements upon adoption.

2. Related Party Transactions

During the three and nine month periods ended June 30, 2015, the Company incurred fees of \$23 and \$99 thousand, respectively, to a law firm, a partner of which is a director and stockholder of the Company. The Company incurred similar fees of \$39 thousand and \$184 thousand, respectively, during the three and nine month periods ended June 30, 2014. The Company had accrued liabilities for unbilled services of \$25 thousand at June 30, 2015 and \$15 thousand at September 30, 2014 to the same law firm.

As of June 30, 2015 and September 30, 2014, the Company had a loan outstanding from an executive totaling \$26 thousand. The loan is collateralized by Company stock.

As of June 30, 2015, and September 30, 2014 the Company had outstanding amounts due for management fees and dividends payable to the sellers of and current employees of its wholly-owned subsidiary, MediaMission B.V. totaling \$144 thousand and \$370 thousand, respectively.

On December 22, 2014, Sonic Foundry, Inc. issued 35,905 and 38,897 shares of common stock to the Chairman of the Board of Directors and a major shareholder of the Company, respectively. The shares were issued at a price of approximately \$8.36 per share, representing the twenty-day average closing price on the period ending December 18, 2014. On December 22, 2014, the closing price of the Company's common stock was \$7.68 per share. The shares are restricted from any sale, distribution or pledge of any kind for a two-year period ending December 22, 2016. The two individuals also received warrants to purchase 35,905 and 38,897 shares at \$14.00 per share, respectively, which expire on December 22, 2019. This transaction was approved by a committee of disinterested directors of the Company.

3. Commitments

Inventory Purchase Commitments

The Company enters into unconditional purchase commitments on a regular basis for the supply of Mediasite product. At June 30, 2015, the Company has an obligation to purchase \$1.6 million of Mediasite product, which is not recorded on the Company's Condensed Consolidated Balance Sheet.

Operating Leases

In November 2011, the Company occupied office space related to a lease agreement entered into on June 28, 2011. The lease term is from November 2011 through December 2018. The lease includes a tenant improvement allowance of \$613 thousand that was recorded as a leasehold improvement liability and is being amortized as a credit to rent expense on a straight-line basis over the lease term. At June 30, 2015, the unamortized balance was \$292 thousand.

4. Credit Arrangements

Silicon Valley Bank

The Company and its wholly owned subsidiary, Sonic Foundry Media Systems, Inc. (the Companies) entered into that certain Second Amended and Restated Loan and Security Agreement with Silicon Valley Bank, dated as of June 27, 2011, as amended by that certain First Amendment, dated as of May 31, 2013, as further amended by that certain Second Amendment, dated as of January 10, 2014, and as further amended by that certain Third Amendment, dated as

of March 31, 2014 (the Second Amended and Restated Loan Agreement, as amended by the First, Second and Third Amendments, collectively, the Second Amended and Restated Loan Agreement). The Second Amended and Restated Loan Agreement provides for a revolving line of credit in the maximum principal amount of \$3,000,000. Interest accrues on the revolving line of credit at the per annum rate of three quarters of one percent (0.75%) above the Prime Rate (as defined), provided that Sonic Foundry maintains an Adjusted Quick Ratio (as defined) of greater than 2.0 to 1.0, or one-and-one quarter percent (1.25%) above the Prime Rate, if Sonic Foundry does not maintain an Adjusted Quick Ratio of greater than 2.0 to 1.0. The Second Amended and Restated Loan

Table of Contents

Agreement does not provide for a minimum interest rate on the revolving loan. The Second Amended and Restated Loan Agreement provides for an advance rate on domestic receivables of 80%. The maturity date of the revolving credit facility is October 1, 2015. Under the Second Amended and Restated Loan Agreement, a term loan was entered into on January 14, 2014 in the original principal amount of \$2,500,000 which accrues interest at the per annum rate equal to the Prime Rate (as defined) plus two and one-quarter percent (which equated to an interest rate of 5.5%), and is to be repaid in 36 equal monthly principal payments. The Second Amended and Restated Loan Agreement also requires Sonic Foundry to continue to comply with certain financial covenants, including covenants to maintain an Adjusted Quick Ratio (as defined) of at least 1.50 to 1.00 (except for each of the months ended February 28, 2014, April 30, 2014, May 31, 2014, July 31, 2014, August 31, 2014, October 31, 2014, and November 30, 2014, the minimum required Adjusted Quick ratio was reduced to 1:25 to 1:00), and a quarterly Debt Service Coverage Ratio of at least 1.25 to 1.00, the latter of which would be waived if certain funds were reserved against the availability under the revolving line of credit.

On January 27, 2015, the Companies entered into a Fourth Amendment to Second Amended and Restated Loan and Security Agreement (the Fourth Amendment) with Silicon Valley Bank. Under the Fourth Amendment: (i) the balance of the term loan payable to Silicon Valley of approximately \$1,665,000 was repaid and replaced by a new term loan of \$2,500,000 to be repaid in 36 equal principal payments, with interest at the Prime Rate (as defined) plus two and one quarter percent (5.5%), (ii) the limit of the revolving line of credit was increased from \$3.0 million to \$4.0 million and the maturity date was extended to January 31, 2017, (iii) the annual commitment fee on the revolving line of credit was increased from \$20,000 to \$26,667, and there was also payable a term loan commitment fee of \$20,000 and an amendment fee of \$5,000, (iv) the covenant that requires the Minimum Adjusted Quick ratio be at or greater than 1.25:1.0 on an intra-quarter basis and 1.5:1 at quarter end was reduced to 1.1:1 on an intra-quarter basis and 1.25:1 at quarter end, (v) the covenant that requires the Debt Service Coverage ratio to be at or greater than 1.25:1 was changed to include the change in deferred revenue in the numerator of the ratio, and the ratio was reduced to 1.0:1 for the quarters ending December 31, 2014 and March 31, 2015, to 1.25:1 for the quarter ending June 30, 2015 and to 1.5:1 for the quarter ending September 30, 2015 and thereafter, (vi) the definition of Permitted Liens was amended to include no more than \$800,000 in the aggregate amount of outstanding obligations for purchases of equipment, which was increased from the then-current limit of \$400,000.

On May 13, 2015, the Companies entered into a Fifth Amendment to the Second Amended and Restated Loan and Security Agreement (the Fifth Amendment), with Silicon Valley Bank. Under the Fifth Amendment: (i) interest will accrue on the revolving line of credit at the per annum rate of one and one-quarter percent (1.25%) above the Prime Rate (as defined); (ii) interest will accrue on the term loan at the per annum rate of two and three-quarters percent (2.75%) above the Prime Rate; (iii) the Adjusted Quick Ratio financial covenant was eliminated and replaced by a Liquidity financial covenant, which requires, commencing with the monthly compliance period ended March 31, 2015, and thereafter, minimum Liquidity (as defined), tested with respect to Sonic Foundry only, of at least (x) 1:35:1.00 for each month-end that is not the last day of a fiscal quarter, and (y) 1.50:1.00 for each month-end that is the last day of a fiscal quarter; (iv) provides for an advance rate on foreign receivables of the lesser of (x) 75% of Eligible Foreign Accounts (as defined) or (y) \$1,000,000; (v) allows for certain subordinated debt to be issued to Partners for Growth IV, L.P.; (vi) waives existing defaults under the Second Amended and Restated Loan Agreement by virtue of the Company's failure to comply with (x) the Adjusted Quick Ratio financial covenant for the compliance periods ended February 28, 2015 and March 31, 2015, and (y) the Debt Service Coverage Ratio financial covenant for the compliance period ended March 31, 2015; and (vii) the Debt Service Coverage ratio was reduced to 1.0:1 for the quarter ending June 30, 2015, to 1.25:1 for the quarter ending September 30, 2015 and remains at 1.50:1 for the quarter ending December 31, 2015 and thereafter. At June 30, 2015, the prime rate was three and one-quarter percent (3.25%).

At June 30, 2015, a balance of \$2.2 million was outstanding on the term loans with Silicon Valley Bank, with an effective interest rate of six percent (6.0%), and a balance of \$1.25 million was outstanding on the revolving line of credit. At September 30, 2014, a balance of \$1.9 million was outstanding on the term loans with Silicon Valley Bank and no balance was outstanding on the revolving line of credit. At June 30, 2015, there was a remaining amount of \$2.75 million available under the line of credit facility for advances. At June 30, 2015, the Company was not in compliance with the Debt Service Coverage Ratio financial covenant in the Second Amended and Restated Loan Agreement, as amended. Silicon Valley Bank subsequently waived the covenant default.

Partners for Growth IV, L.P.

On May 13, 2015, Sonic Foundry, Inc., entered into a Loan and Security Agreement (the "Loan and Security Agreement") with Partners for Growth IV, L.P. ("PFG"), (the "Loan and Security Agreement").

The Loan and Security Agreement provides for a Term Loan in the amount of \$2,000,000, which can be disbursed in two (2) Tranches as follows: Tranche 1 was drawn in the amount of \$1,500,000 shortly after execution thereof; and Tranche 2 in the amount of \$500,000, and can be disbursed at any time, at Sonic Foundry's discretion, following disbursement of Tranche 1 and on or before December 31, 2015, so long as at no Default or Event of Default (as defined) shall have occurred and be continuing.

Each tranche of the Term Loan bears interest at 10.75% per annum. Tranche 1 of the Term Loan is payable interest only until November 30, 2015. Thereafter, principal is due in 30 equal monthly principal installments, plus accrued interest, beginning December 1, 2015 and continuing until May 1, 2018, when the principal balance is to be paid in full. Tranche 2 of the Term Loan is payable using the same repayment schedule as Tranche 1.

The principal of the Term Loan may be prepaid at any time, provided that Sonic Foundry pays to PFG a prepayment fee equal to 1% of the principal amount prepaid, if the prepayment occurs in the first year from disbursement of Tranche 1.

Coincident with execution of the Loan and Security Agreement, the Company entered into a Warrant Agreement ("Warrant") with PFG. Pursuant to the terms of the Warrant, the Company issued to PFG a warrant to purchase up to 50,000 shares of common stock of the Company at an exercise price of \$9.66 per share, subject to certain adjustments, of which 37,500 were exercisable with the disbursement of Tranche 1 and 12,500 become exercisable upon a disbursement under Tranche 2. Pursuant to the Warrant, PFG is also entitled, under certain conditions, to require the Company to exchange the Warrant for the sum of \$200,000 (or \$150,000, if the Company does not draw on Tranche 2 of the Term Loan). Each warrant issued has an exercise term of 5 years from the date of issuance.

The warrants could be settled for cash in the event of acquisition of the company, any liquidation of the company, or expiration of the warrant. The Company has determined the cash payment date to be the expiration date (May 14, 2020). Due to the fixed payment amount on the expiration date, the warrant structure is in substance a debt arrangement (the "Warrant Debt") with a zero interest rate, a fixed maturity date and a feature that makes the debt convertible to common stock. The Warrant Debt had a fair value of \$58 thousand. The derivative had a fair value of \$120 thousand. The conversion feature is an embedded derivative; thus, for accounting purposes, the conversion feature is bifurcated and accounted for separately from the PFG Debt and Warrant Debt as a derivative liability measured at fair value at each reporting period.

As of June 30, 2015, the estimated fair value of the derivative liability associated with the warrants issued in connection with the Loan and Security Agreement, was \$58 thousand. The change in the fair value of the derivative liability between the issuance date and June 30, 2015, was recorded as a gain of \$62 thousand included in the other income (expense).

The proceeds from the Loan and Security Agreement were allocated between the PFG Debt and the Warrant Debt (inclusive of its conversion feature) based on their relative fair value on the date of issuance which resulted in initial carrying values of \$1.322 million and \$178 thousand, respectively. The conversion feature of \$178 thousand is treated together as a debt discount on the PFG Debt and will be accreted to interest expense under the effective interest method over the three-year term of the PFG Debt and the five-year term of the Warrant Debt. For the third quarter of fiscal 2015, the Company recorded accretion of discount expense associated with the warrants issued with the PFG

loan of \$2 thousand as well as \$7 thousand related to amortization of the debt discount. There was no accretion of discount expense or related amortization expense recorded in the third quarter of fiscal 2014 as the loan was funded in fiscal 2015.

Table of Contents

The fair values of term debt and warrant debt are based on the present value of expected future cash flows and assumptions about current interest rates and the creditworthiness of the Company (Level 3). At May 13, 2015, the carrying amounts of the Company's term debt and warrant debt totaled \$1.322 million and \$178 thousand, respectively. At May 13, 2015, the Company's term debt and warrant debt were recorded at fair value. At June 30, 2015, the derivative liability was remeasured at fair value. The fair value of the bifurcated conversion feature represented by the warrant derivative liability is based on a Black Scholes option pricing model with assumptions for stock price, exercise price, volatility, expected term, risk free interest rate and dividend yield similar to those described previously for share-based compensation which were generally observable (Level 2).

The Term Loan is collateralized by substantially all the Company's assets, including intellectual property, subject to a first lien held by Silicon Valley Bank, The Term Loan requires compliance with the same financial covenants as set forth in the loan from Silicon Valley Bank. At June 30, 2015, the Company was not in compliance with the Debt Service Coverage Ratio financial covenant in the Loan and Security Agreement. On August 12, 2015, the Company and PFG entered into a waiver agreement to waive the existing covenant default and to change the exercise price of the aforementioned warrants from \$9.66 per share to \$6.80 per share. The non-cash financial statement impact of this transaction will be recorded during the quarter ending September 30, 2015.

Other Indebtedness

At June 30, 2015, a balance of \$49 thousand was outstanding on the notes payable to Mitsui Sumitomo Bank. At September 30, 2014 the outstanding balance on the notes was \$170 thousand. At June 30, 2015, no balance was outstanding on the line of credit with Mitsui Sumitomo Bank. The notes and credit facility are both related to Mediasite K.K., and both accrue interest at an annual rate of approximately one-and-one half percent (1.575%).

At June 30, 2015, a balance of \$275 thousand was outstanding on the subordinated note payable related to the acquisition of MediaMission, with an annual interest rate of six-and-one half percent (6.5%). At September 30, 2014, the outstanding balance was \$628 thousand.

At June 30, 2015, no balance was outstanding on the subordinated payable related to the acquisition of Mediasite KK after paying off the outstanding balance in January 2015. At September 30, 2014, the outstanding balance was \$1.8 million.

In the three and nine months ended June 30, 2015, a foreign currency loss of \$6 and a foreign currency gain of \$206 thousand was realized related to re-measurement of the subordinated notes payable related to the Company's foreign subsidiaries. In the three and nine months ended June 30, 2014, a foreign currency loss of \$20 thousand was recorded related to the remeasurement, for both periods, respectively.

5. Income Taxes

The Company's practice is to recognize interest and/or penalties related to income tax matters in income tax expense. The Company had no accruals for interest and penalties on the Company's Condensed Consolidated Balance Sheets at June 30, 2015 or September 30, 2014, and has not recognized any interest or penalties in the Condensed Consolidated Statements of Operations for either of the three or nine month periods ended June 30, 2015 or 2014, respectively.

6. Goodwill and Other Intangible Assets

The changes in the carrying amount of goodwill for the nine months ended June 30, 2015 are as follows:

Balance as of September 30, 2014	\$ 11,185
Foreign currency translation adjustment	(403)
Balance as of June 30, 2015	\$ 10,782

7. MediaMission Holding B.V.

MediaMission contributed revenue of \$167 thousand and net loss of \$142 thousand for the three months ended June 30, 2015. MediaMission contributed revenue of \$559 thousand and net loss of \$340 thousand for the nine months ended June 30, 2015. MediaMission revenue contributions and net loss for the three months ended June 30, 2014 were \$353 thousand and \$24 thousand, respectively. MediaMission contributed revenue of \$580 thousand and a net loss of \$221 thousand for the period from the date of acquisition to June 30, 2014.

Table of Contents**8. Mediasite KK**

Mediasite KK contributed revenue of \$1.1 million and net loss of \$285 thousand for the three months ended June 30, 2015. Mediasite KK contributed revenue of \$3.8 million and net loss of \$185 thousand for the nine months ended June 30, 2015. Mediasite KK revenue contributions and net loss for the three months ended June 30, 2014 were \$880 thousand and \$187 thousand, respectively. Mediasite KK contributed revenue of \$3.1 million and net income of approximately \$113 thousand for the period from the date of acquisition to June 30, 2014.

9. Pro Forma Financial Information

The following table represents the net loss (in thousands) for the Company on a pro forma basis, assuming the acquisitions of MediaMission and Mediasite KK had each occurred as of October 1, 2013. The table sets forth unaudited pro forma results for the three and nine months ended June 30, 2015 and 2014, respectively and has been compiled from historical financial statements and other information, but is not necessarily indicative of the results that actually would have been achieved had the transaction occurred on the dates indicated or that may be achieved in the future.

Overview

Sonic Foundry, Inc. is a technology leader in the emerging web communications marketplace, providing video content management and distribution for education, business and government. Using the Mediasite webcasting platform and webcast services of the Company's events team, the Company empowers our customers to advance how they share knowledge online, using video webcasts to bridge time and distance, enhance learning outcomes and improve performance.

RESULTS OF OPERATIONS

The acquisition of MediaMission Holding B.V. was completed on December 16, 2013. The acquisition of Mediasite KK was completed on January 14, 2014. The results of these subsidiaries from the dates of acquisition through June 30, 2015 are included in the discussion below.

Revenue

Revenue from our business includes the sale of Mediasite recorders and server software products and related services contracts, such as customer support, installation, customization services, training, content hosting and event services. We market our products to educational institutions, corporations and government agencies that need to deploy, manage, index and distribute video content on Internet-based networks. We reach both our domestic and international markets through reseller networks, a direct sales effort and partnerships with system integrators that assist with implementations of our products and sourcing of our products and services.

Q3-2015 compared to Q3-2014

Revenue in Q3-2015 decreased \$711 thousand, or 6% from Q3-2014 revenue of \$11.3 million to \$10.6 million. Revenue consisted of the following:

Product and other revenue from sale of Mediasite recorder units and server software was \$5.6 million in Q3-2015 and \$6.2 million in Q3-2014. Revenue for 227 recorders delivered in Q2-2015 to an international customer was recognized in Q3-2015. Similarly, revenue for 126 recorders delivered in Q2-2014 to a large international customer were also initially deferred and recorded in Q3-2014. The Company began selling a low-cost, reduced function recorder in Q3-2015 which substantially reduces both the cost to the Company and the sales price, which led to a reduction in the average selling price of recorders.

Table of Contents

	Q3-2015	Q3-2014
Recorders sold	875	757
Rack units to mobile units ratio	11.9 to 1	7.5 to 1
Average sales price, excluding service (000 s)	\$ 6.1	\$ 9.0
Refresh Units	200	130

Services revenue represents the portion of fees charged for Mediasite customer support contracts amortized over the length of the contract, typically 12 months, as well as training, installation, event and content hosting services. Services revenue decreased from \$5.1 million in Q3-2014 to \$5.0 million in Q3-2015 primarily due to a decrease in events services billings as compared to the same quarter last year. At June 30, 2015, \$10.5 million of revenue was deferred, of which we expect to recognize \$9.3 million in the next twelve months, including approximately \$3.3 million in the quarter ending September 30, 2015. At September 30, 2014, \$10.0 million of revenue was deferred.

Other revenue relates to freight charges billed separately to our customers.

MediaMission and MSKK contributed revenue of \$167 thousand and \$1.1 million, respectively, an increase of \$34 thousand from Q3-2014.

YTD-2015 (nine months) compared to YTD-2014 (nine months)

Revenues for YTD-2015 totaled \$27.4 million compared to YTD-2014 revenues of \$27.4 million. Revenues included the following:

\$12.4 million product and other revenue from the sale of 1,469 Mediasite recorders and software versus \$13.2 million from the delivery of 1,383 Mediasite recorders and software in 2014. The Company recorded revenue in Q3-2015 on a shipment of 227 low-cost recorders to one international customer. This large deal had a negative impact on product gross margin during Q3-2015 due to the volume of recorders sold.

\$15.0 million from Mediasite customer support contracts, installation, training, event and hosting services versus \$14.2 million in 2014. Services revenue increased YTD-2015 primarily due to an increase in support contracts on Mediasite recorders.

MediaMission and MSKK contributed revenue of \$559 thousand and \$3.8 million, respectively, an increase of \$679 thousand compared to YTD-2014. The increase is primarily due to nine months of revenue in fiscal 2015 compared to approximately six months in fiscal 2014 as a result of the timing of the acquisitions.

Gross Margin

Q3-2015 compared to Q3-2014

Gross margin for Q3-2015 was \$7.1 million or 67% of revenue compared to Q3-2014 of \$7.8 million or 69%. The significant components of cost of revenue include:

Material and freight costs for the Mediasite recorders. Costs for Q3-2015 Mediasite recorder hardware and other costs totaled \$2.3 million, along with \$61 thousand of freight costs, and \$308 thousand of labor and allocated costs compared to Q3-2014 Mediasite recorder costs of \$2.2 million for hardware and other costs, \$65 thousand for freight and \$314 thousand of labor and allocated costs. This resulted in gross margin on products of 53% in Q3-2015 and 57% in Q3-2014. The decrease relates primarily to the shipment of 227 low-cost recorders to one international customer that was recognized in Q3-2015.

Services costs. Staff wages and other costs allocated to cost of service revenue were \$812 thousand in Q3-2015 and \$827 thousand in Q3-2014, resulting in gross margin on services of 84% in Q3-2015 and 84% in Q3-2014.

YTD-2015 (nine months) compared to YTD-2014 (nine months)

Gross margin for YTD-2015 was \$19.4 million or 71% of revenue compared to YTD-2014 of \$19.7 million or 72%. The significant components of cost of revenue include:

Material and freight costs for the Mediasite recorders. Costs for YTD-2015 Mediasite recorder hardware and other costs totaled \$4.18 million, along with \$199 thousand of freight costs, and \$922 thousand of labor

Table of Contents

and allocated costs compared to YTD-2014 Mediasite recorder costs of \$4.43 million for hardware and other costs, \$200 thousand for freight and \$859 thousand of labor and allocated costs. This resulted in gross margin on products of 57% for YTD-2015 compared to a gross margin of 58% for YTD-2014.

Services costs. Staff wages and other costs allocated to cost of service revenue were \$2.7 million in YTD-2015 and \$2.2 million in YTD-2014, resulting in gross margin on services of 82% in YTD-2015 and 85% in YTD-2014.

Operating Expenses

Selling and Marketing Expenses

Selling and marketing expenses include wages and commissions for sales, marketing and business development personnel, print advertising and various promotional expenses for our products. Timing of these costs may vary greatly depending on introduction of new products and services or entrance into new markets, or participation in major tradeshows.

Q3-2015 compared to Q3-2014

Selling and marketing expenses increased \$79 thousand or 2% from \$4.7 million in Q3-2014 to \$4.8 million in Q3-2015. Major components of the change include:

Increased salary, incentive compensation and benefits of \$162 thousand due to increased headcount and an increase in compensation rates.

Advertising & tradeshow expenses decreased by \$57 thousand.

Selling and marketing expenses for MediaMission and MSKK accounted for \$103 thousand and \$723 thousand respectively, a decrease of \$49 thousand from Q3-2014.

YTD-2015 (nine months) compared to YTD-2014 (nine months)

Selling and marketing expenses increased \$1.3 million or 11% from \$12.2 million in YTD-2014 to \$13.5 million in YTD-2015. YTD increases in the major categories include:

YTD-2015 salary, incentive compensation and benefits increased \$465 thousand from YTD-2014 due to slightly higher staff levels and an increase in compensation rates.

YTD-2015 costs allocated to selling and marketing increased by \$233 thousand from YTD-2014 primarily due to higher stock compensation and depreciation expense.

Selling and marketing expenses for MediaMission and MSKK accounted for \$319 thousand and \$2.0 million, respectively, an increase of \$657 thousand from YTD-2014. The increase is primarily due to nine months of expense in fiscal 2015 compared to approximately six months in fiscal 2014 as a result of the timing of the acquisitions.

We anticipate selling and marketing headcount to remain consistent throughout the remainder of the fiscal year.

General and Administrative Expenses

General and administrative (G&A) expenses consist of personnel and related costs associated with the facilities, finance, legal, human resource and information technology departments, as well as other expenses not fully allocated to functional areas.

Q3-2015 compared to Q3-2014

G&A expenses decreased \$140 thousand or 8% from the prior period from \$1.7 million in Q3-2014 to \$1.5 million in Q3-2015. Differences in the major categories include:

Decrease in professional services of \$454 thousand related to a reduction in legal fees associated with the patent litigation settlement with Astute.

Table of Contents

Increase in compensation and benefits of \$223 thousand related to an increase in headcount and an increase in compensation rates.

Increase in costs allocable to general and administrative of \$179 thousand, primarily as a result of higher depreciation expense and an increase in the general and administrative headcount since last year.

G&A expenses for MediaMission and MSKK accounted for \$48 thousand and \$233 thousand, respectively, a decrease of \$80 thousand from Q3-2014.

YTD-2015 (nine months) compared to YTD-2014 (nine months)

G&A increased \$85 thousand or 2% from \$4.2 million in YTD-2014 to \$4.3 million in YTD-2015. Differences in the major categories include:

Increase in compensation and benefits of \$569 thousand related to an increase in headcount.

Decrease in professional services of \$638 thousand, mainly due to a reduction of more than \$700 thousand in legal fees associated with the patent litigation settlement with Astute.

G&A expenses for MediaMission and MSKK accounted for \$154 thousand and \$679 thousand, respectively, an increase of \$114 thousand compared to YTD-2014.

We anticipate general and administrative headcount to remain consistent throughout the remainder of the fiscal year.

Product Development Expenses

Product development expenses include salaries and wages of the software research and development staff and an allocation of benefits, facility and administrative expenses.

Q3-2015 compared to Q3-2014

Product development expenses increased \$196 thousand, or 14% from \$1.4 million in Q3-2014 to \$1.6 million in Q3-2015. Differences in the major categories include:

Increase in compensation and benefits of \$109 thousand as a result of increased headcount and an increase in compensation rates.

Increase in outsourced labor of \$78 thousand from development work on certain new projects, including Mediasite Join.

Product development expense for MediaMission and MSKK accounted for \$107 thousand and \$13 thousand, respectively, an increase of \$17 thousand compared to Q3-2014.

YTD-2015 (nine months) compared to YTD-2014 (nine months)

Product development expenses increased \$664 thousand, or 16% from \$4.1 million in YTD-2014 to \$4.7 million in YTD-2015. YTD increases in the major categories include:

Increase in compensation and benefits of \$206 thousand as a result of increased headcount and an increase in compensation rates.

Increase in outsourced labor of \$217 thousand from development work on certain new projects, including Mediasite Join.

Costs allocated from general and administrative increased by \$110 thousand primarily as a result of higher stock compensation and depreciation expense.

Product development expenses for MediaMission and MSKK accounted for \$305 thousand and \$37 thousand, respectively, an increase of \$97 thousand compared to YTD-2014. The increase is primarily due to nine months of expense in fiscal 2015 compared to approximately six months in fiscal 2014 as a result of the timing of the acquisitions.

We anticipate product development headcount to remain consistent throughout the remainder of the fiscal year. We do not anticipate that any fiscal 2015 software development efforts will qualify for capitalization.

Other Income and Expense, Net

Interest expense for the three and nine months ended June 30, 2015 increased \$21 thousand and \$59 thousand compared to the same period last year due to additional borrowings with Silicon Valley Bank and PFG and the addition of the subordinated notes payable related to the acquisitions. The Company also recorded \$9 thousand of interest expense related to the accretion of discounts on the PFG Loan and Warrant Debt. There was no such accretion recorded in fiscal 2014 as the loan was funded in fiscal 2015.

During the three months ended June 30, 2015, a gain of \$62 thousand was recorded related to the fair value remeasurement on the derivative liability associated with the Loan and Security Agreement and Warrant Debt with PFG. No such gain or loss was recorded in fiscal 2014 as the loan was funded in fiscal 2015.

In the three and nine months ended June 30, 2015, a foreign currency loss of \$6 and a foreign currency gain of \$206 thousand was also realized related to re-measurement of the subordinated notes payable related to the Company's foreign subsidiaries. In the three and nine months ended June 30, 2014, a foreign currency loss of \$20 thousand was recorded related to the remeasurement, for both periods, respectively.

Liquidity and Capital Resources

The Company's primary sources of liquidity are its cash and revolving line of credit. During the first nine months of fiscal 2015, the Company used \$2.4 million of cash for operating activities compared with \$1.4 million in the same period of fiscal 2014. The increase in cash used for operating activities was primarily due to the Company's net loss, and to decreases in liabilities, including deferred taxes and unearned revenue.

Capital expenditures were \$611 thousand in the first nine months of fiscal 2015 compared to \$562 thousand in the same period in 2014. In the nine months ended June 30, 2014, a net of \$1.2 million cash was provided by the acquisitions.

The Company generated cash proceeds from equity transactions, including issuance of common stock and warrants and exercise of common stock options of \$704 thousand during the first nine months of 2015. The Company generated proceeds of \$275 thousand from issuance of common stock and exercise of common stock options for the same period in 2014.

At June 30, 2015, the Company had a \$4 million revolving line of credit with Silicon Valley Bank. The line of credit bears interest at prime rate plus 1.25%. The Company borrowed a net of \$1.25 million during the first nine months of 2015. At June 30, 2015, outstanding borrowings were \$1.25 million. The highest balance on the line of credit during the quarter was \$2.4 million. At June 30, 2015, there was a remaining amount of \$2.75 million available under the line of credit for advances.

At June 30, 2015, the Company had \$3.5 million outstanding, net of warrant debt discounts, related to notes payable with Silicon Valley Bank and PFG. The Company used cash for a net \$325 thousand in payments on notes during the nine months ended June 30, 2015 compared to proceeds of \$1.1 million generated from notes in the same period of fiscal 2014. In connection with the Loan and Security Agreement and Warrant with PFG, a non-cash debt discount of \$179 thousand was recorded, which will be accreted as a non-cash expense in the future. No such expense was incurred in fiscal 2014 as the agreement was signed in May 2015.

At June 30, 2015 approximately \$1.4 million of cash and cash equivalents was held by the Company's foreign subsidiaries.

The Company believes its cash position plus available resources is adequate to accomplish its business plan through at least the next twelve months. We will likely evaluate operating and capital lease opportunities to finance equipment purchases in the future and anticipate utilizing the Company's revolving line of credit to support working capital needs. We may also seek additional equity financing, or issue additional shares previously registered in our available shelf registration, although we currently have no plans to do so.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There have been no material changes from those reported in the Company's Annual Report on Form 10-K for the year-ended September 30, 2014. At June 30, 2015, \$4.8 million of the Company's \$5.1 million in outstanding debt is variable rate. We do not expect that an increase in the level of interest rates would have a material impact on our Consolidated Financial Statements. We monitor our positions with, and the credit quality of, the financial institutions that are party to any of our financial transactions.

ITEM 4. CONTROLS AND PROCEDURES

Evaluation of Disclosure Controls and Procedures

Based on evaluations at June 30, 2015, our principal executive officer and principal financial officer, with the participation of our management team, have evaluated the effectiveness of our disclosure controls and procedures (as defined in Rules 13a-15 (e) and 15d-15 (e) under the Securities Exchange Act) and determined that our disclosure controls and procedures were not effective. Disclosure controls and procedures ensure that information required to be disclosed by us in reports that we file or submit under the Securities Exchange Act is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the SEC, and that material information relating to the Company is accumulated and communicated to management, including our principal executive officer and our principal financial officer, as appropriate to allow timely decisions regarding required disclosures. Based on this evaluation, our principal executive officer and principal financial officer concluded that our disclosure controls and procedures were not effective as of June 30, 2015 as a result of a material weakness related to controls over the preparation of consolidated financial information.

In light of the material weakness described above, additional procedures were performed by our management to ensure that the condensed consolidated financial statements included in this quarterly report on Form 10-Q were prepared in accordance with U.S. generally accepted accounting principles.

Changes in Internal Controls

The Company is in the process of making changes to its internal control over financial reporting (as referred to in Paragraph 4(b) of the Certifications of the Company's principal executive officer and principal financial officer included as exhibits to this report) as it relates to the acquisitions that have materially affected, or are reasonably likely to affect the Company's internal control over financial reporting.

We reported two other material weaknesses during fiscal 2014. The first material weakness was in internal control over the financial reporting and monitoring of Mediasite KK (MSKK) which was identified in fiscal 2013. Our internal controls related to the capture of MSKK's historical information, the accounting for our investment in MSKK based on that information, and the review of such accounting did not operate effectively and were not sufficient to ensure that our accounting was in accordance with U.S. generally accepted accounting principles. The second material weakness related to controls over the research and analysis of accounting for non-standard contract provisions. The company did not adequately assess some unique contract implications of one large contract with a customer during the second quarter of fiscal 2014. Both of these material weaknesses were remediated by the quarter ending December 31, 2014. We instituted certain controls and procedures to obtain the necessary information to properly consolidate the foreign operations and added additional resources to address any non-standard contract provisions. The controls and procedures allow the Company to obtain accurate financial information in a timely fashion which is in accordance with US generally accepted accounting principles. The third quarter of fiscal 2014 also represented the first full quarter of operations of the foreign subsidiaries as part of consolidated operations. Over time, we have continued to

gain an understanding of the laws and customs which we were previously unfamiliar with, overcome certain challenges with language barriers and time zone differences, and implement controls surrounding the consolidation of these foreign operations with our domestic operations.

Remediation

The aforementioned internal controls over financial reporting of our foreign operations have provided a framework to remediate the material weakness surrounding our consolidation process. We reviewed and are continuing to review our processes and controls and have deployed additional accounting resources to design and implement effective controls over our consolidation process. There can be no assurances that we have fully remediated the weaknesses in the controls over the foreign operations. However, we feel that our remediation efforts to establish processes and controls as well as adding additional resources to our accounting team made significant improvements to our processes and controls in an effort to address the aforementioned material weaknesses.
