NON-GAAP
FINANCIAL
MEASURES
This
communication
includes
the
presentation
and
discussion
of
certain
financial
information
that

differs from what is reported under GAAP. Mylan's non-GAAP financial measures, including, but not limited to, adjusted diluted earnings per share (adjusted diluted EPS), are presented in order to supplement investors' and other readers' understanding and assessment of Mylan's financial performance. Mylan has also presented certain non-GAAP financial measures for

Perrigo,
including,
but
not
limited
to,
adjusted
diluted
EPS
and
adjusted
EBITDA
margin,
which
have
been
taken
from
published
sources.
Management
uses
non-GAAP
financial
measures
internally
for
forecasting,
budgeting
and
measuring
its
operating
performance.
In
addition,
primarily
due
to
acquisitions,
Mylan
believes
that
an
evaluation
of
its
ongoing
operations
(and

comparisons
of
its
current
operations
with
historical
and
future
operations)
would
be
difficult
if
the
disclosure
of
its
financial
results
were

with
GAAP.
Also,
set
forth
in
this
presentation,
Mylan
has
provided
reconciliations
of
such
non-GAAP
financial
measures
to
the
most
directly

(d) Adjusted diluted EPS for the year ended December 31, 2010, includes the full effect of the conversion of the company's preferred stock to common stock as of December 31, 2010. Adjusted diluted EPS for the period ended December 31, 2009 was calculated under the "if-converted method" which assumes the conversion of the company's preferred stock to common stock, based on an average share price, and excludes the preferred dividend from the calculation, as the "if-converted method" does not apply to the company's preferred stock.

³ Non-GAAP guidance for calendar 2015 excludes amortization of intangibles, restructuring, and unusual litigation charges, and other non-recurring items related to the Omega Pharma Invest NV (Omega) acquisition. At this time, a reconciliation to GAAP earnings per share guidance for calendar 2015 is provided in the third quarter 2015 press release dated April 21, 2015, Perrigo expects that the unavailable reconciling items, which primarily include the impact of the acquisition of Omega, along with other expenses not related to Perrigo's core operations, which may be related to the integration of Omega into Perrigo, could significantly impact Perrigo's financial results.

4

D&A includes \$502.2mm of depreciation and amortization net of acquisition related amortization expenses within cost of goods sold and other operating costs (\$6.2mm).
