Table of Contents

QUORUM AND VOTING

At least a majority of the total number of issued and outstanding shares of common stock as of the record date must be present at the Annual Meeting in person or by proxy and entitled to vote in order to have a quorum to transact business. If there are not sufficient shares present and entitled to vote at the Annual Meeting for a quorum or to approve any proposal, the board of directors may postpone or adjourn the Annual Meeting in order to permit the further solicitation of proxies.

Directors are elected by a plurality of the votes cast at the Annual Meeting. The twelve (12) nominees receiving the highest number of votes for will be elected. Votes may be cast for or may be withheld with respect to any or all nominees. For purposes of the election of directors, votes that are withheld and broker non-votes (described below) will be counted as present for purposes of establishing a quorum but will not be counted as votes cast and will have no effect on the result of the vote. Stockholders may not cumulate votes in the election of directors. In accordance with our Majority Voting Policy, any nominee for election as a director who receives a greater number of withhold votes than votes for election in an uncontested election must deliver his or her resignation to the board of directors. The board of directors will determine whether to accept the resignation based upon the recommendation of the Governance and Nominating Committee and consideration of the circumstances. See *Board and Committee Matters Corporate Governance* for more information on the Majority Voting Policy.

The affirmative vote of a majority of the shares of the Company's common stock present in person or by proxy at the Annual Meeting is required to approve Proposal Two (advisory vote on 2018 executive compensation) and Proposal Three (ratification of Ernst & Young LLP as the Company's independent registered public accounting firm). Votes on these proposals may be cast for, against or abstain. An abstention will have the effect of a vote against Proposals Two and Three. Broker non-votes will have no effect on the outcome of Proposal Two. Abstentions, votes against and broker non-votes will be counted as present for purposes of establishing a quorum. The results of voting on Proposals Two and Three are advisory only and will not be binding upon the Company or its board of directors.

A broker non-vote occurs when a bank, broker or other nominee holding shares for a beneficial owner submits an executed proxy to the Company but does not vote on a particular proposal because it does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner. If your shares are held in the name of a bank, broker or other nominee, they are not permitted to vote on your behalf on Proposals One or Two at the Annual Meeting unless you provide specific instructions by following the instructions they provide to you. For your vote to be counted on Proposal One (election of directors) or Proposal Two (advisory vote on 2018 executive compensation), you must communicate your voting decisions to your bank, broker or other nominee within the time period stated in their instructions to you. Your bank, broker or other nominee will be permitted to vote on Proposal Three (ratification of Ernst & Young LLP as the Company's independent registered public accounting firm) without instructions from you.

The individuals named as proxies will vote properly completed proxies received prior to the Annual Meeting in the way you direct. If you send in a properly completed proxy but do not specify how the proxy is to be voted, the shares represented by your proxy will be voted to elect the twelve (12) director nominees, to approve, on an advisory basis, the 2018 compensation of our named executive officers, and to ratify the appointment of Ernst & Young LLP as the Company's independent registered public accounting firm for fiscal 2019. If your shares are held by a bank, broker or other nominee and you want to vote in person at the Annual Meeting, you must obtain a legal proxy from the record holder and present it at the Annual Meeting.

Table of Contents

If you would like to receive a separate copy of a proxy statement or annual report, either now or in the future, please contact us in writing at the following address: Texas Capital Bancshares, Inc., Attn: Investor Relations, 2000 McKinney Avenue, 7th Floor, Dallas, Texas 75201. Proposal 2 Approval of Executive Compensation on an Advisory Basis

In accordance with the requirements of Rule 14a-21(a) under the Securities Exchange Act of 1934 (the Exchange Act), we are providing our stockholders with an advisory vote to approve executive compensation on an annual basis, commonly referred to as a "say-on-pay" vote. We have held a say-on-pay vote annually since the Company's 2011 Annual Meeting of Stockholders.

We believe that our executive compensation programs effectively align the interests of our named executive officers, or NEOs, with those of our stockholders by creating a combination of incentive compensation arrangements, in both cash and equity-based programs, which are directly tied to performance and creation of stockholder value, coupled with a competitive level of base compensation. Our

Table of Contents

objective is that the NEOs should have a substantial portion of total compensation derived from performance-based incentives. At our 2018 Annual Meeting of Stockholders, we received the affirmative support of 97% of votes cast in favor of our 2017 executive compensation.

The board values stockholders' opinions, and, as in prior years, the board intends to evaluate the results of the 2019 vote when making future decisions regarding compensation of the NEOs. We encourage you to carefully review the *Executive Compensation* section of this Proxy Statement and particularly the *Compensation Discussion and Analysis* for a detailed discussion of the Company's executive compensation programs.

This annual advisory vote is not intended to address any specific item of compensation, but rather the overall compensation of our NEOs and the policies and practices with respect to their compensation described in this Proxy Statement. Your vote on Proposal Two is advisory and, therefore, not binding on the Company, the board of directors or the Human Resources Committee. This advisory vote may not be construed as overruling a decision by the board, nor create or imply any additional fiduciary duty of the board.

We are asking our stockholders to indicate their approval, on an advisory basis, for the 2018 compensation paid to our NEOs by voting FOR the following resolution:

BOARD AND COMMITTEE MATTERS

Board of Directors

The business affairs of the Company are managed under the direction of the board of directors. The board of directors meets on a regularly scheduled basis to review significant developments affecting the Company and to act on matters requiring approval by the board of directors. Special meetings of the board of directors are held as required from time to time when important matters arise that require action between scheduled meetings. The board of directors held six regularly scheduled meetings during 2018. Each of the Company's directors participated in at least 75% of the meetings of the board of directors and the committees of the board of directors on which the director served during 2018.

Corporate Governance

The board of directors is committed to providing sound governance for the Company. The board of directors has adopted Corporate Governance Guidelines (the Guidelines) and charters for each committee of the board of directors to provide a flexible framework of policies relating to the governance of the Company. These documents are available in the Governance Documents section of the Company's website at: <http://investors.texascapitalbank.com/govdocs>.

Among the policies addressed in the Guidelines are the following:

Majority Voting Policy. Any nominee for election as a director who receives a greater number of withhold votes than votes for election in an uncontested election must deliver his or her resignation to the board of directors. The board of directors will determine whether to accept the resignation based upon the recommendation of the Governance and Nominating Committee and consideration of the circumstances. The Company will disclose the board's decision and the process by which it was reached.

Retirement policy. A director who reaches the age of 75 at or before the time of his or her re-election will not be eligible for election to the board of directors, subject to waiver of this requirement by unanimous vote of the remaining members of the board.

Separation of Chairman and CEO duties. The position of chairman of the board is to be held by an independent director.

Limits on other board service. No director may serve on more than four public company boards (including the Company's board of directors). The CEO and any other management director may serve on no more than one other public company board, and the chairman of the board may serve on no more than two other public company boards (one if serving as chairman).

Board composition and independence. No more than two members of management may be invited to serve on the board. A substantial majority of the board must qualify as independent under the relevant listing standards of the Nasdaq Stock Market and applicable rules of the SEC. All members of the board of directors other than Mr. Cargill qualify as independent under these standards.

Term limits. The board of directors does not believe it advisable to establish fixed term limits for directors. As an alternative to term limits, the board of directors seeks to assure that its members remain active, effective and independent contributors through ongoing performance evaluations and continuing education as contemplated by the Guidelines.

Review of significant responsibility changes. Any director who retires from his or her principal employment, or who materially changes the responsibilities of his or her principal employment, must tender a letter of resignation to the board of directors. The board of directors will determine whether to accept the resignation based on the recommendation of the Governance and Nominating Committee after its review of the circumstances.

Table of Contents

Director compensation. Director compensation includes a substantial equity component representing approximately half of each director's annual compensation in order to align director interests with the long-term interests of stockholders.

Director stock ownership. The board of directors has established stock ownership guidelines for directors in order to further align their interests with the long-term interests of stockholders. Directors are expected to own common stock having a value of at least three times the cash portion of the annual retainer paid to outside directors, and may not dispose of any shares of the Company's common stock unless they own, and will continue to own, common stock with a value at or above that level.

Executive pay governance and stock ownership. As discussed in more detail below at *Executive Compensation Compensation Discussion and Analysis*, the Guidelines include policies addressing:

Executive stock ownership;

Elimination of excise tax gross-ups with respect to executive compensation received upon a change in control;

No single trigger payment or acceleration of benefits upon a change in control; and

Clawback of incentive compensation upon a restatement of the Company's financial statements.

Access to independent advisors. The board of directors and each committee may, as it deems necessary or appropriate, obtain advice and assistance from independent, outside financial, legal, accounting, human resources or other advisors, at the expense of the Company.

Annual evaluation. The board of directors and each committee conduct annual evaluations of their performance. The Governance and Nominating Committee assists the evaluation process and annually evaluates and recommends each candidate for election or re-election as a director in view of the needs and then-current make-up of the board of directors.

Executive sessions of the board of directors and committees. The non-management directors meet in regularly scheduled executive sessions of the board of directors and its committees without any management directors or other management present.

Prohibition of poison pill. Subject to the exercise of its fiduciary duties to the Company and its stockholders, the board of directors will not authorize the issuance of any of the Company's preferred stock for defensive or anti-takeover purposes without the prior approval of stockholders.

Clawback of Incentive Compensation. The Guidelines include a policy providing that incentive compensation payable to our NEOs under certain of the Company's incentive compensation arrangements will be subject to recovery by the Company if, in the year such compensation is paid, or within three years thereafter, the Company is required to prepare an accounting restatement due to material noncompliance of the Company with any financial reporting requirement under applicable securities laws. The repayment obligation applies to the extent repayment is required by applicable law, or to the extent the executive's compensation is determined to be in excess of the amount that would have been payable taking into account any restatement or correction. The board of directors, considering the best interests of the Company and its stockholders and the recommendation of the Human Resources Committee, has the sole discretion to determine whether an executive's actions have or have not met any particular standard of conduct under law or Company policy, and whether recovery of incentive compensation should be pursued.

Executive Stock Ownership Guidelines. The Guidelines include stock ownership guidelines for the NEOs in order to further align their interests with the long-term interests of stockholders. NEOs are expected to own common stock having a value of at least three times their base compensation (five times for the CEO), and may not dispose of any shares of the Company's common stock unless they own, and will continue to

own, common stock at that level. Unvested restricted stock, restricted stock units, stock options and stock appreciation rights are not included in an executive's stock ownership for purposes of this policy. All of the currently serving NEOs are in compliance with the Company's stock ownership policy, and as of the date of this Proxy Statement Mr. Cargill, Ms. Anderson and Mr. Ackerson have each reached the target level of share ownership.

Hedging of Company securities prohibited. All Company directors, officers and employees are prohibited from purchasing any financial instrument that is designed to hedge or offset any decrease in market value of Company securities, and from participating in derivative or speculative transactions with respect to Company securities, including but not limited to prepaid variable forward contracts, collars, equity swaps, exchange funds, puts, calls and other derivative instruments. All directors, officers and employees are also prohibited from participating in short sales of the Company's securities.

Pledging of Company securities prohibited. Directors and officers who are reporting persons under Section 16 of the Exchange Act and such additional employees as may be designated by the Governance and Nominating Committee are prohibited from holding Company securities in a margin account or otherwise pledging Company securities as collateral for a loan.

Risk Management

Our board of directors oversees an enterprise-wide approach to risk management, intended to support the achievement of strategic objectives to optimize our organizational performance and enhance stockholder value while operating within the guidelines of our risk appetite statement. While the board of directors has the ultimate oversight responsibility for the risk management process, the board has authorized various committees to provide primary oversight of the Company's enterprise risk management program. In addition, management has appointed a Risk Management Committee (RMC) comprised of executives responsible for all major categories of risk to provide management oversight and guidance related to the Company's enterprise risk management. Annually, the RMC updates our risk appetite statement and establishes various risk tolerances, which are ultimately approved by the board. Specific responsibilities for the board's committees are discussed in more detail below.

Director Independence

The board of directors has determined that each director other than Mr. Cargill qualifies as an independent director as defined in the Nasdaq Stock Market Listing Rules and as further defined by applicable statutes and regulations.

Board Leadership Structure and Risk Oversight

The CEO and chairman positions are separated under the Company's board leadership structure. Larry L. Helm acts as the non-executive chairman and C. Keith Cargill serves as the CEO. The board of directors determined that this is the most effective way for its leadership to be structured and believes this is a best practice for governance. The members of the Company's board of directors also serve as directors of the Bank in order to provide effective oversight of the Bank.

The board of directors is responsible for oversight of management and the business and affairs of the Company, including the management of risk. The board of directors has delegated various aspects of its risk oversight responsibilities to the board's committees. The Risk Committee is charged with oversight of the Company's policies and processes related to identification, assessment, monitoring and management of market risk, interest rate risk, credit risk, liquidity risk, price risk, operational risk, regulatory compliance risk, strategic risk, legal risk, reputational risk and other material business risks, including the establishment of a comprehensive risk framework for the Company and setting and monitoring the risk appetite of the

Company. The Audit Committee assists the board of directors in monitoring the Company's financial reporting risk, which includes the appropriateness of the allowance for loan and lease losses. The Human Resources Committee, in conjunction with its annual review and approval of the compensation of the Company's CEO and senior management, considers whether the Company's incentive plans encourage participants to take risks that would be reasonably likely to have a material adverse impact on the Company, and to the extent necessary, reviews and discusses with management any related risk mitigation features and disclosures determined to be advisable.

The Risk Committee provides oversight to the RMC. The RMC reports to the Risk Committee at least quarterly with respect to its risk-related activities. The Chief Risk Officer (CRO) has a direct reporting relationship to the Risk Committee. Additionally, the Audit Committee receives reports from the CRO and the Internal Audit Department regarding management's compliance with the Company's risk appetite statement and applicable risk-related policies, procedures and tolerances that impact the Company's financial reporting and related internal controls and regulatory compliance.

Committees of the Board of Directors and Meeting Attendance

The board of directors had four standing committees during 2018. A general description of the functions performed by each committee and committee membership as of the date of this Proxy Statement is set forth below.

Governance and Nominating Committee. The Governance and Nominating Committee oversees the corporate governance policies for the Company and identifies, screens, recruits and recommends to the board of directors candidates to serve as directors. The Committee makes recommendations concerning the size and composition of the board of directors, considers any corporate governance issues that arise and develops appropriate recommendations, develops specific criteria for director independence and assesses the effectiveness of the board of directors. Governance and Nominating Committee members are Elysia Holt Ragusa (chair), James H. Browning and Ian Turpin. The board of directors has adopted a charter for the Governance and Nominating Committee, which is available on the Company's website at www.texascapitalbank.com. The Governance and Nominating Committee met six times during 2018.

The Governance and Nominating Committee considers industry knowledge and other business expertise, personal traits such as character, integrity and wisdom, and the candidate's understanding of business operations, marketing, finance or other aspects relevant to the success of a large publicly traded corporation in today's business environment, among other factors, when evaluating candidates for the Company's board of directors. The Committee considers diversity when identifying nominees for director, looking primarily for diversity in professional experiences and skills, but also considering other dimensions of diversity, including gender and cultural background. Director searches in recent years have specified that candidates should provide diversity to the board in addition to specific experience and skill sets being sought; the individuals considered by the Governance and Nominating Committee in these searches have included diverse candidates. It is expected that future director searches will continue this practice. These considerations ensure the board of directors is comprised of individuals who are able to contribute a variety of viewpoints, which the Committee believes is an important component in ensuring that the board exercises good judgment and diligence. The Committee regularly assesses the size of the board of directors, whether any vacancies are expected due to retirement or otherwise, and the need for particular expertise on the board of directors. Candidates may come to the attention of the Committee from current directors, stockholders, professional search firms, officers or other persons. The Committee reviews all candidates in the same manner regardless of the source of the recommendation.

Audit Committee. The Audit Committee oversees the Company's and the Bank's processes related to financial and regulatory reporting, internal control and regulatory and legal compliance. The Audit Committee also oversees the Company's internal control over financial reporting, management's preparation of the financial statements of the Company, the Company's methodology for establishing the allowance for loan and lease losses and the sufficiency of quarterly provisions for loan and lease losses, and reviews and assesses the independence and qualifications of the Company's independent registered public accounting firm. The board of directors has adopted a written charter for the Audit Committee, which is available on the Company's website at www.texascapitalbank.com. The Audit Committee appoints the firm selected to be the Company's independent registered public accounting firm and monitors the performance of such firm, reviews and approves the scope of the annual audit and quarterly reviews and reviews with the independent registered public accounting firm the Company's annual audit and annual consolidated financial statements. The Committee also oversees the Company's internal audit staff, which includes reviewing with management the status of internal accounting controls, and evaluates areas having a potential financial or regulatory impact on the Company that may be brought to the Committee's attention by management, the independent registered public accounting firm, the board of directors or by employees or other sources, including the Company's confidential hotline maintained to allow employees to make confidential reports of matters requiring attention. The Audit Committee members are James H. Browning (chair), David S. Huntley, Charles S. Hyle and Patricia A. Watson. The Audit Committee met five times during 2018.

The board of directors has determined that all of the committee's members are able to read and understand fundamental financial statements as contemplated by the current listing standards of the Nasdaq Stock Market. The board of directors also determined that two members qualify as audit committee financial experts as defined by the SEC and also satisfy the Nasdaq Stock Market's financial sophistication requirements.

Human Resources Committee. The Human Resources Committee (HR Committee) advises management and makes recommendations to the board of directors with respect to the compensation and other employment benefits of executive officers and key employees of the Company. The HR Committee also administers the Company's long-term incentive and annual incentive programs for executive officers and employees. The HR Committee's Charter is available on the Company's website at www.texascapitalbank.com. The HR Committee members are Dale W. Tremblay (chair), Elysia Holt Ragusa and Steven P. Rosenberg. The HR Committee met nine times during 2018. For more information regarding the HR Committee's processes and procedures for the consideration and determination of executive compensation, see the *Compensation Discussion and Analysis* later in this Proxy Statement.

The Committee also oversees the activities of the RMC, which is chaired by the Company's CRO and includes the Company's CEO and Chief Financial Officer (CFO), as well as the Bank's Chief Lending Officer and director of technology and operations. The Risk Committee's Charter is available on the Company's website at www.texascapitalbank.com. The Risk Committee members are Charles S. Hyle (chair), Jonathan E. Baliff, Larry L. Helm and Robert W. Stallings. The Risk Committee met four times during 2018.

Report of the Audit Committee

The Audit Committee's general role is to assist the board of directors in overseeing the Company's financial reporting process and related matters. The Audit Committee has reviewed and discussed with the Company's management and the Company's independent registered public accounting firm the audited financial statements of the Company for the year ended December 31, 2018.

The Audit Committee has also discussed with the Company's independent registered public accounting firm the matters required to be discussed pursuant to the Public Company Accounting Oversight Board Auditing Standard, *Communications with Audit Committees*. The Audit Committee has received and reviewed the written disclosures and the letter from the Company's independent registered public accounting firm pursuant to applicable requirements of the Public Company Accounting Oversight Board regarding communication with audit committees concerning independence, and has discussed with the independent registered public accounting firm the firm's independence. The Audit Committee has also considered whether the provision of non-audit services to the Company by Ernst & Young LLP is compatible with maintaining their independence, and has determined that such independence has been maintained.

Based on the review and discussion referred to above, the Audit Committee recommended to the board of directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the fiscal year ended December 31, 2018, filed with the SEC on February 14, 2019.

The Company performed well in 2018, reporting record net income of \$300.8 million. We benefitted from continued growth in both traditional loans held for investment and total mortgage finance loans, including MCA loans. Our net interest income reached a record of \$914.9 million, primarily due to an increase of \$2.3 billion in average earning assets as well as the effect of increases in interest rates on loan yields, offset by an increase in interest-bearing liabilities of \$2.7 billion and the effect of increased funding costs. These results were accomplished organically without dilutive acquisitions and are consistent with the Company's high level of performance over the past five years. At \$5.79 per share, 2018 was the best earnings per share (EPS) year in our history. However, as a result of the decline in our stock price, our executives experienced a significant loss in value of their owned common stock and 2018 equity incentives along with our stockholders, reflecting the close alignment of their interests with those of our stockholders.

Executive Summary

Our compensation philosophy demands that executive compensation track appropriately to the Company's economic performance, as well as management's performance. The HR Committee and the board of directors believe that the Company's financial performance and our management's overall performance in 2018 were outstanding while the Company's overall economic performance was tempered by the decline in our stock price.

The HR Committee believes that executive pay and performance of the Company continue to be appropriately aligned. The key NEO pay decisions during 2018 were as follows:

NEOs received salary increases ranging from 3% to 10% in 2018. Salary increases were determined by the HR Committee, as described in more detail under *Base Salary*.

For 2018, annual incentive payouts for NEOs were at 95.5% of target. As described in more detail under *Annual Incentive Plan*, the annual incentive plan was based on achievement of performance goals related to net income and credit quality, as well as individual management strategic objectives (MSOs).

Edgar Filing: TEXAS CAPITAL BANCSHARES INC/TX - Form DEF 14A

Long-term incentive awards in the form of time-based restricted stock units (RSUs) and performance-based RSUs were granted to NEOs in March 2018. These long-term incentive awards, which are intended to align NEO financial interests with shareholder value creation, declined in value by more than 40% during 2018 as our stock price declined.

The Company added a feature to the nonqualified deferred compensation plan to ensure that NEOs receive the same level of retirement contribution as all other employees

Objectives of Executive Compensation

We provide a compensation package for our NEOs that is primarily driven by the overall economic performance of the Company, together with a focus on the performance of each executive, which we

Table of Contents

believe impacts our overall long-term profitability. The objectives of our executive compensation programs are:

to attract and retain highly qualified executive officers by providing total compensation opportunities that are competitive with those provided in the industry and commensurate with the Company's business strategy and performance objectives;

to provide incentive and motivation for our executive officers to enhance stockholder value by linking their compensation to the value of our common stock;

to provide an appropriate mix of fixed and variable pay components to establish a pay-for-performance oriented compensation program; and

to provide competitive compensation opportunities and financial incentives without imposing excessive risk to the Company, and to ensure that appropriate standards related to asset quality, capital management and expense management are maintained.

Oversight of Executive Compensation Program

The HR Committee of our board of directors oversees our executive compensation programs. Each member of the HR Committee is an independent director as defined by the Nasdaq Stock Market Listing Rules. With approval by the board, the HR Committee has developed and applied a compensation philosophy that focuses on a combination of competitive base salary and incentive compensation, including cash and equity-based programs, which are directly tied to performance and creation of stockholder value.

The HR Committee meets throughout the year, including formal meetings, informal conferences and discussions with management and consultants. The HR Committee works with executive management, primarily our CEO, to assess the compensation approach and compensation levels for our executive officers and key employees other than the CEO. The HR Committee makes recommendations to the board of directors with respect to the overall executive compensation and employment benefits, philosophy and objectives of the Company. The HR Committee establishes objectives for the Company's CEO and sets the CEO's compensation based, in part, on the evaluation of market data provided by its independent consultant. The HR Committee also reviews and recommends to the board the Company's annual and long-term incentive plans for executive officers and key employees.

The HR Committee regularly reviews the Company's compensation programs to ensure that compensation levels and incentive opportunities are competitive and reflect performance. Factors considered in assessing the compensation of individual officers may include the Company's overall performance, the officer's experience, performance and contribution to the Company, the achievement of strategic goals, external equity and market value, internal equity, fairness and retention. There are no material differences in compensation policies and approach among the NEOs, as all relate primarily to performance and contribution in achieving consolidated results. In the case of the NEOs other than the CEO, the CEO makes recommendations to the HR Committee regarding salary increases, annual incentive amounts and total compensation levels.

Compensation Risk Oversight

The HR Committee regularly reviews all compensation plans to identify whether any of the Company's or the Bank's compensatory policies or practices incent behavior that creates excessive or unnecessary risk to the Company. In 2018, the HR Committee conducted a risk assessment with the assistance of Pearl Meyer & Partners, LLC (Pearl Meyer), its independent compensation advisor. Based upon the results of this assessment, the HR Committee determined that our compensation program does not create risks that are reasonably likely to have a material adverse effect on the Company.

Equity Incentive Philosophy

The HR Committee believes that the direct ownership of substantial amounts of common stock combined with stock-settled incentives combine to strongly align the interests of the Company's senior executive officers with the interests of stockholders. The Company's NEO compensation arrangements place a large amount of each individual's future compensation at risk relative to the performance of the Company's common stock. Our NEOs' significant investments in our common stock, as required by our executive stock ownership guidelines, also make our executives sensitive to declines in our stock price.

The HR Committee generally considers the returns realized by stockholders through increases or decreases in the price of the Company's common stock in the course of establishing NEO equity incentive compensation performance targets and in determining annual incentive compensation and vesting of long-term performance-based incentives, but has determined that it would be inappropriate to base specific incentive compensation award amounts or vesting determinations on stockholder return measures such as total stockholder return. This is primarily based upon concern that the Company's NEO compensation measures not incent excessive risk-taking behavior in times when market perceptions of matters outside of our executives' control, such as future commodity price risk, interest rate changes, earnings multiples applied to financial services companies generally, tax law changes or the expectation of future easing of regulatory compliance costs, introduce significant volatility into our stock price.

Our long-term performance-based incentives are earned based on achievement of performance measures such as EPS, return on equity (ROE), return on assets (ROA) and increases in tangible book value (TBV). These performance measures are based on the Company's financial performance and take into account the importance of balancing the risk appetite and risk management framework established by the board of directors, regulatory expectations for safe and sound operation of a federally insured bank and the desire and ability of our executive leadership and employees to achieve long-term, sustainable growth in stockholder value.

Consideration of Most Recent Advisory Stockholder Vote on Executive Compensation

At our 2018 Annual Meeting of Stockholders, we received the affirmative support of 97% of votes cast in favor of our 2017 executive compensation, as disclosed in the 2018 Proxy Statement. The Board and the HR Committee value the perspectives of our stockholders regarding executive compensation. In considering the results of this advisory vote on executive compensation, the HR Committee concluded that the compensation paid to our NEOs and the Company's overall pay practices enjoy strong stockholder support.

The Company maintains active engagement with our stockholders, communicating directly with the holders of more than 50% of our outstanding common stock each year regarding the Company's performance and responding to any questions or issues they may raise. Future advisory votes on executive compensation will continue to serve as an additional tool to guide the Board and the HR Committee in evaluating the alignment of the Company's executive compensation program with the interests of the Company and its stockholders.

An advisory vote at the Company's 2017 Annual Meeting of Stockholders confirmed that stockholders overwhelmingly favored an annual advisory vote on executive compensation. Consistent with this preference, the Board determined to implement an annual advisory vote on executive compensation until the next required vote on the frequency of stockholder votes on executive compensation, which is scheduled to occur at the 2023 Annual Meeting of Stockholders.

Role of the Compensation Consultant

The HR Committee engaged Pearl Meyer as its independent executive compensation consulting firm for 2018 to provide:

expertise on compensation strategy and program design;

information relating to the selection of the Company's peer group and compensation practices employed by the peer group and overall market;

advice regarding structuring and establishing executive compensation plans or arrangements that are aligned with the objectives of the Company and the interests of stockholders; and

recommendations to the HR Committee concerning the existing executive compensation programs and changes to such programs. The HR Committee has determined that a formal executive compensation market/peer review will be performed every other year and engaged Pearl Meyer to perform such review in 2018. Pearl Meyer provided the HR Committee with a market competitive executive compensation analysis for the NEOs, including base salary, annual incentives, long-term incentives and non-qualified deferred compensation plans, including retirement benefits. The next executive compensation market/peer review will be performed in 2020.

Pearl Meyer provided its executive compensation consulting services under the direction of the HR Committee and did not provide any additional services to the Company. Our management provides input to the compensation consultant but does not direct or oversee its activities with respect to our executive compensation programs. In order not to impair the independence of the compensation consultant, or create the appearance of an impairment, the Committee follows a policy that the compensation consulting firm may not provide other services to the Company. The HR Committee has evaluated Pearl Meyer's independence, including the factors relating to independence specified in Nasdaq Stock Market Listing Rules, and determined Pearl Meyer to be independent.

Peer Company Compensation Data

The HR Committee works with the independent consultant to collect and review competitive market compensation practices. As one point of reference, the HR Committee reviews compensation practices for a peer group of publicly traded bank holding companies of comparable size. The peer group used in 2018 included the following companies:

Associated Banc-Corp

BOK Financial Corporation

Cullen/Frost Bankers, Inc.

MB Financial, Inc.

PacWest Bancorp

Table of Contents

The HR Committee targets total compensation paid to the Company's executive officers to be aligned with the 50th percentile of the Company's peer group and market. Some executive officers may be below the 50th percentile, while some may be above, depending on the facts and circumstances of each executive including experience, time in position and performance.

Elements of our Compensation Program

Our compensation program for executive officers consists of the following elements:

base salary;

annual incentive compensation;

long-term incentive compensation; and

other standard retirement and health benefits.

Base Salary

Base salaries are designed to compensate executive officers for their roles and responsibilities and to provide competitive levels of fixed compensation that reflects their experience, duties and scope of responsibilities. We pay competitive base salaries in order to recruit and retain executives of the quality necessary to ensure the success of our Company. Base salaries for the NEOs are subject to annual review, but are not always adjusted on an annual basis. The HR Committee determines the appropriate level and timing of changes in base compensation for the NEOs (other than the CEO) based on the recommendation of the CEO. In making determinations of salary levels for the NEOs, the HR Committee considers the entire compensation package for each executive officer, including the equity-based compensation provided under long-term compensation plans.

The HR Committee determines the level of periodic salary increases after reviewing:

the qualifications, experience and performance of each executive officer;

the compensation paid to persons having similar duties and responsibilities in our peer group companies; and

the nature of the Bank's business, the complexity of its activities and the importance of the executive's experience to the success of the business.

After considering these factors, reviewing results of the Pearl Meyer peer review and discussing proposed salaries for the other NEOs with the CEO, the HR Committee recommended and the board approved annual salaries, with the indicated percentage increases, effective March 1, 2018, as follows: Mr. Cargill \$965,000 (6%), Ms. Anderson \$480,000 (10%), Mr. Ackerson \$510,000 (5%), and Mr. Hudgens \$495,000 (3%).

Annual Incentive Compensation

We provide annual cash incentive opportunities to motivate and reward the NEOs for achievement of financial results as well as strategic and business objectives. A target bonus opportunity is set for each NEO as a percentage of base salary, with the percentage varying depending on their position. For 2018, the annual incentive target amounts for the NEOs were as follows:

Edgar Filing: TEXAS CAPITAL BANCSHARES INC/TX - Form DEF 14A

Executive Officer	Target Incentive (% of Base Salary)	Target Incentive (\$)
C. Keith Cargill	115%	\$ 1,109,750
Julie L. Anderson	80%	\$ 384,000
Vince A. Ackerson	80%	\$ 408,000
John D. Hudgens	75%	\$ 371,250

Table of Contents

Actual incentive amounts that could be earned by the NEOs for 2018 were based on the level of achievement of performance goals relating to the following key metrics: net income (65%), credit quality (25%) and MSOs (10%).

For the net income metric, NEOs could earn between 25% (for performance at threshold levels) and 150% (for performance above target levels) of their respective target bonus amounts. With respect to the net income metric, the target performance goal was \$278.0 million, which would result in a payout of 100% of the weighted target incentive; the threshold performance goal was \$236.3 million, resulting in a payout of 25% of the weighted target incentive; and the maximum threshold performance goal was \$306.1 million, resulting in a payout of 150% of the weighted target incentive.

For the credit quality metric, NEOs could earn between 0% and 100% of the weighted target amount based on performance measured against board-approved guidelines and tolerances reviewed by the Risk Committee throughout the year.

For the MSO metric, NEOs could earn between 0% and 100% of the weighted target amount based on the HR Committee's qualitative assessment of the NEO's successful completion of specific business and financial objectives and strategic initiatives related to the NEO's areas of responsibility in the business and approved by the HR Committee at the beginning of the year.

In addition, in determining the amount of annual incentives earned, the HR Committee considers the performance of the Company relative to its peer group, and also considers the entire compensation package of each of the NEOs and the performance of that individual.

The HR Committee met in February 2019 to consider the Company's performance against incentive goals and to determine the annual incentives to be paid to the NEOs. For 2018, the following results were achieved and considered in determining NEO incentive compensation:

Adjusted net income of \$274.0 million, which equaled 93% of target, resulting in a payout of 60.5% of each NEO's target amount related to this performance metric. Net income for the period was adjusted downward for the impact of interest rate increases that were determined by the HR Committee not to be attributable to management's performance.

Credit quality results were measured against board approved guidelines and tolerances reviewed by the Risk Committee throughout the year and were determined to equal 100% of target, resulting in a payout of 25.0% of each NEO's target amount related to this performance metric.

Achievement of individual MSOs were reviewed and determined by the HR Committee to equal 100% of target for each NEO, resulting in a payout of 10.0% of each NEO's target amount related to this performance metric.

Based on the achievement of the financial, business and individual performance goals described above, the HR Committee awarded the following annual incentives to the NEOs for fiscal year 2018:

	Target Incentive	Incentive Earned	Incentive Earned
Executive Officer	(\$)	(% of Target)	(\$)
C. Keith Cargill	\$ 1,109,750	95.5%	\$ 1,059,256
Julie L. Anderson	\$ 384,000	95.5%	\$ 366,528
Vince A. Ackerson	\$ 408,000	95.5%	\$ 389,436
John D. Hudgens	\$ 371,250	95.5%	\$ 354,358

Long-Term Incentive Compensation

Long-term incentive awards for our NEOs include equity-based awards that are designed to directly align the interests of the NEOs with those of our stockholders and to motivate the NEOs to increase the value of the Company to stockholders over the long term. We believe that equity-based incentives are an effective way align the interests of employees and stockholders, build stockholder value and retain the Company's key employees.

2018 Grant of Equity Awards

In March 2018, the Company made an annual grant of equity awards to the NEOs. The 2018 equity awards consisted of RSUs, 50% of which were time-based awards and 50% of which were performance-based awards. The time-based RSUs vest on the third anniversary of the grant date, subject to the executive's continued employment with Company. The performance-based RSUs may be earned in amounts ranging from 0% to 150% of the target award, based on the Company's level of achievement of performance goals relating to (i) average EPS growth relative to the Company's three-year plan (25% weighting), (ii) average EPS growth relative to a peer group (25% weighting), (iii) average ROE relative to the Company's three-year plan (25% weighting), and (iv) average ROE relative to a peer group (25% weighting) for the three-year period ending December 31, 2020.

When considering the 2018 awards, the HR Committee started with an intended target value for each executive officer, which was based on a percentage of his or her base salary. For 2018, the target values for equity awards to the NEOs, as a percentage of their respective base salaries, were as follows: Mr. Cargill, 230%; Ms. Anderson, 100%; Mr. Ackerson, 100%; and Mr. Hudgens, 85%. The amounts of the grants were based on a variety of factors deemed relevant by the HR Committee, including the Company's performance, the NEO's level of responsibility, an assessment of individual performance made by the Committee and competitive market data. The number of time-based RSUs and the target number of performance-based RSUs (including the threshold and maximum number of performance-based RSUs that could be earned) granted to each NEO are set forth below in the *2018 Grants of Plan-Based Awards Table*.

The RSUs will be forfeited upon an NEO's termination of employment, except as otherwise provided below. The RSUs provide for accelerated vesting if an NEO is terminated without cause or terminates his or her employment for good reason (each as defined in the NEO's employment agreement) following a change in control of the Company, regardless of whether the performance criteria have been achieved. If an NEO violates the provisions of any agreement with the Company that contains confidentiality, non-solicitation or other protective or restrictive covenant provisions, any unvested awards will cease to vest, any undelivered shares will be forfeited and any net shares delivered to the NEO with respect to the awards must be immediately returned to the Company.

2016 Grants of Performance-Based RSUs – Performance Results and Payouts

The Company made an annual grant of RSUs in September 2016. The grants were structured in a manner consistent with the 2018 grants described above, with awards consisting of 50% time-based RSUs and 50% performance-based RSUs. The 2016 performance-based RSUs could be earned in amounts ranging from 0% to 150% of the target award, based on the Company's level of achievement of performance goals relating to EPS, ROA and increases in TBV over a three-year performance period.

Table of Contents

The following table sets forth the range of specific targets, relative weights and resulting payouts for the 2016 performance-based RSUs for the three-year period ending December 31, 2018, as established at the time the awards were granted:

Target	Payout	Target	Payout	Target	Payout
EPS	(as a % of Weighted)	Average ROA	(as a % of Weighted)	TBV Growth	(as a % of Weighted)

\$4.90	150%	1.00%	150%	16.0%	150%

Payouts for results falling between the specified values reflected above are determined based on straight-line interpolation.

The three-year performance period with respect to the 2016 performance-based RSUs concluded on December 31, 2018. The following table sets forth the Company's actual achievement of performance goals for the 2016 performance-based RSUs and the resulting payout percentages. Actual EPS was adjusted downward for the impact of a reduction in the Company's income tax rate as a result of the Tax Cuts and Jobs Act enacted in December 2017 that the HR Committee determined did not result from management's performance.

Adjusted	Payout	Actual	Payout	Actual	Payout	Total
EPS	(as a % of Weighted)	Average ROA	(as a % of Weighted)	TBV Growth	(as a % of Weighted)	Payout

\$4.73	136%	0.93%	122%	13.63%	126%	128.4%

Based on the Company's actual achievement of performance goals for the three-year period ending December 31, 2018, the NEOs who received 2016 performance-based RSUs earned the following payouts:

Named Executive Officer	Target Award of 2016	Aggregate Payout Factor	Shares Earned
	Performance-Based RSUs	(% of Target Award)	and Paid Out

Other Benefits

Retirement Savings Opportunity. All employees may participate in our 401(k) Retirement Savings Plan, or 401(k) Plan. Each employee may make before-tax contributions of up to 85% of their eligible compensation up to current Internal Revenue Service limits. We provide the 401(k)

Plan to help our employees save some amount of their cash compensation for retirement in a tax efficient manner. Since 2006, we have matched contributions made by our employees to the 401(k) Plan based upon a formula that considers the amount contributed by the respective employee with a vesting scheduled based upon the employee's tenure with the Company. The matching contributions for each NEO are set forth in the *2018 All Other Compensation Table*. We do not provide an option for our employees to invest in our common stock through the 401(k) Plan. We have not historically provided any retirement plans, such as defined benefit, defined

contribution, supplemental executive retirement benefits, retiree medical or deferred compensation plans requiring mandatory Company contributions, to our employees or the NEOs, other than the 401(k) Plan and the Nonqualified Deferred Compensation Plan described below.

Nonqualified Deferred Compensation Plan. The Company offers a nonqualified deferred compensation plan for our executives and key members of management in order to assist us in attracting and retaining these individuals. Participants in the plan may elect to defer up to 75% of their annual salary and/or short-term incentive payout into deferral accounts that mirror the gains or losses of specified investment funds or market indexes approved by the HR Committee and selected by the participants. These investment alternatives are similar to the choices under the 401(k) Plan. The gains and losses credited to each participant's deferral account are subject to the same investment risk as an actual investment in the specified investment funds or market indexes. The Company restores any lost company match in the 401(k) Plan due to legal limits on qualified plans. Beginning in 2018, we have matched contributions made by participants into the nonqualified deferred compensation plan based upon a formula that considers the amount contributed by the respective employee with a vesting schedule based upon the employee's tenure with the Company. All participant contributions to the plan and any related earnings are immediately vested and may be withdrawn upon the participant's separation from service, death or disability or upon a date specified by the participant.

Health and Welfare Benefits. All full-time employees, including our NEOs, may participate in our health and welfare benefit programs, including medical, dental and vision care coverage, disability insurance and life insurance. We provide these benefits to meet the health and welfare needs of employees and their families.

Employment Agreements

The Company maintains employment agreements with each of its NEOs. The material terms of each NEO's employment agreement are described below.

Employment Agreement for Mr. Cargill

Mr. Cargill's amended and restated employment agreement, which we refer to as the Cargill Agreement, has a term of one year and will be automatically renewed for successive one-year terms unless notice of non-renewal is given by either party. The Cargill Agreement will terminate upon Mr. Cargill's death or disability, upon his voluntary termination of employment or upon his termination for cause. Cause as defined in the agreement includes: (1) fraud, misappropriation or embezzlement; (2) the material breach of executive responsibilities, restrictive covenants or fiduciary duties; (3) conviction of a felony or crime of moral turpitude; (4) illegal use of drugs interfering with the performance of his duties; or (5) acceptance of other employment without permission. Upon any such termination Mr. Cargill would be entitled to receive his base salary, pro-rated through the termination date, any unpaid but accrued vacation benefits and any unreimbursed business expenses.

If terminated by the Company without cause or by non-renewal, or by Mr. Cargill for good reason, Mr. Cargill would receive a cash payment equal to twelve months' base salary, a cash payment equal to the average annual incentive payment for the two prior years, and continued medical insurance benefits for twelve months following termination. Good reason is defined as (1) an assignment of duties that are functionally inferior to the duties set forth in the Cargill Agreement; (2) a change of employment location which is more than 50 miles from the Company's current executive offices; or (3) a reduction in salary, other than as part of a proportionate reduction affecting all other senior officers.

If, in connection with a change in control, as defined in the Cargill Agreement, Mr. Cargill's employment is terminated either (1) by the Company or the successor entity without cause, or (2) by Mr. Cargill for good

Table of Contents

reason, Mr. Cargill will receive a lump sum payment equal to 2.5 times his average base salary and the average of any annual incentive amounts paid to him during the two years preceding the change in control. This change in control payment is in lieu of any other amounts to which he would be entitled under the Cargill Agreement.

As a means of providing protection to the Company's stockholders, under certain adverse conditions such as dissolution, bankruptcy or a distressed sale of the Company's assets or stock for the purpose of avoiding a bankruptcy proceeding or at the recommendation of regulatory authorities, the above described payments would not occur, except for the cash payments described above that would be owing upon Mr. Cargill's voluntary termination of employment.

The Cargill Agreement contains other terms and conditions, including non-competition and non-solicitation provisions, confidentiality obligations and restrictions on Mr. Cargill's ability to be involved with a competing bank or company with a place of business in Texas.

Amended and Restated Executive Employment Agreement between Ms. Anderson and the Company

The Company entered into an Amended and Restated Executive Employment Agreement with Ms. Anderson effective July 1, 2017 (the Anderson Agreement). Pursuant to the Anderson Agreement, in addition to serving as CFO of the Bank, Ms. Anderson began serving as CFO of the Company. The Anderson Agreement has an 18-month initial term and is automatically renewable for successive one-year terms unless earlier terminated.

The Anderson Agreement will terminate upon Ms. Anderson's death or disability, upon her voluntary termination of employment or upon her termination for cause. Upon any such termination, Ms. Anderson would be entitled to receive her base salary, pro-rated through the termination date, any unpaid but accrued vacation benefits and any unreimbursed business expenses.

Termination for cause means the Company's termination of Ms. Anderson's employment for any of the following: (1) fraud, misappropriation or embezzlement; (2) the material breach of Ms. Anderson's executive responsibilities or of the protective covenants in the Anderson Agreement; (3) conviction of a felony or crime of moral turpitude; (4) intentional breach of any non-disclosure or non-competition/non-solicitation agreement with the Company or the Bank; (5) intentional failure to perform the duties and responsibilities required by the Anderson Agreement; (6) illegal use of drugs interfering with Ms. Anderson's performance of her duties under the Anderson Agreement; (7) acceptance of other employment without permission; or (8) material breach of fiduciary duties owed to the Company.

If Ms. Anderson's employment is terminated by the Company without cause or upon notice, or Ms. Anderson terminates her employment for good reason, Ms. Anderson is entitled to a cash severance benefit of twelve months' base salary plus her average annual cash bonus for the two preceding bonus plan years, and continued medical insurance benefits for twelve months following termination. If Ms. Anderson's employment is terminated without cause or for good reason within the period beginning 90 days before and ending 18 months following a change in control of the Company, Ms. Anderson is entitled to a cash severance benefit equal to 2.5 times her average base salary and average cash bonus for the two preceding bonus plan years, and continued health and welfare benefits that are no less favorable than the benefits to which Ms. Anderson was entitled prior to the change-in-control for a period of 18 months following termination. Good reason is defined as: (1) an assignment of duties that are functionally inferior to the duties set forth in the Anderson Agreement; (2) a change of employment location which is more than 50 miles from the Company's current executive offices; (3) a reduction in salary, other than as part of a proportionate reduction affecting all other senior officers; or (4) the delivery by the Company of a notice of non-renewal of the Anderson Agreement in connection with certain change in control events.

Table of Contents

As a means of providing protection to the Company's stockholders, under certain adverse conditions such as dissolution, bankruptcy or a distressed sale of the Company's assets or stock for the purpose of avoiding a bankruptcy proceeding or at the recommendation of regulatory authorities, the above described payments would not occur except for the cash payments described above that would be owing upon Ms. Anderson's termination of employment due to death or disability, voluntary termination of employment or termination for cause. If the described adverse conditions occur and Ms. Anderson's termination of employment is without cause or for good reason, the above described payments would be for a period of six months in lieu of twelve months.

The Anderson Agreement contains other terms and conditions, including non-competition and non-solicitation provisions, confidentiality obligations and restrictions on Ms. Anderson's ability to be involved with a competing state or national bank or company providing similar services with a place of business in Texas during her employment and for the one-year period following her termination or resignation.

Retirement Transition and Award Agreement between Mr. Hudgens and the Company

On August 6, 2018, the Company announced Mr. Hudgens' planned retirement from the Company, which will become effective August 31, 2019 (the Separation Date). In connection with his retirement, Mr. Hudgens entered into a Retirement Transition and Award Agreement (the Retirement Agreement) with the Company that provides for Mr. Hudgens to receive the following compensation in connection with his retirement and continuation of non-competition and non-solicitation obligations through February 28, 2021:

- (1) Cash payments equal to an aggregate amount of \$1,385,626 (the Cash Separation Payments) payable in equal semi-monthly installments over a period of eighteen (18) months in accordance with the Company's regular payroll practices.
- (2) Continued vesting of the performance portion of outstanding RSUs and any other performance-based awards granted to Mr. Hudgens pursuant to the Amended and Restated 2015 Long-Term Incentive Plan (the 2015 Plan) prior to December 31, 2018, in accordance with their terms and subject to the achievement of the applicable performance conditions that remain outstanding as of August 31, 2019.
- (3) Continued vesting of the time-based portion of outstanding RSUs that did not otherwise vest on or before the Separation Date, in accordance with their terms; provided, however, that the value of the time-based portion of outstanding RSUs has been determined using the average closing price of the Company's common stock for the twenty (20) consecutive trading days immediately prior to December 31, 2018 (\$53.09) and all time-based RSUs were converted into the right to receive payment solely in cash on the applicable payment date for each such award.

If Mr. Hudgens' employment is terminated without cause or for disability prior to August 31, 2019, or upon death prior to the date that all Cash Separation Payments have been paid, Mr. Hudgens or his estate will be entitled to receive the Cash Separation Payments as set forth in the Retirement Agreement. If a change in control (as defined in the 2015 Plan) should occur prior to the Separation Date, in lieu of the amounts described above, Mr. Hudgens will be entitled to receive 2.5 times his average annual base salary and bonus in effect for the two years immediately preceding the change in control.

Table of Contents

Mr. Hudgens is subject to an eighteen month restriction on his right to compete with, and solicit customers of, the Bank. If Mr. Hudgens violates these restrictions, he will forfeit any unpaid portion of the retirement benefits described above. Subject to the arrangements described above, Mr. Hudgens' s employment during 2018 continued to be subject to his Employment Agreement, the terms of which are substantially identical to those of the Ackerson Agreement described below.

Employment Agreement for Mr. Ackerson

The Company entered into an Amended and Restated Executive Employment Agreement with Mr. Ackerson effective December 18, 2014 (the Ackerson Agreement).

The Ackerson Agreement has a term of one year and will be automatically renewed for successive one-year terms unless notice of non-renewal is given by either party or unless earlier terminated in accordance with the terms of the agreement, and provides for compensation including base salary and participation in the annual incentive plan for key executives.

The Ackerson Agreement terminates upon the executive' s death or disability, upon the executive' s voluntary termination of employment or upon the executive' s termination for cause. Upon any such termination the executive would be entitled to his base salary, pro-rated through the termination date, any unpaid but accrued vacation benefits and any unreimbursed business expenses. Cause is defined substantially identically to the Cargill Agreement.

The Ackerson Agreement provides for severance payments to the executive upon termination of the executive' s employment by us without cause or by the executive for good reason, at which time the executive is entitled to receive: (1) a cash payment equal to 12 months' base salary as then in effect; (2) an amount equal to the average annual incentive paid to the executive for the two years preceding his or her termination; and (3) continued medical insurance benefits, at the Company' s expense, for a period of twelve months following termination. Good reason is defined substantially identically to the Cargill Agreement.

The Ackerson Agreement includes provisions relating to payments upon a change in control that are substantially identical to the terms of the Cargill Agreement, as well as protective provisions triggered under adverse conditions that limit the payments due to Mr. Ackerson and non-competition and non-solicitation provisions, confidentiality obligations and restrictions on the executive' s ability to be involved with a competing state or national bank.

Tax Implications of Executive Compensation

Although deductibility of compensation is preferred, tax deductibility is not a primary objective of our compensation programs. We believe that achieving our compensation objectives set forth above is more important than the benefit of tax deductibility and we reserve the right to maintain flexibility in how we compensate our executive officers, even if it may result in limiting the deductibility of amounts of compensation from time to time.

(A) Amounts represent the aggregate grant date fair value of RSUs, determined in accordance with Accounting Standard Codification (ASC) Topic 718. With respect to the 2018 awards granted on March 27, 2018, 50% of the award is time-based with cliff vesting occurring at the end of three years, on March 27, 2021, and 50% of the award is performance-based with vesting occurring on the first administratively practicable day following determination by the HR Committee that certain performance targets were achieved and subject to the NEO's continued employment over a three-year period ending December 31, 2020. The amounts presented for the 50% performance-based portion of the 2018 awards reflect the value of the award at target based on the probable outcome of the performance targets determined as of the grant date. The value of the 50% performance-based portion of the 2018 awards for each NEO at the grant date assuming that the highest levels of performance targets are achieved is as follows: Mr. Cargill \$1,515,340, Ms. Anderson \$330,743, Mr. Ackerson \$378,945 and Mr. Hudgens \$289,389.

(B) Amounts represent payouts under our annual incentive program. For further details of the targets and performance related to the payout of these amounts, refer to the *Annual Incentive Compensation* section of the *Compensation Discussion and Analysis*.

CEO PAY RATIO

Item 402(u) of Regulation S-K, implementing a requirement of the Dodd-Frank Wall Street Reform and Consumer Protection Act, requires that we disclose a ratio that compares the annual total compensation of our median employee to that of our CEO.

In order to determine the median employee, we prepared a list of all employees as of December 31, 2018, along with their gross income as reported on IRS form W-2 for 2018. Gross income as reported on IRS form W-2 for 2018 was annualized for those employees that were not employed for the full year.

After identifying the median employee, we calculated that employee's annual total compensation using the same methodology we use for our NEOs as set forth in the *2018 Summary Compensation Table*.

The annual compensation for 2018 for the CEO was \$4,144,219 and for the median employee was \$88,658. The resulting ratio of our CEO's pay to that of our median employee for 2018 was 46.7 to 1.

HUMAN RESOURCES COMMITTEE INTERLOCKS AND INSIDER PARTICIPATION

No member of the HR Committee of the board of directors of the Company was an officer or employee of the Company during 2018 or any other time. In addition, none of the executive officers of the Company served on the board of directors or on the compensation committee of any other entity, for which any executive officers of such other entity served either on our board of directors or on our HR Committee.

INDEBTEDNESS OF MANAGEMENT AND TRANSACTIONS WITH CERTAIN RELATED PERSONS

In the ordinary course of business, the Bank has made loans, and may continue to make loans in the future, to the Bank's and the Company's officers, directors and employees. However, it is the Bank's policy to not extend loans to executive officers of the Bank and the Company. The Bank makes loans to directors and their affiliates in the ordinary course of business on substantially the same terms as those with other customers. All loans to directors are reviewed and approved by our board of directors prior to making any such loans. The Bank also provides wealth management services for managed accounts to directors at discounted fees.

In February 2018, the Bank signed an agreement with TSYS, under which TSYS will provide transaction processing services to the Bank in exchange for a fee, estimated to be \$400,000 to \$600,000 per year. Patricia A. Watson, a member of the Company's board of directors, is the Senior Executive Vice President and Chief Information Officer of TSYS. The board determined that the transaction did not affect Ms. Watson's independence.

The Company has policies and procedures for reviewing related party transactions involving the Company's and the Bank's directors, executive officers and their affiliates. Each director and NEO of the Company and the Bank is required to complete a questionnaire annually, and each director who serves on the Audit Committee must complete a certification of independence annually. Both of these documents are designed to disclose all related party transactions, including loans, and this information is reviewed by management, the Audit Committee and the board of directors, as appropriate. Such transactions are subject to the standards set forth in the Company's Code of Conduct and in applicable laws and regulations and the Nasdaq Stock Market Listing Rules for determining the independence of directors. The questionnaires, certifications and Code of Conduct are all in writing.

Pre-approval Policies and Procedures

The Audit Committee has adopted a policy that requires advance approval of all audit, audit-related and tax services performed by the independent registered public accounting firm. The policy provides for pre-approval by the Audit Committee of specifically defined audit and non-audit services. Unless the specific service has been previously pre-approved with respect to that year, the Audit Committee must approve the permitted service before the independent registered public accounting firm is engaged to perform it.
