PROXY STATEMENT

ANNUAL MEETING OF STOCKHOLDERS
Thursday, October 28, 2004

Our Annual Meeting of Stockholders will be held on Thursday, October 28, 2004, at the Beekman Ballroom, Beekman Tower Hotel, 3 Mitchell Place, (northeast corner of 49th Street and 1st Avenue), New York, New York 10017 at 10:00 a.m. This proxy statement contains information about the matters to be considered at the meeting or any adjournments or postponements of the meeting.

ABOUT THE MEETING

What is being considered at the meeting?

You will be voting on the following:

- election of three directors in Class III;
- approval of our 2004 Stock Option/Stock Issuance Plan ("2004 Stock Plan"); and
- ratification of the appointment of our independent registered public accounting firm.

Who is entitled to vote at the meeting?

You may vote if you owned stock as of the close of business on September 20, 2004. Each share of stock is entitled to one vote.

How do I vote?

You can vote in three ways:

- by attending the meeting
- by telephone or internet as described on the enclosed proxy card, or
- by completing, signing and returning the enclosed proxy card.

Can I change my mind after I vote?

Yes, you may change your mind at any time before the vote is taken at the meeting. You can do this by (1) signing another proxy with a later date and returning it to us prior to the meeting or filing with our corporate secretary a written notice revoking your proxy, or (2) voting again at the meeting.

What if I return my proxy card but do not include voting instructions?

Proxies that are signed and returned but do not include voting instructions will be voted FOR the election of the nominee directors, FOR the 2004 Stock Plan and FOR the appointment of our independent registered public accounting firm.

What does it mean if I receive more than one proxy card?

It means that you have multiple accounts with brokers and/or our transfer agent. Please vote all of these shares. We recommend that you contact your

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

broker and/or our transfer agent to consolidate as many accounts as possible under the same name and address. Our transfer agent is American Stock Transfer & Trust Co. (718) 921- 8200.

Will my shares be voted if I do not provide my proxy?

If you hold your shares directly in your own name, they will not be voted if you do not provide a proxy. Your shares may be voted under certain circumstances if they are held in the name of a brokerage firm. Brokerage firms generally have the authority to vote customers' unvoted shares on certain "routine" matters, including the election of directors. When a brokerage firm votes its customer's unvoted shares, these shares are counted for purposes of establishing a quorum. At our meeting, these shares will be counted as voted by the brokerage firm in the election of directors, approval of our 2004 Stock Plan, and appointment of our independent registered public accounting firm, but will not be counted for all other matters to be voted on because these other matters are not considered "routine" under the applicable rules.

How many votes must be present to hold the meeting?

Your shares are counted as present at the meeting if you attend the meeting and vote in person or if you properly return a proxy by mail. In order for us to conduct our meeting, a majority of our outstanding shares as of September 20, 2004, must be present at the meeting. This is referred to as a quorum. On September 20, 2004, there were 58,552,688 shares outstanding and entitled to vote.

What vote is required to approve each item?

The affirmative vote of a majority of the votes cast at the Annual Meeting on the proposal is required for approval of the election of directors, 2004 Stock Plan and the appointment of our independent registered public accounting firm. A properly executed proxy marked "ABSTAIN" with respect to any such matter will not be voted, although it will be counted for purposes of determining whether there is a quorum.

- an automatic annual grant of 25,000 non-qualified stock options to outside directors issued on the date of our Annual Meeting of Stockholders at the closing price on the issue date and vesting in three equal annual increments commencing on the first anniversary of the grant and contingent upon their continued service on our Board.

Limitation on Liability of Officers and Directors

We have entered into indemnification agreements with each of our current officers and directors pursuant to which we have agreed, among other things, to indemnify these officers and directors to the fullest extent permitted by Delaware law.

Compensation Committee Interlocks and Insider Participation

During fiscal 2004, our Compensation Committee consisted of Messrs. Bearn, Blumenthal, Shapiro, Viscusi, and Whittaker. None of these persons were our officers or employees during fiscal 2004 or, except as otherwise disclosed, had any relationship requiring disclosure in this Proxy Statement.

In accordance with rules promulgated by the Securities and Exchange Commission, the information included under the caption "Compensation Committee Report on Executive Compensation" will not be deemed to be filed or to be proxy-soliciting material or incorporated by reference in any prior or future filings by the Company under the Securities Act of 1933 or the Securities Exchange Act.

COMPENSATION COMMITTEE REPORT ON EXECUTIVE COMPENSATION

The compensation of our executive officers is generally determined by the Compensation Committee of our Board of Directors, subject to applicable employment agreements. Each member of the Compensation Committee is a director who is not our employee or an employee of any of our affiliates. The following report with respect to certain compensation paid or awarded to our executive officers during fiscal 2004 is furnished by the directors who comprised the Compensation Committee during fiscal 2004.

Executive Compensation Objectives

Our compensation programs are intended to enable us to attract, motivate, reward and retain the management talent required to achieve corporate objectives and thereby increase shareholder value. It is our policy to provide incentives to its senior management to achieve both short-term and long-term objectives and to reward exceptional performance and contributions to the development of our business. To attain these objectives, our executive compensation program includes a competitive base salary, cash incentive bonuses and stock-based compensation.

Stock options are granted to employees, including our executive officers,

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

by the Compensation Committee under our 1999 Stock Option Plan. The Committee believes that stock options provide an incentive that focuses the executive's attention on managing us from the perspective of an owner with an equity stake in the business. Options are awarded with an exercise price equal to the market value of common stock on the date of grant, have a maximum term of ten years and generally become exercisable, in whole or in part, starting one year from the date of grant. Among our executive officers, the number of shares subject to options granted to each individual generally depends upon the level of that officer's responsibility. The largest grants are awarded to the most senior officers who, in the view of the Compensation Committee, have the greatest potential impact on our profitability and growth. Previous grants of stock options are reviewed but are not considered the most important factor in determining the size of any executive's stock option award in a particular year.

From time to time, the Compensation Committee intends to utilize the services of independent consultants to perform analyses and to make recommendations to the Committee relative to executive compensation matters. No compensation consultant has so far been retained.

Relationship of Compensation to Performance and Compensation of Chief Executive Officer and Chief Financial Officer

The Compensation Committee annually establishes, subject to the approval of the Board of Directors and any applicable employment agreements, the salaries that will be paid to our executive officers during the coming year. In setting salaries, the Compensation Committee takes into account several factors, including competitive compensation data, the extent to which an individual may participate in the stock plans maintained by us, and qualitative factors bearing on an individual's experience, responsibilities, management and leadership abilities, and job performance.

Effective September 8, 2003, the Board of Directors appointed Thomas W. Fry as Chief Financial Officer and entered into an employment agreement with him at a base annual salary of \$150,000. On March 18, 2004, the Board of Directors reappointed Photios T. Paulson, a director, to the position of Chief Executive Officer as a replacement for Mr. Gregory Cash who had resigned. The Committee authorized a base salary of \$250,000 to Mr. Paulson. The Compensation Committee determined that the compensation payable to Messrs. Fry and Paulson was appropriate in light of their positions with the Company and based on the compensation level of executives in similar positions.

AUDIT COMMITTEE REPORT

The Board of Directors has appointed an Audit Committee consisting of three non-employee directors. The current members of the Audit Committee satisfy the independence requirements and other established criteria by the Nasdaq Stock Market, Inc. and the Securities and Exchange Commission. We intend to comply with future audit committee requirements as they become applicable to us.

As required by its written charter, which sets forth its responsibilities and duties, the Audit Committee has reviewed and discussed with the Company's independent public accountants, the matters required to be discussed by Statement on Auditing Standards No. 61, Communication with Audit Committees, as amended. The Audit Committee Charter is set forth as Exhibit B.

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

The Audit Committee has also received and reviewed the written disclosures and the letter from the independent public accountants required by Independence Standard No. 1, Independence Discussions with Audit Committees, as amended, by the Independence Standards Board, and has discussed with the independent registered public accounting firm their independence.

11

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the financial statements referred to above be included in the Company's Annual Report on Form 10-K for the year ended May 31, 2004 for filing with the Securities and Exchange Commission.

The audit committee has also received and reviewed the fees paid to Grant Thornton LLP during the last fiscal year for audit and non-audit services, which are set forth below and has considered whether the provision of the non-audit services is compatible with maintaining Grant Thornton LLP's independence and concluded that it is.

Our Audit Committee:

Forrest R. Whittaker, Chairman
Anthony Viscusi
Martin Zeiger

Audit Committee Financial Expert

The members of the audit committee have substantial experience in assessing the performance of companies, gained as members of our board of directors and audit committee, as well as by serving in various capacities in other companies or governmental agencies. As a result, they each have an understanding of financial statements. However, none of them keep current on all aspects of generally accepted accounting principles. Accordingly, the board of directors does not consider any of them to be a financial expert as that term is defined in applicable regulations. Nevertheless, the board of directors believes that they competently perform the functions required of them as members of the audit committee and, given their backgrounds, it would not be in our best interests to replace any of them with another person to qualify a member of the audit committee as a financial expert.

Audit Fees

For fiscal 2004 and 2003, Grant Thornton LLP's audit and accounting fees were approximately \$179,000 and \$183,000, respectively.

Tax Service Fees

Aggregate fees incurred in connection with tax services rendered by Grant Thornton LLP for fiscal 2004 and 2003 were approximately \$47,000 and \$28,000, respectively, incurred primarily for the preparation of federal and state tax returns.

All Other Fees

Aggregate fees for all other services rendered by Grant Thornton LLP for fiscal 2004 and 2003 were approximately \$9,000 and \$60,000, respectively, incurred in connection with SEC and other related consulting services. Grant Thornton had no financial information systems design and implementation fees during fiscal 2004.

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

COMPLIANCE WITH SECTION 16(a) OF THE SECURITIES EXCHANGE ACT

Section 16(a) of the Exchange Act requires our executive officers, directors and persons who own more than ten percent of a registered class of our equity securities ("Reporting Persons") to file reports of ownership and changes in ownership on Forms 3, 4 and 5 with the Securities and Exchange Commission (the "SEC") and the National Association of Securities Dealers, Inc. (the "NASD"). These Reporting Persons are required by SEC regulation to furnish us with copies of all Forms 3, 4 and 5 they file with the SEC and the NASD. Based solely upon our review of the copies of the forms it has received, we believe that all Reporting Persons complied on a timely basis with all filing requirements applicable to them with respect to transactions during fiscal 2004.

CODE OF ETHICS DISCLOSURE

We have adopted a Corporate Code of Business Ethics (the "Code") that applies to all of our employees, officers and directors. It is broad in scope and is intended to foster honest and ethical conduct, including accurate

12

financial reporting, compliance with laws and the like. It does not expressly cover certain procedural matters covered by the Sarbanes-Oxley Act and regulations promulgated thereunder and may not constitute a "code of ethics" within the meaning of the law and regulations. Accordingly, we have adopted an additional code of ethics that covers our senior executive officers and is intended to comply with the new law and regulations. The "Code of Ethics -- Chief Executive and Chief Financial Officers" is set forth as Exhibit B to this proxy statement.

PROPOSAL TWO

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

PROPOSAL TO ADOPT THE VASOMEDICAL, INC. 2004 STOCK OPTION/STOCK ISSUANCE PLAN

Introduction

At the meeting, you will be asked to adopt the Vasomedical, Inc. 2004 Stock Option/Stock Issuance Plan (the "2004 Stock Plan"). The board adopted the 2004 Stock Plan in July 2004, subject to stockholder approval, covering 2,500,000 shares.

We believe that our long-term success depends upon our ability to attract and retain qualified directors, officers, employees and consultants and to motivate their best efforts on our behalf. Our directors, officers, other employees and consultants, as well as those of our subsidiaries or affiliates, are eligible to participate in the 2004 Stock Plan. We believe that the 2004 Stock Plan has been and will continue to be an important part of our compensation of directors, officers, employees and consultants, particularly since as of August 31, 2004, we only had approximately 1,035,670 shares available for grant under our other existing stock option plans.

The 2004 Stock Plan is set forth as Exhibit A to this proxy statement. The principal features of the 2004 Stock Plan are summarized below, but the summary is qualified in its entirety by the full text of the 2004 Stock Plan.

Stock Subject to the 2004 Stock Plan

The stock to be offered under the 2004 Stock Plan consists of shares of our common stock, whether authorized but unissued or reacquired. The 2004 Stock Plan is divided into two separate equity programs: an option grant program and a stock issuance program. Options granted under the 2004 Stock Plan shall be non-qualified or incentive stock options and the exercise price is the fair market value of the common stock on the date of grant except that for incentive stock options it shall be 110% of the fair market value if the participant owns 10% or more of our common stock. Under the stock issuance program, the purchase price per share shall be fixed by the board of directors or committee but cannot be less than the fair market value of the common stock on the issuance date. Payment for the shares may be made in cash or check payable to us, or for past services rendered to us and all shares of common stock issued thereunder shall vest upon issuance unless otherwise directed by the board or committee. The number of shares issuable is also subject to adjustments upon the occurrence of certain events, including stock dividends, stock splits, mergers, consolidations, reorganizations, recapitalizations, or other capital adjustments. As of May 31, 2004, no options or shares had been issued under the 2004 Stock Plan.

Administration of the 2004 Stock Plan

The 2004 Stock Plan is to be administered by our board of directors, the compensation committee or a stock option committee consisting of no fewer than two "non-employee directors," as defined in the Securities Exchange Act of 1934. We expect that our compensation committee will administer the 2004 Stock Plan.

Subject to the terms of the 2004 Stock Plan, the board or the committee may determine and designate the individuals who are to be granted stock options or qualify to purchase shares of common stock under the 2004 Stock Plan, the number of shares to be subject to options or to be purchased and the nature and terms of the options to be granted. The board or the committee also has authority to interpret the 2004 Stock Plan and to prescribe, amend and rescind the rules and regulations relating to the 2004 Stock Plan. The committee may amend or modify any grant in any manner not inconsistent with the terms of the 2004 Stock Plan.

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

Grant of Options

Our directors, officers, employees and consultants, as well as those of our subsidiaries or affiliates, are eligible to participate in the 2004 Stock Plan.

15

Options granted under the 2004 Stock Plan shall be non-qualified or incentive stock options and the exercise price is the fair market value of the common stock on the date of grant except that for incentive stock options it shall be 110% of the fair market value if the participant owns 10% or more of our common stock. The committee must adjust the option price, as well as the number of shares subject to option, in the event of stock splits, stock dividends, recapitalization and certain other events involving a change in our capital. Because of the discretionary nature of grants under the 2004 Plan, the number, names and positions of persons who may be granted awards under the 2004 Plan and the awards that might be granted to them are not known at this time.

Exercise of Stock Options

Stock options granted under the 2004 Stock Plan shall expire not later than ten years from the date of grant.

Stock options granted under the 2004 Stock Plan may become exercisable in one or more installments in the manner and at the time or times specified by the committee.

Upon the exercise of a stock option, optionees may pay the exercise price in cash, by certified or bank cashiers check or, at our option, in shares of common stock valued at its fair market value on the date of exercise, or a combination of cash and stock. Withholding and other employment taxes applicable to the exercise of an option shall be paid by the optionee at such time as the board or the committee determines that the optionee has recognized gross income under the Internal Revenue Code of 1986, as amended, resulting from such exercise. These taxes may, at our option, be paid in shares of common stock.

A stock option is exercisable during the optionee's lifetime only by him or his permitted transferee and cannot be exercised by him or his permitted transferee unless, at all times since the date of grant and at the time of exercise, he is employed by us, any parent corporation or any of our subsidiaries or affiliates, except that, upon termination of his employment (other than (1) by death, (2) by total disability followed by death in the circumstances provided below or (3) by total disability), an option may be exercised for a period of three months after this termination but only to the extent such option is exercisable on the date of such termination. In the discretion of the committee, options may be transferred to (1) members of the optionee's family, (2) a trust, (3) a family limited partnership or (4) an estate planning vehicle primarily for the optionee's family.

Upon termination of all employment by total disability, the optionee or his permitted transferee may exercise such options at any time within twelve months after his termination, but only to the extent such option is exercisable on the date of such termination.

In the event of the death of an optionee (1) while our employee, or an employee of any parent corporation or any subsidiary or affiliate, (2) within three months after termination of all employment or provision of services (other than for total disability) or (3) within twelve months after termination on account of total disability of all employment with us, any parent corporation or any subsidiary or affiliate, the optionee's estate or any person who acquires the right to exercise such option by bequest or inheritance or by reason of the death of the optionee may exercise the optionee's option at any time within the

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

period of twelve months from the date of death. In the case of clauses (1) and (3) above, the option shall be exercisable in full for all the remaining shares covered by it, but in the case of clause (2) the option shall be exercisable only to the extent it was exercisable on the date of such termination of employment.

Stock Issuance Program

Shares of common stock may, upon request by a participant, be issued at the discretion of the board or committee under the stock issuance program through direct and immediate issuances. Each such stock issuance shall comply with the terms specified below.

Purchase Price

- a. The purchase price per share shall be fixed by the board of directors or committee but shall not be less than the fair market value per share of common stock on the issue date.
- b. Subject to the provisions of the 2004 Stock Plan, shares of common stock may be issued for any of the following items of consideration which the board or committee may deem appropriate in each individual instance:

16

- (i) cash or check made payable to us; or
- (ii) past services rendered to us (or any parent or subsidiary).

Vesting Provisions

- a. Shares of common stock issued under the stock issuance program shall vest at the discretion of the board or committee.
- b. The participant shall have full stockholder rights with respect to any shares of common stock issued to the participant under the stock issuance program.
- c. Accordingly, the participant shall have the right to vote such shares and to receive any regular cash dividends paid on such shares.

Change in Control

All unvested options shall automatically vest in full if and when either of the following stockholder approved transactions to which the company is a party are consummated: (i) a merger or consolidation in which securities possessing more than fifty percent (50%) of the total combined voting power of the company's outstanding securities are transferred to a person or persons different from the persons holding those securities immediately prior to such transaction, or (ii) the sale, transfer or other disposition of all or substantially all of the company's assets in complete liquidation or dissolution of the company. However, the shares subject to an outstanding option shall not vest on such an accelerated basis if and to the extent: (i) such option is assumed by the successor company (or parent thereof) in the corporate transaction or (ii) such option is to be replaced with a cash incentive program of the successor company which preserves the spread existing on the unvested option shares at the time of the corporate transaction and provides for subsequent payout in accordance with the same vesting schedule applicable to those unvested option shares or (iii) the acceleration of such option is subject

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

to other limitations imposed by the board or committee at the time of the option grant.

U.S. Federal Tax Matters

Restricted Stock. Employees generally recognize as taxable income the fair market value of restricted stock on the date the restricted period ends. We are entitled to a corresponding tax deduction at the same time.

Stock Options. Stock options may be granted in the form of incentive stock options or non-qualified stock options. Incentive stock options are eligible for favorable tax treatment under the U.S. Internal Revenue Code (the "Code"). To meet the Code requirements, the maximum value of incentive stock options that first become exercisable in any one year is limited to \$100,000. Under the Code, persons do not realize compensation income upon the grant of a stock option (whether an incentive stock option or non-qualified stock option). At the time of exercise of a non-qualified stock option, the holder will realize compensation income in the amount of the spread between the exercise price of the option and the fair market value of our stock on the date of exercise. At the time of exercise of an incentive stock option, no compensation income is realized other than "tax preference income" for purposes of the alternative minimum tax. If the shares acquired on exercise of an incentive stock option are held for at least two years after grant of the option and one year after exercise, the excess of the amount realized on sale over the exercise price will be taxed as capital gains. If the shares acquired on exercise of the incentive stock option are disposed of within less than two years after grant or one year of exercise, the holder will realize compensation income equal to the excess of the fair market value of shares on the date of exercise over the option price. Additional amounts realized will be taxed as capital gains. We will generally be entitled to a deduction under the Code at the time equal to the amount of compensation income realized by the holder of an option.

Recommendation of the Board

Our board of directors believes that it is in our best long-term interests to have available for issuance under a stock option plan a sufficient number of shares to attract, retain and motivate our highly qualified officers, employees, directors and consultants by tying their interests to our stockholders' interests.

The affirmative vote of a majority of the votes cast on this proposal in person or by proxy at the Annual Meeting is required for approval by stockholders of the 2004 Stock Plan

We recommend a vote FOR approval of the 2004 Stock Plan.

I. GENERAL PROVISIONS

A. PURPOSE OF THE PLAN

Unless otherwise defined herein, all capitalized terms shall have the meaning assigned to them in the attached Appendix.

B. STRUCTURE OF THE PLAN

The Plan shall be divided into two (2) separate equity programs:

- (i) the Option Grant Program under which eligible persons ("Optionees") may, at the discretion of the Board, be granted options to purchase shares of common stock; and
- (ii) the Stock Issuance Program under which eligible persons ("Participants") may, at the discretion of the Board, be issued shares of common stock directly, either through the immediate purchase of such shares or as a bonus for services rendered the Corporation (or any Parent or Subsidiary).

The provisions of Articles One and Four shall apply to both equity programs under the Plan and shall accordingly govern the interests of all persons under the Plan.

C. ADMINISTRATION OF THE PLAN

The Plan shall be administered by the Corporation's Board of Directors ("Board"), or in the discretion of the Board, a committee consisting of no less than two Non-Employee Directors or persons meeting such other requirements as may be imposed by Rule 16(b) under the 1934 Act ("Committee").

The Board or Committee shall have full power and authority (subject to the provisions of the Plan) to establish such rules and regulations as it may deem appropriate for proper administration of the Plan and to make such determinations under, and issue such interpretations of, the Plan and any outstanding options or stock issuances thereunder as it may deem necessary or advisable. Decisions of the Board shall be final and binding on all parties who have an interest in the Plan or any option or stock issuance thereunder.

A-1

D. ELIGIBILITY

The persons eligible to participate in the Plan are:

1. Employees;
2. non-employee members of the Board or the non-employee members of the board of directors of any Parent or Subsidiary; and
3. consultants and other independent advisors who provide services to the Corporation, or any parent or subsidiary of the Corporation.

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

If there is any change to the common stock by reason of any stock split, stock dividend, recapitalization, combination of shares, exchange of shares or other change affecting the outstanding common stock as a class without the Corporation's receipt of consideration, then appropriate adjustments shall be made to (i) the maximum number and/or class of securities issuable under the Plan, and (ii) the number and/or class of securities and the exercise price per share in effect under each outstanding option in order to prevent the dilution or enlargement of benefits thereunder.

(i) extend the period of time for which the option is to remain exercisable following Optionee's cessation of Service or death from the limited period otherwise in effect for that option to such greater period of time as it shall deem appropriate, but in no event beyond the expiration of the option term, and/or

A-4

4. Stockholder Rights. The holder of an option shall have no stockholder rights with respect to the shares subject to the option until such person exercise the option, pays the exercise price and becomes the recordholder of the purchased shares.

5. Limited Transferability of Options. During the lifetime of the Optionee, the option shall be exercisable only by the Optionee and shall not be assignable or transferable other than by will or, following the Optionee's death, by the laws of descent and distribution.

B. CORPORATE TRANSACTION

1. All unvested options shall automatically vest in full if and when either of the following stockholder approved transactions to which the Corporation is a party are consummated: (i) a merger or consolidation in which securities possessing more than fifty percent (50%) of the total combined voting power of the Corporation's outstanding securities are transferred to a person or persons different from the persons holding those securities immediately prior to such transaction, or (ii) the sale, transfer or other disposition of all or

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

substantially all of the Corporation's assets in complete liquidation or dissolution of the Corporation. However, the shares subject to an outstanding option shall not vest on such an accelerated basis if and to the extent: (i) such option is assumed by the successor corporation (or parent thereof) in the Corporate Transaction or (ii) such option is to be replaced with a cash incentive program of the successor corporation which preserves the spread existing on the unvested option shares at the time of the Corporate Transaction and provides for subsequent payout in accordance with the same vesting schedule applicable to those unvested option shares or (iii) the acceleration of such option is subject to other limitations imposed by the Board or Committee at the time of the option grant.

2. Each option which is assumed in connection with a Corporate Transaction shall be appropriately adjusted, immediately after such Corporate Transaction, to apply to the number and class of securities which would have been issuable to the Optionee in consummation of such Corporate Transaction, had the option been exercised immediately prior to such Corporate Transaction. Appropriate adjustments shall also be made to (i) the number and class of securities available for issuance under the Plan following the consummation of such Corporate Transaction and (ii) the exercise price payable per share under each outstanding option, provided the aggregate exercise price payable for such securities shall remain the same.

3. The Board or Committee shall have the discretion, exercisable either at the time the option is granted or at any time while the option remains outstanding, to structure one or more options so that those options shall automatically accelerate and vest in full (and any repurchase rights of the Corporation with respect to the unvested shares subject to those options shall immediately terminate) upon the occurrence of a Corporate Transaction, whether or not those options are to be assumed in the Corporate Transaction.

4. The Board or Committee shall also have full power and authority, exercisable either at the time the option is granted or at any time while the option remains outstanding, to structure such option so that the shares subject to that option will automatically vest on an accelerated basis should the Optionee's Service terminate by reason of the Optionee's involuntary dismissal or discharge by the Corporation for reasons other than misconduct ("Involuntary Termination") within a designated period (not to exceed one year) following the effective date of any Corporate Transaction in which the option is assumed and the repurchase rights applicable to those shares do not otherwise terminate. Any option so accelerated shall remain exercisable for the fully-vested option shares until the expiration or sooner termination of the option term.

5. The portion of any Incentive Option accelerated in connection with a Corporate Transaction shall remain exercisable as an Incentive Option only to the extent the applicable One Hundred Thousand Dollar (\$100,000.00) limitation is not exceeded. To the extent such dollar limitation is exceeded, the accelerated portion of such option shall be exercisable as a Non-Statutory Option under the Federal tax laws.

6. The grant of options under the Plan shall in no way affect the right of the Corporation to adjust, reclassify, reorganize or otherwise change its capital or business structure or to merge, consolidate, dissolve, liquidate or sell or transfer all or any part of its business or assets.

The terms of any such promissory note (including the interest rate and the terms of repayment) shall be established by the Board in its sole discretion. In no event may the maximum credit available to the Optionee or Participant exceed the sum of (i) the aggregate option exercise price or purchase price payable for the purchased shares (less the par value of those shares) plus (ii) any Federal, state and local income and employment tax liability incurred by the Optionee or the Participant in connection with the option exercise or share purchase.

Likewise, in the event of any change in the outstanding shares of common stock by reason of any recapitalization, merger, consolidation, reorganization, combination or exchange of shares or other corporate change, the committee shall make such substitution or adjustments, if any, as it deems to be appropriate, as to the number or kind of shares of common stock or other securities which are reserved for issuance under the Plan and the number of shares or other securities which, at such time are subject to Options.

A-6

In the event of a change of control, at the option of the board of directors or committee, (a) all options outstanding on the date of such change of control shall, for a period of sixty days following such change of control, become immediately and fully exercisable, and (b) an optionee will be permitted to surrender for cancellation within sixty days after such change of control any option or portion of any option which was granted more than six months prior to the date of such surrender, to the extent not yet exercised, and to receive a cash payment in an amount equal to the excess, if any, of the Fair Market Value (on the date of surrender) of the shares of common stock subject to the option or portion thereof surrendered, over the aggregate purchase price for such shares under the option.

C. EFFECTIVE DATE AND TERM OF PLAN

1. The Plan shall become effective on July 13, 2004, provided that no Incentive Options may be granted unless the Plan is first approved by the Corporation's stockholders. The Board may grant options and issue shares under the Plan at any time after the effective date of the Plan and before the date fixed herein for termination of the Plan.

2. The Plan shall terminate upon the earliest of (i) the expiration of the ten (10)-year period measured from the date the Plan is adopted by the Board, (ii) the date on which all shares available for issuance under the Plan shall have been issued as vested shares or (iii) the termination of all outstanding options in connection with a Corporate Transaction. All options and unvested stock issuances outstanding at the time of a clause (i) termination event shall continue to have full force and effect in accordance with the provisions of the documents evidencing those options or issuances.

D. AMENDMENT OF THE PLAN

The Board or Committee shall have complete and exclusive power and authority to amend or modify the Plan in any or all respects. However, no such amendment or modification shall adversely affect the rights and obligations with respect to options or unvested stock issuances at the time outstanding under the Plan unless the Optionee or the Participant consents to such amendment or modification. In addition, certain amendments may require stockholder approval pursuant to applicable laws and regulations.

E. WITHHOLDING

Edgar Filing: VASOMEDICAL INC - Form DEF 14A

The Corporation's obligation to deliver shares of common stock upon the exercise of any options or upon the issuance of shares issued under the Plan shall be subject to the satisfaction of all applicable Federal, state and local income and employment tax withholding requirements.

F. REGULATORY APPROVALS

The implementation of the Plan, the granting of any options under the Plan and the issuance of any shares of common stock (i) upon the exercise of any option or (ii) under the Stock Issuance Program shall be subject to the Corporation's obtaining all approvals and permits required by regulatory authorities having jurisdiction over the Plan, the options granted under it and the shares of common stock issued pursuant to it.

G. NO EMPLOYMENT OR SERVICE RIGHTS

Nothing in the Plan shall confer upon the Optionee or the Participant any right to continue in Service for any period of specific duration or interfere with or otherwise restrict in any way the rights of the Corporation (or any Parent or Subsidiary employing or retaining such person) or of the Optionee or the Participant, which rights are hereby expressly reserved by each, to terminate such person's Service at any time for any reason, with or without cause.
