ASHFORD HOSPITALITY TRUST, INC. AND SUBSIDIARIES
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)

1. Organization and Description of Business

Ashford Hospitality Trust, Inc., together with its subsidiaries (“Ashford Trust”), is a real estate investment trust (“REIT”) focused on investing in full-service hotels in the upscale and upper upscale segments in domestic and international markets that have revenue per available room (“RevPAR”) generally less than twice the national average, and in all methods including direct real estate, equity, and debt. We own our lodging investments and conduct our business through Ashford Hospitality Limited Partnership (“Ashford Trust OP”), our operating partnership. Ashford OP General Partner LLC, a wholly-owned subsidiary of Ashford Trust, serves as the sole general partner of our operating partnership. In this report, terms such as the “Company,” “we,” “us,” or “our” refer to Ashford Hospitality Trust, Inc. and all entities included in its consolidated financial statements.

We are advised by Ashford Hospitality Advisors LLC (“Ashford LLC”), a subsidiary of Ashford Inc., through an advisory agreement. All of the hotel properties in our portfolio are currently asset-managed by Ashford LLC. We do not have any employees. All of the services that might be provided by employees are provided to us by Ashford LLC. As of March 31, 2018, we owned interests in the following assets:

119 consolidated hotel properties, including 117 (one which is held for sale) directly owned and two owned through a majority-owned investment in a consolidated entity, which represent 24,922 total rooms (or 24,895 net rooms excluding those attributable to our partner);

90 hotel condominium units at WorldQuest Resort in Orlando, Florida (“WorldQuest”);

a 28.4% ownership in Ashford Inc. common stock with a carrying value of \$0 and a fair value of \$57.3 million; and

a 16.3% ownership in OpenKey with a carrying value of \$3.0 million.

For federal income tax purposes, we have elected to be treated as a REIT, which imposes limitations related to operating hotels. As of March 31, 2018, our 119 hotel properties were leased or owned by our wholly-owned or majority-owned subsidiaries that are treated as taxable REIT subsidiaries for federal income tax purposes (collectively, these subsidiaries are referred to as “Ashford TRS”). Ashford TRS then engages third-party or affiliated hotel management companies to operate the hotels under management contracts. Hotel operating results related to these properties are included in the consolidated statements of operations.

As of March 31, 2018, Remington Lodging & Hospitality, LLC, together with its affiliates (“Remington Lodging”), which is beneficially wholly owned by Mr. Monty J. Bennett, our Chairman, and Mr. Archie Bennett, Jr., our Chairman Emeritus, managed 81 of our 119 hotel properties and WorldQuest Resort. Third-party management companies managed the remaining hotel properties.

2. Significant Accounting Policies

Basis of Presentation—The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. These consolidated financial statements include the accounts of Ashford Hospitality Trust, Inc., its majority-owned subsidiaries, and its majority-owned joint ventures in which it has a controlling interest. All significant inter-company accounts and transactions between consolidated entities have been eliminated in these consolidated financial statements. We have condensed or omitted certain information and footnote disclosures normally included in financial statements presented in accordance with GAAP in the accompanying unaudited consolidated financial statements. We believe the disclosures made herein are adequate to prevent the information presented from being misleading.

However, the financial statements should be read in conjunction with the consolidated financial statements and notes thereto included in our 2017 Annual Report to Stockholders on Form 10-K filed with the Securities and Exchange Commission (“SEC”) on March 14, 2018.

Ashford Trust OP is considered to be a variable interest entity (“VIE”), as defined by authoritative accounting guidance. A VIE must be consolidated by a reporting entity if the reporting entity is the primary beneficiary because it has (i) the power to direct the VIE’s activities that most significantly impact the VIE’s economic performance, (ii) an implicit financial responsibility to ensure that a VIE operates as designed, and (iii) the obligation to absorb losses of the VIE or the right to receive benefits from the VIE. All major decisions related to Ashford Trust OP that most significantly impact its economic performance, including but not limited to operating procedures with respect to business affairs and any acquisitions, dispositions, financings, restructurings or other transactions with sellers, purchasers, lenders, brokers, agents and other applicable representatives, are subject to the approval of

 NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (continued)
 (unaudited)

our wholly-owned subsidiary, Ashford Trust OP General Partner LLC, its general partner. As such, we consolidate Ashford Trust OP.

Historical seasonality patterns at some of our hotel properties cause fluctuations in our overall operating results. Consequently, operating results for the three months ended March 31, 2018, are not necessarily indicative of the results that may be expected for the year ending December 31, 2018.

The following dispositions affect reporting comparability of our consolidated financial statements:

Hotel Property	Location	Type	Date
Renaissance	Portsmouth, VA	Disposition	February 1, 2017
Embassy Suites	Syracuse, NY	Disposition	March 6, 2017
Crowne Plaza Ravinia	Atlanta, GA	Disposition	June 29, 2017
SpringHill Suites	Glen Allen, VA	Disposition	February 20, 2018

Use of Estimates—The preparation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Restricted Cash—Restricted cash includes reserves for debt service, real estate taxes, and insurance, as well as excess cash flow deposits and reserves for furniture, fixtures, and equipment replacements of approximately 4% to 6% of property revenue for certain hotels, as required by certain management or mortgage debt agreement restrictions and provisions.

Impairment of Investments in Hotel Properties—Hotel properties are reviewed for impairment whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable. Recoverability of the hotel is measured by comparison of the carrying amount of the hotel to the estimated future undiscounted cash flows, which take into account current market conditions and our intent with respect to holding or disposing of the hotel. If our analysis indicates that the carrying value of the hotel is not recoverable on an undiscounted cash flow basis, we recognize an impairment charge for the amount by which the property's net book value exceeds its estimated fair value, or fair value, less cost to sell. In evaluating impairment of hotel properties, we make many assumptions and estimates, including projected cash flows, expected holding period, and expected useful life. Fair value is determined through various valuation techniques, including internally developed discounted cash flow models, comparable market transactions and third-party appraisals, where considered necessary. Asset write-downs resulting from property damage are recorded up to the amount of the allocable property insurance deductible in the period that the property damage occurs. See note 5.

Hotel Dispositions—Discontinued operations are defined as the disposal of components of an entity that represents strategic shifts that have (or will have) a major effect on an entity's operations and financial results. We believe that individual dispositions of hotel properties do not represent a strategic shift that has (or will have) a major effect on our operations and financial results as most will not fit the definition.

Assets Held for Sale—We classify assets as held for sale when we have obtained a firm commitment from a buyer, and consummation of the sale is considered probable and expected within one year. The related operations of assets held for sale are reported as discontinued if the disposal is a component of an entity that represents a strategic shift that has (or will have) a major effect on our operations and cash flows. Depreciation and amortization will cease as of the date assets have met the criteria to be deemed held for sale. See note 5.

Investments in Unconsolidated Entities—Investments in entities in which we have ownership interests ranging from 16.3% to 28.4%, at March 31, 2018, are accounted for under the equity method of accounting by recording the initial investment and our percentage of interest in the entities' net income/loss. We review the investments in our unconsolidated entities for impairment in each reporting period pursuant to the applicable authoritative accounting guidance. An investment is impaired when its estimated fair value is less than the carrying amount of our investment.

Any impairment is recorded in equity in earnings (loss) in unconsolidated entities. No such impairment was recorded for the three months ended March 31, 2018 and 2017.

Our investments in certain unconsolidated entities are considered to be variable interests in the underlying entities. Each VIE, as defined by authoritative accounting guidance, must be consolidated by a reporting entity if the reporting entity is the primary beneficiary because it has (i) the power to direct the VIE's activities that most significantly impact the VIE's economic performance, (ii) an implicit financial responsibility to ensure that a VIE operates as designed, and (iii) the obligation to absorb losses of the VIE

or the right to receive benefits from the VIE. Because we do not have the power and financial responsibility to direct the unconsolidated entities' activities and operations, we are not considered to be the primary beneficiary of these entities on an ongoing basis and therefore such entities should not be consolidated. In evaluating VIEs, our analysis involves considerable management judgment and assumptions.

Equity-Based Compensation—Stock/unit-based compensation for non-employees is accounted for at fair value based on the market price of the shares at period end in accordance with applicable authoritative accounting guidance that results in recording expense, included in “advisory services fee” and “management fees” equal to the fair value of the award in proportion to the requisite service period satisfied during the period. Performance stock units (“PSUs”) and performance-based Long-Term Incentive Plan (“Performance LTIP”) units granted to certain executive officers are accounted for at fair value at period end based on a Monte Carlo simulation valuation model that results in recording expense, included in “advisory services fee,” equal to the fair value of the award in proportion to the requisite service period satisfied during the period. Stock/unit grants to independent directors are recorded at fair value based on the market price of the shares at grant date, which amount is fully expensed as the grants of stock/units are fully vested on the date of grant.

Recently Adopted Accounting Standards—In May 2014, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) 2014-09, Revenue from Contracts with Customers (“ASU 2014-09”). ASU 2014-09 is a comprehensive new revenue recognition model, which requires a company to recognize revenue to depict the transfer of promised goods or services to a customer in an amount that reflects the consideration the company expects to receive in exchange for those goods or services. The update replaces most existing revenue recognition guidance in U.S. GAAP. In August 2015, the FASB issued ASU 2015-14, Revenue From Contracts With Customers (Topic 606): Deferral of the Effective Date, which defers the effective date to fiscal periods beginning after December 15, 2017. The standard permits the use of either the full retrospective or cumulative effect (modified retrospective) transition method. This standard, referred to as “Topic 606,” does not materially affect the amount or timing of revenue recognition for revenues from room, food and beverage, and other hotel level sales. Additionally, we have historically disposed of hotel properties for cash sales with no contingencies and no future involvement in the hotel operations. Therefore, Topic 606 does not impact the recognition of hotel sales. We adopted this standard effective January 1, 2018, under the modified retrospective method, and the adoption of this standard did not have a material impact on our consolidated financial statements. See related disclosures in note 3.

In January 2016, the FASB issued ASU 2016-01, Recognition and Measurement of Financial Assets and Financial Liabilities (“ASU 2016-01”), which requires an entity to: (i) measure equity investments at fair value through net income, with certain exceptions; (ii) present in OCI the changes in instrument-specific credit risk for financial liabilities measured using the fair value option; (iii) present financial assets and financial liabilities by measurement category and form of financial asset; (iv) calculate the fair value of financial instruments for disclosure purposes based on an exit price and; (v) assess a valuation allowance on deferred tax assets related to unrealized losses of AFS debt securities in combination with other deferred tax assets. ASU 2016-01 provides an election to subsequently measure certain nonmarketable equity investments at cost less any impairment and adjusted for certain observable price changes. It also requires a qualitative impairment assessment of such equity investments and amends certain fair value disclosure requirements. ASU 2016-01 is effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. Certain provisions of ASU 2016-01 are eligible for early adoption. We adopted this standard effective January 1, 2018. The adoption of this standard did not have a material impact on our consolidated financial statements and related disclosures.

In August 2016, the FASB issued ASU 2016-15, Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments - a Consensus of the Emerging Issues Task Force (“ASU 2016-15”). The new guidance is intended to reduce diversity in practice in how certain transactions are classified in the statement of cash flows. Certain issues addressed in this guidance include - debt payments or debt extinguishment costs, contingent consideration payments made after a business combination, proceeds from the settlement of insurance claims,

distributions received from equity method investments and beneficial interests in securitization transactions. ASU 2016-15 is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. Early adoption is permitted. We adopted this standard effective January 1, 2018 on a prospective basis. The adoption of this standard did not have a material impact on our consolidated statements of cash flows.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805) - Clarifying the Definition of a Business (“ASU 2017-01”), which clarifies the definition of a business with the objective of adding guidance to assist entities with evaluating whether a transaction should be accounted for as an acquisition (or disposal) of an asset or a business. ASU 2017-01 is effective for fiscal years beginning after December 15, 2017. Early adoption is permitted. We adopted this standard effective January 1, 2018. Under the new standard, certain future hotel acquisitions may be considered asset acquisitions rather than business

(unaudited)

combinations, which would affect capitalization of acquisitions costs (such costs are expensed for business combinations and capitalized for asset acquisitions).

In February 2017, the FASB issued ASU 2017-05, Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets (Subtopic 610-20): Clarifying the Scope of Asset Derecognition Guidance and Accounting for Partial Sales of Nonfinancial Assets (ASU “2017-05”), which clarifies the scope of ASC Subtopic 610-20, Other Income-Gains and Losses from the Derecognition of Nonfinancial Assets and adds guidance for partial sales of nonfinancial assets. ASU 2017-05 is effective for fiscal years beginning after December 15, 2017. Early adoption is permitted. An entity may elect to apply ASU 2017-05 under a retrospective or modified retrospective method. We adopted this standard effective January 1, 2018, under the modified retrospective method. The adoption of this standard did not have a material impact on our consolidated financial statements and related disclosures.

Recently Issued Accounting Standards—In February 2016, the FASB issued ASU 2016-02, Leases (“ASU 2016-02”). The new standard establishes a right-of-use (“ROU”) model that requires a lessee to record a ROU asset and a lease liability on the balance sheet for all leases with terms longer than 12 months. Leases will be classified as either finance or operating, with classification affecting the pattern of expense recognition in the income statement. ASU 2016-02 is effective for fiscal years beginning after December 15, 2018, including interim periods within those fiscal years. Early adoption is permitted. A modified retrospective transition approach is required for lessees for capital and operating leases existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements, with certain practical expedients available. The accounting for leases under which we are the lessor remains largely unchanged. While we are currently assessing the impact that ASU 2016-02 will have on our consolidated financial statements, we expect the primary impact to our consolidated financial statements upon adoption will be the recognition, on a discounted basis, of our future minimum rentals due under noncancelable leases on our consolidated balance sheets resulting in the recording of ROU assets and lease obligations.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments (“ASU 2016-13”). The ASU sets forth an “expected credit loss” impairment model to replace the current “incurred loss” method of recognizing credit losses. The standard requires measurement and recognition of expected credit losses for most financial assets held. The ASU is effective for fiscal years beginning after December 15, 2019, including interim periods within those fiscal years. Early adoption is permitted for periods beginning after December 15, 2018. We are currently evaluating the impact that ASU 2016-13 will have on our consolidated financial statements and related disclosures.

3. Revenue

On January 1, 2018, we adopted Topic 606 using the modified retrospective method. As the adoption of this standard did not have a material impact on our consolidated financial statements, no adjustments to opening retained earnings were made as of January 1, 2018. Results for reporting periods beginning after January 1, 2018, are presented under Topic 606, while prior period amounts are not adjusted and continue to be reported in accordance with our historic accounting under ASC Topic 605-Revenue Recognition.

Rooms revenue represents revenue from the occupancy of our hotel rooms and is driven by the occupancy and average daily rate charged. Rooms revenue includes revenue for guest no-shows, day use, and early/late departure fees. The contracts for room stays with customers are generally short in duration and revenues are recognized as services are provided over the course of the hotel stay.

Food & Beverage (“F&B”) revenue consists of revenue from the restaurants and lounges at our hotel properties, in-room dining and mini-bars revenue, and banquet/catering revenue from group and social functions. Other F&B revenue may include revenue from audio-visual equipment/services, rental of function rooms, and other F&B related revenue. Revenue is recognized as the services or products are provided. Our hotel properties may employ third parties to provide certain services at the property, for example, audio visual services. We evaluate each of these contracts to determine if the hotel is the principal or the agent in the transaction, and record the revenue as appropriate (i.e. gross vs. net).

Other revenue consists of ancillary revenue at the property, including attrition and cancellation fees, resort and destination fees, spas, parking, entertainment and other guest services, as well as rental revenue; primarily consisting of leased retail outlets at our hotel properties. Attrition and cancellation fees are recognized for non-cancellable deposits when the customer provides notification of cancellation within established management policy time frames. Taxes collected from customers and submitted to taxing authorities are not recorded in revenue. Interest income is recognized when earned. We discontinue recording interest and amortizing discounts/premiums when the contractual payment of interest and/or principal is not received when contractually due.

5. Hotel Dispositions, Impairment Charges, Insurance Recoveries and Assets Held For Sale

Hotel Dispositions

On February 1, 2017, the Company sold the Renaissance hotel in Portsmouth, Virginia (“Renaissance Portsmouth”) for approximately \$9.2 million in cash. The sale resulted in a loss of \$43,000 for the year ended December 31, 2017 and is included in “gain (loss) on sale of hotel properties” in the consolidated statements of operations. The Company also repaid approximately \$20.2 million of debt associated with the hotel property. See note 7.

On March 6, 2017, the Company sold the Embassy Suites in Syracuse, New York (“Embassy Suites Syracuse”) for approximately \$8.8 million in cash. The sale resulted in a loss of \$40,000 for the year ended December 31, 2017 and is included in “gain (loss) on sale of hotel properties” in the consolidated statements of operations. The Company also repaid approximately \$20.6 million of debt associated with the hotel property. See note 7.

On June 29, 2017, the Company sold the Crowne Plaza Ravinia in Atlanta, Georgia for approximately \$88.7 million in cash. The sale resulted in a gain of \$14.1 million for the year ended December 31, 2017 and is included in “gain (loss) on sale of hotel properties” in the consolidated statements of operations. The Company also repaid approximately \$78.7 million of debt associated with the hotel property. See note 7.

On February 20, 2018, we completed the sale of the SpringHill Suites Glen Allen for approximately \$10.9 million in cash. The sale resulted in a loss of approximately \$9,000 for the three months ended March 31, 2018 and is included in “gain (loss) on sale of hotel properties” in the consolidated statements of operations. The Company also repaid approximately \$7.6 million of debt associated with the hotel property. See note 7.

Impairment Charges and Insurance Recoveries

In August and September 2017, twenty-four of our hotel properties in Texas and Florida were impacted by the effects of Hurricanes Harvey and Irma. The Company holds insurance policies that provide coverage for property damage and business interruption after meeting certain deductibles at all of its hotel properties. During 2017, the Company recognized impairment charges, net of anticipated insurance recoveries of \$2.0 million. Additionally, the Company recognized remediation and other costs, net of anticipated insurance recoveries of \$2.8 million, included primarily in other hotel operating expenses. As of December 31, 2017, the Company has recorded an insurance receivable of \$267,000, net of deductibles of \$4.8 million, included in “accounts receivable, net” on our consolidated balance sheet, related to the anticipated insurance recoveries. During the year ended December 31, 2017, the Company received proceeds of \$612,000 for business interruption losses associated with lost profits, which has been recorded as “other” hotel revenue in our consolidated statement of operations, in excess of the deductible of \$360,000.

For the three months ended March 31, 2018, the Company recorded revenue from business interruption losses associated with lost profits from the hurricanes of \$401,000, which is included in “other” hotel revenue in our consolidated statement of operations and recorded an additional increase to the insurance receivable of \$64,000 associated with property damage from the hurricanes. We received additional proceeds of \$500,000 associated with property damage from the hurricanes during the three months ended March 31, 2018. The Company will not record an insurance recovery receivable for business interruption losses associated with lost profits until the amount for such recoveries is known and the amount is realizable.

Additionally, for the three months ended March 31, 2018, we recorded a \$2.0 million impairment charge at the SpringHill Suites in Centreville, Virginia (“SpringHill Suites Centreville”). We also recorded impairment credits of \$302,000 based on changes in estimates of property damages incurred from Hurricanes Harvey and Irma. For the year ended December 31, 2017, we recorded impairment charges of \$8.2 million related to the SpringHill Suites Centreville and the SpringHill Suites in Glen Allen, Virginia (“SpringHill Suites Glen Allen”) in the amounts of \$4.7 million and \$3.5 million, respectively. The impairment charges were based on methodologies discussed in note 2, which are considered Level 3 valuation techniques. SpringHill Suites Glen Allen was sold on February 20, 2018. SpringHill Suites Centreville is currently held for sale and the sale was completed on May 1, 2018. See discussion below.

Assets Held For Sale

At December 31, 2017, the SpringHill Suites Centreville and the SpringHill Suites Glen Allen were classified as held for sale in the consolidated balance sheet based on methodologies discussed in note 2.

On February 20, 2018, we completed the sale of the SpringHill Suites Glen Allen for approximately \$10.9 million. The sale resulted in a loss of \$9,000 for the three months ended March 31, 2018, and is included in “gain (loss) on sale of hotel properties” in the consolidated statements of operations.

Since the sale of the hotel properties does not represent a strategic shift that has (or will have) a major effect on our operations or financial results, their results of operation were not reported as discontinued operations in the consolidated financial statements. Depreciation and amortization were ceased as of the date the assets were deemed held for sale. At March 31, 2018, the SpringHill Suites Centreville was classified as held for sale.

OpenKey

In 2016, the Company made investments totaling \$2.3 million in OpenKey, which is controlled and consolidated by Ashford Inc., for a 13.3% ownership interest. OpenKey is a hospitality focused mobile key platform that provides a universal smart phone app for keyless entry into hotel guest rooms. In 2018 and 2017 we made additional investments of \$667,000 and \$983,000, respectively. As of March 31, 2018, the Company has made investments totaling \$4.0 million. Our investment is recorded as a component of “investment in unconsolidated entities” in our consolidated balance sheet and is accounted for under the equity method of accounting as we have been deemed to have significant influence over the entity under the applicable accounting guidance. As of March 31, 2018 and December 31, 2017, our ownership interest of approximately 16.3% and 16.2% had a carrying value of \$3.0 million and \$2.5 million, respectively. For the three months ended March 31, 2018 and 2017, our equity in earnings (loss) in the unconsolidated entity was a loss of \$151,000 and \$107,000, respectively.

On April 9, 2018, we refinanced our \$971.7 million mortgage loan secured by 22 hotel properties. The new mortgage loan totaled \$985.0 million, is interest only and provides for a floating interest rate of LIBOR + 3.20%. The stated maturity is April 2020 with five one-year extension options, subject to the satisfaction of certain conditions. The new mortgage loan is secured by the same 22 hotel properties that include: the Courtyard Boston Downtown, Courtyard Denver, Courtyard Gaithersburg, Courtyard Savannah, Hampton Inn Parsippany, Hilton Parsippany, Hilton Tampa, Hilton Garden Inn Austin, Hilton Garden Inn BWI, Hilton Garden Inn Virginia Beach, Hyatt Windwatch Long Island, Hyatt Savannah, Marriott DFW Airport, Marriott Omaha, Marriott San Antonio, Marriott Sugarland, Renaissance Palm Springs, Ritz-Carlton Atlanta, Residence Inn Tampa, Churchill, Melrose and Silversmith.

During the three months ended March 31, 2018 and 2017, we recognized premium amortization of \$69,000 and \$534,000, respectively. The amortization of the premium is computed using a method that approximates the effective interest method, which is included in interest expense and amortization of premiums and loan costs in the consolidated statements of operations.

We are required to maintain certain financial ratios under various debt and related agreements. If we violate covenants in any debt or related agreement, we could be required to repay all or a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on attractive terms, if at all. The assets of certain of our subsidiaries are pledged under non-recourse indebtedness and are not available to satisfy the debts and other obligations of Ashford Trust or Ashford Trust OP, our operating partnership, and the liabilities of such subsidiaries do not constitute the obligations of Ashford Trust or Ashford Trust OP. As of March 31, 2018, we were in compliance in all material respects with all covenants or other requirements set forth in our debt and related agreements as amended.

8. Income (Loss) Per Share

Basic income (loss) per common share is calculated using the two-class method by dividing net income (loss) attributable to common stockholders by the weighted average number of common shares outstanding during the period. Diluted income (loss) per common share is calculated using the two-class method, or treasury stock method if more dilutive, and reflects the potential dilution that could occur if securities or other contracts to issue common shares were exercised or converted into common shares, whereby such exercise or conversion would result in lower income per share.

The following table reconciles the amounts used in calculating basic and diluted income (loss) per share (in thousands, except per share amounts):

9. Derivative Instruments and Hedging

Interest Rate Derivatives—We are exposed to risks arising from our business operations, economic conditions and financial markets. To manage these risks, we primarily use interest rate derivatives to hedge our debt and our cash flows. The interest rate derivatives currently include interest rate caps and interest rate floors. These derivatives are subject to master netting settlement arrangements. To mitigate the nonperformance risk, we routinely use a third party's analysis of the creditworthiness of the counterparties, which supports our belief that the counterparties' nonperformance risk is limited. All derivatives are recorded at fair value.

During the three months ended March 31, 2018, we entered into interest rate caps with notional amounts totaling \$1.0 billion and strike rates ranging from 2.50% to 4.00%. These interest rate caps had effective dates from January 2018 to March 2018, maturity dates from January 2019 to February 2020 and a total cost of \$229,000.

During the three months ended March 31, 2017, we entered into interest rate caps with notional amounts totaling \$1.3 billion and strike rates ranging from 2.50% to 4.44%. These interest rate caps had effective dates from February 2017 to April 2017, termination dates from January 2018 to April 2018 and a total cost of \$280,000. These instruments were not designated as cash flow hedges.

As of March 31, 2018, we held interest rate caps with notional amounts totaling \$3.6 billion and strike rates ranging from 1.50% to 5.84%. These instruments had maturity dates ranging from April 2018 to February 2020. These instruments cap the interest rates on our mortgage loans with principal balances of \$3.3 billion and maturity dates from April 2018 to June 2022. As of March 31, 2018, we held interest rate floors with notional amounts totaling \$16.8 billion and strike rates ranging from (0.25)% to 1.5%. These instruments have termination dates ranging from March 2019 to July 2020. Cash collateral is posted by us as well as our counterparties. We offset the fair value of the derivative and the obligation/right to return/reclaim cash collateral.

Credit Default Swap Derivatives—We use credit default swaps, tied to the CMBX index, to hedge financial and capital market risk. A credit default swap is a derivative contract that functions like an insurance policy against the credit risk of an entity or obligation. The seller of protection assumes the credit risk of the reference obligation from the buyer (us) of protection in exchange for annual premium payments. If a default or a loss, as defined in the credit default swap agreements, occurs on the underlying bonds, then the buyer of protection is protected against those losses. The only liability for us, the buyer, is the annual premium and any change in value of the underlying CMBX index (if the trade is terminated prior to maturity). For all CMBX trades completed to date, we were the buyer of protection. Credit default swaps are subject to master-netting settlement arrangements and credit support annexes. As of March 31,

2018, we held credit default swaps with notional amounts totaling \$212.5 million. These credit default swaps had effective dates from February 2015 to August 2017 and expected maturity dates from October 2023 to October 2026. Assuming the underlying bonds pay off at par over their remaining average life, our total exposure for these trades was approximately \$7.5 million as of March 31, 2018. Cash collateral is posted by us as well as our counterparties. We

20

Table of Contents

offset the fair value of the derivative and the obligation/right to return/reclaim cash collateral. The change in market value of credit default swaps is settled net through posting cash collateral or reclaiming cash collateral between us and our counterparties when the change in market value is over \$250,000.

10. Fair Value Measurements

Fair Value Hierarchy—For disclosure purposes, financial instruments, whether measured at fair value on a recurring or nonrecurring basis or not measured at fair value, are classified in a hierarchy consisting of three levels based on the observability of valuation inputs in the market place as discussed below:

Level 1: Fair value measurements that are quoted prices (unadjusted) in active markets that we have the ability to access for identical assets or liabilities. Market price data generally is obtained from exchange or dealer markets.

Level 2: Fair value measurements based on inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. Level 2 inputs include quoted prices for similar assets and liabilities in active markets and inputs other than quoted prices that are observable for the asset or liability, such as interest rates and yield curves that are observable at commonly quoted intervals.

Level 3: Fair value measurements based on valuation techniques that use significant inputs that are unobservable. The circumstances for using these measurements include those in which there is little, if any, market activity for the asset or liability.

Fair values of interest rate swaps are determined using the market standard methodology of netting the discounted future fixed cash receipts/payments and the discounted expected variable cash payments/receipts. Fair values of interest rate caps, floors, floorridors and corridors are determined using the market standard methodology of discounting the future expected cash receipts that would occur if variable interest rates fell below the strike rates of the floors or rise above the strike rates of the caps. Variable interest rates used in the calculation of projected receipts and payments on the swaps, caps, and floors are based on an expectation of future interest rates derived from observable market interest rate curves (LIBOR forward curves) and volatilities (Level 2 inputs). We also incorporate credit valuation adjustments (Level 3 inputs) to appropriately reflect both our own nonperformance risk and the respective counterparty's nonperformance risk.

Fair values of credit default swaps are obtained from a third party who publishes various information including the index composition and price data (Level 2 inputs). The fair value of credit default swaps does not contain credit-risk-related adjustments as the change in fair value is settled net through posting cash collateral or reclaiming cash collateral between us and our counterparty.

Fair values of interest rate floors are calculated using a third-party discounted cash flow model based on future cash flows that are expected to be received over the remaining life of the floor. These expected future cash flows are probability-weighted projections based on the contract terms, accounting for both the magnitude and likelihood of potential payments, which are both computed using the appropriate LIBOR forward curve and market implied volatilities as of the valuation date (Level 2 inputs).

Fair value of options on futures contracts is determined based on the last reported settlement price as of the measurement date (Level 1 inputs). These exchange-traded options are centrally cleared, and a clearinghouse stands in between all trades to ensure that the obligations involved in the trades are satisfied.

Fair values of marketable securities and liabilities associated with marketable securities, including public equity securities, equity put and call options, and other investments, are based on their quoted market closing prices (Level 1 inputs).

When a majority of the inputs used to value our derivatives fall within Level 2 of the fair value hierarchy, the derivative valuations in their entirety are classified in Level 2 of the fair value hierarchy. However, when valuation adjustments associated with our derivatives utilize Level 3 inputs, such as estimates of current credit spreads to evaluate the likelihood of default by us and our counterparties, which we consider significant (10% or more) to the overall valuation of our derivatives, the derivative valuations in their entirety are classified in Level 3 of the fair value hierarchy. Transfers of inputs between levels are determined at the end of each reporting period. In determining the

fair values of our derivatives at March 31, 2018, the LIBOR interest rate forward curve (Level 2 inputs) assumed an uptrend from 1.883% to 2.597% for the remaining term of our derivatives. Credit spreads (Level 3 inputs) used in determining the fair values of hedge and non-hedge designated derivatives assumed an uptrend in nonperformance risk for us and all of our counterparties through the maturity dates.

11. Summary of Fair Value of Financial Instruments

Determining estimated fair values of our financial instruments such as notes receivable and indebtedness requires considerable judgment to interpret market data. Market assumptions and/or estimation methodologies used may have a material effect on estimated fair value amounts. Accordingly, estimates presented are not necessarily indicative of amounts at which these instruments could be purchased, sold, or settled. Carrying amounts and estimated fair values of financial instruments, for periods indicated, were as follows (in thousands):

Cash, cash equivalents, and restricted cash. These financial assets bear interest at market rates and have original maturities of less than 90 days. The carrying value approximates fair value due to their short-term nature. This is considered a Level 1 valuation technique.

Accounts receivable, net, accounts payable and accrued expenses, dividends and distributions payable, due to/from related party, net, due to Ashford Inc., net and due to/from third-party hotel managers. The carrying values of these financial instruments approximate their fair values due to their short-term nature. This is considered a Level 1 valuation technique.

Marketable securities. Marketable securities consist of U.S. treasury bills, publicly traded equity securities, and put and call options on certain publicly traded equity securities. The fair value of these investments is based on quoted market closing prices at the balance sheet date. See note 10 for a complete description of the methodology and assumptions utilized in determining the fair values.

Derivative assets, net. Fair value of interest rate derivatives is determined using the net present value of expected cash flows of each derivative based on the market-based interest rate curve and adjusted for credit spreads of us and our counterparties. Fair values of credit default swap derivatives are obtained from a third party who publishes the CMBX

index composition and price data. Fair values of interest rate floors are calculated using a third-party discounted cash flow model based on future cash flows that are expected to be received over the remaining life of the floor. Fair values of options on futures contracts are valued at their last reported settlement price as of the measurement date. See notes 9 and 10 for a complete description of the methodology and assumptions utilized in determining fair values.

Indebtedness. Fair value of indebtedness is determined using future cash flows discounted at current replacement rates for these instruments. Cash flows are determined using a forward interest rate yield curve. Current replacement rates are determined by using the U.S. Treasury yield curve or the index to which these financial instruments are tied and adjusted for credit spreads.

Credit spreads take into consideration general market conditions, maturity, and collateral. We estimated the fair value of total indebtedness to be approximately 95.8% to 105.9% of the carrying value of \$3.7 billion at March 31, 2018 and approximately 95.6% to 105.6% of the carrying value of \$3.7 billion at December 31, 2017. This is considered a Level 2 valuation technique.

12. Redeemable Noncontrolling Interests in Operating Partnership

Redeemable noncontrolling interests in the operating partnership represents the limited partners' proportionate share of equity in earnings/losses of the operating partnership, which is an allocation of net income/loss attributable to the common unit holders based on the weighted average ownership percentage of these limited partners' common units of limited partnership interest in the operating partnership ("common units") and the units issued under our Long-Term Incentive Plan (the "LTIP units") that are vested. Each common unit may be redeemed for either cash or, at our sole discretion, up to one share of our REIT common stock, which is either (i) issued pursuant to an effective registration statement, (ii) included in an effective registration statement providing for the resale of such common stock or (iii) issued subject to a registration rights agreement.

LTIP units, which are issued to certain executives and employees of Ashford LLC as compensation, have vesting periods ranging from three to five years. Additionally, certain independent members of the board of directors have elected to receive LTIP units as part of their compensation, which are fully vested upon grant. Upon reaching economic parity with common units, each vested LTIP unit can be converted by the holder into one common unit which can then be redeemed for cash or, at our election, settled in our common stock. An LTIP unit will achieve parity with the common units upon the sale or deemed sale of all or substantially all of the assets of the operating partnership at a time when our stock is trading at a level in excess of the price it was trading on the date of the LTIP issuance. More specifically, LTIP units will achieve full economic parity with common units in connection with (i) the actual sale of all or substantially all of the assets of the operating partnership or (ii) the hypothetical sale of such assets, which results from a capital account revaluation, as defined in the partnership agreement, for the operating partnership.

The compensation committee of the board of directors of the Company approved Performance LTIP units to certain executive officers. The award agreements provide for the grant of a target number of performance-based LTIP units that will be settled in common units of Ashford Trust OP, if and when the applicable vesting criteria have been achieved following the end of the performance and service period. The target number of performance-based LTIP units may be adjusted from 0% to 200% based on achievement of specified absolute and relative total stockholder returns based on the formulas determined by the Company's Compensation Committee on the grant date.

Compensation expense of \$408,000 was recorded for the three months ended March 31, 2018 and an expense credit of \$88,000 for the three months ended March 31, 2017, respectively. As of March 31, 2018, there are approximately 2.4 million performance-based LTIP units, representing 200% of the target, outstanding. The performance criteria for the Performance LTIP units are based on market conditions under the relevant literature, and the Performance LTIP units were granted to non-employees. The Performance LTIP units unamortized fair value of \$5.8 million at March 31, 2018 will be expensed over a period of 3.0 years, subject to future mark to market adjustments.

As of March 31, 2018, we have issued a total of 12.9 million LTIP and Performance LTIP units, all of which, other than approximately 1.6 million units (582,000 of which are Performance LTIP units) have reached full economic parity with, and are convertible into, common units. Expense of \$708,000 and \$171,000 was recognized for the three months ended March 31, 2018 and 2017, respectively, which was associated with LTIP units issued to Ashford LLC's employees and Ashford Trust's directors and is included in "advisory services fee" and "corporate, general and administrative," respectively, in our consolidated statements of operations. As the LTIP units are issued to non-employees, the compensation expense was determined based on the share price as of the end of the period. The fair value of the unrecognized cost of LTIP units, which was \$5.8 million at March 31, 2018, will be expensed over a period of 3.0 years, subject to future mark to market adjustments.

During the three months ended March 31, 2018, there were no common units redeemed. During the three months ended March 31, 2017, approximately 21,000 common units with an aggregate fair value of approximately \$161,000 were redeemed by the holder and, at our election, we issued shares of our common stock to satisfy the redemption price.

Redeemable noncontrolling interests, including vested LTIP units, in our operating partnership as of March 31, 2018 and December 31, 2017, were \$113.0 million and \$116.1 million, respectively, which represented ownership of our operating partnership of 14.66% and 15.52%, respectively. The carrying value of redeemable noncontrolling interests as of March 31, 2018 and December 31, 2017, included adjustments of \$158.8 million and \$154.3 million, respectively, to reflect the excess of the redemption value over the accumulated historical costs. Redeemable noncontrolling interests were allocated net loss of \$6.3 million and net loss \$6.5 million for the three months ended March 31, 2018 and 2017, respectively. We declared aggregate cash distributions to holders of common units and holders of LTIP units of \$2.5 million and \$2.5 million for the three months ended March 31, 2018 and 2017, respectively.

13. Equity and Equity-Based Compensation

Common Stock Dividends—For each of the 2018 and 2017 quarters, the board of directors declared quarterly dividends of \$0.12 per outstanding share of common stock with an annualized target of \$0.48 per share for 2018.

Restricted Stock Units—Stock-based compensation expense of \$2.6 million and \$415,000 for the three months ended March 31, 2018 and 2017, respectively, in connection with equity awards granted to employees of Ashford LLC, certain employees of Remington Lodging and Ashford Trust’s directors and is included in “advisory services fee,” “management fees” and “corporate, general and administrative,” respectively, in our consolidated statements of operations. During the three months ended March 31, 2018, approximately \$1.5 million of the compensation expense was related to the accelerated vesting of equity awards granted to one of our executive officers upon his passing, in accordance with the terms of the awards. At March 31, 2018, the unamortized cost of the unvested shares of restricted stock was \$11.2 million, which will be amortized over a period of 3.0 years, subject to future mark to market adjustments.

Performance Stock Units—The compensation committee of the board of directors of the Company approved PSUs to certain executive officers, which have a three year cliff vesting. The award agreements provide for the grant of a target number of PSUs that will be settled in shares of common stock of the Company, if and when the applicable vesting criteria have been achieved following the end of the performance and service period. The target number of PSUs may be adjusted from 0% to 200% based on achievement of specified absolute and relative total stockholder returns based on the formulas determined by the Company’s Compensation Committee on the grant date. The performance criteria for the PSUs are based on market conditions under the relevant literature, and the PSUs were granted to non-employees. Compensation expense of \$3.3 million and expense credit of \$71,000 was recorded for the three months ended March 31, 2018 and 2017, respectively. During the three months ended March 31, 2018, approximately \$3.0 million of the compensation expense was related to the accelerated vesting of PSUs granted to one of our executive officers upon his passing, in accordance with the terms of the awards. These amounts are included in “advisory services fee” on our consolidated statements of operations. The fair value of the unamortized cost of PSUs of \$5.6 million at March 31, 2018, will be expensed over a period of approximately 3.0 years, subject to future mark to market adjustments.

Preferred Dividends—During the three months ended March 31, 2018, the board of directors declared quarterly dividends of \$0.5281 per share for our 8.45% Series D cumulative preferred stock, \$0.4609 per share for our 7.375% Series F cumulative preferred stock, \$0.4609 per share for our 7.375% Series G cumulative preferred stock, \$0.46875 per share for our 7.50% Series H cumulative preferred stock and \$0.46875 per share for our 7.50% Series I cumulative preferred stock. During the three months ended March 31, 2017, the board of directors declared quarterly dividends of \$0.5344 per share for our 8.55% Series A preferred stock, \$0.5281 per share for our 8.45% Series D cumulative preferred stock and \$0.4609 per share for our 7.375% Series F cumulative preferred stock and \$0.4609 per share for our 7.375% Series G cumulative preferred stock.

At-the-Market Equity Distribution Program—On December 11, 2017, the Company established an “at-the-market” equity distribution program pursuant to which it may, from time to time, sell shares of its Common Stock having an aggregate offering price of up to \$100 million. As of March 31, 2018, no shares of our common stock have been sold under this program.

Noncontrolling Interests in Consolidated Entities—Our noncontrolling entity partner had an ownership interest of 15% in two hotel properties and a total carrying value of \$608,000 and \$646,000 at March 31, 2018 and December 31, 2017, respectively. Our ownership interest is reported in equity in the consolidated balance sheets. Noncontrolling interests in consolidated entities were allocated net loss of \$38,000 and \$31,000 for the three months ended March 31, 2018 and 2017, respectively.

14. Commitments and Contingencies

Restricted Cash—Under certain management and debt agreements for our hotel properties existing at March 31, 2018, escrow payments are required for insurance, real estate taxes, and debt service. In addition, for certain properties based on the terms of the underlying debt and management agreements, we escrow 4% to 6% of gross revenues for

capital improvements.

Franchise Fees—Under franchise agreements for our hotel properties existing at March 31, 2018, we pay franchisor royalty fees between 3% and 6% of gross rooms revenue and, in some cases, 1% to 3% of food and beverage revenues. Additionally, we pay fees for marketing, reservations, and other related activities aggregating between 1% and 4% of gross rooms revenue and, in some cases, food and beverage revenues. These franchise agreements expire on varying dates between 2018 and 2047. When a franchise term expires, the franchisor has no obligation to renew the franchise. A franchise termination could have a material adverse effect on the operations or the underlying value of the affected hotel due to loss of associated name recognition, marketing support, and centralized reservation systems provided by the franchisor. A franchise termination could also have a material adverse effect on cash available for distribution to stockholders. In addition, if we breach the franchise agreement and the franchisor

terminates a franchise prior to its expiration date, we may be liable for up to three times the average annual fees incurred for that property.

We incurred franchise fees of \$16.1 million and \$16.4 million for the three months ended March 31, 2018 and 2017, respectively. Franchise fees are included in “other” hotel expenses in the consolidated statements of operations. Management Fees—Under management agreements for our hotel properties existing at March 31, 2018, we pay a) monthly property management fees equal to the greater of approximately \$13,000 (increased annually based on consumer price index adjustments) or 3% of gross revenues, or in some cases 2% to 7% of gross revenues, as well as annual incentive management fees, if applicable, b) project management fees of up to 4% of project costs, c) market service fees including purchasing, design and construction management not to exceed 16.5% of project management budget cumulatively, including project management fees, and d) other general fees at current market rates as approved by our independent directors, if required. These management agreements expire from 2020 through 2038, with renewal options. If we terminate a management agreement prior to its expiration, we may be liable for estimated management fees through the remaining term and liquidated damages or, in certain circumstances, we may substitute a new management agreement.

Income Taxes— We and our subsidiaries file income tax returns in the federal jurisdiction and various states. Tax years 2013 through 2017 remain subject to potential examination by certain federal and state taxing authorities.

Potential Pension Liabilities—Upon our 2006 acquisition of a hotel property, certain employees of such hotel were unionized and covered by a multi-employer defined benefit pension plan. At that time, no unfunded pension liabilities existed. Subsequent to our acquisition, a majority of employees, who are employees of the hotel manager, Remington Lodging, petitioned the employer to withdraw recognition of the union. As a result of the decertification petition, Remington Lodging withdrew recognition of the union. At the time of the withdrawal, the National Retirement Fund, the union’s pension fund, indicated unfunded pension liabilities existed. The National Labor Relations Board (“NLRB”) filed a complaint against Remington Lodging seeking, among other things, that Remington Lodging’s withdrawal of recognition was unlawful. Pending the final determination of the NLRB complaint, including appeals, the pension fund entered into a settlement agreement with Remington Lodging on November 1, 2011, providing that (a) Remington Lodging will continue to make monthly pension fund payments pursuant to the collective bargaining agreement, and (b) if the withdrawal of recognition is ultimately deemed lawful, Remington Lodging will have an unfunded pension liability equal to \$1.7 million minus the monthly pension payments made by Remington Lodging since the settlement agreement. To illustrate, if Remington Lodging - as of the date a final determination occurs - has made monthly pension payments equaling \$100,000, Remington Lodging’s remaining withdrawal liability shall be the unfunded pension liability of \$1.7 million minus \$100,000 (or \$1.6 million). This remaining unfunded pension liability shall be paid to the pension fund in annual installments of \$84,000 (but may be made monthly or quarterly, at Remington Lodging’s election), which shall continue for the remainder of the twenty-(20)-year capped period, unless Remington Lodging elects to pay the unfunded pension liability amount earlier. We agreed to indemnify Remington Lodging for the payment of the unfunded pension liability, if any, as set forth in the settlement agreement.

Litigation—Palm Beach Florida Hotel and Office Building Limited Partnership, et al. v. Nantucket Enterprises, Inc. This litigation involves a landlord tenant dispute from 2008 in which the landlord, Palm Beach Florida Hotel and Office Building Limited Partnership, a subsidiary of the Company, claimed that the tenant had violated various lease provisions of the lease agreement and was therefore in default. The tenant counterclaimed and asserted multiple claims including that it had been wrongfully evicted. The litigation was instituted by the plaintiff in November 2008 in the Circuit Court of the Fifteenth Judicial Circuit, in and for Palm Beach County, Florida and proceeded to a jury trial on June 30, 2014. The jury entered its verdict awarding the tenant total claims of \$10.8 million and ruling against the landlord on its claim of breach of contract. In 2016, the Court of Appeals reduced the original \$10.8 million judgment to \$8.8 million and added pre-judgment interest on the wrongful eviction judgment. The case was further appealed to the Florida Supreme Court. On May 23, 2017, the trial court issued an order compelling the company that issued the supersedeas bond, RLI Insurance Company (“RLI”), to pay approximately \$10.0 million. On June 1, 2017, RLI paid

Nantucket this amount and sought reimbursement from the Company. On June 27, 2017, the Florida Supreme Court denied the Company's petition for review. As a result, all of the appeals were exhausted and the judgment was final with the determination and reimbursement of attorney's fees being the only remaining dispute. On June 29, 2017, the balance of the judgment was paid to Nantucket by the Company. As of March 31, 2018, we have accrued approximately \$1.1 million, which represents the Company's best estimate of the amount of potential legal fees that could be owed.

We are engaged in other various legal proceedings which have arisen but have not been fully adjudicated. The likelihood of loss from these legal proceedings, based on definitions within contingency accounting literature, ranges from remote to reasonably possible and to probable. Based on estimates of the range of potential losses associated with these matters, management does not believe the ultimate resolution of these proceedings, either individually or in the aggregate, will have a material adverse effect on our consolidated financial position or results of operations. However, the final results of legal proceedings cannot be predicted

with certainty and if we fail to prevail in one or more of these legal matters, and the associated realized losses exceed our current estimates of the range of potential losses, our consolidated financial position or results of operations could be materially adversely affected in future periods.

15. Segment Reporting

We operate in one business segment within the hotel lodging industry: direct hotel investments. Direct hotel investments refer to owning hotel properties through either acquisition or new development. We report operating results of direct hotel investments on an aggregate basis as substantially all of our hotel investments have similar economic characteristics and exhibit similar long-term financial performance. As of March 31, 2018 and December 31, 2017, all of our hotel properties were domestically located.

16. Related Party Transactions

Ashford LLC, a subsidiary of Ashford Inc., acts as our advisor, and as a result, we pay advisory fees to Ashford LLC. We are required to pay Ashford LLC a quarterly base fee that is a percentage of our total market capitalization on a declining sliding scale plus the Key Money Asset Management Fee (defined in our advisory agreement as the aggregate gross asset value of all key money assets multiplied by 0.70%), subject to a minimum quarterly base fee, as payment for managing our day-to-day operations in accordance with our investment guidelines. Total market capitalization includes the aggregate principal amount of our consolidated indebtedness (including our proportionate share of debt of any entity that is not consolidated but excluding our joint venture partners' proportionate share of consolidated debt). The range of base fees on the scale is between 0.70% and 0.50% per annum for total market capitalization that ranges from less than \$6.0 billion to greater than \$10.0 billion. At March 31, 2018, the quarterly base fee was 0.70% based on our current market capitalization. We are also required to pay Ashford LLC an incentive fee that is measured annually. Each year that our annual total stockholder return exceeds the average annual total stockholder return for our peer group we will pay Ashford LLC an incentive fee over the following three years, subject to the FCCR Condition, as defined in the advisory agreement, which relates to the ratio of adjusted EBITDA to fixed charges. We also reimburse Ashford LLC for certain reimbursable overhead and internal audit, risk management advisory and asset management services, as specified in the advisory agreement. We also record equity-based compensation expense for equity grants of common stock and LTIP units awarded to our officers and employees of Ashford LLC in connection with providing advisory services equal to the fair value of the award in proportion to the requisite service period satisfied during the period.

The following table summarizes the advisory services fees incurred (in thousands):

	Three Months Ended March 31,	
	2018	2017
Advisory services fee		
Base advisory fee	\$8,615	\$8,716
Reimbursable expenses ⁽¹⁾	1,529	1,522
Equity-based compensation ⁽²⁾	6,746	403
Incentive fee	187	—
Total advisory services fee	\$17,077	\$10,641

(1) Reimbursable expenses include overhead, internal audit, risk management advisory and asset management services.

(2) Equity-based compensation is associated with equity grants of Ashford Trust's common stock, LTIP units and Performance LTIP units awarded to officers and employees of Ashford LLC.

In 2016, \$4.0 million of key money consideration was invested in furniture, fixtures and equipment by Ashford Inc. to be used by Ashford Trust, which represented all of the key money consideration for the Le Pavillon Hotel. This arrangement is accounted for as a lease, in accordance with the applicable accounting guidance. As such, a portion of

the base advisory fee is allocated to lease expense equal to the estimated fair value of the lease payments that would have been made. As a result, lease expense of \$156,000 and \$164,000 was recognized for the three months ended March 31, 2018 and 2017, respectively, and was included in “other” hotel expense in the consolidated statements of operations.

In accordance with our advisory agreement, our advisor, or entities in which our advisor has an interest, have a right to provide products or services to our hotel properties, provided such transactions are evaluated and approved by our independent

directors. The following table summarizes the entities in which our advisor has an interest with which we or our hotel properties contracted for products and services, the amounts paid by us for those services, the applicable classification on our consolidated financial statements and the amount payable to each entity (included in “due to Ashford Inc.”) (in thousands):

(2) Recorded as deferred loan costs, which are included in “indebtedness, net” on our consolidated balance sheets and amortized over the initial term of the applicable loan agreement.

At March 31, 2018 and December 31, 2017, we had payables of \$12.5 million and \$14.5 million, respectively, included in due to Ashford Inc., net, associated with the advisory services.

Certain employees of Remington Lodging, who perform work on behalf of Ashford Trust, were granted approximately 131,000 and 177,000 shares of restricted stock under the Ashford Trust Stock Plan in 2017 and 2018, respectively. These share grants were accounted for under the applicable accounting guidance related to share-based payments granted to non-employees and are recorded as a component of “management fees” in our consolidated statements of operations. Expense of \$257,000 and \$25,000 was recognized for the three months ended March 31, 2018 and 2017, respectively. The unamortized fair value of these grants was \$2.1 million as of March 31, 2018, which will be amortized over a period of 3.0 years, subject to future mark to market adjustments.

17. Subsequent Events

On April 9, 2018, we refinanced our \$971.7 million mortgage loan secured by 22 hotel properties. The new mortgage loan totaled \$985.0 million, is interest only and provides for a floating interest rate of LIBOR + 3.20%. The stated maturity is April 2020 with five one-year extension options, subject to the satisfaction of certain conditions. The new mortgage loan is secured by the same 22 hotel properties that include: the Courtyard Boston Downtown, Courtyard Denver, Courtyard Gaithersburg, Courtyard Savannah, Hampton Inn Parsippany, Hilton Parsippany, Hilton Tampa, Hilton Garden Inn Austin, Hilton Garden Inn BWI, Hilton Garden Inn Virginia Beach, Hyatt Windwatch Long Island, Hyatt Savannah, Marriott DFW Airport, Marriott Omaha, Marriott San Antonio, Marriott Sugarland, Renaissance Palm Springs, Ritz-Carlton Atlanta, Residence Inn Tampa, Churchill, Melrose and Silversmith.

On May 1, 2018, we completed the sale of the SpringHill Suites Centerville for approximately \$7.5 million in cash. We also repaid approximately \$6.6 million of principal on our mortgage loan partially secured by the hotel property.

Overview

Based on our primary business objectives and forecasted operating conditions, our current key priorities and financial strategies include, among other things:

- acquisition of hotel properties that will be accretive to our portfolio;
- disposition of non-core hotel properties;
- pursuing capital market activities to enhance long-term stockholder value;
- preserving capital, enhancing liquidity, and continuing current cost-saving measures;
 - implementing selective capital improvements designed to increase profitability;
- implementing effective asset management strategies to minimize operating costs and increase revenues;
- financing or refinancing hotels on competitive terms;
- utilizing hedges and derivatives to mitigate risks; and
- making other investments or divestitures that our board of directors deems appropriate.

Our current investment strategy is to focus on owning predominantly full-service hotels in the upscale and upper upscale segments in domestic and international markets that have revenue per available room (“RevPAR”) generally less than twice the national average. We believe that as supply, demand, and capital market cycles change, we will be able to shift our investment strategy to take advantage of new lodging-related investment opportunities as they may develop. Our board of directors may change our investment strategy at any time without stockholder approval or notice. We will continue to seek ways to benefit from the cyclical nature of the hotel industry.

Recent Developments

On January 16, 2018, we made an additional \$667,000 investment in OpenKey.

On January 17, 2018, we refinanced our \$376.8 million mortgage loan. The new mortgage loan totaled \$395.0 million. The new mortgage loan has a two-year initial term and five one-year extension options, subject to the satisfaction of certain conditions. The mortgage loan is interest only and provides for a floating interest rate of LIBOR + 2.92%. The new mortgage loan is secured by eight hotels: Embassy Suites Portland, Embassy Suites Crystal City, Embassy Suites Orlando, Embassy Suites Santa Clara, Crowne Plaza Key West, Hilton Costa Mesa, Sheraton Minneapolis, and Historic Inns of Annapolis.

On February 20, 2018, we completed the sale of the SpringHill Suites Glen Allen for approximately \$10.9 million in cash. The sale resulted in a loss of \$9,000 for the three months ended March 31, 2018 and is included in “gain (loss) on sale of hotel properties” in the consolidated statements of operations. The Company also repaid approximately \$7.6 million of debt associated with the hotel property.

On April 9, 2018, we refinanced our \$971.7 million mortgage loan secured by 22 hotel properties. The new mortgage loan totaled \$985.0 million, is interest only and provides for a floating interest rate of LIBOR + 3.20%. The stated maturity is April 2020 with five one-year extension options, subject to the satisfaction of certain conditions. The new mortgage loan is secured by the same 22 hotel properties that include: the Courtyard Boston Downtown, Courtyard Denver, Courtyard Gaithersburg, Courtyard Savannah, Hampton Inn Parsippany, Hilton Parsippany, Hilton Tampa, Hilton Garden Inn Austin, Hilton Garden Inn BWI, Hilton Garden Inn Virginia Beach, Hyatt Windwatch Long Island, Hyatt Savannah, Marriott DFW Airport, Marriott Omaha, Marriott San Antonio, Marriott Sugarland, Renaissance Palm Springs, Ritz-Carlton Atlanta, Residence Inn Tampa, Churchill, Melrose and Silversmith.

On May 1, 2018, we completed the sale of the SpringHill Suites Centerville for approximately \$7.5 million in cash. We also repaid approximately \$6.6 million of principal on our mortgage loan partially secured by the hotel property.

LIQUIDITY AND CAPITAL RESOURCES

Our cash position from operations is affected primarily by macro industry movements in occupancy and rate as well as our ability to control costs. Further, interest rates can greatly affect the cost of our debt service as well as the value of any financial hedges we may put in place. We monitor industry fundamentals and interest rates very closely. Capital expenditures above our reserves will affect cash flow as well.

Certain of our loan agreements contain cash trap provisions that may get triggered if the performance of our hotels decline. When these provisions are triggered, substantially all of the profit generated by our hotels is deposited directly into lockbox accounts and then swept into cash management accounts for the benefit of our various lenders.

This could affect our liquidity and our ability to make distributions to our stockholders.

Also, we have entered into certain customary guaranty agreements pursuant to which we guaranty payment of any recourse liabilities of our subsidiaries or joint ventures that may result from non-recourse carve-outs, which include, but are not limited to fraud, misrepresentation, willful misconduct resulting in waste, misappropriations of rents following an event of default, voluntary bankruptcy filings, unpermitted transfers of collateral, and certain environmental liabilities. Certain of these guarantees represent a guaranty of material amounts, and if we are required to make payments under those guarantees, our liquidity could be adversely affected.

On December 5, 2017, the board of directors reapproved a stock repurchase program (the “Repurchase Program”) pursuant to which the board of directors granted a repurchase authorization to acquire shares of the Company’s common stock, par value \$0.01 per share (the “Common Stock”) having an aggregate value of up to \$200 million. The board of director’s authorization replaced any previous repurchase authorizations. No shares were repurchased during the three months ended March 31, 2018 pursuant to the Repurchase Program.

On December 11, 2017, we entered into equity distribution agreements with UBS Securities LLC, Morgan Stanley & Co. LLC, B. Riley FBR, Inc., Robert W. Baird & Co. Incorporated, D.A. Davidson & Co., Deutsche Bank Securities Inc. and Janney Montgomery Scott LLC, each acting as a sales agent (the “Equity Distribution Agreements”). Pursuant to the Equity Distribution Agreements, we may sell from time to time through the sales agents shares of our common stock having an aggregate offering price of up to \$100.0 million. Sales of shares of our common stock, if any, may be made in negotiated transactions or transactions that are deemed to be “at-the-market” offerings as defined in Rule 415 of the Securities Act, including sales made directly on the New York Stock Exchange, the existing trading market for our common stock, or sales made to or through a market maker other than on an exchange or through an electronic communications network. We will pay each of the sales agents a commission, which in each case shall not be more than 2.0% of the gross sales price of the shares of our common stock sold through such sales agent. As of March 31, 2018, no shares of our common stock have been sold under this program.

On January 17, 2018, we refinanced our \$376.8 million mortgage loan. The new mortgage loan totaled \$395.0 million. The new mortgage loan has a two-year initial term and five one-year extension options, subject to the satisfaction of certain conditions. The mortgage loan is interest only and provides for a floating interest rate of LIBOR + 2.92%. The new mortgage loan is secured by eight hotels: Embassy Suites Portland, Embassy Suites Crystal City, Embassy Suites Orlando, Embassy Suites Santa Clara, Crowne Plaza Key West, Hilton Costa Mesa, Sheraton Minneapolis, and Historic Inns of Annapolis.

On February 20, 2018, we repaid \$7.6 million of principal on our mortgage loan partially secured by the SpringHill Suites Glen Allen as a result of the sale of the hotel property.

On April 9, 2018, we refinanced our \$971.7 million mortgage loan secured by 22 hotel properties. The new mortgage loan totaled \$985.0 million, is interest only and provides for a floating interest rate of LIBOR + 3.20%. The stated maturity is April 2020 with five one-year extension options, subject to the satisfaction of certain conditions. The new mortgage loan is secured by the same 22 hotel properties that include: the Courtyard Boston Downtown, Courtyard Denver, Courtyard Gaithersburg, Courtyard Savannah, Hampton Inn Parsippany, Hilton Parsippany, Hilton Tampa, Hilton Garden Inn Austin, Hilton Garden Inn BWI, Hilton Garden Inn Virginia Beach, Hyatt Windwatch Long Island, Hyatt Savannah, Marriott DFW Airport, Marriott Omaha, Marriott San Antonio, Marriott Sugarland, Renaissance Palm Springs, Ritz-Carlton Atlanta, Residence Inn Tampa, Churchill, Melrose and Silversmith.

On May 1, 2018, we completed the sale of the SpringHill Suites Centerville for approximately \$7.5 million in cash. We also repaid approximately \$6.6 million of principal on our mortgage loan partially secured by the hotel property. Our principal sources of funds to meet our cash requirements include: cash on hand, cash flow from operations, capital market activities, property refinancing proceeds and asset sales. Additionally, our principal uses of funds are expected to include possible operating shortfalls, owner-funded capital expenditures, dividends, new investments, and debt interest and principal payments. Items that impacted our cash flow and liquidity during the periods indicated are summarized as follows:

Net Cash Flows Provided by (Used in) Operating Activities. Net cash flows provided by operating activities, pursuant to our consolidated statements of cash flows, which includes changes in balance sheet items, were \$16.7 million and \$39.5 million for the three months ended March 31, 2018 and 2017, respectively. Cash flows from operations were impacted by changes in hotel operations, our hotel dispositions in 2017 and 2018, as well as the timing of collecting

receivables from hotel guests, paying vendors, settling with related parties and settling with hotel managers. Net Cash Flows Provided by (Used in) Investing Activities. For the three months ended March 31, 2018, net cash flows used in investing activities were \$53.7 million. Cash outflows primarily consisted of \$64.0 million for capital improvements made to various hotel properties and an additional \$667,000 investment in OpenKey. Cash outflows were partially offset by cash inflows of \$10.5 million from proceeds received from the sale of the SpringHill Suites Glen Allen and \$651,000 from property insurance. For the three months ended March 31, 2017, net cash flows provided by investing activities were \$8.4 million. Cash inflows

Table of Contents

primarily consisted of \$48.4 million of proceeds associated with the liquidation of our interests in the AQUA U.S. Fund, \$17.3 million attributable to the net cash proceeds received from the sales of the Renaissance Portsmouth and Embassy Suites Syracuse and \$190,000 of proceeds from property insurance. Cash inflows were partially offset by \$56.8 million for capital improvements made to various hotel properties, and an additional \$650,000 investment in OpenKey.

Net Cash Flows Provided by (Used in) Financing Activities. For the three months ended March 31, 2018, net cash flows used in financing activities were \$20.0 million. Cash outflows primarily consisted of \$394.7 million for repayments of indebtedness, \$23.2 million for dividend payments to common and preferred stockholders and unitholders, \$2.0 million for payments of loan costs and exit fees, \$1.5 million for the repurchase of common stock and \$229,000 of payments for derivatives. Cash outflows were partially offset by cash inflows of \$401.5 million from borrowings on indebtedness. For the three months ended March 31, 2017, net cash flows used in financing activities were \$68.5 million. Cash outflows primarily consisted of \$43.4 million for repayments of indebtedness, \$24.2 million for dividend payments to common and preferred stockholders and unitholders, \$623,000 for payments of loan costs and exit fees and \$280,000 of payments for derivatives.

We are required to maintain certain financial ratios under various debt and derivative agreements. If we violate covenants in any debt or derivative agreement, we could be required to repay all or a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on attractive terms, if at all. Presently, our existing financial debt covenants primarily relate to maintaining minimum net worth and leverage ratios and liquidity. As of March 31, 2018, we were in compliance in all material respects with all covenants or other requirements set forth in our debt and related agreements.

Mortgage and mezzanine loans are nonrecourse to the borrowers, except for customary exceptions or carve-outs that trigger recourse liability to the borrowers in certain limited instances. Recourse obligations typically include only the payment of costs and liabilities suffered by lenders as a result of the occurrence of certain bad acts on the part of the borrower. However, in certain cases, carve-outs could trigger recourse obligations on the part of the borrower with respect to repayment of all or a portion of the outstanding principal amount of the loans. We have entered into customary guaranty agreements pursuant to which we guaranty payment of any recourse liabilities of the borrowers that result from non-recourse carve-outs (which include, but are not limited to, fraud, misrepresentation, willful conduct resulting in waste, misappropriations of rents following an event of default, voluntary bankruptcy filings, unpermitted transfers of collateral, and certain environmental liabilities). In the opinion of management, none of these guaranty agreements, either individually or in the aggregate, are likely to have a material adverse effect on our business, results of operations, or financial condition as of March 31, 2018.

Based on our current level of operations, management believes that our cash flow from operations and our existing cash balances should be adequate to meet upcoming anticipated requirements for interest and principal payments on debt (excluding any potential final maturity principal payments), working capital, and capital expenditures for the next 12 months and dividends required to maintain our status as a REIT for federal income tax purposes. With respect to upcoming maturities, we will continue to proactively address the refinancing or repayment of our 2019 and 2020 maturities. No assurances can be given that we will obtain additional financings or, if we do, what the amount and terms will be. Our failure to obtain future financing under favorable terms could adversely impact our ability to execute our business strategy. In addition, we may selectively pursue debt financing on individual properties.

We are committed to an investment strategy where we will opportunistically pursue hotel-related investments as suitable situations arise. Funds for future hotel-related investments are expected to be derived, in whole or in part, from cash on hand, future borrowings under a credit facility or other loans, or proceeds from additional issuances of common stock, preferred stock, or other securities, asset sales, and joint ventures. However, we have no formal commitment or understanding to invest in additional assets, and there can be no assurance that we will successfully make additional investments. We may, when conditions are suitable, consider additional capital raising opportunities. Our existing hotel properties are mostly located in developed areas with competing hotel properties. Future occupancy, ADR, and RevPAR of any individual hotel could be materially and adversely affected by an increase in the number or quality of competitive hotel properties in its market area. Competition could also affect the quality and quantity of future investment opportunities.

Dividend Policy. During the three month periods ended March 31, 2018 and 2017, the board of directors declared quarterly dividends of \$0.12 per share of outstanding common stock. In December 2017, the board of directors approved our 2018 dividend policy which anticipates a quarterly dividend payment of \$0.12 per share for the remainder of 2018. However, the adoption of a dividend policy does not commit our board of directors to declare future dividends. The board of directors will continue to review our dividend policy on a quarterly basis. We may incur indebtedness to meet distribution requirements imposed on REITs under the Internal Revenue Code to the extent that working capital and cash flow from our investments are insufficient to fund required distributions. Alternatively, we may elect to pay dividends on our common stock in cash or a combination of cash and shares of securities as permitted under federal income tax laws governing REIT distribution requirements. We may pay dividends in excess of our cash flow.

RESULTS OF OPERATIONS

Revenue per available room, or RevPAR, is a commonly used measure within the hotel industry to evaluate hotel operations. RevPAR is defined as the product of the ADR charged and the average daily occupancy achieved. RevPAR does not include revenues from food and beverage or parking, telephone, or other guest services generated by the property. Although RevPAR does not include these ancillary revenues, it is generally considered the leading indicator of core revenues for many hotels. We also use RevPAR to compare the results of our hotels between periods and to analyze results of our comparable hotels (comparable hotels represent hotels we have owned for the periods under comparison). RevPAR improvements attributable to increases in occupancy are generally accompanied by increases in most categories of variable operating costs. RevPAR improvements attributable to increases in ADR are generally accompanied by increases in limited categories of operating costs, such as management fees and franchise fees.

All hotel properties owned during the three months ended March 31, 2018 and 2017 have been included in our results of operations during the respective periods in which they were owned. Based on when a hotel property was acquired or disposed, operating results for certain hotel properties are not comparable for the three months ended March 31, 2018 and 2017. The hotel properties listed below are not comparable hotel properties for the periods indicated and all other hotel properties are considered comparable hotel properties. The following dispositions affect reporting comparability related to our consolidated financial statements:

Hotel Property	Location	Type	Date
Renaissance ⁽¹⁾	Portsmouth, VA	Disposition	February 1, 2017
Embassy Suites ⁽¹⁾	Syracuse, NY	Disposition	March 6, 2017

Comparison of the Three Months Ended March 31, 2018 and 2017

Net Income (Loss) Attributable to the Company. Net loss attributable to the Company increased \$858,000 from a net loss of \$25.4 million for the three months ended March 31, 2017 (the “2017 quarter”) to \$26.3 million for the three months ended March 31, 2018 (the “2018 quarter”) as a result of the factors discussed below.

Revenue. Rooms revenue from our hotel properties and WorldQuest decreased \$6.0 million, or 2.2%, to \$270.7 million in the 2018 quarter compared to the 2017 quarter. This decrease is attributable to lower rooms revenue of \$5.5 million from our Hotel Dispositions and \$506,000 from our comparable hotel properties and WorldQuest, which experienced an increase of 1.0% in room rates and a decrease of 90 basis points in occupancy.

Food and beverage revenue decreased \$7.8 million, or 12.4%, to \$55.0 million in the 2018 quarter compared to the 2017 quarter. This decrease is attributable to lower food and beverage revenue of \$2.1 million from our Hotel Dispositions and \$5.7 million from our comparable hotel properties and WorldQuest.

Other hotel revenue, which consists mainly of Internet access, parking, spa and business interruption revenue, increased \$1.7 million, or 12.5%, to \$15.5 million in the 2018 quarter compared to the 2017 quarter. This increase is primarily attributable to higher other revenue of \$1.8 million from our comparable hotel properties and WorldQuest, which included \$401,000 of business interruption revenue related to Hurricane Irma, partially offset by lower other revenue of \$122,000 from our Hotel Dispositions. Other non-hotel revenue increased \$591,000, or 152.3%, to \$979,000 in the 2018 quarter.

Hotel Operating Expenses. Hotel operating expenses decreased \$9.9 million, or 4.4%, to \$216.7 million in the 2018 quarter compared to the 2017 quarter. Hotel operating expenses consist of direct expenses from departments associated with revenue

Table of Contents

streams and indirect expenses associated with support departments and management fees. Direct expenses decreased \$5.5 million in the 2018 quarter compared to the 2017 quarter, which was comprised of a decrease of \$2.9 million from our Hotel Dispositions and \$2.6 million from our comparable hotel properties and WorldQuest. Direct expenses were 29.8% of total hotel revenue for 2018 and 30.3% for the 2017 quarter. Indirect expenses and management fees decreased \$4.4 million in the 2018 quarter compared to the 2017 quarter, which was comprised of a decrease of \$3.2 million from our Hotel Dispositions and a decrease of \$3.8 million related to an additional accrual in the 2017 quarter related to the final judgment in the lawsuit captioned Palm Beach Florida Hotel and Office Building Limited Partnership, et al. v. Nantucket Enterprises, Inc. These decreases were offset by an increase of \$2.6 million from our comparable hotel properties and WorldQuest.

Property Taxes, Insurance and Other. Property taxes, insurance and other increased \$26,000 or 0.1%, to \$18.4 million in the 2018 quarter compared to the 2017 quarter. The increase was primarily due to \$403,000 from our comparable hotel properties and WorldQuest, partially offset by a decrease of \$377,000 from our Hotel Dispositions.

Depreciation and Amortization. Depreciation and amortization decreased \$1.7 million or 2.6%, to \$63.0 million in the 2018 quarter compared to the 2017 quarter. The decrease was primarily due to \$1.5 million of depreciation and amortization related to our Hotel Dispositions and \$122,000 from our comparable hotel properties and WorldQuest.

Impairment Charges. We recorded an impairment charge of \$1.7 million in the 2018 quarter which was comprised of a \$2.0 million impairment charge at the SpringHill Suites Centerville, partially offset by impairment credits of \$302,000 from changes in estimates of property damage incurred from Hurricanes Harvey and Irma.

Transaction Costs. Transaction costs were \$2,000 in the 2018 quarter compared to \$3,000 in the 2017 quarter.

Advisory Services Fee. Advisory services fee increased \$6.4 million, or 60.5%, to \$17.1 million in the 2018 quarter compared to the 2017 quarter, which represented fees paid in connection with the advisory agreement between Ashford Inc. and the Company. In the 2018 quarter, the advisory services fee was comprised of a base advisory fee of \$8.6 million, equity-based compensation of \$6.7 million associated with equity grants of our common stock and LTIP units awarded to the officers and employees of Ashford Inc., reimbursable expenses of \$1.5 million and an incentive fee of \$187,000. During the three months ended March 31, 2018, approximately \$4.5 million of the equity-based compensation expense was related to the accelerated vesting of equity awards granted to one of our executive officers upon his passing, in accordance with the terms of the awards. In the 2017 quarter, the advisory services fee was comprised of a base advisory fee of \$8.7 million, reimbursable expenses of \$1.5 million and equity-based compensation of \$403,000 associated with equity grants of our common stock and LTIP units awarded to the officers and employees of Ashford Inc.

Corporate General and Administrative. Corporate general and administrative expense decreased \$3.0 million, or 58.8%, to \$2.1 million in the 2018 quarter compared to the 2017 quarter. The decrease was primarily attributable to lower transaction, acquisition and management conversion costs of \$2.6 million and lower public company costs, office expenses, professional fees and other miscellaneous expenses of \$445,000 in the 2018 quarter compared to the 2017 quarter.

Equity in Earnings (Loss) of Unconsolidated Entities. We recorded equity in loss of unconsolidated entities of \$588,000 and \$763,000 in the 2018 and 2017 quarters, respectively. The 2018 quarter included equity in loss of \$437,000 from Ashford Inc. and \$151,000 from OpenKey. The 2017 quarter included equity in loss of \$709,000 from Ashford Inc., and \$106,000 from OpenKey, partially offset by equity in earnings of \$52,000 from the AQUA U.S. Fund.

Interest Income. Interest income was \$746,000 and \$208,000 in the 2018 and 2017 quarters, respectively.

Gain (Loss) on Sale of Hotel Properties. Loss on sale of hotel properties was \$9,000 and \$83,000 in the 2018 and 2017 quarters, respectively. The loss in the 2018 quarter was primarily related to the sale of SpringHill Suites Glen Allen. The loss in the 2017 quarter was primarily related to the sale of the Renaissance Portsmouth and Embassy Suites Syracuse.

Other Income (Expense). Other income (expense) changed \$3.2 million, from expense of \$3.1 million in the 2017 quarter to income of \$76,000 in the 2018 quarter. In the 2018 quarter, we recognized dividend income of \$140,000, realized gain on marketable securities of \$110,000 and other income of \$92,000, partially offset by CMBX premiums and usage fees of \$266,000. In the 2017 quarter, we recognized a realized loss of \$3.0 million related to the

termination of CMBX tranches, \$313,000 related to the maturity of options on futures contracts, and \$ 253,000 of CMBX premiums and usage fees. These expenses were partially offset by dividend income of \$432,000.

Interest Expense and Amortization of Loan Costs. Interest expense and amortization of loan costs decreased \$562,000, or 1.0%, to \$54.7 million in the 2018 quarter compared to the 2017 quarter. The decrease is primarily due to lower interest expense and amortization of loan costs of \$1.5 million from our Hotel Dispositions, partially offset by an increase of \$888,000 from higher

Table of Contents

interest expense and amortization of loan costs as a result of refinances and an increase in LIBOR rates. The average LIBOR rates in the 2018 quarter and the 2017 quarter were 1.65% and 0.83%, respectively.

Write-off of Premiums, Loan Costs and Exit Fees. Write-off of premiums, loan costs and exit fees increased \$2.0 million to \$2.1 million in the 2018 quarter compared to the 2017 quarter. In the 2018 quarter, we incurred exit fees of \$2.0 million related to the refinance of a mortgage loan and a \$61,000 write-off of loan costs and exit fees related to the sale of the SpringHill Suites Glen Allen. In the 2017 quarter, we incurred exit fees of \$54,000 related to the sale of the Portsmouth Renaissance and Embassy Suites Syracuse.

Unrealized Gain (Loss) on Marketable Securities. Unrealized loss on marketable securities was \$558,000 and \$3.3 million in the 2018 and 2017 quarters, respectively, which was based on changes in closing market prices during the quarter.

Unrealized Gain (Loss) on Derivatives. Unrealized gain on derivatives decreased \$1.1 million, or 76.8%, from \$1.4 million in the 2017 quarter to \$329,000 in the 2018 quarter. In the 2018 quarter, we recognized unrealized gains of \$286,000 and \$134,000 associated with CMBX tranches and interest rate caps, respectively, partially offset by an unrealized loss of \$91,000 from interest rate floors. In the 2017 quarter, we recorded unrealized gains of \$3.0 million related to CMBX tranche terminations, \$313,000 associated with the maturity of options on futures contracts and \$130,000 on outstanding CMBX tranches. These unrealized gains were partially offset by unrealized losses of \$1.6 million, \$300,000 and \$78,000 associated with interest rate floors, interest rate caps and options on futures contracts, respectively. The fair value of interest rate floors and interest rate derivatives are primarily based on movements in the LIBOR forward curve and the passage of time. The fair value of options on futures contracts is determined based on the last reported settlement price as of the measurement date. The fair value of credit default swaps is based on the change in value of CMBX indices.

Income Tax (Expense) Benefit. Income tax benefit increased \$40,000, or 4.7% from \$846,000 in the 2017 quarter to \$886,000 in the 2018 quarter. The increase in income tax benefit is primarily due to a decrease in taxable income recognized by our TRS entities.

(Income) Loss from Consolidated Entities Attributable to Noncontrolling Interests. Our noncontrolling interest partner in consolidated entities was allocated a loss of \$38,000 and \$31,000 in the 2018 and 2017 quarters, respectively.

Net (Income) Loss Attributable to Redeemable Noncontrolling Interests in Operating Partnership. Noncontrolling interests in operating partnership were allocated a net loss of \$6.3 million and \$6.5 million in the 2018 and 2017 quarters, respectively. Redeemable noncontrolling interests represented ownership interests of 14.66% and 15.40% in the operating partnership at March 31, 2018 and 2017, respectively.

SEASONALITY

Our properties' operations historically have been seasonal as certain properties maintain higher occupancy rates during the summer months, while certain other properties maintain higher occupancy rates during the winter months. This seasonality pattern can cause fluctuations in our quarterly lease revenue under our percentage leases. We anticipate that our cash flows from the operations of our properties will be sufficient to enable us to make quarterly distributions to maintain our REIT status. To the extent that cash flows from operations are insufficient during any quarter due to temporary or seasonal fluctuations in lease revenue, we expect to utilize other cash on hand or borrowings to fund required distributions. However, we cannot make any assurances that we will make distributions in the future.

OFF-BALANCE SHEET ARRANGEMENTS

In the normal course of business, we form partnerships or joint ventures that operate certain hotels. We evaluate each partnership and joint venture to determine whether the entity is a Variable Interest Entity ("VIE"). If the entity is determined to be a VIE, we assess whether we are the primary beneficiary and need to consolidate the entity. For further discussion of the company's VIEs, see note 2 to our consolidated financial statements.

CONTRACTUAL OBLIGATIONS

There have been no material changes since December 31, 2017, outside of the ordinary course of business, to contractual obligations specified in the table of contractual obligations included in the section "Management's Discussion and Analysis of Financial Condition and Results of Operations" included in our 2017 Form 10-K.

Table of Contents

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

Our accounting policies that are critical or most important to understanding our financial condition and results of operations and that require management to make the most difficult judgments are described in our 2017 Form 10-K. There have been no material changes in these critical accounting policies.

NON-GAAP FINANCIAL MEASURES

The following non-GAAP presentations of EBITDA, EBITDAre, Adjusted EBITDAre, FFO and AFFO are presented to help our investors evaluate our operating performance.

EBITDA is defined as net income (loss) before interest expense and amortization of premiums and loan costs, net, interest income other than interest income from mezzanine loans, income taxes, depreciation and amortization, and equity in earnings/loss of unconsolidated entities. In addition, we include impairment charges on real estate, gain/loss on sale of hotel properties and our portion of impairment charges on real estate and gain/loss on sale of hotel properties of unconsolidated entities to calculate EBITDAre, as defined by NAREIT.

We then further adjust EBITDAre to exclude certain additional items such as uninsured hurricane related costs, write-off of premiums, loan costs and exit fees, other income/expense, net, transaction, acquisition and management conversion costs, legal judgment and related legal costs, dead deal costs and non-cash items such as amortization of unfavorable contract liabilities, non-cash stock/unit-based compensation, unrealized gains/losses on marketable securities, derivative instruments, investment in securities investment fund, as well as our portion of adjustments to EBITDAre of unconsolidated entities.

We present EBITDA, EBITDAre and Adjusted EBITDAre because we believe they reflect more accurately the ongoing performance of our hotel assets and other investments and provide more useful information to investors as they are indicators of our ability to meet our future debt payment requirements, working capital requirements and they provide an overall evaluation of our financial condition. EBITDA, EBITDAre and Adjusted EBITDAre as calculated by us may not be comparable to EBITDA, EBITDAre and Adjusted EBITDAre reported by other companies that do not define EBITDA, EBITDAre and Adjusted EBITDAre exactly as we define the terms. EBITDA, EBITDAre and Adjusted EBITDAre do not represent cash generated from operating activities determined in accordance with GAAP, and should not be considered as an alternative to operating income or net income determined in accordance with GAAP as an indicator of performance or as an alternative to cash flows from operating activities as determined by GAAP as an indicator of liquidity.

Beginning with the three months ended March 31, 2018, we have started reporting EBITDA for real estate, or EBITDAre, as defined by NAREIT, and Adjusted EBITDAre. Previously, we reported Adjusted EBITDA. Adjusted EBITDAre is calculated in a similar manner as Adjusted EBITDA, with the exception of the adjustment for the consolidated noncontrolling interest's pro rata share of Adjusted EBITDA. The rationale for including 100% of EBITDAre for consolidated noncontrolling interests is that the full amount of any debt of these entities is reported in our consolidated balance sheet and therefore metrics using total debt to EBITDAre provide a better understanding of the Company's leverage. This is also consistent with NAREIT's definition of EBITDAre. All prior periods have been adjusted to conform to the current period presentation.

We calculate FFO and AFFO in the following table. FFO is calculated on the basis defined by NAREIT, which is net income (loss) attributable to common stockholders, computed in accordance with GAAP, excluding gains or losses on properties, and extraordinary items as defined by GAAP, plus depreciation and amortization of real estate assets, impairment charges on real estate assets, and after adjustments for unconsolidated entities and noncontrolling interests in the operating partnership. Adjustments for unconsolidated entities are calculated to reflect FFO on the same basis. NAREIT developed FFO as a relative measure of performance of an equity REIT to recognize that income-producing real estate historically has not depreciated on the basis determined by GAAP. Our calculation of AFFO excludes extinguishment of issuance costs upon redemption of preferred stock, write-off of loan costs and exit fees, other impairment charges, uninsured hurricane related costs, other income/expense, net transaction, acquisition and management conversion costs, legal judgment and related legal costs, dead deal costs and non-cash items such as non-cash stock/unit-based compensation, unrealized gains/losses on marketable securities, derivative instruments, investment in securities investment fund, as well as our portion of adjustments to FFO related to unconsolidated entities. We exclude items from AFFO that are either non-cash or are not part of our core operations in order to provide a period-over-period comparison of our operating results. We consider FFO and AFFO to be appropriate measures of our ongoing normalized operating performance as a REIT. We compute FFO in accordance with our interpretation of standards established by NAREIT, which may not be comparable to FFO reported by other REITs that either do not define the term in accordance with the current NAREIT definition or interpret the NAREIT definition differently than us. FFO and AFFO do not represent cash generated from operating activities as determined by GAAP and should not be considered as an alternative to a) GAAP net income or loss as an indication of our

financial performance or b) GAAP cash flows from operating activities as a measure of our liquidity, nor is it indicative of funds available to satisfy our cash needs, including our ability to make cash distributions. However, to facilitate a clear understanding of our historical operating results, we believe that FFO and AFFO should be considered along with our net income or loss and cash flows reported in the consolidated financial statements.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURE ABOUT MARKET RISK

Our primary market risk exposure consists of changes in interest rates on borrowings under our debt instruments. The analysis below presents the sensitivity of the market value of our financial instruments to selected changes in market interest rates.

At March 31, 2018, our total indebtedness of \$3.7 billion included \$3.4 billion of variable-rate debt. The impact on our results of operations of a 25-basis point change in interest rate on the outstanding balance of variable-rate debt at March 31, 2018 would be approximately \$8.5 million annually. Interest rate changes have no impact on the remaining \$351.9 million of fixed-rate debt.

The above amounts were determined based on the impact of hypothetical interest rates on our borrowings and assume no changes in our capital structure. As the information presented above includes only those exposures that existed at March 31, 2018, it does not consider exposures or positions that could arise after that date. Accordingly, the information presented herein has limited predictive value. As a result, the ultimate realized gain or loss with respect to interest rate fluctuations will depend on exposures that arise during the period, the hedging strategies at the time, and the related interest rates.

We use credit default swaps, tied to the CMBX index, to hedge financial and capital market risk. We have entered into credit default swap transactions, excluding those that have terminated, for notional amounts totaling \$212.5 million, to hedge financial and capital market risk. A credit default swap is a derivative contract that functions like an insurance policy against the credit risk of an entity or obligation. The seller of protection assumes the credit risk of the reference obligation from the buyer (us) of protection in exchange for annual premium payments. If a default or a loss, as defined in the credit default swap agreements, occurs on the underlying bonds, then the buyer of protection is protected against those losses. The only liability for us, the buyer, is the annual premium and any change in value of the underlying CMBX index (if the trade is terminated prior to maturity). For all CMBX trades completed to date, we were the buyer of protection. Credit default swaps are subject to master-netting settlement arrangements and credit support annexes. Assuming the underlying bonds pay off at par over their remaining average life, our total exposure for these trades was approximately \$7.5 million at March 31, 2018.

We hold interest rate floors with notional amounts totaling \$16.8 billion and strike rates ranging from (0.25)% to 1.5%. Our total exposure is capped at our initial upfront costs totaling \$9.7 million. These instruments have termination dates ranging from March 2019 to July 2020.

ITEM 4. CONTROLS AND PROCEDURES

Under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, our management has evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of March 31, 2018 ("Evaluation Date"). Based upon that evaluation, our Chief Executive Officer and Chief Financial Officer concluded that, as of the Evaluation Date, our disclosure controls and procedures are effective (i) to ensure that information required to be disclosed in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission rules and forms; and (ii) to ensure that information required to be disclosed in the reports that we file or submit under the Exchange Act is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosures.

There have been no changes in our internal controls over financial reporting during our most recent fiscal quarter that have materially affected, or are reasonably likely to materially affect, our internal controls over financial reporting.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

Litigation—Palm Beach Florida Hotel and Office Building Limited Partnership, et al. v. Nantucket Enterprises, Inc. This litigation involves a landlord tenant dispute from 2008 in which the landlord, Palm Beach Florida Hotel and Office Building Limited Partnership, a subsidiary of the Company, claimed that the tenant had violated various lease provisions of the lease agreement and was therefore in default. The tenant counterclaimed and asserted multiple claims including that it had been wrongfully evicted. The litigation was instituted by the plaintiff in November 2008 in the Circuit Court of the Fifteenth Judicial Circuit, in and for Palm Beach County, Florida and proceeded to a jury trial on June 30, 2014. The jury entered its verdict awarding the tenant total claims of \$10.8 million and ruling against the landlord on its claim of breach of contract. In 2016, the Court of Appeals reduced the original \$10.8 million judgment to \$8.8 million and added pre-judgment interest on the wrongful eviction judgment. The case was further appealed to the Florida Supreme Court. On May 23, 2017, the trial court issued an order compelling the company that issued the supersedeas bond, RLI, to pay approximately \$10.0 million. On June 1, 2017, RLI paid Nantucket this amount and sought reimbursement from the Company. On June 27, 2017, the Florida Supreme Court denied the Company's petition for review. As a result, all of the appeals were exhausted and the judgment was final with the determination and reimbursement of attorney's fees being the only remaining dispute. On June 29, 2017, the balance of the judgment was paid to Nantucket by the Company. As of March 31, 2018, we have accrued approximately \$1.1 million, which represents the Company's best estimate of the amount of potential legal fees that could be owed.

We are engaged in other various legal proceedings which have arisen but have not been fully adjudicated. The likelihood of loss from these legal proceedings, based on definitions within contingency accounting literature, ranges from remote to reasonably possible and to probable. Based on estimates of the range of potential losses associated with these matters, management does not believe the ultimate resolution of these proceedings, either individually or in the aggregate, will have a material adverse effect on our consolidated financial position or results of operations. However, the final results of legal proceedings cannot be predicted with certainty and if we fail to prevail in one or more of these legal matters, and the associated realized losses exceed our current estimates of the range of potential losses, our consolidated financial position or results of operations could be materially adversely affected in future periods.

ITEM 1A. RISK FACTORS

The discussion of our business and operations should be read together with the risk factors contained in Item 1A of our Annual Report on Form 10-K for the fiscal year ended December 31, 2017, filed with the Securities and Exchange Commission, which describe various risks and uncertainties to which we are or may become subject. These risks and uncertainties have the potential to affect our business, financial condition, results of operations, cash flows, strategies, or prospects in a material and adverse manner. At March 31, 2018, there have been no material changes to the risk factors set forth in our Annual Report on Form 10-K for the year ended December 31, 2017.
