NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

FOR THE THREE AND SIX MONTHS ENDED JUNE 30, 2012 AND 2013

1. DESCRIPTION OF BUSINESS AND ORGANIZATION

NeuStar, Inc. (the Company or Neustar) is a trusted provider of real-time information and analysis using proprietary and hard to replicate data sets. The Company's customers use its services for commercial insights that help them promote and protect their businesses. The Company combines proprietary, third party and customer data sets to develop unique algorithms, models, point solutions and complete work flow solutions. Among other things, chief marketing, security, information and operating officers use these real-time insights to identify who or what is at the other end of a transaction, the geographic-context of a transaction and the most appropriate response. The Company provides its services in a trusted and neutral manner. The Company's customers access its databases through standard connections, which the Company believes is the most efficient and cost effective way to exchange operationally essential data in a secured environment that does not favor any particular customer or technology. Today the Company primarily serves customers in the Internet, telecommunications, technology, financial services, retail, and media and advertising verticals.

The Company was founded to meet the technical and operational challenges of the communications industry when the U.S. government mandated local number portability in 1996. The Company provides the authoritative solution that the communications industry relies upon to meet this mandate. Since then, the Company has grown to offer a broad range of innovative services, including database services (telephone number databases, domain names, short-codes and fixed IP addresses), analytics platforms used for Internet security services, caller identification services, web performance monitoring services and real-time information and analytics services.

The Company provides the North American communications industry with real-time information that enables the dynamic routing of virtually all telephone calls and text messages among competing carriers in the United States and Canada. The Company's internet and eCommerce customers use its broad array of domain name systems (DNS) solutions to resolve internet queries in a timely manner and to protect their businesses from malicious attacks. The Company also provides a broad suite of solutions that allows its customers to generate marketing leads, offer more relevant services and improve client conversion rates.

The Company categorizes its services into three reportable segments:

Carrier Services. The Company's carrier services include numbering services, order management services and IP services. Through its set of unique databases and system infrastructure in geographically dispersed data centers, the Company manages the increasing complexity in the communications industry and ensures the seamless connection of its carrier customers' numerous networks, while also enhancing the capabilities and performance of their infrastructure. The Company operates the authoritative databases that manage virtually all telephone area codes and numbers, and enables the dynamic routing of calls and text messages among numerous competing carriers in the United States and Canada. All carriers that offer telecommunications services to the public at large in the United States and Canada must access a copy of the Company's unique database to properly route their customers' calls and text messages. The Company also facilitates order management and work-flow processing among carriers, and allows operators to manage and optimize the addressing and routing of IP communications.

Enterprise Services. The Company's enterprise services include Internet infrastructure services (IIS) and registry services. Through the Company's global directory platform, the Company provides a suite of DNS services to its enterprise customers. The Company manages a collection of directories that maintain addresses in order to direct, prioritize and manage Internet traffic, and to find and resolve Internet queries and top-level domains. The Company is the authoritative provider of essential registry services and manages directories of similar resources, or addresses, that its customers use for reliable, fair and secure access and connectivity. In addition, enterprise customers rely on the Company's services to monitor and load-test websites to help identify issues and optimize performance. The Company also provides fixed IP geolocation services that help enterprises identify the location of their online consumers for a variety of purposes, including fraud prevention and marketing. Additionally, the Company provides directory services for the 5- and 6-digit number strings used for all U.S. Common Short Codes, which is part of the short messaging

service relied upon by the U.S. wireless industry. The Company also operates the user authentication and rights management system, which supports the UltraViolet™ digital content locker that consumers can use to access to their entertainment content.

Information Services. The Company's information services include on-demand solutions that help carriers and enterprises identify, verify, evaluate and locate customers and prospective customers. The Company's authoritative databases and solutions enable its clients to return the caller name associated with the calling phone number and to make informed decisions in real time about consumer-initiated interactions on the Internet, over the telephone and at the point of sale, by correlating consumer identifier information with attributes such as demographics, buying behavior surveys and location. This allows the Company's customers to offer consumers more relevant services and products, and leads to higher client conversion rates. Using the Company's proprietary databases, the Company's online display advertising solution allows marketers to display, in real time, advertisements that will be most relevant to online consumers without the need for online behavioral tracking.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Unaudited Interim Financial Information

The accompanying unaudited consolidated financial statements have been prepared in accordance with U.S. generally accepted accounting principles (GAAP) for interim financial information and the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and notes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The results of operations for the six months ended June 30, 2013 are not necessarily indicative of the results that may be expected for the full fiscal year. The consolidated balance sheet as of December 31, 2012 has been derived from the audited consolidated financial statements at that date, but does not include all of the information and notes required by U.S. generally accepted accounting principles for complete financial statements. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes included in the Company's Annual Report on Form 10-K for the year ended December 31, 2012 (the 2012 Form 10-K) filed with the Securities and Exchange Commission.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expense during the reporting periods. Significant estimates and assumptions are inherent in the analysis and the measurement of deferred tax assets; the identification and quantification of income tax liabilities due to uncertain tax positions; recoverability of intangible assets, other long-lived assets and goodwill; and the determination of the allowance for doubtful accounts. The Company bases its estimates on historical experience and assumptions that it believes are reasonable. Actual results could differ from those estimates.

Fair Value of Financial Instruments

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) Topic Financial Instruments requires disclosures of fair value information about financial instruments, whether or not recognized in the balance sheet, for which it is practicable to estimate that value. Due to their short-term nature, the carrying amounts reported in the accompanying unaudited consolidated financial statements approximate the fair value for cash and cash equivalents, accounts receivable, accounts payable and accrued expenses. The Company determines the fair value of its investments using third-party pricing sources, which primarily use a consensus price or weighted average price for the fair value assessment. The consensus price is determined by using matrix prices from a variety of industry standard pricing services, data providers, large financial institutions and other third party sources and utilizing those matrix prices as inputs into a distribution-curve-based algorithm to determine the estimated market value. Matrix prices are based on quoted prices for securities with similar terms (i.e., coupon rate, maturity, credit rating) (see Note 4). The Company believes the carrying value of its notes receivable approximates fair value as the interest rate approximates a market rate. The Company believes the carrying value of its 2013 Term Facility approximates the fair value of the debt as the terms and interest rates approximate market rates (see Note 6). The

Company determines the fair value of its Senior Notes using a secondary market price on the last trading day in each period provided by Bloomberg (see Note 6).

Recent Accounting Pronouncements

In February 2013, the FASB issued ASU 2013-02, Comprehensive Income (Topic 220) — Reporting of Amounts Reclassified Out of Accumulated Other Comprehensive Income. This update requires the presentation, either in a single note or parenthetically on the face of the financial statements, of the effect of significant amounts reclassified from each component of accumulated other comprehensive income based on its source and the income statement line items affected by the reclassification. This ASU is effective prospectively for the Company for annual and interim periods beginning January 1, 2013. The adoption of the amended accounting guidance in the first quarter of 2013 impacted the Company's presentation of other comprehensive income and did not have an impact on the Company's consolidated results of operations.

4. FAIR VALUE MEASUREMENTS

Fair value is the price that would be received in the sale of an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Fair Value Measurements and Disclosure Topic of FASB ASC establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value and requires that assets and liabilities carried at fair value be classified and disclosed in one of the following three categories:

Level 1. Observable inputs, such as quoted prices in active markets;

Level 2. Inputs, other than quoted prices in active markets, that are observable either directly or indirectly; and

Level 3. Unobservable inputs for which there is little or no market data, which require the reporting entity to develop its own assumptions.

The Company evaluates assets and liabilities subject to fair value measurements on a recurring and non-recurring basis to determine the appropriate level at which to classify them for each reporting period. This determination requires the Company to make significant judgments.

The Company determines the fair value of its investments using third-party pricing sources, which primarily use a consensus price or weighted average price for the fair value assessment. The consensus price is determined by using matrix prices from a variety of industry standard pricing services, data providers, large financial institutions and other third party sources and utilizing those multiple prices as inputs into a distribution-curve-based algorithm to determine the estimated market value. Matrix prices are based on quoted prices for securities with similar terms (i.e., coupon rate, maturity, credit rating). The Company corroborates consensus prices provided by third party pricing sources using reported trade activity, benchmark yield curves, binding broker/dealer quotes or other relevant price information.

The following table sets forth, as of December 31, 2012 and June 30, 2013, the Company's financial and non-financial assets and liabilities that are measured at fair value on a recurring basis, by level within the fair value hierarchy (in thousands):

Senior Notes to repay its outstanding principal borrowings of \$592.5 million under the 2011 Term Facility. The Company used available borrowings under the 2013 Revolving Facility for outstanding letters of credit totaling \$7.8 million that were previously secured by the 2011 Revolving Facility. The 2011 Credit Facilities were terminated in connection with this refinancing event.

Certain investors of the 2011 Credit Facilities either did not invest in the 2013 Credit Facilities or Senior Notes or the change in the present value of future cash flows between the investments was greater than 10%. Accordingly, the Company accounted for this refinancing event for these investors as a debt extinguishment. In applying debt modification accounting, during the three months ended March 31, 2013, the Company recorded \$25.8 million in loan origination fees and deferred financing costs, of which \$16.9 million related to investors that reinvested in either or both of the 2013 Credit Facilities and Senior Notes. The 2013 Revolving Facility and 2013 Term Facility mature on January 22, 2018. participant is eligible to earn up to 150% of one-third of the award with respect to each annual performance period, subject to the achievement of the respective performance goals for each one-year performance period. The performance goal for the performance period from January 1, 2013 through December 31, 2013 will be based on: (i) Non-NPAC Revenue, (ii) Total Revenue, and (iii) Adjusted Net Income. The performance goals for the future one-year performance periods will consist of financial measures, weights and payouts to be established no later than 90 days after the beginning of each such period.

Subject to each participant's continued service and to certain other terms and conditions, the portion of the award, if any, earned will vest on March 1 in the year following the respective annual performance period. Compensation expense related to these awards is recognized over the requisite service period based on the Company's estimate of the achievement of the performance target and the length of the vesting period.

Non-Vested PVRSU Activity

The fair value of a PVRSU is measured by reference to the closing market price of the Company's common stock on the date of the grant. Compensation expense is recognized on a straight-line basis over the requisite service period based on the number of PVRSUs expected to vest. As of June 30, 2013, the level of achievement of the performance target awards for PVRSUs granted during 2011, 2012 and 2013 was 134%, 129.5% and 100%, respectively.

The following table summarizes the Company's non-vested PVRSU activity for the six months ended June 30, 2013:

| | Shares | Weighted-Average Grant Date Fair Value | Aggregate Intrinsic Value (in millions) |
|-------------------------------------|-----------|----------------------------------------|-----------------------------------------|
| Non-vested December 31, 2012 | 971,023 | \$31.72 | |
| Granted | 712,228 | 44.20 | |

| Non-vested June 30, 2013 | 1,541,817 | \$38.51 | \$75.1 |

⁽¹⁾ Incremental achieved represents the additional awards in excess of the target grant resulting from the achievement of performance goals at levels above the performance targets established at the grant date.

The total aggregate intrinsic value of PVRSUs vested during the six months ended June 30, 2013 was approximately \$6.7 million. The Company repurchased 60,075 shares of common stock for an aggregate purchase price of \$2.5 million pursuant to the participants' rights under the Plans to elect to use common stock to satisfy their tax withholding obligations.

Employee Stock Purchase Plan

The Company estimated the fair value of stock-based compensation expense associated with its ESPP using the Black-Scholes option pricing model, with the following assumptions:

| | Three and Six Months Ended June 30, 2013 | |
|-------------------------------------------------------------------|---------------------------------------------------|---|
| Dividend yield | — | % |
| Expected volatility | 24.05 | % |
| Risk-free interest rate | 0.08 | % |
| Expected life of employee stock purchase plan options (in months) | 6 | |

Dividend yield - The Company has never declared or paid dividends on its common stock and does not anticipate paying dividends in the foreseeable future.

Expected volatility - Volatility is a measure of the amount by which a financial variable such as a share price has fluctuated (historical volatility) or is expected to fluctuate (expected volatility) during a period. The Company considered the historical volatility of its stock price over a term similar to the expected life of the ESPP options.

Risk-free interest rate - The risk-free interest rate is based on U.S. Treasury bonds issued with similar life terms to the expected life of the ESPP options.

Expected life of ESPP options - The expected life of ESPP options was based on the six-month purchase period.

Share Repurchase Program

Under the 2010 share repurchase program, during the three and six months ended June 30, 2013, the Company purchased 0.3 million and 0.8 million shares, respectively, of its Class A common stock at an average price of \$43.47 and \$44.09 per share, respectively, for a total purchase price of \$11.0 million and \$35.4 million, respectively. As of June 30, 2013, a total of 8.0 million shares at an average price of \$31.07 per share had been purchased under the 2010 share repurchase program for an aggregate purchase price of \$248.1 million. All purchased shares are accounted for as treasury shares.

On May 2, 2013, the Company announced that its Board of Directors authorized a \$250 million share repurchase program, commencing in the second quarter of 2013 and expiring on December 31, 2013. This program replaced the 2010 share repurchase program. Under the 2013 share repurchase program, during the three months ended June 30, 2013, the Company purchased 1.2 million shares of its Class A common stock at an average price of \$47.84 per share for a total purchase price of \$58.3 million. All purchased shares are accounted for as treasury shares.

Stock-based awards to purchase an aggregate of 1,966,487 and 52,071 shares were excluded from the calculation of the denominator for diluted net income per common share for the three months ended June 30, 2012 and 2013, respectively, due to their anti-dilutive effects. Stock-based awards to purchase an aggregate of 1,617,941 and 49,220 shares were excluded from the calculation of the denominator for diluted net income per common share for the six months ended June 30, 2012 and 2013, respectively, due to their anti-dilutive effects.

11. INCOME TAXES

The Company's effective tax rate decreased to 37.0% for the six months ended June 30, 2013 from 37.7% for the six months ended June 30, 2012 primarily due to benefits from federal research tax credits and a domestic production activities deduction. The reduction in the Company's effective tax rate was partially offset by a discrete benefit for foreign tax credits recorded in the second quarter of 2012.

As of December 31, 2012 and June 30, 2013, the Company had unrecognized tax benefits of \$4.4 million and \$5.4 million, respectively, of which \$4.1 million and \$5.1 million, respectively, would affect the Company's effective tax rate if recognized.

The Company recognizes interest and penalties related to uncertain tax positions in income tax expense. During the three months ended June 30, 2012 and 2013, the Company recognized potential interest and penalties of \$39,000 and \$23,000, respectively, and \$90,000 and \$42,000 for the six months ended June 30, 2012 and 2013, respectively. As of December 31, 2012 and June 30, 2013, the Company had established reserves of approximately \$194,000 and \$236,000, respectively, for accrued potential interest and penalties related to uncertain tax positions. To the extent interest and penalties are not assessed with respect to uncertain tax positions, amounts accrued will be reduced and reflected as a reduction of the overall income tax provision.

The Company files income tax returns in the United States Federal jurisdiction and in many state and foreign jurisdictions. The tax years 2007 through 2011 remain open to examination by the major taxing jurisdictions to which the Company is subject. The IRS has initiated an examination of the Company's 2009 federal income tax return. While the ultimate outcome of the audit is uncertain, management does not currently believe that the outcome will have a material adverse effect on the Company's financial position, results of operations or cash flows.

The Company anticipates that total unrecognized tax benefits will decrease by approximately \$121,000 over the next 12 months due to the expiration of certain statutes of limitations and settlement of tax audits.

12. SEGMENT INFORMATION

The Company has three operating segments, reflective of the manner in which the chief operating decision maker (CODM) allocates resources and assesses performance: Carrier Services, Enterprise Services, and Information Services. The Company's operating segments are the same as its reportable segments.

The Company's Carrier Services operating segment provides services that ensure the seamless connection of its carrier customers' numerous networks, while also enhancing the capabilities and performance of their customer's infrastructure. The

The Company's services monitor and load-test websites to help identify issues and optimize performance. In addition, the Company provides fixed IP geolocation services that help enterprises identify the location of their consumers used in a variety of purposes, including fraud prevention and marketing. Additionally, the Company provides directory services for the 5- and 6-digit number strings used for all U.S. Common Short Codes, which is part of the short messaging service relied upon by the U.S. wireless industry.

The Company's Information Services segment provides a broad portfolio of real-time information and analytics services that enable clients to identify, verify and score their customers and prospective customers, or prospects, to deliver customized responses to a large number of consumer-initiated queries. As an example, the Company provides marketers with the ability to tailor offers made to consumers over the telephone or on the Internet in real time. The Company is one of the largest non-carrier providers of Caller ID services, and provides a comprehensive market analytics platform that enables clients to segment and score customers and prospects for real-time interactive marketing initiatives. The Company's online audience solution enables online advertisers to display relevant advertisements to specific audiences, increasing the effectiveness of online advertising and delivering a more useful online experience for consumers using a database and targeting system that protect a consumer's privacy.

The Company reports segment information based on the "management" approach which relies on the internal performance measures used by the CODM to assess the performance of each operating segment in a given period. In connection with that assessment, the CODM reviews revenues and segment contribution, which excludes certain unallocated costs within the following expense classifications: cost of revenue, sales and marketing, research and development and general and administrative. Depreciation and amortization and restructuring charges are also excluded from segment contribution.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

Forward-Looking Statements

This quarterly report on Form 10-Q contains forward-looking statements, including, without limitation, statements concerning the conditions in our industry, our operations and economic performance, and our business and growth strategy. In some cases, you can identify forward-looking statements by terminology such as "may," "will," "should," "expects," "intends," "plans," "anticipates," "believes," "estimates," "predicts," "potential," "continue" or the negative of these other comparable terminology. These statements relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Many of these risks are beyond our ability to control or predict. These forward-looking statements are based on estimates and assumptions by our management that we believe to be reasonable but are inherently uncertain and subject to a number of risks and uncertainties. These risks and uncertainties include, without limitation, those described in this report, in Part II, "Item 1A. Risk Factors" and in subsequent filings with the Securities and Exchange Commission. We undertake no obligation to publicly update or revise any forward-looking statement as a result of new information, future events or otherwise, except as required by law.

Overview

During the second quarter, we continued to experience increased demand for our services. Revenue increased 7% to \$220.4 million as compared to \$206.5 million in the second quarter of 2012. Of this increase, our Carrier Services segment contributed 4%, while our Enterprise Services contributed 1% and Information Services contributed 2%. Within our Carrier Services segment, growth in revenue was driven by a contractual increase of 6.5% in the fixed fee under our contracts to provide number portability services.

Further, we continued to execute our capital allocation strategy of returning cash to shareholders through share repurchases. On May 7, 2013, we commenced a \$250 million share repurchase program, or the 2013 share repurchase program. This program replaced our 2010 share repurchase program. During the second quarter of 2013, we purchased 1.2 million shares of our Class A common stock under the 2013 share repurchase program at an average price of \$47.84 per share for a total price of \$58.3 million. During the second quarter, we purchased a total of 1.5 million shares of our class A common stock under both the 2013 and 2010 repurchase programs at an average price of \$47.09 per share for a total price of \$69.3 million.

On April 5, 2013, we submitted our response to the NAPM's Request for Proposal, or RFP, for the selection of the next local number portability administrator in accordance with the RFP submission requirements and timeline. On July 23, 2013, the NAPM updated its selection timeline for a decision to be made in January 2014. We remain confident in the strength of our response to the NAPM's RFP, and we continue to believe that the high quality of our services provides us the best opportunity to remain the NPAC administrator of local number portability for the communications industry.

Critical Accounting Policies and Estimates

The discussion and analysis of our financial condition and results of operations are based on our unaudited consolidated financial statements, which have been prepared in accordance with U.S. generally accepted accounting principles, or U.S. GAAP. The preparation of these financial statements in accordance with U.S. GAAP requires us to utilize accounting policies and make certain estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingencies as of the date of the financial statements and the reported amounts of revenue and expense during a fiscal period. The Securities and Exchange Commission, or SEC, considers an accounting policy to be critical if it is important to a company's financial condition and results of operations, and if it requires significant judgment and estimates on the part of management in its application. We have discussed the selection and development of the critical accounting policies with the audit committee of our Board of Directors, and the audit committee has reviewed our related disclosures in this report.

Although we believe that our judgments and estimates are appropriate and reasonable, actual results may differ from those estimates. In addition, while we have used our best estimates based on the facts and circumstances available to us at the time, we reasonably could have used different estimates in the current period. Changes in the accounting

estimates we use are reasonably likely to occur from period to period, which may have a material impact on the presentation of our financial condition and results of operations. If actual results or events differ materially from those contemplated by us in making these estimates, our reported financial condition and results of operations could be materially affected. See the information in our filings with the SEC from time to time, including Part I, "Item 1A. Risk Factors" in our Annual Report on Form 10-K for the year ended December 31, 2012, for certain matters that may bear on our results of operations.

Table of Contents

The following discussion of selected critical accounting policies supplements the information relating to our critical accounting policies described in Part II, “Item 7. Management’s Discussion and Analysis of Financial Condition and Results of Operations – Critical Accounting Policies and Estimates” in our Annual Report on Form 10-K for the year ended December 31, 2012.

Stock-Based Compensation

We recognize stock-based compensation expense in accordance with the Compensation – Stock Compensation Topic of the FASB ASC which requires the measurement and recognition of compensation expense for stock-based awards granted to employees based on estimated fair values on the date of grant.

See Note 7 to our Unaudited Consolidated Financial Statements in Item 1 of Part I of this report for information regarding our assumptions related to stock-based compensation and the amount of stock-based compensation expense we incurred for the periods covered in this report.

We estimate the fair value of our restricted stock unit awards based on the fair value of our common stock on the date of grant. Our outstanding restricted stock unit awards are subject to service-based vesting conditions and performance-based vesting conditions. We recognize the estimated fair value of service-based awards, net of estimated forfeitures, as stock-based compensation expense over the vesting period on a straight-line basis. Awards with performance-based vesting conditions require the achievement of specific financial targets at the end of the specified performance period and the employee’s continued employment over the vesting period. We recognize the estimated fair value of performance-based awards, net of estimated forfeitures, as stock-based compensation expense over the vesting period, which considers each performance period or tranche separately, based upon our determination of whether it is probable that the performance targets will be achieved. At each reporting period, we reassess the probability of achieving the performance targets within the related performance period. Determining whether the performance targets will be achieved involves judgment, and the estimate of stock-based compensation expense may be revised periodically based on changes in the probability of achieving the performance targets. If any performance goals specific to the restricted stock unit awards are not met, no compensation cost ultimately is recognized for such awards, and to the extent previously recognized, compensation cost is reversed. As of June 30, 2013, we estimated that the level of achievement of the performance targets for performance vested restricted stock units granted during 2013 was 100%.

Our principal source of liquidity is cash provided by operating activities. Our principal uses of cash have been to fund share repurchases, capital expenditures, and debt service requirements. We anticipate that our principal uses of cash in the future will be for share repurchases, capital expenditures, debt service requirements and acquisitions.

Total cash, cash equivalents and investments were \$381.6 million at June 30, 2013, an increase of \$37.7 million from \$343.9 million at December 31, 2012. This increase in cash, cash equivalents and investments was primarily due to cash provided by operations.

We believe that our existing cash and cash equivalents, short-term investments, and cash from operations will be sufficient to fund our operations for the next twelve months.

Credit Facilities

On January 22, 2013, we entered into a credit facility that provided for a \$325 million senior secured term loan facility, or 2013 Term Facility, and a \$200 million senior secured revolving credit facility, or the 2013 Revolving Facility, and together with the 2013 Term Facility, the 2013 Credit Facilities. In addition, we closed an offering of \$300 million aggregate principal amount of senior notes, or Senior Notes. We used the proceeds received from the 2013 Term Facility and Senior Notes to repay our outstanding principal borrowings of \$592.5 million under our existing 2011 Term Facility. We used available borrowings under the new 2013 Revolving Facility for outstanding letters of credit totaling \$7.8 million that were previously secured by our 2011 Revolving Facility. Our 2011 Term Facility and 2011 Revolving Facility were terminated in connection with this refinancing event. For further discussion of this debt refinancing, see Note 6 to our Consolidated Financial Statements in Item 1 of Part I of this report.

2013 Credit Facilities

The 2013 Credit Facilities include: (1) the 2013 Term Facility; (2) the 2013 Revolving Facility, of which (a) \$100 million is available for the issuance of letters of credit and (b) \$25 million is available as a swingline subfacility; and (3) incremental term loan facilities in an amount such that after giving effect to the incurrence of any such incremental loans, either (a) the aggregate amount of incremental loans does not exceed \$400 million or (b) the Consolidated Secured Leverage Ratio on a pro forma basis after giving effect to any such increase would not exceed 2.50 to 1.00. The 2013 Revolving Facility and 2013 Term Facility mature on January 22, 2018. As of June 30, 2013, we had not borrowed any amounts under the 2013 Revolving Facility and available borrowings were \$192.2 million, exclusive of outstanding letters of credit totaling \$7.8 million.

Principal payments under the 2013 Term Facility of \$2.0 million are due on the last day of the quarter beginning on March 31, 2013 and ending on December 31, 2017. The remaining 2013 Term Facility principal balance of \$284.4 million is due in full on January 22, 2018, subject to early mandatory prepayments.

The loans outstanding under the 2013 Credit Facilities (Loans) bear interest, at our option, either: (1) at the base rate, which is defined as the highest of (a) the federal funds rate plus 0.50%, (b) the interest rate published by the Wall Street Journal from time to time as the "U.S. Prime Rate" and (c) the adjusted LIBOR rate for a one-month interest period beginning on such day plus 1.00%; or (2) at the LIBOR rate plus, in each case, an applicable margin. The applicable margin is (1) if the Consolidated Leverage Ratio is less than 2.00:1.00, 0.50% per annum for borrowings based on the base rate and 1.50% per annum for borrowings based on the LIBOR rate, or (2) if the Consolidated Leverage Ratio is 2.00:1.00 or greater, 0.75% per annum for borrowings based on the base rate and 1.75% per annum borrowings based on the LIBOR rate. The accrued interest under the 2013 Term Facility is payable quarterly beginning on March 31, 2013. As of June 30, 2013, accrued interest under the 2013 Credit Facilities was \$0.1 million. We may voluntarily prepay the Loans at any time in minimum amounts of \$1 million or an integral multiple of \$500,000 in excess thereof. The 2013 Credit Facilities provide for mandatory prepayments with the net cash proceeds of certain debt issuances, insurance receipts, and dispositions. The 2013 Term Facility also contains certain events of default, upon the occurrence of which, and so long as such event of default is continuing, the amounts outstanding

may, at the option of the required lenders, accrue interest at an increased rate and payments of such outstanding amounts could be accelerated, or other remedies undertaken.

Table of Contents

As of June 30, 2013, deferred financing costs and loan origination fees related to the 2013 Credit Facilities was \$9.4 million. Total amortization expense of the deferred financing costs and loan origination fees was \$0.5 million and \$0.9 million for the three and six months ended June 30, 2013, respectively, and was reported as interest expense in the consolidated statements of operations.

Senior Notes

On January 22, 2013, we closed an offering of \$300 million aggregate principal amount of 4.50% senior notes due 2023 to qualified institutional buyers pursuant to Rule 144A, and outside of the United States pursuant to Regulation S, under the Securities Act of 1933, as amended. The Senior Notes were issued pursuant to an indenture, dated as of January 22, 2013, among us, certain of our domestic subsidiaries, or the Subsidiary Guarantors, and The Bank of New York Mellon Trust Company, N.A., as trustee, or the Indenture. The Senior Notes are the general unsecured senior obligations of us and are guaranteed on a senior unsecured basis by the Subsidiary Guarantors.

Interest is payable on the Senior Notes semi-annually in arrears at an annual rate of 4.50%, on January 15 and July 15 of each year, beginning on July 15, 2013. The Senior Notes will mature on January 15, 2023. Interest accrues from January 22, 2013. As of June 30, 2013, accrued interest under the Senior Notes was \$5.9 million.

At any time and from time to time prior to July 15, 2016, we may redeem up to a maximum of 35% of the original aggregate principal amount of the Senior Notes with the proceeds of certain equity offerings, at a redemption price equal to 104.50% of the principal amount thereof, plus accrued and unpaid interest thereon, if any, to the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date); provided that: (1) at least 65% of the original aggregate principal amount of the Senior Notes remains outstanding; and (2) the redemption occurs within 90 days of the completion of such equity offering upon not less than 30 nor more than 60 days prior notice.

After July 15, 2016 and prior to January 15, 2018, we may redeem some or all of the Senior Notes by paying a “make-whole” premium based on U.S. Treasury rates. During the 12-month period commencing on January 15 of the relevant year listed below, we may redeem some or all of the Senior Notes at the prices listed below, plus accrued and unpaid interest, if any, to, but not including, the redemption date (subject to the right of holders of record on the relevant record date to receive interest due on the relevant interest payment date): 2018 at a redemption price of 102.25%; 2019 at a redemption price of 101.50%; 2020 at a redemption price of 100.75%; and 2021 and thereafter at a redemption price of 100.00%. If we experience certain changes of control together with a ratings downgrade, we will be required to offer to purchase all of the Senior Notes then outstanding at a purchase price equal to 101.00% of the principal amount thereof, plus accrued and unpaid interest, if any, to, the date of purchase. If we sell certain assets and do not repay certain debt or reinvest the proceeds of such sales within certain time periods, we will be required to offer to repurchase the Senior Notes with such proceeds at 100.00% of their principal amount, plus accrued and unpaid interest, if any, to the date of purchase.

The Senior Notes contain customary events of default, including among other things, payment default, failure to provide certain notices and defaults related to bankruptcy events. The Senior Notes also contain customary negative covenants.

As of June 30, 2013, deferred financing costs related to the Senior Notes was \$14.9 million. Total amortization expense of the deferred financing costs was \$0.3 million and \$0.5 million for the three and six months ended June 30, 2013, respectively, and is reported as interest expense in the consolidated statements of operations.

Discussion of Cash Flows**Cash flows from operations**

Net cash provided by operating activities for the six months ended June 30, 2013 was \$134.8 million, as compared to \$141.6 million for the six months ended June 30, 2012. This \$6.8 million decrease in net cash provided by operating activities was the result of an increase in non-cash adjustments of \$22.4 million, partially offset by a decrease in net changes in operating assets and liabilities of \$33.8 million.

Non-cash adjustments increased \$22.4 million driven by a loss on debt modification and extinguishment of \$10.9 million recorded in the first quarter of 2013 related to our debt refinancing, an increase of \$7.1 million in stock-based compensation, an increase of \$3.9 million in depreciation and amortization expense, and an increase of \$3.4 million in excess tax benefits from stock option exercises. These increases in non-cash adjustments were partially offset by a

decrease of \$3.3 million in deferred income taxes.

Net changes in operating assets and liabilities decreased \$33.8 million primarily due to a decrease of \$40.2 million in income taxes receivable, a decrease of \$14.6 million in prepaid expenses and other current assets, and a decrease of

\$7.3 million in deferred revenue. These decreases in net changes in operating assets and liabilities were partially offset by an increase of \$11.2 million in accounts and unbilled receivables, an increase of \$10.0 million in accounts payable and accrued expenses, an increase of \$5.0 million in other liabilities, and an increase of \$2.3 million in income taxes payable.

Cash flows from investing

Net cash used in investing activities for the six months ended June 30, 2013 was \$31.3 million, as compared to \$22.1 million for six months ended June 30, 2012. This \$9.2 million increase in net cash used in investing activities was due to an increase of \$8.5 million in cash used for the acquisition of certain assets of a service order administrative business.

Cash flows from financing

Net cash used in financing activities was \$63.5 million for the six months ended June 30, 2013, as compared to \$16.8 million for the six months ended June 30, 2012. This \$46.7 million increase in net cash used in financing activities was primarily due to an increase of \$40.4 million in cash used for the purchase of our Class A common stock under our share repurchase programs, a decrease of \$25.5 million in proceeds from the exercise of stock options, cash used of \$11.4 million for debt issuance costs attributable to our debt refinancing completed in the first quarter of 2012, and a decrease of \$3.4 million in excess tax benefits from stock-based compensation. These increases in cash used were partially offset by net proceeds of \$31.7 million attributable to our debt refinancing, and a decrease of \$2.7 million in cash used for the purchase of restricted stock awards attributable to participants' electing to use stock to satisfy their tax withholdings.
