**Board of Directors informs on public tender offer**

**Lisbon, Portugal, 7 February 2006** The Board of Directors met today to review the terms of the preliminary tender offer announcement, which was unsolicited and hence hostile, over Portugal Telecom (PT), the largest Portuguese economic group.

Following the information on the preliminary announcement, PT's Board considers that the offer:

- does not outline a strategy or long term vision for the PT Group, today with approximately 40 million customers and 30 thousand employees in 14 countries around the world;
- implies a high degree of uncertainty, given the significant anti-trust and regulatory restrictions, for which no solutions are laid out in the terms of the preliminary announcement;
- does not provide details on the funding of the offer, which as a result of its financing through a highly leveraged structure may imply the dismantling of the PT Group;
- limits, or seeks to limit, PT's management flexibility, well in excess of what is determined under Portuguese law, in a highly competitive and dynamic sector, which demands a high level of investment.

The Board of Directors is of the opinion that the current and future value of PT is considerably higher than the offer price, and will inform the company's shareholders of its formal response once a formal offer document has been posted. In the meantime, shareholders are strongly advised to wait for the Board's recommendations to be issued in due course.
