NOTES TO THE QUARTERLY INFORMATION AS OF 06/30/2006

(In thousands of Brazilian reais)

1. OPERATIONS

BRASIL TELECOM S.A. (the Company) is a concessionaire of the Switched Fixed Telephone Service (STFC) and operates in Region II of the General Concession Plan, covering the Brazilian states of Acre, Rondônia, Mato Grosso, Mato Grosso do Sul, Tocantins, Goiás, Paraná, Santa Catarina and Rio Grande do Sul, besides the Federal District. In this area of 2,859,375 square kilometers, which corresponds to 34% of the Brazilian territory, the Company renders since July 1998 the STFC in the modalities of local and intra-regional long distances.

With recognition of the prior fulfillment of the obligations for universalization stated in the General Plan of Universalization Goals (PGMU), required for December 31, 2003, the Company obtained from the National Agency for Telecommunications (ANATEL), on January 19, 2004, issued authorizations for the Company to exploit STFC in the following service modalities: (i) Local and Domestic Long Distance calls in Regions I and III and Sectors 20, 22 and 25 of Region II of the General Concession Plan (PGO); and (ii) International Long Distance calls in Regions I, II and III of PGO. As a result of these authorizations, the Company began to exploit the Domestic and International Long Distance Services in the Regions I, II and III, starting on January 22, 2004. In the case of the Local Service in the new regions and PGO sectors, the service began to be rendered as from January 19, 2005.

The Company s business, as well as the rendered services and the charged fees are regulated by ANATEL.

New concession agreements under the modalities of local and long distance services came into force as of January 1, 2006, effective until December 31, 2025. Additional information about these agreements is mentioned in Note 5.i.

Information related to the quality and universal service targets of the Switched Fixed Telephone Service are available to interested parties on ANATEL s homepage, in the website *www.anatel.gov.br*.

The Company is a subsidiary of Brasil Telecom Participações S.A. (BTP), incorporated on May 22, 1998 as a result of the privatization of the Telebrás Group.

The Company is registered at the Brazilian Securities and Exchange Commission (CVM) and at the U.S. Securities and Exchange Commission (SEC). Its shares are traded on the São Paulo Stock Exchange (BOVESPA), where it also integrates level 1 of Corporate Governance, and trades its American Depositary Receipts - ADRs on the New York

Stock Exchange (NYSE).

Subsidiaries

c) MTH Ventures do Brasil Ltda. (MTH): The Company holds 100% of the capital of MTH, a holding company which has 100% of the capital of Brasil Telecom Comunicação Multimídia Ltda. (BrT Multimídia).

BrT Multimídia is a service provider of private telecommunications network through optical fiber digital networks, of local scope in São Paulo, Rio de Janeiro and Belo Horizonte, and long distance network connecting these major metropolitan commercial centers. It also has an Internet solution center in São Paulo, which offers co-location, hosting and other value-added services.

d) Vant Telecomunicações S.A. (VANT): Corporation that the Company acquires the total capital stock. VANT aims the rendering of telecommunication services in general, especially multimedia communication services, execution of works, assemblies and installations in public and private environments referring to the implementation, operation and maintenance of networks and telecommunications systems, acquisition and onerous assignment of capabilities and means and other necessary supplementary activities, operating throughout Brazil, and is present in the main Brazilian state capitals.

e) Other Service Provider Companies

The Company is the holder of 100% of the capital stock of the companies Santa Bárbara dos Pampas S.A., Santa Bárbara dos Pinhais S.A., Santa Bárbara do Cerrado S.A. and Santa Bárbara do Pantanal S.A. These companies, which were not operating on the quarter closing date, aim at rendering services in general comprising, among others, the management activities of real states or assets.

Change in the Management

On July 27, 2005, the Extraordinary Shareholders Meeting dismissed from office the members of Brasil Telecom Participações S.A.'s Board of Directors connected with former manager Opportunity. At Board of Directors Meeting held on August 25, 2005, a new Board of Executive Officers was elected, and the Technical Officer was maintained in his position.

At the Extraordinary Shareholders Meeting held on September 30, 2005, the Board of Directors members of the Company were dismissed from office and new members were elected. On the same date, the Board of Directors Meeting resolved to dismiss the Chairman and to elect new members for the Board of Executive Officers, and the Network Officer was reelected. Such resolutions were ratified by the Board of Directors of the Company in meeting held on October 5, 2005.

The process to change the management of Brasil Telecom Participações S.A. and of the Company was litigious, according to various material facts published by the Company during 2005 and various lawsuits brought by the former manager, aiming at recovering the management of the Companies, which are still under progress.

Agreements as of April 28, 2005 under the Previous Management

On April 28, 2005, still under previous management, Brasil Telecom Participações S.A. and Brasil Telecom S.A. entered into various agreements involving the Opportunity Group and Telecom Italia (April 28 Agreements).

Among such agreements, Brasil Telecom S.A. and its subsidiary 14 Brasil Telecom Celular S.A. (BTC) executed with TIM International N.V. (TIMI) and TIM Brasil Serviços e Participações S.A. (TIMB) an instrument named as Merger Agreement and a Protocol related thereto.

As mentioned in material facts published, the merger was forbidden by injunctions issued by the Brazilian and U.S. courts. It is also subject-matter of discussion under arbitration involving the controlling shareholders.

The current management of Brasil Telecom Participações S.A. and of the Company understands that the Merger Agreement, the respective Protocol, and other April 28 agreements, which included the waiver and transaction in lawsuits involving the Companies, were entered into with conflict of interests, breaching the laws and the Bylaws of the Companies, and also, in opposition to shareholders' agreements and without the necessary corporate approvals. In addition, the actual management deems that such agreements are contrary to the best interest of the Companies, especially regarding its mobile telephony business.

TIMI and TIMB sent to the Company and to Brt Celular a correspondence dated as of May 2, 2006, terminating unilaterally the referred Merger Agreement, reserving supposed rights.

2. PRESENTATION OF FINANCIAL STATEMENTS

Preparation Criteria

The financial statements have been prepared in accordance with accounting practices adopted in Brazil, in compliance with the Brazilian corporate law, rules of the Brazilian Securities and Exchange Commission (CVM) and rules applicable to telephony service concessionaires.

As the Company is registered with the SEC, it is subject to SEC's standards, and it must prepare financial statements and other information by using criteria that comply with that agency's requirements. To comply with these requirements and aiming at meeting the market's information needs, the Company adopts, as a principle, the disclosure of information in both markets in their respective languages.

The notes to the financial statements are presented in thousands of reais, unless otherwise demonstrated. According to each situation, they present information related to the Company and the consolidated statements, identified as PARENT COMPANY and CONSOLIDATED, respectively. When the information is common to both situations, it is indicated as PARENT COMPANY AND CONSOLIDATED.

In compliance with the Resolution 489/05, of CVM, as from 2006 the amounts of judicial deposits linked to the provisions for contingencies are presented in a deductive way from the liabilities established. Aiming at providing a better comparison between the data presented in the quarterly information, an identical reclassification of balances belonging to 2005 was promoted, as well as of the amounts referring to the cash flow.

The accounting estimates were based on objective and subjective factors, based on management's judgment to determine the appropriate amount to be recorded in the financial statements. Significant elements subject to these estimates and assumptions include the residual amount of the fixed assets, allowance for doubtful accounts, inventories and deferred income tax and social contribution, provision for contingencies, valuation of derivative instruments, and assets and liabilities related to benefits to employees. The settlement of transactions involving these estimates may result in significantly different amounts due to the inaccuracy inherent to the process of determining these amounts. Management reviews its estimates and assumptions at least quarterly.

Consolidated Financial Statements

The consolidation was made in accordance with CVM Instruction 247/96 and includes the Company and the companies listed in Note 1.

Some of the main consolidation procedures are:

- Elimination of balances of the asset and liability accounts among the consolidated companies, as well as revenue and expenses of transactions among them;
- Elimination of the balances of the investment accounts and corresponding investor's shareholdings, reserves and accumulated results in the consolidated companies; and
- Segregation of the portions of shareholders' equity and income belonging to minority shareholders, indicated in specific items.

Supplementary Information

The Company is presenting as supplementary information the statements of cash flows, which were prepared in accordance with Accounting Rules and Procedures - NPC 20 of the Brazilian Institute of Independent Auditors - IBRACON. The statement of cash flow is shown together with Note 17.

Report per Segment

The Company is presenting, supplementary to note 43, the report per business segment. A segment is an identifiable component of the company, intended for service rendering (business segment), or provision of products and services which are subject to risks and compensations which are different from those of other segments.

3. SUMMARY OF SIGNIFICANT ACCOUNTING PRACTICES

The criteria mentioned in this note refer to the practices adopted by the Company and its subsidiaries that are included in the consolidated balance sheet.

a. Cash and Cash Equivalents: Cash equivalents are temporary high-liquid investments, with immediate maturity. They are recorded at cost, plus income registered until the closing dates of the quarters, and do not exceed market value. Investment funds quotas are appreciated considering the quota values on June 30, 2006.

b. Trade Accounts Receivable: Receivables from users of telecommunications services are recorded at the amount of the fee or the service on the date the service is rendered. Accounts receivable from services include credits for services rendered and not billed until the closing dates of the quarters. Receivables resulting from sales of cell phones and accessories are recorded by the amount of sales made, at the moment in which the goods are delivered and accepted by the customer. The criterion adopted for making the allowance for doubtful accounts takes into account the calculation of the actual percentage of losses incurred on each range of accounts receivable. The historic percentages are applied to the current ranges of accounts receivable, also including accounts coming due and the portion of services rendered yet to be billed, thus composing the amount that could become a future loss, which is recorded as a provision.

c. Material Inventories: Stated at average acquisition cost, not exceeding replacement cost. Inventories are segregated into inventories for plant expansion and those for maintenance and in relation to consolidated statements, goods inventories for resale, mainly composed of cell phones, accessories and electronic cards - chips. The inventories to be used in expansion are classified in property, plant and equipment (construction in progress), and inventories to be used in maintenance are classified as current and long-term assets, in accordance with the period in which they will be used, and the resale inventories are classified as current assets. Obsolete inventories are recorded as allowance for losses. With regard to cell phones and accessories, the subsidiary BrT Celular records the adjustments at the realization value as of the quarter closing date, in the cases in which the acquisitions presented higher values.

d. Investments: Investments in subsidiaries are assessed using the equity method. Goodwill is calculated based on the expectation of future results and its amortization is based on the expected realization/timing over an estimated period of not more than ten years. Other investments are recorded at acquisition cost, less allowance for losses, when applicable. The investments resulting from income tax incentives are recognized on the date of investment, and result in shares of companies with tax incentives or investment fund quotas. In the period between the investment date and receipt of shares or quotas of funds, they remain recognized in long-term assets. The Company adopts the criterion of using the maximum percentage of tax allocation. These investments are periodically valued and the result of the comparison between its original and market costs, when the latter is lower, results in the constitution of allowances for probable losses.

e. Property, Plant and Equipment: Stated at cost of acquisition and/or construction, less accumulated depreciation. Financial charges resulting from obligations for financing assets and construction in progress are capitalized.

The costs incurred, when they represent improvements (increase in installed capacity or useful life) are capitalized. Maintenance and repair are charged to the profit and losses accounts, on an accrual basis.

Depreciation is calculated under the straight-line method. Depreciation rates used are based on expected useful lives of the assets and in accordance with the standards of the Public Telecommunications Service. The main rates used are set forth in Note 28.

f. Deferred Charges: Segregated between deferred charges on amortization and formation. Their breakdown is shown in Note 29. Amortization is calculated under the straight-line method, for a five-year period, in accordance with the legislation in force. When benefits are not expected from an asset, it is written off against non-operating income.

g. Income and Social Contribution Taxes: Corporate income and social contribution taxes are accounted for on an accrual basis. These taxes levied on temporary differences, tax losses and the social contribution negative basis are recorded under assets or liabilities, as applicable, according to the assumption of realization or future demand, within the parameters set forth in the CVM Instruction 371/02.

h. Loans and Financing: These are updated for monetary and/or exchange variations and interest incurred until the quarter closing date. Equal restatement is applied to the guarantee contracts to hedge the debt.

i. Provision for Contingencies: The contingency provisions are made based on a survey of the respective risks and they are quantified according to economic grounds and legal opinions on the contingency proceedings and facts known on the quarter closing date. The basis and nature of the provisions are described in Note 7.

j. Revenue Recognition: Revenues from services rendered are recognized when provided. Local and long distance calls are charged based on time measurement according to the legislation in force. Revenues from sales of payphone cards (Public Use Telephony - TUP), cell phones and accessories are recorded when delivered and accepted by the clients. For prepaid services linked to mobile telephony, the revenue is recognized in accordance with the utilization of services. Revenue is not recognized if there is a significant uncertainty in its realization.

k. Recognition of Expenses: Expenses are recognized on an accrual basis, considering their relation with revenue realization. Expenses related to future periods are deferred.

l. Financial Income (Expense), Net: Financial income is recognized on an accrual basis and comprises interest earned on overdue accounts settled after the term, gains on financial investments and hedges. Financial expenses comprise interest incurred and other charges on loans, financing and other financial transactions.

Interest on shareholders' equity, when credited, is included in the financial expenses balance, and for financial statement presentation purposes, the amounts are reversed to profit and loss accounts and reclassified as a deduction of retained earnings, in the shareholders' equity.

m. Benefits to Employees: Private pension plans and other retirement benefits sponsored by the Company and its subsidiaries for their employees are managed under three foundations. Contributions are determined on an actuarial basis, when applicable, and accounted for on an accrual basis. As of December 31, 2001, the Company recorded its actuarial deficit on the balance sheet date against shareholders' equity, net of its tax effects. As from 2002, as new actuarial revaluations show the necessity for adjustments to the provision, they are recognized in the profit and loss accounts. Additional information on private pension plans is described in Note 6.

n. Profit Sharing: The provision for employees and management profit sharing is recognized on an accrual basis, being accounted as operating expense. The calculation of the amount, which is paid in the subsequent year after the provision is recognized, is based on the target program established with the labor union, by means of collective labor agreement, in accordance with Law 10,101/00 and the Company's Bylaws.

o. Earnings or losses per thousand shares: Calculated based on the number of shares outstanding on the quarter closing date, which comprises the total number of shares issued, minus shares held in treasury.

5. MARKET VALUE OF FINANCIAL ASSETS AND LIABILITIES (FINANCIAL INSTRUMENTS) AND RISK ANALYSIS

The Company and its subsidiaries assessed the book value of its assets and liabilities as compared to market or realizable values (fair value), based on information available and evaluation methodologies applicable to each case. The interpretation of market data regarding the choice of methodologies requires considerable judgment and determination of estimates to achieve an amount considered adequate for each case. Accordingly, the estimates presented may not necessarily indicate the amounts, which can be obtained in the current market. The use of different assumptions for calculation of market value or fair value may have material effect on the obtained amounts. The selection of assets and liabilities presented in this note took place based on their materiality. Instruments whose values approximate their fair values, for example cash and cash equivalents, accounts receivable, assets and liabilities of taxes, pension funds, among others, and whose risk assessment is not significant, are not mentioned.

In accordance with their natures, the financial instruments may involve known or unknown risks, and the potential of such risks is important for the best judgment. Thus, there may be risks with or without guarantees, depending on circumstantial or legal aspects. Among the principal market risk factors which can affect the Company's business are the following:

a. Credit Risk

The majority of services provided by Brasil Telecom S.A. are related to the Concession Agreement, and a significant portion of these services is subject to the determination of fees by the regulatory agency. The credit policy, in its turn, in case of telecommunications public services, is subject to legal standards established by the concession authority. The risk exists since the Company may incur losses arising from the difficulty in receiving amounts billed to its customers. The Company's default in the quarter was 2.63% (2.52 in 2005), taking into account the accounts receivable total losses in relation to gross revenue. For the Consolidated it was 2.71% and 2.65%, respectively. By means of internal controls, the level of accounts receivable is constantly monitored, thus limiting the risk of past due accounts by cutting the access to the service (out phone traffic) if the bill is overdue for over 30 days. Exceptions are made for telephone services, which should be maintained for national security or defense.

The Company operates in co-billing, concerning long distance calls with the use of its CSP (Operator Selection Code) originated by subscribers of other fixed and mobile telephony operators. The co-billing accounts receivable are managed by these operators, based on the operational agreements entered into with them and according to the rules set forth by ANATEL. The blocking rules set forth by the regulating agency are the same for the fixed and mobile telephony companies, which are co-billing suppliers. The Company separately controls receivables of this nature and maintain an allowance for losses that may occur, due to the risks of not receiving such amounts.

In respect to mobile telephony, credit risk in cell phones sales and in service rendering in the postpaid category is minimized with the adoption of a credit pre-analysis. Still in relation to postpaid service, whose client base at the end of the quarter was 32.4% of total portfolio (33.4% on 03/31/06), the receivable accounts are also monitored in order to limit default and the block is made to the service (out of phone traffic) if the bill is overdue for over fifteen days.

b. Exchange Rate Risk

Liabilities

The Company has loans and financing contracted in foreign currency. The risk related to these liabilities arises from possible exchange rate fluctuations, which may increase these liabilities balances. Consolidated loans subject to this risk represent approximately 23.6% (22.6% on 03/31/06) of the total liabilities of consolidated loans and financing, minus the contracted hedge balances. In order to minimize this kind of risk, the Company has been entering into exchange hedge agreements with financial institutions. Of the debt installment consolidated in foreign currency, 54.7% (67.9% on 03/31/06) is covered by hedge operations and financial investments in foreign currency, resulting in an effective exposition of 13.8%. Unrealized positive or negative effects of these operations are recorded in the profit and loss as gain or loss. Until the end of the quarter, the negative adjustments of these operations amounted to R\$72,774 (R\$159,027 of negative adjustments in 2005).

Net exposure as per book and market values, at the exchange rate risk prevailing on the quarter closing date, is as follows:

	PARENT COMPANY			
	06/30/06		03/31/06	
	Book Value	Market Value	Book Value	Market Value

Long-term	1,165,491	1,186,748	1,143,229	1,185,350

The method used for calculation of market value (fair value) of loans and financing in foreign currency and hedge instruments was future cash flows associated to each contracted instruments, minus the market rates in force in the quarter closing date.

c. Interest Rate Risk

Assets

The Company has loans granted to the phone directory company, with interest indexed to the IGP-DI (a national index price), as well as loans resulting from the sale of property, plant and equipment to other telephony companies, remunerated by IPA-OG/Industrial Products of Column 27 (FGV). The Company also has Certificate of Deposits (CDBs) with Banco de Brasília S.A. related to the guarantee to tax incentive granted by the Federal District Government under a program called *Programa de Promoção do Desenvolvimento Econômico e Sustentável do Distrito Federal* PRO-DF, (Program to Promote the Economic and Sustained Development of the Federal District), and the remuneration of these securities is equivalent to 95% of the SELIC rate.

These assets are represented in the balance sheet as follows:

Long-term	2,005	3,889	4,242	6,088

Liabilities

Brasil Telecom S.A. has loans and financing contracted in local currency subject to interest rates linked to indexing units TJLP, UMBNDES, CDI IGP-M and IGP/DI. The inherent risk in these liabilities arises from possible variations in these rates. The Company has contracted derivative hedge contracts to 18.7% (20.4% on 03/31/06) of the liabilities subject to the UMBNDES rate, using exchange rate swap contracts. However, the other market rates are continually monitored to evaluate the need to contract derivatives to protect against the risk of volatility of these rates. The positive or negative effects unrealized in these operations are recorded in results as gain or loss. Until the quarter closing, the negative adjustments of these operations amounted to R\$7,669 (R\$14,692 in 2005).

In addition to the loans and financing, the Company issued private and public debentures, non-convertible or exchangeable for shares. These liabilities were contracted at interest rates linked to the CDI, and the risk associated to this liability results from the possible increase of the rate.

The above mentioned liabilities on the quarter closing date are as follows:

Book value is equivalent to market values where the current contractual conditions for these types of financial instruments are similar to those in which they were originated or they did not present parameters for quotation or contraction.

d. Risk of Not Linking Monetary Restatement Indexes of Loans and Financing to Accounts Receivable

Loan and financing rates contracted by the Company are not linked to amounts of accounts receivable. Thus, a risk arises, since telephony fees adjustments do not necessarily follow increases in local interest rates, which affect the Company's debts.

e. Contingency Risks

Contingency risks are assessed according to loss hypotheses, as probable, possible or remote. Contingencies considered probable risks are recorded as liabilities. Details of these risks are presented in Note 7.

f. Risks Related to Investments

The Company has investments, which are assessed through the equity method and the acquisition cost. The investments assessed by the equity method are presented in Note 27, for which no market value

exists, as they are represented by non-listed companies or private limited companies. Provisions are recorded for losses when the future cash flows expected from an investment lead to loss expectations.

On the quarter closing date, an allowance for losses was recorded at the amount of R\$18,098 (R\$18,545 on 03/31/06) related to VANT's unsecured liability.

The investments assessed at acquisition cost are immaterial in relation to total assets. Their associated risks would not cause significant impacts to the Company in case of loss of part of these investments.

g. Financial Investments Risks

The company has temporary high-liquid investments in exclusive financial investment funds (FIFs), whose assets comprise federal securities based on post-fixed, pre-fixed and foreign exchange rates, all subject to CDI, by means of the own backing of these securities or through futures contracts traded at the Futures and Commodities Exchange - BM&F, exclusive financial investment funds (FIFs), subject to exchange variation through futures contracts in dollar with the Futures and Commodities Exchange - BM&F, short-term financial investments, represented by securities issued by Republic of Austria, remunerated at a percentage of CDI average variation, overnight financial investments, own portfolio of CD issued by financial institutions abroad. Overnight investments, in exchange fund and deposit certificates are subject to exchange rate fluctuation risks. The overnight investments that have spread in this type of certificate and the Deposit Certificate (CD) investments, are subject to the issuing financial institution credit risk.

The Company maintains immediate liquidity financial investments at the amount of R\$970,877 (R\$698,120 on 03/31/06). Income earned in the quarter closing date is recorded as financial revenue and amounts to R\$58,618 (R\$119,028 in 2005). Amounts recognized in the consolidated financial statements are R\$1,108,698 (R\$825,878 on 03/31/06), related to investments, and R\$75,068 (R\$133,037 in 2005), related to earnings.

Short-term investments temporary investments are represented by the amount of R\$106,539 and income earned until the quarter closing date, recorded as financial revenue was R\$2,372.

h. Risk of Early Maturity of Loans and Financing

Liabilities resulting from financing, mentioned in the Note 35, concerning agreements of BNDES, public debentures and most of them referring to financial institutions, have clauses that estimate the early maturity of liabilities or retention of amounts pegged to debt covenants, in the cases in which certain minimum amounts for certain indicators are not reached, such as ratios of indebtedness, liquidity, cash generation and others.

Considering the provisions recognized in the financial statements of the fiscal year ended on 12/31/05 and provisions informed to the market by means of the Material Fact as of 1/4/06, the Company renegotiated, in February 2006, all the loan and hedge agreements that had financial covenants related to the Earnings before Interest, Taxes, Depreciation and Amortization EBITDA.

For the financing agreements maintained with BNDES, the Company must comply with a set of financial ratios and in the event of non-compliance with some of these ratios, the Bank is allowed to request the temporary block of amounts, given as guarantee in a linked account, in case of non-compliance with financial ratios set out in the agreements. In view of the non-compliance with this clause, the Company is subject to the partial and temporary block of its financial investments, in the amount of R\$247,442, without prejudice of the remuneration to be received. Up to the quarter closing date, partial blocks in the

investment fund in the amount of R\$91,439 (R\$191,439 for the Consolidated) took place, which were reclassified for the item of contractual retentions, mentioned in note 25. The release of the blocked amounts will take place when the Company returns to complying with the financial relations set forth in the agreements or it is successful in the negotiation of adequacy of financial covenants negotiated. BNDES granted a renouncement in relation to the possible declaration of early maturity in view of the new non-compliance with the financial ratios.

Taking into account the new reality of telecommunications industry, the Company and BNDES are in phase of negotiations of new financial ratios for the current agreements and for the new financing agreement related to the three-year period between 2006 and 2008.

i. Regulatory Risks

New Concession Agreements

On 12/22/05, new local and domestic long distance concession agreements were entered into by Brasil Telecom S.A., which took effect between January 1, 2006 and December 31, 2025. These new concession agreements, which provide for reviews on a five-year basis, in general have a higher intervention level in the management of the businesses and several provisions defending the consumer's interest, as noticed by the regulation body. The main highlights are:

- The burden of the concession defined as 2% of the net revenue from taxes, calculated every two years, starting in 2006 fiscal year, whose initial payment incurs on 4/30/07 and then successively until the end of the concession. This calculation method, concerning accrual, corresponds to 1% for each fiscal year;
- The definition of new universalization targets, particularly AICE - Special Class Individual Access, of mandatory offer and the Telecommunications Service Centers - PST, with full burden for the Concessionaire;
- The possibility of the Regulating Agency to impose mandatory alternative plans;
- The introduction of Regulating Agency's right to intervene and modify agreements of the concessionaire with third parties;
- The inclusion of assets of the parent company, subsidiary, affiliated companies and third parties, indispensable to the concession, as reversible assets;
- The creation of the users' board in each concession;

Additionally, the regulation connected to the new concession agreement provides for changes in the local calls tariff system, which change from pulse to minute in the regular hours, in amounts of the public tariffs and in the readjustment criteria, which had the individual excursion factor reduced from 9% to 5% and will be then defined by a sector index - IST, in which composition the highest weight is IPCA.

On their turn, the interconnection tariffs, as provided for, are then defined as a percentage public tariff until the implementation of cost model by service/modality, estimated for 2008, as defined in the Regulation for Separation and Accounting Allocation (Resolution 396/05).

ANATEL, on February 23, 2006, issued the Resolution 432, postponing for a twelve-month period the dates mentioned in Rule 423, as of 12/6/05, which deals with the Amendment to the Tariff System of STFC Basic Plan in the Local Modality Rendered under Public Scheme.

It is not possible to assess, on the date this quarterly information was prepared, the future impacts to be generated by such regulation change.

Legislative Bill of Change in Telecommunications Act (LGT)

At the beginning of March 2006, the Executive Branch sent to the Brazilian Congress the Legislative Bill 6,677 to amend LGT 9,472, as of 7/16/97, whose content is essentially to enable the adoption of distinctive criteria based on the social-economic condition of the aspirant-user, with the purpose of reducing the social disparities and facilitate the access to telecommunications services publicly provided.

Due to the lack of objective elements it is not possible to evaluate, on the date of the preparation of this quarterly information, the future impacts which will be produced in the Company's businesses, if the referred legislative bill is approved at the Brazilian Congress.

ANATEL Resolution 438

On 7/13/2006 the Resolution 438 was published and took effect, which approves the new Remuneration Regulation for the Use of Networks of Personal Mobile Service Providers - SMP, revoking the Resolution 319/02.

The major alterations are:

- Obligatoriness of implementing the hour modulation for the network remuneration - VU-M at same hours and percentages applicable to the public tariff.
- Change of criterion for the payment of VU-M amounts, which now is due whenever the SMP provider network is used to start or end calls, in opposition to the previous regulation when only VU-M was due upon out phone traffic in a given direction higher than fifty-five per cent (55%) of the total traffic run through.

It is not possible to determine on the date of preparation of this quarterly information, the future impacts to be produced in view of such regulatory change.

Overlapping of Licenses

When the Company received the certification for achieving the universalization targets for 2003, set forth by ANATEL, it already provided the fixed telephony service (STFC) in the local and domestic long distance modalities (LDN) intra-regional in the Region II of the General Concession Plan (PGO). After achieving the referred targets, ANATEL, in January 2004, issued authorizations that increase the possibility of Company's operation: Local STFC and LDN in the Regions I and III of the PGO (and a few sectors of the Region II); International Long Distance (LDI) in the Regions I, II and III of the PGO; mobile telephony, by means of the subsidiary 14 Brasil Telecom Celular S.A. (BrT Celular), in the Region II of the Personal Mobile Service (SMP). The already existing concession agreements were expanded, enabling LDN calls to any part of the Brazilian territory. If Telecom Italia International N.V. (TII) acquired an indirect controlling interest in the Company, the Company and TIM Brasil Serviços e Participações S.A. (TIM) could be considered affiliates under the new Brazilian telecommunications legislation. That would imply the ability of providing domestic (LDN) and international (LDI) fixed and mobile telephony services throughout the same regions of TIM's, would be subject to risk of being partially closed by ANATEL. On January 16, 2004, ANATEL issued the Act 41,780 establishing an 18-month period for TII to reacquire an indirect controlling interest in the Company, as long as TII did not participate or vote on issues related to the overlapping of services offered by the Company and TIM, such as domestic and international long-distance and mobile services. On June 30, 2004, the Administrative Council of Economic Defense - CADE, in the records of the Write of Prevention 08700.000018/2004-68,

set forth restrictions to the exercise of the control rights on the part of Telecom Italia International N.V. and its representatives at the board of directors of Solpart Participações S.A., Brasil Telecom Participações S.A. and Brasil Telecom S.A.

On April 28, 2005, TII and TIM and the Company and BrT Celular entered into various corporate agreements, including an instrument called Merger Agreement and a Protocol related thereto. Among other reasons alleged, this merger operation was justified by the management of that time as possible solution to overlapping of regulatory licenses and authorizations with TIM, to remove sanctions and penalties, which could be imposed by ANATEL. The operation was forbidden by an injunction issued by the U.S. court. It is also subject-matter of discussion in the Brazilian Court and in arbitration involving controlling shareholders. Whether or not confirming the validity of April 2005 agreements, there is the possibility of assets related to fixed and mobile segments (see Note 43) eventually lose their value, as a result of overlapping of operations or sanctions from ANATEL. On the other hand, it is also possible that corporate agreements as of April 28, 2005 are declared null and void by courts or arbitration, which would remove TII from the control block of Brasil Telecom group, eliminating the overlapping of concessions and consequently, the regulatory risk. Nevertheless, at this moment, it is not possible to anticipate such legal developments and their future effects on the financial statements.

On July 7, 2005, ANATEL declared, by means of Act 51,450, that the counting of 18 month-term to solve the overlapping of licenses would start on the date of effective return of TII to the control group of Brasil Telecom S.A. On July 26, 2005, ANATEL, by means of Order 576/2005, declared that the counting of term had already started on April 28, 2005. Therefore, according to ANATEL, the interested companies shall adopt the measures necessary to eliminate the overlapping of the concessions until the end of referred term in October 2006, under the penalty of applying legal sanctions, which may affect either companies or both of them.

Depending on final decision of ANATEL, these sanctions may have an adverse and material effect on businesses and operations of the Company and of 14 Brasil Telecom Celular S.A.

Regarding the Merger Agreement mentioned in this note, the Company and its subsidiary BrT Celular started on March 15, 2006 arbitration against TII and TIM, aiming at annulling it. The Company disclosed material fact about this matter on March 16, 2006.

TII and TIM sent to the Company and to BrT Celular a correspondence dated as of May 2, 2006, unilaterally terminating the referred Merger Agreement, reserving supposed rights. The Company published a material fact about it on May 2, 2006.

On July 26, 2006, TII, in reply to the correspondence sent by CVM, forwarded a correspondence to the Company in which it confirmed its intention of selling its shareholding in Solpart Participações S.A., parent company of Brasil Telecom Participações S.A. and Brasil Telecom S.A., with the assistance of J.P. Morgan Bank. The Company released a notice about this on the same date.

6. BENEFITS TO EMPLOYEES

The benefits described in this note are offered to the employees of the Company and its direct or indirect subsidiaries. These companies are better described jointly, and can be referred to as Brasil Telecom Companies and for the purpose of the supplementary pension plan mentioned in this note, are also denominated Sponsor or Sponsors.

a. Supplementary Pension Plan

The Company sponsors supplementary pension plans related to retirement for its employees and assisted members, and, in the case of the latter, medical assistance in some cases. These plans are managed by the following foundations: (i) FUNDAÇÃO 14 de Previdência Privada (FUNDAÇÃO 14); (ii) FUNDAÇÃO BrTPREV (FBrTPREV) former CRT, a company merged by the Company on 12/28/00; and (iii) FUNDAÇÃO SISTEL de Seguridade Social (SISTEL), originated from certain companies of the former Telebrás System.

The Company's Bylaws stipulate approval of the supplementary pension plan policy, and the joint liability attributed to the defined benefit plans is linked to the acts signed with the foundations, with the agreement of the Secretaria de Previdência Complementar - SPC, where applicable to the specific plans.

The plans sponsored are valued by independent actuaries on the fiscal year closing date. In the case of the defined benefit plans described in this explanatory note, immediate recognition of the actuarial gains and losses is adopted. Liabilities are provided for plans which show deficits. This measure has been applied since the 2001 financial year, when the regulations of CVM Resolution 371/00 were adopted. In cases that show positive actuarial situations, no assets are recorded due to the legal impossibility of reimbursing these surpluses.

The characteristics of the supplementary pension plans sponsored by the Company are described below.

FUNDAÇÃO 14

As from the split of the only pension plan managed by SISTEL, the PBS, in January 2000, already predicted the evolution trend for a new stage. Such stage would result in an own and independent management model for TCSPREV pension plan, by means of a specific entity to manage and to operate them, and this fact has become more and more evident throughout the years. This trend also occurred in other main SISTEL pension plan sponsoring companies, which created their respective supplementary pension plan foundations. In this scenario, FUNDAÇÃO 14 de Previdência Privada was created in 2004, with the purpose of taking over the management and operation of the TCSPREV pension plan, which started as from March 10, 2005, whose process was backed by the segment's specific legislation and properly approved by the Secretaria de Previdência Complementar - SPC (the Brazilian pension's regulatory authority).

In accordance with the Transfer Agreement entered into between FUNDAÇÃO Sistel de Seguridade Social and FUNDAÇÃO 14 de Previdência Privada, SISTEL, by means of the Management Agreement, has been rendering management and operation services of TCSPREV and PAMEC-BrT plans to FUNDAÇÃO 14, after the transferring of these plans, which took place on March 10, 2005, for a period of up to 18 months, while FUNDAÇÃO 14 organizes itself to take over the management and operation services of its plans.

Plans

TCSPREV (Defined Contribution, Settled Benefit and Defined Benefit)

This defined contribution and settled benefit plan was introduced on 2/28/00. On 12/31/01, all pension plans sponsored by the Company with SISTEL were merged, being exceptionally and provisionally approved by the Secretaria de Previdência Complementar - SPC of document sent to that Agency, due to the need for adjustments to the regulations. Thus, TCSPREV is comprised of defined contribution groups with settled and defined benefits. The plans that were merged into the TCSPREV were the PBS-TCS, PBT-BrT, BrT Management Agreement, and the Unusual Contractual Relation Instrument, and the

conditions established in the original plans were maintained. In March 2003, this plan was no longer offered to the sponsors new contracted ones. However, this plan, concerning the defined contribution, started being offered as of March 2005. TCSPREV currently provides assistance to nearly 65.2% of the staff.

PAMEC-BrT Health Care Plan for Supplementary Pension Beneficiaries (Defined Benefit)

Destined for health care of retirees and pensioners subject to Grupo PBT-BrT, which was merged into TCSPREV on 12/31/01.

Contributions Established for the Plans

TCSPREV

Contributions to this plan, by group of participants, are established based on actuarial studies prepared by independent actuaries according to regulations in force in Brazil, using the capitalization system to determine the costs. Currently, contributions are made by the participants and the sponsor only for the internal groups PBS-TCS (defined benefit) and TCSPREV (defined contribution). In the TCSPREV group, the contributions are credited in individual accounts of each participant, equally by employee and sponsor, and the basic contribution percentages vary between 3% and 8% of the participant's salary, according to participant's age and limited to R\$19,520.40 for 2006. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without parity of the Company. In the case of the PBS-TCS group, the sponsor's contribution corresponds to 12% of the payroll of the participants; while the employees' contribution varies according to the age, service time and salary. An entry fee may also be payable depending on the age of entering the plan. The sponsors are responsible for the cost of all administrative expenses and risk benefits. Until the quarter, contributions by the sponsor to the TCSPREV group represented 5.19% of the payroll of the plan participants. For employees, the contributions represented 5.11% .

The contributions of the party-company in the quarter were R\$7,705 (R\$7,431 in 2005).

PAMEC-BrT

The contribution for this plan was fully paid in July 1998, through a single payment. New contributions are limited to future necessity to cover expenses, if that occurs.

FUNDAÇÃO SISTEL DE SEGURIDADE SOCIAL (SISTEL)

The supplementary pension plan, which remains under SISTEL's management, comes from the period before the Telebrás Spin-off and assists participants who had the status of beneficiaries in January 2000 (PBS-A). SISTEL also manages the PAMA/PAMA-PCE pension plan, formed by participants assisted by the PBS-A Plan, the PBS's plans segregated by sponsor in January 2000 and PBS-TCS Internal Group, merged into the TCSPREV plan in December 2001.

Plans

PBS-A (Defined Benefit)

Maintained jointly with other sponsors subject to the provision of telecommunications services and destined for participants that had the status of beneficiaries on 1/31/00.

PAMA - Health Care Plan for Retirees / PCE Special Coverage Plan (Defined Contribution)

Maintained jointly with other sponsors subject to the provision of telecommunications services and destined for participants that had the status of beneficiaries on 1/31/00, for the beneficiaries of the PBS-TCS Group, merged into TCSPREV (plan currently managed by FUNDAÇÃO 14) on 12/31/01 and for the participants of PBS's defined benefit plans sponsored by other companies, together with SISTEL and

other foundations (together with SISTEL and other foundations). According to a legal and actuarial appraisal, the Company's responsibility is exclusively limited to future contributions. From March to July 2004 and from December 2005 to April 2006, an incentive optional migration of retirees and pensioners of PAMA took place for new coverage conditions (PCE). The participants who opted for the migration began to contribute to PAMA/PCE.

Contributions Established for the Plans

PBS-A

Contributions may occur in case of accumulated deficit. On 12/31/05, the actuarial appraisal date, the plan presented a surplus.

PAMA/PCE

The Sponsor makes contributions for this plan corresponding to 1.5% on payroll of active participants subject to PBS plans, segregated and sponsored by several SISTEL sponsors. In the case of Brasil Telecom, the PBS-TCS was merged into the TCSPREV plan on 12/31/01, and began to constitute an internal group of the plan. Contributions by retirees and pensioners who migrated to PAMA/PCE are also carried out.

The contributions to PAMA, in the part attributed to the Sponsor, in the quarter were R\$59 (R\$55 in 2005).

FUNDAÇÃO BrTPREV

It is the manager originated from the plans sponsored by former CRT, company incorporated by the Company at the end of 2000. The main purpose of the Company sponsoring FBrTPREV is to maintain the supplementary retirement, pension and other provisions in addition to those provided by the official social security system to participants.

Plans

BrTPREV

Defined contribution plan and settled benefits, launched in October 2002, destined for the concession of pension plan benefits supplementary to those of the official pension plan and that initially assisted only employees subject to the Subsidiary Rio Grande do Sul. This pension plan remained open to new employees of the Company and its subsidiaries from March 2003 to February 2005, when its offering was suspended. Currently, BrTPREV provides assistance to nearly 33.0% of the staff.

Fundador Brasil Telecom and Alternativo Brasil Telecom

Defined benefits plans destined to provide supplementary social security benefits in addition to those of the official social security, closed to the entry of new participants. Currently, these plans assist approximately 0.17% of the staff.

Contributions Established for the Plans

BrTPREV

Contributions to this plan are established based on actuarial studies prepared by independent actuaries according to the regulations in force in Brazil, using the capitalization system to determine costs. Contributions are credited in individual accounts of each participant, the employee's and Company's contributions being equal, the basic percentage contribution varying between 3% and 8% of the

participation salary, according to the participant's age and limited to R\$20,193.00 for 2006. Participants have the option to contribute voluntarily or sporadically to the plan above the basic contribution, but without parity of the sponsor. The sponsor is responsible for the administrative expenses and risk benefits. The Company's contributions in the quarter represented 8.67% of the payroll of the plan participants, whilst the employee contribution was 4.89%.

The contributions of the party-company in the quarter were R\$6,269 (R\$4,454 in 2005).

Fundador - Brasil Telecom and Alternativo - Brasil Telecom

The regular contribution by the sponsor in the quarter was of 4.32% on the payroll of plan participants, who contributed at variable rates according to age, service time and salary; the average rate in the quarter was 4.32%. With the Alternativo Plan - Brasil Telecom, the participants also pay an entry fee depending on the age of joining the plan.

The normal contributions of the Sponsor in the quarter were R\$7 (R\$8 in 2005).

The mathematical reserve to amortize, corresponding to the current value of the Company's supplementary contribution, as a result of the actuarial deficit of the plans managed by FBrTPREV, have the settlement within the maximum established period of twenty years, as from January 2002, according to Circular 66/SPC/GAB/COA from the Supplementary Pension Department dated 1/25/02. Of the maximum period established, 15 years and 6 months still remain for complete settlement, and in the quarter the amount of R\$64,099 (R\$49,722 in 2005) was amortized.

b. Stock Option Plan for Management and Employees

The Extraordinary Shareholders' Meeting held on April 28, 2000, approved the general plan to grant stock call options to officers and employees of the Company and its subsidiaries. The plan authorizes a maximum limit of 10% of the shares of each class of Company stock. Shares derived from exercising options guarantee the beneficiaries the same rights granted to other Company shareholders. The administration of this plan was entrusted to a management committee appointed by the Board of Directors, which decided only to grant preferred stock options. The plan is divided into two separate programs:

Program A

This program is granted as an extension of the performance objectives of the Company established by the Board of Directors for a five-year period. Until June 30, 2006, no option had been granted.

Program B

The exercise price is established by the management committee based on the market price of one thousand shares on the date of the grant of option and will be monetarily restated by the IGP-M between the date of signing the contracts and the payment date.

The right to exercise the option is given in the way and terms presented as follows:

	First Grant		Second Grant		Third Grant	
	As from	Deadline	As from	Deadline	As from	Deadline
33%	1/1/04	12/31/08	12/19/05	12/31/10	12/21/05	12/31/11
33%	1/1/05	12/31/08	12/19/06	12/31/10	12/21/06	12/31/11
34%	1/1/06	12/31/08	12/19/07	12/31/10	12/21/07	12/31/11

The acquisition periods can be anticipated as a result of the occurrence of events or special conditions established in the option contract. Since December, 2004 until June 30, 2006 options were not granted.

Information related to the general plan to grant call options is summarized below:

	06/30/2006	
	Preferred Share Options (Thousand)	Average Exercise Price R\$
Balance on 03/31/06	328,958	13.00
Extinguished Options	29,050	13.00
Balance on 06/30/06	299,908	13.00

There has been no granting of call options exercised until the quarter closing date and the representation of the options balance in relation to the total of outstanding shares is 0.05% (0.06% on March 31, 2006).

Considering the hypothesis that the options will be fully exercised, the opportunity cost of the respective premiums, calculated based on the Black&Scholes method, would be R\$517 (R\$780 in 2005).

c. Other Benefits to Employees

Other benefits are granted to employees, such as: health/dental care, meal allowance, group life insurance, occupational accident allowance, sickness allowance, transportation allowance, and others.

7. PROVISIONS FOR CONTINGENCIES

a. Contingent Liabilities

The Company and its subsidiaries periodically assess their contingency risks, and also review their lawsuits taking into consideration the legal, economic, tax and accounting aspects. The assessment of these risks aims to classifying them according to the chances of unfavorable outcome among the alternatives of probable, possible or remote, taking into account, as applicable, the opinion of the legal advisors.

For those contingencies, which the risks are classified as probable, provisions are recognized. Contingencies classified as possible or remote are discussed in this note. In certain situations, due to legal requirements or precautionary measures, judicial deposits are made to guarantee the continuity of the cases in litigation. These lawsuits are under discussion in administrative and judicial spheres and in several levels, from lower courts to the extraordinary ones.

It is also worth mentioning that the notice presented below shows, in some cases, identical objects with different classifications of risk level, fact that is justified by specific factual and procedural status related to each lawsuit.

Labor Claims

The provisions for labor claims include an estimate by the Company's management, supported by the opinion of its legal advisors, of the probable losses related to lawsuits filed by employees, former employees of the Company, and of service providers related to the labor matter.

Tax Suits

Provisions for tax contingencies mainly refer to issues related to tax collections resulting from different interpretations of the legislation on the part of the Company's legal advisors and tax authorities.

Civil Suits

The provisions for civil contingencies refers to an estimate of lawsuits related to contractual adjustments arising from Federal Government economic plans, and other cases related to community telephony plans and suit for damages and consumer lawsuits.

Classification by Risk LevelContingencies for Probable Risk

Contingencies for probable risk of loss, for which provisions are recorded under liabilities, have the following balances:

b. Contingent Assets

As follows, the tax claims promoted by the Company are shown, through which the recovery of tax paid is claimed, calculated differently from interpretation sustained by its legal advisers.

PIS/COFINS: judicial dispute about the application of Law 9,718/98, which increased the calculation basis for PIS and COFINS. The period comprised by Law was from February 1999 to November 2002 for PIS and from February 1999 to January 2004 for COFINS. In November 2005, STF (Federal Supreme Court) concluded the judgment of certain lawsuits dealing with such issue and considered unconstitutional the increase of calculation basis introduced by said Law. The lawsuits of Telebrasília, Telesc and Telegoiás, merged by the Company in February 2000, received final and unappealable decision referring to the increase in COFINS calculation basis, on 03/02/06, 03/10/06 e 04/07/06 respectively. The Company recorded credits on 06/30/06 in the amount of R\$97,550.

The Company is awaiting the judgments of lawsuits of other merged companies, which the assessment of success in future filing of appeals is assessed as probable by the Company's legal advisors. The amount attributed to outstanding contingency not recognized on an accounting basis, referring to these lawsuits amounts to R\$28,665 (R\$125,212 on 03/31/06, including the portion of credits, which already received final and unappealable decision mentioned in the previous paragraph).

8. SHAREHOLDERS' EQUITY

a. Capital Stock

The Company is authorized to increase its capital stock, according to a resolution of the Board of Directors, in a total limit of eight hundred billion (800,000,000,000) common or preferred shares, observing the legal limit of two thirds (2/3) for the issue of new preferred shares without voting rights.

By means of a resolution of the General Shareholders' Meeting or the Board of Directors, the Company's capital may be increased by the capitalization of retained earnings or reserves prior to this allocated by the General Shareholders Meeting. Under these conditions, the capitalization may be effected without modifying the number of shares.

The capital stock is represented by common and preferred stocks, with no par value, and it is not mandatory to maintain the proportion between the shares in the case of capital increases.

By means of a resolution of the General Shareholders' Meeting or the Board of Directors, the preemptive right for the issue of shares, subscription bonuses or debentures convertible into shares may be excluded, in the cases stipulated in article 172 of Corporate Law.

The preferred shares do not have voting rights, except in the cases specified in paragraphs 1 to 3 of article 12 of the Bylaws, but are assured priority in receiving the minimum non-cumulative dividend of 6% per annum, calculated on the amount resulting from dividing the capital stock by the total number of

the Company's shares or 3% per annum, calculated on the amount resulting from dividing the net book shareholders equity by the total number of the Company's shares, whichever is greater.

Subscribed and paid-up capital as of the date of the end of the quarter is R\$3,470,758 (R\$3,435,788 as of 12/31/05) represented by shares without par value as follows:

High-liquid investments represent amounts invested in exclusive funds managed by financial institutions, guaranteed in federal bonds with average profitability equivalent to interbank deposit rates DI CETIP (CDI), in exclusive funds managed by financial Institutions and guaranteed in futures contracts of dollar traded at the Futures and Commodities Exchange (BM&F), overnight financial investments abroad that earn exchange rate variation plus interest of 5.0% p.a., deposit certificates issued by foreign financial institutions and bank deposit certificates issued by first-rate financial institutions with average profitability equivalent to CDI.

The Company is subject to the partial and temporary block of its financial investments, at the approximate total amount of R\$247,442 and there is no loss of the remuneration to be received by it. Such retention is due to the fact that the Company did not reach certain minimum amounts for certain financial ratios, established in agreements entered into with BNDES. Further information about the block and its duration period can be checked in Note 5 h. Up to the quarter closing date, there were partial blocks related to the investment funds, at the amount of R\$91,439 (R\$191,439 in the Consolidated). The retained amounts were reclassified from high-liquid investments to the item contractual retentions, in current assets.

The breakdown of high-liquid investment portfolio, on the quarter closing date, is presented below:

The following table shows the periods in which the deferred tax assets corresponding to income tax and social contribution on net income (CSLL) are expected to be realized, which are derived from temporary differences between book value on the accrual basis and the taxable income, as well as in the tax loss and in the negative basis of social contribution, when existing. The realization periods are based on a technical study that used forecast future taxable income, generated in fiscal years when the temporary differences will become deductible expenses for tax

purposes. These assets are recorded in accordance with CVM Instruction 371/02 requirements, and in view of the closing of the fiscal years the technical study is submitted to the approval of the board of executive officers and the Board of Directors, as well as its examination by the Fiscal Council.

The recoverable amount expected after 2015 is a result of a provision to cover an actuarial insufficiency of pension plans that is being settled according to the maximum remaining period of 15 years and six months, in line with the period established by the Supplementary Pension Department (SPC). Despite the time limit stipulated by the SPC and according to the estimated future taxable income, the Company presents conditions to fully offset the deferred taxes in a period lower than ten years, if it opts to fully anticipate the payment of the debt. Tax credits in the amount of R\$131,586, attributed to the Consolidated, were not recorded due non-existence of necessary requirements for the history and/or future forecast of taxable income in VANT, BrT Multimídia, BrT CSH and BrT CS Ltda, subsidiaries that the Company holds direct or indirect control.

Other Taxes Recoverable

They are comprised of federal withholding taxes and payments made, calculated based on legal estimates, which will be offset against future tax obligations. The ICMS recoverable arises, for the most part, from credits recorded in the acquisition of fixed assets, whose compensation with ICMS payable may occur in up to 48 months, according to Supplementary Law 102/00.

Long-term	-	-	260,228	259,594

The authorizations for Personal Mobile Services (SMP) are represented by the terms signed, in 2002 and 2004, by the subsidiary 14 Brasil Telecom Celular S.A. with ANATEL, to offer SMP Services for the next fifteen years in the same area of operation where the Company has a concession for fixed telephony. Out of the contracted value, 10% was paid at the time of signing the contract, and the remaining balance was fully recognized in the subsidiary's liabilities to be amortized in equal, consecutive annual installments, with maturities foreseen for the years 2006 to 2010 (balance of five installments), and 2007 to 2012 (balance of six installments), depending on the fiscal year when the agreements were executed. The remaining balance is adjusted by the variation of IGP-DI, plus 1% per month.

The concession of STFC refers to the provision established according to the accrual basis, taking as basis the application of 1% on the net revenue of taxes. According to the current concession agreement, the payment in favor of ANATEL will have a maturity every two years, defined for April of the odd years and will be equivalent to 2% of the net revenue estimated in the immediately previous year. The first payment is estimated for April 2007.

The amount of other authorizations pertains to BrT Multimídia and refers to the authorization granted to the use of radiofrequency blocks associated with the exploitation of multimedia communication services. Initially, such granting was obtained from ANATEL by VANT and on April 2006 the transfer registration to BrTMultimídia took place, which assumed the outstanding balance, with a variation of the IGP-M, plus 1% a month. The settlement of the balance of such obligation will be paid in five equal, consecutive and annual installments, counted as from May 2007.

37. PROVISIONS FOR PENSION PLANS

They refer to the recognition of the actuarial deficit of the pension plans of defined benefit managed by FBrTPREV and Fundação 14 appraised by independent actuaries at the end of each fiscal year in accordance with Deliberation CVM 371/00.

To minimize the effects to be determined in the actuarial revaluation of the end of the year, the effects of the variation of INPC and pro-rata interest of 6% p.a. on the liabilities of the plans are monthly recognized, deducted from earnings of assets belonging to such plans. These charges recorded in the result up to the quarter represented R\$16,087. Up to the quarter, R\$9,989 was also recognized, resulting from administrative costs, regular costs of plans and non-actuarial variation which took place in the liabilities of the foundations. Additionally, aiming to follow the increase expectation of the longevity of the participants of the sponsored plans, the Company contracted with its independent actuaries a study to enable to add to the recognized provision the economic effects of this trend, resulting in the complement of R\$9,732 to the provision established.

The amount paid to Fundação BrTPREV up to the quarter totaled R\$64,099 (R\$49,722 in 2005) and refers to the amortizing contributions and administrative costs.

The funds for sponsored supplementary pensions are detailed in Note 6.

Self-financing funds - Rio Grande do Sul branch

They correspond to the credits of capital participation, paid by engaged subscribers, for acquisition of the right of use of switched fixed telephone service, still under the elapsed self-financing modality. It happened that, as the shareholders of the Company had fully subscribed the capital increase made to repay in shares the credits for capital participation, there were no unsold shares to be delivered to the engaged subscribers. Part of these engaged subscribers, who did not accept the Company's Public Offering for return of the referred credits in cash, as established in article 171, paragraph 2, of Law

6,404/76, are awaiting resolution of the ongoing lawsuit, filed by the Public Prosecution Service and Other, aiming at reimbursement in shares.

Self-financing Installment Reimbursement PCT

This refers to the payment, either in cash or as offset installments in invoices for services of engaged subscribers derived from the Community Telephony Plan - PCT, in return to the obligation of repayment in shares. For these cases, there is settlement or judicial decision.

40. FUNDS FOR CAPITALIZATION

The expansion plans (self-financing) were the means by which the telecommunications companies financed part of the network investments. With the issue of Administrative Rule 261/97 by the Ministry of Communications, this mechanism for raising funds was eliminated, and the existing amount of R\$7,974 (R\$7,974 on 03/31/06) is derived from plans sold prior to the issue of the Administrative Rule, the corresponding assets to which are already incorporated in the Company's fixed assets through the Community Telephony Plan - PCT. For reimbursement in shares, it is necessary to await the judicial ruling on the suits brought by the interested parties.

42. COMMITMENTS

Services Rendered due to Acquisition of Assets

BrT SCS Bermuda acquired fixed assets from an already existing company. Together with the assets of underwater cables acquired, it assumed the obligation of providing data traffic services, initially contracted with the company that sold the assets, which was a beneficiary of the financial resources of the respective advances. The time remaining for the providing of such assumed services is approximately eighteen years.

43. INFORMATION PER BUSINESS SEGMENT CONSOLIDATED

Information per segments is presented in relation to the Company and its subsidiaries business, which was identified based on their performance and management structure, as well as the internal management information.

The operations carried out among the business segments presented were based on conditions equivalent to the market.

The income by segment, as well as the equity items presented, takes into consideration the items directly attributable to the segment, also taking into account those which can be allocated on reasonable basis.

Fifth Issue of Company's Debentures

On July 11, 2006, the Company announced the closing of the public offering of its Fifth Issue of Debentures, being the fourth public issue. The Company issued 108,000 debentures not convertible into shares without renegotiation clause, for the unit face value of R\$10, amounting to R\$1,080,000. The payment term is seven years, with issue date as of June 1, 2006 and maturity on June 1, 2013. The remuneration corresponds to the interest rate of 104.1% of CDI and its payment periodicity is semiannual. Amortization, which shall indistinctly consider all debentures, will occur annually as from June 1, 2011, in three installments of 33.3%, 33.3% and 33.4% of the unit face value, respectively. These debentures have personal guarantee, by means of surety granted by Brasil Telecom Participações S.A. According to the deed of issue, the Parent Company, in the capacity as intervening guarantor undertakes before the debenture holders as primary obligor and guarantor, to be jointly liable for all obligations assumed by the Company.

The proceeds obtained from such issue will be destined to the refinancing and rescheduling of the debts including the full settlement of outstanding balance of the private debenture and partial amortizations of principal amounts related to outstanding agreements with BNDES.

Settlement of Private Debentures

On July 27, 2006, the Company settled its debt with the Parent Company, related to private debentures. The amount related to the payment of the final installment totaled R\$556,911, remuneration included.

Utilization Rate (in Service/Installed)	87.1%	88.2%	(1.1)p.p.
Digitalization Rate	100.0%	100.0%	-

Fixed Plant

The utilization rate showed a reduction of 1.1p.p. during 2Q06 and reached 87.1% in June. BrT has a technical reserve of nearly 1.4 million lines installed in order to immediately meet a demand increase, without the need of additional investments. **At the end of 2Q06, Brasil Telecom s plant was comprised of 10.8million lines installed, 9.4 million of which were in service.**

The participation of the hybrid terminal LigMix in the plant in service remained steady at 8.7% by the end of June, the same percentage of March. The hybrid terminal is available in the centers with idle capacity upon verification of customer s default, or in marketing campaigns targeted at low income customers. From September onwards, the prepaid terminals will be replaced by the hybrid terminals and by AICE (Special Class Individual Access).

Traffic

Operating Data	2Q06	1Q06	2Q06/1Q06 (%)
Exceeding Pulses (million)	2,142	2,291	(6.5)
VC-1 (million minutes)	700	745	(6.0)
Domestic Long Distance LDN (million minutes)	1,395	1,427	(4.0)
VC-2 (million minutes)	160	153	4.4
VC-3 (million minutes)	100	105	(5.2)

Exceeding Local Pulses In 2Q06, Brasil Telecom reached 2.1 billion exceeding pulses, representing a 6.5% reduction compared to 1Q06. Several factors have contributed to this performance, such as: less business days during the quarter, the FIFA World Cup, the increase in the plant of ADSL accesses and the expansion of the mobile plant.

Long-Distance Traffic Long-distance traffic in 2Q06 decreased 4.0% compared to 1T06 and totaled 1.4 billion minutes. The factors that explain this reduction are less business days during the quarter, higher share of LDN (Domestic Long Distance) plans with franchise and higher competition.

LD Market Share Brasil Telecom closed 2Q06 with a 61.8% market share in the inter-regional segment and a 35.6% share in the international segment (quarterly average).

In 2Q06, Brasil Telecom posted an average market share of 84.8% in the intra-regional segment, 0.7 p.p. higher than the 84.1% recorded in 2Q05. In the inter-regional and international segments, Brasil Telecom increased its share by 7.0 p.p. and 4.4 p.p., respectively of the market share in 12 months.

Mobile Accesses **BrT Móvel reached 2,772.0 thousand mobile accesses in service**, representing a net addition of 310.9 thousand accesses in the quarter, against a reduction of the market in the Region II of 272 thousand accesses. This figure represents 51.4% of the target of 1,087 thousand accesses estimated for 2006. At the end of 2Q06, **BrT Móvel customer portfolio was 12.6% higher than that of 1Q06** and, compared to the same quarter of 2005, **there was a 106.1% increase.**

Customer Base Mix By the end of June, **the mobile plant was composed of 900.2 thousand postpaid plan subscribers (32.5% of the BrT Móvel s customer base)** which showed the highest share in postpaid among the mobile telephony operators present in Brazil.

Coverage During 2Q06, BrT Móvel **increased to 3,396 the number of points of sale and increased its coverage area in 796 locations, reaching 87% of the population in the Region II.**

Market Share By the end of 2Q06, **BrT Móvel reached a 10.7% market share** in its operating area, compared to 9.4% in 1Q06 and 5.9% in 1Q05. In the Midwest and North Regions, the company reached 13.7%, maintaining the third position in the rank. **BrT Móvel already exceeded the third entrant in terms of market share** in the Federal District and in the States of Acre, Rondônia, Tocantins, Mato Grosso and Goiás.

DATA

Broadband

ADSL Accesses During 2Q06, Brasil Telecom added **70.8 thousand accesses to its plant, amounting to 1,154.9 thousand broadband accesses in service by the end of June 2006**, a 6.5% and 54.5% increase compared to 1Q06 and 2Q05, respectively.

The ADSL (ADSL/LES) penetration in 2Q06 reached 12.3%, compared to 11.3% in 1Q06 and 7.8% in 2Q005. This percentage is the most representative among the concessionaries.

Internet Providers

BrTurbo, iG and iBest **Brasil Telecom Internet (BrTI), company leader in providing dial up access the Internet in the Brazilian market, has approximately 3.5 million of dial up Internet active users, who, together, accounted for a traffic of 10.4 billion minutes in 2Q06**, a growth of 15.5% compared to the traffic generated in 1Q06, when it reached 9.0 billion minutes, due to the seasonality. Together, the three component providers of BrTI also have approximately 1.1 million customers of paid services, including the provision of broadband access and value-added services, compared to 976 thousand clients in 1Q06.

iBest, the largest dial up access provider in the Region II, with a market share estimated at 53.7% in 2Q06, 1.7 p.p. higher compared to 1Q06, is present in more than 1,700 cities, with approximately 11.5 million registered users, of which 1.4 million are active users.

iG generated, in 2Q06, a traffic of 5.1 billion minutes, against 4.6 billion minutes in the previous quarter, being the leader in volume of traffic generated in the Regions I and III of PGO (General Concession Plan). It is present in more than 2,100 cities, it has 16.4 registered users and 1.8 million active users. **The customer base of broadband access of iG grew 72% compared to the same period of 2005 (2Q05), reaching 239 thousand customers at the end of 2Q06.** When compared to 1Q06, the customer base of broadband access grew nearly 15%, considering that at that time IG had 208 thousand users.

BrTurbo reached 635 thousand customers in the Region II at the end of 2Q06, a 61.6% growth compared to the same period of 2005 and a 10% growth in relation to the previous quarter. Approximately 55.5% of broadband access customers were subscribers of BrTurbo in Region II, representing a 1.5 p.p. growth compared to 1Q06, positioning the provider as the market leader in its region.

At the end of 2Q06, Brasil Telecom Internet relied on 879 thousand broadband customers in Brazil, **representing an 11% increase when compared to the 793 thousand broadband customers in 1Q06.**

ECONOMIC-FINANCIAL PERFORMANCE

Revenues

Local Service **The local service gross revenue reached R\$1,702.2 million in 2Q06**, 3.8% lower than that recorded in 1Q06. Out of the total of the local service revenue, 70.9% came from subscription and service measured revenue, and 28.0% represented revenues with VC-1 calls.

Gross revenue with VC-1 calls reached R\$476.2 million in 2Q06, 5.4% lower than the one in 1Q06, reflecting the traffic drop. The fall trend of VC-1 traffic has been proved since the second half of 2005, as a reflection of the aggressive promotional campaigns of mobile operators focused on mobile-mobile traffic. **Compared to 2Q05, the gross revenue with VC-1 calls was 12.1% lower**, mainly due to the 17.6% reduction in traffic, offset by the 7.99% adjustment in the VC-1 tariff in June 2005.

In the second quarter, subscription gross revenue reached R\$871.1 million, a 2.5% reduction compared to the R\$893.3 million recorded in 1Q06, due to the reduction of 133 thousand lines in the service plant and the reduction of 6.3 thousand hybrid lines.

The gross revenue from service measured totaled R\$336.0 million in 2Q06, 5.5% lower than the one in 1Q06, reflecting the growth of the mobile telephony customer base and the commercialization of ADSL accesses, which caused a 6.5% drop in the volume of exceeding pulses. **Compared to 2Q05, the gross revenue with service measured was 8.8% lower**, mainly due to the reduction of traffic, of about 14.1%, partially offset by a 7.27% fee readjustment in the local pulse fee in July 2005.

Public Telephony **Public telephony gross revenue reached R\$138.8 million in 2Q06, 8.5% higher than the revenue reached in 1Q06 and 11.9% higher than the revenue of 2Q05.** The variation compared to 1Q06 is mainly explained by the 6.2% increase in credits sales. **The increase against 2Q05 was influenced by the fee readjustment of 7.37% in the credit tariff of payphone card.**

Long Distance **Gross revenue from LD services amounted to R\$678.5 million in 2Q06**, representing a 3.6% reduction compared to 1Q06. This performance basically reflects the 4.0% drop in traffic. Compared to 2Q05, LD revenue was 12.9% lower due to the 15.4% reduction in traffic, offset by the 2.94% fee readjustment applied as from July 2005. Another factor that has influenced the drop in LD revenue was the Company decision to discourage LD calls originated outside Region II, in order to prevent fraud.

Interconnection	Interconnection revenue in 2Q06 was R\$99.7 million , an 8.1% and 43.1% reduction compared to 1Q06 and to 2Q05. Such drop has been influenced by some aggressive promotional campaigns promoted by the mobile telephony operators, which stimulated the mobile-mobile traffic and, additionally, in relation to 2Q05, there were reductions in interconnection fees, of about 13.3% in July 2005 and 19.1% in January 2006.
Data Communication	In 2Q06, gross revenue from data communication and other services of the mainactivity added up to R\$562.6 million, a 4.5% increase compared to the previousquarter and a 24.6% increase compared to 2Q05. The ADSL revenue amounted toR\$245.1, representing 43.6% of the total data communication. We stress the growth ofnetwork formation services (Interlan, IP Turbo, Serviço Plus, IP Dedicado) and theraise in ADSL accesses in service of 6.5% and 54.5% in 1Q06 and 2Q06, respectively.
Mobile Telephony	In 2Q06, mobile telephony consolidated gross revenue totaled R\$260.4 million , of which R\$187.5 million referred to services and R\$69.5 million to handsets and accessories sales. This performance represents a 14.4% increase compared to 1Q06 and a 72.8% increase compared to 2Q05. Compared to 1Q06 and 2Q05, the mobile telephony services gross revenue of 2Q06 surpassed by 9.2% and 131.8%, respectively , due to the increase in the customer portfolio. The gross revenue from handsets and accessories sales was 27.1% higher than the one recorded in 1Q06, due to the promotions of Valentine s Day and Mothers´ Day.
M o b i l e Telephony ARPU	Total mobile telephony ARPU recorded in 2Q06 was R\$26.0. ARPU referring to postpaid accesses was R\$34.6 and ARPU related to prepaid was R\$21.8. Compared to 1Q06, prepaid ARPU increased by 8.3% due to a significant increase of data communication, mainly stimulated by a promotion during FIFA World Cup.
Consolidated Net Revenue	The consolidated net revenue of Brasil Telecom reached R\$2,450.7 million in 2Q06 , 1.1% and 2.9% lower than in 1Q06 and 2Q05, respectively.

Costs and Expenses

Operating Costs and Expenses	In 2Q06, operating costs and expenses totaled R\$2,303.3 million, against R\$2,316.3 million in 1Q06 and R\$2,354.8 million in 2Q05. The items that considerably influenced the variation of 2Q06 compared to 1Q06 were: personnel (-14.6%), other (-62.5%), material (25.5%), provisions (19.5%) and advertising and marketing (107.1%).
-------------------------------------	--

Number of Employees	At the end of 2Q06, 5,384 employees worked in the fixed telephony segment of Brasil Telecom, compared to 5,420 in the previous quarter. BrT Móvel ended 2Q06 with 632 employees, against 735 in 1Q06. By the end of March, 6,016 people worked in the Group, a 2.3% reduction compared to March.
Personnel	In 2Q06, personnel costs and expenses reached R\$161.5 million, a 14.6% decrease compared to the previous quarter. This variation results from a reduction in the staff occurred in 1Q06.
Third-party Services	Costs and expenses with third-party services, excluding interconnection and advertising & marketing, totaled R\$573.2 million in 2Q06, 6.0% higher than the amounts recorded in the previous quarter, partially justified by the call center costs and expenses increase, due to higher BrT Móvel customer base.
Interconnection	Interconnection costs totaled R\$480.6 million in 2Q06, a 3.6% and 20.0% reduction compared to 1Q06 and 2Q05, respectively. This better performance reflects the scale gain of BrT Móvel and the change in the profile of VC traffic, in which VC-1 calls, responsible for the larger portion of the interconnection cost (VU-M), reduced their share compared to the total traffic. In 2Q06, there was a 13.33% negative readjustment of TU-RL, offset by the readjustments of VU-M (4.5%) and TU-RIU (2.9%).
Advertising and Marketing	Advertising & marketing expenses totaled R\$42.2 million in 2Q06, a 107.1% increase compared to 1Q06 mainly resulting from advertising campaigns promoted in the Mothers' Day and in the Valentine's Day. The expenses of BrT Móvel related to advertising and marketing amounted to R\$20.2 million, representing 47.8% of the Group total expenses related to advertising and marketing.
Accounts Receivable Losses (PCCR)/Operating Gross Revenue (ROB)	The Accounts Receivable Losses (PCCR) and the gross revenue ratio in 2Q06 was 2.3%, against 3.1% in 1Q06 and totaled R\$84.3 million in 2Q06, 25.2% lower than in 1Q06.
Provisions for Contingencies	In 2Q06, provisions for contingencies totaled R\$140.3 million, a R\$65.1 million increase compared to 1Q06, justified by provisions for tax and labor contingencies.

Materials **Material costs and expenses totaled R\$105.2 million in 2Q06**, a 25.5% increase compared to 1Q06. **Material costs and expenses of BrT Móvel totaled R\$81.8 million**, representing 77.7% of the total material costs and expenses recorded by the Group. Excluding the costs and expenses of BrT Móvel with material, the material costs and expenses of Brasil Telecom reached R\$23.5 million in 2Q06, against R\$23 million in 1Q06 and R\$24.7 million in 2Q05.

Other Operating Costs and Expenses/Revenues **Other operating costs and expenses amounted to R\$47.2 million in 2Q06**, a 62.5% reduction compared to 1Q06, with fines resulting from the termination of operating agreements with maintenance services providers in the amount of R\$31.3 million, offset, among other factors, by the recovery of State and Federal taxes.

EBITDA

R \$ 8 1 6 . 3 **Brasil Telecom s consolidated EBITDA was R\$816.3 million in 2Q06. The consolidated million EBITDA EBITDA margin reached 33.3% in 2Q06.** In 1Q06, the EBITDA reached R\$830.3 million, representing an EBITDA margin of 33.5%, while in 2Q05, EBITIDA reached R\$833.1 million, representing an EBITDA margin of 33.0%.

EBITDA of BrT Móvel stood negative at R\$47.9 million in 2Q06, representing a negative EBITDA margin of 19.1%. The performance of BrT Móvel in 2Q06 is linked to the scale gain obtained due to the increase in the subscriber base and to the customer acquisition cost (SAC), both in compliance with the goals established by Brasil Telecom.

Indebtedness

Total Debt **By the end of June 2006, Brasil Telecom s consolidated gross debt totaled R\$4,573.3 million**, 1.6% lower than that registered by the end of March.

Net Debt Brasil Telecom closed 2Q06 with a cash of R\$1,175.0 million, against R\$1,031.5 million at the end of March. Additionally, in 2Q06, the Company had R\$191.4 million referring to contractual retentions related to debt covenants and R\$106.5 million, related to short-term temporary investments. In 1Q06, the amount of contractual retentions was R\$191.4 million and there were no temporary investments. **The consolidated net debt totaled R\$ 3,100.3 million**, 9.5% lower than that recorded in March 2006.

Long-term debt In June, **65.4%** of the total debt was allocated in the long term.

Accumulated Cost of Debt The Company's consolidated debt had in 2Q06 an **accumulated cost of 11.5% p.a., equivalent to 72.2% of the CDI.**

Financial Leverage At the end of June 2006, **Brasil Telecom's financial leverage**, represented by the ratio of its net debt to shareholders' equity, **was equal to 56.3%**, against 62.3% in the previous quarter.

17.01 SPECIAL REVIEW REPORT UNQUALIFIED

(Convenience Translation into English from the Original Previously Issued in Portuguese)

INDEPENDENT ACCOUNTANTS REVIEW REPORT

To the Management and Shareholders of
Brasil Telecom S.A.
Brasília DF

1. We have performed a special review of the accompanying interim financial statements of Brasil Telecom S.A. and subsidiaries (Company and consolidated), consisting of the balance sheets as of June 30, 2006, and the related statements of income for the quarter and six-month period then ended and the performance report, all expressed in Brazilian reais and prepared in accordance with Brazilian accounting practices under the responsibility of the Company's management.
2. We conducted our review in accordance with specific standards established by the Brazilian Institute of Independent Auditors (IBRACON), together with the Federal Accounting Council, which consisted principally of: (a) inquiries of and discussions with persons responsible for the accounting, financial and operating areas as to the criteria adopted in preparing the interim financial statements, and (b) review of the information and subsequent events that had or might have had material effects on the financial position and results of operations of the Company and its subsidiaries.
3. Based on our special review, we are not aware of any material modifications that should be made to the interim financial statements referred to in paragraph 1 for them to be in conformity with Brazilian accounting practices and standards established by the Brazilian Securities Commission (CVM), specifically applicable to the preparation of mandatory interim financial statements.
4. We conducted our special review for the purpose of issuing a review report on the mandatory interim financial statements. Supplemental disclosure of cash flow information is presented for purposes of additional analysis. Such supplemental information for the six-month period ended June 30, 2006 has been subjected to the same review procedures applied to the interim financial statements and, based on our special review, we are not aware of any material modifications that should be made to the statement of cash flows for it to be presented fairly, in all material respects, in relation to the interim financial statements taken as a whole.
5. The balance sheets as of March 31, 2006, presented for comparative purposes, were reviewed by us and our review report thereon, dated May 12, 2006, was unqualified. In addition, the statements of income for the quarter and six-month period ended June 30, 2005 and the statement of cash flows for the six-month period

Edgar Filing: BRASIL TELECOM SA - Form 6-K

ended June 30, 2005, presented for comparative purposes, were reviewed by other independent auditors, whose review report thereon, dated July 29, 2005, was unqualified and contained an emphasis of matter paragraph regarding the agreement entered into on April 28, 2005, establishing the merger of the subsidiary 14 Brasil Telecom Celular S.A. into Tim Brasil Serviços e Participações S.A.

6. The accompanying interim financial statements have been translated into English for the convenience of readers outside Brazil.
