MATERIAL FACT

TARIFF ADJUSTMENT

Pursuant to CVM Instruction #358, dated January 3, 2002, COMPANHIA DE SANEAMENTO BÁSICO DO ESTADO DE SÃO PAULO - SABESP hereby announces that, in accordance with article 28 of the Tariff System Regulation approved by State Decree #41,446, dated December 16, 1996, tariffs of water supply and sewage collection services will be adjusted using the formula below:

$$\text{IRT} = \frac{(\text{VPA} \times \text{IrA}) + (\text{VPB} \times \text{IrB})}{\text{R}}$$

Where:

IRT =Tariff Adjustment Index

VPA =Amount A: corresponds to the values recorded between July 2006 and June 2007, related to costs and expenses with: electric power; treatment supplies; federal taxes and fees including CPMF Contribuição Provisória sobre Movimentação Financeira (Temporary Contribution on Financial Transactions) and the Cofins/Pasep taxes on revenues; state and municipal taxes and fees;

IrA = Adjustment Index for Amount A: corresponds to the annual variation of the following ratio: Amount A values, accumulated between July 2006 and June 2007, divided by the accumulated billed volume in the same period, in relation to the ratio calculated between the Amount A values, accumulated between July 2005 and June 2006, divided by the accumulated billed volume in the same period;

VPB =Amount B: obtained by the difference between Gross Operating Revenues, accumulated between July 2006 and June 2007, and the Amount A for the same period;

IrB = Adjustment Index for Amount B: corresponds to the IPCA Index (Brazilian Wide Ranging Consumer Price Index, published by IBGE - Instituto Brasileiro de Geografia e Estatística (Brazilian Institute of Geography and Statistics)), accumulated between August 2006 and July 2007;

R = Gross Operating Revenues: corresponds to the values recorded between July 2006 and June 2007, originated from direct and indirect operating revenues related to water supply and sewage collection services;

One should consider SABESP's official information as data source for the tariff adjustment calculation, in particular the Financial Statements periodically issued (i.e. DFP - Demonstrações Financeiras Padronizadas (Standard Financial Statements according to the Brazilian Corporate Law) and ITR - Informações Trimestrais (Quarterly Financial Information according to the Brazilian Corporate Law)).

The result of the adjustment formula implies in an adjustment of 4.12% (four point twelve percent) of the water supply and sewage collection tariffs, except for water supply and sewage collection tariffs for consumptions larger than 20m³ of the non-residential use categories which will be adjusted according to the IPCA Index (Brazilian Wide Ranging Consumer Price Index, published by IBGE - Instituto Brasileiro de Geografia e Estatística (Brazilian Institute of Geography and Statistics)), accumulated between August 2006 and July 2007, at 3.74% (three point seventy four percent).

Aligned with the national guidelines for basic sanitation, specially concerning article 39 of Law #11,445/07, as of the 2007 tariff adjustment, Companhia de Saneamento Básico do Estado de São Paulo - SABESP starts disclosing the adjusted tariffs thirty (30) days before their effectiveness, so that the adjusted tariffs will be effective as of September 10, 2007.

The details about the application of the adjustment containing the tariffs for the water supply and sewage collection services will be made available on Sabesp's website, www.sabesp.com.br, as well as in all the customer service offices, and, in the Official Gazette of the State of São Paulo.

São Paulo, August 11, 2007.
