Comments on the Company's Performance

2. Gross operating revenue

Gross operating revenue from water and sewage grew from R\$ 2.3 billion in 1Q13 to R\$ 2.4 billion in 1Q14, an increase of R\$ 125.7 million or 5.4%.

The main factors that led to this variation were:

- Increase of 5.2% in the Company's total billed volume (4.9% in water and 5.5% in sewage); and
- Average effect of the 5.3% tariff adjustment.

The tariff adjustments in 2013 were:

- The tariff repositioning index of 2.35% applied since April 2013; and
- Tariff adjustment of 3.1% since December 2013.

The increases mentioned above were partially offset by the higher reversion of estimated revenue in 1Q14, in the amount of R\$ 75.6 million, compared to 1Q13 and by higher provision for revenue losses on the wholesale basis, in the amount of R\$ 39.6 million.

3. Construction revenue

Construction revenue increased R\$ 35.6 million or 7.2%, when compared to 1Q13. The variation was mainly due to higher investments in 1Q14.

4. Billed volume

The following tables show the water and sewage billed volume, quarter-on-quarter, per customer category and region.

5.1. Payroll and benefits

In 1Q14 payroll and benefits grew R\$ 34.9 million or 7.6%, from R\$ 461.8 million to R\$ 496.7 million, due to the following:

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

ITR — Quarterly Information Form – March 31, 2014 – CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO **Version: 1**

Comments on the Company's Performance

- 8.0% increase in wages since May 2013 and the implementation of the Company's new career and wage plan carried out by the Company, with an impact of approximately R\$ 24.0 million;
- R\$ 5.7 million upturn in the provision for the Pension Plan, arising from changes in actuarial assumptions;
- R\$ 4.0 million increase from the higher number of employees who are entitled to request retirement (TAC); and
- R\$ 2.3 million increase in meal expenses, mainly due to the 13.6% adjustment on meal voucher in May 2013, settled in the collective bargaining agreement.

5.2. Supplies

In 1Q14, expenses with supplies increased by R\$ 2.8 million or 6.3%, when compared to the previous year, from R\$ 44.3 million to R\$ 47.1 million, mostly due to:

- Preventive and corrective maintenance in several water and sewage systems, in the amount of R\$ 1.6 million; and
- Expenses with fuel and lubricants, in the amount of R\$ 1.1 million, from the increase in prices of diesel and ethanol in March and November, 2013, in addition to increased mileage traveled.

5.3. Treatment supplies

Treatment supplies expenses in 1Q14 were R\$ 4.8 million or 7.4% higher than in 1Q13, from R\$ 64.9 million to R\$ 69.7 million. The main factors for this variation were:

- Increase in the consumption of aluminum polychloride, in the amount R\$ 1.9 million, essentially in the Rodolfo Costa e Silva, Guaraú, Campo Limpo Paulista, Presidente Prudente and Hortolândia Water Treatment Stations (WTS) with an upturn of 40.0% in the average cost;
- Increase of R\$ 1.8 million in the consumption of aluminum sulfate, due to the decline in the quality of untreated water in the Casa Grande and Rio Claro WTS, with a 15.5% increase in consumption and of 38.6% in the average cost.; and
- Increase of R\$ 1.2 million in the consumption of Sodium hypochlorite, with a 20.6% increase in consumption and of 11.4% in the average cost.

5.4. Services

Services grew R\$ 86.0 million or 37.6%, from R\$ 228.7 million in 1Q13 to R\$ 314.7 million in 1Q14. The main factors were:

- Reversal of provision in the amount of R\$ 41.4 million, due to the end of the agreement settled with the São Paulo Municipal Government in 1Q13, non-recurring
- Expenses with legal services in the amount of R\$ 13.0 million, regarding the agreement for the resumption of the operation in the municipality of Diadema;
- Expenses with risk contracts for credit recovery, in the amount of R\$ 8.4 million. As a result of these contracts, collection initiatives generated an increase of R\$ 51.8 million in revenue in 1Q14;

ITR — Quarterly Information Form – March 31, 2014 – CIA SANEAMENTO BÁSICO ESTADO DE SÃO PAULO **Version: 1**

Comments on the Company's Performance

- Maintenance in the water and sewage network connections, in the amount of R\$ 6.5 million, mainly due to the intensification of water loss prevention and the execution of services in several areas of the São Paulo Metropolitan Region;
- Maintenance of software and equipment, in the amount of R\$ 5.5 million;
- Hydrometer reading and bill delivery expenses in the amount of R\$ 2.7 million, as a result of the new contracts with services expansion, such as: property inspections, service requests, analysis of outstanding debt and revision of bills;
- Hiring of consultancy, advisory and specialized services, with a R\$ 2.7 million increase, mainly comprising: (i) SiiS project – Sabesp integrated information system, support, updates, maintenance services and information safety management training; and (ii) value generation project through GVA system; and
- Preventive and corrective maintenance in the water and sewage systems in the amount of R\$ 2.4 million.

5.5. Electric power

This item decreased R\$ 4.8 million, or 3.3%, from R\$ 144.8 million in 1Q13 to R\$ 140.0 million this quarter, mainly due to the average reduction of 14.0% in regulated market and distribution grid tariffs, and partially offset by the average increase of 7.1% in free market tariffs associated with the upturn in consumption volume in 1Q14.

5.6. General expenses

General expenses dropped by R\$ 62.7 million or 29.1%, from R\$ 215.4 million in 1Q13 to R\$ 152.7 million in 1Q14, due to the following:

- Decrease in the provision for lawsuits in the amount of R\$ 59.6 million, mainly related to civil (R\$ 32.1 million), environmental (R\$ 19.9 million) and labor (R\$ 6.2 million) contingencies; and

- Agreements for environmental compensation, in the amount of R\$ 17.3 million in 1Q13.

These decreases were offset, in part, by:

- Provision for unrecoverable losses in the amount of R\$ 4.1 million;
- R\$ 3.3 million in provision related to the transfer to the municipal fund, pursuant to the Service Agreement with the São Paulo Municipal Government, as a result of the increase in revenues; and
- R\$ 3.3 million due to institutional support aiming the rational use of water.

5.7. Depreciation and Amortization

Depreciation and amortization increased R\$ 65.0 million or 33.3%, from R\$ 195.2 million in 1Q13 to R\$ 260.2 million in 1Q14, due to the beginning of operations of intangible assets, in the amount of R\$ 1.8 billion.

5.8. Credit write-offs

Credit write-offs decreased R\$ 22.7 million or 60.7%, from R\$ 37.4 million in 1Q13 to R\$ 14.7 million in 1Q14, chiefly due to the lower provision for possible loan losses and higher recoveries through agreements.

Comments on the Company's Performance

5.9. Tax expenses

In 1Q14, there was a decrease of R\$ 20.4 million or 50.9%, chiefly due to increase tax expenses in 1Q13.

6. Other operating revenues/expenses, net

6.1. Other operating revenues

R\$ 5.9 million increase mainly due to revenue from the Rational Water Use Program (PURA) in 1Q14.

6.2. Other operating expenses

R\$ 57.8 million increase in other operating expenses due to:

- Provision for the write-off of works and projects in the amount of R\$ 31.4 million;
- Provision for losses regarding contractual payments related to the agreement with the municipality of Diadema, in the amount of R\$ 13.0 million; and
- Provision for the write-off of hydrometers in the amount of R\$ 11.6 million.

7.1.1. Financial expenses

Financial expenses dropped R\$ 5.1 million or 3.6%. The main reasons were:

- R\$ 10.8 million decrease in other financial expenses, chiefly due to: (i) lower interest due to lower need of provision for lawsuits, in the amount of R\$ 20.3 million; and (ii) costs with funding in the amount of R\$ 3.9 million, due to the early settlement of the balance of the 11th debenture issue in March 2013; and
- R\$ 6 million increase in interest and charges on international loans and financing, due to the increase in total debt, from higher funding, specially the BID loan.

7.2.1. Monetary/currency exchange variation on liabilities

The effect on the monetary/currency exchange variation on liabilities in 1Q14 was R\$ 8.0 million or 10.5% lower than in 1Q13, specially:

- Decrease of R\$ 12.6 million in revenues of exchange rate variation over loans and financing, mainly deriving from the lower depreciation of the Japanese Yen versus Brazilian Real in 1Q14 of 1.6%, when compared to the 9.7% depreciation in 1Q13; partially offset by the depreciation of the US Dollar versus Brazilian Real of 3.4% in 1Q14, compared to a 1.5% depreciation in 1Q13; and;
- R\$ 8.9 million increase in monetary variation expenses over domestic loans and financing, especially the series restated by the IPCA rate of the 17th and 18th debenture issues in February and December 2013, respectively; and
- R\$ 13.5 million decrease in other monetary variation from the lower need for provision for lawsuits.

7.2.2. Monetary variation on assets

Monetary variation on assets decreased by R\$ 4.0 million in 1Q14, chiefly due to monetary adjustment in 1Q13, for the period between the date the 17th issue debenture was issued (January 2013) and the date it was settled (February 2013).

8. Income tax and social contribution

Income tax and social contribution expenses decreased by R\$ 3.8 million, due to the drop in taxable income in the period.

1 Operations

Companhia de Saneamento Básico do Estado de São Paulo ("SABESP" or the "Company") is a mixed-capital company headquartered in São Paulo, at Rua Costa Carvalho, 300, CEP 05429-900, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services in the State of São Paulo, as well as it supplies treated water on a wholesale basis.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The objective set in the new vision of SABESP is to be recognized as the company that ensured universal access to water and sewage services in its marketplace, in a sustainable and competitive manner, with excellence in customer service.

On March 31, 2014, the Company operated water and sewage services in 364 municipalities of the State of São Paulo. Most of these municipalities operations are based on 30-year concession, program and services contracts. The Company has two partial contracts with the municipality of Mogi das Cruzes, however, since most of municipality is serviced by wholesale, it was not included in the 364 municipalities. On March 31, 2014, the Company had 366 contracts.

SABESP is not temporarily operating in some municipalities due to judicial orders. The lawsuits in progress refer to Álvares Florense, Cajobi, Embaúba, Iperó and Macatuba, and the carrying amount of these municipalities' intangible assets was R\$11,351 as of March 31, 2014.

As of March 31, 2014, 55 concession agreements had expired and are being negotiated. From 2014 to 2030, 38 concession agreements will expire. Management believes that concession agreements expired and not yet renewed will result in new contracts, disregarding the risk of discontinuity in the provision of municipal water supply and sewage services. By March 31, 2014, 273 program and services contracts were signed (266 contracts on December 31, 2013).

As of March 31, 2014, the carrying amount of the underlying assets used in the 55 concessions of the municipalities under negotiation totaled R\$5,904,134, accounting for 24.43% of total, and the related gross revenue for the quarter then ended totaled R\$501,129 on March 31, 2014, accounting for 16.84% of total.

The Company's operations are concentrated in the municipality of São Paulo, which represents 50.29% of the gross revenues on March 31, 2014 (50.57% on March 31, 2013) and 42.21% of intangible assets (42.46% on December 31, 2013).

On June 23, 2010, the State of São Paulo, the municipality of São Paulo, the Company and the regulatory agency “Sanitation and Energy Regulatory Agency – ARSESP” signed an agreement to share the responsibility for water supply and sewage services to the Municipality of São Paulo based on a 30-year concession agreement. This agreement is extendable for another 30 years, pursuant to the law. This agreement sets forth SABESP as the exclusive service provider and designates ARSESP as regulator, establishing prices, controlling and monitoring services.

Notes to the Interim Financial Information

Also, on June 23, 2010, the State of São Paulo, the city of São Paulo and SABESP signed the “Public service provision agreement of water supply and sewage services”, a 30-year concession agreement which is extendable for another 30 years. This agreement involves the following activities:

- i. protection of the sources of water in collaboration with other agencies of the State and the City;
- ii. capture, transport and treat of water;
- iii. collect, transport, treatment and final dispose of sanitary sewage; and
- iv. adoption of other actions of basic and environmental sanitation.

In the municipality of Santos, in the Santos coast region, which has a significant population, the Company operates under an authorization by public deed, a situation similar to other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that formed it. As of March 31, 2014, the carrying amount of the municipality of Santos’ intangible assets was R\$335,183 (R\$340,530 on December 31, 2013) and gross revenue in the three-month period ended March 31, 2014 was R\$63,407 (R\$65,142 on March 31, 2013).

Article 58 of Law 11,445/07 determines that precarious and overdue concessions, as well as those effective for an undetermined period of time, including those that do not have an instrument formalizing them, will be valid until December 31, 2010. However, Article 2 of Law 12,693 of July 24, 2012 allows program agreements to be executed until December 31, 2016.

The Company’s Management understands that the concession agreements not yet renewed are valid and will be governed by Laws 8,987/95 and 11,445/07, including those municipalities served without an agreement.

Public deeds are valid and governed by the Brazilian Civil Code.

The Company's shares have been listed in the *Novo Mercado* (New Market) segment of BM&FBovespa under the ticker symbol SBSP3 since April 2002 and on the New York Stock Exchange (NYSE) as American Depositary Receipts (“ADRs”) Level III, under the SBS code, since May 2002. In 2007, SABESP adhered to the Corporate Sustainability Index, or ISE of BM&FBovespa, which reflects the high level of commitment with sustainable development and social practices.

Since 2008, the Company has been setting up partnerships with other companies, which resulted in the following companies: Sesamm, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental, Águas de Castilho and Attend Ambiental. Although SABESP has no majority interest in the capital stock of these companies, the shareholders’ agreements provide for the power of veto and casting vote in certain issues jointly with associates, indicating the shared control in the management of investees.

The interim financial information was approved by the Board of Directors on May 14, 2014.

2 Basis of preparation and presentation of the interim financial information

Presentation of the quarterly financial information

The quarterly financial information as of March 31, 2014 was prepared based on the provisions of CPC 21 (R1) – Interim Financial Information and the international standard IAS 34 – Interim Financial Reporting, issued by the International Accounting Standards Board (IASB), applicable to the preparation of Quarterly Information Form– ITR and they are fairly presented consistent with the rules issued by the Brazilian Securities and Exchange Commission (CVM). Therefore, this Interim Financial Information take into consideration the official letter CVM/SNC/SEP 003 of April 28, 2011, which allows the entities to present selected notes to the financial statements, in cases of redundant information already disclosed in the Annual Financial Statements. The quarterly financial information for the period ended March 31, 2014, therefore, does not include all the notes and reporting required by the CPC (“Brazilian Accounting Pronouncements Committee”) for the annual financial statements and, accordingly, must be read together with the annual financial statements under CPC and IFRS for the year ended December 31, 2013.

Notes to the Interim Financial Information

2.1 Accounting policies

The accounting policies used in the preparation of the quarterly financial information for the quarter ended March 31, 2014 are consistent with those used to prepare the Annual Financial Statements for the year ended December 31, 2013. These policies are disclosed in Note 3 to the Annual Financial Statements.

3 Financial Risk Management

3.1 Financial risk factors

The Company's activities are affected by Brazilian economic scenario, making it exposed to market risk, such as exchange rate, interest rate, credit risk and liquidity risk. The Company's financial risk management is focused on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

The Company has not utilized derivative instruments in any of the reported periods.

(a) Market risk

Foreign currency risk

SABESP's foreign exchange exposure implies market risks associated with Brazilian Real currency fluctuations against the US dollar and yen. SABESP's foreign currency-denominated liabilities mainly include US dollar and yen-denominated loans.

In case of Brazilian *real* depreciation in relation to foreign currency in which the debt is denominated, SABESP will incur in monetary loss in relation to such debt.

SABESP's specific foreign currency risks are related to exposures caused by its current and non-current debts denominated in foreign currency.

The management of SABESP's foreign currency exposure considers several current and projected economic factors, besides market conditions.

ITR — Quarterly Information Form — March 31, 2014 — CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO **Version: 1**

Notes to the Interim Financial Information

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations that would impact liability balances of foreign currency-denominated loans and financing raised in the market and related financial expenses. The Company does not maintain hedge or swap contracts or any financial instrument to hedge against this risk, but conducts an active management of debt, taking advantage of opportunities to change expensive debts with “cheaper” debts, reducing the cost through early maturity.

A significant amount of the Company’s financial debt is indexed to the U.S. dollar and Yen, in the total amount of R\$3,725,273 on March 31, 2014 (R\$3,715,645 in December 2013). Below, the Company’s exposure to foreign exchange risk:

	March 31, 2014		December 31, 2013	
	Foreign currency	R\$	Foreign currency	R\$
Loans and financing – US\$	1,204,894	2,726,675	1,181,256	2,767,210
Loans and financing – Yen	43,700,825	960,107	41,504,249	926,790

Financing cost		(18,058)		(17,092)
Total loans in foreign currency		3,707,215		3,698,553

As of March 31, 2014, if the Brazilian *real* had depreciated or appreciated by 10% against the US dollar and Yen with all other variables held constant, effects on results before taxes on March 31, 2014 would have been R\$372,527 (R\$371,564 in December 2013), lower or higher, mainly as a result of foreign exchange losses or gains on the translation of foreign currency-denominated loans.

Scenario I below presents the effect in income statements for the next 12 months, considering the projected rates of the U.S. dollar and the Yen. Considering the other variables as remaining constant, the impacts for the next 12 months are shown in scenarios II and III with possible depreciations of 25% and 50%, respectively, in the Brazilian Real.

	Scenario I (Probable) (*)	Scenario II (+25%)	Scenario III (+50%)

1****Notes to the Interim Financial Information****Interest rate risk**

This risk arises from the possibility that the Company could incur losses due to fluctuations in interest rates, increasing the financial expenses related to loans and financing.

The Company has not entered into any derivative contract to hedge against this risk; however continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

The table below provides the Company's loans and financing subject to variable interest rate:

	March 31, 2014	December 31, 2013
TR ⁽ⁱ⁾	1,569,386	1,646,546

LIBOR ^(v)	1,598,949	1,599,815
Interest and charges	66,157	120,839

(i) TR – Interest Benchmark Rate

(ii) CDI (Certificado de Depósito Interbancário), an interbank deposit certificate

(iii) TJLP (Taxa de Juros a Longo Prazo), a long-term interest rate index

(iv) IPCA (Índice Nacional de Preços ao Consumidor Amplo), a consumer price index

(v) LIBOR - London Interbank Offered Rate

Another risk to which the Company is exposed, is the mismatch of the monetary restatement indices of its debts with those of its service revenues. Water supply and sewage services tariffs do not necessarily follow the increases in the interest rates affecting the Company's indebtedness.

As of March 31, 2014, if interest rates on loans and financing denominated in Brazilian *reais* had been 100 basis points higher or lower with all other variables held constant, the effects on profit for the period before taxes would have been R\$68,738 (R\$69,831 in December 2013) lower or higher, mainly as a result of a lower or higher interest expense on floating rate loans and financing.

**Version:
1****Notes to the Interim Financial Information****(b) Credit risk**

Credit risk arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to wholesale basis and retail customers, including outstanding accounts receivable, restricted cash, accounts receivable from related parties and indemnities. The Company is required by law to invest its funds with Banco do Brasil (rating AA+(bra)). Credit risk exposure is mitigated by sales to a dispersed customer base.

The maximum exposures to credit risk at the reporting date are the carrying amounts of instruments classified as cash equivalents, deposits in banks and financial institutions, restricted cash, trade accounts receivable and accounts receivable from related parties in the balance sheet date, as per Notes 5, 6, 7 and 8).

Regarding the financial assets held with financial institutions, the credit quality that is not past due or subject to provision for impairment may can be assessed by reference to external credit ratings (if available) or to historical information about counterparty default rates. The credit quality of counterparties which are banks, such as deposits and financial investments, the Company considers the lower rating of the counterparty published by three main international rating agencies (Moody's, Fitch and S&P), according to internal policy of market risk management:

(c) Liquidity risk

The Company's liquidity is primarily reliant upon cash provided by operating activities, loans from Brazilian Federal and State governmental financial institutions, and financing in the domestic and international capital markets. The liquidity risk management considers the assessment of its liquidity requirements to ensure it has sufficient cash to meet its Capex and operating expenses needs, as well as the payment of debts.

The funds held by the Company are invested in interest-bearing current accounts, time deposits, short-term deposits and securities, selecting instruments with appropriate maturity or liquidity sufficient to provide margin as determined by projections mentioned above.

The table below analyzes the financial assets and liabilities of the Company, into relevant maturities, including the installment of principal and interest to be paid according to the agreement.

Future interest

Future interest was calculated based on the contractual clauses for all agreements. For agreements with floating interest rate, the interest rates used correspond to the base dates above.

Cross default

The Company has loan agreements including cross default clauses, i.e., the early maturity of any Company's debt will imply the early maturity of these agreements. The indicators are continuously monitored in order to avoid the execution of this clause.

(d) Sensitivity analysis on interest rate risk

The table below shows the sensitivity analysis of the financial instruments, prepared in accordance with CVM Rule 475/2008 in order to evidence the balances of main financial assets and liabilities, calculated at a rate projected until the final settlement of each contract, considering a probable scenario (scenario I), appreciation of 25% (scenario II) and 50% (scenario III).

The purpose of the sensitivity analysis is to measure the impact of changes in the market over the financial instruments of the Company, considering constant all other variables. In the time of settlement the amounts can be different from those presented above, due to the estimates used in the measurement.

3.2 Capital management

The Company's objectives when managing capital are ensure its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital based on the leverage ratio. This ratio corresponds to net debt divided by total capital. Net debt corresponds to total loans and financing less cash and cash equivalents. Total capital is calculated as total equity as shown in the statement of financial position plus net debt.

On March 31, 2014 the leverage ratio fell to 36% versus the 37% recorded on December 31, 2013, due to an increase in equity deriving from profit for the period.

3.3 Fair value estimates

It is assumed that balances from trade accounts receivable (current) and accounts payable to suppliers by carrying amount approximate their fair values, considering the short maturity. Long-term trade accounts receivable also approximate their fair values, as they will be adjusted by inflation and/or will bear contractual interest rates over time.

3.4 Financial Instruments

On March 31, 2014 and December 31, 2013, the Company did not have financial assets classified into the fair value categories through profit or loss, held to maturity and available for sale. The Company's financial instruments included

in the loans and receivables category comprise cash and cash equivalents, trade accounts receivable, balances with related parties, other accounts receivable, balances receivable from the Water National Agency – ANA, contractors and suppliers, loans and financing, balances payable deriving from the Public Private Partnership-PPP and program contract commitments, which are non-derivative financial assets and liabilities with fixed or determinable payments, not quoted in an active market.

To obtain fair value of loans and financing, the following criteria have been adopted:

- (i) Agreements with CEF (Federal Savings Bank) were projected until final maturity, at contractual rates (projected TR + spread) and discounted at present value by TR x DI, both rates were obtained from BM&FBovespa.

(ii) Debentures were projected up to the final maturity date according to contractual rates (IPCA, DI, TJLP or TR), and discounted to present value considering the future interest rate published by ANBIMA in the secondary market, or by market equivalent rates, or the Company's share traded in the Brazilian market.

(iii) BNDES loans are financial instruments valued at carrying amount plus contractual interest rate till mature date, and are indexed by long term interest rate – TJLP.

These loans have specific characteristics and the conditions defined in the loan agreements with BNDES between independent parties, and reflect the conditions for those types of loan. In Brazil, a consolidated market of long-term debts does not exist with the same characteristics of BNDES loans, the offering of credit to the entities in general, with this long-term characteristic, usually is restricted to BNDES.

(iv) Other financing in local currency are considered by carrying amount plus contractual interest rate till mature date, discounted to present value considering a future interest rate published by BM&FBovespa.

Notes to the Interim Financial Information

(v) Agreements with IDB, IBRD, were projected until final maturity in origin currency, applying interest rates contracted, discounted at present value at Libor futures rate, obtained from Bloomberg. Eurobonds were priced at market value through quotes published by Bloomberg. All the amounts obtained were translated into Brazilian *reais* at the exchange rate of March 31, 2014.

(vi) Agreements with JICA, were projected until final maturity in origin currency, using interest rates contracted and discounted at present value, at Tibor futures rate obtained from Bloomberg. The amounts obtained were translated into Brazilian reais at the exchange rate of March 31, 2014.

(vii) Leases are financial instruments considered by face value restated until maturity date, whose characteristic is the indexation by fixed contractual rate, which is a specific type, not compared to any other market rate. Thus, the Company discloses as market capitalization, the amount recorded on March 31, 2014.

Considering the nature of other financial instruments, assets and liabilities of the Company, the balances recognized in the statement of financial position approximate the fair values, taking into account the maturities close to the end of the reporting period, comparison of contractual interest rates with market rates in similar operations at the end of the reporting periods, their nature and maturity terms.

4 Critical accounting estimates and judgments

Estimates and judgments are continually evaluated and are based on historical experience and on other factors, including expectations of future events that are believed to be reasonable under the circumstances.

There were no changes in relation to what was presented in the Annual Financial Statements as of December 31, 2013, as per Note 5.

5 Cash and Cash Equivalents

	March 31, 2014	December 31, 2013
Cash and banks	99,363	189,836
Cash equivalents	1,883,109	1,592,165
	1,982,472	1,782,001

Cash and cash equivalents include cash, bank deposits and high-liquidity short-term financial investments, mainly represented by repurchase agreements (accruing CDI interest rates), deposited at Banco do Brasil, whose original maturities are lower than three months, which are convertible into a cash amount and subject to an insignificant risk of change in value.

The average yield of financial investments corresponds to 99.85% of CDI in March 2014 (100.00% in December 2013).

Notes to the Interim Financial Information

(*) On March 18, 2014, the State of São Paulo, the municipality of Diadema and SABESP entered into a “Water Supply and Sewage Public Utility Services Agreement” in the municipality of Diadema. Through this contract, the State of São Paulo and the municipality of Diadema have ensured to SABESP (or subsidiary) exclusive rights to render services for a 30-year term.

On this same date, judicial settlements were signed in lawsuits filed by SABESP against the municipality of Diadema and Saned – a municipal company. Through these settlements, SABESP, the municipality of Diadema and Saned agree to suspend the execution of suits to collect receivables related to water supply at wholesale and collection of indemnity debt. The debts will progressively decrease throughout a 30-year period, under the condition that the settlements and the services agreement are fully complied with.

This balance is fully accrued as losses.

From January to March 2014, there were no relevant changes in relation to the operations presented in the financial statements as of December 31, 2013.

- (i) General customers - residential and small and mid-sized companies

- (ii) Special customers - large consumers, commercial, industries, condominiums and special billing consumers (industrial waste, wells, etc.).

- (iii) Agreements - installment payments of past-due receivables, plus monetary restatement and interest.

(iv) Wholesale basis customers - municipal governments - This balance refers to the sale of treated water to municipalities, which are responsible for distributing to, billing and charging final customers. Some of these municipalities are questioning in court the tariffs charged by SABESP, which have full allowance for doubtful accounts. Additionally, the overdue amounts are substantially included in the allowance for doubtful account and are classified in noncurrent assets.

Notes to the Interim Financial Information

(v) The noncurrent portion consists of trade accounts receivable that are past due and renegotiated with customers and amounts past due related to wholesale basis to municipal governments, and the amounts are net of allowance for doubtful account.

(b) The aging of trade accounts receivable is as follows:

	March 31, 2014	December 31, 2013
Current	1,118,102	1,243,156
Past-due:		
Up to 30 days	223,084	191,668
From 31 to 60 days	119,906	105,542
From 61 to 90 days	77,517	60,868
From 91 to 120 days	54,679	51,932

Total past-due	3,260,390	3,129,093
Total	4,378,492	4,372,249

The increase in the balance overdue is mainly due to accounts receivable at wholesale, where the municipalities are challenging in court the tariffs charged by SABESP. These amounts are fully covered by the allowance for doubtful accounts.

Notes to the Interim Financial Information

(c) Use of reservoirs - EMAE

Empresa Metropolitana de Águas e Energia S.A. - EMAE plans to receive for the credit and to obtain financial compensation for the use of water from the Guarapiranga and Billings reservoirs, which SABESP uses in its operations, as well as the reimbursement of damages related to the failure to pay appropriately.

The Company understands that no amounts are due for the use of these reservoirs given the grants already made. Should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. There is a risk of not properly rendering services in the region, besides increasing water supply cost.

Several lawsuits were filed by EMAE, among them a lawsuit to create an arbitration clause related to the Guarapiranga reservoir, a proceeding which had already started and another one, equally pleading for financial compensation due to SABESP's water collect from Billings reservoir for public supply, these two lawsuits alleging that this conduct has been causing permanent and growing loss in the capacity of generating electricity of Henry Borden hydroelectric power plant with financial losses.

SABESP understands that the expectation for all cases is of possible losses, and for the time being, it is not feasible to estimate the amounts involved, since they were not determined.

On April 10, 2014, we issued a Notice to the Market including the information we have been discussing with EMAE about any future agreement. However, no adjustment was confirmed up to date and no agreement was executed by either party up to date (See Note 29).

(d) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Water Rational Use Program (PURA).

The Company has signed agreements with government entities related to the State Government and municipalities where it operates that benefit from a reduction of 25% in the tariff of water supply and sewage services when they are not in default. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in the consumption of water.

(e) Guarantees

The State Government provides guarantees for some loans and financing of the Company and does not charge any fee with respect to such guarantees.

(f) Personnel assignment agreement among entities related to the State Government

The Company has personnel assignment agreements with entities related to the State Government, under which the expenses are fully passed on and monetarily reimbursed. From January to March 2014 and in 2013, the expenses related to personnel assigned by SABESP to other state government entities amounted to R\$2,494 and R\$2,761, respectively.

From January to March 2014 and in 2013, expenses related to personnel assigned by other entities to SABESP totaled R\$96 and R\$258, respectively.

(g) Services obtained from state government entities

ITR — Quarterly Information Form — March 31, 2014 — CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO **Version: 1**

Notes to the Interim Financial Information

As of March 31, 2014 and December 31, 2013, SABESP had an outstanding amounts payable of R\$1,692 and R\$1,791, respectively, for services rendered by São Paulo State Government entities.

(h) Non-operating assets

As of March 31, 2014 and December 31, 2013, the Company had an amount of R\$969 related to free land lent to DAEE (Water and Electricity Department).

(i) SABESPREV

The Company sponsors a private defined benefit pension plan, which is operated and administered by Fundação Sabesp de Seguridade Social - SABESPREV. The net actuarial liability recognized as of March 31, 2014 amounted to R\$557,597 (R\$546,748 in December 2013), according to Note 18 (b).

(j) Compensation of Management Key Personnel

Expenses related to the compensation to the members of its board of directors and officers amounted to R\$853 and R\$750 for the first three months of 2014 and 2013, respectively, and they refer to short-term benefits. An additional amount of R\$140 and R\$141, related to the Officers' bonus program, was recorded in the first three months of 2014 and 2013, respectively.

(k) Loan agreement through credit facility

The Company holds interest in certain Special Purpose Entities (SPE), not holding the majority interest but with cast vote and power of veto in some issues. Therefore, these SPEs are considered for accounting purposes as jointly-owned subsidiaries.

The Company entered into a loan agreement through credit facility with the SPEs Águas de Andradina S.A., Águas de Castilho S.A. Aquapolo Ambiental S.A. to finance the operations of these companies, until the loans and financing requested with financial institutions is cleared.

The contracts signed on January 19, 2012 with Águas de Andradina and Águas de Castilho were settled in July 2012, according to the agreement's provisions. On July 18, 2012, new agreements were signed with both companies, pursuant to the conditions in the table below. The agreement signed with Aquapolo Ambiental on March 30, 2012 remains with the same characteristics, according to the table below:

Notes to the Interim Financial Information

(*) The loan agreements with SPEs Águas de Andradina and Águas de Castilho mature when funds deriving from long-term agreement with the Brazilian Development Bank – BNDES are released, when borrower will settle all and any debt deriving from current opening of loan facility.

The amount disbursed is recognized in Assets under “Other Receivables” and amounts to R\$1,830 for principal and R\$472 for interest recognized in Current Assets and R\$24,629 for principal and R\$6,496 for interest in Noncurrent Assets. As of March 31, 2014, the balance of principal and interest rates of these contracts is R\$33,427 (R\$32,058 as of December 31, 2013). In the period between January and March 2014, financial income recognized was R\$1,381 (R\$585 as of March 31, 2013).

(l) *Se Liga na Rede* (Connect to the Network Program)

The State Government enacted the State Law nº 14,687/12, creating the pro-connection program, destined to financially subsidize the execution of household branches necessary to connect to the sewage collecting networks, in low income households which agreed to adhere to the program. The program expenditures are financed with 80% of funds deriving from the State Government and the remaining 20% invested by SABESP, which is also liable for the execution of works. On March 31, 2014, the program total amount was R\$45,456, R\$17,463 recorded in balances receivable from related parties, the amount of R\$12,689 recorded in the group of intangible assets and R\$15,304 reimbursed by GESP.

9 Water National Agency - ANA

Refers to agreements executed within the scope of the Hydrographic Basin Depollution Program (PRODES), also known as "Treated Sewage Purchase Program".

This program does not finance works or equipment, remunerates by results achieved, i.e., by effectively treated sewage. In this program, the Water National Agency (ANA) makes available funds, which are restricted to a specific current account and applied in investment funds at the Caixa Econômica Federal - Federal Savings Banks (CEF), until the fulfillment of treated sewage volume is evidenced, as well as, the reduction of polluting cargoes of each contract.

On March 31, 2014, the balances of assets and liabilities were R\$117,705 (December 2013 – R\$107,003), and the liabilities are recorded under "Other liabilities" of noncurrent liabilities.

10 Investments

The Company holds interest valued by the equity accounting in the following investees: Sesamm – Serviços de Saneamento de Mogi Mirim S/A, Águas de Andradina, Águas de Castilho, Saneaqua Mairinque, Aquapolo Ambiental and Attend Ambiental.

Although SABESP has no majority shares of its investees, the shareholders' agreement provides for the power of veto in certain management issues, indicating participating shared control (joint venture – CPC 19(R2)).

See information about these companies' activities in Note 11 to the Financial Statements as of December 31, 2013. In the quarter ended March 31, 2014, there were no relevant changes in the operations of these investees.

ITR — Quarterly Information Form – March 31, 2014 – CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO **Version: 1**

Notes to the Interim Financial Information

Description	Amount
Ongoing works and projects	31,426
Write-off of hydrometers	11,658
Other	2,193
Total	45,277

(f) Capitalization of interest and other financial charges

In the first quarter of 2014, the Company capitalized interest and inflation adjustment, including related foreign currency exchange effects, in concession intangible assets totaling R\$38,148 with an average rate of 0.71% (R\$57,659 in the first quarter of 2013, with an average rate of 1.27%), during the period in which assets were recorded as works in progress.

(g) Construction margin

The Company acts as a primary responsible to construct and install the infrastructure related to the concession, using own efforts or hiring outsourcing services, receiving the risks and benefits.

As a consequence, the Company recognizes revenue from construction service corresponding to the cost of construction increased by margin. Generally, the constructions related to the concessions are performed by third parties, in such case, the margin of the Company is lower, normally, to cover eventual administration costs, and the responsibility of the primary risk. On March 31, 2014 and 2013 the margin was 2.3%.

Construction margin for the first quarter of 2014 and 2013 was R\$10,755 and R\$9,647, respectively.

(h) Expropriations

As a result of the construction of priority projects related to water and sewage systems, the Company was required to expropriate or establish rights of way in third-parties' properties, and the owners of these properties will be compensated either amicably or through courts.

The assets received as a result of expropriations are recorded as concession intangible assets after the transaction is completed. In the first quarter of 2014 and 2013, the total amount related to expropriations was R\$3,968 and R\$3,832, respectively.

Notes to the Interim Financial Information

(i) Main events in the quarter

On March 5, 2014, SABESP paid the last installment of the agreement entered into with Banco do Brasil.

(ii) Covenants

Some loan and financial agreements have clauses related to meeting certain financial ratios with quarterly or yearly evidence. These covenants are the same disclosed in Note 15 to the Annual Financial Statements as of December 31, 2013.

On March 31, 2014, the Company had met all the requirements set forth by its loan and financing agreement.

(a) Leasing

The Company has lease agreements signed as Financial Lease. During the construction period, works are capitalized to intangible assets in progress and the lease amount is recorded at the same proportion. Works are estimated to be concluded in 2014 and 2015.

After startup, the lease payment period starts (240 monthly installments), whose amount is periodically restated by contracted price index.

On August 31, 2013, the operation of SES Campo Limpo Paulista and Várzea Paulista started and the corresponding amount for March 31, 2014 and December 31, 2013 is R\$142,940 and R\$144,384, respectively.

On March 22, 2014, ETE Campos do Jordão started operations and the corresponding amount on March 31, 2014 is R\$135,835.

(b) Loans and financing contracted and not yet used

SABESP in order to comply with its Capex plan relies on a fund-raising plan.

Financing resources contracted have specific purposes, which have been released for the execution of their respective investments, according to the progress of the works.

(i) Permanent difference related to the provision for actuarial liability (Note 18 (b) (iii)).

(d) Transition Tax Regime (RTT)

For the purposes of calculating the income tax and the social contribution related to 2010 and 2009, the Company opted to adopt the Transition Tax Regime (RTT), which allow eliminate the accounting effects of the Law 11,638/07 and the Provisional Measure 449/08, converted into Law No. 11,941/2009, by the registers in the fiscal books – LALUR and auxiliary controls, without any modification in the bookkeeping.

The Company has been adopting the same tax practices since 2008, as RTT started to be mandatory.

(e) Provisional Measure 627/2013

On November 11, 2013, the Provisional Measure 627 was issued, amending the federal tax laws on the Corporate Income Tax (IRPJ), Social Contribution on Net Income (CSLL), PIS/PASEP Contribution and Contribution of Social Security Financing (Cofins). This Provisional Measure revokes the Transitory Tax Regime (RTT), enacted by Law 11941/09 and also provides for the taxation of legal entity domiciled in Brazil, referring to the equity addition deriving from the profit sharing earned abroad by subsidiaries and associated companies and profit earned by individual residing in Brazil by means of foreign subsidiary. This provisional measure was converted into Law 12,973 on May 13, 2014, see Note 29(h).

ITR — Quarterly Information Form — March 31, 2014 — CIA SANEAMENTO BÁSICO ESTADO DE SÃO PAULO **Version: 1**

Notes to the Interim Financial Information

(c) Explanation on the nature of main classes of lawsuits

(i) Customer claims

Approximately 1,370 lawsuits were filed by commercial customers, which claim that their tariffs should correspond to other consumer categories, and 720 lawsuits which claim a reduction in the sewage tariff due to losses in the system, consequently requesting the refund of amounts charged by the Company. The Company was granted both favorable and unfavorable final decisions at several court levels and recognized provisions when the chances of losses are probable. The R\$4,528 increase in the lawsuits classified as probable loss (net of escrow deposits) is related to new lawsuits filed and interest rates, fees and updates of lawsuits in progress, partially offset by payments made in the year and revisions of expectations caused by favorable decisions during 2014.

(ii) Supplier claims

Suppliers' claims include lawsuits filed by some suppliers alleging underpayment of monetary restatements, withholding of amounts related to the understated inflation rates deriving from Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the chances of losses are probable. The R\$86,244 decrease in lawsuits whose likelihood of loss is considered probable (net of escrow deposits) is mainly related payments made during 2014.

(iii) Other civil claims

These mainly refer to indemnities for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, dully accrued when classified as probable losses. The R\$7,945 decrease in lawsuits with probable chances of loss (net of escrow deposits) was mainly due to shelving of several lawsuits and revisions of expectations caused by favorable decisions to the Company during 2014.

(iv) Tax claims

Tax claims refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's management, accrued when classified as probable loss. The decrease of R\$5,560 in lawsuits with expectation of probable losses (net of escrow deposits) was mainly due to favorable decisions to the Company.

(v) Labor claims

The Company is a party to labor lawsuits, involving issues such as overtime, shift schedule, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as of probable or possible loss. The Company recognized a provision for claims which likelihood of loss is considered probable. The R\$1,205 increase in lawsuits with probable chances of losses (net of escrow deposits) is related to new lawsuits filed and interest rates, fees and updates of lawsuits in progress.

(vi) Environmental claims

Environmental claims refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental – Cetesb, Public Prosecution Office of the State of São Paulo and others, that aim affirmative and negative covenants and penalty is estimated due to failure to comply in addition to the imposition of indemnity due to environmental damages allegedly caused by the Company. The amounts accrued represent the best estimate of the Company at this moment, however, may differ from the amount to be disbursed as indemnity to alleged damages, in view of the current stage of referred proceedings. The R\$7,822 increase in lawsuits with expectation of probable losses (net of escrow deposits) is mainly related to the complementary estimates of lawsuits and agreements in progress.

Foreign exchange variations, net	116,665	129,568
Financial, net	27,519	27,309

(i) This variation is mainly due to interest rates of the Public-Private Partnership agreement of Alto Tietê Production System – CAB – Sistema Produtor Alto Tietê S/A, in the amount of R\$9,569 in the first quarter of 2014.

(ii) The account variation mainly derives from an increase in debt balance indexed to IPCA in view of the 17th and 18th Issue of Debentures. This inflation adjustment derives from changes in the indexes defined in loan agreements, such as, UPR, IPCA, CDI and TJLP, corresponding to 0.2%, 2.2%, 10.6% and 5.0%, respectively, in the first quarter of 2014. (0.0%, 1.9%, 7.0% and 5.0%, respectively, in the same period 2013). The exposures to these rates are shown in Note 3.1.

ITR — Quarterly Information Form – March 31, 2014 – CIA SANEAMENTO BÁSICO ESTADO DE SÃO PAULO **Version: 1**

Notes to the Interim Financial Information

(iii) This reduction derives from the variation in the National Consumer Price Index (INPC) rate of 2.1% the first quarter of 2014 and 2.0% in the same period 2013, which is used to adjust the balance of SABESP's commitment in relation to the deficit of the Sabesprev Mais pension plan.

(iv) Other expenses related to inflation adjustment mainly arises from the adjustment of liabilities referring to investment commitments required by the public-private partnerships and mainly from program contracts indexed by the IPC and IPCA of 2.2% and 2.2% in the first quarter of 2014 and 1.2% and 1.9% % in the first quarter of 2013, respectively.

(v) These inflation adjustments arise from accounts/bills of overdue accounts receivable, which are restated depending on the payment date, by IPCA (2.2% in the first quarter of 2014 and 1.9% in the same period of 2013) or IPC-FIPE (Consumer Price Index, 2.2% in the first quarter of 2014 and 1.2% in the same period of 2013), and escrow deposits, which are adjusted by the index defined by the Judiciary Branch, which varied between 2.0% in the first quarter of 2014 and 2.2% in the same period of 2013.

(vi) The variation is mainly due to interest rates on agreements and installment payments.

(vii) The decrease in foreign exchange variation on loans and financing mainly arises from the 1.6% Yen slighter depreciation against the Brazilian Real in the first quarter of 2014, when compared to the 9.7% depreciation in the same period of 2013. This reduction was partly offset by higher US Dollar depreciation of 3.4% in 2014, compared to 1.5% in 1Q13.

Other operating income is comprised of sale of property, plant and equipment, sale of contracts awarded in public bids, and indemnities and reimbursement of expenses, fines and collaterals, property leases, reuse water, and PURA projects and services.

Other operating expenses consist mainly of write-off of property, plant and equipment due to obsolescence, discontinued construction works, unproductive wells, projects considered economically unfeasible, losses on property, plant and equipment.

(i) The increase in other operating expenses is due to the provision for losses with works, projects, hydrometers and accounts receivable with the municipality of Diadema.

Notes to the Interim Financial Information

29 Events after the reporting period

(a) Capital Stock

The following was approved at the Extraordinary Shareholders' Meeting held on April 30, 2014:

- Company's capital stock increase, without issuing new shares, by capitalizing the capital reserve, in the amount of R\$124,255 and part of the Company's profit reserve balance, in the amount of R\$3,672,057, pursuant to Article 169, Paragraph 1 and Article 199 of Federal Law 6.404/1976.

- amendment to the Company's Bylaws altering (a) the *caput* of Article 3, in order to reflect the Company's new fully paid-up capital stock after the increase provided for in item I above; (b) Article 3, Paragraph 1, in order to increase the limit of authorized capital to fifteen billion reais (R\$15,000,000); (c) Article 14 to update the duties of the three (3) executive boards, due to the changes in their organizational structures.

(b) Allocation of profit for 2013 fiscal year

The Annual Shareholders' Meeting held on April 30, 2014 approved the allocation of profit for 2013, totaling R\$1,923,559:

Legal reserve	96,178
Minimum mandatory dividends (25%)	456,845
Additional dividends	80,620
Investments reserve	1,289,916

(c) Tariff Revision

ARSESP, by means of ARSESP Resolution no. 484/2014, disclosed the result of SABESP's tariff revision, which consists of:

- a) Apply, as of May 11, 2014, the tariff repositioning index of 5.4408% in relation to the tariffs in force and the annual efficiency factor (X Factor) of 0.9386%, to be deducted in the next annual tariff adjustments;
- b) Allow Sabesp, given its market's atypical condition, due to water shortage and the measures that has been taken to stimulate water saving in order to ensure supply, so that it may apply on an appropriate and future date the repositioning index arising from the tariff revision and recalculating and monetarily restating the applicable amounts, so that to ensure its economic and financial breakeven;
- c) The next annual tariff adjustments shall take place on April 11, 2015 and April 11, 2016 and the next tariff revision on April 11, 2017;
- d) Approve the following formula for annual tariff adjustment, to be applied in the second tariff cycle:

$$P_t = [1 + (IPCA - X)/100] * P_{t-1} - FAQ_t$$

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

Notes to the Interim Financial Information

Where:

- * P_t = is the maximum average tariff to be applied during year t of the second tariff cycle
- * IPCA is the percentage variation of IBGE's Extended Consumer Price Index (IPCA/IBGE) for the reference period.
- * X = is the 0.9386% percentage of efficiency to be transferred to users at the end of each t year of the second tariff cycle, as defined in the Final Technical Note no. RTS/004/2014.
- * P_{t-1} = is the maximum average of previous tariff year whose initial value will be P_0 .
- * FAQ_t = is the quality correction factor, expressed in R\$/billed m^3 , to be defined and applied in the future.

However, at the end of January, SABESP had requested ARSESP's authorization to implement a Water Consumption Reduction Incentive Program for consumers of São Paulo Metropolitan Region who are served by the Cantareira system, since the low rain indices drastically reduced the volume of stored water. The Program, which grants a 30% tariff discount for users who reduce their monthly water consumption by, at least, 20% in relation to average consumption through January 2014, was approved by ARSESP Resolution no. 469 of February 3, 2014.

The continuation of the unfavorable water situation in February and March led SABESP to expand the scope of the Program, extending the benefit of tariff reduction to all São Paulo Metropolitan Region's users served by SABESP, as approved by ARSESP Resolution no. 480 of April 02, 2014.

Thus, the Company informed on April 16, 2014, pursuant to Article 13, item VI of the Company's Bylaws and taking into consideration the possibility allowed by ARSESP Resolution 484, that the Company may apply the repositioning index arising from the tariff revision on a date appropriate and favorable to the market's condition, the Board of

Directors resolved to postpone the application of the repositioning index on an appropriate date until, at most, end of December 2014.

(d) Sabesp's Incentive Program to Reduce Water Consumption

After being approved by ARSESP on an emergency basis through Resolution 469/2014, SABESP adopted an economic incentive to stimulate households of the Greater São Paulo to reduce water consumption. This measure was adopted due to the record heat and the inedited rainless in the Cantareira System, which is in a critical level and which supplies almost 10 million people.

The clients who reduced by, at least, 20% the average consumption of a 12-month period: February 2013 to January 2014 will have a 30% discount in their bill. This deduction shall apply over a lower amount, since decrease in consumption will result in cheaper bill to apply the benefit.

This measure applies to households, commerce and industries supplied by Cantareira System: the entire north area and São Paulo downtown, part of east and west areas of the capital city, Barueri, Caieiras, Carapicuíba, Francisco Morato, Franco da Rocha, Itapevi, Jandira, Osasco and Santana de Parnaíba. In Guarulhos and São Caetano do Sul, also served by Cantareira System, the distribution is under the local governments' responsibility, which buys water from SABESP. The municipal services shall decide on granting this incentive.

This benefit will be valid for the bills in the reference months from February to August and consumers will receive the bill from March to September. In Santana de Parnaíba, this measure shall apply in the reference months from March to August and bill is delivered between April and September.

ITR — Quarterly Information Form – March 31, 2014 – CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO **Version: 1**

Notes to the Interim Financial Information

However in April 2014, the water consumption reduction incentive program was extended until the end of 2014 and to the entire metropolitan region of São Paulo or until the water level at reservoirs is normalized. Due to the drought and low water volume at the Cantareira System, the Water and Electricity Department of the State of São Paulo (DAEE) and the Water National Agency (ANA) determined that, since March 10, 2014, we are temporarily required to restrict the outflow of water caught from the Cantareira System from 33 m³/s to 27.9 m³/s. In order to provide this lower water availability and continue providing supply to the population, we are expanding the water use from other sources. This can result in an increase in costs to serve São Paulo Metropolitan Region's consumers. If the situation at reservoirs affected by the drought does not improve, we may have to take more drastic measures.

(e) Program Contract

On April 7, 2014, the Company renewed its Program Contract of Water Supply and Sewage Services with the municipality of Registro.

This agreement has a 30-year term.

(f) São Lourenço Production System

On April 10, 2014, the Company began the works at the São Lourenço Water Production System, which will increase the supply capacity in the Metropolitan Region of São Paulo by 4.7 thousand liters per second. 1.5 million people living in the municipalities of Barueri, Carapicuíba, Cotia, Itapevi, Jandira, Santana de Parnaíba and Vargem Grande Paulista will be directly benefited from such increase. SABESP has an installed capacity to produce 73,000 liters of

treated water per second. The new system will expand this capacity to 77.7 thousand liters per second. The work has been carried out through a Public-Private Partnership. The services agreement has a 25-year term and aims at providing services related to the operation of the systems of dehydration, drying and final disposal of sludge, maintenance and works, having an estimated amount of R\$6.0 billion and an estimated investment of R\$2.21 billion and will be fully made by the special purpose entity referred to as Sistema Produtor São Lourenço S/A, whose shareholders are Construções e Comercio Camargo Corrêa and Construtora Andrade Gutierrez. See Note 12(i).

(g) Use of reservoir - EMAE

On April 10, 2014, we issued a Notice to the Market to announce that we are negotiating a possible future agreement with EMAE. However, no adjustment has been confirmed, and no agreement has been executed by either party up to date.

(h) Law 12,973

On May 13, 2014, the Provisional Presidential Decree 627 of November 11, 2013 was converted into Law 12,973, which amend the federal tax laws related to the Corporate Income Tax - IRPJ, Social Contribution on Net Income - CSLL, Contribution to PIS/Pasep and Contribution to Social Security Financing– Cofins and revokes the Tax Transition System- RTT, enacted by Law no.11,941 of May 27, 2009.

Pursuant to this law, the legal entity may adopt the rules as of January 1, 2014, the option of which shall be irreversibly expressed with the Federal Revenue Service, except for Articles 3, 72 to 75 and 93 to 119, which are in force as of the publication date. The Company has decided to not adopt such anticipated option.

The analyses prepared by the Company do not show relevant impacts on its operations and on its accounting information for the period ended March 31, 2014.

Reports and Statements / Unqualified Report on Special Review

(Convenience Translation into English from the Original Previously Issued in Portuguese)

REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia de Saneamento Básico do Estado de São Paulo - SABESP

São Paulo - SP

Introduction

We have reviewed the accompanying interim financial information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the “Company”) included in the Interim Financial Information Form (ITR), for the quarter ended March 31, 2014, which comprises the balance sheet as of March 31, 2014 and the related statements of income, other comprehensive income, changes in equity and of cash flows for the three-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation of the interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and with international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily

of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and, consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1) and international standard IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards issued by the CVM.

Other matters

Statements of value added

We have also reviewed the statements of value added (DVA) for the three-month period ended March 31, 2014, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, which does not require the presentation of DVA. These statements were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
