Item 2.05 Costs Associated with Exit or Disposal Activities.

On August 11, 2006, The St. Joe Company (the "Company") announced a reorganization of its operational structure designed to refocus the Company on long-term growth opportunities while capturing operating efficiencies. Under the reorganization plan, three of the Company's operating divisions are being reorganized into one integrated business. Regional managers will now be responsible for the operations of each of the Company's segments in their region. In addition, as certain residential developments in the Company's central and south Florida regions reach full build-out later this year, the homebuilding operations in those developments will be discontinued.

As a result, the Company expects to take a charge to earnings of approximately \$3.8 million. Of the total charge, \$3.1 million is expected to be incurred in the third quarter of 2006. The majority of the balance will be recognized in the fourth quarter of 2006. The charges incurred will be primarily one-time termination benefits to employees. Approximately \$200,000 of the total charges are expected to be non-cash. The Company expects a net reduction of about 11% of its work force in connection with this reorganization plan.

Additional information on the reorganization is set forth in our press release dated August 11, 2006, a copy of which is filed as exhibit 99.1 hereto and is incorporated by reference herein.

Item 9.01 Financial Statements and Exhibits.
