ITEM 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers

The Compensation Committee of the Board of Directors (the Committee) of Safeguard Scientifics, Inc. (the Company) recently met and reviewed the design of the Company's equity incentive program. Since 2005, the stock options awarded to the Company's executives have been subject to a combination of time-based vesting and performance-based vesting based on the Company's stock price. Generally, 25% of the total underlying shares have been subject to time-based vesting and 75% of the total underlying shares have been subject to performance-based vesting.

Based in part on data provided by the Committee's compensation consultant, the Committee decided to change the criteria utilized for the Company's performance-based options. For purposes of new grants, in lieu of the stock price-based vesting model previously used, vesting of performance-based options will be based on the aggregate cash produced as a result of exit transactions involving the Company's partner companies, relative to the amount of cash deployed in connection with such partner companies. The new approach to performance-based vesting should assist the Company in attracting, retaining and motivating Company executives and focusing the efforts of the Company's management team on the creation of long-term shareholder value associated with acquiring and building new partner companies. The new performance-based vesting model became effective with equity grants awarded to the Company's executives on September 30, 2008.

ITEM 7.01. Regulation FD Disclosure.

The Company will be hosting its Analyst Day 2008 in New York, NY on October 2, 2008.
