NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

Bio-Techne Corporation and Subsidiaries

(unaudited)

Note 1. Basis of Presentation and Summary of Significant Accounting Policies:

The interim consolidated financial statements of Bio-Techne Corporation (formerly Techne Corporation) and subsidiaries, (the Company) presented here have been prepared by the Company and are unaudited. They have been prepared in accordance with accounting principles generally accepted in the United States of America and with instructions to Form 10-Q and Article 10 of Regulation S-X. They reflect all adjustments which are, in the opinion of management, necessary for a fair presentation of the results for the interim periods presented. All such adjustments are of a normal recurring nature.

Certain information and footnote disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted. These interim unaudited condensed consolidated financial statements should be read in conjunction with the Company's Consolidated Financial Statements and Notes thereto for the fiscal year ended June 30, 2015, included in the Company's Annual Report on Form 10-K for fiscal 2015. A summary of significant accounting policies followed by the Company is detailed in the Company's Annual Report on Form 10-K for fiscal 2015. The Company follows these policies in preparation of the interim unaudited condensed consolidated financial statements.

Available-For-Sale Investments:

The Company's available-for-sale securities are carried at fair value using Level 1 and Level 2 inputs. The fair value of the Company's available-for-sale investments at December 31, 2015 and June 30, 2015 were \$51.5 million and \$56.4 million, respectively. The cost basis of the Company's available-for-sale investments at December 31, 2015 and June 30, 2015 were \$29.5 million and \$33.6 million, respectively.

Inventories:

Inventories consist of (in thousands):

	<i>December 31, 2015</i>	<i>June 30, 2015</i>
Raw materials	\$ 23,424	\$ 15,892
Finished goods	35,251	33,685
Inventories, net	\$ 58,675	\$ 49,577

At December 31, 2015, the Company had \$58.7 million of inventory compared to \$50.0 million as of June 30, 2015. The increase is primarily driven by the acquisition of Cliniqa Corporation in July 2015. At both December 31, 2015 and June 30, 2015, the Company had approximately \$24 million of excess protein, antibody and chemically-based inventory on hand which was not valued.

Beginning balance	\$ 390,638
Acquisitions	42,919
Currency translation	(9,662)
Ending balance	\$423,895

Contingent Consideration Payable

The Company made an initial payment of approximately \$62.0 million to the stockholders of CyVek on November 3, 2014. Such purchase price was adjusted after closing based on the final levels of cash, indebtedness and transaction expenses of CyVek as of the closing. The Company will also pay CyVek's previous stockholders up to \$35.0 million based on the revenue generated by CyVek's products before May 3, 2017 (30 months from the closing of the Merger). The Company will also pay CyVek's previous stockholders 50% of the amount, if any, by which the revenue from CyVek's products and related products exceeds \$100 million in calendar year 2020. The Company has recorded the present value of these contingent payments as a long-term liability of \$35.0 million at December 31, 2015.

Note 2. Acquisitions:

The Company's acquisitions have historically been made at prices above the fair value of the acquired identifiable assets, resulting in goodwill. The goodwill is due to strategic benefits of growing the Company's product portfolio, expected revenue growth from the increased market penetration from future products and customers, and expectations of synergies that will be realized by combining the businesses. Acquisitions have been accounted for using the purchase method of accounting and the acquired companies' results have been included in the accompanying financial statements from their respective dates of acquisition. Acquisition costs are recorded in selling, general and administrative expenses as incurred.

On July 8, 2015, the Company acquired all of the issued and outstanding equity interests of Cliniqa Corporation (Cliniqa). Cliniqa specializes in the manufacturing and commercialization of quality controls and calibrators as well as bulk reagents used in the clinical diagnostic market. The acquisition was mostly funded through our line-of-credit facility. The purchase price of Cliniqa exceeded the fair value of the identifiable net assets and, accordingly, the difference was allocated to goodwill, substantially all of which is not tax deductible. Cliniqa is included in the Company's Clinical Controls segment.

The preliminary estimated fair value of the assets acquired and liabilities assumed, pending final valuation of intangible assets, are as follows (in thousands):

	<i>Cliniqa</i>
Current assets	\$11,926
Equipment	1,436
Other long-term assets	58
Intangible Assets:	
Developed technology	18,000
Trade name	27,000
Customer relationships	1,100
Goodwill	42,919
Total assets acquired	102,439
Liabilities	1,884
Deferred income taxes, net	17,667
Net assets acquired	\$82,888
Cash paid, net of cash acquired	\$82,888

Tangible assets acquired, net of liabilities assumed, were stated at fair value at the date of acquisition based on management's assessment. The purchase price allocated to developed technology, trade names, and customer relationships was based on management's forecasted cash inflows and outflows and using a relief-from-royalty and a multi-period excess earnings method to calculate the fair value of assets purchased. The developed technology is being amortized with the expense reflected in cost of goods sold in the Condensed Consolidated Statement of Earnings and Comprehensive Income. Amortization expense related to trade names, and customer relationships is reflected in selling, general and administrative expenses in the Consolidated Statement of Earnings and Comprehensive Income. The amortization periods for intangible assets acquired in fiscal 2016 are estimated to be 18 years for developed technology, 20 years for trade names and 4 years for customer relationships. The deferred income tax liability represents the net amount of the estimated future impact of adjustments for costs to be recognized upon the sale of acquired inventory that was written up to fair value and intangible asset amortization, both of which are not deductible for income tax purposes.

The Company's Condensed Consolidated Financial Statements for the quarter ended December 31, 2015, include Cliniqa net sales of \$6.6 million and income before tax of \$0.9 million. Included in these results were amortization of intangibles of \$0.7 million and costs recognized on the sales of acquired inventory of \$0.5 million. For the six months ended December 31, 2015, Cliniqa contributed net sales of \$10.1 million and income before tax of \$0.4 million. Included in these results were amortization of intangibles of \$1.3 million and costs recognized on the sales of acquired inventory of \$0.8 million.

Note 3. Segment Information:

The Company's management evaluates segment operating performance based on operating income before certain charges to cost of sales and selling, general and administrative expenses, principally associated with acquisition accounting related to inventory, amortization of acquisition-related intangible assets and other acquisition-related expenses. Prior period segment results, which reported segment earnings before income taxes, have been reclassified to reflect segment performance based on operating income.

The Company has three reportable segments based on the nature of products; they are Biotechnology, Clinical Controls and Protein Platforms. The following is financial information relating to the Company's reportable segments (in thousands):

Note 8. Debt and Other Financing Arrangements:

On July 28, 2014, the Company entered into a revolving line-of-credit facility governed by a Credit Agreement (the Credit Agreement). The Credit Agreement provides for a revolving credit facility of \$150 million, which can be increased by an additional \$150 million subject to certain conditions. Borrowings under the Credit Agreement may be used for working capital and expenditures of the Company and its subsidiaries, including financing permitted acquisitions. Borrowings under the Credit Agreement for base rate loans bear interest at a variable rate equal to the greater of (i) the prime commercial rate, (ii) the per annum federal funds rate plus 0.5%, or (iii) LIBOR + 1.00% - 1.75% depending on the existing total leverage ratio of Debt to Earnings Before Interest, Taxes, Depreciation and Amortization (as defined in the Credit Agreement). The annualized fee for any unused portion of the credit facility is 15 basis points.

The Credit Agreement matures on July 31, 2019 and contains customary restrictive and financial covenants and customary events of default. As of December 31, 2015, the outstanding balance under the Credit Agreement was \$124 million.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

OVERVIEW

Bio-Techne Corporation and its subsidiaries operate worldwide with three reportable business segments, Biotechnology, Clinical Controls and Protein Platforms, all of which service the life science and diagnostic markets. The Biotechnology reporting segment provides proteins, antibodies, immunoassays, flow cytometry products, intracellular signaling products, and biologically active chemical compounds used in biological research. The Clinical Controls reporting segment provides a range of quality controls, calibrators, and products used as proficiency testing tools by clinical laboratories and proficiency certifying agencies as well as bulk segments used in the clinical diagnostic market. The Protein Platforms reporting segment develops and commercializes proprietary systems and consumables for protein analysis.

RECENT ACQUISITIONS

A key component of the Company's strategy is to augment internal growth at existing businesses with complementary acquisitions.

On July 8, 2015, the Clinical Controls segment completed the acquisition of Cliniqa Corporation (Cliniqa), for a purchase price of approximately \$83.0 million, net of cash acquired and net working capital adjustments. The acquisition was financed primarily with cash from our line-of-credit facility. Cliniqa specializes in the manufacturing and commercialization of quality controls and calibrators as well as bulk reagents used in the clinical diagnostic market. Proforma results are not presented as this acquisition is not considered material to our consolidated results of operations.

RESULTS OF OPERATIONS

Consolidated net sales increased 8% and 6% for the quarter and six months ended December 31, 2015, respectively, compared to the same prior-year periods. Changes in foreign currency exchange rates from the same prior-year periods had a negative 4% impact on consolidated net sales for the quarter and six months ended December 31, 2015. Consolidated net sales for the quarter and six months ended December 31, 2015, compared to the same prior-year periods, were affected by the timing of the Cliniqa, ProteinSimple, and CyVek acquisitions which closed in July 2015, July 2014 and November 2014. Excluding the timing of these acquisitions and the impact of foreign currency exchange rates, consolidated net sales grew 6% and 4% for the quarter and six months ended December 31, 2015, respectively.

Consolidated net earnings decreased 22% and 15% for the quarter and six months ended December 31, 2015 compared to the same prior-year periods. Included in net earnings for the quarter and six months ended December 31, 2014 was a one-time \$8.3 million pre-tax gain on the Company's previous investment in CyVek. In a business combination achieved in stages, the acquirer is required to re-measure its previously held equity interest in the acquiree at its acquisition-date fair value and recognize the resulting gain or loss, if any, in earnings. Consequently, the gain was triggered in the second quarter ended December 31, 2014 as a result of the Company's purchase of the remaining 80.1% interest in CyVek.

The adjusted financial measures discussed below quantify the impact the following events had on reported net sales, gross margin percentages, selling, general and administrative expenses, net earnings and earnings per share for the periods ended December 31, 2015 as compared to the same prior-year periods:

fluctuations in exchange rates used to convert transactions in foreign currencies (primarily the Euro, British pound sterling and Chinese yuan) to U.S. dollars when referencing organic revenue growth;
the acquisitions in fiscal 2016 and 2015 of Cliniqa on July 8, 2015, CyVek on November 4, 2014, ProteinSimple on July 31, 2014, and Novus on July 2, 2014 as well as acquisitions in prior years, and the impact of amortizing intangible assets and the recognition of costs upon the sale of inventory written up to fair value;
expenses related to the acquisitions noted above and other on-going acquisition activity;
expenses related to stock-based compensation.

These adjusted financial measures are not prepared in accordance with generally accepted accounting principles (GAAP) and may be different from adjusted financial measures used by other companies. Adjusted financial measures should not be considered as a substitute for, or superior to, measures of financial performance prepared in accordance with GAAP. We view these adjusted financial measures to be helpful in assessing the Company's ongoing operating results. In addition, these adjusted financial measures facilitate our internal comparisons to historical operating results and comparisons to competitors' operating results. We include these adjusted financial measures in our earnings announcement because we believe they are useful to investors in allowing for greater transparency related to supplemental information we use in our financial and operational analysis.

Net Sales

Consolidated net sales for the quarter and six months ended December 31, 2015 were \$120.9 million and \$233.3 million, respectively, increases of 8% and 6% from the same prior-year periods. Organic growth for the quarter and six months ended December 31, 2015 was 6% and 4%, respectively and a negative impact of 4% from foreign exchange translation for both periods.

For the second quarter ended December 31, 2015, organic sales growth was strong in our core Biotechnology and Clinical Controls segments. Biotechnology's growth was driven by robust bio/pharma end-markets and continued strong demand in China. Clinical Controls revenue benefitted from heavy OEM orders with delivery dates in the second quarter. In Protein Platforms, revenues slightly decreased from the prior year as a new commercial plan designed to target a wider-range of researchers was commenced.

Gross Margins

Consolidated gross margins for the quarter and six months ended December 31, 2015 were 67.5% and 67.6%, compared to 67.7% and 67.5%, respectively, for the comparable prior-year periods. Consolidated gross margins for the periods were negatively impacted as a result of purchase accounting related to inventory and intangible assets acquired in the current and prior fiscal years. Under purchase accounting, inventory is valued at fair value less expected selling and marketing costs, resulting in reduced margins in future periods as the inventory is sold.

A reconciliation of the reported consolidated gross margin percentages, adjusted for acquired inventory sold and intangible amortization included in cost of sales, is as follows:

	<i>Quarter Ended December 31,</i>		<i>Six Months Ended December 31,</i>	
	<i>2015</i>	<i>2014</i>	<i>2015</i>	<i>2014</i>
Consolidated gross margin percentage	67.5%	67.7%	67.6%	67.5%
Identified adjustments				
Costs recognized upon sale of acquired inventory	1.0 %	1.1 %	1.0 %	2.0 %
Amortization of intangibles	2.3 %	2.2 %	2.4 %	2.0 %
Adjusted gross margin percentage	70.8%	71.0%	71.0%	71.5%

Consolidated adjusted gross margins were 70.8% and 71.0% for the quarter and six months ended December 31, 2015, down 20 and 50 basis points from the prior year due to the product mix change associated with the recent acquisitions of CyVek in November 2014 and Cliniqa in July 2015. Foreign exchange translation also negatively impacted gross margins compared to the prior year. Much of the aforementioned headwinds to gross margin were offset by robust productivity achieved in our operations, especially in our Biotechnology segment.

Selling, General and Administrative Expenses

Selling, general and administrative expenses increased \$3.5 million (11%) and \$7.8 million (13%) for the quarter and six months ended December 31, 2015 from the same prior-year periods.

The increase for the quarter ended December 31, 2015 was a result of \$1.1 million of selling, general and administrative expenses by companies acquired since the prior year and a \$0.5 million increase in intangible amortization related to these acquisitions. The remainder of the increase in selling, general and administrative expense was due primarily to additional investment in commercial resources and administrative infrastructure, including higher stock compensation expense.

The increase for the six months ended December 31, 2015 was a result of \$4.9 million of selling, general and administrative expenses by companies acquired since the prior year and a \$1.5 million increase in intangible amortization related to these acquisitions. The remainder of the increase in selling, general and administrative expense was due primarily to additional investment in commercial resources and administrative infrastructure, including higher stock compensation expense.

Research and Development Expenses

Research and development expenses for the quarter and six months ended December 31, 2015 increased \$1.0 million (9%) and \$3.1 million (16%) from the same prior-year periods due mainly to expenses by companies acquired since the prior year.

	<i>December 31,</i>		<i>December 31,</i>	
	<i>2015</i>	<i>2014</i>	<i>2015</i>	<i>2014</i>
Net sales (in thousands)	\$75,854	\$74,373	\$151,597	\$150,807
Operating income margin	52.7 %	51.1 %	52.3 %	52.0 %

Biotechnology net sales for the quarter and six months ended December 31, 2015 were \$75.9 million and \$151.6 million, respectively, with reported growth of 2% and 1% compared to the same prior-year period. Organic growth for the quarter and six months ended December 31, 2015 was 7% and 5%, respectively with currency translation having an unfavorable impact of 5% for both the quarter and six months ended December 31, 2015, respectively. For the second quarter ended December 31, 2015, the segment continued to experience strong demand in China and in the bio/pharma end-markets within both the U.S. and European geographies. Academic markets in both the U.S. and Europe remained stable with growth in the low-single digits. Japan was the only major geography that was soft with revenue growth declining in the mid-teens. The revenue weakness there is attributable to the delayed release of research funds by the Japanese government funding agencies. Operating income margin for the quarter was 52.7% and 52.3% for the six months ended December 31, 2015, increases of 160 and 30 basis points from the prior-year periods. The higher operating income margin is mostly due to strong operational performance in the achievement of process efficiency and cost productivity, more than offsetting the margin dilution associated with negative foreign exchange translation.

Clinical Controls

	<i>Quarter Ended</i>		<i>Six Months Ended</i>	
	<i>December 31,</i>		<i>December 31,</i>	
	<i>2015</i>	<i>2014</i>	<i>2015</i>	<i>2014</i>
Net sales (in thousands)	\$25,732	\$17,297	\$46,085	\$36,416
Operating income margin	28.4 %	29.6 %	26.1 %	30.9 %

Clinical Controls net sales for the quarter and six months ended December 31, 2015 were \$25.7 million and \$46.1 million, respectively, with reported growth of 49% and 27% compared to the same prior-year periods. Organic growth for the quarter and six months ended December 31, 2015 was 10% and -1%, respectively. The acquisition of Cliniqa (July 2015) added 39% and 28% to segment growth for quarter and six months ended December 31, 2015. For the second quarter ended December 31, 2015, the segment experienced heavy OEM orders with delivery in the second quarter. The addition of Cliniqa's reagent-based products introduces additional products with longer shelf lives, similar to the segment's existing chemistry-based products, allowing OEM customers to buy in bulk and increasing the potential for quarter on quarter volatility. Our legacy hematology controls business remained stable with growth in the mid-single digits. Given the relatively shorter shelf life of these blood-based products, we view growth of these products as an indicator of stable underlying demand within the Clinical Controls end markets. Operating income margin for the segment declined to 28.4% and 26.1% for the quarter and six months ended December 31, 2015. The decline for the quarter is driven by unfavorable product mix, while the decline year-to-date is due to the acquisition of Cliniqa.

Protein Platforms

	<i>Quarter Ended</i>		<i>Six Months Ended</i>

	<i>2015</i>	<i>2014</i>	<i>2015</i>	<i>2014</i>

Operating income margin	7.9 %	16.8 %	1.0 %	18.1 %

Net sales for Protein Platforms for the quarter and six months ended December 31, 2015, were \$19.3 million and \$35.6 million, respectively, with reported growth of -6% and 7% compared to the same prior-year periods. Organic growth for the quarter and six months ended December 31, 2015 was -2% and 1%, respectively with currency translation having an unfavorable impact of 3% and 4% for the quarter and six months ended December 31, 2015. The

acquisition of CyVek contributed less than 1% to revenues in Q2, and 1% for the six months ended December 31, 2015. For the second quarter, the segment continued with its commercial transition plan to expand our pool of potential Simple Western customers by engaging with the vast majority of scientists who are more pragmatic about technology changes in their workflows. Our new commercial plan showed indications of success, with new lead generation increasing 20% and the number of customer quotes increasing in the mid-teens year-over-year. We view these metrics as indicators of building awareness and interest in our Protein Platforms workflow solutions, supporting our view of a favorable outlook for this segment. Operating income margin for the quarter was 7.9% and 1.0% for the six months ended December 31, 2015. The lower operating income margin compared to prior year periods is mostly due to the mix of acquisitions as well as the continued investment in commercializing the Simple Plex platform and repositioning of our North America ProteinSimple sales force.

Income Taxes

Income tax expense for the quarters ended December 31, 2015 and 2014 were provided at rates of 26.9% and 22.0%, respectively. Income tax expense for the six months ended December 31, 2015 and 2014 were provided at rates of 27.8% and 26.0%, respectively.

LIQUIDITY AND CAPITAL RESOURCES

At December 31, 2015, cash and cash equivalents and available-for-sale investments were \$114 million compared to \$111 million at June 30, 2015. Included in available-for-sale-investments at December 31, 2015 was the fair value of the Company's investment in ChemoCentryx, Inc. (CCXI) of \$51.4 million. The fair value of the Company's CCXI investment at June 30, 2015 was \$52.3 million.

The Company has a revolving line of credit governed by a Credit Agreement dated July 28, 2014. See Note 3 to the Condensed Consolidated Financial Statements for a description of the Credit Agreement.

Management of the Company expects to be able to meet its cash and working capital requirements for operations, facility expansion, capital additions, and cash dividends for the foreseeable future, and at least the next 12 months, through currently available cash and cash generated from operations.

Cash Flows From Operating Activities

The Company generated cash of \$70.4 million from operating activities in the first six months of fiscal 2016 compared to \$71.4 million in the first six months of fiscal 2015. The decline from the prior year was primarily due to a decline in net earnings after adjustment for non-cash expenses related to depreciation, amortization, cost recognized on sale of acquired inventory.

Cash Flows From Investing Activities

On July 8, 2015, the Company acquired all of the issued and outstanding equity interests of Cliniqa Corporation (Cliniqa) for a net purchase price of approximately \$83.0 million. The acquisition was financed primarily through our revolving line-of-credit facility.

On July 2, 2014, the Company acquired, for a net purchase price of approximately \$60 million cash, all of the issued and outstanding equity interests of Novus Holdings LLC (Novus), including its subsidiary, Novus Biologicals, LLC. The acquisition was financed through cash and cash equivalents on hand.

On July 31, 2014, the Company acquired ProteinSimple for a net purchase price of approximately \$300 million. The transaction was financed through cash on hand and a revolving line-of-credit facility.

On November 3, 2014, the Company acquired CyVek, Inc. (CyVek) through a merger for a net purchase price of approximately \$95 million.

During the six months ended December 31, 2015 and 2014, the Company had maturities of \$3.9 million and \$9.9 million of available-for-sale investments, respectively.

Capital expenditures for fixed assets for the first six months of fiscal 2016 and 2015 were \$11.0 million and \$8.0 million, respectively. Included in capital expenditures for the first six months of fiscal 2016 was \$3.3 million for leasehold improvements by our Bristol, England location for a new building to expand capacity. The remaining capital additions were mainly for laboratory and computer equipment. Capital expenditures in the remainder of fiscal 2016 are expected to be approximately \$9.0 million. Capital expenditures are expected to be financed through currently available funds and cash generated from operating activities.

Cash Flows From Financing Activities

During the first six months of fiscal 2016 and 2015, the Company paid cash dividends of \$23.8 million and \$23.3 million, respectively, to all common shareholders. On February 2, 2016 the Company announced the payment of a \$0.32 per share cash dividend. The dividend of approximately \$12 million will be payable February 26, 2016 to all common shareholders of record on February 12, 2016.

Cash of \$1.2 million and \$7.0 million was received during the first six months of fiscal 2016 and 2015, respectively, from the exercise of stock options.

During the first six months of fiscal 2016, the Company drew \$77 million under its revolving line-of-credit facility to partially fund its acquisition of Cliniqa. The Company made payments on the line-of-credit of \$26 million during the six months ended December 31, 2015.

During the first six months of fiscal 2015, the Company drew \$163 million under its revolving line-of-credit facility to partially fund its acquisitions of ProteinSimple and CyVek. The Company made payments on the line-of-credit of \$19 million during the six months ended December 31, 2014.

OFF-BALANCE SHEET ARRANGEMENTS

The Company has no reportable off-balance sheet arrangements as defined in Item 303(a)(4) of Regulation S-K.

CONTRACTUAL OBLIGATIONS

There were no material changes outside the ordinary course of business in the Company's contractual obligations during the six months ended December 31, 2015.

CRITICAL ACCOUNTING POLICIES

The Company's significant accounting policies are discussed in the Company's Annual Report on Form 10-K for fiscal 2015 and are incorporated herein by reference. The application of certain of these policies requires judgments and estimates that can affect the results of operations and financial position of the Company. Judgments and estimates are used for, but not limited to, valuation of available-for-sale investments, inventory valuation and allowances, valuation of intangible assets and goodwill and valuation of investments in unconsolidated entities. There have been no significant changes in estimates in fiscal 2016 that would require disclosure. There have been no changes to the Company's policies in the first six months of fiscal 2016.

FORWARD LOOKING INFORMATION AND CAUTIONARY STATEMENTS

This quarterly report contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include those regarding the Company's expectations as to the effect of changes to accounting policies, the amount of capital expenditures for the remainder of the fiscal year, the source of funding for capital expenditure requirements, the sufficiency of currently available funds for meeting the Company's needs, the impact of fluctuations in foreign currency exchange rates, and expectations regarding gross margin fluctuations, increasing research and development expenses, increasing selling, general and administrative expenses and income tax rates. These statements involve risks and uncertainties that may affect the actual results of operations. The following important factors, among others, have affected and, in the future, could affect the Company's actual results: the introduction and acceptance of new products, general national and international economic conditions, increased competition, the reliance on internal manufacturing and related operations, the impact of currency exchange rate fluctuations, economic instability in Eurozone countries, the recruitment and retention of qualified personnel, the impact of governmental regulation, maintenance of intellectual property rights, credit risk and fluctuation in the market value of the Company's investment portfolio, unseen delays and expenses related to facility improvements, and the success of financing efforts by companies in which the Company has invested. For additional information concerning such factors, see the Company's Annual Report on Form 10-K for fiscal 2015 as filed with the Securities and Exchange Commission.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

At December 31, 2015, the Company held an investment in the common stock of CCXI. The investment was included in short-term available-for-sale investments at its fair value of \$51.4 million. At December 31, 2015, the potential loss in fair value due to a 10% decrease in the market value of CCXI was \$5.1 million.

The Company operates internationally, and thus is subject to potentially adverse movements in foreign currency exchange rates. For the six months ended December 31, 2015, approximately 25% of consolidated net sales were made in foreign currencies, including 10% in euros, 5% in British pound sterling, 5% in Chinese yuan and the remaining 5% in other currencies. The Company is exposed to market risk mainly from foreign exchange rate fluctuations of the euro, British pound sterling, the Chinese yuan, and the Canadian dollar, as compared to the U.S. dollar as the financial position and operating results of the Company's foreign operations are translated into U.S. dollars for consolidation.

Month-end average exchange rates between the British pound sterling, euro, Chinese yuan and Canadian dollar, which have not been weighted for actual sales volume in the applicable months in the periods, to the U.S. dollar were as follows:

	<i>Quarter Ended December 31, 2015</i>		<i>Six Months Ended December 31, 2014</i>	
Euro	\$1.10	1.24	\$1.10	\$1.27
British pound sterling	1.52	1.57	1.53	1.62
Chinese yuan	.156	.163	.156	.163
Canadian dollar	.75	.875	.76	.892

The Company's exposure to foreign exchange rate fluctuations also arises from trade receivables, trade payables and intercompany payables denominated in one currency in the financial statements, but receivable or payable in another currency. At December 31, 2015, the Company had the following trade receivables, trade payables and intercompany payables denominated in one currency but receivable or payable in another currency (in thousands):

<i>Denominated Currency</i>	<i>U.S. Dollar Equivalent</i>
---------------------------------	---------------------------------------

Accounts receivable in:

Edgar Filing: BIO-TECHNE Corp - Form 10-Q

Euros	£ 1,805	\$ 2,672
Other European currencies	£ 405	\$ 607
Euros	Can\$329	\$ 958
British pound sterling	Can\$69	\$ 410

Accounts payable in:

U.S. dollars	Can\$10	512
Euros	Can\$02	218

Intercompany payable in:

Euros	£ 520	\$ 770
U.S. dollars	£ 16,599	\$ 24,511
U.S. dollars	yuan17,250	\$ 2,657
U.S. dollars	Can\$0,134	\$ 7,309
Canadian dollars	yen75,011	\$ 623
U.S. dollars	yen261,311	\$ 2,169

All of the above balances are revolving in nature and are not deemed to be long-term balances. The Company does not enter into foreign exchange forward contracts to reduce its exposure to foreign currency rate changes on forecasted intercompany foreign currency denominated balance sheet positions. Foreign currency transaction gains and losses are included in "Other non-operating expense" in the Consolidated Statement of Earnings and Comprehensive Income. The effect of translating net assets of foreign subsidiaries into U.S. dollars are recorded on the Consolidated Balance Sheet as part of "Accumulated other comprehensive income."

The effects of a hypothetical simultaneous 10% appreciation in the U.S. dollar from December 31, 2015 levels against the euro, British pound sterling, Chinese yuan and Canadian dollar are as follows (in thousands):

Decrease in translation of fiscal 2016 earnings into U.S. dollars (annualized)	\$3,456
Decrease in translation of net assets of foreign subsidiaries	25,310
Additional transaction losses	4,342

ITEM 4. CONTROLS AND PROCEDURES

(a) Evaluation of disclosure controls and procedures.

As of the end of the period covered by this report, the Company's management conducted an evaluation, under the supervision and with the participation of the principal executive officer and principal financial officer, of the Company's disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 as amended (the Exchange Act)).

Based on this evaluation, the principal executive officer and principal financial officer concluded that the Company's disclosure controls and procedures are effective to ensure that material information required to be disclosed by the Company in reports that it files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms.

(b) Changes in internal controls over financial reporting.

There was no change in the Company's internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the Company's most recently completed fiscal quarter that has materially affected, or is reasonably likely to materially affect, the Company's internal control over financial reporting. We are in the process of evaluating internal controls over financial reporting for those acquisitions completed in fiscal 2015, including Protein Platforms.

As previously announced, we acquired Cliniqa on July 8, 2015. We have not fully evaluated any changes in internal control over financial reporting associated with this acquisition and therefore any material changes that may result

from this acquisition have not been disclosed in this report. We intend to disclose all material changes resulting from this acquisition within or prior to the time of our first annual assessment of internal control over financial reporting that is required to include this entity.

The results reported in this quarterly report include those of Cliniqa.

PART II. OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS

As of February 5, 2016, the Company is not a party to any legal proceedings that, individually or in the aggregate, are reasonably expected to have a material adverse effect on the Company's business, results of operations, financial condition or cash flows.

ITEM 1A. RISK FACTORS

There have been no material changes from the risk factors previously disclosed in the Company's Quarterly Report on Form 10-Q for the quarter ended September 30, 2015 and the risk factors found in Part I, Item 1A, "Risk Factors," of the Company's Annual Report on Form 10-K for the year ended June 30, 2015.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

There was no share repurchase activity by the Company in the six months ended December 31, 2015. The maximum approximate dollar value of shares that may yet be purchased under the Company's existing stock repurchase plan is approximately \$125 million. The plan does not have an expiration date.
