**To the Shareholders of MMEX Resources Corporation:**

The attached Information Statement is being delivered by MMEX Resources Corporation (the “Company” or “MMEX”) in connection with the approval by our shareholders of an amendment to our Amended and Restated Articles of Incorporation to increase the authorized number of shares of Class A common stock from 3 billion to 10 billion shares (the “Share Increase”). The text of the proposed amendment is set forth as Annex A to this Information Statement.

This Information Statement is being mailed to the shareholders of record as of January 22, 2018. The Information Statement is first being mailed to shareholders on or about January 26, 2018. We anticipate that the amendment to our Amended and Restated Articles of Incorporation will become effective on or after February 16, 2018. Each of these actions was approved by the majority of the shareholders of MMEX by a written consent to action taken without a meeting dated January 8, 2018.

**QUESTIONS AND ANSWERS REGARDING THE INFORMATION STATEMENT**

***What is the purpose of the Information Statement?***

Section 78.320 of the Nevada Revised Statutes (“NRS”) provides that the written consent of the holders of outstanding shares of voting capital stock having not less than the minimum number of votes which would be necessary to authorize or take such action at a meeting at which all shares entitled to vote thereon were present and voted can approve an action in lieu of conducting a special shareholders' meeting convened for the specific purpose of such action.

This Information Statement is being furnished to you pursuant to Section 14C of the Securities Exchange Act of 1934 (“Exchange Act”) to notify our shareholders of certain corporate actions taken by the holders of shares of voting securities representing approximately 94% of the voting power of the total issued and outstanding shares of voting common stock of the Company (the “Majority Holders”) pursuant to action by written consent. In order to eliminate the costs and management time involved in obtaining proxies and in order to effect the Share Increase as early as possible to accomplish the purposes hereafter described, our board of directors elected to seek the written consent of the Majority Holders to reduce the costs and implement the Share Increase in a timely manner.

***What capital stock is authorized and outstanding?***

We are authorized to issue 5,010,000,000 shares of capital stock, which consists of 5,000,000,000 shares of common stock, \$0.001 par value per share, and 10,000,000 shares of preferred stock, \$.001 par value. Of the 5,000,000,000 shares of authorized common stock, 3,000,000,000 are designated as Class A common stock, and 2,000,000,000 shares are designated as Class B common stock. All issued shares of common stock of MMEX are designated as Class A common stock, except that the 1,500,000,000 shares issued by the Company to Maple Resources or its affiliates in connection with the acquisition of the Company's refinery project in March 2017 were designated as Class B common stock. See "Securities Ownership of Certain Beneficial Owners and Management" herein. We are proposing to increase the number of authorized shares of Class A common stock from 3 billion to 10 billion shares.

The Majority Holders consist of The Maple Gas Corporation, Maple Resources Corporation, Maple Structure Holdings, LLC, BNL Family Trust and AAM Investments, LLC. The Majority Holders own 100% of our outstanding Class B common stock and approximately 34% of our outstanding Class A common stock, which results in their ownership of approximately 94% of the voting power of our common stock. The Majority Holders have voted in favor of the Share Increase thereby satisfying the requirement under the NRS that at least a majority of the voting equity vote in favor of a corporate action by written consent. Therefore, no other shareholder consents will be obtained in connection with this Information Statement.

***What are the differences between Class A and Class B common stock?***

The holder of each share of Class A common stock is entitled to one vote for each such share as determined on the record date for the vote or consent of shareholders and votes together with the holders of Class B common stock as a single class upon any items submitted to a vote of shareholders, except with respect to matters requiring a separate series or class vote. The holder of each share of Class B common stock is entitled to ten votes for each such share as determined on the record date for the vote or consent of shareholders and votes together with the holders of Class A common stock as a single class upon any items submitted to a vote of shareholders, except with respect to matters requiring a separate series or class vote. Except for such voting rights, the rights of the holders of Class A common stock and Class B common stock are identical.

The Class B common stock have a conversion feature whereby each share of Class B common stock will be automatically converted into one share of Class A common stock upon the earlier of (i) the surrender to the Company by the holder thereof of such share of Class B common stock for voluntary conversion or (ii) the transfer or sale of such share of Class B common stock to any person other than Maple Resources Corporation, Jack W. Hanks, BNL Family Trust or one of their respective affiliates.

***Who is entitled to notice?***

Each outstanding share of Class A common stock as of record on December 31, 2017 is entitled to notice of the action taken pursuant to the written consent of the Majority Holders.

***What is the purpose of the Share Increase?***

From April through December 2017, we issued an aggregate of approximately \$1,527,243 principal amount of convertible notes resulting in net proceeds to us of approximately \$1,128,000. As of December 31, 2017, the aggregate principal amount of these convertible notes, including accrued interest and net of conversions into shares of our Class A common stock, was approximately \$977,508. The notes are convertible into shares of our Class A common stock at a discount from the lowest price during certain measurement periods prior to the date of conversion. We incurred the indebtedness under the convertible notes in order to provide working capital for the Company since April 2017, given that we have yet to generate any revenues from operations.

On June 12, 2017, we entered into an equity purchase agreement with Crown Bridge Partners, L.L.C. (“Crown Bridge”) for the purpose of commencing a redemption of our convertible note obligations and providing additional working capital for us to pursue our business strategy. Pursuant to the terms of this agreement, as amended, Crown Bridge has committed to purchase up to \$3,000,000 of our common stock for a period of up to 24 months commencing upon the effectiveness of a registration statement covering the resale of shares issuable to Crown Bridge under this agreement. This facility allows us to deliver a put notice to Crown Bridge stating the dollar amount of common stock that we intend to sell to Crown Bridge on the date specified in the put notice. The amount of each put notice is limited to a formula that is equal to the lesser of (i) \$100,000 or (ii) 150% of the average dollar value of the trading volume of our stock, the lowest price during the trading period, for the seven days prior to the purchase of shares by Crown Bridge. Accordingly, we expect to issue a substantial number of additional shares of Class A common stock, either in transactions with Crown Bridge, transactions with alternative equity investors or as a result of the conversion of the outstanding convertible notes. We have reserved substantially all of our authorized but unissued shares of Class A common stock for issuance to the foregoing parties and currently do not have any material amount of additional authorized but unissued shares.

We expect to conduct further equity offerings in the future to continue as a going concern. As additional equity securities are issued, investors’ percentage interests in our equity ownership will be diluted. The result of this could be expected to reduce the value of current investors’ stock.

Having an increased number of authorized but unissued shares of our capital stock would allow us to take prompt action with respect to corporate opportunities that may develop in the future, without the delay and expense of convening a special meeting of shareholders for the purpose of approving an increase in our capitalization. Such opportunities might include, without limitation, issuance in public or private sales for cash as a means of obtaining additional capital for use in our business and operations, and issuance as part or all of the consideration required to be paid by us for acquisitions of other businesses or assets. Notwithstanding the foregoing, we have no obligation to issue such shares and there are no plans, proposals or arrangements currently contemplated by us that would involve the issuance of such additional shares. The additional capital stock can provide flexibility in structuring the terms of any future agreements, as well as any future financing and recapitalization efforts.

Although the increased proportion of unissued authorized shares to issued shares could, under certain circumstances, have an anti-takeover effect (for example, by permitting issuances that would dilute the stock ownership of a person seeking to effect a change in the composition of our board or contemplating a tender offer or other transaction for the combination of our company with another company), the Share Increase was not proposed in response to any effort of which we are aware to accumulate shares of common stock or obtain control of us, nor is it part of a plan by management to recommend a series of similar actions having an anti-takeover effect to the board and our stockholders.

***When will the Share Increase Become Effective?***

Upon the effectiveness and on the date that is 20 days following the mailing of this Information Statement, the board of directors shall have the Company's Certificate of Amendment to the Amended and Restated Articles of Incorporation filed with the State of Nevada in order to effect the increase in the authorized number of shares of Class A common stock.

***Are there dissenter's rights in connection with the Share Increase?***

MMEX shareholders have no right under Nevada corporate law, the Company's Amended and Restated Articles of Incorporation consistent with above, or Bylaws to dissent from any of the provisions of the Share Increase.

***Are there federal income tax consequences arising from the Share Increase?***

We believe that the Share Increase will have no federal income tax effects. We will not recognize gain or loss as a result of the Share Increase. However, we have not sought and will not seek an opinion of counsel or a ruling from the Internal Revenue Service regarding the federal income tax consequences of the Share Increase.

**SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT**

The following table sets forth as of January 15, 2018, the name and number of shares of the Company's common stock beneficially owned by (i) each of the directors and named executive officers of the Company, (ii) beneficial owners of 5% or more of our common stock; and (iii) all the officers and directors as a group. Pursuant to the rules and regulations of the SEC, shares of common stock that an individual or group has a right to acquire within 60 days pursuant to the exercise of options or warrants are deemed to be outstanding for the purposes of computing the percentage ownership of such individual or group, but are not deemed to be outstanding for the purposes of computing the percentage ownership of any other person shown in the table.

SEC rules provide that, for purposes hereof, a person is considered the "beneficial owner" of shares with respect to which the person, directly or indirectly, has or shares the voting or investment power, irrespective of his/her/its economic interest in the shares. Unless otherwise noted, each person identified possesses sole voting and investment power over the shares listed, subject to community property laws.

None of the persons identified in the table have any substantial interest, direct or indirect, in the proposed amendment to our Amended and Restated Articles of Incorporation that is different from the interest of any other shareholder.

The percentages in the table below are based on 1,592,747,801 shares of Class A common stock and 1.5 billion shares of Class B common stock outstanding on January 15, 2018. Shares of common stock subject to options and warrants that are exercisable within 60 days of January 15, 2018, are deemed beneficially owned by the person holding such options for the purposes of calculating the percentage of ownership of such person but are not treated as outstanding for the purpose of computing the percentage of any other person.
